Guaranteed REMIC Pass-Through Certificates Fannie Mae REMIC Trust 2001-80

The Certificates

We, the Federal National Mortgage Association ("Fannie Mae"), will issue the classes of certificates listed in the chart on this page.

Payments to Certificateholders

We will make monthly payments on the certificates. You, the investor, will receive

- · interest accrued on the balance of your certificate (except in the case of an accrual class), and
- · principal to the extent available for payment on your class.

We may pay principal at rates that vary from time to time. We may not pay principal to certain classes for long periods of time.

The Fannie Mae Guaranty

We will guarantee that required payments of principal and interest on the certificates are distributed to investors on time.

The Trust and its Assets

The trust will own

- Fannie Mae MBS, and
- Fannie Mae Stripped MBS.

The mortgage loans underlying the Fannie Mae MBS and Fannie Mae Stripped MBS are first lien, single-family, fixedrate loans.

In addition, the mortgage loans underlying the Group 4 MBS are balloon payment mortgage loans.

Class	Group	Original Class Balance	Principal Type	Interest Rate	Interest Type	CUSIP Number	Final Distribution Date

otional balances. These classes are interest only classes

(3) Principal only class(4) Based on LIBOR. (2) Exchangeable classes.

If you own certificates of certain classes, you can exchange them for the corresponding RCR certificates to be issued at the time of the exchange. The PE, PH, PJ and QW Classes are the RCR classes, as further described in this prospectus supplement.

The dealer will offer the certificates from time to time in negotiated transactions at varying prices. We expect the settlement date to be December 28, 2001.

Carefully consider the risk factors starting on page S-9 of this prospectus supplement and on page 10 of the REMIC prospectus. Unless you understand and are able to tolerate these risks, you should not invest in the certificates.

You should read the REMIC prospectus as well as this prospectus supplement.

The certificates, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any agency or instrumentality thereof other than Fannie Mae.

The certificates are exempt from registration under the Securities Act of 1933 and are "exempted securities" under the Securities Exchange Act of 1934.

AVAILABLE INFORMATION

You should purchase the certificates only if you have read and understood this prospectus supplement and the following documents (the "Disclosure Documents"):

- our Prospectus for Fannie Mae Guaranteed REMIC Pass-Through Certificates dated September 18, 1998 (the "REMIC Prospectus");
- our Prospectus for Fannie Mae Guaranteed Mortgage Pass-Through Certificates dated October 1, 1999 (the "MBS Prospectus");
- our Information Statement dated March 30, 2001 and its supplements (the "Information Statement"); and
- if you are purchasing any Group 2 or Group 5 Class or the R or RL Class, our Prospectus for Fannie Mae Stripped Mortgage-Backed Securities dated March 30, 2000 (the "SMBS Prospectus").

You can obtain copies of the Disclosure Documents by writing or calling us at:

Fannie Mae MBS Helpline 3900 Wisconsin Avenue, N.W., Area 2H-3S Washington, D.C. 20016 (telephone 1-800-237-8627 or 202-752-6547).

In addition, the Disclosure Documents, together with the class factors, are available on our website located at http://www.fanniemae.com.

You also can obtain copies of the Disclosure Documents by writing or calling the dealer at:

UBS Warburg LLC Prospectus Department 1000 Harbor Boulevard Weehawken, New Jersey 07087 (telephone 201-352-6858).

REFERENCE SHEET

This reference sheet is not a summary of the transaction and does not contain complete information about the certificates. You should purchase the certificates only after reading this prospectus supplement and each of the additional disclosure documents listed on page S-3.

Assets Underlying Each Group of Classes

Group	Assets
1	Group 1 MBS
2	Class 302-1 SMBS Certificate
	Class 302-2 SMBS Certificate
	Class 311-1 SMBS Certificate
	Class 311-2 SMBS Certificate
3	Group 3 MBS
4	Group 4 MBS
5	Class 313-1 SMBS Certificate
	Class 313-2 SMBS Certificate
6	Group 6 MBS

Assumed Characteristics of the Mortgage Loans Underlying the Trust MBS (as of December 1, 2001)

	Approxima Principal Balance	te Te Ma			n Weigh L	proximate nted Average oan Age n months)	Approximate Weighted Average Coupon
Group 1 MBS	\$125,000,0	00	360	320		32	6.60%
Group 3 MBS	\$279,508,0	66	360	320		32	6.60%
Group 6 MBS	\$135,553,39	97	180	176		2	6.55%
	Approximate Principal Balance	Original Term to Maturity (in months)	Approximate Weighted Average Remaining Term to Maturity (in months)	Approximate Weighted Average Loan Age (in months)	Approximate Weighted Average Remaining Amortization Term (in months)	Approximate Weighted Average Months to Balloon Payment (in months)	Approximate Weighted Average Coupon
Group 4 MBS	\$50,000,000	84	83	1	359	83	6.10%

The actual remaining terms to maturity, weighted average loan ages, interest rates and, in the case of the Group 4 MBS, remaining amortizations terms and months to balloon payment of most of the mortgage loans will differ from the weighted averages shown above, perhaps significantly.

Characteristics of the Group 2 and Group 5 SMBS

Exhibit A describes the Group 2 and Group 5 SMBS, including certain information about the related mortgage loans. To learn more about the Group 2 and Group 5 SMBS, you should obtain from us the current class factors and the disclosure documents for the Group 2 and Group 5 SMBS as described on page S-3.

Class Factors

The class factors are numbers that, when multiplied by the initial principal balance of a certificate, can be used to calculate the current principal balance of that certificate (after taking into account principal payments in the same month). We publish the class factors on or shortly after the 11th day of each month.

Settlement Date

We expect to issue the certificates on December 28, 2001.

Distribution Dates

We will make payments on the certificates on the 25th day of each calendar month, or on the next business day if the 25th day is not a business day.

Book-Entry and Physical Certificates

We will issue the book-entry certificates through the U.S. Federal Reserve Banks, which will electronically track ownership of the certificates and payments on them. We will issue physical certificates in registered, certificated form.

We will issue the classes of certificates in the following forms:

Fed Book-Entry

Physical

All Classes other than the R and RL Classes

R and RL Classes

Exchanging Certificates Through Combination and Recombination

If you own certain certificates, you will be able to exchange them for a proportionate interest in the related RCR certificates as shown on Schedule 1. We will issue the RCR certificates upon such exchange. You can exchange your certificates by notifying us and paying an exchange fee. We use the principal and interest of the certificates exchanged to pay principal and interest on the related RCR certificates. Schedule 1 lists all of the available combinations of the certificates eligible for exchange and the related RCR certificates.

Interest Rates

During each interest accrual period, the fixed rate classes will bear interest at the applicable annual interest rates listed on the cover of this prospectus supplement or on Schedule 1.

During the initial interest accrual period, the floating rate and inverse floating rate classes will bear interest at the initial interest rates listed below. During subsequent interest accrual periods, the floating rate and inverse floating rate classes will bear interest based on the formulas indicated below, but always subject to the specified maximum and minimum interest rates:

Class	Initial Interest Rate	Maximum Interest Rate	Minimum Interest Rate	Formula for Calculation of Interest Rate (1)
F	2.64%	8.50%	0.60%	LIBOR + 60 basis points
S	5.86%	7.90%	0.00%	7.9% - LIBOR
FA	2.64%	8.50%	0.55%	LIBOR $+$ 55 basis points
SA	5.86%	7.95%	0.00%	7.95% - LIBOR

⁽¹⁾ We will establish LIBOR on the basis of the "BBA Method."

We will apply interest payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

Notional Classes

Class

A notional class will not receive any principal. Its notional principal balance is the balance used to calculate accrued interest. The notional principal balances will equal the percentages of the outstanding balances specified below immediately before the related distribution date:

Class	
PI	16.6666666667% of the PA and PB Classes
	12.50% of the PC Class
PU	100% of the PT Class
S	100% of the F Class
IG	12.50% of the PG Class
QJ	100% of the QK Class
QL	100% of the QM Class
SA	100% of the FA Class
QY	100% of the QX Class
IQ	16.6666666667% of the QN and QP Classes
	4 1666666667% of the QR Class

Distributions of Principal

Group 1 Principal Distribution Amount

ZA Accrual Amount

To the Segment Group to its Targeted Balance, and thereafter to the ZA Class.

