FannieMae

Guaranteed REMIC Pass-Through Certificates Fannie Mae REMIC Trust 1997-19

The Guaranteed REMIC Pass-Through Certificates offered hereby (the “REMIC Certificates”) will represent beneficial ownership interests in one of two trust funds. The REMIC Certificates, other than the RL Class, will represent beneficial ownership interests in Fannie Mae REMIC Trust 1997-19 (the “Trust”). The assets of the Trust will consist of the “regular interests” in a separate trust fund (the “Lower Tier REMIC”). The assets of the Lower Tier REMIC will consist of (i) certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the “Trust MBS”) described herein and (ii) certain previously issued REMIC certificates specified herein (the “Underlying REMIC Certificates”) evidencing beneficial ownership interests in the related Fannie Mae REMIC Trusts (the “Underlying REMIC Trusts”) as further described in Exhibit A hereto. The assets of the Underlying REMIC Trusts evidence direct or indirect beneficial ownership interests in certain principal and interest distributions made in respect of certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (together with the Trust MBS, the “MBS”). Each MBS represents a beneficial ownership interest in a pool (each, a “Pool”) of first lien, single-family, fixed-rate residential mortgage loans (the “Mortgage Loans”) having the characteristics described herein. The Certificates will be issued and guaranteed as to timely distribution of principal and interest by Fannie Mae.

Certain of the Classes of REMIC Certificates may, upon notice and payment of an exchange fee, be exchanged for one or more Classes (each, an “RCR Class”) of Combinable and Recombinable REMIC Certificates (“RCR Certificates”) as provided herein. Each RCR Certificate issued in such an exchange will represent a beneficial ownership interest in, and will entitle the Holder thereof to receive a proportionate share of the distributions on, the related Class or Classes of REMIC Certificates. The characteristics of the RCR Classes are set forth in Schedule 1 hereto. As used herein, unless the context requires otherwise, the term “Certificates” includes REMIC Certificates and RCR Certificates and the term “Classes” includes the Classes of REMIC Certificates and the Classes of RCR Certificates. See “Combination and Recombination” herein and Schedule 1 hereto.

Investors should not purchase the Certificates before reading this Prospectus Supplement and the additional Disclosure Documents listed at the bottom of page S-2.

See “Additional Risk Factors” on page S-9 hereof and “Risk Factors” beginning on page 8 of the REMIC Prospectus attached hereto for a discussion of certain risks that should be considered in connection with an investment in the Certificates.

(Cover continued on next page)

THE CERTIFICATES MAY NOT BE SUITABLE INVESTMENTS FOR ALL INVESTORS. NO INVESTOR SHOULD PURCHASE CERTIFICATES UNLESS SUCH INVESTOR UNDERSTANDS AND IS ABLE TO BEAR THE PREPAYMENT, YIELD, LIQUIDITY AND OTHER RISKS ASSOCIATED WITH SUCH CERTIFICATES.

THE CERTIFICATES, TOGETHER WITH ANY INTEREST THEREON, ARE NOT GUARANTEED BY THE UNITED STATES. THE OBLIGATIONS OF FANNIE MAE UNDER ITS GUARANTY OF THE CERTIFICATES ARE OBLIGATIONS SOLELY OF FANNIE MAE AND DO NOT CONSTITUTE AN OBLIGATION OF THE UNITED STATES OR ANY AGENCY OR INSTRUMENTALITY THEREOF OTHER THAN FANNIE MAE. THE CERTIFICATES ARE EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT OF 1933 AND ARE “EXEMPTED SECURITIES” WITHIN THE MEANING OF THE SECURITIES EXCHANGE ACT OF 1934.

- (1) The RCR Classes are set forth on Schedule 1 hereto.
- (2) See “Description of the Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus and “Description of the Certificates—Distributions of Interest” and “—Distributions of Principal” herein.
- (3) The S, PH, SA, SN, SJ, SC, SD, SG, SH, SM, SK and SL Classes will be Notional Classes, will not have principal balances and will bear interest on their notional principal balances (initially, \$13,741,111, \$14,566,865, \$54,467,368, \$17,661,000, \$4,134,000, \$6,119,550, \$4,801,334, \$12,342,988, \$5,334,571, \$33,249,343, \$21,042,310 and \$12,207,033, respectively). The notional principal balances of the Notional Classes will be calculated as specified herein. See “Description of the Certificates—Distributions of Interest—Notional Classes” herein.
- (4) The S, FB, F, FA, SA, SB, SN, SJ, SC, SH, SM, SK and SL Classes will bear interest based on “LIBOR”, the SD Class will bear interest based on “COFI” and the SG Class will bear interest based on the “10-Year Treasury Index,” as described under “Description of the Certificates—Distributions of Interest” herein and “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes” in the REMIC Prospectus.
- (5) These Classes are Principal Only Classes and will bear no interest.

The Certificates will be offered by PaineWebber Incorporated (the “Dealer”) from time to time in negotiated transactions, at varying prices to be determined at the time of sale.

The Certificates will be offered by the Dealer, subject to issuance by Fannie Mae, to prior sale or to withdrawal or modification of the offer without notice, when, as and if delivered to and accepted by the Dealer, and subject to approval of certain legal matters by counsel. It is expected that the Group 1, Group 2 and Group 3 Classes and the RCR Certificates will be available through the book-entry facilities of The Depository Trust Company and that all other Classes (except for the R and RL Classes) will be available through the book-entry system of the Federal Reserve Banks on or about March 27, 1997 (the “Settlement Date”). It is expected that the R and RL Classes in registered, certificated form will be available for delivery at the offices of PaineWebber Incorporated, New York, New York, on or about the Settlement Date.

PaineWebber Incorporated

The date of this Prospectus Supplement is February 19, 1997.

(Cover continued from previous page)

The yields to investors in the Group 1 and Group 2 Classes (as described herein) will be sensitive in varying degrees to, among other things, the rate of principal distributions on the MBS included in the related MBS Groups (as described herein), which in turn will be determined by the rate of principal payments of the related Mortgage Loans and the characteristics of such Mortgage Loans. The yields to investors in the Group 3, Group 4, Group 5, Group 6, Group 7 and Group 8 Classes (as described herein) will be sensitive in varying degrees to, among other things, the rate of principal distributions on the related Underlying REMIC Certificates, which in turn will be sensitive in varying degrees to the rate of principal payments of the related Mortgage Loans, the characteristics of the Mortgage Loans included in the related Pools and the priority sequences affecting principal distributions on the Underlying REMIC Certificates. The yield to investors in each Class will also be sensitive to the purchase price paid for such Class and, in the case of any Floating Rate or Inverse Floating Rate Class, fluctuations in the level of the applicable Index (as defined herein). Accordingly, investors should consider the following risks:

- The Mortgage Loans generally may be prepaid at any time without penalty, and, accordingly, the rate of principal payments thereon is likely to vary considerably from time to time.
- Slight variations in Mortgage Loan characteristics could substantially affect the weighted average lives and yields of some or all of the Classes.
- In the case of any Certificates purchased at a discount to their principal amounts (including any Principal Only Class), a slower than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Certificates purchased at a premium to their principal amounts, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Interest Only Class, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield and, in certain cases, an actual loss on the investment.
- The yield on any Floating Rate or Inverse Floating Rate Class will be sensitive to the level of the applicable Index. See “Description of the Certificates—Distributions of Interest—Floating Rate and Inverse Floating Rate Classes” herein.

See “Risk Factors—Yield Considerations” in the REMIC Prospectus and “Additional Risk Factors—Additional Yield and Prepayment Considerations” and “Yield Tables” herein.

In addition, investors should purchase Certificates only after considering the following:

- The Underlying REMIC Certificates are subordinate in priority of principal distributions to certain other classes of certificates evidencing beneficial ownership interests in the related Underlying REMIC Trusts and, accordingly, there is no assurance that principal distributions will be made on the Underlying REMIC Certificates on any particular Distribution Date. In particular, certain of the Underlying REMIC Certificates are Support classes that are entitled to receive principal distributions on any Distribution Date only if scheduled distributions have been made on other specified classes of certificates evidencing beneficial ownership interests in the related Underlying REMIC Trusts. Accordingly, such Underlying REMIC Certificates may receive no principal distributions for extended periods of time or may receive principal distributions that vary widely from period to period. In addition, certain of the Underlying REMIC Certificates have Principal Balance Schedules and, as a result, may receive principal distributions at a rate faster or slower than would otherwise have been the case (and, in some cases, may receive no principal distributions for extended periods). Moreover, one of the Underlying REMIC Certificates has a notional principal balance that is based on the principal balance of another class in the related Underlying REMIC Trust which itself has a Principal Balance Schedule. Further, prepayments on the related Mortgage Loans may have occurred at a rate faster or slower than that initially assumed. This Prospectus Supplement contains no information as to whether the related Underlying REMIC Certificates have adhered to their Principal Balance Schedules, whether any related Support classes remain outstanding or whether such Underlying REMIC Certificates otherwise have performed as originally anticipated. Such information may be obtained by performing an analysis of current Fannie Mae principal factors in the context of applicable information contained in the related Underlying REMIC Disclosure Documents (as defined below), which may be obtained from Fannie Mae as described below.
- The actual final payment of any Class will likely occur earlier, and could occur much earlier, than the Final Distribution Date for such Class specified on the cover page. See “Description of the Certificates—Weighted Average Lives of the Certificates” herein and “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus.
- The rate of principal distributions of the Certificates is uncertain and investors may be unable to reinvest the distributions thereon at yields equaling the yields on the Certificates. See “Risk Factors—Suitability and Reinvestment Considerations” in the REMIC Prospectus.
- Investors whose investment activities are subject to legal investment laws and regulations or to review by regulatory authorities may be subject to restrictions on investment in certain Classes of the Certificates. Investors should consult their legal advisors to determine whether and to what extent the Certificates constitute legal investments or are subject to restrictions on investment. See “Legal Investment Considerations” in the REMIC Prospectus.
- The Dealer intends to make a market for the Certificates but is not obligated to do so. There can be no assurance that such a secondary market will develop or, if developed, that it will continue. Thus, investors may not be able to sell their Certificates readily or at prices that will enable them to realize their anticipated yield. No investor should purchase Certificates unless such investor understands and is able to bear the risk that the value of the Certificates will fluctuate over time and that the Certificates may not be readily salable.

These securities have not been approved or disapproved by the Securities and Exchange Commission or any state securities commission nor has the Securities and Exchange Commission or any state securities commission passed upon the accuracy or adequacy of this Prospectus Supplement, the REMIC Prospectus, the Prospectus Supplements for the Underlying REMIC Trusts (collectively, the “Underlying REMIC Disclosure Documents”) or the MBS Prospectus (each as defined below). Any representation to the contrary is a criminal offense.

