We are committed to Seniors Housing

Fannie Mae’s leadership in the Seniors Housing market spans more than two decades and has long been recognized in the multifamily industry.

Our commitment to this multifaceted and ever-changing business is by no accident. At Fannie Mae, we understand that Seniors Housing serves a critical need for our country’s aging population. That’s why we have financed over $15 billion of Seniors Housing since 2008, with a book of business of $12.7 billion.

Because Seniors Housing transactions are complex, it’s important that we work with lenders who are experienced in financing Seniors Housing and approved by Fannie Mae. Our financing is targeted to Sponsors and Operators experienced in the Seniors Housing sector with strong financial capabilities.
Fannie Mae’s competitive advantage

Our multifamily business is executed through the Delegated Underwriting and Servicing (DUS®) Lender network. DUS is the only proven risk-sharing model in the country with the longest track record of success. Our DUS Lenders are pre-approved and given the authority to underwrite and service loans that meet our standards.

You can rely on Fannie Mae Multifamily for:

- Speed and certainty of execution, faster decisions, and quicker loan closings
- Creative deal structuring, including loan terms of up to 30 years, flexible yield maintenance, and reduced prepayment periods
- Structured Transactions executions, which provide the most flexibility in managing your Seniors Housing loan portfolio
- Green Financing to give you better pricing and higher loan proceeds while making smarter, greener investments
- Expertise and dedicated production, credit, legal, and asset management teams to address unique transactions
- Life-of-loan servicing, providing seamless post-closing activities without other master or special servicers
Seniors Housing structured transactions are unique to Fannie Mae

Fannie Mae’s structured finance products are flexible, powerful financing tools that allow borrowers to manage debt across their Seniors Housing portfolios. Credit Facilities and Bulk Deliveries offer a combination of variable- and fixed-rate debt with laddered maturities and flexible post-closing features, so borrowers can sell, acquire, and rehab properties as needed.

No one else in the marketplace can offer this unique financing solution that allows you to:

- **Leverage strong assets to lock in desirable terms for your entire portfolio.** Our Credit Facilities are cross-collateralized, so you can use your best-performing assets to access attractive financing for your entire book.

- **Combine fixed- and floating-rate debt to optimize your debt strategy.** Mix and match interest rate types and loan terms without having to tie debt to a specific property.
Buy and sell assets on your schedule. Grow your portfolio by adding new assets over time, and easily release assets from the facility when you choose, thanks to our flexible MBS.

Hold on to today’s low rates and avoid having to prepay just because you sell. Both Credit Facilities and Bulk Deliveries let you substitute properties easily, and even stagger substitutions if that’s what your strategy requires.

Manage your expenses without hidden costs. Never be forced to rebalance your portfolio by prepaying debt — and, unlike our competitors, we never charge an unused capacity fee.

Opportunity
A large Seniors Housing borrower has partnered with an experienced operator to acquire a pool of Seniors Housing communities with varying acuities in several states. The initial acquisition is a portfolio of ten properties valued at $250 million and they intend to grow the partnership to $750 million over three years.

Solution

12/11.5 Fixed-Rate
10/9.5 Fixed-Rate
10-year Structured ARM

Result
Because we matched the Credit Facility structure and features to the borrower’s strategy, they mitigated their exposure to interest rate risk and realized huge savings over the term of the facility.
The borrower expects to hold the majority of the assets for 7+ years, but needs the flexibility to sell certain assets in the first 36 months. Ideally, the borrower expects to seek additional financing when NOI improvements are realized.

**Strategy**

- Borrower releases trapped equity by borrowing up against portfolio improvements.
- Borrower sells three properties and pays down the variable-rate debt tranche.
- Borrower adds 5 properties.

**Property improvements generate additional value**

**The Fannie Mae Advantage**

- No maximum facility amount
- No unused capacity
- No rebalancing
- No penalty fees for long-term debt
We understand the need for expansions and conversions

With changing needs in the marketplace for Seniors Housing, flexibility is also important when it comes to expanding or converting your existing property to accommodate additional units and changes in acuity. Fannie Mae’s dedicated Asset Management team can work with you to modify your loan or Credit Facility seamlessly.

And, streamlining deal closing is easy when you combine Fannie Mae’s Delegation to our Seniors Housing Lenders and the flexibility of our customized loan documents.
Our borrowers value doing business with Fannie Mae

“Brookdale owns and operates a large number of senior living communities across the entire spectrum of product types in almost every state. We believe that Fannie Mae’s structured Credit Facility offers significant advantages in terms of flexibility and simplicity. We appreciate being able to have a single MCFA that applies consistently to a large pool of assets while making provisions for asset substitutions and additions, loan value reallocations, physical redevelopment, and borrow-ups.”

CAPITAL SENIOR LIVING
Our securitization platform is the best in the industry – and that matters to borrowers

Only Fannie Mae offers customized loan and prepayment terms, blending fixed- and variable-rate financing. Our DUS model allows us to offer any loan size, fixed or variable rates, terms from 5 to 30 years, flexible yield maintenance, and customized prepayment periods through our DUS MBS. MBS backed by structured transactions have the added benefit of being partially pre-payable.

Our life-of-loan servicing relationship means that there is no third-party master servicer and no B-piece buyer. Fannie Mae services the loans with a comprehensive team that covers all facets and phases of the loan, so post-closing activities are seamless.
