

**\$510,000,000**  
**Federal National Mortgage Association**

**Guaranteed REMIC Pass-Through Certificates**  
**Fannie Mae REMIC Trust 1994-G8**

The Guaranteed REMIC Pass-Through Certificates offered hereby (the "Certificates") will represent beneficial ownership interests in one of two trust funds. The Certificates, other than the RL Class, will represent beneficial ownership interests in Fannie Mae REMIC Trust 1994-G8 (the "Trust"). The assets of the Trust will consist of (i) the "regular interests" in a separate trust fund (the "Lower Tier REMIC") and (ii) a non-interest bearing cash deposit of \$999.99 (the "Retail Cash Deposit") to be applied as described herein. The assets of the Lower Tier REMIC will consist of "fully modified pass-through" mortgage-backed securities ("GNMA Certificates") guaranteed as to timely payment of principal and interest by the Government National Mortgage Association ("GNMA"). Each GNMA Certificate is based on and backed by a pool (the "Pool") of first lien, single-family, fixed-rate residential mortgage loans (the "Mortgage Loans") which are either insured by the Federal Housing Administration ("FHA") or partially guaranteed by the Department of Veterans Affairs ("VA"). The Certificates will be issued and guaranteed as to timely distribution of principal and interest by Fannie Mae.

Investors should not purchase the Certificates before reading this Prospectus Supplement and the additional Disclosure Documents listed at the bottom of page S-2.

*(Cover continued on next page)*

**THE CERTIFICATES MAY NOT BE SUITABLE INVESTMENTS FOR ALL INVESTORS. NO INVESTOR SHOULD PURCHASE CERTIFICATES UNLESS SUCH INVESTOR UNDERSTANDS AND IS ABLE TO BEAR THE PREPAYMENT, YIELD, LIQUIDITY AND OTHER RISKS ASSOCIATED WITH SUCH CERTIFICATES.**

**THE CERTIFICATES, TOGETHER WITH ANY INTEREST THEREON, ARE NOT GUARANTEED BY THE UNITED STATES. THE OBLIGATIONS OF FANNIE MAE UNDER ITS GUARANTY OF THE CERTIFICATES ARE OBLIGATIONS SOLELY OF FANNIE MAE AND DO NOT CONSTITUTE AN OBLIGATION OF THE UNITED STATES OR ANY AGENCY OR INSTRUMENTALITY THEREOF OTHER THAN FANNIE MAE. THE CERTIFICATES ARE EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT OF 1933 AND ARE "EXEMPTED SECURITIES" WITHIN THE MEANING OF THE SECURITIES EXCHANGE ACT OF 1934.**

- (1) Distributions of principal and interest on the Certificates will be made on the 17th day of each month (or, if such 17th day is not a business day, on the first business day next succeeding such 17th day). See "Description of the Certificates—Class Definitions and Abbreviations" in the GNMA Prospectus and "Description of the Certificates—Distributions of Interest" and "—Distributions of Principal" herein.
- (2) The T, TA and TB Classes will be Notional Classes, will have no principal balances and will bear interest on their notional principal balances (initially, \$5,515,331, \$6,891,268 and \$8,890,575, respectively). The notional principal balances of the T, TA and TB Classes will be calculated based on the principal balances of certain PAC Classes. See "Description of the Certificates—Distributions of Interest—Notional Classes" herein.
- (3) The UU Class will be comprised of two payment components, (1) a PAC II component, initially \$9,214,000 (the "UU1 Component") and (2) a Support component, initially \$48,484,000 (the "UU2 Component"). See "Description of the Certificates—The Retail Certificates—Certain Principal Distribution Considerations" and "—Distributions of Principal—Components" herein.

The Certificates will be offered by Prudential Securities Incorporated (the "Dealer") from time to time in negotiated transactions, at varying prices to be determined at the time of sale.

The Certificates will be offered by the Dealer, subject to issuance by Fannie Mae and to prior sale or to withdrawal or modification of the offer without notice, when, as and if delivered to and accepted by the Dealer, and subject to approval of certain legal matters by counsel. It is expected that the Certificates, except for the R and RL Classes, will be available through the book-entry facilities of The Depository Trust Company on or about July 29, 1994 (the "Settlement Date"). It is expected that the R and RL Classes in registered, certificated form will be available for delivery at the offices of the Dealer, 100 Gold Street, New York, New York, on or about the Settlement Date.

**Prudential Securities Incorporated**

*(Cover continued from previous page)*

The yield to investors in each Class will be sensitive in varying degrees to the rate of principal payments of the Mortgage Loans, the characteristics of the Mortgage Loans actually included in the Pool and the purchase price paid for the related Class. Accordingly, investors should consider the following risks:

- The Mortgage Loans generally may be prepaid at any time without penalty, and, accordingly, the rate of principal payments thereon is likely to vary considerably from time to time.
- Slight variations in Mortgage Loan characteristics could substantially affect the weighted average lives and yields of some or all of the Classes.
- In the case of any Certificates purchased at a discount to their principal amounts, a slower than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Certificates purchased at a premium to their principal amounts, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Interest Only Class, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield and, in certain cases, an actual loss on the investment.

See “Description of the Certificates—Yield Considerations” herein.

In addition, investors should purchase Certificates only after considering the following:

- The actual final payment of any Class will likely occur earlier, and could occur much earlier, than the Final Distribution Date for such Class specified on the cover page. See “Description of the Certificates—Weighted Average Lives of the Certificates” herein and “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the GNMA Prospectus.
- The rate of principal distributions of the Certificates is uncertain and investors may be unable to reinvest the distributions thereon at yields equaling the yields on the Certificates. See “Description of the Certificates—Reinvestment Risk” in the GNMA Prospectus.
- Investors whose investment activities are subject to legal investment laws and regulations or to review by regulatory authorities may be subject to restrictions on investment in certain Classes of the Certificates. Investors should consult their legal advisors to determine whether and to what extent the Certificates constitute legal investments or are subject to restrictions on investment. See “Legal Investment Considerations” in the GNMA Prospectus.

The UU Class (the “Retail Certificates”) may not be an appropriate investment for all prospective investors. The Retail Certificates would not be an appropriate investment for any investor requiring a particular distribution of principal on a specified date or an otherwise predictable stream of principal distributions. There is no assurance that any investor in the Retail Certificates will receive a principal distribution on any particular Distribution Date. Any investor who purchases a Retail Certificate at a premium (or a discount) should consider the risk that relatively early (or late) principal distributions following issuance of the Certificates could result in an actual yield that is lower than such investor’s anticipated yield. In addition, although the Dealer intends to make a secondary market in the Retail Certificates, it has no obligation to do so, and any such market making may be discontinued at any time. Finally, there can be no assurance that the price at which an investor may be able to sell a Retail Certificate will be the same as the price at which such investor purchased such Certificate. See “Description of the Certificates—The Retail Certificates” herein.

The Dealer intends to make a market for the Certificates but is not obligated to do so. There can be no assurance that such a secondary market will develop or, if developed, that it will continue. Thus, investors may not be able to sell their Certificates readily or at prices that will enable them to realize their anticipated yield. No investor should purchase Certificates unless such investor understands and is able to bear the risk that the value of the Certificates will fluctuate over time and that the Certificates may not be readily salable.

These securities have not been approved or disapproved by the Securities and Exchange Commission or any state securities commission nor has the Securities and Exchange Commission or any state securities commission passed upon the accuracy or adequacy of this Prospectus Supplement or the GNMA Prospectus. Any representation to the contrary is a criminal offense.

Elections will be made to treat the Lower Tier REMIC and the Trust as “real estate mortgage investment conduits” (“REMICs”) pursuant to the Internal Revenue Code of 1986, as amended (the “Code”). The R and RL Classes will be subject to transfer restrictions. See “Description of the Certificates—Characteristics of the R and RL Classes” and “Certain Additional Federal Income Tax Consequences” herein, and “Description of the Certificates—Additional Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences” in the GNMA Prospectus.

Investors should purchase the Certificates only if they have read and understood this Prospectus Supplement and the following documents (collectively, the “Disclosure Documents”):

- Fannie Mae’s Prospectus for Guaranteed REMIC Pass-Through Certificates dated April 7, 1994 (the “GNMA Prospectus”) which is attached to this Prospectus Supplement; and
- Fannie Mae’s Information Statement dated March 31, 1994 and any supplements thereto (collectively, the “Information Statement”).

The Information Statement is incorporated herein by reference and may be obtained from Fannie Mae by writing or calling its MBS Helpline at 3900 Wisconsin Avenue, N.W., Area 2H-3S, Washington, D.C. 20016 (telephone 1-800-BEST-MBS or 202-752-6547). Such documents may also be obtained from Prudential Securities Incorporated by writing or calling its Prospectus Department at 315 Hudson Street, 7th Floor, New York, New York 10013 (telephone 212-776-8906).

