

\$606,500,000

FannieMae

**Guaranteed REMIC Pass-Through Certificates
Fannie Mae REMIC Trust 1997-81**

The Guaranteed REMIC Pass-Through Certificates offered hereby (the “Certificates”) will represent beneficial ownership interests in one of two trust funds. The Certificates, other than the RL Class, will represent beneficial ownership interests in Fannie Mae REMIC Trust 1997-81 (the “Trust”). The assets of the Trust will consist of the “regular interests” in a separate trust fund (the “Lower Tier REMIC”). The assets of the Lower Tier REMIC will consist of (i) certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the “Trust MBS”) and (ii) certain FNMA Stripped Mortgage-Backed Securities (the “Trust SMBS”). The Trust SMBS evidence beneficial ownership interests in certain principal and interest distributions made in respect of certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (together with the Trust MBS, the “MBS”), certain of which are held in the form of Fannie Mae Guaranteed MBS Pass-Through Certificates (the “Mega Certificate”). Each MBS represents a beneficial ownership interest in a pool of first lien, single-family, fixed-rate residential mortgage loans (the “Pools” and “Mortgage Loans,” respectively) having the characteristics described herein. The Certificates will be issued and guaranteed as to timely distribution of principal and interest by Fannie Mae.

Investors should not purchase the Certificates before reading this Prospectus Supplement and the additional Disclosure Documents listed at the bottom of page S-2.

See “Additional Risk Factors” on page S-7 hereof and “Risk Factors” beginning on page 8 of the REMIC Prospectus attached hereto for a discussion of certain risks that should be considered in connection with an investment in the Certificates.

(Cover continued on next page)

THE CERTIFICATES MAY NOT BE SUITABLE INVESTMENTS FOR ALL INVESTORS. NO INVESTOR SHOULD PURCHASE CERTIFICATES UNLESS SUCH INVESTOR UNDERSTANDS AND IS ABLE TO BEAR THE PREPAYMENT, YIELD, LIQUIDITY AND OTHER RISKS ASSOCIATED WITH SUCH CERTIFICATES.

THE CERTIFICATES, TOGETHER WITH ANY INTEREST THEREON, ARE NOT GUARANTEED BY THE UNITED STATES. THE OBLIGATIONS OF FANNIE MAE UNDER ITS GUARANTY OF THE CERTIFICATES ARE OBLIGATIONS SOLELY OF FANNIE MAE AND DO NOT CONSTITUTE AN OBLIGATION OF THE UNITED STATES OR ANY AGENCY OR INSTRUMENTALITY THEREOF OTHER THAN FANNIE MAE.

THE CERTIFICATES ARE EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT OF 1933 AND ARE “EXEMPTED SECURITIES” WITHIN THE MEANING OF THE SECURITIES EXCHANGE ACT OF 1934.

- (1) See “Description of the Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus and “Description of the Certificates—Distributions of Interest” and “—Distributions of Principal” herein.
- (2) These Classes will bear interest based on “LIBOR” as described under “Description of the Certificates—Distributions of Interest” herein and “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes” in the REMIC Prospectus.
- (3) These Classes will be Notional Classes, will not have principal balances and will bear interest on their respective notional principal balances. The notional principal balances of the Notional Classes initially will be as set forth above and thereafter will be calculated as specified herein. See “Description of the Certificates—Distributions of Interest—*Notional Classes*” herein.

The Certificates will be offered by Greenwich Capital Markets, Inc. (the “Dealer”) from time to time in negotiated transactions, at varying prices to be determined at the time of sale.

The Certificates will be offered by the Dealer, subject to issuance by Fannie Mae, to prior sale or to withdrawal or modification of the offer without notice, when, as and if delivered to and accepted by the Dealer, and subject to approval of certain legal matters by counsel. It is expected that the Certificates, except for the R and RL Classes, will be available through the book-entry system of the Federal Reserve Banks on or about November 28, 1997 (the “Settlement Date”). It is expected that the R and RL Classes in registered, certificated form will be available for delivery at the offices of the Dealer, Greenwich, Connecticut, on or about the Settlement Date.

GREENWICH CAPITAL MARKETS

A DIVISION OF NATWEST MARKETS

(Cover continued from previous page)

The yields to investors in the Group 1 and Group 2 Classes will be sensitive in varying degrees to, among other things, the rates of principal distributions on the Trust MBS and the Trust SMBS, respectively, which in turn will be determined by the rates of principal payments of the related Mortgage Loans and the characteristics of such Mortgage Loans. The yield to investors in each Class will also be sensitive to the purchase price paid for such Class and, in the case of any Floating Rate or Inverse Floating Rate Class, fluctuations in the level of the Index (as defined herein). Accordingly, investors should consider the following risks:

- The Mortgage Loans generally may be prepaid at any time without penalty, and, accordingly, the rate of principal payments thereon is likely to vary considerably from time to time.
- Slight variations in Mortgage Loan characteristics could substantially affect the weighted average lives and yields of some or all of the Classes.
- In the case of any Certificates purchased at a discount to their principal amounts, a slower than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Certificates purchased at a premium to their principal amounts, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Interest Only Class, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield and, in certain cases, an actual loss on the investment.
- The yield on any Floating Rate or Inverse Floating Rate Class will be sensitive to the level of the Index. See “Description of the Certificates—Distributions of Interest—Floating Rate and Inverse Floating Rate Classes” herein.

See “Risk Factors—Yield Considerations” in the REMIC Prospectus and “Additional Risk Factors—Additional Yield and Prepayment Considerations” and “Description of the Certificates—Yield Tables” herein.

