

**Prospectus Supplement**  
**(To Multifamily REMIC Prospectus dated January 1, 1999)**

**\$438,039,213 (Approximate)**

**Guaranteed REMIC Pass-Through Certificates**  
**Fannie Mae Multifamily REMIC Trust 2000-M1**

**Carefully consider the risk factors starting on page S-6 of this prospectus supplement and on page 11 of the Multifamily REMIC Prospectus. Unless you understand and are able to tolerate these risks, you should not invest in the certificates.**

You should read the Multifamily REMIC Prospectus as well as this prospectus supplement.

The certificates, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any agency or instrumentality thereof other than Fannie Mae.

The certificates are exempt from registration under the Securities Act of 1933 and are "exempted securities" under the Securities Exchange Act of 1934.

**The Certificates**

We, the Federal National Mortgage Association ("Fannie Mae"), will issue the classes of certificates listed in the chart on this page.

**Payments to Certificateholders**

We will make monthly payments on the certificates. You, the investor, will receive

- interest accrued on the balance of your certificate (except in the case of the accrual class), and
- principal to the extent available for payment on your class.

We may pay principal at rates that vary from time to time. We may not pay principal to certain classes for long periods of time.

**The Fannie Mae Guaranty**

We will guarantee that required payments of principal and interest on the certificates are distributed to investors on time. **We will not guarantee the payment to certificateholders of any prepayment fees.**

**The Trust and its Assets**

The trust will own Ginnie Mae certificates.

The mortgage loans underlying the Ginnie Mae certificates are first and second lien, fully amortizing, fixed-rate mortgage loans on multifamily properties and nursing facilities. In addition, the mortgage loans underlying the Ginnie Mae certificates are insured by the Federal Housing Administration.

Class	Original Class Balance(1)	Principal Type	Interest Rate	Interest Type	CUSIP Number	Final Distribution Date
A	\$148,665,000	SEQ/AD	(2)	WAC	31359XUT4	January 2013
B	130,452,000	SEQ/AD	(2)	WAC	31359XUU1	November 2018
C	97,596,000	SEQ/AD	(2)	WAC	31359XUV9	December 2021
Z	61,325,213	SEQ	(2)	WAC/Z	31359XUW7	January 2040
D	1,000	SEQ	(2)	WAC	31359XUX5	January 2040
R	0	NPR	0	NPR	31359XUY3	January 2040

(1) Subject to a permitted variance of plus or minus 5%.

(2) The A, B, C, Z and D Classes bear interest at the variable interest rate described in this prospectus supplement. During the initial interest accrual period, the A, B, C, Z and D Classes are expected to bear interest at the annual rate of approximately 7.3685%.

The dealer will offer the certificates from time to time in negotiated transactions at varying prices. We expect the settlement date to be February 29, 2000.

**Donaldson, Lufkin & Jenrette**

The date of this Prospectus Supplement is February 8, 2000

### AVAILABLE INFORMATION

You should purchase the certificates only if you have read and understood this prospectus supplement and the following documents (the “Disclosure Documents”):

- our Prospectus for Guaranteed Multifamily REMIC Pass-Through Certificates dated January 1, 1999 (the “Multifamily REMIC Prospectus”); and
- our Information Statement dated March 31, 1999 and its supplements (the “Information Statement”).

You can obtain the Disclosure Documents by writing or calling us at:

Fannie Mae  
MBS Helpline  
3900 Wisconsin Avenue, N.W., Area 2H-3S  
Washington, D.C. 20016  
(telephone 1-800-237-8627 or 202-752-6547).

Most of the Disclosure Documents, together with the class factors, are available on our website located at <http://www.fanniemae.com>.

You can also obtain the Disclosure Documents by writing or calling the dealer at:

Donaldson, Lufkin & Jenrette Securities Corporation  
Prospectus Department  
277 Park Avenue, 7th Floor  
New York, New York 10172  
(telephone 212-892-4525).

## REFERENCE SHEET

This reference sheet is not a summary of the transaction and does not contain complete information about the certificates. You should purchase the certificates only after reading this prospectus supplement and each of the additional disclosure documents listed on page S-3.

### Certain Characteristics of the Ginnie Mae Certificates and the Mortgage Loans (as of February 1, 2000)

FHA Insurance Program	Approximate Principal Balance as of Issue Date	Number of Ginnie Mae Pools	Percent of Total Balance	Weighted Average Mortgage Loan Interest Rate	Weighted Average Ginnie Mae Certificate Interest Rate	Ginnie Mae Weighted Average Original Term to Maturity (in months)	Ginnie Mae Weighted Average Remaining Term to Maturity (in months)	Weighted Average Period from Issuance (1) (in months)	Weighted Average Remaining Lockout Period (in months)	Weighted Average Remaining Restriction Period (in months)
221(d)(4)	\$158,339,624	20	36.15%	7.444%	7.180%	475	473	2	86	110

	<u>\$438,039,213</u>	<u>81</u>	<u>100.00%</u>	<u>7.644%</u>	<u>7.369%</u>	<u>443</u>	<u>436</u>	<u>6</u>	<u>72</u>	<u>107</u>

(1) Based on the issue date of the related Ginnie Mae certificates.

Exhibit A contains additional information about the mortgage loans as of February 1, 2000 (the "Issue Date"), including information about lockout periods and prepayment fees.

### Lockout Periods and Prepayment Fees

Most of the mortgage loans prohibit voluntary prepayments during specified lockout periods. The remaining lockout periods for the mortgage loans range from 0 to 119 months, with a weighted average remaining lockout period of approximately 72 months. Some of the mortgage loans provide for the payment of prepayment fees during specified periods after their lockout period end dates. If we receive any prepayment fees, we will allocate them among the classes of certificates as described in this prospectus supplement.