## REFERENCE SHEET

**This reference sheet is not a summary of the REMIC transaction and it does not contain complete information about the Certificates. Investors should purchase the Certificates only after reading this Prospectus Supplement and each of the additional Disclosure Documents described herein.**

### The Retail Certificates

#### *Description*

The Retail Certificates represent an indirect interest in certain Mortgage Loans. The Retail Certificates are guaranteed by Fannie Mae but not guaranteed by, and are not a debt or obligation of, the United States. See “Description of the Certificates—General—*Fannie Mae Guaranty*” herein.

#### *Liquidity*

If a Retail Certificate is sold prior to its maturity, an investor may receive sales proceeds (less applicable transaction costs) that are less than the amount originally invested. The Dealer intends to make a market for the purchase and sale of the Retail Certificates after their initial issuance, but is not obligated to do so. There is no assurance that such a secondary market will develop or, if it develops, that it will continue. See “Description of the Certificates—The Retail Certificates—*Investment Determination*” herein.

#### *Components*

For purposes of calculating payments of principal, the Retail Certificates are comprised of two payment components, a PAC Component and a Support Component. Since such components are not divisible, the payment characteristics of the Retail Certificates will reflect a combination of the payment characteristics of the components. See “Distribution of Principal—Components” and “Weighted Average Lives of the Certificates” herein.

#### *Federal Income Taxes*

Interest on the Retail Certificates will be taxed in the year it is earned, which may not be the year it is paid. Relevant federal income tax information for the preceding calendar year will be mailed to investors who own Retail Certificates, as required by the Internal Revenue Service. Investors should be aware, however, that such information need not be furnished before March 15 of any calendar year following a calendar year in which income accrues on a Retail Certificate. See “Description of the Certificates—The Retail Certificates—*Retail Principal Distributions—Tax Information*” and “Certain Additional Federal Income Tax Consequences” herein.

#### *Maturity*

Unlike many other fixed income securities, the Retail Certificates do not have fixed principal redemption schedules or fixed principal distribution dates. The timing of principal distributions may vary considerably based upon a number of factors, including changes in prevailing interest rates. If prevailing interest rates decrease, principal distributions on the Retail Certificates may accelerate, and any reinvestment of such distributions might be at such lower prevailing interest rates. Conversely, if prevailing interest rates increase, principal distributions on the Retail Certificates may slow down, and investors might not be able to reinvest their principal at such higher prevailing interest rates. In such case, the market value of such Retail Certificates is likely to have declined. See “Description of the Certificates—The Retail Certificates—*Certain Principal Distribution Considerations*” herein.

## Assumed Mortgage Loan Characteristics (as of July 1, 1994)

Approximate Principal Balance	Weighted Average Remaining Term to Maturity (in months)	Weighted Average Loan Age (in months)	Approximate Weighted Average Coupon
\$110,500,000	360	0	8.50%
\$144,500,000	359	1	8.50
\$ 85,000,000	358	2	8.50
\$ 85,000,000	348	9	8.50
\$ 68,000,000	334	21	8.50
\$ 17,000,000	328	26	8.50

The actual remaining terms to maturity, loan ages and interest rates of most of the Mortgage Loans will differ from the weighted averages shown above, perhaps significantly. See “Description of the Certificates—Structuring Assumptions” herein.

### Interest Rates

The Certificates will bear interest at the respective per annum interest rates set forth on the cover.

See “Description of the Certificates—Distributions of Interest” herein.

### Notional Classes

Class	Percentage of Principal Balance of Specified Class
T .....	6.250% of A Class 16.875% of B Class
TA .....	13.750% of C Class 9.375% of D Class
TB .....	6.250% of E Class 5.000% of G Class 8.750% of H Class 4.375% of HB Class 3.125% of J Class

### Distributions of Principal

#### *Principal Distribution Amount*

1. To the PAC I Classes to their respective Planned Balances in the order and proportions set forth herein under “Description of the Certificates—Distribution of Principal.”
2. To the PAC II Classes (the L and M Classes, in that order) and then to the UU1 Component, to their respective Planned Balances.
3. To the Support Classes and the UU2 Component in the order and proportions set forth herein under “Description of the Certificates—Distribution of Principal,” until the principal balances thereof are reduced to zero.
4. To the PAC II Classes and the UU1 Component as in step 2 above until the principal balances thereof are reduced to zero.
5. To the PAC I Classes as in step 1 above until the principal balances thereof are reduced to zero.

\* Determined as specified under “Weighted Average Lives of the Certificates” herein.

\*\*The weighted average lives shown in the table for the Retail Certificates apply to that Class as a whole and are not likely to reflect the experience of any particular investor in the Retail Certificates. Because investors will receive principal distributions subject to the distribution priorities and allocations described under “Description of the Certificates—The Retail Certificates—*Retail Principal Distributions*” herein, the weighted average lives of Retail Certificates will vary among different investors. See “Description of the Certificates—The Retail Certificates—Certain Principal Distribution Considerations” herein.

## DESCRIPTION OF THE CERTIFICATES

The following summaries describing certain provisions of the Certificates do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the remaining provisions of this Prospectus Supplement, the additional Disclosure Documents and the provisions of the Trust Agreement (defined below). Capitalized terms used and not otherwise defined in this Prospectus Supplement have the meanings assigned to such terms in the applicable Disclosure Document or the Trust Agreement (as the context may require).

### General

*Structure.* The Trust and the Lower Tier REMIC will be created pursuant to a trust agreement dated as of July 1, 1994 (the “Trust Agreement”), executed by the Federal National Mortgage Association (“Fannie Mae”) in its corporate capacity and in its capacity as Trustee, and the Certificates in the Classes and aggregate original principal balances set forth on the cover hereof will be issued by Fannie Mae pursuant thereto. A description of Fannie Mae and its business, together with certain financial statements and other financial information, is contained in the Information Statement.

The Certificates (other than the R and RL Classes) will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust. The interests in the Lower Tier REMIC other than the RL Class (the “Lower Tier Regular Interests”) will be designated as the “regular interests,” and the RL Class will be designated as the “residual interest,” in the Lower Tier REMIC.

The assets of the Trust will consist of (i) the Lower Tier Regular Interests and (ii) a non-interest bearing cash deposit of \$999.99 (the “Retail Cash Deposit”), and the Certificates, other than the RL Class, will evidence the entire beneficial ownership interest in the distributions of principal and interest on the Lower Tier Regular Interests. The Retail Cash Deposit will be used, if necessary, to round the amount of any principal distribution on the UU Class to an amount equal to an integral multiple of \$1,000, as described herein. The Retail Cash Deposit will not be available for application toward any distributions on the other Classes of Certificates offered hereby.

The assets of the Lower Tier REMIC will consist of the GNMA Certificates, and the Lower Tier Regular Interests and the RL Class (collectively, the “Lower Tier Interests”) will in the aggregate evidence the entire beneficial ownership interest in the distributions of principal and interest on the GNMA Certificates.

*Authorized Denominations.* The Certificates, other than the UU, R and RL Certificates, will be issued in minimum denominations of \$1,000 and integral multiples of \$1 in excess thereof. The UU Certificates will be issued in minimum denominations of \$1,000 and integral multiples thereof. Each of the R and RL Certificates will be issued as a single certificate and will not have a principal balance.

*Characteristics of Certificates.* The Certificates, other than the R and RL Certificates, will be represented by one or more certificates to be registered at all times in the name of the nominee of the Depository (as defined herein), which Depository will maintain such Certificates through its book-entry facilities. When used herein with respect to a book-entry Certificate, the terms “Holders” and “Certificateholders” refer to the nominee of the Depository. A Holder is not necessarily the beneficial owner of a book-entry Certificate. Beneficial owners will ordinarily hold book-entry Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations.

The R and RL Certificates will not be issued in book-entry form but will be issued in fully registered, certificated form. As to any R or RL Certificate, “Holder” or “Certificateholder” refers to the registered owner thereof. The R and RL Certificates will be transferable and, if applicable, exchangeable at the corporate trust office of the Transfer Agent, or at the agency of the Transfer

Agent in New York, New York. The Transfer Agent initially will be State Street Bank and Trust Company in Boston, Massachusetts (“State Street”). A service charge may be imposed for any registration of transfer or, if applicable, exchange of any R or RL Certificate and Fannie Mae may require payment of a sum sufficient to cover any tax or other governmental charge. See also “Characteristics of the R and RL Classes” herein.

The distribution to the Holder of the R or RL Certificate of the proceeds of any remaining assets of the Trust or the Lower Tier REMIC, as applicable, will be made only upon presentation and surrender of the related Certificate at the office of the Paying Agent. The Paying Agent initially will be State Street.

*Fannie Mae Guaranty.* Pursuant to its guaranty of the Certificates, Fannie Mae will be obligated to distribute on a timely basis to the Holders of Certificates required installments of principal and interest and to distribute the principal balance of each Class of Certificates in full no later than the applicable Final Distribution Date, whether or not sufficient funds are available in the Collateral Account. The guaranty of Fannie Mae is not backed by the full faith and credit of the United States. See “Description of the Certificates—Fannie Mae’s Guaranty” in the GNMA Prospectus.