Group 1 Cash Flow Distribution Amount and Z Accrual Amount

- 1. To the PA, PB, PC, PD and PT Classes, in that order, to their Planned Balances.
- 2. To the Segment Group to its Targeted Balance.
- 3. To the ZA Class to zero.
- 4. To the Segment Group to zero.
- 5. To the PA, PB, PC, PD and PT Classes, in that order, to zero.
- 6. To the Z Class to zero.

For a description of the Segment Group, see "Description of the Certificates—Distributions of Principal" in this prospectus supplement.

Group 2 Principal Distribution Amount

To the F Class to zero.

Group 3 Principal Distribution Amount

ZB Accrual Amount

To the VG and VH Classes, in that order, to zero, and thereafter to the ZB Class.

Group 3 Cash Flow Distribution Amount

- 1. To the PG, QK and QM Classes, in that order, to their Planned Balances.
- 2. To the KA Class to its Planned Balance.
- 3. To the KC Class to its Targeted Balance.

- 4. To the KD Class to zero.
- 5. To the KC Class to zero.
- 6. To the KA Class to zero.
- 7. To the PG, QK and QM Classes, in that order, to zero.
- 8. To the VG, VH and ZB Classes, in that order, to zero.

Group 4 Principal Distribution Amount

- 1. To the PK and PL Classes, in that order, to their Planned Balances.
- 2. To the G Class to zero.
- 3. To the PK and PL Classes, in that order, to zero.

Group 5 Principal Distribution Amount

ZD Accrual Amount

To the FA Class to zero, and thereafter to the ZD Class.

Group 5 Cash Flow Distribution Amount

To the FA and ZD Classes, in that order, to zero.

Group 6 Principal Distribution Amount

GZ Accrual Amount

To the GC Class to its Targeted Balance, and thereafter to the GZ Class.

Group 6 Cash Flow Distribution Amount

- 1. To the QN, QP, QR, QT, QU and QX Classes, in that order, to their Planned Balances.
- 2. If and only if the principal balance of the Group 6 MBS is less than the Group 6 MBS Specified Balance, to the GZ Class to zero.
- 3. To the GC Class to its Targeted Balance.
- 4. To the GZ Class to zero.
- 5. To the GC Class to zero.
- 6. To the QN, QP, QR, QT, QU and QX Classes, in that order, to zero.

We will apply principal payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

^{*} Determined as specified under "Description of the Certificates—Weighted Average Lives of the Certificates" in this prospectus supplement.

ADDITIONAL RISK FACTORS

The rate of principal payments on the certificates will be affected by the rate of principal payments on the underlying mortgage loans. The rate at which you receive principal payments on the certificates will be sensitive to the rate of principal payments on the mortgage loans underlying the related MBS, including scheduled amortization payments, balloon payments or prepayments. Because borrowers generally may prepay their mortgage loans at any time without penalty, the rate of principal payments on the mortgage loans is likely to vary over time. It is highly unlikely that the mortgage loans will prepay

- at any of the prepayment rates we assumed in this prospectus supplement, or
- at any constant prepayment rate until maturity.

The mortgage loans underlying the Group 4 MBS have original maturities of up to seven years. However, each of these mortgage loans provides for monthly payments based on a 30-year amortization schedule, with a lump sum payment of the unpaid principal balance due at maturity. In addition, these mortgage loans provide that if certain conditions are satisfied at maturity (or, at the lender's option, up to six months before maturity), the unpaid principal balances may be refinanced for an additional period of 23 years.

Yields may be lower than expected due to unexpected rate of principal payments. The actual yield on your certificates probably will be lower than you expect:

- if you buy your certificates at a premium and principal payments are faster than you expect, or
- if you buy your certificates at a discount and principal payments are slower than you expect.

Furthermore, in the case of interest only certificates and certificates purchased at a premium, you could lose money on your investment if prepayments occur at a rapid rate.

You must make your own decisions about the various applicable assumptions, including prepayment assumptions, when deciding whether to purchase the certificates.

Weighted average lives and yields on the certificates are affected by actual characteristics of the underlying mortgage loans. We have assumed that the mortgage loans underlying the Group 1, Group 3, Group 4 and Group 6 MBS have certain characteristics. However, the actual mortgage loans probably will have different characteristics from those we assumed. As a result, your yields could be lower than you expect, even if the mortgage loans prepay at the indicated constant prepayment rates. In addition, slight differences between the assumed mortgage loans could affect the weighted average lives of the classes of certificates.

Weighted average lives of the Non-Sticky Jump classes are especially sensitive to prepayments under certain scenarios. The weighted average lives of the GZ and GC Classes are sensitive in varying degrees to the rate of principal payments, including prepayments of the related mortgage loans. For an illustration of this sensitivity, see the related decrement tables for these classes in this prospectus supplement.

Level of floating rate index affects yields on certain certificates. The yield on any floating rate or inverse floating rate certificate will be affected by the level of its interest rate index. If the level of the index differs from the level you expect, then your actual yield may be lower than you expect.

Delay classes have lower yields and market values. Since certain classes do not receive interest immediately following each interest accrual period, these classes have lower yields and lower market values than they would if there were no such delay.

Reinvestment of certificate payments may not achieve same yields as certificates. The rate of principal payments of the certificates is uncertain. You may be unable to reinvest the payments on the certificates at the same yields provided by the certificates.

Unpredictable timing of last payment affects yields on certificates. The actual final payment of your class is likely to occur earlier, and could occur much earlier, than the final distribution date listed on the cover page of this prospectus supplement. If you assume that the actual final payment will occur on the final

distribution date specified, your yield could be lower than you expect.

Some investors may be unable to buy certain classes. Investors whose investment activities are subject to legal investment laws and regulations, or to review by regulatory authorities, may be unable to buy certain certificates. You should obtain legal advice to determine whether you may purchase the certificates.

Uncertain market for the certificates could make them difficult to sell and cause their values to fluctuate. We cannot be sure that a market for resale of the certificates will develop. Further, if a market develops, it may not continue or be sufficiently liquid to allow you to sell your certificates. Even if you are able to sell your certificates, the sale price may not be comparable to similar investments that have a developed market. Moreover, you may not be able to sell small or large amounts of certificates at prices comparable to those available to other investors. You should purchase certificates only if you understand and can tolerate the risk that the value of your certificates will vary over time and that your certificates may not be easily sold.

DESCRIPTION OF THE CERTIFICATES

The material under this heading summarizes certain features of the Certificates. You will find additional information about the Certificates in the other sections of this prospectus supplement, as well as in the additional Disclosure Documents and the Trust Agreement. If we use a capitalized term in this prospectus supplement without defining it, you will find the definition of that term in the applicable Disclosure Document or in the Trust Agreement.

General

Structure. We will create the Fannie Mae REMIC Trust specified on the cover of this prospectus supplement (the "Trust") and a separate trust (the "Lower Tier REMIC") pursuant to a trust agreement dated as of December 1, 2001 (the "Issue Date"). We will issue the Guaranteed REMIC Pass-Through Certificates (the "REMIC Certificates"), pursuant to that trust agreement. We will issue the Combinable and Recombinable REMIC Certificates (the "RCR Certificates" and, together with the REMIC Certificates, the "Certificates") pursuant to a separate trust agreement dated as of the Issue Date (together with the trust agreement relating to the REMIC Certificates, the "Trust Agreement"). We will execute the Trust Agreement in our corporate capacity and as trustee (the "Trustee"). In general, the term "Classes" includes the Classes of REMIC Certificates and RCR Certificates.

The Trust and the Lower Tier REMIC each will constitute a "real estate mortgage investment conduit" ("REMIC") under the Internal Revenue Code of 1986, as amended (the "Code").

- The REMIC Certificates (except the R and RL Classes) will be "regular interests" in the Trust.
- The R Class will be the "residual interest" in the Trust.
- The interests in the Lower Tier REMIC other than the RL Class (the "Lower Tier Regular Interests") will be the "regular interests" in the Lower Tier REMIC.
- The RL Class will be the "residual interest" in the Lower Tier REMIC.

The assets of the Trust will consist of the Lower Tier Regular Interests.

The assets of the Lower Tier REMIC will consist of

- four groups of Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the "Group 1 MBS," "Group 3 MBS," "Group 4 MBS" and "Group 6 MBS" and, collectively, the "Trust MBS"), and
- two groups of Fannie Mae Stripped Mortgage-Backed Securities (the "Group 2 SMBS" and "Group 5 SMBS" and, collectively, the "SMBS").