In addition, investors should purchase Certificates only after considering the following:

- The actual final payment of any Class will likely occur earlier, and could occur much earlier, than the Final Distribution Date for such Class specified on the cover page. See “Description of the Certificates—Weighted Average Lives of the Certificates” herein and “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus.
- The rate of principal distributions of the Certificates is uncertain and investors may be unable to reinvest the distributions thereon at yields equaling the yields on the Certificates. See “Risk Factors—Suitability and Reinvestment Considerations” in the REMIC Prospectus.
- Investors whose investment activities are subject to legal investment laws and regulations or to review by regulatory authorities may be subject to restrictions on investment in certain Classes of the Certificates. Investors should consult their legal advisors to determine whether and to what extent the Certificates constitute legal investments or are subject to restrictions on investment. See “Legal Investment Considerations” in the REMIC Prospectus.
- The Dealer intends to make a market for the Certificates but is not obligated to do so. There can be no assurance that such a secondary market will develop or, if developed, that it will continue. Thus, investors may not be able to sell their Certificates readily or at prices that will enable them to realize their anticipated yield. No investor should purchase Certificates unless such investor understands and is able to bear the risk that the value of the Certificates will fluctuate over time and that the Certificates may not be readily salable.

These securities have not been approved or disapproved by the Securities and Exchange Commission or any state securities commission nor has the Securities and Exchange Commission or any state securities commission passed upon the accuracy or adequacy of this Prospectus Supplement, the REMIC Prospectus, the MBS Prospectus, the SMBS Prospectus or the Mega Prospectus (each as defined below). Any representation to the contrary is a criminal offense.

Elections will be made to treat the Lower Tier REMIC and the Trust as “real estate mortgage investment conduits” (“REMICs”) pursuant to the Internal Revenue Code of 1986, as amended (the “Code”). The R and RL Classes will be subject to transfer restrictions. See “Description of the Certificates—Characteristics of the R and RL Classes” and “Certain Additional Federal Income Tax Consequences” herein, and “Description of the Certificates—Additional Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences” in the REMIC Prospectus.

Investors should purchase the Certificates only if they have read and understood this Prospectus Supplement and the following documents (collectively, the “Disclosure Documents”);

- Fannie Mae’s Prospectus for Guaranteed REMIC Pass-Through Certificates dated June 14, 1996 (the “REMIC Prospectus”), which is attached to this Prospectus Supplement;
- Fannie Mae’s Prospectus for Guaranteed Mortgage Pass-Through Certificates dated August 1, 1997 (the “MBS Prospectus”);
- Fannie Mae’s Prospectus for Stripped Mortgage-Backed Securities dated July 1, 1996 (the “SMBS Prospectus”);
- Fannie Mae’s Prospectus for Guaranteed MBS Pass-Through Securities dated October 1, 1996 (the “Mega Prospectus”); and
- Fannie Mae’s Information Statement dated March 31, 1997 and any supplements thereto (collectively, the “Information Statement”).

The MBS Prospectus, the SMBS Prospectus, the Mega Prospectus and the Information Statement are incorporated herein by reference and may be obtained from Fannie Mae by writing or calling its MBS Helpline at 3900 Wisconsin Avenue, N.W., Area 2H-3S, Washington, D.C. 20016 (telephone 1-800-BEST-MBS or 202-752-6547). Such documents may also be obtained from Greenwich Capital Markets, Inc., by writing or calling its Prospectus Department at 600 Steamboat Road, Greenwich, CT 06830 (telephone 203-622-5628).

REFERENCE SHEET

This reference sheet is not a summary of the REMIC transaction and it does not contain complete information about the Certificates. Investors should purchase the Certificates only after reading this Prospectus Supplement and each of the additional Disclosure Documents described herein in their entirety.

Assumed Characteristics of the Mortgage Loans Underlying the Trust MBS and the Trust SMBS (as of November 1, 1997)

Mortgage Loan Group	Approximate Principal Balance	Original Term to Maturity (in months)	Approximate Weighted Average Remaining Term to Maturity (in months)	Approximate Calculated Loan Age (in months)	Approximate Weighted Average Coupon
1	\$ 56,000,000	84	56	28	8.00%
	25,000,000	84	80	4	8.00%
	133,000,000	84	78	6	8.00%
	130,000,000	84	67	17	8.00%
2	\$262,500,000	360	355	3	7.68%

The actual remaining terms to maturity, calculated loan ages and interest rates of most of the related Mortgage Loans will differ from the weighted averages shown above, perhaps significantly. See “Description of the Certificates—Structuring Assumptions—*Pricing Assumptions*” herein.

Interest Rates

The Fixed Rate Classes will bear interest at the applicable per annum interest rates set forth on the cover.

The Floating Rate and Inverse Floating Rate Classes will bear interest during the initial Interest Accrual Period at the initial interest rates specified below, and will bear interest during each Interest Accrual Period thereafter, subject to the applicable maximum and minimum interest rates, at rates determined as described below:

Class	Initial Interest Rate	Maximum Interest Rate	Minimum Interest Rate	Formula for Calculation of Interest Rate
F	5.975%	8.00%	0.35%	LIBOR + 35 basis points
S	2.025%	7.65%	0.00%	7.65% – LIBOR
FB	6.125%	9.00%	0.50%	LIBOR + 50 basis points
SD	0.050%	0.05%	0.00%	8.50% – LIBOR
SA	0.300%	0.30%	0.00%	8.45% – LIBOR
SB	1.375%	7.00%	0.00%	7.00% – LIBOR
FA	6.475%	9.00%	0.85%	LIBOR + 85 basis points
SC	1.150%	1.15%	0.00%	8.15% – LIBOR

See “Description of the Certificates—Distributions of Interest—*Floating Rate and Inverse Floating Rate Classes*” herein.

Notional Classes

The notional principal balances of the Notional Classes will be equal to the indicated percentages of the outstanding balances specified below immediately prior to the related Distribution Date:

Classes

S	100%	of F Class
PH	19.2857142857%	of PC Class
PI	37.8571428571%	of PA Class
		37.8571428571%	of PB Class
		37.8571428571%	of PC Class
		37.8571428571%	of PD Class
		37.8571428571%	of PG Class
SD	100%	of FB Class
SA	100%	of FB Class
SB	100%	of FB Class
		100%	of FA Class
SC	100%	of FB Class
		100%	of FA Class

See “Description of the Certificates—Distributions of Interest—*Notional Classes*” and “—Yield Tables—*The Interest Only Classes*” herein.

Distributions of Principal

The portion of the Principal Distribution Amount allocated to each Class of Certificates will be determined as described herein under “Description of the Certificates—Distributions of Principal—*Principal Distribution Amount*.”

