#### PROSPECTUS SUPPLEMENT

(To Prospectus dated April 7, 1994)

## \$1,000,000,000 Federal National Mortgage Association

## Guaranteed REMIC Pass-Through Certificates Fannie Mae REMIC Trust 1994-G6

The Guaranteed REMIC Pass-Through Certificates offered hereby (the "Certificates") will represent beneficial ownership interests in one of two trust funds. The Certificates, other than the RL Class, will represent beneficial ownership interests in Fannie Mae REMIC Trust 1994-G6 (the "Trust"). The assets of the Trust will consist of the "regular interests" in a separate trust fund (the "Lower Tier REMIC"). The assets of the Lower Tier REMIC will consist of "fully modified pass-through" mortgage-backed securities ("GNMA Certificates") guaranteed as to timely payment of principal and interest by the Government National Mortgage Association ("GNMA"). Each GNMA Certificate is based on and backed by a pool (the "Pool") of first lien, single-family, fixed-rate residential mortgage loans (the "Mortgage Loans") which are either insured by the Federal Housing Administration ("FHA") or partially guaranteed by the Department of Veterans Affairs ("VA").

Certificates will be issued and guaranteed as to timely distribution of principal and interest by Fannie Mae.

Investors should not purchase the Certificates before reading this Prospectus Supplement and the additional Disclosure Documents listed at the bottom of page S-2.

(Cover continued on next page)

THE CERTIFICATES, TOGETHER WITH ANY INTEREST THEREON, ARE NOT GUARANTEED BY THE UNITED STATES. THE OBLIGATIONS OF FANNIE MAE UNDER ITS GUARANTY OF THE CERTIFICATES ARE OBLIGATIONS SOLELY OF FANNIE MAE AND DO NOT CONSTITUTE AN OBLIGATION OF THE UNITED STATES OR ANY AGENCY OR INSTRUMENTALITY THEREOF OTHER THAN FANNIE MAE. THE CERTIFICATES ARE EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT OF 1933 AND ARE "EXEMPTED SECURITIES" WITHIN THE MEANING OF THE SECURITIES EXCHANGE ACT OF 1934.

THE CERTIFICATES MAY NOT BE SUITABLE INVESTMENTS FOR ALL INVESTORS. NO INVESTOR SHOULD PURCHASE CERTIFICATES UNLESS SUCH INVESTOR UNDERSTANDS AND IS ABLE TO BEAR THE PREPAYMENT, YIELD, LIQUIDITY AND OTHER RISKS ASSOCIATED WITH SUCH CERTIFICATES.

<sup>(1)</sup> Distributions of principal of and interest on the Certificates will be made on the 17th day of each month (or, if such 17th day is not a business day, on the first business day next succeeding such 17th day). See "Description of the Certificates—Class Definitions and Abbreviations" in the GNMA Prospectus and "Description of the Certificates—Distributions of Interest" and "—Distributions of Principal" herein.

The Certificates will be offered by CS First Boston Corporation (the "Dealer"), from time to time in negotiated transactions, at varying prices to be determined at the time of sale.

The Certificates will be offered by the Dealer, subject to issuance by Fannie Mae, to prior sale or to withdrawal or modification of the offer without notice, when, as and if delivered to and accepted by the Dealer. It is expected that the Certificates, except for the R and RL Classes, will be available through the bookentry facilities of The Depository Trust Company on or about May 27, 1994 (the "Settlement Date"). It is expected that the R and RL Classes in registered, certificated form will be available for delivery at the offices of the Dealer, New York, New York, on or about the Settlement Date.

CS First Boston

<sup>(2)</sup> The PK, D and S Classes will be Notional Classes, will have no principal balances and will bear interest on their notional principal balances (initially, \$46,836,775, \$22,136,275 and \$30,798,000, respectively). The notional principal balances of the PK and D Classes will be calculated based on the principal balances of certain PAC Classes and the notional principal balance of the S Class will be calculated based on a Component Class. See "Description of the Certificates—General—Notional Classes" herein.

<sup>(3)</sup> These Classes will bear interest based on "LIBOR" as described under "Description of the Certificates—Distributions of Interest" herein and "Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes" in the GNMA Prospectus.

(Cover continued from previous page)

The yield to investors in each Class will be sensitive in varying degrees to the rate of principal payments of the Mortgage Loans, the characteristics of the Mortgage Loans actually included in the Pool, the purchase price paid for the related Class and, in the case of any Floating Rate and Inverse Floating Rate Classes, the level of the applicable Index (as defined herein). Accordingly, investors should consider the following risks:

- The Mortgage Loans generally may be prepaid at any time without penalty, and, accordingly, the rate of principal payments thereon is likely to vary considerably from time to time.
- Slight variations in Mortgage Loan characteristics could substantially affect the weighted average lives and yields of some or all of the Classes.
- In the case of any Certificates purchased at a discount to their principal amounts, a slower than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Certificates purchased at a premium to their principal amounts, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Interest Only Class, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield and, in certain cases, an actual loss on the investment.
- The yield on any Floating Rate or Inverse Floating Rate Class will be sensitive to the level of the applicable Index, particularly if the interest rate thereon fluctuates as a multiple of such Index.

See "Description of the Certificates—Yield Considerations" herein.

In addition, investors should purchase Certificates only after considering the following:

- The actual final payment of any Class will likely occur earlier, and could occur much earlier, than the Final Distribution Date for such Class specified on the cover page. See "Description of the Certificates—Weighted Average Lives of the Certificates" herein and "Description of the Certificates—Weighted Average Life and Final Distribution Dates" in the GNMA Prospectus.
- The rate of principal distributions of the Certificates is uncertain and investors may be unable to reinvest the distributions thereon at yields equaling the yields on the Certificates. See "Description of the Certificates—Reinvestment Risk" in the GNMA Prospectus.
- Investors whose investment activities are subject to legal investment laws and regulations or to review by regulatory authorities may be subject to restrictions on investment in certain Classes of the Certificates. Investors should consult their legal advisors to determine whether and to what extent the Certificates constitute legal investments or are subject to restrictions on investment. See "Legal Investment Considerations" in the GNMA Prospectus.

The Dealer intends to make a market for the Certificates but is not obligated to do so. There can be no assurance that such a secondary market will develop or, if developed, that it will continue. Thus, investors may not be able to sell their Certificates readily or at prices that will enable them to realize their anticipated yield. No investor should purchase Certificates unless such investor understands and is able to bear the risk that the value of the Certificates will fluctuate over time and that the Certificates may not be readily salable.

These securities have not been approved or disapproved by the Securities and Exchange Commission or any state securities commission nor has the Securities and Exchange Commission or any state securities commission passed upon the accuracy or adequacy of this Prospectus Supplement or the GNMA Prospectus. Any representation to the contrary is a criminal offense.