The SMBS represent beneficial ownership interests in certain interest and principal distributions on certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (together with the Trust MBS, the "MBS"). The SMBS are further described in Exhibit A.

Each MBS represents a beneficial ownership interest in a pool of first lien, one- to four-family ("single-family"), fixed-rate residential mortgage loans (the "Mortgage Loans") having the characteristics described in this prospectus supplement.

Fannie Mae Guaranty. We guarantee that we will distribute to Certificateholders:

- · required installments of principal and interest on the Certificates on time, and
- the principal balance of each Class of Certificates no later than its Final Distribution Date, whether or not we have received sufficient payments on the MBS.

In addition, we guarantee that we will distribute to each holder of an MBS:

- scheduled installments of principal and interest on the underlying Mortgage Loans on time, whether or not the related borrowers pay us, and
- the full principal balance of any foreclosed Mortgage Loan, whether or not we recover it.

Our guarantees are not backed by the full faith and credit of the United States. See "Description of Certificates—The Fannie Mae Guaranty" in the REMIC Prospectus, "Description of Certificates—The Fannie Mae Guaranty" in the MBS Prospectus and "The SMBS Certificates—Fannie Mae Obligations" in the SMBS Prospectus.

Characteristics of Certificates. We will issue the Certificates (except the R and RL Classes) in book-entry form on the book-entry system of the U.S. Federal Reserve Banks. Entities whose names appear on the book-entry records of a Federal Reserve Bank as having had Certificates deposited in their accounts are "Holders" or "Certificateholders." A Holder is not necessarily the beneficial owner of a Certificate. Beneficial owners ordinarily will hold Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See "Description of Certificates—Denominations and Form" in the REMIC Prospectus.

We will issue the R and RL Certificates in fully registered, certificated form. The "Holder" or "Certificateholder" of the R or RL Certificate is its registered owner. The R or RL Certificate can be transferred at the corporate trust office of the Transfer Agent, or at the office of the Transfer Agent in New York, New York. State Street Bank and Trust Company in Boston, Massachusetts ("State Street") will be the initial Transfer Agent. We may impose a service charge for any registration of transfer of the R or RL Certificate and may require payment to cover any tax or other governmental charge. See also "—Characteristics of the R and RL Classes" below.

The Holder of the R Class will receive the proceeds of any remaining assets of the Trust, and the Holder of the RL Class will receive the proceeds of any remaining assets of the Lower Tier REMIC, in each case only by presenting and surrendering the related Certificate at the office of the Paying Agent. State Street will be the initial Paying Agent.

Authorized Denominations. We will issue the Certificates, other than the R and RL Classes, in minimum denominations of \$1,000 and whole dollar increments. We will issue the R and RL Classes as single Certificates with no principal balances.

Distribution Dates. We will make monthly payments on the Certificates on the 25th day of each month (or, if the 25th day is not a business day, on the first business day after the 25th). We refer to each such date as a "Distribution Date." We will make the first payments to Certificateholders the month after we issue the Certificates.

Record Date. On each Distribution Date, we will make each monthly payment on the Certificates to Holders of record on the last day of the preceding month.

Class Factors. On or shortly after the eleventh calendar day of each month, we will publish a factor (carried to eight decimal places) for each Class of Certificates. When the factor is multiplied by the original principal balance (or notional principal balance) of a Certificate of any Class, the product

will equal the current principal balance (or notional principal balance) of that Certificate after taking into account payments on the Distribution Date in the same month (as well as any addition to principal in the case of an Accrual Class).

Optional Termination. We will not terminate the Lower Tier REMIC or the Trust by exercising our right to repurchase the Mortgage Loans underlying any MBS unless

- · only one Mortgage Loan remains in the related pool, or
- the principal balance of the pool is less than one percent of its original level.

See "Description of Certificates—Termination" in the MBS Prospectus.

Voting the SMBS. Holders of the SMBS may be asked to vote on issues arising under the related trust agreements. If so, the Trustee will vote the Group 2 or Group 5 SMBS, as applicable, as instructed by Holders of Certificates of the Classes backed by the Group 2 or Group 5 SMBS. The Trustee must receive instructions from Holders of Certificates having principal balances totaling at least 51% of the aggregate principal balance of the related Classes. In the absence of such instructions, the Trustee will vote in a manner consistent, in its sole judgment, with the best interests of Certificateholders.

Combination and Recombination

General. You are permitted to exchange all or a portion of the PU, PT, QJ, QK, QL, QM, QY and QX Classes of REMIC Certificates for a proportionate interest in the related Combinable and Recombinable REMIC Certificates ("RCR Certificates") in the combinations shown on Schedule 1. You also may exchange all or a portion of the RCR Certificates for the related REMIC Certificates in the same manner. This process may occur repeatedly.

Holders of RCR Certificates will be the beneficial owners of a proportionate interest in the related REMIC Certificates and will receive a proportionate share of the distributions on the related REMIC Certificates.

The Classes of REMIC Certificates and RCR Certificates that are outstanding at any given time, and the outstanding principal balances (or notional principal balances) of these Classes, will depend upon any related distributions of principal, as well as any exchanges that occur. REMIC Certificates and RCR Certificates in any combination may be exchanged only in the proportions shown on Schedule 1.

Procedures. If a Certificateholder wishes to exchange Certificates, the Certificateholder must notify our Structured Transactions Department through one of our "REMIC Dealer Group" dealers in writing or by telefax no later than two business days before the proposed exchange date. The exchange date can be any business day other than the first or last business day of the month subject to our approval. The notice must include the outstanding principal balance of both the Certificates to be exchanged and the Certificates to be received, and the proposed exchange date. After receiving the Holder's notice, we will telephone the dealer with delivery and wire payment instructions. Notice becomes irrevocable on the second business day before the proposed exchange date.

In connection with each exchange, the Holder must pay us a fee equal to 1/32 of 1% of the outstanding principal balance (exclusive of any notional principal balance) of the Certificates to be exchanged. In no event, however, will our fee be less than \$2,000.

We will make the first distribution on a REMIC Certificate or an RCR Certificate received in an exchange transaction on the Distribution Date in the following month. We will make that distribution to the Holder of record as of the close of business on the last day of the month of the exchange.

Additional Considerations. The characteristics of RCR Certificates will reflect the characteristics of the REMIC Certificates used to form those RCR Certificates. You should also consider a

number of factors that will limit a Certificateholder's ability to exchange REMIC Certificates for RCR Certificates or vice versa:

- At the time of the proposed exchange, a Certificateholder must own Certificates of the related Class or Classes in the proportions necessary to make the desired exchange.
- A Certificateholder that does not own the Certificates may be unable to obtain the necessary REMIC Certificates or RCR Certificates.
- The Certificateholder of needed Certificates may refuse to sell them at a reasonable price (or any price) or may be unable to sell them.
- Certain Certificates may have been purchased and placed into other financial structures and thus be unavailable.
- · Principal distributions will decrease the amounts available for exchange over time.
- Only the combinations listed on Schedule 1 are permitted.

The Trust MBS

The following table contains certain information about the Trust MBS. The Trust MBS included in each specified Group will have the aggregate unpaid principal balance and Pass-Through Rate shown below and the general characteristics described in the MBS Prospectus. The Trust MBS provide that principal and interest on the related Mortgage Loans are passed through monthly. The Mortgage Loans underlying the Trust MBS are conventional Level Payment Mortgage Loans secured by first mortgages or deeds of trust on single-family residential properties. In the case of the Group 1 and Group 3 MBS, the underlying Mortgage Loans have original maturities of up to 30 years. In the case of the Group 4 MBS, each underlying Mortgage Loan provides for a balloon payment at maturity and has an original maturity of up to seven years. In the case of the Group 6 MBS, the underlying Mortgage Loans have original maturities of up to 15 years. See "The Mortgage Pools" and "Yield Considerations" in the MBS Prospectus. We expect the characteristics of the Trust MBS and the related Mortgage Loans as of the Issue Date to be as follows:

Group 1 MBS	
Aggregate Unpaid Principal Balance	\$125,000,000
MBS Pass-Through Rate	6.00%
Range of WACs (annual percentages)	6.25% to 8.50%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	320 months
Approximate Weighted Average WALA	
(Weighted Average Loan Age)	32 months
Group 3 MBS	
Aggregate Unpaid Principal Balance	\$279,508,066
MBS Pass-Through Rate	6.00%
Range of WACs (annual percentages)	6.25% to 8.50%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	320 months
Approximate Weighted Average WALA	32 months
Group 4 MBS	
Aggregate Unpaid Principal Balance	\$50,000,000
MBS Pass-Through Rate	5.50%
Range of WACs (annual percentages)	5.75% to 8.00%
Range of WAMs	56 months to 84 months
Approximate Weighted Average WAM	83 months
Approximate Weighted Average WALA	1 month

Group 6 MBS

Aggregate Unpaid Principal Balance	\$135,553,397
MBS Pass-Through Rate	6.00%
Range of WACs (annual percentages)	6.25% to 8.50%
Range of WAMs	121 months to 180 months
Approximate Weighted Average WAM	176 months
Approximate Weighted Average WALA	2 months

The SMBS

The SMBS represent beneficial ownership interests in the interest and principal distributions made in respect of certain MBS having the general characteristics set forth in the MBS Prospectus. Distributions on the SMBS will be passed through monthly beginning in the month after we issue the Certificates. The general characteristics of the SMBS are described in the SMBS Prospectus. See Exhibit A for additional information about the SMBS.