Group 1 Principal Distribution Amount

1. To the F and A Classes, in the proportions of 55.5555555233% and 44.4444444767%, respectively, until the A Class is reduced to zero.
2. To the F and B Classes, in the proportions of 55.5555555233% and 44.4444444767%, respectively, to zero.

Group 2 Principal Distribution Amount

1. To the PA, PB, PC, PD and PG Classes, in that order, to their Planned Balances.
2. To the FB Class to its Targeted Balance.
3. To the FA Class, to zero.
4. To the FB Class, to zero.
5. To the PG, PA, PB, PC and PD Classes, in that order, to zero.

* Determined as specified under “Description of the Certificates—Weighted Average Lives of the Certificates” herein.

ADDITIONAL RISK FACTORS

Additional Yield and Prepayment Considerations

The rate of distributions of principal of the Group 1 and Group 2 Classes will be sensitive in varying degrees to the rate of principal distributions on the Trust MBS and the Trust SMBS, respectively, which in turn will reflect the rate of amortization (including prepayments) of the related Mortgage Loans. There can be no assurance that such Mortgage Loans will have the characteristics assumed herein. Because the rate of principal distributions on the Group 1 and Group 2 Classes will be related to the rate of amortization of the related Mortgage Loans, which are likely to include Mortgage Loans with remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the rates of principal distributions on such Classes are likely to differ from the rate anticipated by investors, even if the related Mortgage Loans prepay at the indicated levels of CPR or constant percentages of PSA, as applicable.

While the Mortgage Loans underlying the Trust MBS have original maturities of up to seven years, each such Mortgage Loan will provide for monthly payments based upon a 30-year amortization schedule, with a lump sum payment equal to the unpaid principal balance thereof due at maturity. In addition, such Mortgage Loans will provide that upon satisfaction of certain conditions at maturity (or, at the lender's option, up to six months prior to maturity), the unpaid principal balances thereof may be refinanced for an additional period of 23 years.

It is highly unlikely that the Mortgage Loans underlying the Trust MBS or Trust SMBS will prepay at any of the rates assumed herein, will prepay at a single CPR level or *constant* PSA rate, as applicable, until maturity or that such Mortgage Loans will prepay at the same rate. Investors must make their own decisions as to the appropriate assumptions, including prepayment assumptions, to be used in deciding whether to purchase the Certificates.

The effective yields on the Delay Classes (as defined herein) will be reduced below the yields otherwise produced because principal and interest payable on a Distribution Date will not be distributed until on or about the 18th day following the end of the related Interest Accrual Period and will not bear interest during such delay. No interest at all will be paid on any Class after its principal balance has been reduced to zero. As a result of the foregoing, the market values of the Delay Classes will be lower than would have been the case if there were no such delay.

DESCRIPTION OF THE CERTIFICATES

The following summaries describing certain provisions of the Certificates do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the remaining provisions of this Prospectus Supplement, the additional Disclosure Documents and the provisions of the Trust Agreement (defined below). Capitalized terms used and not otherwise defined in this Prospectus Supplement have the meanings assigned to such terms in the applicable Disclosure Document or the Trust Agreement (as the context may require).

General

Structure. The Trust and the Lower Tier REMIC will be created pursuant to a trust agreement dated as of November 1, 1997 (the "Trust Agreement"), executed by the Federal National Mortgage Association ("Fannie Mae") in its corporate capacity and in its capacity as trustee (the "Trustee"), and the Certificates in the Classes and aggregate original principal balances set forth on the cover hereof will be issued by Fannie Mae pursuant thereto. A description of Fannie Mae and its business, together with certain financial statements and other financial information, is contained in the Information Statement.

The Certificates (other than the R and RL Classes) will be designated as the "regular interests," and the R Class will be designated as the "residual interest," in the REMIC constituted by the Trust.

The interests in the Lower Tier REMIC other than the RL Class (the “Lower Tier Regular Interests”) will be designated as the “regular interests,” and the RL Class will be designated as the “residual interest,” in the Lower Tier REMIC. The assets of the Lower Tier REMIC will consist of the Trust MBS and the Trust SMBS.

Fannie Mae Guaranty. Fannie Mae guarantees to each holder of an MBS the timely payment of scheduled installments of principal of and interest on the underlying Mortgage Loans, whether or not received, together with the full principal balance of any foreclosed Mortgage Loan, whether or not such balance is actually recovered. The guarantee obligations of Fannie Mae with respect to the Trust SMBS are described in the SMBS Prospectus. In addition, Fannie Mae will be obligated to distribute on a timely basis to the Holders of Certificates required installments of principal and interest and to distribute the principal balance of each Class of Certificates in full no later than the applicable Final Distribution Date, whether or not sufficient funds are available in the Trust Account. The guaranties of Fannie Mae are not backed by the full faith and credit of the United States. See “Description of the Certificates—Fannie Mae’s Guaranty” in the REMIC Prospectus, “Description of Certificates—The Corporation’s Guaranty” in the MBS Prospectus and “The SMBS Certificates—Fannie Mae Obligations” in the SMBS Prospectus.

Characteristics of Certificates. The Certificates (other than the R and RL Classes) will be issued and maintained and may be transferred by Holders only on the book-entry system of the Federal Reserve Banks. Such entities whose names appear on the book-entry records of a Federal Reserve Bank as the entities for whose accounts such Certificates have been deposited are herein referred to as “Holders” or “Certificateholders.”

A Holder is not necessarily the beneficial owner of a book-entry Certificate. Beneficial owners will ordinarily hold book-entry Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See “Description of the Certificates—Denominations, Certificate Form” in the REMIC Prospectus and “Description of the Certificates—Book-Entry Procedures”.

The R and RL Certificates will not be issued in book-entry form but will be issued in fully registered, certificated form. As to the R or RL Certificate, “Holder” or “Certificateholder” refers to the registered owner thereof. The R or RL Certificates will be transferable at the corporate trust office of the Transfer Agent, or at the agency of the Transfer Agent in New York, New York. The Transfer Agent initially will be State Street Bank and Trust Company in Boston, Massachusetts (“State Street”). A service charge may be imposed for any registration of transfer of the R or RL Certificate and Fannie Mae may require payment of a sum sufficient to cover any tax or other governmental charge. See also “Characteristics of the R and RL Classes” herein.