*Distribution Dates.* Distributions on the Certificates will be made on the 17th day of each month (or, if such 17th day is not a business day, on the first business day next succeeding such 17th day), commencing in the month following the Settlement Date.

*Record Date.* Each monthly distribution on the Certificates will be made to Holders of record on the last day of the preceding month.

*REMIC Trust Factors.* As soon as practicable following the eleventh calendar day of each month, Fannie Mae will publish or otherwise make available for each Class of Certificates the factor (carried to eight decimal places) which, (i) in the case of each such Class of Certificates other than the Retail Certificates, when multiplied by the original principal balance of a Certificate of such Class, will equal the remaining principal balance of such Certificate and (ii) in the case of the Retail Certificates, when multiplied by the aggregate original principal balance of such Class, will equal the aggregate remaining principal balance of such Class, in each case after giving effect to the distribution of principal to be made on the following Distribution Date. As a result, the factor for the Retail Certificates will reflect the reduction in aggregate principal balance of such Class taken as a whole, and will not reflect the reduction in principal balance of the Retail Certificates owned by any particular investor. For purposes of determining the factor for the Retail Certificates, any rounding of the distribution of principal thereof will be disregarded.

## **The Retail Certificates**

### *General*

The UU Class will be issued in the form of Retail Certificates. The Retail Certificates will be represented by one or more certificates to be registered at all times in the name of the nominee of The Depository Trust Company, a New York-chartered limited purpose trust company, or any successor depository selected or approved by Fannie Mae (the “Depository”). The Depository will maintain the Retail Certificates in integral multiples of \$1,000 through its book-entry facilities. In accordance with its normal procedures, the Depository will record the positions held by each Depository participating firm (each, a “Depository Participant”) in the Retail Certificates, whether held for its own account or as a nominee for another person. State Street will act as paying agent for, and perform certain administrative functions with respect to, the Retail Certificates.

No person acquiring a beneficial ownership interest in the Retail Certificates (a “beneficial owner” or an “investor”) will be entitled to receive a physical certificate representing such ownership interest. An investor’s interest in a Retail Certificate will be recorded, in integral multiples of \$1,000, on the records of the brokerage firm, bank, thrift institution or other financial intermediary (a “financial intermediary”) that maintains such investor’s account for such purpose. In turn, the

financial intermediary's record ownership of such Certificate will be recorded, in integral multiples of \$1,000, on the records of the Depository (or of a Depository Participant that acts as agent for the financial intermediary if such intermediary is not a Depository Participant). Therefore, the investor must rely on the foregoing arrangements to evidence its interest in the Retail Certificates. Beneficial ownership of the Retail Certificates may be transferred only by compliance with the procedures of an investor's financial intermediary and of the Depository Participants. In general, beneficial ownership of the Retail Certificates will be subject to the rules, regulations and procedures governing the Depository and Depository Participants as in effect from time to time.

#### *Method of Distribution*

Each distribution of principal and interest on the Retail Certificates will be distributed by State Street to the Depository in immediately available funds. The Depository will be responsible for crediting the amount of such distributions to the accounts of the Depository Participants entitled thereto, in accordance with the Depository's normal procedures, which currently provide for distributions in next-day funds settled through the New York Clearing House. Each Depository Participant and each financial intermediary will be responsible for disbursing such distributions to the beneficial owners of the Retail Certificates that it represents.

#### *Retail Interest Distributions*

Interest to be distributed on the Retail Certificates on each Distribution Date will consist of one month's interest at the per annum rate of 8.00% on the outstanding principal balance thereof immediately prior to such Distribution Date. For further discussion, see "Distributions of Interest" herein.

#### *Retail Principal Distributions*

*General.* Distributions of principal of the Retail Certificates on any Distribution Date (collectively, a "Retail Principal Distribution") will be made, in each case in integral multiples of \$1,000, in accordance with the priorities and limitations set forth herein. On each Distribution Date, State Street or the Depository, in the case of excess retail principal distribution by random lot as described below, will determine the portion of the Retail Principal Distribution, if any, to be made on Retail Certificates held for the account of each Depository Participant. Each Depository Participant and each financial intermediary will in turn determine the portion of the Retail Principal Distribution to be made on the Retail Certificates held for the account of each investor that it represents.

*Rounding of Retail Principal Distributions.* On each Distribution Date on which amounts are available for the distribution of principal of the Retail Certificates (as described under "Distributions of Principal" herein), the amount of such distribution will be rounded, as necessary, to an amount equal to an integral multiple of \$1,000. Such rounding will be accomplished on the first Distribution Date on which a Retail Principal Distribution is made by withdrawing from the Retail Cash Deposit the amount of funds, if any, needed to round the amount otherwise allocable as principal of the Retail Certificates to the next higher integral multiple of \$1,000. On each succeeding Distribution Date on which a Retail Principal Distribution is to be made, the aggregate amount allocable to the Retail Certificates will be applied first to repay any funds withdrawn from the Retail Cash Deposit on the preceding Distribution Date, and then the remainder of such allocable amount, if any, will be similarly rounded upward and applied as a Retail Principal Distribution. This procedure will continue on succeeding Distribution Dates until the principal balance of the Retail Certificates has been reduced to zero. Thus, the Retail Principal Distribution on any Distribution Date may be slightly more or less than would be the case in the absence of such rounding procedures, but such difference will in no event exceed \$999.99 on any Distribution Date. The aggregate of all Retail Principal Distributions made through any Distribution Date will in no event be less than what would have been the case in the absence of such rounding procedures.

*Retail Principal Distribution Requests.* An investor in the Retail Certificates may request that distributions of principal of the Retail Certificates be allocated to such investor (up to the amount of such investor's ownership interest in the Retail Certificates) in integral multiples of \$1,000, on the earliest possible Distribution Date, subject to the priorities and limitations described below (each, a "Retail Principal Distribution Request"). *Any Retail Principal Distribution Request must be submitted to the financial intermediary that maintains the account evidencing the related investor's interest in the Retail Certificates.* If such financial intermediary is not a Depository Participant, it must notify the related Depository Participant of such request. The related Depository Participant must in turn make the request in writing to the Depository on a form required by the Depository. Upon the receipt of a request, the Depository will date and time stamp such request and forward it to State Street. State Street shall not be deemed liable for any delay in delivery to State Street of Retail Principal Distribution Requests or the withdrawal of such requests. The exact procedures to be followed by the Depository for purposes of determining the order of receipt will be those established from time to time by the Depository. State Street will maintain a list of those Depository Participants representing investors that have submitted Retail Principal Distribution Requests, together with the order of receipt and the amounts of such requests. State Street will notify the Depository and the appropriate Depository Participants as to which requests should be honored on each Distribution Date. Retail Principal Distribution Requests will be honored by the Depository in accordance with the procedures, and subject to the priorities and limitations, described below. The exact procedures to be followed by State Street and the Depository for purposes of determining such priorities and limitations will be those established from time to time by State Street or the Depository, as the case may be. The decisions of State Street and the Depository concerning such matters will be final and binding on all affected persons.

*An investor may withdraw a Retail Principal Distribution Request by notifying the financial intermediary that maintains the account evidencing such investor's Retail Certificates.* If such financial intermediary is not a Depository Participant, it must notify the related Depository Participant, which must in turn forward the withdrawal of such request, on a form required by the Depository, to State Street.

In order for a Retail Principal Distribution Request, or a withdrawal of such request, to be honored with respect to a Distribution Date, it must be received by the Depository and forwarded to State Street, in the case of a Retail Principal Distribution Request, or received by the Depository Participant and forwarded to State Street, in the case of a withdrawal of such request, by the last day of the month preceding the month in which such Distribution Date occurs (the "Record Date"), in accordance with the procedures described above. Priority of distribution of principal of the Retail Certificates will be given to investors on whose behalf Retail Principal Distribution Requests have been duly received and not withdrawn. Such requests will be honored by the Depository in the following order of priority:

(i) requests on behalf of Deceased Owners (as defined below) will be honored in the order of their receipt by the Depository until such requests have been honored, with respect to each Deceased Owner on whose behalf such a request has been made, in an initial amount up to \$100,000 of original principal balance per Deceased Owner; and

(ii) requests on behalf of Living Owners (as defined below) will be honored in the order of their receipt by the Depository until such requests have been honored, with respect to each Living Owner on whose behalf such a request has been made, in an initial amount up to \$10,000 of original principal balance per Living Owner.

Thereafter, requests on behalf of Deceased Owners will be honored as provided in clause (i) above up to an additional amount equal to \$100,000 of original principal balance, and requests on behalf of Living Owners will be honored as provided in clause (ii) above up to an additional amount equal to \$10,000 of original principal balance. This sequence of priorities will be repeated until all Retail Principal Distribution Requests have been honored.