Elections will be made to treat the Lower Tier REMIC and the Trust as “real estate mortgage investment conduits” (“REMICs”) pursuant to the Internal Revenue Code of 1986, as amended (the “Code”). The R and RL Classes will be subject to transfer restrictions. See “Description of the Certificates—Characteristics of the R and RL Classes” and “Certain Additional Federal Income Tax Consequences” herein, and “Description of the Certificates—Additional Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences” in the REMIC Prospectus.

Investors should purchase the Certificates only if they have read and understood this Prospectus Supplement and the following documents (collectively, the “Disclosure Documents”):

- Fannie Mae’s Prospectus for Guaranteed REMIC Pass-Through Certificates dated June 14, 1996 (the “REMIC Prospectus”), which is attached to this Prospectus Supplement;
- Fannie Mae’s Prospectus for Guaranteed Mortgage Pass-Through Certificates dated January 1, 1997 (the “MBS Prospectus”);
- Fannie Mae’s Information Statement dated February 22, 1996 and any supplements thereto (collectively, the “Information Statement”); and
- The Underlying REMIC Disclosure Documents.

The MBS Prospectus and the Information Statement are incorporated herein by reference and, together with the Underlying REMIC Disclosure Documents, may be obtained from Fannie Mae by writing or calling its MBS Helpline at 3900 Wisconsin Avenue, N.W., Area 2H-3S, Washington, D.C. 20016 (telephone 1-800-BEST-MBS or 202-752-6547). Such documents, other than the Underlying REMIC Disclosure Documents, may also be obtained from PaineWebber Incorporated by writing or calling its Prospectus Department at 1000 Harbor Boulevard, Weehawken, New Jersey 07087 (telephone 201-902-7341).

REFERENCE SHEET

This reference sheet is not a summary of the REMIC transaction and it does not contain complete information about the Certificates. Investors should purchase the Certificates only after reading this Prospectus Supplement and each of the additional Disclosure Documents described herein in their entirety.

Assumed Characteristics of the Mortgage Loans Underlying the Trust MBS (as of March 1, 1997)

<u>Mortgage Loan Group</u>	<u>Approximate Principal Balance</u>	<u>Approximate Weighted Average Remaining Term to Maturity (in months)</u>	<u>Approximate Calculated Loan Age (in months)</u>	<u>Approximate Weighted Average Coupon</u>
Group 1	\$ 25,000,000	360	0	8.15%
	62,500,000	359	1	8.15
	62,500,000	358	2	8.15
	62,500,000	357	2	8.15
	37,500,000	356	3	8.15
Group 2	\$ 20,000,000	342	16	7.59%
	80,000,000	343	15	7.59
	140,000,000	344	14	7.59
	90,000,000	345	13	7.59
	70,000,000	346	12	7.59

The actual remaining terms to maturity, calculated loan ages and interest rates of most of the related Mortgage Loans will differ from the weighted averages shown above, perhaps significantly. See “Description of the Certificates—Structuring Assumptions—*Pricing Assumptions*” herein.

Characteristics of the Underlying REMIC Certificates

The table contained in Exhibit A hereto sets forth information with respect to the Underlying REMIC Certificates, including certain information regarding the underlying Mortgage Loans. Certain additional information as to the Underlying REMIC Certificates may be obtained by performing an analysis of current Fannie Mae principal factors in the context of applicable information contained in the related Underlying REMIC Disclosure Documents, which may be obtained from Fannie Mae as described herein.

See “Description of the Certificates—The Underlying REMIC Certificates” herein.

Combination and Recombination

Holders of certain Classes of REMIC Certificates will be entitled, upon notice and payment of an exchange fee, to exchange all or a portion of such Classes for a proportionate interest in the related RCR Class or Classes in the proportions and combinations set forth on Schedule 1 hereto. The Holders of RCR Classes will be entitled to receive distributions of principal and interest from the related Class or Classes of REMIC Certificates. See “Description of the Certificates—Combination and Recombination” herein. Schedule 1 sets forth all of the available combinations of the Classes of REMIC Certificates and the related RCR Classes.

Interest Rates

The Fixed Rate Classes will bear interest at the applicable per annum interest rates set forth on the cover and on Schedule 1 hereto.

The Floating Rate and Inverse Floating Rate Classes and Components will bear interest during the initial Interest Accrual Period at initial interest rates determined as described below, and will bear interest during each Interest Accrual Period thereafter, subject to the applicable maximum and minimum interest rates, at rates determined as described below:

<u>Class</u>	<u>Initial Interest Rate</u>	<u>Maximum Interest Rate</u>	<u>Minimum Interest Rate</u>	<u>Formula for Calculation of Interest Rate</u>
S	3.10000%	8.60000%	0.00000%	8.6% – LIBOR
FB	6.40000%	9.50000%	0.90000%	LIBOR + 90 basis points
SB and SO*	7.92000%	7.92000%	0.00000%	56.76% – (6.6 × LIBOR)
F	6.40000%	9.50000%	0.90000%	LIBOR + 90 basis points
FA	6.40000%	9.50000%	0.90000%	LIBOR + 90 basis points
SA	1.90000%	7.40000%	0.00000%	7.4% – LIBOR
SN and SE*	6.31250%(1)	19.74924%	0.00036%	19.74924% – (2.49985844 × LIBOR)
SJ	9.30000%(1)	9.30000%	0.00000%	85.88254% – (10.94025157 × LIBOR)
SC	7.63749%(1)	19.28333%	0.00000%	19.28333% – (2.16666667 × LIBOR)
SD	7.75449%	18.20000%	0.00000%	18.2% – (2.16666667 × COFI)
SG	7.94856%(1)	18.57142%	0.00000%	19.77857% – (1.857143 × 10-Year Treasury Index)
SH	8.45833%(1)	21.00000%	0.00000%	21% – (2.33333333 × LIBOR)
SM	0.80000%(1)	0.80000%	0.00000%	8.8% – LIBOR
SK	2.62500%(1)	8.00000%	0.00000%	8% – LIBOR
SL	2.62500%(1)	8.00000%	0.00000%	8% – LIBOR

(1) The initial interest rates for these Classes are assumed rates. The actual initial interest rates for these Classes will be calculated on the basis of the applicable formulas for the calculation of such interest rates on the Index Determination Date occurring on March 21, 1997.

See “Description of the Certificates—Distributions of Interest—*Floating Rate and Inverse Floating Rate Classes*” herein.

On any Distribution Date when distributions of interest are to be allocated from REMIC Certificates to RCR Certificates, such distributions will be allocated on a pro rata basis from the applicable Class of REMIC Certificates to the related RCR Class.

* These Classes are RCR Classes. See “Description of the Certificates—Combination and Recombination” herein and Schedule I for a further description thereof.

Notional Classes

The notional principal balances of the Notional Classes will be equal to the indicated percentages of the outstanding principal balances as specified below immediately prior to the related Distribution Date:

<u>Class</u>	
S	100% of Segment I Balance
PH	13.3333333333% of PB Class
	13.3333333333% of PC Class
	10.0000000000% of PD Class
	6.6666666667% of PE Class
	6.6666666667% of PF Class
	6.6666666667% of PG Class
SA	100% of Segment II Balance
SO*	100% of SB Class
SN	100% of N Class
SJ	100% of J Class
SC	56.0352989740% of C Class
SD	43.9647010260% of C Class
SG	100% of G Class
SH	100% of H Class
SM	279.99696% of Class 1993-147-SA REMIC Certificate
SK and SL**	279.99696% of Class 1993-147-SA REMIC Certificate

* This Class is an RCR Class. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description thereof.

** Reduction of the notional principal balance of the Class 1993-147-SA REMIC Certificate will be allocated sequentially to the reduction of the notional principal balances of the SK and SL Classes, in that order, until the respective notional principal balances thereof are reduced to zero.

See “Description of the Certificates—Distributions of Interest—*Notional Classes*” and “—Yield Tables—*The Inverse Floating Rate Classes and the PH, SO and SE Classes*” herein.

Distributions of Principal

The portion of the Principal Distribution Amount allocated to each Class of Certificates will be determined by distributions of principal of the related Trust MBS or Underlying REMIC Certificates, as applicable, and, in the case of certain Group 1 and Group 2 Classes, the Group 1 Accrual Amount and Group 2 Accrual Amount, respectively. For such purposes, the Principal Distribution Amount will be allocated among the Groups of Classes as described herein under “Description of the Certificates—Distributions of Principal—*Principal Distribution Amount*”.

Group 1 Principal Distribution Amount

Group 1 Accrual Amount

To the Segment Group and the SB Class, in the proportions of 86.8421045918% and 13.1578954082%, respectively, until the Segment II Balance and the SB Class are reduced to their Targeted Balances, and then to the Z Class.

Group 1 Cash Flow Distribution Amount

- (i) To the Segment Group and the PA Class, in the proportions of 55.5555551063% and 44.4444448937%, respectively, until the Segment I Balance and the PA Class are reduced to their Planned Balances;
- (ii) To the PB, PC, PD, PE, PF and PG Classes, in their order, to their Planned Balances;

(iii) To the PO Class, the Segment Group and the SB and Z Classes as follows:

(x) 9.0909096371% to the PO Class, to zero, and

(y) 90.9090903629% as follows:

first, to the Segment Group and the SB Class, in the proportions of 86.8421045918% and 13.1578954082%, respectively, until the Segment II Balance and the SB Class are reduced to their Targeted Balances;

second, to the Z Class, to zero; and

third, to the Segment Group and the SB Class, in the proportions of 86.8421045918% and 13.1578954082%, respectively, to zero;

(iv) To the Segment Group and the PA Class, until the Segment I Balance and the PA Class are reduced to zero; and

(v) To the PB, PC, PD, PE, PF and PG Classes, in that order, to zero.

For a description of the “Segment Group,” “Segment I Balance” and “Segment II Balance,” see “Description of the Certificates—Distributions of Principal” herein.

Group 2 Principal Distribution Amount

Group 2 Accrual Amount

To the VA and VB Classes, in that order, to zero, and then to the ZA Class.

Group 2 Cash Flow Distribution Amount

To the A, B, VA, VB and ZA Classes, in that order, to zero.

Group 3 Principal Distribution Amount

To the N Class, to zero.

Group 4 Principal Distribution Amount

To the J Class, to zero.

Group 5 Principal Distribution Amount

To the C Class, to zero.

Group 6 Principal Distribution Amount

To the G Class, to zero.

Group 7 Principal Distribution Amount

To the H Class, to zero.

On any Distribution Date when distributions of principal are to be allocated from REMIC Certificates to RCR Certificates, such distributions will be allocated on a pro rata basis from the applicable Class of REMIC Certificates to the related RCR Class.

* Determined as specified under “Weighted Average Lives of the Certificates” herein.