The distribution to the Holder of the R and RL Classes of the proceeds of any remaining assets of the Trust and the Lower Tier REMIC, as applicable, will be made only upon presentation and surrender of the related Certificate at the office of the Paying Agent. The Paying Agent initially will be State Street.

Authorized Denominations. The Certificates, other than the R and RL Certificates, will be issued in minimum denominations of \$1,000 and integral multiples of \$1 in excess thereof. The R and RL Classes will be issued as single Certificates and will not have principal balances.

Distribution Dates. Distributions on the Certificates will be made on the 18th day of each month (or, if such 18th day is not a business day, on the first business day next succeeding such 18th day), commencing in the month following the Settlement Date, and each such date is referred to herein as a “Distribution Date” when used with respect to such Classes.

Record Date. Each monthly distribution on the Certificates will be made to Holders of record on the last day of the preceding month.

REMIC Trust Factors. As soon as practicable following the eleventh calendar day of each month, Fannie Mae will publish or otherwise make available for each Class of Certificates the factor (carried to eight decimal places) which, when multiplied by the original principal balance of a Certificate of such Class, will equal the remaining principal balance of such Certificate after giving effect to the distribution of principal to be made on the following Distribution Date.

Optional Termination. Consistent with its policy described under “Description of Certificates—Termination” in the MBS Prospectus, Fannie Mae will agree not to effect indirectly an early termination of the Lower Tier REMIC or the Trust through the exercise of its right to repurchase the Mortgage Loans underlying any MBS unless only one Mortgage Loan remains in the related Pool or the principal balance of such Pool at the time of repurchase is less than one percent of the original principal balance thereof.

Voting the Trust SMBS. In the event any issue arises under the trust indenture governing the Trust SMBS that requires the vote of holders of certificates outstanding thereunder, the Trustee will vote the Trust SMBS in accordance with instructions received from Holders of Certificates of the related Classes having principal balances aggregating not less than 51% of the aggregate principal balance of all such Classes outstanding. In the absence of such instructions, the Trustee will vote in a manner consistent, in its sole judgment, with the best interests of Certificateholders.

The Trust MBS

The MBS underlying the Group 1 Classes will have the aggregate unpaid principal balance and Pass-Through Rate set forth below and the general characteristics described in the MBS Prospectus. The Trust MBS will provide that principal and interest on the related Mortgage Loans will be passed through monthly, commencing in the month following the month of the initial issuance of the Trust MBS. The Mortgage Loans underlying the Trust MBS will be conventional Level Payment Mortgage Loans secured by first mortgages or deeds of trust on one- to four-family (“single family”) residential properties each providing for a balloon payment at maturity and each having an original maturity of up to seven years, as described under “The Mortgage Pools” and “Yield Considerations” in the MBS Prospectus. The characteristics of the Trust MBS and the related Mortgage Loans as of the Issue Date are expected to be as follows:

Trust MBS

Aggregate Unpaid Principal Balance	\$344,000,000
MBS Pass-Through Rate	7.50%

Related Mortgage Loans

Range of WACs (per annum percentages)	7.75% to 10.00%
Range of WAMs	56 months to 84 months
Approximate Weighted Average WAM	70 months
Approximate Weighted Average CAGE	14 months

The Trust SMBS

The Trust SMBS underlying the Group 2 Classes will represent beneficial ownership interest in the aggregate of interest payments at a Pass-Through Rate of 7.00% on a notional principal amount of \$337,500,000 and \$262,500,000 in principal payments of certain MBS held in the form of a Mega Certificate CL-190289 and included in Fannie Mae Stripped Mortgage-Backed Security Trust 000289-CL.

The Trust SMBS evidence beneficial ownership interests in certain principal and interest distributions made in respect of certain MBS, some of which are held in the form of Mega Certificates. Each MBS evidences beneficial ownership interests in a Pool of conventional Level Payment Mortgage Loans secured by first mortgages or deeds of trust on one-to-four-family (“single-family”) residential properties, as described under “The Mortgage Pools” and “Yield Considerations” in the

MBS Prospectus. The Trust SMBS provide that distributions thereon will be passed through monthly, commencing in the month following the initial issuance thereof. The general characteristics of the Trust SMBS and the Mega Certificate are described in the SMBS Prospectus and the Mega Prospectus, respectively.

Final Data Statement

Following the issuance of the Certificates, Fannie Mae will prepare a Final Data Statement setting forth with respect to the Trust MBS and Trust SMBS, the Pool number, the current WAC (or original WAC, if the current WAC is not available) and the current WAM (or Adjusted WAM, if the current WAM is not available) of the related Mortgage Loans underlying the Trust MBS and Trust SMBS, along with the weighted average of all the current or original WACs and the weighted average of all the current or Adjusted WAMs, based on the current unpaid principal balances of the Mortgage Loans underlying the Trust MBS and Trust SMBS as of the Issue Date. The Final Data Statement will not accompany this Prospectus Supplement but will be made available by Fannie Mae. To request the Final Data Statement, telephone Fannie Mae at 1-800-BEST-MBS or 202-752-6547. The contents of the Final Data Statement and other data specific to the Certificates are available in electronic form by calling Fannie Mae at 1-800-752-6440 or 202-752-6000.

Distributions of Interest

Categories of Classes

For the purpose of payments of interest, the Classes will be categorized as follows:

<u>Interest Type*</u>	<u>Classes</u>
Group 1 Classes	
Fixed Rate	A and B
Floating Rate	F
Inverse Floating Rate	S
Interest Only	S
Group 2 Classes	
Fixed Rate	PA, PB, PC, PD, PG, PH and PI
Floating Rate	FA and FB
Inverse Floating Rate	SD, SA, SB and SC
Interest Only	PH, PI, SD, SA, SB and SC
No Payment Residual	R and RL

* See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

General. The interest-bearing Certificates will bear interest at the applicable per annum interest rates set forth on the cover or described herein. Interest on the interest-bearing Certificates is calculated on the basis of a 360-day year consisting of twelve 30-day months and is distributable monthly on each Distribution Date, commencing in the month after the Settlement Date. Interest to be distributed on each interest-bearing Certificate on a Distribution Date will consist of one month's interest on the outstanding principal balance of such Certificate immediately prior to such Distribution Date.

