Instructions

Schedule of Mortgages

The lender uses this form to list all of the mortgages (or participation interests) that are part of the pool purchase transaction for an MBS pool. In addition, by executing the certification on the back of the form, the lender conveys all right, title, and interest in the listed mortgages (or participation interests) to Fannie Mae as of the book-entry delivery date of the securities.

Copies

Three originals.

Printing Instructions

This form must be printed on legal size paper, using landscape format. When printing this form, you must use the "shrink to fit" option in the Adobe Acrobat dialogue box.

Instructions

Once the form has been completed, please mail to the appropriate Document Custodian location:

The Bank of New York Mellon Trust Company, N.A.
2220 Chemsearch Blvd., Suite 150
Irving, TX 75062

The Bank of New York Mellon Trust Company, N.A.
5730 Katella Ave.
Cypress, CA 90630

Please Note: Addresses printed in previous publications should no longer be utilized.

Generally, a lender uses the Loan Delivery System to submit the Schedule of Mortgages (Form 2005). A lender may submit the Schedule of Mortgages (Form 2005) as either a manually prepared form, or as an equivalent document transmitted by the Loan Delivery System.

A lender that submits its MBS pool delivery data to us as a manually prepared submission must send one original of the form to the document custodian to request its certification of the pool. The custodian should electronically transmit its pool certification to us, and retain the form it receives from the lender and a copy of its pool certification (in hard copy or printable electronic format). The lender should forward one original to Fannie Mae with the remainder of its delivery documentation and retain the third original for its records.

A lender that submits its MBS pool delivery data to us through the Loan Delivery System does not have to prepare a hard copy of Form 2005. The custodian should, however, retain (in printable electronic format) a copy of the electronic version of Form 2005 it receives from the lender, as well as a copy of the pool certification it electronically transmits to us.

Individual Field Instructions

Specific instructions for completing individual fields are included in the Selling Guide, along with the various edits that a lender can program into its computer.

The lender should insert in the first line at the bottom of each schedule totals for P&I constants, issue date principal balances, and actual outstanding principal balances for all of the mortgages shown on the schedule. When multiple schedules are used, the lender should insert in the second line at the bottom of the first schedule used the sum of the entries for the first line at the bottom of each of the pages.

Individuals executing the lender and custodian certifications should provide their name, title, and date of the certification.

Instructions, Continued

Substitution of Mortgages

Whenever a substitution is made for one of the mortgages in an MBS pool, a revised Schedule of Mortgages (Form 2005) must be prepared. Each page of the revised form must be labeled "Revised Schedule."

The "hard copy" of Form 2005 should be modified as follows:

- If only one mortgage is to be substituted, line out the ineligible mortgage on the original Schedule of Mortgages and enter the substitute mortgage at the end of the Schedule.
- If two or more mortgages are to be substituted, prepare a new Schedule of Mortgages, entering the ineligible mortgages first and then lining them out, and then entering the substitute mortgages immediately below, with the word "Substitution" clearly indicated above each substitute mortgage.
- Add the words "Revised Schedule" and flag each substituted mortgage on the revised hard copy. Cross-reference the corresponding data for the substituted mortgage(s) by manually entering data related to the ineligible mortgage(s) on the line below the substituted mortgage(s) or by entering the data on a separate sheet and attaching it to the revised Schedule. (The data entered must clearly identify the mortgage for which the substitution was made.)

The lender should send an original of the revised Schedule of Mortgages to the document custodian, along with all of the custody documents for the substituted mortgage(s) and a Request for Release/Return of Documents (Form 2009) for any ineligible mortgage(s), and request the custodian to certify the revised Schedules.

When it sends the revised Schedule of Mortgages to the document custodian for certification, the lender should also:

- deliver one original Schedule of Mortgages to Acquisitions Operations in our Washington, DC office if the Schedule was manually prepared, or
- a revised hard copy of the Schedule of Mortgages, to us at the following address, if the Schedule was prepared in an automated format--Fannie Mae; Attn: Drawer MBS/PS; 3900 Wisconsin Avenue, NW; Washington, DC 20016.

The lender should also include an explanation for the substitution(s) with its monthly accounting reports for the MBS pool for which the substitution was processed.

Delivery of Converted ARMs Repurchased from MBS Pool

If a lender re-delivers, as part of a fixed-rate MBS pool, an ARM that it had repurchased from an ARM MBS pool after it was converted to a fixed-rate mortgage, it should report data on the Schedule of Mortgages (Form 2005) that reflects the terms of the converted fixed-rate mortgage, not those of the adjustable-rate mortgage. For example, the entries for "original loan amount" and "original term" should reflect the unpaid principal balance and remaining term as of the conversion date instead of the "original" information.

Assignment of Servicing Coincident with Pool Issuance If the lender transferred servicing of the mortgages coincident with the pool issuance, the Schedule of Mortgages should be certified by the selling lender--crossing out and initialing the words "and servicing" in paragraph b of the certification (when the submission is a manually prepared submission).