### Class Factors

The class factors are numbers that, when multiplied by the initial principal balance of a certificate, can be used to calculate the current principal balance of that certificate (after taking into account payments in the same month). We publish the class factors on or shortly after the 14th day of each month.

### Settlement Date

We expect to issue the certificates on February 29, 2000.

### Distribution Dates

We will make payments on the classes of certificates on the 17th day of each calendar month, or on the next business day if the 17th day is not a business day.

### Book-Entry and Physical Certificates

We will issue book-entry certificates through DTC, which will electronically track ownership of the certificates and payments on them. We will issue physical certificates in registered, certificated form.

We will issue the classes of certificates in the following forms:

<u>DTC Book-Entry</u>	<u>Physical</u>
All classes other than the R Class	R Class

## Interest Rates

During the initial interest accrual period, the A, B, C, Z and D Classes are expected to bear interest at the approximate annual interest rate of 7.3685%. During subsequent interest accrual periods, the A, B, C, Z and D Classes will bear interest at the variable annual interest rate described in this prospectus supplement.

## Distributions of Principal

### *Principal Distribution Amount*

#### *Z Accrual Amount*

To the A, B and C Classes, in that order, to zero, and thereafter to the Z Class.

#### *Cash Flow Distribution Amount*

To the A, B, C, Z and D Classes, in that order, to zero.

## Weighted Average Lives (years) \*

Class	CPR Prepayment Assumption**					
	5%	10%	15%	25%	50%	75%
A .....	3.9	3.7	3.5	3.3	3.0	2.9
B .....	9.7	8.3	7.5	6.5	5.5	5.0
C .....	13.8	11.6	10.5	9.2	7.7	6.9
Z .....	24.6	20.0	16.9	13.5	10.8	10.0
D .....	39.9	39.9	39.8	39.2	26.9	18.4

\* Determined as specified under “Description of the Certificates—Weighted Average Lives of the Certificates” herein.

\*\* Table prepared on the basis of the indicated percentages of CPR and 100% PLD.

## ADDITIONAL RISK FACTORS

*Rate of principal payments on the certificates will be affected by the rate of principal payments on the underlying mortgage loans.* The rate that you receive principal payments on the certificates will be sensitive to the rate of principal payments on the mortgage loans underlying the Ginnie Mae certificates, including prepayments.

In the case of the mortgage loans underlying the Ginnie Mae certificates, most of such loans have prepayment lockout periods and some of the loans impose prepayment fees. Subject to the applicable lockout periods and any applicable prepayment fees, such mortgage loans may be prepaid at any time.

It is highly unlikely that the mortgage loans will prepay

- at the prepayment rates we assumed, or
- at a constant prepayment rate until maturity.

*Yields may be lower than expected due to unexpected rate of principal payments.* The actual yield on your certificates probably will be lower than you expect:

- if you bought your certificates at a premium and principal payments are faster than you expected, or
- if you bought your certificates at a discount and principal payments are slower than you expected.

Furthermore, in the case of certificates purchased at a premium, you could lose money on your investment if prepayments occur at a rapid rate.

*Defaults may increase the risk of prepayment.* Lending based on the security of multi-family properties and healthcare-related facilities is generally viewed as exposing the lender to a greater risk of loss than single family lending. Mortgage loan defaults may result in distributions of the full principal balance of the related Ginnie Mae certificate, thereby affecting prepayment rates. We do not possess certain information relevant to determining the likelihood of defaults on the underlying mortgage loans. In particular, we do not have any financial information with respect to

the real properties securing the underlying mortgage loans.

*Prepayment lockouts and penalties may reduce the prepayment rate of the related mortgage loans.* We expect that most of the mortgage loans underlying the Ginnie Mae certificates will prohibit voluntary prepayments during specified lockout periods. We expect these lockout periods to have remaining lockout terms that range from approximately 0 to 119 months, with a weighted average remaining lockout term of approximately 72 months. Certain mortgage loans may also impose a prepayment fee for a period extending beyond the lockout period. A prepayment fee would not be imposed, however, if a borrower defaults on its mortgage loan. Mortgage loans having prepayment fees may be less likely to prepay than mortgage loans without such fees.

*Allocation of prepayment fees to certain classes may not offset the adverse effect on yields of the corresponding prepayment.* If any prepayment fees are included in the payments received on the Ginnie Mae certificates with respect to any distribution date, we will include these amounts in the payments to be made on certain classes on that distribution date. We do not, however, guarantee that any prepayment fees will in fact be collected from mortgagors or Ginnie Mae, or paid to holders of the Ginnie Mae certificates or to the related certificateholders. Accordingly, holders of the classes entitled to receive prepayment fees will receive them only to the extent we receive them. Moreover, even if we pay the prepayment fees to the holders of those classes, the additional amount may not offset the reduction in yield caused by the corresponding prepayment.

**You must make your own decisions about the various applicable assumptions, including prepayment assumptions, when deciding whether to purchase the certificates.**

*Delay classes have lower yields and market values.* Since the classes do not receive interest immediately following each interest accrual period, they have lower yields and lower mar-

ket values than they would if there were no such delay.

*Reinvestment of certificate payments may not achieve same yields as certificates.* The rate of principal payments of the certificates is uncertain. You may be unable to reinvest the payments on the certificates at the same yields provided by the certificates.

*Unpredictable timing of last payment affects yields on certificates.* The actual final payment of your class is likely to occur earlier, and could occur much earlier, than the final distribution date listed on the cover page. If you assumed the actual final payment will occur on the final distribution date specified, your yield could be lower than you expect.