Each MBS evidences beneficial ownership interests in a pool of conventional Level Payment Mortgage Loans secured by first mortgages or deeds of trust on single-family residential properties, as described under "The Mortgage Pools" and "Yield Considerations" in the MBS Prospectus.

For further information about the SMBS, telephone us at 1-800-237-8627 or 202-752-6547. You also may obtain certain information in electronic form by calling us at 1-800-752-6440 or 202-752-6000.

Final Data Statement

After issuing the Certificates, we will prepare a Final Data Statement containing certain information, including the principal balances of the Group 2 and Group 5 SMBS as of the Issue Date and, with respect to the Trust MBS, the Pool number, the current WAC (or original WAC, if the current WAC is not available) and the current WAM (or Adjusted WAM, if the current WAM is not available) of the Mortgage Loans underlying each of the Trust MBS as of the Issue Date. The Final Data Statement will also include the weighted averages of all the current or original WACs and the weighted averages of all the current or Adjusted WAMs, based on the current unpaid principal balances of the Mortgage Loans underlying each of the Trust MBS as of the Issue Date. You may obtain the Final Data Statement by telephoning us at 1-800-237-8627 or 202-752-6547. The contents of the Final Data Statement and other data specific to the Certificates are available in electronic form by calling us at 1-800-752-6440 or 202-752-6000.

Distributions of Interest

Categories of Classes

For the purpose of interest payments, the Classes will be categorized as follows:

Interest Type*	Classes
Group 1 Classes	
Fixed Rate	PA, PB, PC, PI, PD, PU, TR, A, B, ZA and Z
Accrual	ZA and Z
Interest Only	PI and PU
Principal Only	PT
RCR**	PE
Group 2 Classes	
Floating Rate	F
Inverse Floating Rate	\mathbf{S}
Interest Only	\mathbf{S}

Interest Type*	Classes

Group 3 Classes

Fixed Rate IG, PG, QJ, QL, KA, KC, KD, VG, VH and ZB

Accrual ZB

Interest Only
Principal Only
RCR**

IG, QJ and QL
QK and QM
PH and PJ

Group 4 Classes

Fixed Rate PK, PL and G

Group 5 Classes

Fixed Rate ZD
Floating Rate FA
Inverse Floating Rate SA
Accrual ZD
Interest Only SA

Group 6 Classes

Fixed Rate QN, QP, QR, IQ, QT, QU, QY, GC and GZ

Accrual GZ

Interest Only IQ and QY

Principal Only QX RCR** QW

No Payment Residual R and RL

General. We will pay interest on the Certificates at the applicable annual interest rates specified on the cover or on Schedule 1 or described in this prospectus supplement. We calculate interest based on a 360-day year consisting of twelve 30-day months. We pay interest monthly (except in the case of an Accrual Class) on each Distribution Date, beginning in the month after the Settlement Date specified in the Reference Sheet.

Interest to be paid on each Certificate (or added to principal, in the case of an Accrual Class) on a Distribution Date will consist of one month's interest on the outstanding balance of that Certificate immediately prior to that Distribution Date. For a description of the Accrual Classes, see "—Accrual Classes" below.

We will apply interest payments from exchanged REMIC Certificates to the corresponding RCR Certificates, on a pro rata basis, following any exchange.

Interest Accrual Periods. Interest to be paid on each Distribution Date will accrue on the Certificates during the applicable one-month periods set forth below (each, an "Interest Accrual Period").

Classes Interest Accrual Periods

All Fixed Rate Classes (collectively, the "Delay Classes")

All Floating Rate and Inverse Floating Rate Classes (collectively, the "No Delay Classes") Calendar month preceding the month in which the Distribution Date occurs

One-month period beginning on the 25th day of the month preceding the month in which the Distribution Date occurs

See "Additional Risk Factors—Delay classes have lower yields and market values" in this prospectus supplement.

^{*} See "Description of Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

** See "—Combination and Recombination" above and Schedule 1 for a further description of the RCR Classes

The Dealer will treat the PT, QK, QM and QX Classes as Delay Classes for the sole purpose of facilitating trading.

Accrual Classes. The ZA, Z, ZB, ZD and GZ Classes are Accrual Classes. Interest will accrue on the Accrual Classes at the applicable annual rate specified on the cover of this prospectus supplement. However, we will not pay any interest on an Accrual Class. Instead, interest accrued on an Accrual Class will be added as principal to its principal balance on each Distribution Date. We will pay principal on the Accrual Classes as described under "—Distributions of Principal" below.

Notional Classes. The Notional Classes will not have principal balances. During each Interest Accrual Period, the Notional Classes will bear interest on their respective notional principal balances at the applicable interest rates. The notional principal balances of the Notional Classes will be calculated as specified under "Reference Sheet—Notional Classes" in this prospectus supplement.

We use the notional principal balance of a Notional Class to determine interest payments on that Class. Although a Notional Class will not have a principal balance and will not be entitled to any principal payments, we will publish a class factor for that Class. References in this prospectus supplement to the principal balances of the Certificates generally shall refer also to the notional principal balances of the Notional Classes.

Floating Rate and Inverse Floating Rate Classes. During each Interest Accrual Period, the Floating Rate and Inverse Floating Rate Classes will bear interest at rates determined as described under "Reference Sheet—Interest Rates" in this prospectus supplement.

Changes in the specified interest rate index (the "Index") will affect the yields with respect to the related Classes. These changes may not correspond to changes in mortgage interest rates. Lower mortgage interest rates could occur while an increase in the level of the Index occurs. Similarly, higher mortgage interest rates could occur while a decrease in the level of the Index occurs.

Our establishment of each Index value and our determination of the interest rate for each applicable Class for the related Interest Accrual Period will be final and binding in the absence of manifest error. You may obtain each such interest rate by telephoning us at 1-800-237-8627 or 202-752-6547.

Calculation of LIBOR

On each Index Determination Date, we will calculate LIBOR for the related Interest Accrual Period. We will calculate LIBOR on the basis of the "BBA Method", as described in the REMIC Prospectus under "Description of Certificates—Indexes for Floating Rate Classes and Inverse Floating Rate Classes—*LIBOR*."

If we are unable to calculate LIBOR on the initial Index Determination Date, LIBOR for the following Interest Accrual Period will be equal to 2.04% in the case of the F and S Classes, and 2.09% in the case of the FA and SA Classes.

