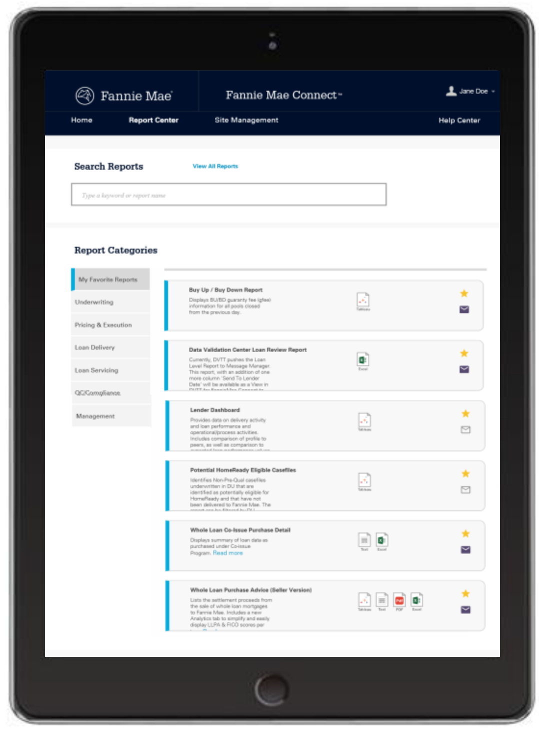
What is Fannie Mae Connect?

Fannie Mae Connect offers simple, centralized Fannie Mae data from across multiple reporting applications into one customizable interface. Combined with a company’s own analysis, Fannie Mae Connect empowers it’s user to make informed and focused business decisions.

Why Use Fannie Mae Connect?

Make Informed Business Decisions



- Manage your business portfolio and track key data points prior to delivering a loan.
- Identify a loan’s current rep and warrant status.
- Streamline your process to review and submit servicing reconciliation requests.
- Understand how you compare to your peers in the industry.

Easy To Use Interface

- Access powerful analytics in one single location.
- Create your own report categories for access management control and remove links to legacy reports.
- Customize your experience – choose from multiple report formats, control user access and bucket reports.

We’d Love to Hear Your Feedback

We’re always working to make Fannie Mae Connect even better to serve your needs. Give us your feedback (we read it all!) through the Site Feedback link in Fannie Mae Connect and be sure to keep checking the site for what’s new.

Fannie Mae Connect – Where Business and Data Connect