** These Classes are RCR Classes. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description thereof.

ADDITIONAL RISK FACTORS

Additional Yield and Prepayment Considerations

The rate of distributions of principal of the Group 1 and Group 2 Classes will be sensitive in varying degrees to the rate of principal distributions on the MBS included in the related MBS Group, which in turn will reflect the rate of amortization (including prepayments) of the related Mortgage Loans. There can be no assurance that the Mortgage Loans underlying the MBS included in any MBS Group will have the characteristics assumed herein. Because the rate of principal distributions on the Group 1 and Group 2 Classes will be related to the rate of amortization of the Mortgage Loans underlying the related MBS, which are likely to include Mortgage Loans with remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the rate of principal distributions on such Classes is likely to differ from the rate anticipated by an investor, even if the related Mortgage Loans prepay at the indicated constant percentages of PSA.

The rate of distributions of principal of the Group 3, Group 4, Group 5, Group 6, Group 7 and Group 8 Classes will be directly related to the rate of principal distributions on the related Underlying REMIC Certificates, which in turn will be sensitive in varying degrees to the rate of payments of principal (including prepayments) of the related Mortgage Loans and the priority sequences affecting principal distributions on the Underlying REMIC Certificates. As described in the Underlying REMIC Disclosure Documents, the Underlying REMIC Certificates are subordinate in priority of principal distributions to certain other classes of certificates evidencing beneficial ownership interests in the related Underlying REMIC Trusts and, accordingly, distributions of principal of the related Mortgage Loans may for extended periods be applied to the distribution of principal of those classes of certificates having priority over the Underlying REMIC Certificates on any particular Distribution Date. In particular, certain of the Underlying REMIC Certificates are Support classes that are entitled to receive principal distributions on any Distribution Date only if scheduled distributions have been made on other specified classes of certificates evidencing beneficial ownership interests in the related Underlying REMIC Trusts. Accordingly, such Underlying REMIC Certificates may receive no principal distributions for extended periods of time or may receive principal distributions that vary widely from period to period. In addition, certain of the Underlying REMIC Certificates have Principal Balance Schedules and, as a result, may receive principal distributions at a rate faster or slower than would otherwise have been the case (and, in some cases, may receive no principal distributions for extended periods). Moreover, one of the Underlying REMIC Certificates has a notional principal balance that is based on the principal balance of another class in the related Underlying REMIC Trust which itself has a Principal Balance Schedule. Further, prepayments on the related Mortgage Loans may have occurred at a rate faster or slower than that initially assumed. This Prospectus Supplement contains no information as to whether the related Underlying REMIC Certificates have adhered to their Principal Balance Schedules, whether any related Support classes remain outstanding or whether such Underlying REMIC Certificates otherwise have performed as originally anticipated. Such information may be obtained by performing an analysis of current Fannie Mae principal factors in the context of applicable information contained in the related Underlying REMIC Disclosure Documents (as defined below), which may be obtained from Fannie Mae as described below.

It is highly unlikely that the Mortgage Loans underlying any of the MBS included in any MBS Group or the Underlying REMIC Certificates will prepay at any of the rates assumed herein, will prepay at a *constant* PSA rate until maturity or that such Mortgage Loans will prepay at the same rate. Investors must make their own decisions as to the appropriate assumptions, including prepayment assumptions, to be used in deciding whether to purchase the Certificates.

The effective yields on the Delay Classes (as defined herein) will be reduced below the yields otherwise produced because principal and interest payable on a Distribution Date will not be distributed until the 18th day following the end of the related Interest Accrual Period and will not bear interest during such delay. No interest at all will be paid on any Class after its principal balance has

been reduced to zero. As a result of the foregoing, the market values of the Delay Classes will be lower than would have been the case if there were no such delay.

DESCRIPTION OF THE CERTIFICATES

The following summaries describing certain provisions of the Certificates do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the remaining provisions of this Prospectus Supplement, the additional Disclosure Documents and the provisions of the Trust Agreement (defined below). Capitalized terms used and not otherwise defined in this Prospectus Supplement have the meanings assigned to such terms in the applicable Disclosure Document or the Trust Agreement (as the context may require).

General

Structure. The Trust and the Lower Tier REMIC will be created pursuant to a trust agreement dated as of March 1, 1997 (the “Trust Agreement”), executed by the Federal National Mortgage Association (“Fannie Mae”) in its corporate capacity and in its capacity as trustee (the “Trustee”), and the Certificates in the Classes and aggregate original principal balances set forth on the cover hereof will be issued by Fannie Mae pursuant thereto. A description of Fannie Mae and its business, together with certain financial statements and other financial information, is contained in the Information Statement.

The REMIC Certificates (other than the R and RL Classes) will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust. The interests in the Lower Tier REMIC other than the RL Class (the “Lower Tier Regular Interests”) will be designated as the “regular interests,” and the RL Class will be designated as the “residual interest,” in the Lower Tier REMIC. The assets of the Lower Tier REMIC will consist of the Trust MBS and Underlying REMIC Certificates (which evidence beneficial ownership interests in the Underlying REMIC Trusts).

Fannie Mae Guaranty. Fannie Mae guarantees to each holder of an MBS the timely payment of scheduled installments of principal of and interest on the underlying Mortgage Loans, whether or not received, together with the full principal balance of any foreclosed Mortgage Loan, whether or not such balance is actually recovered. The guaranty obligations of Fannie Mae with respect to the Underlying REMIC Certificates are described in the Underlying REMIC Disclosure Documents. In addition, Fannie Mae will be obligated to distribute on a timely basis to the Holders of Certificates required installments of principal and interest and to distribute the principal balance of each Class of Certificates in full no later than the applicable Final Distribution Date, whether or not sufficient funds are available in the Trust Account. The guaranties of Fannie Mae are not backed by the full faith and credit of the United States. See “Description of the Certificates—Fannie Mae’s Guaranty” in the REMIC Prospectus, “Description of Certificates—The Corporation’s Guaranty” in the MBS Prospectus, and “Description of the Certificates—General—Fannie Mae Guaranty” in the related Underlying REMIC Disclosure Documents.

Characteristics of Certificates. Each of the Group 1, Group 2 and Group 3 Classes and the RCR Certificates will be represented by one or more certificates (the “DTC Certificates”) to be registered at all times in the name of the nominee of the Depository (as defined herein), which Depository will maintain such Certificates through its book-entry facilities. When used herein with respect to any DTC Certificate, the terms “Holders” and “Certificateholders” refer to the nominee of the Depository.

The Group 4, Group 5, Group 6, Group 7 and Group 8 Classes will be issued and maintained and may be transferred by Holders only on the book-entry system of the Federal Reserve Banks. Such entities whose names appear on the book-entry records of a Federal Reserve Bank as the entities for whose accounts such Certificates have been deposited are herein referred to as “Holders” or “Certificateholders.”

A Holder is not necessarily the beneficial owner of a book-entry Certificate. Beneficial owners will ordinarily hold book-entry Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See “Description of the Certificates—Denominations, Certificate Form” in the REMIC Prospectus.

The R and RL Certificates will not be issued in book-entry form but will be issued in fully registered, certificated form. As to the R or RL Certificate, “Holder” or “Certificateholder” refers to the registered owner thereof. The R or RL Certificates will be transferable at the corporate trust office of the Transfer Agent, or at the agency of the Transfer Agent in New York, New York. The Transfer Agent initially will be State Street Bank and Trust Company in Boston, Massachusetts (“State Street”). A service charge may be imposed for any registration of transfer of the R or RL Certificate and Fannie Mae may require payment of a sum sufficient to cover any tax or other governmental charge. See also “Characteristics of the R and RL Classes” herein.

The distribution to the Holder of the R and RL Classes of the proceeds of any remaining assets of the Trust and the Lower Tier REMIC, as applicable, will be made only upon presentation and surrender of the related Certificate at the office of the Paying Agent. The Paying Agent initially will be State Street.

Authorized Denominations. The Certificates, other than the R and RL Certificates, will be issued in minimum denominations of \$1,000 and integral multiples of \$1 in excess thereof. The R and RL Classes will be issued as single Certificates and will not have principal balances.

Distribution Dates. Distributions on the Group 1 and Group 2 Classes will be made on the 18th day of each month (or, if such 18th day is not a business day, on the first business day next succeeding such 18th day) and distributions on the Group 3, Group 4, Group 5, Group 6, Group 7 and Group 8 Classes will be made on 25th day of each month (or, if the 25th day is not a business day, on the first business day next succeeding such 25th day) (each, a “Distribution Date”), commencing in the month following the Settlement Date.

Record Date. Each monthly distribution on the Certificates will be made to Holders of record on the last day of the preceding month.

REMIC Trust Factors. As soon as practicable following the eleventh calendar day of each month, Fannie Mae will publish or otherwise make available for each Class of Certificates the factor (carried to eight decimal places) which, when multiplied by the original principal balance of a Certificate of such Class, will equal the remaining principal balance of such Certificate after giving effect to the distribution of principal to be made on the following Distribution Date and any interest to be added as principal to the principal balances of the Accrual Classes on such Distribution Date.

Optional Termination. Consistent with its policy described under “Description of Certificates—Termination” in the MBS Prospectus, Fannie Mae will agree not to effect indirectly an early termination of the Lower Tier REMIC or the Trust through the exercise of its right to repurchase the Mortgage Loans underlying any MBS unless only one Mortgage Loan remains in the related Pool or the principal balance of such Pool at the time of repurchase is less than one percent of the original principal balance thereof.

Voting the Underlying REMIC Certificates. In the event any issue arises under the trust agreement governing any of the Underlying REMIC Trusts that requires the vote of holders of certificates outstanding thereunder, the Trustee will vote the related Underlying REMIC Certificates in accordance with instructions received from Holders of Certificates of the related Classes having principal balances aggregating not less than 51% of the aggregate principal balance of all such Classes outstanding. In the absence of such instructions, the Trustee will vote in a manner consistent, in its sole judgment, with the best interests of Certificateholders.

Combination and Recombination

General. Subject to the rules, regulations and procedures of the Depository, all or a portion of the SB, N and SN Classes of REMIC Certificates may be exchanged for a proportionate interest in one or more RCR Classes in the combinations and proportions set forth on Schedule 1 hereto. Similarly, all or a portion of one or more RCR Classes may be exchanged, in the combinations and proportions set forth on Schedule 1, for certain Classes of REMIC Certificates. This process may occur repeatedly.

Each RCR Class issued in an exchange will represent a beneficial ownership interest in, and will be entitled to receive a proportionate share of the distributions on, the related Class or Classes of REMIC Certificates, and the Holders of an RCR Class will be treated as the beneficial owners of a proportionate interest in the related Class or Classes of REMIC Certificates.

The Classes of REMIC Certificates and RCR Certificates that are outstanding at any given time, and the outstanding principal balances (or notional principal balances) of such Classes, will depend upon distributions of principal of such Classes as well as any exchanges that occur. The aggregate outstanding principal balance of all the Classes of REMIC Certificates and the RCR Classes (exclusive of any notional principal balance) will at all times equal the aggregate outstanding principal balance of the related Underlying REMIC Certificates and Trust MBS.