To the extent that the Retail Principal Distribution Requests exceed the aggregate amount of principal available for distribution on the Retail Certificates on a Distribution Date, such requests will automatically be honored on succeeding Distribution Dates, without the need for any further Retail Principal Distribution Requests, all in accordance with the applicable procedures of State Street. A Retail Principal Distribution Request submitted on behalf of a Living Owner who thereafter becomes a Deceased Owner will become entitled to the priority of a newly submitted request on behalf of a Deceased Owner, provided that, as to any Distribution Date, the Depository has received and forwarded to State Street appropriate evidence of death and any required tax waivers on or before the related Record Date. Upon the transfer of beneficial ownership of any Retail Certificate, any Retail Principal Distribution Request relating thereto will be deemed to have been withdrawn only upon the receipt by State Street of notification of such withdrawal using a form required by the Depository.

*Excess Retail Principal Distribution by Random Lot.* To the extent the Retail Principal Distribution on any Distribution Date exceeds the amount evidenced by Retail Principal Distribution Requests received by State Street, the Retail Certificates in respect of which distributions of principal are to be made (in integral multiples of \$1,000) will be determined in accordance with the then applicable random lot procedures of the Depository and the established procedures of the Depository Participants and financial intermediaries. Accordingly, a Depository Participant or financial intermediary may elect to allot the remaining portion of the Retail Principal Distribution to the accounts of some investors (which could include such Depository Participant or financial intermediary) without allotting such distributions to the accounts of other investors.

*Beneficial Owners.* A “Deceased Owner” is a beneficial owner of Retail Certificates who was living at the time such interest was acquired and whose executor or other authorized representative causes to be furnished to the Depository evidence of death satisfactory to State Street and any tax waivers requested by State Street. A “Living Owner” is any other beneficial owner of Retail Certificates. Retail Certificates beneficially owned by tenants by the entirety, joint tenants or tenants in common will be considered to be beneficially owned by a single owner. The death of a tenant by the entirety, joint tenant or tenant in common will be deemed to be the death of the beneficial owner, and the Retail Certificates so beneficially owned will be eligible for priority in principal distribution, subject to the limitations stated above. Retail Certificates beneficially owned by a trust will be considered to be beneficially owned by each beneficiary of the trust to the extent of such beneficiary’s beneficial interest therein, but in no event will a trust’s beneficiaries collectively be deemed to be beneficial owners of a principal amount of Retail Certificates greater than the principal amount of Retail Certificates of which such trust is the owner. The death of a beneficiary of a trust will be deemed to be the death of a beneficial owner of the Retail Certificates beneficially owned by the trust to the extent of such beneficiary’s beneficial interest in such trust. The death of an individual who was a tenant by the entirety, joint tenant or tenant in common in a tenancy which is the beneficiary of a trust will be deemed to be the death of the beneficiary of the trust. The death of a person who, during his or her lifetime, was entitled to substantially all of the beneficial ownership interests in Retail Certificates will be deemed to be the death of the beneficial owner of such Retail Certificates regardless of the registration of ownership, if such beneficial interest can be established to the satisfaction of State Street. Such beneficial interest will be deemed to exist in typical cases of street name or nominee ownership, ownership by a trustee, ownership under the Uniform Gifts to Minors Act and community property or other joint ownership arrangements between spouses. Beneficial interest will include the power to sell, transfer or otherwise dispose of Retail Certificates and the right to receive the proceeds therefrom, as well as interest and principal distributable with respect thereto.

*Tax Information.* Information allowing beneficial owners of the Retail Certificates to calculate properly the taxable income attributable to the Retail Certificates will be made available by Fannie Mae to Depository Participants and financial intermediaries as required by federal income tax law. Financial intermediaries, in turn, will be obligated to supply such information to individuals and other beneficial owners who are not “exempt recipients.” Beneficial owners should be aware, however, that such information need not be furnished before March 15 of any calendar year following a calendar year

in which income accrues on a Retail Certificate. Prospective investors in the Retail Certificates also should be aware that beneficial owners of the Retail Certificates should treat any premium and any market discount with respect to such Certificates in the same manner as beneficial owners of other “regular interests” in a REMIC. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates” in the GNMA Prospectus. Because the Retail Certificates will not receive payments of principal on a pro rata basis, however, a payment in full of a Retail Certificate may be treated as a prepayment for purposes of the premium and market discount rules. Additional tax consequences affecting beneficial owners of the Retail Certificates are discussed under “Certain Additional Federal Income Tax Consequences—Taxation of Beneficial Owners of the Regular Certificates” herein and “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates” in the GNMA Prospectus.

#### *Certain Principal Distribution Considerations*

Because there may be little or no distribution of principal of the Retail Certificates on any particular Distribution Date, *there is no assurance that a Retail Principal Distribution Request will be honored, either in whole or in part, within any particular time after it is submitted.* The likelihood that any particular Retail Principal Distribution Request will be honored within any particular time after submission will also be affected by the aggregate principal balance of the Retail Certificates beneficially owned by persons having priority to right of distribution, either due to their status as Deceased Owners or because of earlier submission of their Retail Principal Distribution Requests. Conversely, the amount of principal available to be distributed on the Retail Certificates on any Distribution Date may exceed the amount necessary to satisfy such Retail Principal Distribution Requests, in which case non-requesting investors may receive distributions of principal in accordance with the random lot procedures referred to herein.

During periods in which interest rates generally are higher than the specified per annum rate at which interest accrues on the Retail Certificates, a greater number of investors may be expected to submit Retail Principal Distribution Requests. During such periods, however, there may be a concurrent reduction in the rate of prepayments on the Mortgage Loans, thus reducing the funds available for Retail Principal Distributions. Conversely, Retail Principal Distributions may be greater when prevailing interest rates decline relative to the rates of interest on the Mortgage Loans. Under such conditions, investors may be less likely to submit Retail Principal Distribution Requests while mortgagors may be more likely to prepay the Mortgage Loans. Investors whose Retail Certificates are selected for distribution under such conditions may be unable to reinvest the proceeds of such distributions at effective interest rates equal to the specified per annum rate at which interest accrues on the Retail Certificates.

Because the rate of Retail Principal Distributions is dependent upon the rate of principal distributions (including prepayments) on the Mortgage Loans and the priority sequence of distributions described herein under “Description of the Certificates—Distributions of Principal,” no assurance can be given as to the Distribution Date on which the Retail Certificates will begin to receive principal distributions, as to the rate at which such distributions will continue thereafter or as to the date on which the principal amount of the Retail Certificates will be distributed in full. In particular, the UU2 Component of the Retail Certificates is a Support Component. As a result, if the amount available for principal distributions on all REMIC Certificates on any Distribution Date exceeds the amount required to reduce the principal balances of certain Classes with higher principal payment priorities to their respective scheduled amounts as set forth in the Principal Balance Schedules and the principal balances of the N, NA, NB, NC, ND and NE Classes to zero, a Retail Principal Distribution will be made on such Distribution Date with respect to the UU2 Component of the Retail Certificates. Conversely, if the amount available for principal distributions on all REMIC Certificates on any Distribution Date is less than the amount so required to reduce certain Classes to their respective scheduled amounts and the principal balances of the N, NA, NB, NC, ND and NE Classes to zero, no Retail Principal Distribution will be made on such Distribution Date from the

Principal Distribution Amount (as defined herein) with respect to the UU2 Component of the Retail Certificates. As a result of this and other factors, the amount of principal distributable on the Retail Certificates on any Distribution Date will be very sensitive to the level of prepayments of the Mortgage Loans. See “Distribution of Principal” and “Weighted Average Lives of the Certificates” herein.

In addition, it is possible that certain investors in the Retail Certificates may not receive Retail Principal Distributions until the Final Distribution Date for such Class. Any investor who purchases a Retail Certificate at a premium (or a discount) should consider the risk that relatively early (or late) principal distributions following issuance of the Certificates could result in an actual yield that is lower than such investor’s anticipated yield. Furthermore, since prevailing interest rates are subject to fluctuation, there can be no assurance that investors in the Retail Certificates will be able to reinvest the distributions thereon at yields equaling or exceeding the yield on the Retail Certificates. It is possible that yields on any such reinvestment will be lower, and may be significantly lower, than the yield on the Retail Certificates. Prospective investors in the Retail Certificates should carefully consider the related reinvestment risks in light of other investments that may be available to such investors. See “Yield Considerations” herein.

As described under “Distributions of Principal” herein, for purposes of calculating payments of principal, the Retail Certificates are comprised of two payment Components, each of which is allocated a different payment priority. Since such payment Components are not divisible, the payment characteristics of the Retail Certificates will reflect a combination of the payment characteristics of such Components as described herein. Accordingly, the amount of principal allocated on each Distribution Date to the Retail Certificates primarily will depend on the sufficiency of the Principal Distribution Amount (as defined herein) to reduce the principal balances of those Classes of Certificates that have higher principal payment priorities than either of such Components to their respective Planned Principal Balances, as set forth in the Principal Balance Schedules herein, or to zero, as the case may be. As a result, the amount of principal distributable on the Retail Certificates on any Distribution Date will be very sensitive to the level of prepayments of the Mortgage Loans.

