**Underwriting tip**

Remember, Desktop Underwriter® (DU®) does not indicate HomeReady eligibility for FHA scenarios. That’s why it’s a good idea to rerun FHA applications as HomeReady to see if LLPA savings and cancellable MI may benefit your borrower. And, when running conventional loan applications, check the first page of the DU findings for HomeReady eligibility. If your borrower is eligible, you can simply rerun the scenario through DU and select “Community Lending” and “HomeReady” to see potential savings.