Elections will be made to treat the Lower Tier REMIC and the Trust as "real estate mortgage investment conduits" ("REMICs") pursuant to the Internal Revenue Code of 1986, as amended (the "Code"). The R and RL Classes will be subject to transfer restrictions. See "Description of the Certificates—Characteristics of the R and RL Classes" and "Certain Additional Federal Income Tax Consequences" herein, and "Description of the Certificates—Additional Characteristics of Residual Certificates" and "Certain Federal Income Tax Consequences" in the GNMA Prospectus.

Investors should purchase the Certificates only if they have read and understood this Prospectus Supplement and the following documents (collectively, the "Disclosure Documents"):

- Fannie Mae's Prospectus for Guaranteed REMIC Pass-Through Certificates dated April 7, 1994 (the "GNMA Prospectus") which is attached to this Prospectus Supplement; and
- Fannie Mae's Information Statement dated March 31, 1994 and any supplements thereto (collectively, the "Information Statement").

The Information Statement is incorporated herein by reference and may be obtained from Fannie Mae by writing or calling its MBS Helpline at 3900 Wisconsin Avenue, N.W., Area 2H-3S, Washington, D.C. 20016 (telephone 1-800-BEST-MBS or 202-752-6547). Such documents may also be obtained from CS First Boston Corporation by writing or calling its Prospectus Department at 55 East 52nd Street, New York, New York 10055 (telephone 212-909-2000).

#### REFERENCE SHEET

This reference sheet is not a summary of the REMIC transaction and it does not contain complete information about the Certificates. Investors should purchase the Certificates only after reading this Prospectus Supplement and each of the additional Disclosure Documents described herein.

#### Assumed Mortgage Loan Characteristics (as of May 1, 1994)

Approximate Principal Balance	Weighted Average Remaining Term to Maturity (in months)	Weighted Average Loan Age (in months)	Approximate Weighted Average Coupon
\$750,000,000	344	16	8.50%
\$250,000,000	358	2	8.50

The actual remaining terms to maturity, loan ages and interest rates of most of the Mortgage Loans will differ from the weighted averages shown above, perhaps significantly. See "Description of the Certificates—Structuring Assumptions" herein.

#### **Interest Rates**

The Fixed Rate Certificates will bear interest at the respective per annum interest rates set forth on the cover.

The Floating and Inverse Floating Rate Certificates will bear interest during their initial Interest Accrual Period at the Initial Interest Rate set forth below, and will bear interest during each Interest Accrual Period thereafter, subject to the applicable Maximum and Minimum Interest Rates, at the rate determined as described below.

Class	Initial	Maximum	Minimum	Formula for
	Interest	Interest	Interest	Calculation of
	Rate	Rate	Rate	Interest Rate
F S	$4.4625\% \\ 5.0375\%$	$9.50\% \\ 9.10\%$	$0.40\% \\ 0.00\%$	LIBOR + 40 basis points 9.10% - LIBOR

See "Description of the Certificates—Distributions of Interest—Interest Accrual Periods" and "—Floating Rate and Inverse Floating Rate Classes" herein.

#### **Component Classes**

	Original Principal Balance	Interest Rate	Principal Type
F1 Component	\$20,766,000	FLT	PAC II/AD
	10,032,000	FLT	TAC/AD
R1 Component	1,790,000	8.00%	PAC I
	100,000	8.00%	STRIP

See "Description of the Certificates—General—Components" herein.

#### **Notional Classes**

The PK, D and S Classes will be Notional Classes and will have no principal balances. See "Description of the Certificates—General—Notional Classes" herein.

#### **Distributions of Principal**

Accrual Amount from BZ Class

To the VA, VB, VC and BZ Classes as described herein under "Description of the Certificates—Distributions of Principal."

Accrual Amount from Z Class

To the A, C and Z Classes and the F1 and F2 Components as described herein under "Description of the Certificates—Distributions of Principal."

Cash Flow Distribution Amount

- 1. To the R2 Component in the amount described herein under "Description of Certificates—Distributions of Principal."
- 2. To the PAC I Classes and Component to their respective Planned Balances as described herein under "Description of the Certificates—Distributions of Principal."
- 3. To the PAC II Classes and Component to their respective Planned Balances as described herein under "Description of the Certificates—Distributions of Principal".
- 4. To the TAC Class and Component to their respective Targeted Balances as described herein under "Description of the Certificates—Distributions of Principal."
- 5. To the Support Class until the principal balance thereof is reduced to zero.
- 6. To the TAC Class and Component until the principal balances thereof are reduced to zero as described herein under "Description of the Certificates—Distributions of Principal."
- 7. To the PAC II and Accretion Directed Classes and Component until the principal balances thereof are reduced to zero as described herein under "Description of the Certificates—Distributions of Principal."
- 8. To the PAC I Classes and Component until the principal balances thereof are reduced to zero as described herein under "Description of the Certificates—Distributions of Principal."

#### DESCRIPTION OF THE CERTIFICATES

The following summaries describing certain provisions of the Certificates do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the remaining provisions of this Prospectus Supplement, the additional Disclosure Documents and the provisions of the Trust Agreement (defined below). Capitalized terms used and not otherwise defined in this Prospectus Supplement have the meanings assigned to such terms in the applicable Disclosure Document or the Trust Agreement (as the context may require).

#### General

Structure. The Trust and the Lower Tier REMIC will be created pursuant to a trust agreement dated as of May 1, 1994 (the "Trust Agreement"), executed by the Federal National Mortgage Association ("Fannie Mae") in its corporate capacity and in its capacity as Trustee, and the Certificates in the Classes and aggregate original principal balances set forth on the cover hereof will be issued by Fannie Mae pursuant thereto. A description of Fannie Mae and its business, together with certain financial statements and other financial information, is contained in the Information Statement.

The Certificates (other than the R and RL Classes) will be designated as the "regular interests," and the R Class will be designated as the "residual interest," in the REMIC constituted by the Trust. The interests in the Lower Tier REMIC other than the RL Class (the "Lower Tier Regular Interests") will be designated as the "regular interests," and the RL Class will be designated as the "residual interest," in the Lower Tier REMIC.

The assets of the Trust will consist of the Lower Tier Regular Interests, and the Certificates, other than the RL Class, will evidence the entire beneficial ownership interest in the distributions of principal and interest on the Lower Tier Regular Interests.

The assets of the Lower Tier REMIC will consist of the GNMA Certificates, and the Lower Tier Regular Interests and the RL Class (collectively, the "Lower Tier Interests") will in the aggregate evidence the entire beneficial ownership interest in the distributions of principal and interest on the GNMA Certificates.