Procedures. A Holder proposing to effect an exchange must notify Fannie Mae's Capital Markets Department through a dealer who is a member of Fannie Mae's "REMIC Dealer Group." Such notice must be given in writing or by telefax not later than two business days before the proposed exchange date (which date, subject to Fannie Mae's approval, can be any business day other than the first or last business day of the month). The notice must include the outstanding principal balance of both the Certificates to be exchanged and the Certificates to be received, and the proposed exchange date. Promptly after the receipt of a Holder's notice, Fannie Mae will telephone the dealer to provide instructions for delivering the Certificates and the exchange fee to Fannie Mae by wire transfer. A Holder's notice becomes irrevocable on the second business day before the proposed exchange date.

A fee will be payable to Fannie Mae in connection with each exchange equal to $\frac{1}{32}$ of 1% of the outstanding principal balance (exclusive of any notional principal balance) of the Certificates to be submitted for exchange (but not less than \$2,000).

The first distribution on a REMIC Certificate or an RCR Certificate received in an exchange transaction will be made on the Distribution Date in the month following the month of the exchange. Such distribution will be made to the Holder of record as of the close of business on the last day of the month of the exchange.

Certificates to be exchanged must be delivered to Fannie Mae in the correct "exchange proportions" as shown in Schedule 1, which are based on the original principal balances of the related Classes of REMIC Certificates or RCR Certificates and will not change as a result of any reductions (or increases) in the outstanding principal balances of the Certificates.

Additional Considerations. The principal payment characteristics of an RCR Class will reflect the principal payment characteristics of the Class or Classes of REMIC Certificates which are combined to form such RCR Class. However, since an RCR Class may be formed through the combination of Classes of REMIC Certificates which have different principal payment characteristics, the principal payment characteristics of the RCR Classes should be viewed in terms of the resulting combination of REMIC Certificates in the aggregate rather than as a group of individual Classes of REMIC Certificates with different principal payment characteristics.

At any given time, a Holder's ability to exchange REMIC Certificates for RCR Certificates or to exchange RCR Certificates for REMIC Certificates will be limited by a number of factors. A Holder must, at the time of the proposed exchange, own the appropriate Classes in the appropriate proportions in order to effect a desired exchange. A Holder that does not own the appropriate Classes

or the appropriate portions of such Classes may not be able to obtain the necessary Class or Classes of REMIC Certificates or the RCR Class or Classes. The Holder of a needed Class may refuse or be unable to sell at a reasonable price or any price, or certain Classes may have been purchased and placed into other financial structures. In addition, principal distributions will, over time, diminish the amounts available for exchange. Only the combinations listed on Schedule 1 are permitted.

Book-Entry Procedures

General. The Group 1, Group 2 and Group 3 Classes and the RCR Certificates will be represented by one or more certificates (the “DTC Certificates”) to be registered at all times in the name of the nominee of The Depository Trust Company, a New York-chartered limited purpose trust company, or any successor depository selected or approved by Fannie Mae (the “Depository”). In accordance with its normal procedures, the Depository will record the positions held by each Depository participating firm (each, a “Depository Participant”) in the DTC Certificates, whether held for its own account or as a nominee for another person. State Street will act as Paying Agent for, and perform certain administrative functions with respect to, the DTC Certificates.

No person acquiring a beneficial ownership interest in the DTC Certificates (a “beneficial owner” or an “investor”) will be entitled to receive a physical certificate representing such ownership interest. An investor’s interest in the DTC Certificates will be recorded on the records of the brokerage firm, bank, thrift institution or other financial intermediary (a “financial intermediary”) that maintains such investor’s account for such purpose. In turn, the financial intermediary’s record ownership of such interest will be recorded on the records of the Depository (or of a Depository Participant that acts as an agent for the financial intermediary if such intermediary is not a Depository Participant). Accordingly, an investor will not be recognized by the Trustee or the Depository as a Certificateholder and must rely on the foregoing arrangements to evidence its interest in the DTC Certificates. Beneficial ownership of an investor’s interest in the DTC Certificates may be transferred only by compliance with the procedures of an investor’s financial intermediary and of Depository Participants. In general, beneficial ownership of an investor’s interest in the DTC Certificates will be subject to the rules, regulations and procedures governing the Depository and Depository Participants as in effect from time to time.

The Group 4, Group 5, Group 6, Group 7 and Group 8 Classes will be issued and maintained only on the book-entry system of the Federal Reserve Banks. Such Certificates may be held of record only by entities eligible to maintain book-entry accounts with the Federal Reserve Banks. Beneficial owners ordinarily will hold such Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. A Holder that is not the beneficial owner of such a Certificate, and each other financial intermediary in the chain to the beneficial owner, will have the responsibility of establishing and maintaining accounts for their respective customers. The rights of the beneficial owner of such a Certificate with respect to Fannie Mae and the Federal Reserve Banks may be exercised only through the Holder of such Certificate. Fannie Mae and the Federal Reserve Banks will have no direct obligation to a beneficial owner of such a Certificate that is not also the Holder of the Certificate. The Federal Reserve Banks will act only upon the instructions of the Holder in recording transfers of such a Certificate. See “Description of the Certificates—Denominations, Certificate Form” in the REMIC Prospectus.

Method of Distribution. Each distribution on the DTC Certificates will be distributed by the Paying Agent to the Depository in immediately available funds. The Depository will be responsible for crediting the amount of such distributions to the accounts of the Depository Participants entitled thereto, in accordance with the Depository’s normal procedures, which currently provide for distributions in same-day funds settled through the New York Clearing House. Each Depository Participant and each financial intermediary will be responsible for disbursing such distributions to the beneficial owners of the DTC Certificates that it represents. Accordingly, the beneficial owners may experience some delay in their receipt of distributions.

Fannie Mae's fiscal agent for the Group 4, Group 5, Group 6, Group 7 and Group 8 Classes is the Federal Reserve Bank of New York. The Federal Reserve Banks will make distributions on such Certificates on behalf of Fannie Mae on the applicable Distribution Dates by crediting Holders' accounts at the Federal Reserve Banks.

The Group 1 and Group 2 MBS

The MBS included in each group specified below (each, an "MBS Group") will have the aggregate unpaid principal balance and Pass-Through Rate set forth below and the general characteristics described in the MBS Prospectus. The MBS will provide that principal and interest on the related Mortgage Loans will be passed through monthly, commencing generally in the month following the month of the initial issuance of the MBS. The Mortgage Loans underlying the Group 1 and Group 2 MBS will be conventional Level Payment Mortgage Loans secured by first mortgages or deeds of trust on one- to four-family ("single-family") residential properties. Each Group 1 and Group 2 Mortgage Loan will have an original maturity of up to 30 years as described under "The Mortgage Pools" and "Yield Considerations" in the MBS Prospectus. The characteristics of the Group 1 and Group 2 MBS and the related Mortgage Loans as of March 1, 1997 (the "Issue Date") are expected to be as follows:

Group 1 MBS

Aggregate Unpaid Principal Balance	\$250,000,000
MBS Pass-Through Rate	7.50%

Group 1 Mortgage Loans

Range of WACs (per annum percentages)	7.75% to 10.00%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	358 months
Approximate Weighted Average CAGE	2 months

Group 2 MBS

Aggregate Unpaid Principal Balance	\$400,000,000
MBS Pass-Through Rate	7.00%

Group 2 Mortgage Loans

Range of WACs (per annum percentages)	7.25% to 9.50%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	344 months
Approximate Weighted Average CAGE	14 months

The Underlying REMIC Certificates

The Underlying REMIC Certificates represent beneficial ownership interests in the related Underlying REMIC Trusts, the assets of which evidence the direct or indirect beneficial ownership interests in certain MBS having the general characteristics set forth in the MBS Prospectus. The Underlying REMIC Certificates provide that distributions thereon will be passed through monthly, commencing in the month following the initial issuance thereof. The general characteristics of the Underlying REMIC Certificates are described in the Underlying REMIC Disclosure Documents.

The table contained in Exhibit A hereto sets forth certain information with respect to each of the Underlying REMIC Certificates, including the numerical designation of the related Underlying REMIC Trust, the class designation, the date of issue, the CUSIP number, the interest rate, the interest type, the final distribution date, the principal type, the original principal balance or notional principal balance of the entire class, the current principal factor for such class and the principal balance or notional principal balance of such class contained in the Lower Tier REMIC as of the Issue Date. The table also sets forth the approximate weighted average WAC, approximate weighted

average WAM and approximate weighted average CAGE of the Mortgage Loans underlying the related MBS as of the Issue Date, the underlying security type and the related Class Group.

To request further information regarding the Underlying REMIC Certificates, telephone Fannie Mae at 1-800-BEST-MBS or 202-752-6547. Other data specific to the Certificates is available in electronic form by calling Fannie Mae at 1-800-752-6440 or 202-752-6000. It should be noted that there may have been material changes in facts and circumstances since the dates the Underlying REMIC Disclosure Documents were prepared, including, but not limited to, changes in prepayment speeds and prevailing interest rates and other economic factors, which may limit the usefulness of the information set forth in such document.

Final Data Statement

Following the issuance of the Certificates, Fannie Mae will prepare a Final Data Statement setting forth, among other information, the current principal balances of the Underlying REMIC Certificates as of the Issue Date and, with respect to the Trust MBS, the Pool number, the current WAC (or original WAC, if the current WAC is not available) and the current WAM (or Adjusted WAM, if the current WAM is not available) of the Mortgage Loans underlying each Trust MBS, along with the weighted average of all the current or original WACs and the weighted average of all the current or Adjusted WAMs, based on the current unpaid principal balances of the Mortgage Loans underlying the Trust MBS as of the Issue Date. The Final Data Statement will not accompany this Prospectus Supplement but will be made available by Fannie Mae. To request the Final Data Statement, telephone Fannie Mae at 1-800-BEST-MBS or 202-752-6547. The contents of the Final Data Statement and other data specific to the Certificates are available in electronic form by calling Fannie Mae at 1-800-752-6440 or 202-752-6000.

Distributions of Interest

Categories of Classes

For the purpose of payments of interest, the Classes will be categorized as follows:

<u>Interest Type*</u>	<u>Classes</u>
Fixed Rate	PA, PB, PC, PD, PE, PF, PG, PH, Z, A, B, VA, VB and ZA
Accrual	Z and ZA
Floating Rate	FB, F and FA
Inverse Floating Rate	S, SB, SA, SN, SJ, SC, SD, SG, SH, SM, SK and SL
Interest Only	S, PH, SA, SN, SJ, SC, SD, SG, SH, SM, SK and SL
Principal Only	PO, N, J, C, G and H
RCR**	O, SO and SE
No Payment Residual	R and RL

* See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

** See "Description of the Certificates—Combination and Recombination" herein and Schedule 1 for a further description of the RCR Classes.

General. The interest-bearing Certificates will bear interest at the applicable per annum interest rates set forth on the cover or described herein. Interest on the interest-bearing Certificates is calculated on the basis of a 360-day year consisting of twelve 30-day months and is distributable monthly on each Distribution Date, commencing (except with respect to the Accrual Classes) in the month after the Settlement Date. Interest to be distributed or, in the case of the Accrual Classes, added to principal on each interest-bearing Certificate on a Distribution Date will consist of one month's interest on the outstanding principal balance of such Certificate immediately prior to such Distribution Date.