Distributions of Principal

Categories of Classes

For the purpose of principal payments, the Classes fall into the following categories:

Principal Type*	Classes
Group 1 Classes PAC Segment(TAC)/TAC Segment(TAC)/Support Support Support Sequential Pay Accretion Directed Notional RCR**	PA, PB, PC, PD and PT TR and A B ZA Z PA, PB, PC, PD, PT, TR, A, B and ZA PI and PU PE
Group 2 Classes Pass-Through Notional	F S
Group 3 Classes PAC TAC Support Sequential Pay Accretion Directed Notional RCR** Group 4 Classes	PG, QK, QM and KA KC KD VG, VH and ZB VG and VH IG, QJ and QL PH and PJ
PAC Support	PK and PL G
Group 5 Classes Sequential Pay Accretion Directed Notional	FA and ZD FA SA
Group 6 Classes PAC TAC Support Accretion Directed Non-Sticky Jump Notional RCR** No Payment Residual	QN, QP, QR, QT, QU and QX GC GZ GC GC and GZ IQ and QY QW R and RL

Principal Distribution Amount

On the Distribution Date in each month, we will pay principal on the Certificates in an aggregate amount (the "Principal Distribution Amount") equal to the sum of

• the principal then paid on the Group 1 MBS (the "Group 1 Cash Flow Distribution Amount") plus any interest then accrued and added to the principal balances of the ZA and Z Classes (the "ZA Accrual Amount" and "Z Accrual Amount," respectively, and, together with the Group 1 Cash Flow Distribution Amount, the "Group 1 Principal Distribution Amount"),

^{*} See "Description of Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

** See "—Combination and Recombination" above and Schedule 1 for a further description of the RCR Classes.

- the principal then paid on the Group 2 SMBS (the "Group 2 Principal Distribution Amount"),
- the principal then paid on the Group 3 MBS (the "Group 3 Cash Flow Distribution Amount") plus any interest then accrued and added to the principal balance of the ZB Class (the "ZB Accrual Amount" and, together with the Group 3 Cash Flow Distribution Amount, the "Group 3 Principal Distribution Amount"),
- the principal then paid on the Group 4 MBS (the "Group 4 Principal Distribution Amount"),
- the principal then paid on the Group 5 MBS (the "Group 5 Cash Flow Distribution Amount") plus any interest then accrued and added to the principal balance of the ZD Class (the "ZD Accrual Amount" and, together with the Group 5 Cash Flow Distribution Amount, the "Group 5 Principal Distribution Amount"), and
- the principal then paid on the Group 6 MBS (the "Group 6 Cash Flow Distribution Amount") plus any interest then accrued and added to the principal balance of the GZ Class (the "GZ Accrual Amount" and, together into the Group 6 Cash Flow Distribution Amount, the "Group 6 Principal Distribution Amount").

Group 1 Principal Distribution Amount

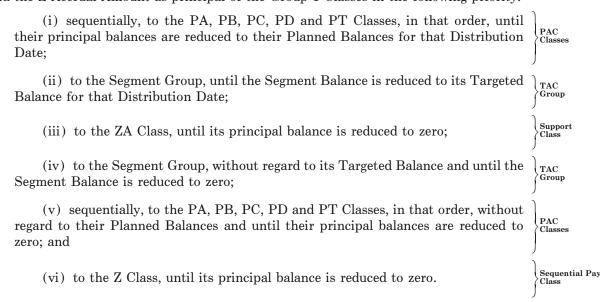

ZA Accrual Amount

On each Distribution Date, we will pay the ZA Accrual Amount as principal of the Segment Group (described below), until the Segment Balance (described below) is reduced to its Targeted Balance for such Distribution Date. Thereafter, we will pay the ZA Accrual Amount as principal of the ZA Class.

Accretion Directed Group and Accrual Class

Group 1 Cash Flow Distribution Amount and Z Accrual Amount

On each Distribution Date, we will pay the Group 1 Cash Flow Distribution Amount and the Z Accrual Amount as principal of the Group 1 Classes in the following priority:

The "Segment Group" consists of the TR, A and B Classes. We will apply payments of principal of the Segment Group as follows:

first, concurrently, to the TR and A Classes, pro rata (or 51.0204081633% and 48.9795918367%, respectively), until their principal balances are reduced to their Targeted Balances for such Distribution Date;

second, to the B Class, until its principal balance is reduced to zero; and

third, concurrently, to the TR and A Classes, pro rata, without regard to their Targeted Balances and until their principal balances are reduced to zero.

The "Segment Balance" for any Distribution Date is equal to \$56,930,500 minus the sum of all amounts applied to it as specified above.

Group 2 Principal Distribution Amount

On each Distribution Date, we will pay the Group 2 Principal Distribution Amount as principal of the F Class, until its principal balance is reduced to zero.

Group 3 Principal Distribution Amount

ZB Accrual Amount

On each Distribution Date, we will pay the ZB Accrual Amount, sequentially, as principal of the VG and VH Classes, in that order, until their principal balances are reduced to zero. Thereafter, we will pay the ZB Accrual Amount as principal of the ZB Class.

Accretion Directed Classes and Accrual Class

Support Class

PAC

Group 3 Cash Flow Distribution Amount

On each Distribution Date, we will pay the Group 3 Cash Flow Distribution Amount as principal of the Group 3 Classes in the following priority:

- (i) sequentially, to the PG, QK and QM Classes, in that order, until their principal balances are reduced to their Planned Balances for that Distribution Date;
 - (ii) to the KA Class, until its principal balance is reduced to its Planned Balance for that Distribution Date;

(iii) to the KC Class, until its principal balance is reduced to its Targeted Balance for such Distribution Date;

- (iv) to the KD Class, until its principal balance is reduced to zero;
- (v) to the KC Class, without regard to its Targeted Balance and until its principal balance is reduced to zero;
- (vi) to the KA Class, without regard to its Planned Balance and until its principal balance is reduced to zero;
- (vii) sequentially, to the PG, QK and QM Classes, in that order, without regard to their Planned Balances and until their principal balances are reduced to zero; and
- (viii) sequentially, to the VG, VH and ZB Classes, in that order, until their principal balances are reduced to zero.

Group 4 Principal Distribution Amount

On each Distribution Date, we will pay the Group 4 Principal Distribution Amount as principal of the Group 4 Classes in the following priority:

- (i) sequentially, to the PK and PL Classes, in that order, until their principal balances are reduced to their Planned Balances for such Distribution Date;
 - (ii) to the G Class, until its principal balance is reduced to zero; and

(iii) sequentially, to the PK and PL Classes, in that order, without regard to their Planned Balances and until their principal balances are reduced to zero.

Group 5 Principal Distribution Amount

ZD Accrual Amount

On each Distribution Date, we will pay the ZD Accrual Amount as principal of the FA Class, until its principal balance is reduced to zero. Thereafter, we will pay the ZD Accrual Amount as principal of the ZD Class.

Accretio Directed Class and Accrual Class

Group 5 Cash Flow Distribution Amount

On each Distribution Date, we will pay the Group 5 Cash Flow Distribution Amount, sequentially, as principal of the FA and ZD Classes, in that order, until their principal balances are reduced to zero.

Sequential Pay Classes

Group 6 Principal Distribution Amount

GZ Accrual Amount

On each Distribution Date, we will pay the GZ Accrual Amount as principal of the GC Class, until its principal balance is reduced to its Targeted Balance for that Distribution Date. Thereafter we will pay the GZ Accrual Amount as principal of the GZ Class.

Accretion Directed Class and Accrual Class

Group 6 Cash Flow Distribution Amount

On each Distribution Date, we will pay the Group 6 Cash Flow Distribution Amount as principal of the Group 6 Classes in the following priority:

- (i) sequentially, to the QN, QP, QR, QT, QU and QX Classes, in that order, until their principal balances are reduced to their Planned Balances for that Distribution Date;
- (ii) if and only if the principal balance of the Group 6 MBS is less than the Group 6 MBS Specified Balance for that Distribution Date, to the GZ Class, until its principal balance is reduced to zero;
- (iii) to the GC Class, until its principal balance is reduced to its Targeted Balance for that Distribution Date;
 - (iv) to the GZ Class, until its principal balance is reduced to zero; Support

- (v) to the GC Class, without regard to its Targeted Balance and until its principal balance is reduced to zero; and
- (vi) sequentially, to the QN, QP, QR, QT, QU and QX Classes, in that order, without regard to their Planned Balances and until their principal balances are reduced to zero. $\mathbb{P}_{\text{Classes}}^{\text{PAC}}$

We will apply principal payments from exchanged REMIC Certificates to the corresponding RCR Certificates, on a pro rata basis, following any exchange.

Structuring Assumptions

Pricing Assumptions. Except where otherwise noted, the information in the tables in this prospectus supplement has been prepared based on the actual characteristics of each pool of Mortgage Loans backing the Group 2 and Group 5 SMBS and the following assumptions (such characteristics and assumptions, collectively, the "Pricing Assumptions"):

- the Mortgage Loans underlying the Trust MBS have the original terms to maturity, remaining terms to maturity, WALAs and interest rates specified under "Reference Sheet—Assumed Characteristics of the Mortgage Loans Underlying the Trust MBS" in this prospectus supplement;
- the Mortgage Loans prepay at the constant percentages of PSA specified in the related table;
- the settlement date for the sale of the Certificates is December 28, 2001;
- each Distribution Date occurs on the 25th day of a month; and
- · the Fannie Mae repurchase option is not exercised.