Fannie Mae Guaranty. Pursuant to its guaranty of the Certificates, Fannie Mae will be obligated to distribute on a timely basis to the Holders of Certificates required installments of principal and interest and to distribute the principal balance of each Class of Certificates in full no later than the applicable Final Distribution Date, whether or not sufficient funds are available in the Collateral Account. The guaranty of Fannie Mae is not backed by the full faith and credit of the United States. See "Description of the Certificates—Fannie Mae's Guaranty" in the GNMA Prospectus.

Characteristics of Certificates. The Certificates, other than the R and RL Certificates, will be represented by one or more certificates to be registered at all times in the name of the nominee of the Depository (as defined herein), which Depository will maintain such Certificates through its bookentry facilities. When used herein with respect to a book-entry Certificate, the terms "Holders" and "Certificateholders" refer to the nominee of the Depository. A Holder is not necessarily the beneficial owner of a book-entry Certificate. Beneficial owners will ordinarily hold book-entry Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations.

The R and RL Certificates will not be issued in book-entry form but will be issued in fully registered, certificated form. As to any R or RL Certificate, "Holder" or "Certificateholder" refers to the registered owner thereof. The R and RL Certificates will be transferable and, if applicable, exchangeable at the corporate trust office of the Transfer Agent, or at the agency of the Transfer Agent in New York, New York. The Transfer Agent initially will be State Street Bank and Trust Company in Boston, Massachusetts ("State Street"). A service charge may be imposed for any registration of transfer or, if applicable, exchange of any R or RL Certificate and Fannie Mae may

require payment of a sum sufficient to cover any tax or other governmental charge. See also "Characteristics of the R and RL Classes" herein.

Distributions on the R and RL Classes will be made by check mailed by the Paying Agent to the address of each person entitled thereto as it appears on the Certificate Register maintained by the Certificate Registrar (initially, State Street) not later than each Distribution Date; provided, however, that the distribution to the Holders of the R and RL Certificates of the proceeds of any remaining assets of the Trust or the Lower Tier REMIC, as applicable, will be made only upon presentation and surrender of the related Certificate at the office of the Paying Agent. The Paying Agent initially will be State Street.

Notional Classes. The PK, D and S Classes will be Notional Classes. A Notional Class will have no principal balance and will bear interest at the per annum interest rate set forth on the cover or described herein during each Interest Accrual Period on the related notional principal balance. The notional principal balance of each Notional Class will be equal to the indicated percentages of the outstanding principal balances of the following Classes immediately prior to the related Distribution Date:

Class	Percentage of Principal Balance of Specified Class
PK	20.625% of PA Class 19.375% of PT Class 16.875% of PB Class 9.375% of PL Class 8.125% of PC Class 8.125% of PU Class 4.375% of PD Class 6.250% of PM Class 4.375% of PV Class 2.500% of PE Class 4.375% of PN Class
D	1.875% of PG Class 1.875% of PW Class 4.375% of PU Class
	8.125% of PV Class 6.875% of PE Class 4.375% of PW Class 3.125% of PX Class 3.125% of PY Class
S	100% of F Class

The notional principal balance of a Notional Class is used for purposes of the determination of interest distributions thereon and does not represent an interest in the principal distributions of the GNMA Certificates or the underlying Mortgage Loans. Although a Notional Class will not have a principal balance, a REMIC Trust Factor (as described herein) will be published with respect to any such Class that will be applicable to the notional principal balance thereof, and references herein to the principal balances of the Certificates generally shall be deemed to refer also to the notional principal balance of any Notional Class.

Components. For purposes of calculating payments of principal, the F and R Classes are comprised of multiple payment components having the designations and original principal balances set forth below:

Designation	Original Principal Balance
F1 Component	\$20,766,000 10,032,000
R1 Component	1,790,000 100,000

Components are not separately transferable from the related Class of Certificates.

Authorized Denominations. The Certificates, other than the R and RL Certificates, will be issued in minimum denominations of \$1,000 and integral multiples of \$1 in excess thereof. The R and RL Certificates will be issued in minimum denominations of \$1,000 and integral multiples of \$100 in excess thereof.

Distribution Dates. Distributions on the Certificates will be made on the 17th day of each month (or, if such 17th day is not a business day, on the first business day next succeeding such 17th day), commencing in the month following the Settlement Date.

Calculation of Distributions. Interest on the interest-bearing Certificates is calculated on the basis of a 360-day year consisting of twelve 30-day months and is distributable monthly on each Distribution Date, commencing (except with respect to the Accrual Classes, if any) in the month after the Settlement Date. Interest to be distributed or, in the case of any Accrual Classes, added to principal on each interest-bearing Certificate on a Distribution Date will consist of one month's interest on the outstanding principal balance of such Certificate immediately prior to such Distribution Date. Interest to be distributed or, in the case of any Accrual Classes, added to principal on a Distribution Date will accrue on the interest-bearing Certificates during the one month periods set forth herein under "Distributions of Interest—Interest Accrual Periods." Principal on the Certificates will be distributed on each Distribution Date in an amount equal to the sum of (i) the aggregate distributions of principal of the GNMA Certificates, calculated as provided herein, for the month of such Distribution Date, and the distributions of principal of the GNMA Certificates received during the month prior to the month of such Distribution Date to the extent not distributed previously and (ii) any interest accrued and added on such Distribution Date to the principal balances of the Accrual Classes, if any. See "Distributions of Principal" herein.

*Record Date.* Each monthly distribution on the Certificates will be made to Holders of record on the last day of the preceding month.

REMIC Trust Factors. As soon as practicable following the eleventh calendar day of each month, Fannie Mae will publish or otherwise make available for each Class of Certificates the factor (carried to eight decimal places) which, when multiplied by the original principal balance of a Certificate of such Class, will equal the remaining principal balance of such Certificate after giving effect to the distribution of principal to be made on the following Distribution Date and any interest to be added as principal to the principal balances of any Accrual Classes on such Distribution Date.

#### The GNMA Certificates

The GNMA Certificates underlying the Certificates will have the aggregate unpaid principal balance and Pass-Through Rate set forth below and the general characteristics described in the GNMA Prospectus. The entire principal balance of the GNMA Certificates will be GNMA I Certificates. See "GNMA and the GNMA Programs" in the GNMA Prospectus. The characteristics

of the GNMA Certificates and Mortgage Loans as of May 1, 1994 (the "Issue Date") are expected to be as follows:

Aggregate Unpaid Principal Balance	\$1,000,000,000
GNMA Pass-Through Rate	8.00%
Range of WARMs	180 months to 360 months
Approximate Weighted Average WARM	347 months
Approximate Weighted Average WALA	13 months

"WARM" is the weighted average remaining maturity (in months) of the Mortgage Loans in each Pool underlying the Certificates.