*Some investors may be unable to buy certain classes.* Investors whose investment activities are subject to legal investment laws and regulations, or to review by regulatory

authorities, may be unable to buy certain certificates. You should get legal advice to determine whether you may purchase the certificates.

*Uncertain market for the certificates could make them difficult to sell and cause their values to fluctuate.* We cannot be sure that a market for resale of the certificates will develop. Further, if a market develops, it may not continue or be sufficiently liquid to allow you to sell your certificates. Even if you are able to sell your certificates, the sale price may not be comparable to similar investments that have a developed market. Moreover, you may not be able to sell small or large amounts of certificates at prices comparable to those available to other investors. You should purchase certificates only if you understand and can tolerate the risk that the value of your certificates will vary over time and that your certificates may not be easily sold.

## DESCRIPTION OF THE CERTIFICATES

The material under this heading summarizes certain features of the Certificates. You will find additional information about the Certificates in the other sections of this prospectus supplement, as well as in the additional Disclosure Documents and the Trust Agreement. If we use a capitalized term in this prospectus supplement without defining it, you will find the definition of such term in the applicable Disclosure Document or in the Trust Agreement.

### General

*Structure.* We will create the Fannie Mae Multifamily REMIC Trust specified on the cover (the “Trust”) pursuant to a trust agreement dated as of February 1, 2000 (the “Trust Agreement”). We will execute the Trust Agreement in our corporate capacity and as trustee (the “Trustee”). We will issue the Guaranteed REMIC Pass-Through Certificates (the “Certificates”) pursuant to the Trust Agreement. In general, the term “Class” refers to a class of Certificates.

The Trust will constitute a “real estate mortgage investment conduit” (“REMIC”) under the Internal Revenue Code of 1986, as amended (the “Code”).

- The Certificates (except the R Class) will be “regular interests” in the Trust.
- The R Class will be the “residual interest” in the Trust.

The assets of the Trust will consist of certain “fully modified pass-through” mortgage-backed securities guaranteed as to timely payment of principal and interest by Ginnie Mae (the “Ginnie Mae Certificates”).

Each Ginnie Mae Certificate will represent a beneficial ownership interest in a single mortgage loan (each, a “Mortgage Loan”). See “Description of the Ginnie Mae Certificates and the Mortgage Loans.”

*Fannie Mae Guaranty.* We guarantee that we will distribute to Certificateholders:

- required installments of principal and interest on the Certificates on time, and
- the principal balance of each Class of Certificates no later than its Final Distribution Date, whether or not we have received sufficient payments on the Ginnie Mae Certificates.

Our guarantees are not backed by the full faith and credit of the United States. *We will not guarantee the collection or the payment to the Certificateholders of any prepayment fees.* Accordingly, Certificateholders entitled to receive prepayment fees will receive them only to the extent actually received in respect of the Ginnie Mae Certificates. See “Description of the Certificates—Fannie Mae’s Guaranty” in the Multifamily REMIC Prospectus.

*Characteristics of Certificates.* The Classes (except the R Class) will be represented by one or more certificates (the “DTC Certificates”) to be registered at all times in the name of the nominee of The Depository Trust Company (“DTC”), a New York-chartered limited purpose trust company, or any successor or depository selected or approved by us. We refer to the nominee of DTC as the “Holder” or “Certificateholder” of the Certificates. DTC will maintain the DTC Certificates through its book-entry facilities. A Holder is not necessarily the beneficial owner of a Certificate. Beneficial owners ordinarily will hold Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See “Description of the Certificates—Denominations and Form” in the Multifamily REMIC Prospectus.

We will issue the R Certificate in fully registered, certificated form. The “Holder” or “Certificateholder” of the R Certificate is its registered owner. The R Certificate can be transferred at the corporate trust office of the Transfer Agent, or at the office of the Transfer Agent in New York, New York. State Street Bank and Trust Company in Boston, Massachusetts (“State Street”) will be the initial Transfer Agent. We may impose a service charge for any registration of transfer of the R Certificate and may require payment to cover any tax or other governmental charge. See also “Characteristics of the R Class”.

The Holder of the R Class will receive the proceeds of any remaining assets of the Trust only by presenting and surrendering the R Certificate at the office of the Paying Agent. State Street will be the initial Paying Agent.

*Authorized Denominations.* We will issue the Certificates, other than the R Certificate, in minimum denominations of \$1,000 and whole dollar increments. We will issue the R Class as a single Certificate with no principal balance.

*Distribution Date.* We will make monthly payments on the 17th day of each month (or, if the 17th is not a business day, on the first business day after the 17th). We refer to such date as the “Distribution Date.” We will make the first payments to Certificateholders the month after we issue the Certificates.

*Record Date.* On each Distribution Date, we will make each monthly payment on the Certificates to Holders of record on the last day of the preceding month.

*Class Factors.* On or shortly after the fourteenth calendar day of each month, we will publish a factor (carried to eight decimal places) for each Class of Certificates. When the factor is multiplied by the original principal balance of a Certificate of that Class, the product will equal the current principal balance of that Certificate after taking into account payments on the Distribution Date in the same month (as well as any addition to principal in the case of the Accrual Class).

## Book-Entry Procedures

*General.* The DTC Certificates will be registered at all times in the name of the nominee of DTC. Under its normal procedures, DTC will record the amount of DTC Certificates held by each firm which participates in the book-entry system of DTC (each, a “DTC Participant”), whether held for its own account or on behalf of another person. Initially, State Street Bank and Trust Company (“State Street”) will act as paying agent for the DTC Certificates. State Street will also perform certain administrative functions in connection with the DTC Certificates.