Interest Accrual Periods. Interest to be distributed on a Distribution Date will accrue on the interest-bearing Certificates during the one-month period set forth below (each, an “Interest Accrual Period”).

<u>Classes</u>	<u>Interest Accrual Periods</u>
F and S Classes	One month period ending on the day preceding the Distribution Date
All Fixed Rate Classes and the FB, SD, SA, SB, FA and SC Classes (collectively, the “Delay Classes”)	Calendar month preceding the month in which the Distribution Date occurs

See “Additional Risk Factors—Additional Yield and Prepayment Considerations” herein.

Notional Classes. The S, PH, PI, SD, SA, SB and SC Classes will be Notional Classes. The Notional Classes will have no principal balance and will bear interest at the per annum interest rates set forth on the cover or described herein during each Interest Accrual Period on their respective notional principal balances. The notional principal balances of the Notional Classes will be calculated as specified above under “Reference Sheet—Notional Classes.”

The notional principal balance of a Notional Class is used for purposes of the determination of interest distributions thereon and does not represent an interest in any principal distributions. Although a Notional Class will not have a principal balance, a REMIC Trust Factor (as described herein) will be published with respect to such Class that will be applicable to the notional principal balance thereof, and references herein to the principal balances of the Certificates generally shall be deemed to refer also to the notional principal balances of the Notional Classes.

Floating Rate and Inverse Floating Rate Classes. The Floating Rate and Inverse Floating Rate Classes will bear interest during each Interest Accrual Period, subject to the applicable maximum and minimum interest rates, at the rates determined as described herein under “Reference Sheet—Interest Rates.”

The yields with respect to such Classes will be affected by changes in the index specified (the “Index”), which changes may not correlate with changes in mortgage interest rates. It is possible that lower mortgage interest rates could occur concurrently with an increase in the level of the Index. Conversely, higher mortgage interest rates could occur concurrently with a decrease in the level of the Index.

The establishment of the Index value by Fannie Mae and Fannie Mae’s determination of the rate or rates of interest for the applicable Class or Classes for the related Interest Accrual Period shall (in the absence of manifest error) be final and binding. Each such rate of interest may be obtained by telephoning Fannie Mae at 1-800-BEST-MBS or 202-752-6547.

Calculation of LIBOR

On each Index Determination Date, until the principal balances and notional principal balances of the F, S, FB, SD, SA, SB, FA and SC Classes have been reduced to zero, Fannie Mae will establish LIBOR for the related Interest Accrual Period in the manner described in the REMIC Prospectus under “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes—*LIBOR*.”

If on the initial Index Determination Date, Fannie Mae is unable to determine LIBOR in the manner specified in the REMIC Prospectus, LIBOR for the next succeeding Interest Accrual Period will be equal to 5.625%.

Distributions of Principal

Categories of Classes

For the purpose of payments of principal, the Classes will be categorized as follows:

<u>Principal Type*</u>	<u>Classes</u>
Group 1 Classes	
Sequential Pay	F, A and B
Notional	S
Group 2 Classes	
PAC**	PA, PB, PC, PD and PG
TAC**	FB
Support	FA
Notional	PH, PI, SD, SA, SB and SC
No Payment Residual	R and RL

* See “Description of the Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus.

** The Principal Balance Schedules are set forth herein beginning on page A-1.

Principal Distribution Amount

On each Distribution Date, principal will be distributed on the Certificates in an amount (the “Principal Distribution Amount”) equal to the sum of (i) the aggregate distributions of principal to be made on the Trust MBS in the month of such Distribution Date (the “Group 1 Principal Distribution Amount”) and (ii) the distributions of principal concurrently made on the principal only Trust SMBS (the “Group 2 Principal Distribution Amount”).

Group 1 Principal Distribution Amount

On each Distribution Date, the Group 1 Principal Distribution Amount will be distributed as principal of the Group 1 Classes in the following order of priority:

- | | | |
|---|---|-------------------------------|
| <p>(i) concurrently, to the F and A Classes, in the proportions 55.555555233% and 44.444444767%, respectively, until the principal balance of the A Class is reduced to zero; and</p> <p>(ii) concurrently, to the F and B Classes, in the proportions 55.555555233% and 44.444444767%, respectively, until the principal balances thereof are reduced to zero.</p> | } | <p>Sequential Pay Classes</p> |
|---|---|-------------------------------|

Group 2 Principal Distribution Amount

On each Distribution Date, the Group 2 Principal Distribution Amount will be distributed as principal of the Group 2 Classes in the following order of priority:

- | | | |
|---|---|----------------------|
| <p>(i) sequentially, to the PA, PB, PC, PD and PG Classes, in that order, until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;</p> | } | <p>PAC Classes</p> |
| <p>(ii) to the FB Class, until the principal balance thereof is reduced to its Targeted Balance for such Distribution Date;</p> | } | <p>TAC Class</p> |
| <p>(iii) to the FA Class until the principal balance thereof is reduced to zero;</p> | } | <p>Support Class</p> |
| <p>(iv) to the FB Class, without regard to its Targeted Balance and until the principal balance thereof is reduced to zero; and</p> | } | <p>TAC Class</p> |
| <p>(v) sequentially, to the PG, PA, PB, PC and PD Classes, in that order, without regard to their Planned Balances and until the respective principal balances thereof are reduced to zero.</p> | } | <p>PAC Classes</p> |

Structuring Assumptions

Pricing Assumptions. Unless otherwise specified, the information in the tables in this Prospectus Supplement has been prepared on the basis of the following assumptions (collectively, the “Pricing Assumptions”):

- the Mortgage Loans underlying the Trust MBS and Trust SMBS have the original terms to maturity, the remaining terms to maturity, CAGEs, and interest rates, respectively, as specified herein under “Reference Sheet—Assumed Characteristics of the Mortgage Loans Underlying the Trust MBS and Trust SMBS”;
- each Mortgage Loan underlying the Trust MBS provides for monthly payments based upon a 30 year amortization schedule with a lump sum payment equal to the unpaid principal balance thereof due at the maturity date;
- the Mortgage Loans prepay at the levels of CPR or *constant* percentages of PSA, as applicable, specified in the related table; and
- the closing date for the sale of the Certificates is November 28, 1997.