On any Distribution Date when distributions of interest are to be allocated from REMIC Certificates to RCR Certificates, such distributions will be allocated on a pro rata basis from the applicable Class of REMIC Certificates to the related RCR Class.

Interest Accrual Periods. Interest to be distributed on a Distribution Date will accrue on the interest-bearing Certificates during the one-month periods set forth below (each, an “Interest Accrual Period”).

<u>Classes</u>	<u>Interest Accrual Periods</u>
S, FB, SB, SO*, F, FA and SA Classes	One month period beginning on the 18th day of the month preceding the month of the Distribution Date and ending on the 17th day of the month of the Distribution Date
SN, SE*, SJ, SC, SG, SH, SM, SK and SL Classes	One month period beginning on the 25th day of the month preceding the month of the Distribution Date and ending on the 24th day of the month of the Distribution Date
All Fixed Rate Classes and the SD Class (collectively, the “Delay Classes”)	Calendar month preceding the month in which the Distribution Date occurs

See “Additional Risk Factors—Additional Yield and Prepayment Considerations” herein.

Accrual Classes. The Z and ZA Classes are Accrual Classes. Interest will accrue on the Accrual Classes at the applicable per annum rates set forth on the cover hereof; however, such interest will not be distributed thereon for so long as such respective Classes remain outstanding. Interest so accrued and unpaid on each Accrual Class will be added as principal to the principal balance thereof on each Distribution Date. Distributions of principal of each Accrual Class will be made as described herein.

Notional Classes. The S, PH, SA, SO*, SN, SJ, SC, SD, SG, SH, SM, SK and SL Classes will be Notional Classes. The Notional Classes will not have principal balances and will bear interest at the applicable per annum interest rates set forth on the cover or described herein during each Interest Accrual Period on their respective notional principal balances. The notional principal balances of the Notional Classes will be equal to the indicated percentages of the applicable outstanding principal balances specified below immediately prior to the related Distribution Date:

<u>Class</u>	
S	100% of Segment I Balance
PH	13.3333333333% of PB Class
	13.3333333333% of PC Class
	10.0000000000% of PD Class
	6.6666666667% of PE Class
	6.6666666667% of PF Class
	6.6666666667% of PG Class
SA	100% of Segment II Balance
SO*	100% of SB Class
SN	100% of N Class
SJ	100% of J Class
SC	56.0352989740% of C Class
SD	43.9647010260% of C Class
SG	100% of G Class
SH	100% of H Class
SM	279.99696% of Class 1993-147-SA REMIC Certificate
SK and SL**	279.99696% of Class 1993-147-SA REMIC Certificate

* These Classes are RCR Classes. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description thereof.

** Reduction of the notional principal balance of the Class 1993-147-SA REMIC Certificate will be allocated sequentially to the reduction of the notional principal balances of the SK and SL Classes, in that order, until the respective notional principal balances thereof are reduced to zero.

The notional principal balance of a Notional Class is used for purposes of the determination of interest distributions thereon and does not represent an interest in the principal distributions of the related Trust MBS or Underlying REMIC Certificate or the underlying Mortgage Loans. Although a

Notional Class will not have a principal balance, a REMIC Trust Factor (as described herein) will be published with respect to such Class that will be applicable to the notional principal balance thereof, and references herein to the principal balances of the Certificates generally shall be deemed to refer also to the notional principal balances of the Notional Classes.

Floating Rate and Inverse Floating Rate Classes. The following Classes will bear interest during their initial Interest Accrual Period at initial interest rates determined as described below, and will bear interest during each Interest Accrual Period thereafter, subject to the applicable maximum and minimum interest rates, at the rates determined as described below:

<u>Class</u>	<u>Initial Interest Rate</u>	<u>Maximum Interest Rate</u>	<u>Minimum Interest Rate</u>	<u>Formula for Calculation of Interest Rate</u>
S	3.10000%	8.60000%	0.00000%	8.6% – LIBOR
FB	6.40000%	9.50000%	0.90000%	LIBOR + 90 basis points
SB and SO*	7.92000%	7.92000%	0.00000%	56.76% – (6.6 × LIBOR)
F	6.40000%	9.50000%	0.90000%	LIBOR + 90 basis points
FA	6.40000%	9.50000%	0.90000%	LIBOR + 90 basis points
SA	1.90000%	7.40000%	0.00000%	7.4% – LIBOR
SN and SE*	6.31250%(1)	19.74924%	0.00036%	19.74924% – (2.49985844 × LIBOR)
SJ	9.30000%(1)	9.30000%	0.00000%	85.88254% – (10.94025157 × LIBOR)
SC	7.63749%(1)	19.28333%	0.00000%	19.28333% – (2.16666667 × LIBOR)
SD	7.75449%	18.20000%	0.00000%	18.2% – (2.16666667 × COFI)
SG	7.94856%(1)	18.57142%	0.00000%	19.77857% – (1.857143 × 10-Year Treasury Index)
SH	8.45833%(1)	21.00000%	0.00000%	21% – (2.33333333 × LIBOR)
SM	0.80000%(1)	0.80000%	0.00000%	8.8% – LIBOR
SK	2.62500%(1)	8.00000%	0.00000%	8% – LIBOR
SL	2.62500%(1)	8.00000%	0.00000%	8% – LIBOR

(1) The initial interest rates for these Classes are assumed rates. The actual initial interest rates for these Classes will be calculated on the basis of the applicable formulas for the calculation of such interest rates on the Index Determination Date occurring on March 21, 1997.

* These classes are RCR Classes. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description thereof.

The yields with respect to such Classes will be affected by changes in the applicable index as set forth in the table above (each, an “Index”), which changes may not correlate with changes in mortgage interest rates. It is possible that lower mortgage interest rates could occur concurrently with an increase in the level of the applicable Index. Conversely, higher mortgage interest rates could occur concurrently with a decrease in the level of such Index.

The establishment of each Index value by Fannie Mae and Fannie Mae’s determination of the rate or rates of interest for the applicable Class or Classes for the related Interest Accrual Period shall (in the absence of manifest error) be final and binding. Each such rate of interest may be obtained by telephoning Fannie Mae at 1-800-BEST-MBS or 202-752-6547.

Calculation of LIBOR

On each Index Determination Date, until the principal balances and notional principal balances of the S, FB, SB, SO*, F, FA, SA, SN, SE*, SJ, SC, SH, SM, SK and SL Classes have been reduced to zero, Fannie Mae will establish LIBOR for the related Interest Accrual Period in the manner described in the REMIC Prospectus under “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes—*LIBOR*.”

If on the initial Index Determination Date, Fannie Mae is unable to determine LIBOR in the manner specified in the REMIC Prospectus, LIBOR for the next succeeding Interest Accrual Period will be equal to 5.50% in the case of the S, FB, SB, SO*, F, FA and SA Classes, and will be equal to LIBOR as determined for such Interest Accrual Period for the related Underlying REMIC Certificates in the case of the SN, SE*, SJ, SC, SH, SM, SK and SL Classes.

Calculation of COFI

Except as otherwise specified below, the amount of interest which will accrue in respect of the SD Class (the “COFI” Class”) during each Interest Accrual Period following its initial Interest Accrual Period will be determined on the basis of the Eleventh District Cost of Funds Index for the second month next preceding the month in which such Interest Accrual Period commences if such Eleventh District Cost of Funds Index for such second preceding month is published on or before the tenth day of the month in which such Interest Accrual Period commences. For example, if the Eleventh District Cost of Funds Index for May is announced on or before July 10, interest accrued on the COFI Class for the Interest Accrual Period commencing in July and distributable in August will be based on the Eleventh District Cost of Funds relating to May. If the Eleventh District Cost of Funds Index for the applicable month is not published on or before the tenth day of the second following month, interest will accrue on the COFI Class at a rate determined as provided in the REMIC Prospectus under “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes—*COFI*.” Under certain circumstances, an alternative index may be applicable to the COFI Class. A change of index from the Eleventh District Cost of Funds Index to an alternative index will result in a change in the index level, and, particularly if LIBOR is the alternative index, could increase the degree of index volatility.

For information regarding historical values of the Eleventh District Cost of Funds Index as reported by the Federal Home Loan Bank of San Francisco (“FHLBSF”), see “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes—*COFI*” in the REMIC Prospectus.

The value of the Eleventh District Cost of Funds Index as reported by the FHLBSF for January 1997 was 4.821%.

Calculation of 10-Year Treasury Index

On each Index Determination Date, until the notional principal balance of the SG Class has been reduced to zero, Fannie Mae will ascertain the average yield on U.S. Treasury securities, adjusted to a constant maturity of ten years, in effect for the week ending on the last Friday immediately preceding the related Index Determination Date in the manner described in the REMIC Prospectus under “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes—*Treasury Index*” with respect to yields on U.S. Treasury securities at “constant maturity.”

* These Classes are RCR Classes. See “Description of the Certificates—Combination and Recombination” herein and Schedule I for a further description thereof.

Distributions of Principal

Categories of Classes

For the purpose of payments of principal, the Classes will be categorized as follows:

<u>Principal Type*</u>	<u>Classes</u>
Group 1 Classes	
PAC	PA, PB, PC, PD, PE, PF and PG
Scheduled	FB and F
TAC	SB
Accretion Directed	SB, F, FA and FB
Support	Z, PO and FA
Notional	S, PH and SA
RCR**	SO and O
Group 2 Classes	
Sequential Pay	A, B, VA, VB and ZA
Accretion Directed	VA and VB
Group 3 Classes	
Structured Collateral/Pass-Through	N
Notional	SN
RCR**	SE
Group 4 Classes	
Structured Collateral/Pass-Through	J
Notional	SJ
Group 5 Classes	
Structured Collateral/Pass-Through	C
Notional	SC and SD
Group 6 Classes	
Structured Collateral/Pass-Through	G
Notional	SG
Group 7 Classes	
Structured Collateral/Pass-Through	H
Notional	SH
Group 8 Classes	
Notional	SM, SK and SL
No Payment Residual	R and RL

* See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

** See "Description of the Certificates—Combination and Recombination" herein and Schedule 1 for a further description of the RCR Classes.