A “beneficial owner” or an “investor” is anyone who acquires a beneficial ownership interest in the DTC Certificates. As an investor, you will not receive a physical certificate. Instead, your interest will be recorded on the records of the brokerage firm, bank, thrift institution or other financial intermediary (a “financial intermediary”) that maintains an account for you. In turn, the record ownership of the financial intermediary that holds your DTC Certificates will be recorded by DTC. If the intermediary is not a DTC Participant, the record ownership of the intermediary will be recorded by a DTC Participant acting on its behalf. Therefore, you must rely on these various arrangements to record your ownership of the DTC Certificates and to relay the payments to your account. You may transfer your beneficial ownership interest in the DTC Certificates only under the procedures of your financial intermediary and of DTC Participants. In general, ownership of DTC Certificates will be subject to the prevailing rules, regulations and procedures governing the DTC and DTC Participants.

*Method of Payment.* State Street will direct payments on the DTC Certificates to DTC in immediately available funds. In turn, DTC will credit the payments to the accounts of the appropriate DTC Participants, in accordance with the DTC’s procedures. These procedures currently provide for payments made in same-day funds to be settled through the New York Clearing House. DTC Participants and financial intermediaries will direct the payments to the investors in DTC Certificates that they represent.

## Distributions of Interest

### *Categories of Classes*

For the purpose of interest payments, the Classes will be categorized as follows:

<u>Interest Type*</u>	<u>Classes</u>
Weighted Average Coupon	A, B, C, Z and D
Accrual Class	Z
No Payment Residual	R

\* See “Description of the Certificates—Class Definitions and Abbreviations” in the Multifamily REMIC Prospectus.

*General.* We will pay interest on the interest-bearing Certificates at the applicable annual interest rates shown on the cover or described in this prospectus supplement. We calculate interest based on a 360-day year consisting of twelve 30-day months. We pay interest monthly (except in the case of the Accrual Class) on each Distribution Date, beginning in the month after the Settlement Date specified in the Reference Sheet.

Interest to be paid (or added to principal, in the case of the Accrual Class) on each Certificate on a Distribution Date will consist of one month’s interest on the outstanding balance of that Certificate immediately prior to such Distribution Date. For a description of the Accrual Class, see “Accrual Class.”

In addition, we will pay any prepayment fees that we have collected and passed through to the Trust during the related Interest Accrual Period as follows:

- 25% of such prepayment fees to the Class currently receiving distributions of principal from the Cash Flow Distribution Amount on such Distribution Date (or, if more than one of the A, B, C, Z and D Classes are receiving principal distributions from the Cash Flow Distribution Amount on such Distribution Date, we will allocate 25% of such prepayment fees among such Classes, *pro rata*, based on the principal from the Cash Flow Distribution Amount distributable to them), and
- 75% of such prepayment fees to the D Class.

*Interest Accrual Period.* Interest to be paid (or added to principal, in the case of the Accrual Class) on each Distribution Date will accrue on the interest-bearing Certificates during the one-month period set forth below (the “Interest Accrual Period”).

<u>Classes</u>	<u>Interest Accrual Period</u>
All Classes of interest-bearing Certificates (collectively, the “Delay Classes”)	Calendar month preceding the month in which the Distribution Date occurs

See “Additional Risk Factors.”

*Accrual Class.* The Z Class is an Accrual Class. Interest will accrue on the Accrual Class at the applicable annual rate described below. However, we will not pay any interest on the Accrual Class until the Distribution Date following the Distribution Date on which the principal balance of the C Class is reduced to zero. Interest accrued on the Accrual Class on any Distribution Date will be added as principal to its principal balance or paid, as applicable, on each Distribution Date. We will pay principal on the Accrual Class as described under “Distributions of Principal” below.

*Weighted Average Coupon Classes.* The A, B, C, Z and D Classes will bear interest during each Interest Accrual Period at an annual rate equal to the weighted average of the interest rates of the Ginnie Mae Certificates.

During the initial Interest Accrual Period, the A, B, C, Z and D Classes will bear interest at the annual rates specified on the cover. Our determination of the rates of interest for such Classes for each Interest Accrual Period shall (in the absence of manifest error) be final and binding. You may obtain each such rate of interest by telephoning us at 1-800-237-8627 or 202-752-6547.

## Distributions of Principal

### *Categories of Classes*

For the purpose of principal payments, the Classes fall into the following categories:

<u>Principal Type*</u>	<u>Classes</u>
Sequential Pay	A, B, C, Z and D
Accretion Directed	A, B and C
No Payment Residual	R

\* See “Description of the Certificates—Class Definitions and Abbreviations” in the Multifamily REMIC Prospectus.

### *Principal Distribution Amount*

On the Distribution Date in each month, we will pay principal on the Certificates in an aggregate amount equal to the principal that Ginnie Mae reports as receivable on the Ginnie Mae Certificates during the month of that Distribution Date (as described below) and any principal that was received on the Ginnie Mae Certificates during the previous month that we did not pay to

Certificateholders in that month (the “Cash Flow Distribution Amount”), plus any interest then accrued and added to the principal balance of the Z Class (the “Z Accrual Amount,” and, together with the Cash Flow Distribution Amount, the “Principal Distribution Amount”).

#### *Certain Calculations Relating to the Ginnie Mae Certificates*

We will calculate the amount that Ginnie Mae reports as receivable on the Ginnie Mae Certificates for each Distribution Date based in part on preliminary Ginnie Mae Certificate factors reported on or about the seventh business day of the month of that Distribution Date.