Prepayment Assumptions. Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used here is The Bond Market Association's standard prepayment model ("PSA"). To assume a specified rate of PSA is to assume a specified rate of prepayment each month of the then-outstanding principal balance of a pool of new mortgage loans computed as described under "Description of Certificates—Prepayment Models" in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any constant PSA rate or at any other constant rate.

Structuring Ranges and Rates. The Principal Balance Schedules are found beginning on page B-1 of this prospectus supplement. The Principal Balance Schedules have been prepared on the basis of the Pricing Assumptions and the assumption that the related Mortgage Loans will prepay at a constant PSA rate within the applicable Structuring Ranges or at the applicable rates set forth below.

Principal Balance Schedule References	Related Classes and Groups	Structuring Ranges and Rates
Planned Balances	PA, PB, PC, PD, PT and PE	Between 100% and 400%
Targeted Balances	Segment Group(1)	150%
Targeted Balances	TR and A	300%
Planned Balances	PG, QK, QM, PH and PJ	Between 100% and 250%
Planned Balances	KA	Between 155% and 250%
Targeted Balances	KC	217%
Planned Balances	PK and PL	Between 200% and 700%
Planned Balances	QN, QP, QR, QT, QU, QX and QW	Between 100% and 325%
Specified Balances	Group 6 MBS	285%
Targeted Balances	GC	200%

⁽¹⁾ The Structuring Rate for the Segment Group is associated with the Segment Balance but not with the individual balances of the related Classes.

We cannot assure you that the balance of any Class or Group listed above will conform on any Distribution Date to the specified balance in the Principal Balance Schedules. As a result, we cannot assure you that payments of principal of any Class or Group listed above will begin or end on the Distribution Dates specified in the Principal Balance Schedules. We will distribute any excess of principal payments over the amount needed to reduce a Class or Group to its scheduled balance on a Distribution Date. Accordingly, the ability to reduce a Class or Group to its scheduled balance will not be improved by the averaging of high and low principal payments from month to month. In addition, even if the related Mortgage Loans prepay at rates falling within the applicable Structuring Ranges, principal distributions may be insufficient to reduce the applicable Classes to their scheduled balances if the prepayments do not occur at a constant PSA rate. Moreover, because of the diverse remaining terms to maturity of the related Mortgage Loans, which may include recently originated Mortgage Loans, the Classes and applicable Group specified above may not be reduced to their scheduled balances, even if prepayments occur at a constant rate within the applicable Structuring Ranges or at the applicable rates specified above.

Initial Effective Ranges. The Effective Range for a Class is the range of prepayment rates (measured by constant PSA rates) which would reduce that Class to its scheduled balance on each Distribution Date. The Initial Effective Ranges shown in the table below are based upon the assumed characteristics of the related Mortgage Loans specified in the Pricing Assumptions.

Classes	Initial Effective Ranges
PT	Between 97% and 400%
PD	Between 100% and 400%
PC	Between 100% and 406%
PB	Between 100% and 490%
PA	Between 100% and 582%
QM	Between 100% and 250%
QK	Between 100% and 250%
PG	Between 100% and 289%
KA	Between 155% and 250%
PL	Between 200% and 700%
PK	Between 200% and 790%
QX	Between 68% and 325%
QU	Between 92% and 325%
QT	Between 100% and 325%
QR	Between 100% and 333%
QP	Between 100% and 420%
QN	Between 100% and 797%
PE	Between 97% and 400%
PH	Between 100% and 250%
PJ	Between 100% and 250%
QW	Between 68% and 325%

The actual Effective Ranges at any time will be based upon the actual characteristics of the related Mortgage Loans at that time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. The actual Effective Ranges calculated on the basis of the actual characteristics are likely to differ from the Initial Effective Ranges. As a result, the applicable Classes might not be reduced to their scheduled balances even if prepayments were to occur at a constant PSA rate within the Initial Effective Ranges. This is so particularly if the rate were at the lower or higher end of those ranges. In addition, even if prepayments occur at rates falling within the actual Effective Ranges, principal distributions may be insufficient to reduce the applicable Classes to their scheduled balances if such prepayments do not occur at a constant PSA rate. It is highly unlikely that the related Mortgage Loans will prepay at any constant PSA rate. In general, the actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time. The

stability in principal payment of the PAC Classes will be supported in part by the related TAC and Support Classes and Group. When the related TAC and Support Classes and Group are retired, the PAC Classes, if still outstanding, may no longer have Effective Ranges and will be more sensitive to prepayments.

Yield Tables

General. The tables below illustrate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of the applicable Classes to various constant percentages of PSA and, where specified, to changes in the Index. We calculated the yields set forth in the tables by

- determining the monthly discount rates that, when applied to the assumed streams of cash
 flows to be paid on the applicable Classes, would cause the discounted present values of the
 assumed streams of cash flows to equal the assumed aggregate purchase prices of those Classes,
 and
- converting the monthly rates to corporate bond equivalent rates.

These calculations do not take into account variations in the interest rates at which you could reinvest distributions on the Certificates. Accordingly, these calculations do not illustrate the return on any investment in the Certificates when reinvestment rates are taken into account.

We cannot assure you that

- the pre-tax yields on the applicable Certificates will correspond to any of the pre-tax yields shown here or
- the aggregate purchase prices of the applicable Certificates will be as assumed.

In addition, it is unlikely that the Index will correspond to the levels shown here. Furthermore, because some of the Mortgage Loans are likely to have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal payments on the Certificates are likely to differ from those assumed. This would be the case even if all of the Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is unlikely that

- the Mortgage Loans will prepay at a constant PSA rate until maturity,
- · all of the Mortgage Loans will prepay at the same rate, or
- the level of the Index will remain constant.

The Fixed Rate Interest Only Classes. The yields on the Fixed Rate Interest Only Classes will be sensitive to the rate of principal payments (including prepayments) of the related Mortgage Loans. The Mortgage Loans generally can be prepaid at any time without penalty. On the basis of the assumptions described below, the yield to maturity on each Fixed Rate Interest Only Class would be 0% if prepayments of the related Mortgage Loans were to occur at the following constant rates:

Class	0% Yield Prepayment Rate
PI	610% PSA
PU	817% PSA
IG	434% PSA
QJ	449% PSA
QL	505% PSA
IQ	806% PSA
QY	1,012% PSA

For any of the Classes specified in the table above, if the actual prepayment rate of the related Mortgage Loans were to exceed the level specified for as little as one month while equaling such level for the remaining months, the investors in the applicable Class would lose money on their initial investments.

The information shown in the yield tables has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the Fixed Rate Interest Only Classes (expressed in each case as a percentage of the original principal balance) are as follows:

Class	Price*
PI	12.50%
PU	23.00%
IG	9.25%
QJ	20.00%
QL	24.50%
IQ	10.00%
QY	27.00%

^{*} The prices do not include accrued interest. Accrued interest has been added to the prices in calculating the yields set forth in the tables below.

Sensitivity of the PI Class to Prepayments

	PSA Prepayment Assumption										
	50 %	100%	150%	259%	300%	400%	500%				
Pre-Tax Yields to Maturity	30.5%	17.2%	17.2%	17.2%	17.2%	17.2%	12.3%				

Sensitivity of the PU Class to Prepayments

	PSA Prepayment Assumption										
	50 %	100%	150%	259%	300%	400%	500%				
Pre-Tax Yields to Maturity	24.8%	22.4%	22.4%	22.4%	22.4%	22.4%	18.9%				

Sensitivity of the IG Class to Prepayments

	PSA Prepayment Assumption									
	50%	100%	155%	217%	219%	250%	350%	500%		
Pre-Tax Yields to Maturity	42.8%	18.0%	18.0%	18.0%	18.0%	18.0%	13.5%	(13.8)%

Pre-Tax Yields to Maturity	29.4%	19.2%	19.2%	19.2%	19.2%	19.2%	19.2%	19.2%	15.1%	10.5%	

Sensitivity of the QY Class to Prepayments

DCA	Prenayment	Aggramation

50%	100%	200%	282 %	284 %	$\boldsymbol{285\%}$	286%	$\boldsymbol{325\%}$	$\boldsymbol{500\%}$	600%

Pre-Tax Yields to Maturity . . . 19.8% 19.7% 19.7% 19.7% 19.7% 19.7% 19.7% 19.7% 16.7% 14.3%

The Inverse Floating Rate Classes. The yields on the Inverse Floating Rate Classes will be sensitive in varying degrees to the rate of principal payments, including prepayments, of the related Mortgage Loans and to the level of the Index. The Mortgage Loans generally can be prepaid at any time without penalty. In addition, the rate of principal payments (including prepayments) of the Mortgage Loans is likely to vary, and may vary considerably, from pool to pool. As illustrated in the applicable tables below, it is possible that investors in the Inverse Floating Rate Classes would lose money on their initial investments under certain Index and prepayment scenarios.