Prepayment Assumptions. Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used herein with respect to the Mortgage Loans underlying the Trust MBS is the “Constant Prepayment Rate” or “CPR” model. The CPR model represents an assumed *constant* rate of prepayment each month, expressed as a per annum percentage of the then outstanding principal balance of the pool of mortgage loans. The model used herein with respect to the Mortgage Loans underlying the Trust SMBS is the Public Securities Association’s standard prepayment model (“PSA”). To assume a specified rate of PSA is to assume a specified rate of prepayment each month of the then outstanding principal balance of a pool of new mortgage loans computed as described under “Description of the Certificates—Prepayment Models” in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any CPR level or *constant* PSA rate or at any other constant rate.

Structuring Ranges and Rate. The Principal Balance Schedules have been prepared on the basis of the Pricing Assumptions and the assumption that the related Mortgage Loans prepay at a constant PSA rate within the applicable Structuring Ranges and at the rate specified below. The Principal Balance Schedules are set forth herein beginning on page A-1.

<u>Principal Balance Schedule References</u>	<u>Related Classes</u>	<u>Structuring Ranges and Rate</u>
Planned Balances	PA, PB, PC and PD	Between 50% and 400%
Planned Balance	PG	Between 100% and 400%
Targeted Balance	FB	200%

There is no assurance that the principal balance of any Class listed above will conform on any Distribution Date to the applicable balance specified for such Distribution Date in the Principal Balance Schedules herein, or that distributions of principal of such Class will begin or end on the respective Distribution Dates specified therein. Because any excess of the principal distribution on any Distribution Date over the amount necessary to reduce any such Class to its scheduled balance will be distributed, the ability to reduce such Class will not be enhanced by the averaging of high and low principal payments from month to month. In addition, even if prepayments on the related Mortgage Loans occur at rates falling within the applicable Structuring Range specified above, principal distributions may be insufficient to reduce the applicable Class to its scheduled balance if such prepayments do not occur at a *constant* PSA rate. Moreover, because of the diverse remaining terms to maturity of the related Mortgage Loans (which may include recently originated Mortgage Loans), the Classes specified above may not be reduced to their scheduled balances, even if prepayments occur at a *constant* rate within the applicable Structuring Ranges or at the rate specified above.

Initial Effective Ranges. The Effective Range for a Class is the range of prepayment rates (measured by *constant* PSA rates) that would reduce such Class to its scheduled balance on each Distribution Date. The Initial Effective Ranges set forth in the table below are based upon the assumed characteristics of the related Mortgage Loans specified in the Pricing Assumptions.

<u>Related Classes</u>	<u>Initial Effective Ranges</u>
PA	Between 50% and 981%
PB	Between 50% and 523%
PC	Between 50% and 400%
PD	Between 33% and 400%
PG	Between 100% and 400%

The actual Effective Ranges at any time will be based upon the actual characteristics of the related Mortgage Loans at such time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. The actual Effective Ranges calculated on the basis of the actual characteristics likely will differ from the Initial Effective Ranges. As a result, the applicable Classes might not be reduced to their scheduled balances even if prepayments on the related Mortgage Loans were to occur at a *constant* PSA rate within the Initial Effective Ranges (particularly if such rate were at the lower or higher end of such ranges). In addition, even if prepayments occur at rates falling within the actual Effective Ranges, principal distributions may be insufficient to reduce the applicable Classes to their scheduled balances if such prepayments do not occur at a *constant* PSA rate. It is highly unlikely that the Mortgage Loans will prepay at any *constant* PSA rate. In general, the actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time. The stability in principal payments of the PAC Classes will be supported in part by the TAC and Support Classes. When the TAC and Support Classes are retired, the PAC Classes, if still outstanding, may no longer have Effective Ranges and will be more sensitive to prepayments.

Yield Tables

General. The tables below indicate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of applicable Classes to various levels of CPR or constant percentages of PSA, as applicable, and, where specified, to changes in the Index. The yields set forth in the tables were calculated by determining the monthly discount rates that, when applied to the assumed streams of cash flows to be paid on the applicable Classes, would cause the discounted present value of such assumed streams of cash flows to equal the assumed aggregate purchase prices of such Classes and converting such monthly rates to corporate bond equivalent rates. Such calculations do not take into account variations that may occur in the interest rates at which investors may be able to reinvest funds received by them as distributions on the Certificates and consequently do not purport to reflect the return on any investment in the Certificates when such reinvestment rates are considered. *There can be no assurance that the pre-tax yields on the Certificates will correspond to any of the pre-tax yields shown herein or that the aggregate purchase prices of the Certificates will be as assumed. In addition, there can be no assurance that the Index will correspond to the levels shown herein. Furthermore, because some of the Mortgage Loans will likely have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal distributions on the Certificates are likely to differ from those assumed, even if all Mortgage Loans prepay at the indicated levels of CPR or constant percentages of PSA, as applicable. Moreover, it is not likely that the Mortgage Loans will prepay at a single CPR level or constant PSA rate until maturity, that all of such Mortgage Loans will prepay at the same rate or that the level of the Index will remain constant.*

The Interest Only Classes. The yields to investors in the Interest Only Classes will be sensitive in varying degrees to the rate of principal payments (including prepayments) of the related Mortgage Loans. The Inverse Floating Rate Classes will also be sensitive to the level of the Index. The Mortgage Loans generally can be prepaid at any time. In addition, the rate of principal payments (including prepayments) of the Mortgage Loans is likely to

vary, and may vary considerably, from Pool to Pool. As indicated in the tables below, it is possible that, under certain prepayment and Index scenarios, investors in the Inverse Floating Rate Classes would not fully recoup their initial investments. On the basis of the assumptions described below, the yield to maturity on the PH and PI Classes would be 0% if prepayments of the related Mortgage Loans were to occur at constant rates of approximately 573% PSA and 586% PSA, respectively. If the actual prepayment rates of the related Mortgage Loans were to exceed the applicable levels for as little as one month while equaling such levels for the remaining months, the investors in the PH and PI Classes would not fully recoup their initial investments.

