## Total Expense Ratio < Housing Expense Ratio Error DU Message

June 3, 2019

While every effort has been made to ensure the reliability of the information in this document, Fannie Mae’s Selling and Servicing Guides, including Guide announcements and release notes, are the official statements of Fannie Mae’s policies and procedures and should be adhered to in the event of discrepancies between the information in this document and the Guides.

For ease of reference, we will generally use the term “DU” to refer to Desktop Originator® and Desktop Underwriter® (DO®/DU®).

This document provides an example of how to resolve the Total Expense Ratio < Housing Expense Ratio error message in the DU Underwriting Findings report for second home and investment properties. The error displays when the housing expense ratio is greater than the total expense ratio.

### Total Combined Housing Expense

For loan casefiles involving the purchase or refinance of a second home or investment property, it is important that the Total Combined Housing Expense (excluding rent) is accurately accounted for on the Liabilities screen of DU. DU uses current housing expense data from the Liabilities screen in calculating the total expense qualifying ratio, instead of the data entered on the Income and Housing screen (Section V) with the exception of a rent payment. If there is a rent payment, then that only needs to be entered on the Income and Housing screen. Follow these steps to resolve the Total Expense ratio < Housing Expense Ratio error message.

1. In the Combined Monthly Housing Expense section of the Income and Housing screen, verify the amounts entered in the Present/Principal section are correct.

<b>Total</b>	<b>\$1,000.00</b>	<b>\$1,926.22</b>

NOTE: In this example, as shown in the Total field in the Present/Principal column, the combined housing expense for the current residence is \$1,000.

2. Click the **Liabilities** link in the navigation bar. The Liabilities screen appears.

**Liabilities**

To indicate which mortgage and HELOC liabilities are associated with the subject property and/or a rental property, click Subject Property Lien and Rental Property Lien, as appropriate. If you need to enter REO information for your purposes or for a government loan, please use the Full 1003.

Note: If this is a second home or investment property transaction and the mortgage liability is for the borrower's current residence, include the entire PITI amount in the Monthly Payment field.

Insert More Delete All Liabilities

The Liabilities screen lists the mortgage liabilities, including the first mortgage (\$500 monthly payment) and second mortgage (\$200 monthly payment) for the borrowers' current residence. The monthly payments of First Mortgage (P&I) and Other Financing (P&I) should match what was entered in the Income and Housing screen.

- Verify **Omit**, **Paid by Close**, **Subject Property Lien** and **Rental Property Lien** checkboxes are not checked.

NOTE: If a mortgage is being paid off with the transaction, then Paid by Close can be checked, but the payment should be removed from the Income and Housing screen. See the Paying Off a Primary Residence Mortgage section below for more details.

- Enter the **Hazard Insurance**, **Real Estate Taxes**, and **Homeowner Assn Dues** amounts to calculate the total expenses.

Below are the monthly housing expenses:

- Hazard Insurance: \$ 75.00
- Real Estate Taxes: \$100.00
- Mortgage Insurance: \$ 0.00
- Homeowner Assn Dues: \$125.00
- Total: \$300.00