The following table shows the amounts that would be available for distributions of principal of the Retail Certificates during the periods indicated at various *constant* percentages of PSA (as defined under “Structuring Assumptions—*Prepayment Assumptions*” herein), based on the allocations of principal described under “Distributions of Principal” herein. The amounts shown have been calculated on the basis of the Pricing Assumptions (as defined herein) and on the assumption that principal distributions on the Retail Certificates are not rounded to integral multiples of \$1,000 and are made on the 17th day of each month in which such distributions are required to be made. **Because of the distribution priorities and allocations described above and because investors in the Retail Certificates will receive principal distributions in integral multiples of \$1,000, there is no assurance that any investor will receive a distribution of principal on any Distribution Date.**

**Aggregate Retail Principal Distributions**  
**(for illustrative purposes only)**  
(Amounts in Thousands)

Twelve Consecutive Months Through	PSA Prepayment Assumption						
	0%	80%	120%	175%	205%	240%	500%
July 1995 .....	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0	\$ 3,874

July 2022 .....	8,261	10,562	5,246	1,658	678	0	0
July 2023 .....	4,758	9,122	4,377	1,326	531	0	0
July 2024 .....	44,680	6,774	3,185	985	438	86	0
Total Principal Payments* .....	<u>\$57,698</u>	<u>\$57,698</u>	<u>\$57,698</u>	<u>\$57,698</u>	<u>\$57,698</u>	<u>\$57,698</u>	<u>\$57,698</u>

\* Total principal payments may not equal the sums of the respective columns due to rounding.

There can be no assurance that the Mortgage Loans will have the assumed characteristics or will prepay at any of the *constant* rates shown in the table or at any other particular rate, or that the amounts available for distribution of principal of the Retail Certificates will correspond to any of the amounts shown herein. The rates of Retail Principal Distributions will be directly related to the actual amortization and prepayments of the Mortgage Loans, which will likely include Mortgage Loans that have remaining terms to maturity shorter or longer than those assumed and interest rates higher than those assumed. As a result, the amounts available for distribution of principal of the Retail Certificates are likely to differ from those shown in the table above even if all the Mortgage Loans prepay at the indicated constant percentages of PSA. In particular, the diverse remaining terms to maturity of the Mortgage Loans could produce lower yields than those produced by Mortgage Loans having the assumed characteristics. In addition, it is not likely that the Mortgage Loans will prepay at a constant level of PSA until maturity or that all of such Mortgage Loans will prepay at the same rate. The timing of changes in the rate of prepayments may significantly affect the actual amounts available for distribution of principal to an investor (and the resulting yield to maturity), even if the average rate of principal prepayments is consistent with an investor's expectation. In general, the earlier the payment of principal of the Mortgage Loans, the greater the effect on an investor's yield to maturity. As a result, the effect on an investor's yield of principal prepayments occurring at a rate slower (or faster) than the rate anticipated by the investor during the period immediately following the issuance

of the Retail Certificates will not be offset by a subsequent like increase (or decrease) in the rate of principal prepayments. Investors must make their own decisions as to the appropriate prepayment assumption to be used in deciding whether to purchase the Retail Certificates.

The weighted average lives of the Retail Certificates shown in the table referenced under “Decrement Tables” herein apply to such Class taken as a whole; as a result of the distribution priorities and allocations described above, the weighted average lives of the Retail Certificates beneficially owned by individual investors may vary significantly from the weighted average life of the Class as a whole. Although distributions of principal and interest on the Retail Certificates are guaranteed by Fannie Mae as described herein, Fannie Mae can give no assurance as to any particular principal distribution scenario, as to any particular weighted average life for the Retail Certificates or as to the date or dates on which any particular investor will receive distributions of principal. In addition, there is no assurance that procedures of the financial intermediaries or the Depository will not change. Investors in the Retail Certificates should understand, as should investors in the other Classes of Certificates, that they are assuming all risks and benefits associated with the rate of principal distributions on such Retail Certificates, whether such rate is rapid or slow, and with variations in such rate from time to time. Investors in the Retail Certificates should also consider that the effective yields to Holders of the Retail Certificates will be lower than the yields otherwise produced because principal and interest payable on a Distribution Date will not be distributed until the 17th day following the end of the related Interest Accrual Period and will not bear interest during such delay.

#### *Investment Determination*

The Retail Certificates may not be an appropriate investment for all prospective investors. The Retail Certificates, like the other Classes of Certificates, would not be an appropriate investment for any investor requiring a particular distribution of principal on a specified date or an otherwise predictable stream of principal distributions. There is no assurance that any investor in the Retail Certificates will receive a principal distribution (in integral multiples of \$1,000) on any particular Distribution Date. Any investor who purchases a Retail Certificate at a premium (or a discount) should consider the risk that relatively early (or late) principal distributions following issuance of the Certificates could result in an actual yield that is lower than such investor’s anticipated yield. In addition, although the Dealer intends to make a secondary market in the Retail Certificates, it has no obligation to do so, and any such market making may be discontinued at any time. There is no assurance that such a secondary market will develop, that any such market will continue or that information on any such secondary market will be as readily available as information regarding certain other types of investments. The price of the Retail Certificates in any such secondary market will be affected by various factors, and the volatility of such price may differ from that evidenced by certain other types of investments. Finally, there can be no assurance that the price at which an investor may be able to sell a Retail Certificate will be the same as or higher than the purchase price at which such investor purchased such Certificate.

#### **The GNMA Certificates**

The GNMA Certificates underlying the Certificates will have the aggregate unpaid principal balance and Pass-Through Rate set forth below and the general characteristics described in the GNMA Prospectus. All of the GNMA Certificates will be GNMA I Certificates. See “GNMA and the

GNMA Programs” in the GNMA Prospectus. The characteristics of the GNMA Certificates and Mortgage Loans as of July 1, 1994 (the “Issue Date”) are expected to be as follows:

Aggregate Unpaid Principal Balance .....	\$510,000,000
GNMA Pass-Through Rate .....	8.00%
Range of WARMs .....	180 months to 360 months
Approximate Weighted Average WARM .....	353 months
Approximate Weighted Average WALA .....	6 months

Following the issuance of the Certificates, Fannie Mae will prepare a Final Data Statement setting forth for each GNMA Certificate, among other things, the Pool number, the original unpaid principal balance, the unpaid principal balance as of the Issue Date, and the remaining term to maturity of the latest maturing Mortgage Loan underlying such GNMA Certificate as of the Issue Date. The Final Data Statement will not accompany this Prospectus Supplement but will be made available by Fannie Mae. To request the Final Data Statement, telephone Fannie Mae at 1-800-BEST-MBS or 202-752-6547. The contents of the Final Data Statement and other data specific to the Certificates are available in electronic form by calling Fannie Mae at 1-800-752-6440 or 202-752-6000.

## **Book-Entry Procedures**

### *General*

The Certificates, other than the R and RL Certificates, will be represented by one or more certificates to be registered at all times in the name of the nominee of The Depository Trust Company, a New York-chartered limited purpose trust company, or any successor depository selected or approved by Fannie Mae (the “Depository”). In accordance with its normal procedures, the Depository will record the positions held by each Depository participating firm (each, a “Depository Participant”) in the book-entry Certificates, whether held for its own account or as a nominee for another person. State Street will act as paying agent for, and perform certain administrative functions with respect to, the book-entry Certificates.

No person acquiring a beneficial ownership interest in the book-entry Certificates (a “beneficial owner” or an “investor”) will be entitled to receive a physical certificate representing such ownership interest. An investor’s interest in the book-entry Certificates will be recorded on the records of the brokerage firm, bank, thrift institution or other financial intermediary (a “financial intermediary”) that maintains such investor’s account for such purpose. In turn, the financial intermediary’s record ownership of such interest will be recorded on the records of the Depository (or of a Depository Participant that acts as agent for the financial intermediary if such intermediary is not a Depository Participant). Accordingly, an investor will not be recognized by the Trustee or the Depository as a Certificateholder and must rely on the foregoing arrangements to evidence its interest in the book-entry Certificates. Beneficial ownership of an investor’s interest in the book-entry Certificates may be transferred only by compliance with the procedures of an investor’s financial intermediary and of Depository Participants. In general, beneficial ownership of an investor’s interest in the book-entry Certificates will be subject to the rules, regulations and procedures governing the Depository and Depository Participants as in effect from time to time.

### *Method of Distribution*

Each distribution on the book-entry Certificates will be distributed by the Paying Agent to the Depository in immediately available funds. The Depository will be responsible for crediting the amount of such distributions to the accounts of the Depository Participants entitled thereto, in accordance with the Depository’s normal procedures, which currently provide for distributions in next-day funds settled through the New York Clearing House. Each Depository Participant and each financial intermediary will be responsible for disbursing such distributions to the beneficial owners of

the book-entry Certificates that it represents. Accordingly, the beneficial owners may experience some delay in their receipt of distributions.