"WALA" is the weighted average loan age (in months) of the Mortgage Loans in each Pool underlying the Certificates.

Following the issuance of the Certificates, Fannie Mae will prepare a Final Data Statement setting forth for each GNMA Certificate, among other things, the Pool number, the original unpaid principal balance, the unpaid principal balance as of the Issue Date, and the remaining term to maturity of the latest maturing Mortgage Loan underlying such GNMA Certificate as of the Issue Date. The Final Data Statement will not accompany this Prospectus Supplement but will be made available by Fannie Mae. To request the Final Data Statement, telephone Fannie Mae at 1-800-BEST-MBS or 202-752-6547. The contents of the Final Data Statement and other data specific to the Certificates are available in electronic form by calling Fannie Mae at 1-800-752-6440 or 202-752-6000.

#### **Book-Entry Procedures**

General

The Certificates, other than the R and RL Certificates, will be represented by one or more certificates to be registered at all times in the name of the nominee of The Depository Trust Company, a New York-chartered limited purpose trust company, or any successor depository selected or approved by Fannie Mae (the "Depository). In accordance with its normal procedures, the Depository will record the positions held by each Depository participating firm (each, a "Depository Participant") in the book-entry Certificates, whether held for its own account or as a nominee for another person. State Street will act as paying agent for, and perform certain administrative functions with respect to, the book-entry Certificates.

No person acquiring a beneficial ownership interest in the book-entry Certificates (a "beneficial owner" or an "investor") will be entitled to receive a physical certificate representing such ownership interest. An investor's interest in the book-entry Certificates will be recorded on the records of the brokerage firm, bank, thrift institution or other financial intermediary (a "financial intermediary") that maintains such investor's account for such purpose. In turn, the financial intermediary's record ownership of such interest will be recorded on the records of the Depository (or of a Depository Participant that acts as agent for the financial intermediary if such intermediary is not a Depository Participant). Accordingly, an investor will not be recognized by the Trustee or the Depository as a Certificateholder and must rely on the foregoing arrangements to evidence its interest in the book-entry Certificates. Beneficial ownership of an investor's interest in the book-entry Certificates may be transferred only by compliance with the procedures of an investor's financial intermediary and of Depository Participants. In general, beneficial ownership of an investor's interest in the book-entry Certificates will be subject to the rules, regulations and procedures governing the Depository and Depository Participants as in effect from time to time.

#### Method of Distribution

Each distribution on the book-entry Certificates will be distributed by the Paying Agent to the Depository in immediately available funds. The Depository will be responsible for crediting the amount of such distributions to the accounts of the Depository Participants entitled thereto, in accordance with the Depository's normal procedures, which currently provide for distributions in next-day funds settled through the New York Clearing House. Each Depository Participant and each financial intermediary will be responsible for disbursing such distributions to the beneficial owners of the book-entry Certificates that it represents.

#### **Distributions of Interest**

Categories of Classes

For the purpose of payments of interest, the Classes will be categorized as follows:

Interest Type*	Classes
Fixed Rate	All Classes except F and S
Floating Rate	$\mathbf{F}$
Inverse Floating Rate	$\mathbf{S}$
Interest Only	PK, D and S
Accrual	BZ and Z

<sup>\*</sup> See "Description of the Certificates—Class Definitions and Abbreviations" in the GNMA Prospectus.

General. The interest-bearing Certificates will bear interest at the respective per annum interest rates set forth on the cover or described herein. Interest on the interest-bearing Certificates is calculated on the basis of a 360-day year consisting of twelve 30-day months and is distributable monthly on each Distribution Date, commencing (except with respect to any Accrual Classes) in the month after the Settlement Date. Interest to be distributed or, in the case of any Accrual Classes, added to principal on each interest-bearing Certificate on a Distribution Date will consist of one month's interest on the outstanding principal balance of such Certificate immediately prior to such Distribution Date.

Interest Accrual Periods. Interest to be distributed or added to principal on a Distribution Date will accrue on the interest-bearing Certificates during the one-month periods set forth below (each, an "Interest Accrual Period").

Classes	Interest Accrual Period
F and S (collectively, the "No Delay Classes")	One month period beginning on the 17th day of the month preceding the month of the Distribution Date and ending on the 16th day of the month of the Distribution Date
All other interest-bearing Classes (collectively, the "Delay Classes")	Calendar month preceding the month in which the Distribution Date occurs

See "Yield Considerations" herein.

Accrual Classes. The BZ and Z Classes are Accrual Classes. Interest will accrue on the Accrual Classes at the respective per annum rates set forth on the cover hereof. However, such interest will not be distributed (i) in the case of the BZ Class, until the Distribution Date following the Distribution Date on which the principal balances of the BA and VC Classes have been reduced to zero and (ii) in the case of the Z Class, for so long as such Class is outstanding. Interest so accrued and unpaid on the Accrual Classes will be added as principal to the principal balances thereof on each Distribution Date. Distributions of principal of the Accrual Classes will be distributed as described herein

Floating Rate and Inverse Floating Rate Classes. Each of the following Classes will bear interest during its initial Interest Accrual Period at the Initial Interest Rate set forth below, and will bear

interest during each Interest Accrual Period thereafter, subject to the applicable Maximum and Minimum Interest Rates, at the rate determined as described below:

Class	Initial Interest Rate	Maximum Interest Rate	Minimum Interest Rate	Formula for Calculation of Interest Rate
F	4.4625%	9.50%	0.40%	LIBOR + 40 basis points
S	5.0375%	9.10%	0.00%	9.10% - LIBOR

The yields with respect to such Classes will be affected by changes in the applicable index as set forth in the table above (the "Index"), which changes may not correlate with changes in mortgage interest rates. It is possible that lower mortgage interest rates could occur concurrently with an increase in the level of the Index. Conversely, higher mortgage interest rates could occur concurrently with a decrease in the level of the Index.

The Index value will be established as described herein by Fannie Mae two business days prior to the commencement of the related Interest Accrual Period. The establishment of the Index value by Fannie Mae and Fannie Mae's determination of the rate of interest for the applicable Classes for the related Interest Accrual Period shall (in the absence of manifest error) be final and binding. Each such rate of interest may be obtained by telephoning Fannie Mae at 1-800-BEST-MBS or 202-752-6547.

#### Calculation of LIBOR

On each LIBOR Determination Date, until the principal balances of the F and S Classes (the "LIBOR Classes") have been reduced to zero, Fannie Mae will establish LIBOR for the related Interest Accrual Period in the manner described in the GNMA Prospectus under "Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes—*LIBOR*."

If on the initial LIBOR Determination Date, Fannie Mae is unable to determine LIBOR in the manner specified in the GNMA Prospectus, LIBOR for the next succeeding Interest Accrual Period will be 4.0625%.

