

Fannie Mae Healthy Housing Rewards Product Feature

Where do I begin?

Healthy Housing Rewards Healthy Design

Choose this loan if your Multifamily Affordable Housing property incorporates health-promoting design and operational features.

These include:

- Strategies that improve indoor air quality
- Features that encourage physical activity
- Common space, community gardens, and playgrounds
- Exercise facilities and walking paths

Healthy Housing Rewards Enhanced Resident Services™

Choose this loan if your Multifamily Affordable Housing property offers resident services to improve the health and stability of residents.

These include:

- Health and wellness programs
- Food access and security programs
- Youth education and enrichment
- Work and financial capability support
- Housing stability support

Fannie Mae Multifamily offers these financing incentives:

- 15 bps pricing reduction
- \$6,000 Fitwel® certification cost paid by Fannie Mae
- Up to 30 bps pricing reduction
- \$5,500 Certified Organization for Resident Engagement and Services (CORES) sponsor certification
- \$750 Enhanced Resident Services (ERS) property certification costs paid by Fannie Mae

To qualify:

Must be a Multifamily Affordable Housing property with rent or income restrictions in place where at least 60% of units are serving tenants with incomes of 60% of AMI or less.

- Property must be awarded a Fitwel certification from the Center for Active Design prior to rate lock www.fitwel.org
- Borrower must possess a valid CORES sponsor certification and an ERS property certification from Stewards of Affordable Housing for the Future prior to rate lock www.CORESonline.org