## Distributions of Interest

### *Categories of Classes*

For the purpose of payments of interest, the Classes will be categorized as follows:

<u>Interest Type*</u>	<u>Classes</u>
Fixed Rate	All Classes except R and RL
Interest Only	T, TA and TB
No Payment Residual	R and RL

\* See “Description of the Certificates—Class Definitions and Abbreviations” in the GNMA Prospectus.

*General.* The interest-bearing Certificates will bear interest at the respective per annum interest rates set forth on the cover or described herein. Interest on the interest-bearing Certificates is calculated on the basis of a 360-day year consisting of twelve 30-day months and is distributable monthly on each Distribution Date, commencing (except with respect to any Accrual Classes) in the month after the Settlement Date. Interest to be distributed or, in the case of any Accrual Classes, added to principal on each interest-bearing Certificate on a Distribution Date will consist of one month’s interest on the outstanding principal balance of such Certificate immediately prior to such Distribution Date.

*Interest Accrual Period.* Interest to be distributed or added to principal on a Distribution Date will accrue on the interest-bearing Certificates during the one-month period set forth below (an “Interest Accrual Period”).

<u>Classes</u>	<u>Interest Accrual Period</u>
All interest-bearing Classes (collectively, the “Delay Classes”)	Calendar month preceding the month in which the Distribution Date occurs

See “Yield Considerations” herein.

*Notional Classes.* The T, TA and TB Classes will be Notional Classes. A Notional Class will have no principal balance and will bear interest at the per annum interest rate set forth on the cover or described herein during each Interest Accrual Period on the related notional principal balance. The notional principal balances of the Notional Classes will be equal to the indicated percentages of the outstanding principal balances of the following Classes immediately prior to the related Distribution Date:

<u>Class</u>	<u>Percentage of Principal Balance of Specified Class</u>
T .....	6.250% of A Class 16.875% of B Class
TA .....	13.750% of C Class 9.375% of D Class
TB .....	6.250% of E Class 5.000% of G Class 8.750% of H Class 4.375% of HB Class 3.125% of J Class

The notional principal balance of a Notional Class is used for purposes of the determination of interest distributions thereon and does not represent an interest in the principal distributions of the

GNMA Certificates or the underlying Mortgage Loans. Although a Notional Class will not have a principal balance, a REMIC Trust Factor will be published with respect to any such Class that will be applicable to the notional principal balance thereof, and references herein to the principal balances of the Certificates generally shall be deemed to refer also to the notional principal balance of any Notional Class.

## Distributions of Principal

### *Categories of Classes and Components*

For the purpose of payments of principal, the Classes and Components will be categorized as follows:

<u>Principal Type*</u>	<u>Classes and Components</u>
PAC I	A, B, C, D, E, G, H, HA, HB, J and K
PAC II	L, M and UU1
Notional	T, TA and TB
Support	N, NA, NB, NC, ND, NE and UU2
Retail	UU
Component	UU
No Payment Residual	R and RL

\* See "Description of the Certificates—Class Definitions and Abbreviations" in the GNMA Prospectus.

*Components.* For purposes of calculating payments of principal, the UU Class is comprised of two payment components having the designations and original principal balances set forth below, and therefore the payment characteristics of the UU Class will reflect a combination of the Components.

<u>Designation</u>	<u>Original Principal Balance</u>
UU1 Component (PAC II Component) .....	\$ 9,214,000
UU2 Component (Support Component) .....	48,484,000

Components are not separately transferable from the related Class of Certificates.

### *Principal Distribution Amount*

On or about the fifth business day of each month, Fannie Mae will aggregate the amount of principal reported to be receivable on the GNMA Certificates during such month on the basis of published GNMA factors for such month. For any GNMA Certificate for which a factor is not available at such time, Fannie Mae will calculate the amount of scheduled payments of principal distributable in respect of such GNMA Certificates during such month on the basis of the assumed amortization schedules of the underlying Mortgage Loans. The amortization schedules will be prepared on the assumptions that: (i) each of the Mortgage Loans underlying a single GNMA Certificate amortizes on a level installment basis, had an original term to maturity of 360 months and has a remaining term to maturity equal to the remaining term to maturity of the latest maturing Mortgage Loan underlying such GNMA Certificate at the origination of such GNMA Certificate, adjusted to the Issue Date; and (ii) each Mortgage Loan underlying a GNMA Certificate bears an interest rate of 8.50% per annum. All such amounts, whether reported in GNMA factors or calculated by Fannie Mae, will be reflected in the REMIC Trust Factors for the Distribution Date in such month and will be distributed to Holders of Certificates on such Distribution Date, whether or not received. There will also be reflected in such REMIC Trust Factors and distributable as principal on such Distribution Date the excess of (a) the distributions of principal of the GNMA Certificates received during the month prior to the month of such Distribution Date over (b) the amounts of principal calculated as distributable previously in accordance with the GNMA factors and the assumed amortization schedules specified above.

Principal will be distributed monthly on the Certificates in an amount (the “Principal Distribution Amount”) equal to the aggregate distributions of principal of the GNMA Certificates, calculated as described above, for the month of such Distribution Date and the distributions of principal of the GNMA Certificates received during the month prior to the month of such Distribution Date to the extent not previously distributed.

On each Distribution Date, the Principal Distribution Amount will be distributed as principal of the Classes and Components specified below in the following order of priority:

- | <p>(i) sequentially, to the A, B, C, D, E and G Classes, in that order, until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;</p> <p>(ii) concurrently, to the H, HA and HB Classes, in proportion to their original principal balances (or 29.4117647059%, 29.4117647059% and 41.1764705882%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;</p> <p>(iii) sequentially, to the J and K Classes, in that order, until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;</p>  | }   | <b>PAC I<br/>Classes</b>                        |                |  |          |                |                |   |          |                |                |          |                |                |          |                |                |          |                |                |           |      |    |   |  |
|--|---|---|----------------|--|----------|----------------|----------------|---|----------|----------------|----------------|----------|----------------|----------------|----------|----------------|----------------|----------|----------------|----------------|-----------|------|----|---|--|
| <p>(iv) sequentially, to the L and M Classes and the UU1 Component, in that order, until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;</p>   | }   | <b>PAC II<br/>Classes<br/>and<br/>Component</b> |                |  |          |                |                |   |          |                |                |          |                |                |          |                |                |          |                |                |           |      |    |   |  |
| <p>(v) to the Support Classes and the UU2 Component, in the order and proportions set forth in the following table, until the principal balances thereof are reduced to zero:</p> <table border="0" style="margin-top: 10px;"> <thead> <tr> <th></th> <th style="text-align: center;"><u>Class listed in the<br/>preceding column</u></th> <th style="text-align: center;"><u>N Class</u></th> <th></th> </tr> </thead> <tbody> <tr> <td>NA .....</td> <td style="text-align: center;">72.0884795199%</td> <td style="text-align: center;">27.9115204801%</td> <td rowspan="6" style="vertical-align: middle; font-size: 3em; padding: 0 10px;">}</td> </tr> <tr> <td>NB .....</td> <td style="text-align: center;">72.0884795199%</td> <td style="text-align: center;">27.9115204801%</td> </tr> <tr> <td>NC .....</td> <td style="text-align: center;">72.0884795199%</td> <td style="text-align: center;">27.9115204801%</td> </tr> <tr> <td>ND .....</td> <td style="text-align: center;">72.0884795199%</td> <td style="text-align: center;">27.9115204801%</td> </tr> <tr> <td>NE .....</td> <td style="text-align: center;">72.0884795199%</td> <td style="text-align: center;">27.9115204801%</td> </tr> <tr> <td>UU2 .....</td> <td style="text-align: center;">100%</td> <td style="text-align: center;">0%</td> </tr> </tbody> </table> |   | <u>Class listed in the<br/>preceding column</u> | <u>N Class</u> |  | NA ..... | 72.0884795199% | 27.9115204801% | } | NB ..... | 72.0884795199% | 27.9115204801% | NC ..... | 72.0884795199% | 27.9115204801% | ND ..... | 72.0884795199% | 27.9115204801% | NE ..... | 72.0884795199% | 27.9115204801% | UU2 ..... | 100% | 0% | } | <b>Support<br/>Classes<br/>and<br/>Component</b> |

## Structuring Assumptions

*Pricing Assumptions.* Unless otherwise specified, the information in the tables in this Prospectus Supplement has been prepared on the basis of the following assumptions (the “Pricing Assumptions”):

- all payments (including prepayments) on the Mortgage Loans underlying the GNMA Certificates are distributed on the Certificates in the month in which such payments are received;
- each Mortgage Loan bears interest at a rate of 8.50% per annum and has an original term to maturity of 360 months, and the following principal amounts of the Mortgage Loans have the WARMs and WALAs, respectively, specified below:

\$110,500,000	360 months	0 months
\$144,500,000	359 months	1 month
\$ 85,000,000	358 months	2 months
\$ 85,000,000	348 months	9 months
\$ 68,000,000	334 months	21 months
\$ 17,000,000	328 months	26 months

- the Mortgage Loans prepay at the constant percentages of PSA specified in the related table;
- the closing date for the sale of the Certificates is the Settlement Date; and
- the first Distribution Date for the Certificates occurs in the month following the Settlement Date.