#### **Distributions of Principal**

Categories of Classes and Components

For the purpose of payments of principal, the Classes and Components will be categorized as follows:

Principal Type*	Classes and Components
PAC I	PA, PT, PB, PL, PC, PD, PM, PE, PN, PG, PH, PJ, PU, PV, PW, PX, PY, R1 and RL
PAC II	A, B, BA, BZ and F1
TAC	C and F2
Notional	PK, D and S
Accretion Directed	A, VA, VB, VC, C, F1 and F2
Support	Z
Strip	R2
Component	F and R

<sup>\*</sup> See "Description of the Certificates—Class Definitions and Abbreviations" in the GNMA Prospectus.

#### Principal Distribution Amount

On or about the fifth business day of each month, Fannie Mae will aggregate the amount of principal reported to be receivable on the GNMA Certificates during such month on the basis of

published GNMA factors for such month. For any GNMA Certificate for which a factor is not available at such time, Fannie Mae will calculate the amount of scheduled payments of principal distributable in respect of such GNMA Certificates during such month on the basis of the assumed amortization schedules of the underlying Mortgage Loans. The amortization schedules will be prepared on the assumptions that: (i) each of the Mortgage Loans underlying a single GNMA Certificate amortizes on a level installment basis, had an original term to maturity of 360 months and has a remaining term to maturity equal to the remaining term to maturity of the latest maturing Mortgage Loan underlying such GNMA Certificate at the origination of such GNMA Certificate, adjusted to the Issue Date; and (ii) each Mortgage Loan underlying a GNMA Certificate bears an interest rate of 8.50% per annum. All such amounts, whether reported in GNMA factors or calculated by Fannie Mae, will be reflected in the REMIC Trust Factors for the Distribution Date in such month and will be distributed to Holders of Certificates on such Distribution Date, whether or not received. There will also be reflected in such REMIC Trust Factors and distributable as principal on such Distribution Date the excess of (a) the distributions of principal of the GNMA Certificates received during the month prior to the month of such Distribution Date over (b) the amounts of principal calculated as distributable previously in accordance with the GNMA factors and the assumed amortization schedules specified above.

Principal will be distributed monthly on the Certificates in an amount (the "Principal Distribution Amount") equal to the sum of (i) the aggregate distributions of principal of the GNMA Certificates, calculated as described above, for the month of such Distribution Date and the distributions of principal of the GNMA Certificates received during the month prior to the month of such Distribution Date to the extent not previously distributed (the "Cash Flow Distribution Amount") and (ii) any interest accrued and added on such Distribution Date to the principal balance of an Accrual Class (the "Accrual Amount").

#### Accrual Amount from BZ Class

On each Distribution Date, the interest, if any, accrued and added to the principal balance of the BZ Class will be distributed, sequentially, as principal of the VA, VB and VC Classes, in that order, until the respective balances thereof are reduced to zero, and thereafter to the BZ Class without regard to its Planned Balance.

#### Accrual Amount from Z Class

On each Distribution Date, the interest, if any, accrued and added to the principal balance of the Z Class will be distributed as principal of the Classes and Components specified below in the following order of priority:

- (i) concurrently, to the A and C Classes and the F1 and F2 Components, in the proportions of 54%, 21%, 18% and 7%, respectively, until the principal balances of the A Class and F1 Component are reduced to their respective Planned Balances for such Distribution Date;
- Accretion Directed and Accrual Classes and Components
- (ii) concurrently, to the A Class and the F1 Component, in proportion to their original principal balances (or 75% and 25%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;
- (iii) concurrently, to the C Class and the F2 Component, in proportion to their original principal balances (or 75% and 25%, respectively), until the principal balances thereof are reduced to their respective Targeted Balances for such Distribution Date; and
  - (iv) to the Z Class.

Cash Flow Distribution Amount

On each Distribution Date, the Cash Flow Distribution Amount will be distributed as principal of the Classes and Components specified below in the following order of priority:

(a) On each Distribution Date, the R2 Component will receive 0.01% of the Cash Flow Distribution Amount, which percentage is equal to the proportion that the original principal balance of the R2 Component bears to the aggregate original principal balance of the Certificates.

Strip Component

- (b) On each Distribution Date, 5% of the excess of the Cash Flow Distribution Amount over the amount applied pursuant to paragraph (a) above will be distributed, concurrently, as principal to the R1 Component and the RL Class, in proportion to their original principal balances (or 99.4444444444% and 0.55555555556%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date.
- (c) On each Distribution Date, the excess of the Cash Flow Distribution Amount over the amount applied pursuant to paragraphs (a) and (b) above will be distributed as principal of the Classes and Components specified below in the following order of priority:
  - (i) concurrently, to the PA and PT Classes, in proportion to their original principal balances (or 50% and 50%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;
  - (ii) sequentially, to the PB and PL Classes, in that order, until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;
  - (iii) concurrently, to the PC and PU Classes, in proportion to their original principal balances (or 6.8080934615% and 93.1919065385%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;

PAC I Classes and Component

- (iv) concurrently, to the PD, PM and PV Classes, in proportion to their original principal balances (or 4.5216133116%, 3.0144088744% and 92.4639778140%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;
- (v) concurrently, to the PE and PN Classes, in proportion to their original principal balances (or 99.1963482062% and 0.8036517938%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;
- (vi) concurrently, to the PG and PW Classes, in proportion to their original principal balances (or 2.4215420380% and 97.5784579620%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;
- (vii) concurrently, to the PH and PX Classes, in proportion to their original principal balances (or 9.8714911336% and 90.1285088664%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;
- (viii) concurrently, to the PJ and PY Classes, in proportion to their original principal balances (or 37.3615922831% and 62.6384077169%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;

(ix) concurrently, to the A Class and the F1 Component in proportion to their original principal balances (or 75% and 25%, respectively), until the principal balances thereof are reduced to their Planned Balances for such Distribution Date;

PAC II Classes and Component

- (x) sequentially, to the B, BA and BZ Classes, in that order, until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;
- (xi) concurrently, to the C Class and the F2 Component, in proportion to their original principal balances (or 75% and 25%, respectively), until the principal balances thereof are reduced to their respective Targeted Balances for such Distribution Date;

TAC Class and Component

(xii) to the Z Class, until the principal balance thereof is reduced to zero;

Support Class

(xiii) concurrently, to the C Class and the F2 Component, in the proportions set forth in clause (xi) above, without regard to their Targeted Balances and until the principal balances thereof are reduced to zero;

TAC Class and Component

- (xiv) concurrently, to the A Class and F1 Component, in the proportions set forth in clause (ix) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;
- (xv) sequentially, to the B and BA Classes, in that order, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;

PAC II and Accretion Directed Classes and Component

- (xvi) sequentially, to the VA, VB and VC Classes, in that order, until the respective principal balances thereof are reduced to zero; and
- (xvii) to the BZ Class, without regard to its Planned Balance and until the principal balance thereof is reduced to zero.