In some months, the principal actually received on the Ginnie Mae Certificates may exceed the amount reported in the Ginnie Mae Certificate factors. If that happens, we may include that excess amount in the principal that we pay on the Certificates on the applicable Distribution Date.

In addition, the factors for some Ginnie Mae Certificates may not be reported in certain months. In that case, we will use assumed amortization schedules to calculate the principal balance to which any such Ginnie Mae Certificate would be reduced. We will create those schedules by using the remaining terms to maturity and interest rates of the applicable Ginnie Mae Certificates, and adjusting the remaining term to maturity to the current month. Our calculations will reflect payment factors previously reported to us and calculated after scheduled amortization (but not prepayments) on the related Mortgage Loans. Our determination of the principal payments will be final.

#### *Z Accrual Amount*

On each Distribution Date, we will pay the Z Accrual Amount, sequentially, as principal of the A, B and C Classes, in that order, until their principal balances are reduced to zero, and then to the Z Class.

} Accretion  
Directed  
Classes  
and  
Accrual  
Class

#### *Cash Flow Distribution Amount*

On each Distribution Date, we will pay the Cash Flow Distribution Amount as principal of the Certificates, sequentially, to the A, B, C, Z and D Classes, in that order, until their principal balances are reduced to zero.

} Sequential  
Pay Classes

### **Structuring Assumptions**

*Pricing Assumptions.* Except where otherwise noted, the information in the tables in this prospectus supplement has been prepared based on the actual characteristics of the Ginnie Mae Certificates (as described in Exhibit A) and the following assumptions (the “Pricing Assumptions”):

- we calculate scheduled interest and principal payments on the Mortgage Loans using the Issue Date Balance, the mortgage interest rate and the remaining term to maturity less any month in which an interest only payment is due as set forth on Exhibit A;
- we pay all payments (including prepayments) on the Mortgage Loans underlying the Ginnie Mae Certificates in the month we receive them;
- the Mortgage Loans underlying the Ginnie Mae Certificates prepay at the percentages of CPR specified in the related tables and 100% PLD (as defined under “— Prepayment Assumptions”), provided that no voluntary prepayments occur through the assumed lockout end dates;
- we make payments on the Certificates on the 17th day of the month, whether or not the 17th day is a business day;

- no prepayment fees are received on the Ginnie Mae Certificates; and
- the settlement date for the sale of the Certificates is February 29, 2000.

*Prepayment Assumptions.* Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model known as the “Constant Prepayment Rate” or “CPR” model. For purposes hereof, the CPR model represents an assumed constant rate of voluntary prepayment each month, expressed as an annual percentage of the then outstanding principal balance of the pool of mortgage loans. In addition, we simulate involuntary prepayments on the Mortgage Loans by using the “Project Loan Default” (“PLD”) model developed by the Dealer. The PLD model represents an assumed rate of involuntary prepayment each month as specified in the table below, in each case expressed as a per annum percentage of the then outstanding principal balance of each of the Mortgage Loans in relation to its age. As used herein, 0% PLD represents 0% of such assumed rate of involuntary prepayments; 50% PLD represents 50% of such assumed rate of involuntary prepayments; 100% PLD represents 100% of such assumed rate of involuntary prepayments; and so forth.

<b>Project Loan Default</b>	
<b>Mortgage Loans age (in months)</b>	<b>Involuntary Prepayment Default Rate (1)</b>
1-12	1.30
13-24	2.47
25-36	2.51
37-48	2.20
49-60	2.13
61-72	1.46
73-84	1.26
85-96	0.80
97-108	0.57
109-168	0.50
169-240	0.25
241-maturity	0.00

(1) We assume that involuntary prepayments start immediately.

CPR/PLD does not purport to be either an historical description of the prepayment and default experience of any pool of mortgage loans or a prediction of the anticipated rate of prepayment and default of any pool of mortgage loans, including the Mortgage Loans underlying the Ginnie Mae Certificates. See “— Yield Considerations” and “— Decrement Tables” in this prospectus supplement and “Yield Considerations” and “Maturity and Prepayment Considerations and Risks” in the Multifamily REMIC Prospectus.

We prepared the tables in this prospectus supplement on the basis of the indicated percentages of CPR and 100% PLD. It is highly unlikely that prepayments will occur at any particular level of CPR or PLD, or at any other *constant* rate.

### **Weighted Average Lives of the Certificates**

The weighted average life of a Certificate is determined by

- multiplied the amount of the reduction, if any, of the principal balance of such Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date,
- summing the results, and
- dividing the sum by the aggregate amount of the reductions in principal balance of such Certificate referred to in clause (a).

For a description of the factors which may influence the weighted average life of a Certificate, see “Description of the Certificates—Weighted Average Lives and Final Distribution Dates” in the Multifamily REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including

- the timing of changes in such rate of principal payments, and
- the priority sequence of distributions of principal of the Certificates.

See “Distributions of Principal” in this prospectus supplement.

The effect of these factors may differ as to various Classes and the effects on any Class may vary at different times during the life of that Class. Accordingly, we can give no assurance as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their original principal balances, variability in the weighted average lives of such Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

## Decrement Tables

The following tables indicate the percentages of the original principal balances of the specified Classes that would be outstanding after the Distribution Date in each of the months shown at the indicated constant percentages of CPR and 100% PLD and the corresponding weighted average lives of such Classes. We prepared the tables on the basis of the Pricing Assumptions. It is unlikely, however, that prepayments of the Mortgage Loans will conform to any *constant* level of CPR or PLD, and we do not represent that the Mortgage Loans will prepay at the CPR/PLD levels described herein or in accordance with any other scenario.