*Prepayment Assumptions.* Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used in this Prospectus Supplement is the Public Securities Association’s standard prepayment model (“PSA”). To assume a specified rate of PSA (for example, 175% PSA) is to assume a specified rate of prepayment each month of the then outstanding principal balance of a pool of new mortgage loans computed as described under “Description of the Certificates—Prepayment Considerations and Risks” in the GNMA Prospectus. It is highly unlikely that prepayments will occur at any PSA rate or at any other constant rate.

*Structuring Ranges.* The Principal Balance Schedules have been prepared on the basis of the Pricing Assumptions and the assumption that the Mortgage Loans prepay at a *constant* PSA rate within the Structuring Ranges set forth below.

<u>Principal Balance Schedule References</u>	<u>Related Classes and Component</u>	<u>Structuring Ranges</u>
Planned Balances	PAC I	Between 80% and 240%
Planned Balances	PAC II	Between 120% and 205%

**There is no assurance that the principal balances of the Classes and Component listed above will conform on any Distribution Date to the applicable balances specified for such Distribution Date in the Principal Balance Schedules herein, or that distributions of principal on the related Classes and Component will begin or end on the respective Distribution Dates specified therein.** Because any excess of the principal distribution on any Distribution Date over the amount necessary to reduce the applicable Classes and Component to their scheduled balances will be distributed, the ability to so reduce such Classes and Component will not be enhanced by the averaging of high and low principal payments from month to month. In addition, even if prepayments occur at rates falling within the Structuring Ranges specified above, principal distributions may be insufficient to reduce the applicable Classes and Component to their scheduled balances if such prepayments do not occur at a *constant* PSA rate. Moreover, because of the diverse remaining terms to maturity of the Mortgage Loans (which may include recently originated Mortgage

Loans), the Classes and Component specified above may not be reduced to their scheduled balances, even if prepayments occur at a *constant* rate within the Structuring Ranges specified above.

*Initial Effective Ranges.* The Effective Range for a Class or Component is the range of prepayment rates (measured by *constant* PSA rates) that would reduce such Class or Component to its Principal Balance Schedule on each Distribution Date. The Initial Effective Ranges set forth in the table below are based upon the assumed characteristics of the Mortgage Loans specified in the Pricing Assumptions.

<u>Related Classes and Component</u>	<u>Initial Effective Ranges</u>
A	Between 80% and 634%
B	Between 80% and 464%
C	Between 80% and 339%
D	Between 80% and 292%
E	Between 80% and 256%
G	Between 80% and 240%
H, HA and HB	Between 80% and 240%
J	Between 73% and 240%
K	Between 57% and 240%
L	Between 120% and 237%
M	Between 120% and 205%
UU1	Between 82% and 205%

The actual Effective Ranges at any time will be based upon the actual characteristics of the Mortgage Loans at such time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. The actual Effective Ranges calculated on the basis of the actual characteristics likely will differ from the Initial Effective Ranges. As a result, the applicable Classes and Component might not be reduced to their scheduled balances even if prepayments were to occur at a *constant* PSA rate within the Initial Effective Ranges (particularly if such rate were at the lower or higher end of such ranges). In addition, even if prepayments occur at rates falling within the actual Effective Ranges, principal distributions may be insufficient to reduce the applicable Classes and Component to their scheduled balances if such prepayments do not occur at a *constant* PSA rate. It is highly unlikely that the Mortgage Loans will prepay at any *constant* PSA rate. In general, the actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time. The principal payment stability of the PAC Classes will be supported in part by the Support Classes and Component, and in the case of the PAC I Classes, will be further supported by the PAC II Classes and Component. When the Support Classes and Component (and, in the case of the PAC I Classes, the PAC II Classes and Component) are retired, any outstanding PAC II Classes or Component (and, if applicable, PAC I Classes) will no longer have Effective Ranges and will be more sensitive to prepayments.

## Yield Considerations

*General.* The yield to maturity for each Certificate will depend upon the purchase price thereof, the level of the applicable Index, if any, the rate of principal payments, including prepayments, on the Mortgage Loans, and the actual characteristics of the Mortgage Loans. There can be no assurance that the pre-tax yields shown herein or that the aggregate purchase prices of the Certificates will be as assumed. In addition, there can be no assurance that the applicable Index, if any, will correspond to any of the levels shown herein. An investor should purchase Certificates only after performing an analysis of such Certificates based upon the investor's own assumptions as to future rates of prepayment and levels of any applicable Index.

There can be no assurance that the Mortgage Loans will have the characteristics assumed herein or will prepay at any of the rates assumed herein, or at any other particular rate. Because the rate of principal distributions on the Certificates will be related to the rate of amortization of the Mortgage Loans, which are likely to include Mortgage Loans with remaining terms to maturity shorter or longer than those assumed and interest rates higher than those assumed, the rate of principal distribution on the Certificates is likely to differ from the rate anticipated by an investor, even if all Mortgage Loans prepay at the indicated constant percentages of PSA. In addition, it is not likely that all Mortgage Loans will prepay at the same rate or that the level of any applicable Index will remain constant.

The timing of changes in the rate of principal prepayments or the level of any applicable Index may significantly affect the yield to an investor, even if the average rate of principal prepayments or the average level of any applicable Index is consistent with such investor's expectations. In general, the earlier the payment of principal or change in the level of any applicable Index, the greater the effect on an investor's yield to maturity. As a result, the effect on an investor's yield of principal prepayments or the level of any applicable Index occurring at a rate or level higher (or lower) than the rate or level anticipated by the investor during the period immediately following the Settlement Date will not be offset by any subsequent equivalent reduction (or increase) in the rate of principal prepayments or level of any such Index.

The effective yield on the Delay Classes will be reduced below the yield otherwise produced because principal and interest payable on a Distribution Date will not be distributed until the 17th day following the end of the related Interest Accrual Period and will not bear interest during such delay. No interest at all will be paid on any Class after its principal balance has been reduced to zero. As a result of the foregoing, the market value of the Delay Classes will be lower than would have been the case if there were no such delay. Investors must make their own decisions as to the appropriate assumptions, including prepayment assumptions, to be used in deciding whether to purchase the Certificates.

The table below indicates the sensitivity of the pre-tax corporate bond equivalent yields to maturity of the applicable Class to various constant percentages of PSA. The yields set forth in the table were calculated by determining the monthly discount rate that, when applied to the assumed streams of cash flows to be paid on the applicable Class, would cause the discounted present value of such assumed streams of cash flows to equal the assumed aggregate purchase price of such Class and converting such monthly rates to corporate bond equivalent rates. Such calculations do not take into account variations that may occur in the interest rates at which investors may be able to reinvest funds received by them as distributions on the Certificates and consequently do not purport to reflect the return on any investment in the Certificates when such reinvestment rates are considered.

***The Interest Only Classes.* As indicated in the table below, the yields to investors in the T, TA and TB Classes will be sensitive to the rate of principal payments (including prepayments) of the Mortgage Loans, which generally can be prepaid at any time. On the basis of the assumptions described below, the yield to maturity on the T, TA and TB Classes would be 0% if prepayments were to occur at constant rates of approximately 633% PSA, 438% PSA and 417% PSA, respectively. If the actual prepayment rate of the Mortgage Loans were to exceed any of the foregoing levels for as little as one month while equaling**

such levels for the remaining months, the investors in the T, TA and TB Classes, as applicable, would not fully recoup their initial investments.

The information set forth in the following table was prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the T, TA and TB Classes (expressed in each case as a percentage of its original principal balance) are as follows:

<u>Class</u>	<u>Price*</u>
T .....	13.718750%
TA.....	25.437500%
TB.....	45.609375%

\* The prices do not include accrued interest. Accrued interest has been added to such prices in calculating the yields set forth in the table below.

### Sensitivity of the T, TA and TB Classes to Prepayments (Pre-Tax Yields to Maturity)

<u>Class</u>	<u>PSA Prepayment Assumption</u>				
	<u>50%</u>	<u>80%</u>	<u>175%</u>	<u>240%</u>	<u>500%</u>
T .....	26.9%	8.5%	8.5%	8.5%	7.7%
TA.....	20.0%	9.2%	9.2%	9.2%	(6.4)%
TB.....	13.8%	10.5%	10.5%	10.5%	(5.9)%

### Weighted Average Lives of the Certificates

The weighted average life of a Certificate is determined by (a) multiplying the amount of the reduction, if any, of the principal balance of such Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date, (b) summing the results and (c) dividing the sum by the aggregate amount of the reductions in principal balance of such Certificate referred to in clause (a). For a description of the factors which may influence the weighted average life of a Certificate, see “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the GNMA Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including the timing of changes in such rate of principal payments, the priority sequence of distributions of principal of the Classes and the distribution of principal of certain Classes in accordance with the Principal Balance Schedules herein. In particular, if the amount distributable as principal of the Certificates on any Distribution Date exceeds the amount required to reduce the principal balances of certain Classes with higher principal payment priorities to their respective scheduled amounts as set forth in the Principal Balance Schedules, such excess principal will be distributed on the remaining Classes on such Distribution Date. Conversely, if the principal distributable on any Distribution Date is less than the amount so required to reduce certain Classes to their respective scheduled amounts, no principal will be distributed on the remaining Classes on such Distribution Date. Accordingly, the rate of principal payments on the Mortgage Loans is expected to have a greater effect on the weighted average lives of the Support Classes and Component and, under certain prepayment scenarios, the PAC II Classes and Component, than on the weighted average lives of the PAC I Classes. See “The Retail Certificates—*Certain Principal Distribution Considerations*” and “Distributions of Principal” herein.