Changes in the Index may not correspond to changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur while the level of the Index increased.

The information shown in the yield tables has been prepared on the basis of the Pricing Assumptions and the assumptions that

- the interest rates for the Inverse Floating Rate Classes for the initial Interest Accrual Period
 are the rates listed in the table under "Reference Sheet—Interest Rates" in this prospectus
 supplement and for each following Interest Accrual Period will be based on the specified level of
 the Index, and
- the aggregate purchase prices of those Classes (expressed in each case as a percentage of original principal balance) are as follows:

Class	Price*
S	10.25%
SA	9.50%

The prices do not include accrued interest. Accrued interest has been added to the prices in calculating the yields set forth in the tables below.

Sensitivity of the S Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

PSA Prepayment Assumption

		1 62	a i repayment Assi	иприон	
LIBOR	50%	100%	225%	300%	500%
0.04%	82.3%	78.2%	67.4%	60.8%	42.0%
2.04%	58.5%	54.7%	44.7%	38.6%	21.1%
4.04%	35.8%	32.2%	23.0%	17.3%	1.2%
6.04%	13.5%	10.2%	1.8%	(3.5)%	(18.2)%
7.90%	*	*	*	*	*

^{*} The pre-tax yield to maturity would be less than (99.9)%.

Sensitivity of the SA Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

	PSA Prepayment Assumption													
LIBOR	50%	100%	300%	500%	600%									
0.09%	92.4%	89.7%	78.7%	67.3%	61.4%									
2.09%	65.9%	63.2%	52.1%	40.5%	34.5%									
4.09%	40.7%	37.9%	26.5%	14.4%	8.1%									
6.09%	16.3%	13.4%	1.3%	(12.0)%	(19.0)%									
7.95%	*	*	*	*	*									

^{*} The pre-tax yield to maturity would be less than (99.9)%.

The Principal Only Classes. The Principal Only Classes will not bear interest. As indicated in the tables below, a low rate of principal payments (including prepayments) on the related Mortgage Loans will have a negative effect on the yields to investors in the Principal Only Classes.

The information shown in the yield tables has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the PT, QK, QM and QX Classes (expressed in each case as a percentage of its original principal balance) are as follows:

Class	Price
PT	77.0%
QK	80.0%
QM	73.0%
QX	70.0%

Sensitivity of the PT Class to Prepayments

			PSA Pre	payment As	sumption

Sensitivity of the QX Class to Prepayments

				PSA P	repaym	ent Assı	amption			
	50%	100%	200%	282 %	$\underline{284\%}$	$\underline{285\%}$	286 %	$\underline{325\%}$	500 %	600%
Pre-Tax Yields to Maturity	3.3%	3.3%	3.3%	3.3%	3.3%	3.3%	3.3%	3.3%	4.2%	4.9%

Weighted Average Lives of the Certificates

The weighted average life of a Certificate is determined by

- (a) multiplying the amount of the reduction, if any, of the principal balance of the Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date,
- (b) summing the results, and
- (c) dividing the sum by the aggregate amount of the reductions in principal balance of the Certificate referred to in clause (a).

For a description of the factors which may influence the weighted average life of a Certificate, see "Description of Certificates—Weighted Average Life and Final Distribution Date" in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including

- the timing of changes in the rate of principal payments,
- the priority sequences of payments of principal of the Group 1, Group 3, Group 4, Group 5 and Group 6 Classes, and
- in the case of the Group 1, Group 3, Group 4 and Group 6 Classes, the payment of principal of certain Classes in accordance with the Principal Balance Schedules.

See "—Distributions of Principal" above.

The effect of these factors may differ as to various Classes and the effects on any Class may vary at different times during the life of that Class. Accordingly, we can give no assurance as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their original principal balances, variability in the weighted average lives of those Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

Decrement Tables

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each date shown at various constant PSA rates and the corresponding weighted average lives of those Classes. The tables have been prepared on the basis of the Pricing Assumptions. However, in the case of the information set forth for each Class under 0% PSA, we assumed that the underlying Mortgage Loans have the original and remaining terms to maturity and bear interest at the annual rates specified in the table below.

Mortgage Loans Relating to Trust Assets Specified Below	Original Terms to Maturity	Remaining Terms to Maturity	Interest Rates
Group 1 MBS	360 months	360 months	8.50%
Group 2 SMBS	360 months	(1)	(1)
Group 3 MBS	360 months	360 months	8.50%
Group 4 MBS	(2)	(2)	8.00%
Group 5 SMBS	360 months	354 months	9.00%
Group 6 MBS	180 months	180 months	8.50%

⁽¹⁾ With respect to the Group 2 SMBS, we assumed that the Mortgage Loans backing the SMBS trusts specified below have the following remaining terms to maturity and interest rates:

	Terms to Maturity	Interest Rates
SMBS Trust 302	329 months	8.50%
SMBS Trust 311	349 months	8.50%

⁽²⁾ With respect to the Group 4 MBS, we assumed that the related Mortgage Loans have an original term to maturity of 84 months, a remaining term to maturity of 84 months and a remaining amortization term of 360 months.

It is unlikely

- that all of the underlying Mortgage Loans will have the interest rates, WALAs or remaining terms to maturity assumed or
- that the underlying Mortgage Loans will prepay at any constant PSA level.

In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA rates. This is the case even if the dispersion of weighted average remaining terms to maturity and the weighted average WALAs of the Mortgage Loans are identical to the dispersion specified in the Pricing Assumptions.

 $^{^*}$ Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

^{**} Determined as specified under "—Weighted Average Lives of the Certificates" above.

[†] In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

^{*} Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

^{**} Determined as specified under "—Weighted Average Lives of the Certificates" above.

† In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

Characteristics of the R and RL Classes

The R and RL Classes will not have principal balances and will not bear interest. If any assets of the Trust remain after the principal balances of all Classes are reduced to zero, we will pay the Holder of the R Class the proceeds from those assets. If any assets of the Lower Tier REMIC remain after the principal balances of the Lower Tier Regular Interests are reduced to zero, we will pay the proceeds of those assets to the Holder of the RL Class. Fannie Mae does not expect that any material assets will remain in either case.

The R and RL Classes will be subject to certain transfer restrictions. We will not permit transfer of record or beneficial ownership of an R or RL Certificate to a "disqualified organization." In addition, we will not permit transfer of record or beneficial ownership of an R or RL Certificate to any person that is not a "U.S. Person" or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate. Any transferee of an R or RL Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 (or, if applicable, a Form W-8ECI) on which the transferee provides its taxpayer identification number. See "Description of Certificates—Special Characteristics of Residual Certificates" and "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus. The affidavit must also state that the transferee is a "U.S. Person" or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate and that, if the transferee is a partnership for U.S. federal income tax purposes, each person or entity that holds an interest (directly, or indirectly through a pass-through entity) in the partnership is a "U.S. Person" or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate. In addition, the transferee must receive an affidavit containing these same representations from any new transferee. Transferors of an R or RL Certificate should consult with their own tax advisors for further information regarding such transfers.

Treasury Department regulations (the "Regulations") provide that a transfer of a "noneconomic residual interest" will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R and RL Classes will constitute noneconomic residual interests under the Regulations. Having a significant purpose to impede the assessment or collection of tax means that the transferor of a Residual Certificate knew or should have known that the transferee would be unwilling or unable to pay taxes due on its share of the taxable income of the REMIC trust (that is, the transferor had "improper knowledge").