Principal Distribution Amount

On each Distribution Date, principal will be distributed on the Certificates in an amount (the "Principal Distribution Amount") equal to the sum of (i) the aggregate distributions of principal to be made on the Group 1 MBS in the month of such Distribution Date (the "Group 1 Cash Flow Distribution Amount") and any interest accrued and added on such Distribution Date to the principal balances of the Z Class (the "Group 1 Accrual Amount" and together with the Group 1 Cash Flow Distribution Amount, the "Group 1 Principal Distribution Amount"), (ii) the aggregate distributions of principal to be made on the Group 2 MBS in the month of such Distribution Date (the "Group 2 Cash Flow Distribution Amount") and any interest accrued and added on such Distribution Date to the principal balance of the ZA Class (the "Group 2 Accrual Amount" and together with the Group 2 Cash Flow Distribution Amount, the "Group 2 Principal Distribution Amount"), (iii) the distribution of principal concurrently made on the Class 1993-225-SA REMIC Certificate (the "Group 3 Principal Distribution Amount"), (iv) the distribution of principal concurrently made on the Class

1993-225-SK REMIC Certificate (the “Group 4 Principal Distribution Amount”), (v) the aggregate distributions of principal concurrently made on the Class 1993-168-SC and Class 1993-168-SG REMIC Certificates (the “Group 5 Principal Distribution Amount”), (vi) the distribution of principal concurrently made on the Class 1993-147-SE REMIC Certificate (the “Group 6 Principal Distribution Amount”) and (vii) the distribution of principal concurrently made on the Class 1993-147-SB REMIC Certificate (the “Group 7 Principal Distribution Amount”). The portion of each class of Underlying REMIC Certificates held by the Lower Tier REMIC will be as set forth in Exhibit A.

Group 1 Principal Distribution Amount

Group 1 Accrual Amount

On each Distribution Date, the Group 1 Accrual Amount, if any, will be distributed as principal of the Group 1 Classes specified below, as follows:

- (i) concurrently, to the Segment Group (defined below) and the SB Class, in the proportions of 86.8421045918% and 13.1578954082%, respectively, until the Segment II Balance and the principal balance of the SB Class are reduced to their respective Targeted Balances for such Distribution Date; and
- (ii) thereafter to the Z Class.

Accretion
Directed
Classes
and

Class

Group 1 Cash Flow Distribution Amount

On each Distribution Date, the Group 1 Cash Flow Distribution Amount will be distributed as principal of the Group 1 Classes and Components as specified below:

- (i) concurrently, to the Segment Group and the PA Class, in the proportions of 55.5555551063% and 44.4444448937%, respectively, until the Segment I Balance and the principal balance of the PA Class are reduced to their respective Planned Balances for such Distribution Date;
- (ii) sequentially, to the PB, PC, PD, PE, PF and PG Classes, in that order, until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;

PAC
Classes
and
Segment
Group

- (iii) to the PO Class, the Segment Group, the SB Class and the Z Class, until the Segment II Balance and the principal balances of such Classes are reduced to zero, as follows:

- (x) 9.0909096371% of such amount to the PO Class, and
- (y) 90.9090903629% of such amount in the following order of priority:

first, concurrently, to the Segment Group and the SB Class, in the proportions of 86.8421045918% and 13.1578954082%, respectively, until the Segment II Balance and the principal balance of the SB Class are reduced to their respective Targeted Balances for such Distribution Date;

second, to the Z Class, until the principal balance thereof is reduced to zero; and

third, concurrently, to the Segment Group and the SB Class, in the proportions of 86.8421045918% and 13.1578954082%, respectively without regard to their Targeted Balances and until Segment II Balance and the principal balance of the SB Class are reduced to zero;

Support/TAC
Classes

Group

(iv) concurrently, to the Segment Group and the PA Class, in the proportions of 55.5555551063% and 44.4444448937%, respectively, without regard to the Planned Balances thereof and until the Segment I Balance and the principal balance of the PA Class are reduced to zero; and

(v) sequentially, to the PB, PC, PD, PE, PF and PG Classes, in that order, without regard to their Planned Balances and until the respective principal balances thereof are reduced to zero.

PAC
Classes
and
Segment
Group

The “Segment Group” consists of the F, FB and FA Classes, and any distribution to the Segment Group will be made in the following order of priority:

(i) concurrently, to the F and FB Classes, in proportion to their original principal balances (or 36.2680206728% and 63.7319793272%, respectively), until the principal balances thereof are reduced to their respective Scheduled Balances for such Distribution Date;

(ii) to the FA Class, until the principal balance thereof is reduced to zero; and

(iii) concurrently, to the F and FB Classes, in proportion to their original principal balances, without regard to their Scheduled Balances and until the principal balances thereof are reduced to zero.

The “Segment I Balance” for any Distribution Date is equal to \$13,741,111 minus the sum of all amounts previously applied pursuant to clauses (i) and (iv) under “*The Group 1 Cash Flow Distribution Amount.*”

The “Segment II Balance” for any Distribution Date is equal to \$54,467,368 minus the sum of all amounts previously applied pursuant to clause (i) under “*The Group 1 Accrual Amount*” and clause (iii) under “*The Group 1 Cash Flow Distribution Amount.*”

Group 2 Principal Distribution Amount

Group 2 Accrual Amount

On each Distribution Date, the Group 2 Accrual Amount, if any, will be distributed, sequentially, as principal of the VA and VB Classes, in that order, until the respective principal balances thereof are reduced to zero, and then to the ZA Class.

Accretion
Directed
Classes
and
Accrual

Group 2 Cash Flow Distribution Amount

On each Distribution Date, the Group 2 Cash Flow Distribution Amount will be distributed, sequentially, as principal of the A, B, VA, VB and ZA Classes, in that order, until the respective principal balances thereof are reduced to zero.

Sequential
Pay
Classes

Group 3 Principal Distribution Amount

On each Distribution Date, the Group 3 Principal Distribution Amount will be distributed as principal of the N Class, until the principal balance thereof is reduced to zero.

Group 4 Principal Distribution Amount

On each Distribution Date, the Group 4 Principal Distribution Amount will be distributed as principal of the J Class, until the principal balance thereof is reduced to zero.

Group 5 Principal Distribution Amount

On each Distribution Date, the Group 5 Principal Distribution Amount will be distributed as principal of the C Class, until the principal balance thereof is reduced to zero.

Group 6 Principal Distribution Amount

On each Distribution Date, the Group 6 Principal Distribution Amount will be distributed as principal of the G Class, until the principal balance thereof is reduced to zero.

Group 7 Principal Distribution Amount

On each Distribution Date, the Group 7 Principal Distribution Amount will be distributed as principal of the H Class, until the principal balance thereof is reduced to zero.

Structured
Collateral/
Pass-Through
Classes

On any Distribution Date when distributions of principal are to be allocated from REMIC Certificates to RCR Certificates, such distributions will be allocated on a pro rata basis from the applicable Class of REMIC Certificates to the related RCR Class.

Structuring Assumptions

Pricing Assumptions. Unless otherwise specified, the information in the tables in this Prospectus Supplement has been prepared on the basis of the actual characteristics of each Pool underlying the Underlying REMIC Certificates, the priority sequence affecting the principal distributions on the Underlying REMIC Certificates and the following assumptions (such characteristics and assumptions, collectively, the “Pricing Assumptions”):

- the Mortgage Loans underlying the Trust MBS have original terms to maturity of 360 months and the remaining terms to maturity, CAGEs and interest rates, respectively, as specified:

Group 1	\$ 25,000,000	360	0	8.15%
	62,500,000	359	1	8.15
	62,500,000	358	2	8.15
	62,500,000	357	2	8.15
	37,500,000	356	3	8.15
Group 2	\$ 20,000,000	342	16	7.59%
	80,000,000	343	15	7.59
	140,000,000	344	14	7.59
	90,000,000	345	13	7.59
	70,000,000	346	12	7.59

- the Mortgage Loans prepay at the constant percentages of PSA specified in the related table;

- the closing date for the sale of the Certificates is the Settlement Date; and
- the first Distribution Date for the Certificates occurs in the month following the Settlement Date.

Prepayment Assumptions. Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used in this Prospectus Supplement is the Public Securities Association’s standard prepayment model (“PSA”). To assume a specified rate of PSA is to assume a specified rate of prepayment each month of the then outstanding principal balance of a pool of new mortgage loans computed as described under “Description of the Certificates—Prepayment Models” in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any PSA rate or at any other constant rate.

Structuring Ranges and Rate. The Principal Balance Schedules have been prepared on the basis of the Pricing Assumptions and the assumption that the Mortgage Loans prepay at a *constant* PSA rate within the Structuring Ranges and at the rate set forth below.

<u>Principal Balance Schedule References</u>	<u>Related Classes</u>	<u>Structuring Ranges and Rate</u>
Planned Balances	PA, PB, PC, PD, PE, PF and PG	Between 100% and 275%
Planned Balance	(1)	Between 100% and 275%
Scheduled Balances	FB and F	Between 155% and 175%
Targeted Balance	SB	165%
Targeted Balance	(2)	165%

(1) The Structuring Range for the Segment Group is associated with the Segment I Balance but not with the individual balances of the F and FB Classes, which are Scheduled Classes, and the FA Class, which is a Support Class.

(2) The Structuring Rate for the Segment Group is associated with the Segment II Balance but not with the individual balances of the F and FB Classes, which are Scheduled Classes, and the FA Class, which is a Support Class.

There is no assurance that the principal balance of any Class listed above will conform on any Distribution Date to the applicable balance specified for such Distribution Date in the Principal Balance Schedules herein, or that distributions of principal on such Class will begin or end on the respective Distribution Dates specified therein. Because any excess of the principal distribution on any Distribution Date over the amount necessary to reduce any such Class to its scheduled balance will be distributed, the ability to so reduce such Class will not be enhanced by the averaging of high and low principal payments from month to month. In addition, even if prepayments occur at rates falling within the applicable Structuring Ranges specified above, principal distributions may be insufficient to reduce the applicable Classes to their scheduled balances if such prepayments do not occur at a *constant* PSA rate. Moreover, because of the diverse remaining terms to maturity of the Mortgage Loans (which may include recently originated Mortgage Loans), the Classes specified above may not be reduced to their scheduled balances, even if prepayments occur at a *constant* rate within the applicable Structuring Ranges or at the rates specified above.

Initial Effective Ranges. The Effective Range for a Class is the range of prepayment rates (measured by *constant* PSA rates) that would reduce such Class to its scheduled balance on each

Distribution Date. The Initial Effective Ranges set forth in the table below are based upon the assumed characteristics of the Mortgage Loans specified in the Pricing Assumptions.

<u>Related Classes</u>	<u>Initial Effective Ranges</u>
PA	Between 100% and 586%
PB	Between 100% and 340%
PC	Between 100% and 279%
PD	Between 100% and 275%
PE	Between 100% and 275%
PF	Between 80% and 275%
PG	Between 76% and 275%
FB	Between 153% and 175%
F	Between 153% and 175%

The actual Effective Ranges at any time will be based upon the actual characteristics of the Mortgage Loans at such time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. The actual Effective Ranges calculated on the basis of the actual characteristics likely will differ from the Initial Effective Ranges. As a result, the applicable Classes might not be reduced to their scheduled balances even if prepayments were to occur at a *constant* PSA rate within the Initial Effective Ranges (particularly if such rate were at the lower or higher end of such ranges). In addition, even if prepayments occur at rates falling within the actual Effective Ranges, principal distributions may be insufficient to reduce the applicable Classes to their scheduled balances if such prepayments do not occur at a *constant* PSA rate. It is highly unlikely that the Mortgage Loans will prepay at any *constant* PSA rate. In general, the actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time. The principal payment stability of the PAC and Scheduled Classes will be supported in part by the related Support Classes. When the related Support Classes are retired, any outstanding PAC and Scheduled Classes may no longer have Effective Ranges and will be more sensitive to prepayments.