## **Characteristics of the R Class**

The R Class will not have a principal balance and will not bear interest. If any assets of the Trust remain after the principal balances of all Classes are reduced to zero, we will pay the Holder of the R Class the proceeds from those assets. Fannie Mae does not expect that any material assets will remain in such case.

The R Class will be subject to certain transfer restrictions. We will not permit transfer of record or beneficial ownership of the R Certificate to a “disqualified organization.” In addition, we will not permit transfer of record or beneficial ownership of the R Certificate to any person that is not a “U.S. Person” without our written consent. Any transferee of the R Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 on which the transferee provides its taxpayer identification number. See “Description of the Certificates—Special Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Residual Certificates*” in the Multifamily REMIC Prospectus. Transferees of the R Certificate should consult with their own tax advisors for further information regarding such transfers.

Treasury Department regulations (the “Regulations”) provide that a transfer of a “noneconomic residual interest” to a U.S. Person will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R Class will constitute a noneconomic residual interest under the Regulations. Having a significant purpose to impede the assessment or collection of tax means that the transferor of a Residual Certificate knew or should have known that the transferee would be unwilling or unable to pay taxes due on its share of the taxable income of the REMIC trust (that is, the transferor had “improper knowledge”). As discussed under the caption “Special Characteristics of Residual Certificates” in the Multifamily REMIC Prospectus, the Regulations presume that a transferor does not have improper knowledge if two conditions are met. The Treasury Department has proposed an amendment to the Regulations that would add a third condition, effective February 4, 2000. According to the proposed amendment, a transferor of a Residual Certificate would be presumed not to have improper knowledge only if the present value of the anticipated tax liabilities associated with holding the Residual Certificate is less than or equal to the present value of the sum of (i) any consideration given to the transferee to acquire the Residual Certificate, (ii) expected future distributions on the Residual Certificate, and (iii) anticipated tax savings associated with holding the Residual Certificate as the related REMIC trust generates losses. The application of the proposed amendment to an actual transfer is uncertain, and you should consult your own tax advisor regarding its effect on the transfer of a Residual Certificate.

The Holder of the R Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Trust. See “Certain Federal Income Tax Consequences” in the Multifamily REMIC Prospectus. Pursuant to the Trust Agreement, we will be obligated to provide to this Holder (i) information necessary to enable it to prepare its federal income tax returns and (ii) any reports regarding the R Class that may be required under the Code.

## **DESCRIPTION OF THE GINNIE MAE CERTIFICATES AND THE MORTGAGE LOANS**

### **General**

The Government National Mortgage Association is a wholly-owned corporate instrumentality of the United States within the Department of Housing and Urban Development (“HUD”). Section 306(g) of Title III of the National Housing Act of 1934, as amended (the “Housing Act”), authorizes Ginnie Mae to guarantee the timely payment of principal and interest on certificates that are backed by a pool of mortgage loans insured by the Federal Housing Administration

(“FHA”) under the Housing Act or Title V of the Housing Act of 1949, or partially guaranteed by the Department of Veterans Affairs under the Servicemen’s Readjustment Act of 1944, as amended, or Chapter 37 of Title 38, United States Code.

Section 306(g) of the Housing Act provides that “the full faith and credit of the United States is pledged to the payment of all amounts which may be required to be paid under any guaranty under this subsection.” To meet these guaranty obligations, Ginnie Mae is authorized, under Section 306(d) of the Housing Act, to borrow from the United States Treasury without limitation.

Each Ginnie Mae Certificate will be a “fully modified pass-through” mortgage-backed security issued and serviced by a mortgage banking company or other financial concern approved by Ginnie Mae as a seller-servicer of FHA-insured loans.

The specific Ginnie Mae Certificates to be included in the assets of the REMIC will be identified prior to the Settlement Date. We expect that approximately 81 Mortgage Loans will underlie the Ginnie Mae Certificates. These Mortgage Loans are expected to have an aggregate balance of approximately \$438,039,213 (subject to a permitted variance of plus or minus 5%) as of the Issue Date, after giving effect to all payments of principal due on or before that date. The Mortgage Loans will be fixed-rate and generally will be level-pay and fully amortizing. Each Mortgage Loan underlying the Ginnie Mae Certificates will be secured by a mortgage, deed of trust or deed to secure debt that creates a first or second lien on the applicable borrower’s estate in a multifamily property consisting of five or more dwelling units or a nursing home or other care facility. In general, the Mortgage Loans do not contain “due-on-sale” clauses restricting sale or other transfer of the related mortgaged property. Any transfer of the mortgaged property is subject to HUD review and approval under the terms of HUD’s Regulatory Agreement with the owner, which is incorporated by reference into the mortgage.

## **FHA Insurance Programs**

FHA multifamily insurance programs generally are designed to assist private and public mortgagors in obtaining insured financing for the construction, purchase or rehabilitation of rental housing pursuant to the Housing Act. Mortgages are provided by FHA-approved institutions, including:

- mortgage bankers,
- commercial banks,
- savings and loan associations,
- trust companies,
- insurance companies,
- pension funds, and
- state and local housing finance agencies.

The Housing Act provides that mortgages for multifamily projects must not exceed certain dollar amounts or loan ratio limitations. However, the FHA may increase the dollar amount limitations by up to 110% in certain high cost areas and by up to 140% on a project-by-project basis. When we refer to estimated values and costs associated with maximum mortgage amounts we mean estimates made by the FHA.