As discussed under the caption "Special Characteristics of Residual Certificates" in the REMIC Prospectus, the Regulations presume that a transferor does not have improper knowledge if two conditions are met. The Treasury Department has proposed an amendment to the Regulations that would add a third condition, effective February 4, 2000. According to the proposed amendment, a transferor of a Residual Certificate would be presumed not to have improper knowledge only if the present value of the anticipated tax liabilities associated with holding the Residual Certificate is less than or equal to the present value of the sum of (i) any consideration given to the transferee to acquire the Residual Certificate, (ii) expected future distributions on the Residual Certificate, and (iii) anticipated tax savings associated with holding the Residual Certificate as the related REMIC trust generates losses. The application of the proposed amendment to an actual transfer is uncertain, and you should consult your own tax advisor regarding its effect on the transfer of a Residual Certificate.

The IRS has since issued a Revenue Procedure creating a safe harbor that may be used for transfers of noneconomic residual interests pending the finalization of the proposed amendment. Under this safe harbor, a transferor of a noneconomic residual interest will be presumed not to have improper knowledge if, in addition to meeting the two conditions contained in the Regulations, either (i) the terms of the proposed amendment are complied with or (ii) the transferee's gross assets exceed \$100 million and its net assets exceed \$10 million (in each case, at the time of the transfer and

at the close of each of the transferee's two fiscal years preceding the year of transfer), the transferee is an "eligible corporation" as defined in section 860L(a)(2) of the Code, the transferee agrees in writing that any subsequent transfer of the residual interest will be to an eligible corporation and will comply with the safe harbor, and the facts and circumstances known to the transferor do not reasonably indicate that the taxes associated with the residual interest will not be paid. The Revenue Procedure contains additional details regarding its application, and you should consult your own tax advisor regarding the application of the Revenue Procedure to an actual transfer of a Residual Certificate.

The Holder of the R Class will be considered to be the holder of the "residual interest" in the REMIC constituted by the Trust, and the Holder of the RL Class will be considered to be the holder of the "residual interest" in the REMIC constituted by the Lower Tier REMIC. See "Certain Federal Income Tax Consequences" in the REMIC Prospectus. Pursuant to the Trust Agreement, we will be obligated to provide to these Holders (i) information necessary to enable them to prepare their federal income tax returns and (ii) any reports regarding the R or RL Class that may be required under the Code.

CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The Certificates and payments on the Certificates are not generally exempt from taxation. Therefore, you should consider the tax consequences of holding a Certificate before you acquire one. The following tax discussion supplements the discussion under the caption "Certain Federal Income Tax Consequences" in the REMIC Prospectus. When read together, the two discussions describe the current federal income tax treatment of beneficial owners of Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of beneficial owners, some of which may be subject to special rules. In addition, these discussions may not apply to your particular circumstances for one of the reasons explained in the REMIC Prospectus. You should consult your own tax advisors regarding the federal income tax consequences of holding and disposing of Certificates as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

REMIC Elections and Special Tax Attributes

We will elect to treat the Lower Tier REMIC and the Trust as REMICs for federal income tax purposes. The REMIC Certificates, other than the R and RL Classes, will be designated as the "regular interests," and the R Class will be designated as the "residual interest," in the REMIC constituted by the Trust. The Lower Tier Regular Interests will be designated as the "regular interests" and the RL Class will be designated as the "residual interest" in the Lower Tier REMIC.

Because the Lower Tier REMIC and the Trust will qualify as REMICs, the REMIC Certificates and any related RCR Certificates generally will be treated as "regular or residual interests in a REMIC" for domestic building and loan associations, as "real estate assets" for real estate investment trusts, and, except for the R and RL Classes, as "qualified mortgages" for other REMICs. See "Certain Federal Income Tax Consequences—*REMIC Election and Special Tax Attributes*" in the REMIC Prospectus.

Taxation of Beneficial Owners of Regular Certificates

The Notional Classes, the Accrual Classes and the Principal Only Classes will be issued with original issue discount ("OID"), and certain other Classes of REMIC Certificates may be issued with OID. If a Class is issued with OID, a beneficial owner of a Certificate of that Class generally must recognize some taxable income in advance of the receipt of the cash attributable to that income. See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—

Treatment of Original Issue Discount" in the REMIC Prospectus. In addition, certain Classes of REMIC Certificates may be treated as having been issued at a premium. See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Regular Certificates Purchased at a Premium" in the REMIC Prospectus.

The Prepayment Assumptions that will be used in determining the rate of accrual of OID will be as follows:

Certificate Group	PSA Prepayment Assumption
1	259%
2	225%
3	219%
4	613%
5	300%
6	282%

See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount—Daily Portions of Original Issue Discount" in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at any of those rates or any other rate. See "Description of the Certificates—Weighted Average Lives of the Certificates" in this prospectus supplement and "Description of Certificates—Weighted Average Life and Final Distribution Date" in the REMIC Prospectus.

Taxation of Beneficial Owners of Residual Certificates

For purposes of determining the portion of the taxable income of the Trust (or the Lower Tier REMIC) that generally will not be treated as excess inclusions, the rate to be used is 5.95% (which is 120% of the "federal long-term rate"). See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—Treatment of Excess Inclusions" and "—Foreign Investors—Residual Certificates" in the REMIC Prospectus.

Taxation of Beneficial Owners of RCR Certificates

General. The RCR Classes will be created, sold and administered pursuant to an arrangement that will be classified as a grantor trust under subpart E, part I of subchapter J of the Code. The REMIC Certificates that are exchanged for RCR Certificates (including any exchanges effective on the Settlement Date) will be the assets of the trust, and the RCR Certificates will represent an ownership interest in those REMIC Certificates. For a general discussion of the federal income tax treatment of beneficial owners of REMIC Certificates, see "Certain Federal Income Tax Consequences" in the REMIC Prospectus.

The RCR Classes (each, a "Combination RCR Class") will represent the beneficial ownership of the underlying REMIC Certificates set forth in Schedule 1. Each Certificate of a Combination RCR Class (a "Combination RCR Certificate") will represent beneficial ownership of undivided interests in two or more underlying REMIC Certificates.

Combination RCR Classes. A beneficial owner of a Combination RCR Certificate will be treated as the beneficial owner of a proportionate interest in the REMIC Certificates underlying that Combination RCR Certificate. Except in the case of a beneficial owner that acquires a Combination RCR Certificate in an exchange described under "—Exchanges" below, a beneficial owner of a Combination RCR Certificate must allocate its cost to acquire that Certificate among the underlying REMIC Certificates in proportion to their relative fair market values at the time of acquisition. Such an owner should account for its ownership interest in each underlying REMIC Certificate as described

under "—Taxation of Beneficial Owners of Regular Certificates" in this prospectus supplement and "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates" in the REMIC Prospectus. When a beneficial owner sells a Combination RCR Certificate, the owner must allocate the sale proceeds among the underlying REMIC Certificates in proportion to their relative fair market values at the time of sale.

Exchanges. If a beneficial owner exchanges one or more REMIC Certificates for the related RCR Certificate or Certificates in the manner described under "Description of the Certificates—Combination and Recombination" in this prospectus supplement, the exchange will not be taxable. Likewise, if a beneficial owner exchanges one or more RCR Certificates for the related REMIC Certificate or Certificates in the manner described in that discussion, the exchange will not be a taxable exchange. In each of these cases, the beneficial owner will be treated as continuing to own after the exchange the same combination of interests in the related REMIC Certificates (or the same interest in the related REMIC Certificate) that it owned immediately prior to the exchange.

PLAN OF DISTRIBUTION

General. We are obligated to deliver the Certificates to UBS Warburg LLC (the "Dealer") in exchange for the Trust MBS and the SMBS. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect these transactions to or through other dealers.

Increase in Certificates. Before the Settlement Date, we and the Dealer may agree to offer Group 1, Group 3, Group 4 or Group 6 Classes in addition to those contemplated as of the date of this prospectus supplement. In this event, we will increase the related Trust MBS in principal balance, but we expect that all these additional Trust MBS will have the same characteristics as described under "Description of the Certificates—The Trust MBS." The proportion that the original principal balance of each Group 1, Group 3, Group 4 or Group 6 Class bears to the aggregate original principal balance of all Group 1, Group 3, Group 4 or Group 6 Classes, respectively, will remain the same. In addition, the dollar amounts shown in the Principal Balance Schedules will be increased to correspond to the increase of the principal balances of the applicable Classes.

LEGAL MATTERS

Sidley Austin Brown & Wood LLP will provide legal representation for Fannie Mae. Cleary, Gottlieb, Steen & Hamilton will provide legal representation for the Dealer.