Changes in the Index may not correlate with changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur concurrently with an increased level of the Index.

The information set forth in the following tables was prepared on the basis of the Pricing Assumptions and the assumptions that (i) the interest rates applicable to the Inverse Floating Rate Classes for each Interest Accrual Period subsequent to the initial Interest Accrual Period will be based on the indicated level of the Index and (ii) the aggregate purchase prices of the Interest Only Classes (expressed in each case as a percentage of original principal balance) are as follows:

<u>Class</u>	<u>Price*</u>
S	3.6250%
PH	40.7500%
PI	30.5000%
SD	0.1875%
SA	1.1250%
SB	3.8750%
SC	4.5625%

* The prices do not include accrued interest. Accrued interest has been added to such prices in calculating the yields set forth in the tables below.

Sensitivity of the S Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

<u>LIBOR</u>	<u>CPR Prepayment Assumption</u>				
	<u>5%</u>	<u>10%</u>	<u>18%</u>	<u>20%</u>	<u>25%</u>
3.625%	125.2%	117.0%	103.4%	99.9%	90.9%
5.625%	51.6%	45.1%	34.3%	31.5%	24.4%
7.625%	(68.6)%	(72.0)%	(77.8)%	(79.3)%	(83.1)%
7.650%	*	*	*	*	*

* The pre-tax yield to maturity will be less than (99.9)%.

Sensitivity of the PH Class to Prepayments

	PSA Prepayment Assumption			
	50%	165%	400%	500%
Pre-Tax Yields to Maturity	7.7%	7.7%	7.7%	3.8%

Sensitivity of the PI Class to Prepayments

	PSA Prepayment Assumption			
	50%	165%	400%	500%
Pre-Tax Yields to Maturity	14.3%	7.6%	7.6%	4.0%

Sensitivity of the SD Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

LIBOR	PSA Prepayment Assumption				
	50%	165%	200%	400%	500%
8.450% and below	27.6%	12.9%	0.7%	(6.7)%	(23.6)%

8.500%	*	*	*	*	*

* The pre-tax yield to maturity will be less than (99.9)%.

Sensitivity of the SA Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

LIBOR	PSA Prepayment Assumption				
	50%	165%	200%	400%	500%
8.15% and below	27.6%	12.9%	0.7%	(6.7)%	(23.6)%
8.25%	17.5%	1.3%	(12.5)%	(22.0)%	(42.2)%
8.45% and above	*	*	*	*	*

* The pre-tax yield to maturity will be less than (99.9)%.

Sensitivity of the SB Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

LIBOR	PSA Prepayment Assumption				
	50%	165%	200%	400%	500%
3.625%	99.3%	93.4%	90.0%	66.7%	53.0%
5.625%	37.5%	31.5%	28.2%	(4.3)%	(23.6)%
7.000% and above	*	*	*	*	*

* The pre-tax yield to maturity will be less than (99.9)%.

Sensitivity of the SC Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

LIBOR	PSA Prepayment Assumption				
	50%	165%	200%	400%	500%
7.00% and below	26.1%	20.0%	16.9%	(20.0)%	(41.5)%
7.60%	11.1%	4.9%	2.1%	(36.5)%	(70.0)%
8.15% and above	*	*	*	*	*

* The pre-tax yield to maturity will be less than (99.9)%.

Weighted Average Lives of the Certificates

The weighted average life of a Certificate is determined by (a) multiplying the amount of the reduction, if any, of the principal balance of such Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date, (b) summing the results and (c) dividing the sum by the aggregate amount of the reductions in principal balance of such Certificate referred to in clause (a). For a description of the factors which may influence the weighted average life of a Certificate, see “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including the timing of changes in such rate of principal payments and the priority sequences of distributions of principal of the Classes. The weighted average lives of the Group 2 Classes will also depend on the distribution of principal of certain Classes in accordance with the Principal Balance Schedules. See “Distributions of Principal” herein.

The effect of the foregoing factors may differ as to various Classes and the effects on any Class may vary at different times during the life of such Class. Accordingly, no assurance can be given as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their respective original principal balances, variability in the weighted average lives of such Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

Decrement Tables

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each of the dates shown at various CPR levels or constant PSA rates and the corresponding weighted average lives of such Classes. The tables have been prepared on the basis of the Pricing Assumptions, except that with respect to the information set forth for each such Class under 0% CPR or 0% PSA, as applicable, it has been assumed that the underlying Mortgage Loans have the original and remaining terms to maturity and bear interest at the per annum rates specified below:

<u>Mortgage Loans relating to Trust MBS and Trust SMBS</u>	<u>Original Terms to Maturity</u>	<u>Remaining Terms to Maturity</u>	<u>Interest Rates</u>	<u>Related Groups</u>
Trust MBS	84 months	84 months	10.0%	Group 1
Trust SMBS	360 months	360 months	9.5%	Group 2

It is not likely that (i) all of the underlying Mortgage Loans will have the interest rates, CAGEs or remaining terms to maturity assumed or (ii) the underlying Mortgage Loans will prepay at a single CPR level or *constant* PSA rate. In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified CPR levels or *constant* PSA rates, even if the weighted average remaining terms to maturity and the weighted average CAGEs of the Mortgage Loans are identical to the remaining terms to maturity and CAGEs specified in the Pricing Assumptions.

* Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

** Determined as specified under “Weighted Average Lives of the Certificates” herein.

† In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

Characteristics of the R and RL Classes

The R and RL Classes will have no principal balances and will not bear interest. The Holder of the R Class will be entitled to receive the proceeds of the remaining assets of the Trust, if any, after the principal balances of all Classes have been reduced to zero, and the Holder of the RL Class will be entitled to receive the proceeds of the remaining assets of the Lower Tier REMIC, if any, after the principal balances of the Lower Tier Regular Interests have been reduced to zero. It is not anticipated that there will be any material assets remaining in either such circumstance.

