

Loan Quality Connect™

Connecting Fannie Mae and our lenders in an ongoing partnership to drive loan quality.

Loan Quality Connect is an interactive loan quality management system that lets you work faster and smarter. It will be the hub for our collaboration.

Loan Quality Connect will transform how we work together – simplified technology will replace the Quality Assurance System and File Transfer Portal – but more importantly, it will provide the tools to support seamless collaboration and drive increased certainty.

Designed with you in mind.

We worked closely with lenders to develop a state-of-the-art system that will deliver exactly what you need: simplified technology, seamless collaboration, and increased certainty.

Simplified Technology

- One-stop shop for loan file submissions and status updates
- Save time and money with simplified doc management
- No integration required

Seamless Collaboration

- Instant communication tools for process efficiencies
- No email or spreadsheets – all documents and communications stay within the system

Increased Certainty

- Instant status updates
- Real-time loan quality feedback
- Self-serve reporting and data visualization

Shattering industry standards with our Loan Quality Defect Notice.

Exclusive to Fannie Mae: Lenders will have 15 days to correct significant defects before a resolution request is sent – work with us in real time and reduce the letter and rebuttal process.