The interaction of the foregoing factors may have different effects on various Classes and the effects on any Class may vary at different times during the life of such Class. Accordingly, no assurance can be given as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their respective original principal balances,

variability in the weighted average lives of such Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

As described under “Distributions of Principal—*Components*” herein, for purposes of calculating payments of principal, the UU Class is comprised of two Components. Since such Components are not divisible, the payment characteristics of such Class will reflect a combination of the payment characteristics of the Components.

### **Decrement Tables**

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each of the dates shown at various *constant* PSA levels and the corresponding weighted average lives of such Classes. The tables have been prepared on the basis of the Pricing Assumptions, except that with respect to the information set forth for each such Class under 0% PSA it has been assumed that each Mortgage Loan underlying the GNMA Certificates bears an interest rate of 8.50% per annum and has an original and remaining term to maturity of 360 months. It is not likely that (i) all of the underlying Mortgage Loans will have the interest rate or remaining term to maturity assumed or (ii) the underlying Mortgage Loans will prepay at a *constant* PSA level. In addition, a portion of the payments (including prepayments) on the Mortgage Loans will be distributed in the month following the month in which such payments are received. Moreover, the diverse remaining terms to maturity of the Mortgage Loans (which may include recently originated Mortgage Loans) could produce slower or faster principal distributions than indicated in the tables at the specified *constant* PSA levels, even if the distributions of the weighted average WARMs and WALAs of the Mortgage Loans are identical to the distributions of the weighted average WARMs and WALAs specified in the Pricing Assumptions.

\* Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

\*\* Determined as specified under “Weighted Average Lives of the Certificates” herein.

\*\*\* The weighted average lives shown in the table for the UU Class apply to such Class taken as a whole. As a result of the distribution priorities and allocations described herein, the weighted average lives of the UU Certificates beneficially owned by individual investors may vary significantly from the weighted average life of the Class taken as a whole.

## **Characteristics of the R and RL Classes**

The R and RL Classes will not have principal balances and will not bear interest. The Holder of the R Class will be entitled to receive the proceeds of the remaining assets of the Trust, including the Retail Cash Deposit, after the principal balances of all Classes have been reduced to zero, and the Holder of the RL Class will be entitled to receive the proceeds of the remaining assets of the Lower Tier REMIC, if any, after the principal balances of the Lower Tier Interests have been reduced to zero. It is not anticipated that there will be any material assets remaining in either such circumstance.

The R Class and the RL Class will be subject to certain transfer restrictions. No transfer of record or beneficial ownership of an R or RL Certificate will be allowed to a “disqualified organization.” In addition, no transfer of record or beneficial ownership of an R or RL Certificate will be allowed to any person that is not a “U.S. Person” without the written consent of Fannie Mae. Under regulations issued by the Treasury Department on December 23, 1992 (the “Regulations”), a transfer of a “noneconomic residual interest” to a U.S. Person will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R Class and the RL Class will constitute noneconomic residual interests under the Regulations. Any transferee of an R or RL Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 on which the transferee provides its taxpayer identification number. See “Description of the Certificates—Additional Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates” in the GNMA Prospectus. Transferors of an R or RL Certificate should consult with their own tax advisors for further information regarding such transfers.

The Holder of the R Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Trust, and the Holder of the RL Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Lower Tier REMIC. See “Certain Federal Income Tax Consequences” in the GNMA Prospectus. Pursuant to the Trust Agreement, Fannie Mae will be obligated to provide to such Holders (i) such information as is necessary to enable them to prepare their federal income tax returns and (ii) any reports regarding the R and RL Classes that may be required under the Code.

## **CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES**

The following tax discussion, when read in conjunction with the discussion of “Certain Federal Income Tax Consequences” in the GNMA Prospectus, describes the current federal income tax treatment of investors in the Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of investors, some of which may be subject to special rules. Investors should consult their own tax advisors in determining the federal, state, local and any other tax consequences to them of the purchase, ownership and disposition of the Certificates.

## **REMIC Elections and Special Tax Attributes**

Elections will be made to treat the Lower Tier REMIC and the Trust as REMICs for federal income tax purposes. The Certificates, other than the R and RL Classes, will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust. The Lower Tier Regular Interests will be designated as the “regular interests,” and the RL Class will be designated as the “residual interest,” in the Lower Tier REMIC.

As a consequence of the qualification of the Trust and the Lower Tier REMIC as REMICs, the Certificates generally will be treated as “qualifying real property loans” for mutual savings banks and domestic building and loan associations, “regular or residual interests in a REMIC” for domestic building and loan associations, “real estate assets” for real estate investment trusts, and, except for the R and RL Classes, as “qualified mortgages” for other REMICs. See “Certain Federal Income Tax Consequences—Special Tax Attributes” in the GNMA Prospectus.

## **Taxation of Beneficial Owners of Regular Certificates**

The Notional Classes will be, and certain other Classes of Certificates may be, issued with original issue discount for federal income tax purposes, which generally will result in recognition of some taxable income in advance of the receipt of the cash attributable to such income. The Prepayment Assumption that will be used in determining the rate of accrual of original issue discount will be 175% PSA. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Original Issue Discount*” in the GNMA Prospectus. No representation is made as to whether the Mortgage Loans underlying the GNMA Certificates will prepay at that or any other rate. See “Description of the Certificates—Weighted Average Lives of the Certificates” herein and “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the GNMA Prospectus. In addition, certain Classes of Certificates may be treated as having been issued at a premium for federal income tax purposes. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Certificates Purchased at a Premium*” in the GNMA Prospectus.

Additional tax consequences affecting beneficial owners of Retail Certificates are discussed under “Description of the Certificates—The Retail Certificates—*Retail Principal Distributions—Tax Information*” herein.

## **Taxation of Beneficial Owners of Residual Certificates**

Under the Regulations, neither the R nor the RL Class will have significant value. As a result, an organization to which section 593 of the Code applies and which is the beneficial owner of an R or RL Certificate may not use its allowable deductions to offset any “excess inclusions” with respect to such Certificate. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Excess Inclusions*” in the GNMA Prospectus.

For purposes of determining the portion of the taxable income of the Trust (or the Lower Tier REMIC) that generally will not be treated as excess inclusions, the rate to be used is 120% of the “federal long-term rate.” The rate will be published on or about June 20, 1994. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Excess Inclusions*” and “—Foreign Investors—*Residual Certificates*” in the GNMA Prospectus. The federal income tax consequences of any consideration paid to a transferee on the transfer of an R or RL Certificate are unclear; any transferee receiving such consideration should consult its own tax advisors.

## **PLAN OF DISTRIBUTION**

*General.* The Dealer will receive the Certificates in exchange for the GNMA Certificates pursuant to a Fannie Mae commitment. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale and, in the case of the UU Class, as part of its Mortgage Collateralized Bond II (MCB II) Program. The Dealer may effect such transactions to or through dealers.

*Increase in Certificates.* Fannie Mae and the Dealer may agree to offer hereby Certificates in addition to those contemplated as of the date hereof. In such event, the GNMA Certificates will be increased in principal balance, but it is expected that all additional GNMA Certificates will have the same characteristics as described herein under “Description of the Certificates—The GNMA Certificates.” The proportion that the original principal balance of each Class (and any Component) bears to the aggregate original principal balance of all the Certificates will remain the same. The dollar amounts reflected in the Principal Balance Schedules and the Aggregate Retail Principal Distributions table will be increased in pro rata amounts that correspond to the increase of the principal balance of the Certificates.

## **LEGAL MATTERS**

Certain legal matters will be passed upon for the Dealer by Cleary, Gottlieb, Steen & Hamilton.

No dealer, salesman or other person has been authorized to give any information or to make any representations in connection with this offering other than those contained in this Prospectus Supplement and the additional Disclosure Documents and, if given or made, such information or representations must not be relied upon as having been authorized. This Prospectus Supplement and the aforementioned documents do not constitute an offer to sell or a solicitation of an offer to buy any of the Certificates offered hereby in any state to any person to whom it is unlawful to make such offer or solicitation in such state. The delivery of this Prospectus Supplement and the aforementioned documents at any time does not imply that the information contained herein or therein is correct as of any time subsequent to the date hereof or thereof.