The R and RL Classes will be subject to certain transfer restrictions. No transfer of record or beneficial ownership of an R or RL Certificate will be allowed to a “disqualified organization.” In addition, no transfer of record or beneficial ownership of an R or RL Certificate will be allowed to any person that is not a “U.S. Person” without the written consent of Fannie Mae. Under regulations issued by the Treasury Department on December 23, 1992 (the “Regulations”), a transfer of a “noneconomic residual interest” to a U.S. Person will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R and RL Classes will constitute noneconomic residual interests under the Regulations. Any transferee of an R or RL Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 on which the transferee provides its taxpayer identification number. See “Description of the Certificates—Additional Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates” in the REMIC Prospectus. Transferors of an R or RL Certificate should consult with their own tax advisors for further information regarding such transfers.

The Holder of the R Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Trust, and the Holder of the RL Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Lower Tier REMIC. See “Certain Federal Income Tax Consequences” in the REMIC Prospectus. Pursuant to the Trust Agreement, Fannie Mae will be obligated to provide to such Holders (i) such information as is necessary to enable them to prepare their federal income tax returns and (ii) any reports regarding the R Class or RL Class that may be required under the Code.

CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The following tax discussion, when read in conjunction with the discussion of “Certain Federal Income Tax Consequences” in the REMIC Prospectus, describes the current federal income tax treatment of investors in the Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of investors, some of which may be subject to special rules. Investors should consult their own tax advisors in determining the federal, state, local and any other tax consequences to them of the purchase, ownership and disposition of the Certificates.

REMIC Elections and Special Tax Attributes

Elections will be made to treat the Lower Tier REMIC and the Trust as REMICs for federal income tax purposes. Arnold & Porter, special tax counsel to Fannie Mae, will deliver its opinion to Fannie Mae that, assuming compliance with the Trust Agreement, the Lower Tier REMIC and the Trust will qualify as REMICs for federal income tax purposes. The Certificates, other than the R and RL Classes, will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust. The Lower Tier Regular Interests will be designated as the “regular interests” and the RL Class will be designated as the “residual interest” in the Lower Tier REMIC.

As a consequence of the qualification of the Lower Tier REMIC and the Trust as REMICs, the Certificates generally will be treated as “regular or residual interests in a REMIC” for domestic building and loan associations, “real estate assets” for real estate investment trusts, and, except for

the R and RL Classes, as “qualified mortgages” for other REMICs. The Small Business Job Protection Act of 1996 repeals the bad debt reserve method of accounting for mutual savings banks and domestic building and loan associations for tax years beginning after December 31, 1995. As a result, section 593(d) of the Code is no longer applicable to treat the Certificates as “qualifying real property loans.” See “Certain Federal Income Tax Consequences—Special Tax Attributes” in the REMIC Prospectus.

Taxation of Beneficial Owners of Regular Certificates

The Notional Classes will be, and certain other Classes of Certificates may be, issued with original issue discount (“OID”) for federal income tax purposes, which generally will result in recognition of some taxable income in advance of the receipt of the cash attributable to such income. The Prepayment Assumption that will be used in determining the rate of accrual of original issue discount will be 18% CPR in the case of the Group 1 Classes and 165% PSA in the case of the Group 2 Classes. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Original Issue Discount*” in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at either of those rates or any other rate. See “Description of the Certificates—Weighted Average Lives of the Certificates” herein and “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus. In addition, certain Classes of Certificates may be treated as having been issued at a premium for federal income tax purposes. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Certificates Purchased at a Premium*” in the REMIC Prospectus.

The Taxpayer Relief Act of 1997 adds provisions to the Code that require the recognition of gain upon the “constructive sale of an appreciated financial position.” A constructive sale of an appreciated financial position occurs if a taxpayer enters into certain transactions or series of such transactions with respect to a financial instrument that have the effect of substantially eliminating the taxpayer’s risk of loss and opportunity for gain with respect to the financial instrument. These provisions do not apply to Classes of Certificates other than the Notional Classes.

Taxation of Beneficial Owners of Residual Certificates

Under the Regulations, neither the R Class nor the RL Class will have significant value. Special rules regarding the treatment of “excess inclusions” by certain thrift institutions no longer apply because of the amendments of section 593 and 860E of the Code by the Small Business Job Protection Act of 1996. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Excess Inclusions*” in the REMIC Prospectus.

For purposes of determining the portion of the taxable income of the Trust (or the Lower Tier REMIC) that generally will not be treated as excess inclusions, the rate to be used is 7.51% (which is 120% of the “federal long-term rate”). See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Excess Inclusions*” and “—Foreign Investors—*Residual Certificates*” in the REMIC Prospectus. The federal income tax consequences of any consideration paid to a transferee on the transfer of an R or RL Certificate are unclear; any transferee receiving such consideration should consult its own tax advisors.

The Taxpayer Relief Act of 1997 adds provisions to the Code that will apply to an “electing large partnership.” If an electing large partnership holds an R or RL Certificate, all interests in the electing large partnership are treated as held by disqualified organizations for purposes of the tax imposed upon a pass-through entity by section 860E(e) of the Code. An exception to this tax, otherwise available to a pass-through entity that is furnished certain affidavits by record holders of interests in the entity and that does not know such affidavits are false, is not available to an electing large partnership.

PLAN OF DISTRIBUTION

General. The Dealer will receive the Certificates in exchange for the Trust MBS and Trust SMBS pursuant to a Fannie Mae commitment. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect such transactions to or through dealers.

Increase in Certificates. Before the Settlement Date, Fannie Mae and the Dealer may agree to offer hereby Group 1 and Group 2 Certificates in addition to those contemplated as of the date hereof. In such event, the Trust MBS and Trust SMBS, as applicable, will be increased in principal balance, but it is expected that all such additional Trust MBS and Trust SMBS, as applicable, will have the same characteristics as described herein under “Description of the Certificates—The Trust MBS” and “—Trust SMBS”, as applicable. The proportion that the original principal balance of each Group 1 and Group 2 Class bears to the aggregate original principal balance of all Group 1 and Group 2 Classes, respectively, will remain the same. In addition, the dollar amounts reflected in the Principal Balance Schedules will be increased in a pro rata amount that corresponds to the increase of the principal balances of the PAC and TAC Classes.

LEGAL MATTERS

Certain legal matters will be passed upon for the Dealer by Brown & Wood LLP. Brown & Wood LLP also performs legal services for Fannie Mae.