Principal Balance Schedules

<u>Distribution Date</u>	<u>Segment 1 Planned Balance</u>	<u>PA Class Planned Balance</u>	<u>PB Class Planned Balance</u>	<u>PC Class Planned Balance</u>	<u>PD Class Planned Balance</u>	<u>PE Class Planned Balance</u>

Yield Tables

General. The tables below indicate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of applicable Classes to various constant percentages of PSA and, where specified, to changes in the applicable Index. The yields set forth in the tables were calculated by determining the monthly discount rates that, when applied to the assumed streams of cash flows to be paid on the applicable Classes, would cause the discounted present value of such assumed streams of cash flows to equal the assumed aggregate purchase prices of such Classes and converting such monthly rates to corporate bond equivalent rates. Such calculations do not take into account variations that may occur in the interest rates at which investors may be able to reinvest funds received by them as distributions on the Certificates and consequently do not purport to reflect the return on any investment in the Certificates when such reinvestment rates are considered. *There can be no assurance that the pre-tax yields on the Certificates will correspond to any of the pre-tax yields shown herein or that the aggregate purchase prices of the Certificates will be as assumed. In addition, there can be no assurance that the applicable Index will correspond to the levels shown herein. Furthermore, because some of the Mortgage Loans will likely have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal distributions on the Certificates are likely to differ from those assumed, even if all Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is not likely that the Mortgage Loans will prepay at a constant PSA rate until maturity, that all of such Mortgage Loans will prepay at the same rate or that the level of the applicable Index will remain constant.*

The Inverse Floating Rate Classes and the PH, SO and SE Classes. **The yields to investors in the Inverse Floating Rate Classes and the PH, SO** and SE** Classes will be sensitive in varying degrees to the rate of principal payments (including prepayments) of the Mortgage Loans underlying the related MBS Group or Underlying REMIC Certificates, as applicable, and in the case of the Inverse Floating Rate Classes and the SO** and SE** Classes, to the level of the applicable Index. The Mortgage Loans generally can be prepaid at any time. In addition, the rate of principal payments (including prepayments) of the Mortgage Loans is likely to vary, and may vary considerably, from Pool to Pool. As indicated in the tables below, it is possible that, under certain Index and prepayment scenarios, investors in the Inverse Floating Rate Classes (other than the SB Class) and the SO** and SE** Classes would not fully recoup their initial investments. In addition, on the basis of the assumptions described below, the yield to maturity on the PH Class would be 0% if prepayments were to occur at a constant rate of approximately 506% PSA. If the actual prepayment rate of the Mortgage Loans underlying the related MBS Group were to exceed the foregoing level for as little as one month while equaling such level for the remaining months, investors in the PH Class would not fully recoup their initial investment.**

Changes in an Index may not correlate with changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur concurrently with an increased level of such Index.

The information set forth in the following tables was prepared on the basis of the Pricing Assumptions and the assumptions that (i) the interest rates applicable to the Inverse Floating Rate Classes and the SO** and SE** Classes for the initial Interest Accrual Period are the actual and assumed rates appearing in the table under “Distributions of Interest—*Floating Rate and Inverse Floating Rate Classes*” herein and for each Interest Accrual Period subsequent to the initial Interest Accrual Period will be based on the indicated level of the applicable Index and (ii) the aggregate

purchase prices of the Classes listed below (expressed in each case as a percentage of original principal balance) are as follows:

<u>Class</u>	<u>Price*</u>
PH	35.0%
S	4.0%
SA	5.0%
SB	90.0%
SO**	20.0%
SN	55.0%
SE**	65.0%
SJ	55.0%
SC	20.0%
SD	20.0%
SG	35.0%
SH	20.0%
SM	3.0%
SK	5.0%
SL	10.0%

* The prices do not include accrued interest. Accrued interest has been added to such prices in calculating the yields set forth in the tables below.

** These Classes are RCR Classes. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description thereof.

* The pre-tax yield to maturity would be less than (99.9%).

The Principal Only Classes and the O Class. **The Principal Only Classes and the O** Class will not bear interest. As indicated in the tables below, a low rate of principal payments (including prepayments) on the Mortgage Loans underlying the related Underlying REMIC Certificates and the Group 1 MBS, as applicable, will have a negative effect on the yields to investors in the Principal Only Classes and the O** Class.**

** This is an RCR Class. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description thereof.

The information set forth in the following table was prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the Principal Only Classes and the O** Class (expressed in each case as a percentage of original principal balance) are as follows:

<u>Class</u>	<u>Price</u>
PO	65.0%
N	27.0%
J	30.0%
C	70.0%
G	45.0%
H	55.0%
O**	70.0%

** This Class is an RCR Class. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description thereof.

	<u>50%</u>	<u>100%</u>	<u>165%</u>	<u>275%</u>	<u>500%</u>
O**	2.7%	3.2%	7.1%	10.6%	20.2%

** This Class is an RCR Class. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description thereof.

Weighted Average Lives of the Certificates

The weighted average life of a Certificate is determined by (a) multiplying the amount of the reduction, if any, of the principal balance of such Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date, (b) summing the results and (c) dividing the sum by the aggregate amount of the reductions in principal balance of such Certificate referred to in clause (a). For a description of the factors which may influence the weighted average life of a Certificate, see “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including the timing of changes in such rate of principal payments, the priority sequences of distributions of principal of the Group 1 and Group 2 Classes and, in the case of the Group 3, Group 4, Group 5, Group 6, Group 7 and Group 8 Classes, the priority sequences of distributions of principal of the related Underlying REMIC Certificates. The weighted average lives of certain Group 1 Classes will also depend on the distribution of principal of certain Classes in accordance with the Principal Balance Schedules. In particular, if the amount distributable as principal of certain Group 1 Classes on any Distribution Date exceeds the amount required to reduce the principal balances of such Classes to their respective scheduled amounts as set forth in the Principal Balance Schedules, such excess principal will be distributed on the applicable remaining Classes on such Distribution Date. Conversely, if the principal distributable on any Distribution Date is less than the amount so required to reduce such Classes to their respective scheduled amounts, no principal will be distributed on the applicable remaining Classes on such Distribution Date. Accordingly, the rate of principal payments on the Mortgage Loans underlying the Group 1 MBS is expected to have a greater effect on the weighted average lives of the related Support Classes and, under certain scenarios, the related Scheduled and TAC Classes, than on the weighted average lives of the PAC Classes. See “Distributions of Principal” herein and “Description of the Certificates—Distributions of Principal” in the Underlying REMIC Disclosure Documents.

The effect of the foregoing factors may differ as to various Classes and the effects on any Class may vary at different times during the life of such Class. Accordingly, no assurance can be given as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their respective original principal balances, variability in the weighted average lives of such Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

Decrement Tables

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each of the dates shown at various constant PSA levels and the corresponding weighted average lives of such Classes. The tables have been prepared on the basis of the Pricing Assumptions, except that with respect to the information set forth for each such Class under 0% PSA it has been assumed that the underlying Mortgage Loans have the original and remaining terms to maturity and bear interest at the per annum rates specified below:

Trust MBS and Mortgage Loans relating to Underlying REMIC Trusts	Original Terms to Maturity	Remaining Terms to Maturity	Interest Rates	Related Groups
Group 1 MBS	360 months	360 months	10.0%	Group 1
Group 2 MBS	360 months	360 months	9.5%	Group 2
1993-225	360 months	321 months	9.0%	Groups 3 and 4
1993-168	360 months	318 months	9.5%	Group 5
1993-147	360 months	317 months	9.5%	Groups 6, 7 and 8

It is not likely that (i) all of the underlying Mortgage Loans will have the interest rates, CAGEs or remaining terms to maturity assumed or (ii) the underlying Mortgage Loans will prepay at a constant PSA level. In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA levels, even if the distributions of the weighted average remaining terms to maturity and the weighted average CAGEs of the Mortgage Loans are identical to the distributions of the remaining terms to maturity and CAGEs specified in the Pricing Assumptions.

* Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

** Determined as specified under “Weighted Average Lives of the Certificates” herein.

† In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

Characteristics of the R and RL Classes

The R and RL Classes will not have principal balances and will not bear interest. The Holder of the R Class will be entitled to receive the proceeds of the remaining assets of the Trust, if any, after the principal balances of all Classes have been reduced to zero, and the Holder of the RL Class will be entitled to receive the proceeds of the remaining assets of the Lower Tier REMIC, if any, after the principal balances of the Lower Tier Regular Interests have been reduced to zero. It is not anticipated that there will be any material assets remaining in either such circumstance.

The R and RL Classes will be subject to certain transfer restrictions. No transfer of record or beneficial ownership of an R or RL Certificate will be allowed to a “disqualified organization.” In addition, no transfer of record or beneficial ownership of an R or RL Certificate will be allowed to any person that is not a “U.S. Person” without the written consent of Fannie Mae. Under regulations issued by the Treasury Department on December 23, 1992 (the “Regulations”), a transfer of a “noneconomic residual interest” to a U.S. Person will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R and RL Classes will constitute noneconomic residual interests under the Regulations. Any transferee of an R or RL Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 on which the transferee provides its taxpayer identification number. See “Description of the Certificates—Additional Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates” in the REMIC Prospectus. Transferors of an R or RL Certificate should consult with their own tax advisors for further information regarding such transfers.

The Holder of the R Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Trust, and the Holder of the RL Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Lower Tier REMIC. See “Certain Federal Income Tax Consequences” in the REMIC Prospectus. Pursuant to the Trust Agreement, Fannie Mae will be obligated to provide to such Holders (i) such information as is necessary to enable them to prepare their federal income tax returns and (ii) any reports regarding the R or RL Class that may be required under the Code.

CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The following tax discussion, when read in conjunction with the discussion of “Certain Federal Income Tax Consequences” in the REMIC Prospectus, describes the current federal income tax treatment of investors in the Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of investors, some of which may be subject to special rules. Investors should consult their own tax advisors in determining the federal, state, local and any other tax consequences to them of the purchase, ownership and disposition of the Certificates.

REMIC Elections and Special Tax Attributes

Elections will be made to treat the Lower Tier REMIC and the Trust as REMICs for federal income tax purposes. The REMIC Certificates, other than the R and RL Classes, will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust. The Lower Tier Regular Interests will be designated as the “regular interests” and the RL Class will be designated as the “residual interest” in the Lower Tier REMIC.