- (d) On each Distribution Date, 5% of the excess of the Cash Flow Distribution Amount over the amount applied pursuant to paragraphs (a) through (c) above will be distributed, concurrently, as principal to the R1 Component and the RL Class, in the proportions set forth in paragraph (b) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero.
- (e) On each Distribution Date, the excess of the Cash Flow Distribution Amount over the amount applied pursuant to paragraphs (a) through (d) above will be distributed as principal of the Classes specified below in the following order of priority:
  - (i) concurrently, to the PA and PT Classes, in the proportions set forth in clause (i) of paragraph (c) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;
  - (ii) sequentially, to the PB and PL Classes, in that order, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;
  - (iii) concurrently, to the PC and PU Classes, in the proportions set forth in clause (iii) of paragraph (c) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;

PAC I Classes and Component

- (iv) concurrently, to the PD, PM and PV Classes, in the proportions set forth in clause (iv) of paragraph (c) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;
- (v) concurrently, to the PE and PN Classes, in the proportions set forth in clause (v) of paragraph (c) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;
- (vi) concurrently, to the PG and PW Classes, in the proportions set forth in clause (vi) of paragraph (c) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;
- (vii) concurrently, to the PH and PX Classes, in the proportions set forth in clause (vii) of paragraph (c) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero; and
- (viii) concurrently, to the PJ and PY Classes, in the proportions set forth in clause (viii) of paragraph (c) above, without regard to their Planned Balances and until the principal balances thereof are reduced to zero.

#### **Structuring Assumptions**

*Pricing Assumptions*. Unless otherwise specified, the information in the tables in this Prospectus Supplement has been prepared on the basis of the following assumptions (the "Pricing Assumptions"):

- all payments (including prepayments) on the Mortgage Loans underlying the GNMA Certificates are distributed on the Certificates in the month in which such payments are received;
- each Mortgage Loan bears interest at a rate of 8.50% per annum and has an original term to maturity of 360 months, and the following principal amounts of the Mortgage Loans have the WARMs and WALAs, respectively, specified below:

\$750,000,000	344 months	16 months
\$250,000,000	358 months	2 months

- the Mortgage Loans prepay at the constant percentages of PSA specified in the related table:
- the closing date for the sale of the Certificates is the Settlement Date; and
- the first Distribution Date for the Certificates occurs in the month following the Settlement Date.

PSA Assumptions. Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used in this Prospectus Supplement is the Public Securities Association's standard prepayment model ("PSA"). To assume a specified rate of PSA (for example, 150% PSA) is to assume a specified rate of prepayment each month of the then outstanding principal balance of a pool of new mortgage loans computed as described under "Description of the Certificates—Prepayment Considerations and Risks" in the GNMA Prospectus. There is no assurance that prepayments will occur at any PSA rate or at any other constant rate.

The Principal Balance Schedules have been prepared on the basis of the Pricing Assumptions and the assumption that the Mortgage Loans prepay at the approximate constant levels set forth in the following table.

Principal Balance Schedule References	Related Classes and Components	PSA Levels				
Planned Balances	PAC I	Between 90% and 280%				
Planned Balances	PAC II	Between 120% and 200%				
Targeted Balances	C and F2	150%				

There is no assurance that the principal balances of the Classes or Components listed above will conform on any Distribution Date to the applicable balances specified for such Distribution Date in the Principal Balance Schedules below, or that distributions of principal on the related Classes or Components will begin or end on the respective Distribution Dates specified therein. Because any excess of the principal available for distribution on any Distribution Date over the amount necessary to reduce the principal balances of the applicable Classes or Components to their respective scheduled balances will be distributed, the ability to so reduce the principal balances of such Classes or Components will not be enhanced by the averaging of high and low principal payments. In addition, even if prepayments remain within the ranges specified above, the principal available for distribution may be insufficient to reduce the applicable Classes or Components to such respective balances, if prepayments do not occur at a constant PSA rate. Moreover, because of the diverse remaining terms to maturity of the Mortgage Loans (which may include recently originated Mortgage Loans), the Classes or Components specified above may not be reduced to their respective scheduled amounts, even if prepayments occur at a constant level within the ranges or at the rate specified above.

### Principal Balance Schedules

Distribution Date	PA Class Planned Balance	PT Class Planned Balance	PB Class Planned Balance	PL Class Planned Balance	PC Class Planned Balance	PU Class Planned Balance	PD Class Planned Balance	PM Class Planned Balance	PV Class Planned Balance
Initial Balance	\$41,998,000.00	\$41,998,000.00	\$79,428,000.00	\$32,518,000.00	\$5,000,000.00	\$68,442,000.00	\$3,000,000.00	\$2,000,000.00	\$61,348,000.00
June 1994	40,706,639.55	40,706,639.55	79,428,000.00	32,518,000.00	5,000,000.00	68,442,000.00	3,000,000.00	2,000,000.00	61,348,000.00

#### Characteristics of the R and RL Classes

In addition to distributions of principal and interest, the Holders of the R Class will be entitled to receive the proceeds of the remaining assets of the Trust, if any, after the principal balances of all Classes (other than the RL Class) have been reduced to zero, and the Holders of the RL Class will be entitled to receive the proceeds of the remaining assets of the Lower Tier REMIC, if any, after the principal balances of the Lower Tier Interests have been reduced to zero. It is not anticipated that there will be any material assets remaining in either such circumstance.

The R Class and the RL Class will be subject to certain transfer restrictions. No transfer of record or beneficial ownership of an R or RL Certificate will be allowed to a "disqualified organization." In addition, no transfer of record or beneficial ownership of an R or RL Certificate will be allowed to any person that is not a "U.S. Person" without the written consent of Fannie Mae. Under regulations issued by the Treasury Department on December 23, 1992 (the "Regulations"), a transfer of a "noneconomic residual interest" to a U.S. Person will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R Class and the RL Class may constitute noneconomic residual interests under the Regulations. Any transferee of an R or RL Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 on which the transferee provides its taxpayer identification number. See "Description of the Certificates—Additional Characteristics of Residual Certificates" and "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the GNMA Prospectus. Transferors of an R or RL Certificate should consult with their own tax advisors for further information regarding such transfers.

The Holders of the R Class will be considered to be the holders of the "residual interest" in the REMIC constituted by the Trust, and the Holders of the RL Class will be considered to be the holders of the "residual interest" in the REMIC constituted by the Lower Tier REMIC. See "Certain Federal Income Tax Consequences" in the GNMA Prospectus. Pursuant to the Trust Agreement, Fannie Mae will be obligated to provide to such Holders (i) such information as is necessary to enable them to prepare their federal income tax returns and (ii) any reports regarding the Certificates that may be required under the Code.

