Updates to the Servicing Defect Remedies Framework

Fannie Mae, jointly with Freddie Mac, and at the direction of the Federal Housing Finance Agency (FHFA), is announcing the servicing defect remedies framework, which expands upon provisions contained in the representations and warranties framework introduced in 2012 and incorporated in the Servicing Guide.

The servicing remedies framework provides clarity on the process followed in categorizing loan-level servicing defects, servicer corrections of such defects, and available remedies. In addition, it provides more transparency regarding Fannie Mae’s discretion on loan-level decisions based on applicable servicing violations. The servicing defect remedies framework does not affect any selling duties, responsibilities, or obligations.

In adopting and clarifying the servicing defect remedies framework, the servicer remains responsible for servicing mortgage loans in accordance with the terms of the Lender Contract.