In general, to qualify under the related FHA multifamily insurance programs, particular Housing Act sections provide that mortgage loans must not exceed 90% of the estimated value or replacement cost of the mortgaged property. In some cases, however, the applicable limit may be as low as 70% or as high as 100%. In addition, in some cases, the insurable loan limit is equal to the cost of refinancing or aggregate operating losses. Further, certain sections provide that insurable loan limits may be based on statutory dollar amounts calculated on a per unit basis (which may vary depending on the number of bedrooms in each unit).

Mortgages insured under the programs described below will have the maturities and amortization features that the FHA approves. In general, the minimum mortgage term will be at least ten years and the maximum mortgage term will not exceed the lesser of (a) 40 years or (b) 75% of the estimated remaining economic life of the improvements on the mortgaged property.

Tenant eligibility for federally-insured projects generally is not restricted by income, except for projects as to which rental subsidies are made available for some or all of the units or to specified tenants.

In the next section, we summarize the federal insurance programs under which we expect the Mortgage Loans are insured.

*Section 221(d) (Low and Moderate Income Multifamily Housing Mortgage Insurance)*

Sections 221(d)(3) and 221(d)(4) provide for federal insurance to assist private industry in the construction or substantial rehabilitation of rental and cooperative housing for low- and moderate-income families, as well as families that have been displaced as a result of urban renewal, governmental actions or disaster. Non-profit and cooperative owners use Section 221(d)(3); and for-profit owners use Section 221(d)(4).

*Section 223(a)(7) (Refinancing of FHA-Insured Mortgages)*

Section 223(a)(7) permits the FHA to refinance existing mortgage loans under any section or title of the Housing Act. Such refinancing results in prepayment of the existing insured mortgage. The principal amount of the new, refinanced mortgage loan generally is limited to the lesser of the original principal amount of the existing mortgage loan and the unpaid balance of the existing mortgage loan.

*Section 223(f) (Purchase or Refinancing of Existing Projects)*

Section 223(f) provides for federal insurance of mortgage loans originated by FHA-approved lenders in connection with the purchase or refinancing of existing multifamily housing complexes that do not require substantial rehabilitation. The principal objective of the Section 223(f) program is to provide for lower debt service on the related projects in order to preserve an adequate supply of affordable rental housing. Such projects may have been financed originally with conventional or FHA-insured mortgages.

*Section 232 (Mortgage Insurance for Nursing Homes and Other Care Facilities)*

Section 232 provides for federal insurance of private construction mortgage loans to finance new or rehabilitated nursing homes, intermediate care facilities, board and care homes and assisted living for the elderly, including equipment to be used in their operation. Section 232 also provides for supplemental loans to finance the purchase and installation of fire safety equipment in these facilities.

*Section 232/223(f) (Purchase or Refinancing of Federally-Insured Nursing Homes and Other Care Facilities)*

Section 232/223(f) provides for federal insurance of mortgage loans originated by FHA-approved lenders in connection with the purchase or refinancing of project loans that are insured under Section 232.

*Section 241 (Supplemental Financing) and Section 241(f) (Equity Take Out Loans)*

Section 241 provides for federal insurance to finance property improvements, energy-conserving improvements or additions to any federally-insured multifamily loan. Pursuant to legislation enacted in 1987, Section 241(f) provides, as a specific element of a “plan of action” approved by the FHA, insurance for second mortgage financing and for loans to facilitate the take out of accumulated equity. The overall purpose of the Section 241 loan program is to provide a

project with a means to remain competitive, extend its economic life and finance the replacement of obsolete equipment without the refinancing of the existing mortgage.

### **Certain Expected Characteristics of the Mortgage Loans**

*Mortgage Prepayment Restrictions.* Except as described below, we expect most of the Mortgage Loans underlying the Ginnie Mae Certificates to have provisions that prohibit voluntary prepayment for a number of years following origination (“lockout provisions”). We expect such lockout periods to have remaining lockout terms that range from approximately 0 to 119 months and with a weighted average remaining lockout term of approximately 72 months. For any mortgage loans insured under Section 232, nonprofit mortgagors cannot make full or partial prepayments without prior written consent from the FHA. It is unclear whether these lockout provisions are enforceable under certain state laws.

We expect certain of the Mortgage Loans underlying the Ginnie Mae Certificates to have a period (a “prepayment fee period”) during which voluntary prepayments (except for prepayments resulting from condemnation or casualty losses) must be accompanied by a mortgage prepayment fee equal to a specified percentage of the principal amount of the Mortgage Loan. The prepayment fee period may extend beyond the termination of the lockout provision. Exhibit A to this prospectus supplement sets forth, for each Mortgage Loan, a description of the related mortgage prepayment fee and the period during which the mortgage prepayment fee applies as well as the last month of any applicable lockout provision.

Despite the foregoing, the Mortgage Loans underlying the Ginnie Mae Certificates must include a provision allowing the FHA to override any lockout and/or prepayment fee provisions when the Mortgage Loan is in default, if the FHA determines that it is in the best interest of the federal government to allow the mortgagor to refinance or partially prepay the Mortgage Loan without restrictions or penalties and thereby avoid or mitigate an FHA insurance claim.

In addition, certain of the Mortgage Loans may be prepaid in an amount up to approximately 15% of the principal balance thereof in each year without the payment of any prepayment fee thereon.