#### **Yield Considerations**

General. There can be no assurance that the Mortgage Loans will have the characteristics assumed herein or will prepay at any of the rates assumed herein or at any other particular rate, that the pre-tax yields on the Certificates will correspond to any of the pre-tax yields shown herein or that the aggregate purchase prices of the Certificates will be as assumed. In addition, there can be no assurance that the applicable Index will correspond to the levels shown herein. Because the rate of principal distributions on the Certificates will be related to the amortization of the Mortgage Loans in each Pool, which are likely to include Mortgage Loans that have remaining terms to maturity shorter or longer than those assumed and interest rates higher than those assumed, the principal distributions on the Certificates are likely to differ from those assumed, even if all Mortgage Loans prepay at the indicated constant percentages of PSA. The rate of distribution of principal of the Certificates will also be affected by the distribution of a portion of the principal payments (including prepayments) on the Mortgage Loans underlying the GNMA Certificates in the month following the month in which they are received. In addition, it is not likely that the Mortgage Loans will prepay at a constant PSA rate until maturity, that all of such Mortgage Loans will prepay at the same rate or that the level of the applicable Index will remain constant.

The timing of changes in the rate of prepayments or the level of the applicable Index may significantly affect the actual yield to maturity to investors, even if the average rate of principal prepayments or the average level of such Index is consistent with the expectations of investors. In general, the earlier the payment of principal of the Mortgage Loans or change in the level of an Index, the greater the effect on an investor's yield to maturity. As a result, the effect on an investor's yield of

principal prepayments or the level of an Index occurring at a rate or level higher (or lower) than the rate or level anticipated by the investor during the period immediately following the issuance of the Certificates will not be offset by a subsequent like reduction (or increase) in the rate of principal prepayments or level of such Index.

The effective yield on the Delay Classes will be reduced below the yield otherwise produced because principal and interest payable on a Distribution Date will not be distributed until the 17th day following the end of the related Interest Accrual Period and will not bear interest during such delay. No interest at all will be paid on any Class after its principal balance has been reduced to zero. As a result of the foregoing, the market value of the Delay Classes will be lower than would have been the case if there were no such delay. Investors must make their own decisions as to the appropriate assumptions, including prepayment assumptions, to be used in deciding whether to purchase the Certificates.

The tables below indicate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of certain Classes to various constant percentages of PSA and, where specified, to changes in an Index. The yields set forth in the tables were calculated by determining the monthly discount rates that, when applied to the assumed streams of cash flows to be paid on the applicable Classes, would cause the discounted present value of such assumed streams of cash flows to equal the assumed aggregate purchase prices of such Classes and converting such monthly rates to corporate bond equivalent rates. Such calculations do not take into account variations that may occur in the interest rates at which investors may be able to reinvest funds received by them as distributions on the Certificates and consequently do not purport to reflect the return on any investment in the Certificates when such reinvestment rates are considered.

The Interest Only Classes. As indicated in the table below, the yields to investors in the PK and D Classes will be sensitive to the rate of principal payments (including prepayments) of the Mortgage Loans, which generally can be prepaid at any time. On the basis of the assumptions described below, the yield to maturity on the PK and D Classes would be 0% if prepayments were to occur at a constant rate of approximately 446% PSA and 464% PSA, respectively. If the actual prepayment rate of the Mortgage Loans were to exceed either of the foregoing levels for as little as one month while equaling such level for the remaining months, the investors in the related Class would not fully recoup their initial investments.

The information set forth in the following table was prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the PK and D Classes (expressed as percentages of their original principal balances) are as follows:

Class	Price*
PK	19.750000%
D	41.734375%

The prices do not include accrued interest. Accrued interest has been added to such prices in calculating the yields set forth in the table below.

# Sensitivity of the PK and D Classes to Prepayments (Pre-Tax Yields to Maturity)

	PSA Prepayment Assumption						
Class	<b>50</b> %	90%	150%	$\underline{280\%}$	$\underline{500\%}$		
PK	21.9%	9.5%	9.5%	9.5%	(4.7)%		
D	15.7%	11.0%	11.0%	11.0%	(2.5)%		

The Inverse Floating Rate Class. The yields to investors in the S Class will be sensitive in varying degrees to the level of the Index and to the rate of principal payments (including prepayments) of the Mortgage Loans, which generally can be prepaid at any time. As indicated in the table below, a high level of the Index will have a negative effect on the yields to investors in the S Class. It is possible that, under certain Index or prepayment scenarios, investors in the S Class would not fully recoup their initial investments.

Changes in the Index may not correlate with changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur concurrently with an increased level of such Index.

The information set forth in the following table was prepared on the basis of the Pricing Assumptions and the assumptions that (i) the interest rates applicable to the S Class for each Interest Accrual Period subsequent to its initial Interest Accrual Period will be based on the indicated level of the Index and (ii) the aggregate purchase price of the S Class (expressed as a percentage of its original principal balance) is as follows:

Class	Price*
S	4.390625%

<sup>\*</sup> The price does not include accrued interest. Accrued interest has been added to such price in calculating the yields set forth in the table below.

# Sensitivity of the S Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

	PSA Prepayment Assumption							
LIBOR	50%	90%	120%	150%	200%	280%	500%	
2.0625%	199.2%	199.2%	184.3%	184.3%	184.3%	181.0%	130.5%	
$4.0625\% \ldots \ldots$	129.6%	129.6%	115.1%	115.1%	115.1%	108.8%	51.0%	
$6.0625\% \dots \dots$	66.8%	66.8%	52.2%	52.2%	52.2%	39.6%	(25.9)%	
$8.0625\% \dots \dots$	4.9%	4.9%	(9.6)%	(9.6)%	(9.6)%	(37.8)%	*	
9.1000%	*	*	*	*	*	*	*	

<sup>\*</sup> The pre-tax yield to maturity would be less than (99.9)%.

#### Weighted Average Lives of the Certificates

The weighted average life of a Certificate is determined by (a) multiplying the amount of the reduction, if any, of the principal balance of such Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date, (b) summing the results and (c) dividing the sum by the aggregate amount of the reductions in principal balance of such Certificate referred to in clause (a). For a description of the factors which may influence the weighted average life of a Certificate, see "Description of the Certificates—Weighted Average Life and Final Distribution Dates" in the GNMA Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including the timing of changes in such rate of principal payments, the priority sequence of distributions of principal of the Classes and the distribution of principal of certain Classes in accordance with the Principal Balance Schedules herein. In particular, if the amount distributable as principal of the Certificates on any Distribution Date exceeds the amount required to reduce the principal balances of certain Classes with higher principal payment priorities to their respective scheduled amounts as set forth in the Principal Balance Schedules, such excess principal will be distributed on the remaining Classes on such Distribution Date. Conversely, if the principal distributable on any Distribution Date is less than the amount so required to reduce

certain Classes to their respective scheduled amounts, no principal will be distributed on the remaining Classes on such Distribution Date. Accordingly, the rate of principal payments on the Mortgage Loans is expected to have a greater effect on the weighted average lives of the Support Class and, under certain prepayment scenarios, the C and PAC II Classes, than on the weighted average lives of the PAC I Classes. See "Distributions of Principal" herein.