As a consequence of the qualification of the Lower Tier REMIC and the Trust as REMICs, the REMIC Certificates and any related RCR Certificates generally will be treated as “regular or residual interests in a REMIC” for domestic building and loan associations, “real estate assets” for real estate investment trusts, and, except for the R and RL Classes, as “qualified mortgages” for other REMICs. The Small Business Job Protection Act of 1996 repeals the bad debt reserve method of accounting for mutual savings banks and domestic building and loan associations for tax years beginning after

December 31, 1995. As a result, section 593(d) of the Code is no longer applicable to treat the REMIC Certificates as “qualifying real property loans.” See “Certain Federal Income Tax Consequences—Special Tax Attributes” in the REMIC Prospectus.

Taxation of Beneficial Owners of Regular Certificates

The Notional Classes, the Principal Only Classes, the Accrual Classes and the SB Class will be, and certain other Classes of REMIC Certificates may be, issued with original issue discount (“OID”) for federal income tax purposes, which generally will result in recognition of some taxable income in advance of the receipt of the cash attributable to such income. The Prepayment Assumption that will be used in determining the rate of accrual of original issue discount will be 165% PSA in the case of the Group 1 Classes, 150% PSA in the case of the Group 2, Group 5 and Group 8 Classes, 115% PSA in the case of the Group 3 Classes, 125% PSA in the case of the Group 4 Classes, 145% PSA in the case of the Group 6 Classes and 200% PSA in the case of the Group 7 Classes. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Original Issue Discount*” in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at any of those rates or any other rate. See “Description of the Certificates—Weighted Average Lives of the Certificates” herein and “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus. In addition, certain Classes of REMIC Certificates may be treated as having been issued at a premium for federal income tax purposes. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Certificates Purchased at a Premium*” in the REMIC Prospectus.

Taxation of Beneficial Owners of Residual Certificates

Under the Regulations, neither the R Class nor the RL Class will have significant value. Special rules regarding the treatment of “excess inclusions” by certain thrift institutions no longer apply because of the amendment of section 593 of the Code by the Small Business Job Protection Act of 1996. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Excess Inclusions*” in the REMIC Prospectus.

For purposes of determining the portion of the taxable income of the Trust (or the Lower Tier REMIC) that generally will not be treated as excess inclusions, the rate to be used is 120% of the “federal long-term rate.” The rate will be published on or about February 20, 1997. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Excess Inclusions*” and “—Foreign Investors—*Residual Certificates*” in the REMIC Prospectus. The federal income tax consequences of any consideration paid to a transferee on the transfer of an R or RL Certificate are unclear; any transferee receiving such consideration should consult its own tax advisors.

Fannie Mae intends to determine the accruals of OID on the Underlying REMIC Certificates using the same Prepayment Assumption, as provided above, that will be used to determine the accruals of OID on the related Regular Certificates. The IRS, however, could take the position that the proper Prepayment Assumption to be used with respect to the Underlying REMIC Certificates is the Prepayment Assumption set forth in the related Underlying REMIC Disclosure Documents. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Taxable Income or Net Loss of a REMIC Trust*” in the REMIC Prospectus.

Taxation of Beneficial Owners of RCR Certificates

General. The arrangement pursuant to which the RCR Classes will be created, sold and administered will be classified as a grantor trust under subpart E, Part I of subchapter J of the Code. The interest in the REMIC Certificates that have been exchanged for RCR Certificates (including any exchanges effective on the Settlement Date) will be the assets of such trust and the RCR Certificates will evidence an ownership interest in those REMIC Certificates. For a general discussion of the

federal income tax treatment of investors in REMIC Certificates, see “Certain Federal Income Tax Consequences” in the REMIC Prospectus.

The RCR Classes will represent beneficial ownership of the underlying Regular Certificates set forth in Schedule 1. Certain RCR Certificates (the “Strip RCR Certificates”) will represent the right to receive a disproportionate part of the principal or interest payments on a single underlying Regular Certificate. Each RCR Certificate other than a Strip RCR Certificate (a “Combination RCR Certificate”) will represent beneficial ownership of undivided interests in two or more underlying Regular Certificates.

The Strip RCR Classes are the O and SO Classes. The SE Class is a Combination RCR Class.

Strip RCR Classes. A purchaser of a Strip RCR Certificate will be treated as owning, pursuant to section 1286 of the Code, “stripped bonds” to the extent of its share of principal payments and “stripped coupons” to the extent of its share of interest payments on the underlying Regular Certificates. Although it is unclear how the OID computations on a Strip RCR Certificate should be made, Fannie Mae intends to treat each Strip RCR Certificate as a single debt instrument for purposes of information reporting. The IRS could contend, however, that a Strip RCR Certificate should be treated as an interest in the underlying Regular Certificate to the extent that the Strip RCR Certificate represents an equal pro rata portion of principal and interest on such Regular Certificate, and an installment obligation consisting of “stripped bonds” or “stripped coupons” with respect to the remainder. Investors should consult their own tax advisors as to the proper treatment of a Strip RCR Certificate in this regard.

A beneficial owner who purchases a Strip RCR Certificate should calculate OID with respect to the Strip RCR Certificate and include such OID in its ordinary income for federal income tax purposes as it accrues, which may be prior to the receipt of the cash attributable to such income, in accordance with a constant yield method that takes into account the compounding of interest. Although the matter is not entirely clear, a beneficial owner of a Strip RCR Certificate should accrue OID using a method similar to that described with respect to the accrual of OID on a Regular Certificate under “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Original Issue Discount*” in the REMIC Prospectus. A beneficial owner, however, determines its yield to maturity based on its purchase price and on a schedule of payments projected using a prepayment assumption. A beneficial owner then makes periodic adjustments to take into account actual prepayment experience. With respect to a particular beneficial owner, it is not clear whether the prepayment assumption used for calculating OID would be one determined at the time of purchase of the Strip RCR Certificate or would be the original Prepayment Assumption with respect to the underlying Regular Certificates. Investors should consult their own tax advisors regarding this matter. For purposes of information reporting relating to OID, Fannie Mae will use the original yield to maturity of the Strip RCR Certificate, calculated based on the original Prepayment Assumption.

An investor that exchanges an underlying Regular Certificate for Strip RCR Classes and then sells Strip RCR Certificates also is subject to the coupon stripping rules of section 1286 of the Code. As of the date of such sale, the beneficial owner must allocate its basis in the Regular Certificate between the part of the Regular Certificate underlying the Strip RCR Certificates sold and the part of the regular Certificate underlying the Strip RCR Certificates retained in proportion to their relative fair market values. Section 1286 of the Code treats the beneficial owner as purchasing the Strip RCR Certificates retained for the amount of the basis allocated to such Certificates. Then beneficial owner calculates OID with respect to such retained Certificates as described above.

Upon the sale of the Strip RCR Certificates, the investor will realize gain or loss on the sale of its part of the underlying Regular Certificate in an amount equal to the difference between the amount realized and its adjusted basis in such part. The seller’s adjusted basis in such part generally is equal to the seller’s allocated cost of such part, increased by income previously included, and reduced (but not below zero) by distributions previously received and by any amortized premium in respect of such part. If a beneficial owner holds the Certificates as a capital asset, any gain or loss realized will be

capital gain or loss, except to the extent provided under “Certain Federal Income Tax Consequences—Sales of Certificates” in the REMIC Prospectus.

Although the matter is not free from doubt, an investor that acquires in one transaction a combination of Strip RCR Certificates that may be exchanged for underlying Regular Certificates should be treated as owning the underlying Regular Certificates. If an investor acquires such a combination in separate transactions, the law is unclear as to whether the combination should be aggregated or each Strip RCR Certificate should be treated as a separate debt instrument.

Combination RCR Classes. A beneficial owner of a Combination RCR Certificate will be treated as the beneficial owner of a proportionate interest in the related Class or Classes of REMIC Certificates. A purchaser of a Combination RCR Certificate must allocate its purchase price among the related Classes of REMIC Certificates in proportion to their relative fair market values at the time of purchase. Such owner should account for its ownership interest in each related Class of REMIC Certificates as described under “—Taxation of Beneficial Owners of Regular Certificates” herein and “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates” in the REMIC Prospectus. When a beneficial owner sells a Combination RCR Certificate, such owner must allocate the sale proceeds among the related Classes of REMIC Certificates in proportion to their relative fair market value at the time of sale.

Exchanges. An exchange, as described under “Description of the Certificates—Combination and Recombination” herein, by a beneficial owner of (i) a combination of REMIC Certificates or (ii) all or a portion of an RCR Class for the related RCR Class or REMIC Certificates, respectively, will not be a taxable exchange. Such owner will be treated as continuing to own after the exchange the same combination of interests in the related REMIC Certificates that it owned immediately prior to the exchange.

PLAN OF DISTRIBUTION

General. The Dealer will receive the Certificates in exchange for the Trust MBS and the Underlying REMIC Certificates pursuant to a Fannie Mae commitment. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect such transactions to or through dealers.

Increase in Certificates. Before the Settlement Date, Fannie Mae and the Dealer may agree to offer hereby Group 1 and Group 2 Classes in addition to those contemplated as of the date hereof. In such event, the Trust MBS will be increased in principal balance, but it is expected that all such additional Trust MBS will have the same characteristics as described herein under “Description of the Certificates—The Trust MBS.” The proportion that the original principal balance of each Group 1 and Group 2 Class bears to the aggregate original principal balance of all Group 1 and Group 2 Classes, respectively, will remain the same. In addition, the dollar amounts reflected in the Principal Balance Schedules will be increased in a pro rata amount that corresponds to the increase of the principal balances of the applicable Classes.

LEGAL MATTERS

Certain legal matters will be passed upon for the Dealer by Cleary, Gottlieb, Steen & Hamilton.

SN	17,661,000	100% (7)								

(1) See “Description of the Certificates—Combinations and Recombinations” herein.

(2) Exchange proportions shown are the proportions of the original principal balances of the related Classes of REMIC Certificates or RCR Certificates required to effect an exchange. Classes of REMIC Certificates may be exchanged for RCR Classes and RCR Classes may be exchanged for Classes of REMIC Certificates in such proportions only.

(3) See “Description of the Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus and “Description of the Certificates—Distributions of Interest” and “—Distributions of Principal” herein.

(4) For a description of these interest rates, see “Description of the Certificates—Distributions of Interest” herein.

(5) This Class is a principal only Class and will not bear interest.

(6) For each dollar of both the O and SO Classes exchanged, one dollar of the SB Class will be exchanged therefore.

(7) For each dollar of both the SN and N Classes exchanged, one dollar of the SE Class will be exchanged therefore.

No dealer, salesman or other person has been authorized to give any information or to make any representations in connection with this offering other than those contained in this Prospectus Supplement and the additional Disclosure Documents and, if given or made, such information or representations must not be relied upon as having been authorized. This Prospectus Supplement and the aforementioned documents do not constitute an offer to sell or a solicitation of an offer to buy any of the Certificates offered hereby in any state to any person to whom it is unlawful to make such offer or solicitation in such state. The delivery of this Prospectus Supplement and the aforementioned documents at any time does not imply that the information contained herein or therein is correct as of any time subsequent to the date hereof or thereof.