*Coinsurance.* We expect that certain of the Mortgage Loans underlying the Ginnie Mae Certificates may be federally insured under FHA coinsurance programs. Under these programs, the mortgage lender retains a portion of the mortgage insurance risk that otherwise would be assumed by FHA. As part of these programs, FHA delegates to FHA-approved mortgage lenders certain underwriting functions generally performed by FHA. Accordingly, we cannot assure you that such Mortgage Loans were underwritten in conformity with FHA underwriting guidelines applicable to mortgage loans that were solely federally insured, or that the default risk with respect to coinsured Mortgage Loans is comparable to that of FHA-insured mortgage loans. As a result, we cannot predict the likelihood of future default or the prepayment rate on the coinsured Mortgage Loans underlying the Ginnie Mae Certificates.

### **CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES**

The Certificates and payments on the Certificates are not generally exempt from taxation. Therefore, you should consider the tax consequences of holding a Certificate before you acquire one. The following tax discussion supplements the discussion under the caption “Certain Federal Income Tax Consequences” in the Multifamily REMIC Prospectus. When read together, the two discussions describe the current federal income tax treatment of beneficial owners of Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of beneficial owners, some of which may be subject to special rules. In addition, these discussions may not apply to your particular circumstances for one of the reasons explained in the Multifamily REMIC Prospectus. You should consult your own tax advisors regarding the federal

income tax consequences of holding and disposing of Certificates as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

### **REMIC Elections and Special Tax Attributes**

We will elect to treat the Trust as a REMIC for federal income tax purposes. The Certificates, other than the R Class, will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust.

Because the Trust will qualify as a REMIC, the Certificates generally will be treated as “regular or residual interests in a REMIC” for domestic building and loan associations, as “real estate assets” for real estate investment trusts, and, except for the R Class, as “qualified mortgages” for other REMICs. See “Certain Federal Income Tax Consequences—*REMIC Election and Special Tax Attributes*” in the Multifamily REMIC Prospectus.

### **Taxation of Beneficial Owners of Regular Certificates**

The Accrual Class will be issued with original issue discount (“OID”), and certain other Classes of Certificates may be issued with OID. If a Class is issued with OID, a beneficial owner of a Certificate of that Class generally must recognize some taxable income in advance of the receipt of the cash attributable to that income. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount*” in the Multifamily REMIC Prospectus. In addition, certain Classes of Certificates may be treated as having been issued at a premium. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates—Regular Certificates Purchased at a Premium*” in the Multifamily REMIC Prospectus.

The Prepayment Assumption that we will use in determining the rate of accrual of OID for the Certificates will be applied on a loan-by-loan basis. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount—Daily Portions of Original Issue Discount*” in the Multifamily REMIC Prospectus. The Prepayment Assumption that will be used for the related Mortgage Loans will be 0% CPR and 100% PLD until the prepayment lockout end date for each such Mortgage Loan and 15% CPR and 100% PLD thereafter. The prepayment lockout end dates for the Mortgage Loans are provided on Exhibit A. Because the prepayment lockout end date for each such Mortgage Loan is not the same, during the period beginning on the earliest prepayment lockout end date of the Mortgage Loans and ending on the last prepayment lockout end date of the Mortgage Loans, the effective Prepayment Assumption will increase as each related Mortgage Loan reaches its prepayment lockout end date. No representation is made as to whether the Mortgage Loans underlying the Ginnie Mae Certificates will prepay at the rate reflected in the Prepayment Assumption or any other rate. See “Description of the Certificates—Weighted Average Lives of the Certificates” in this prospectus supplement and “Description of the Certificates—Weighted Average Lives and Final Distribution Dates” in the Multifamily REMIC Prospectus.

### **Taxation of Beneficial Owners of Residual Certificates**

For purposes of determining the portion of the taxable income of the Trust that generally will not be treated as excess inclusions, the rate to be used is 7.91% (which is 120% of the “federal long-term rate”). See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Residual Certificates—Treatment of Excess Inclusions*” and “—*Foreign Investors—Residual Certificates*” in the Multifamily REMIC Prospectus.

## **PLAN OF DISTRIBUTION**

We are obligated to deliver the Certificates to Donaldson, Lufkin & Jenrette Securities Corporation (the “Dealer”) in exchange for the Ginnie Mae Certificates. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect these transactions to or through other dealers.

## **LEGAL MATTERS**

Brown & Wood LLP will provide legal representation for Fannie Mae. Sidley & Austin will provide legal representation for the Dealer.

† Certain of the units included in the underlying real properties may receive project-based Section 8 subsidies from HUD.

\* The first scheduled payment consisted solely of interest.

(1) Based on the issue date of the related Ginnie Mae Certificate.

(2) Calculated based mostly on publicly available information. Lockout End Dates and Prepayment Restriction End Dates may be earlier in certain cases. As described herein, the FHA may override any lockout and/or prepayment restriction provision when the related Mortgage Loan is in Default if the FHA determines that it is in the best interest of the federal government to permit a refinancing or partial prepayment without restrictions or fees.

(3) Prepayment/Lockout Codes:

(1) Lockout through the lockout end date; thereafter no prepayment fee is imposed.

(2) Lockout through the lockout end date; thereafter prepayment fee of 5% of the prepaid amount until the twelfth mortgage loan payment date beyond the lockout end date specified above, declining thereafter by 1% annually.

(3) Lockout through the lockout end date; thereafter prepayment fee of 3% of the prepaid amount until the twelfth mortgage loan payment date beyond the lockout end date specified above, declining thereafter by 1% annually.

(4) On the first Distribution Date two monthly installments of principal will be passed through on the related Ginnie Mae Certificate.

NOTE: The information with respect to the Mortgage Loans set forth on this Exhibit A has been collected and summarized by Donaldson, Lufkin & Jenrette Securities Corporation and provided to Fannie Mae. Fannie Mae has made no independent verification of such information and, therefore, does not warrant its truth or accuracy and shall not be responsible therefor.