The interaction of the foregoing factors may have different effects on various Classes and the effects on any Class may vary at different times during the life of such Class. Accordingly, no assurance can be given as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their respective original principal balances, variability in the weighted average lives of such Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

As described under "General—Components" herein, for purposes of calculating payments of principal, certain Classes are comprised of multiple Components. Since such Components are not divisible, the payment characteristics of such Classes will reflect a combination of the payment characteristics of the related Components.

#### **Decrement Tables**

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each of the dates shown at various constant PSA levels and the corresponding weighted average lives of such Classes. The tables have been prepared on the basis of the Pricing Assumptions, except that with respect to the information set forth for each such Class under 0% PSA it has been assumed that each Mortgage Loan underlying the GNMA Certificates bears an interest rate of 8.50% per annum and has an original and remaining term to maturity of 360 months. It is not likely that (i) all of the underlying Mortgage Loans will have the interest rate or remaining term to maturity assumed or (ii) the underlying Mortgage Loans will prepay at a constant PSA level. In addition, a portion of the payments (including prepayments) on the Mortgage Loans will be distributed in the month following the month in which such payments are received. Moreover, the diverse remaining terms to maturity of the Mortgage Loans (which may include recently originated Mortgage Loans) could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA levels, even if the distributions of the weighted average WARMs and WALAs of the Mortgage Loans are identical to the distributions of the weighted average WARMs and WALAs specified in the Pricing Assumptions.

<sup>\*</sup> Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

<sup>\*\*</sup> Determined as specified under "Weighted Average Lives of the Certificates" herein.

<sup>†</sup> In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

#### CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The following tax discussion, when read in conjunction with the discussion of "Certain Federal Income Tax Consequences" in the GNMA Prospectus, describes the current federal income tax treatment of investors in the Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of investors, some of which may be subject to special rules. Investors should consult their own tax advisors in determining the federal, state, local and any other tax consequences to them of the purchase, ownership and disposition of the Certificates.

#### **REMIC Elections and Special Tax Attributes**

Elections will be made to treat the Lower Tier REMIC and the Trust as REMICs for federal income tax purposes. The Certificates, other than the R and RL Classes, will be designated as the "regular interests," and the R Class will be designated as the "residual interest," in the REMIC constituted by the Trust. The Lower Tier Regular Interests will be designated as the "regular interests," and the RL Class will be designated as the "residual interest," in the Lower Tier REMIC.

As a consequence of the qualification of the Trust and the Lower Tier REMIC as REMICs, the Certificates generally will be treated as "qualifying real property loans" for mutual savings banks and domestic building and loan associations, "regular or residual interests in a REMIC" for domestic building and loan associations, "real estate assets" for real estate investment trusts, and, except for the R and RL Classes, as "qualified mortgages" for other REMICs. See "Certain Federal Income Tax Consequences—Special Tax Attributes" in the GNMA Prospectus.

#### **Taxation of Beneficial Owners of Regular Certificates**

The Notional Classes and the Accrual Classes will be, and certain other Classes of Certificates may be, issued with original issue discount for federal income tax purposes, which generally will result in recognition of some taxable income in advance of the receipt of the cash attributable to such income. The Prepayment Assumption that will be used in determining the rate of accrual of original issue discount will be 150% PSA. See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Original Issue Discount" in the GNMA Prospectus. No representation is made as to whether the Mortgage Loans underlying the GNMA Certificates will prepay at that or any other rate. See "Description of the Certificates—Weighted Average Lives of the Certificates" herein and "Description of the Certificates—Weighted Average Life and Final Distribution Dates" in the GNMA Prospectus. In addition, certain Classes of Certificates may be treated as having been issued at a premium for federal income tax purposes. See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Certificates Purchased at a Premium" in the GNMA Prospectus.

#### Taxation of Beneficial Owners of Residual Certificates

Under the Regulations, neither the R nor the RL Class will have significant value. As a result, an organization to which section 593 of the Code applies and which is the beneficial owner of an R or RL Certificate may not use its allowable deductions to offset any "excess inclusions" with respect to such Certificate. See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Excess Inclusions*" in the GNMA Prospectus.

For purposes of determining the portion of the taxable income of the Trust (or the Lower Tier REMIC) that generally will not be treated as excess inclusions, the rate to be used is 8.36% (which is 120% of the "federal long-term rate"). See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—Excess Inclusions" and "—Foreign Investors—Residual Certificates" in the GNMA Prospectus. The federal income tax consequences of any consideration paid to a transferee on the transfer of an R or RL Certificate are unclear; any transferee receiving such consideration should consult its own tax advisors.

#### PLAN OF DISTRIBUTION

General. The Dealer will receive the Certificates in exchange for the GNMA Certificates pursuant to a Fannie Mae commitment. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect such transactions to or through dealers.

Increase in Certificates. Fannie Mae and the Dealer may agree to offer hereby Certificates in addition to those contemplated as of the date hereof. In such event, the GNMA Certificates will be increased in principal balance, but it is expected that all additional GNMA Certificates will have the same characteristics as described herein under "Description of the Certificates—The GNMA Certificates." The proportion that the original principal balance of each Class (and any Component) bears to the aggregate original principal balance of all the Certificates will remain the same. The dollar amounts reflected in the Principal Balance Schedules will be increased in pro rata amounts that correspond to the increase of the principal balance of the Certificates.

#### LEGAL MATTERS

Certain legal matters will be passed upon for the Dealer by Sidley & Austin, New York, New York. Sidley & Austin from time to time performs legal services for Fannie Mae.

No dealer, salesman or other person has been authorized to give any information or to make any representations in connection with this offering other than those contained in this Prospectus Supplement and the additional Disclosure Documents and, if given or made, such information or representations must not be relied upon as having been authorized. This Prospectus Supplement and the aforementioned documents do not constitute an offer to sell or a solicitation of an offer to buy any of the Certificates offered hereby in any state to any person to whom it is unlawful to make such offer or solicitation in such state. The delivery of this Prospectus Supplement and the aforementioned documents at any time does not imply that the information contained herein or therein is correct as of any time subsequent to the date hereof or thereof.
