Uniform Collateral Data Portal Release Notification and Uniform Appraisal Dataset Update

Update Summary

Summary of information in this update:

- Change to Accepted MISMO XML File Formats in Uniform Collateral Data Portal® (UCDP®) on July 13, 2014
- Third Phase of UCDP Conversion of Warning to Fatal Uniform Appraisal Dataset (UAD) Edits
- Additional Phase of Fatal UAD Edits
- Reminder on Submissions of Appraisals in the UCDP

Reminder: Change to Accepted MISMO XML File Formats in UCDP on July 13, 2014

Beginning July 13, 2014, Fannie Mae and Freddie Mac (the GSEs) will only accept MISMO XML submissions in the UCDP. The GSEs will no longer accept appraisals in PDF, ACI XML and AIReady formats, and the PDF extraction services will be retired on July 13, 2014. Existing lenders and vendor system integrations to the UCDP will not be impacted.

Before July 13, 2014, you should:

- Take steps to ensure you are prepared to submit MISMO XML files
- Be prepared to transition all submission volumes to MISMO XML

If you submit a PDF or non-MISMO file prior to July 13, 2014 (and receive a “Successful” status) and then attempt to resubmit the same but slightly modified appraisal to UCDP as a PDF or non-MISMO file on or after July 13, 2014, an error message or non-overrideable hard stop will be returned.

Third Phase of UCDP Conversion of Fatal UAD Edits

As previously communicated, the GSEs continue to convert several of the current UAD compliance warning edits to fatal UAD edits in the UCDP. The third phase will be implemented on July 13, 2014, with warning edits for the following data fields converting to fatal UAD edits:

- Subject and Comparable Address (including unit number for condominiums)
- Subject Contract Date
- Comparable Date of Sale/Time

Each of the data fields above has associated UAD edits that will be returned in the UCDP if the data provided is incomplete or the format is invalid, as defined in the Fannie Mae and Freddie Mac *UAD Technical Specifications*. When these warning edits are converted to fatal UAD edits, if one or more of these edits is issued it will result in Hard Stop 401 (UAD Compliance Check Failure) and a “Not Successful” status will be issued in the UCDP. If the lender or appraisal vendor receives a “Not Successful” status in the UCDP, the lender or vendor must resubmit a corrected appraisal with the required data in the correct format to ensure a “Successful” status. If the appraisal does not receive a “Successful” status in UCDP, the loan will not be eligible for delivery to either GSE.

The UAD messages for the data fields that will convert from warning edits to fatal UAD edits on July 13, 2014, are provided in the tables below:

Lenders and vendors are encouraged to perform analysis on all of these data fields now to ensure business processes are in place to evaluate UAD compliance for a smooth transition.

Refer to the UCDP General User Guide Section 4.3.4 located on the GSE's websites, FannieMae.com or FreddieMac.com, for more details.

Additional Phase of Fatal UAD Edits

The GSEs are planning to announce an additional phase of fatal UAD edits to be implemented in a future release. Consistent with prior releases, the GSEs will provide sufficient time for lender and vendor testing.

Reminder on Submissions of Appraisals in the UCDP

To ensure consistency across the industry, the GSEs are issuing the following reminders regarding the use of the UCDP:

Doc File IDs

- The Doc File ID assigned by the UCDP must only be used for one loan. A new Doc File ID must be created for each new loan

Required Appraisal Submission:

- Please designate the required appraisal (i.e., required by the loan product) in the Appraisal 1 Section
- If corrections are made to the required appraisal that was submitted, the revised required appraisal should be uploaded in the Appraisal 1 Section

- If the lender obtains a new appraisal that will be used as the required appraisal, the new appraisal should be uploaded in the Appraisal 1 Section
- For additional information on how to upload a corrected appraisal file, refer to the *Appraisal 1: File Operations* subsection on the **Appraisal: View/Edit** page in the UCDP

Additional Appraisals Submitted:

- If you are utilizing a program/product that requires a second or third appraisal to be obtained on the subject property, you should upload those appraisal data files in the Appraisal 2 and/or 3 Sections
- If you obtain an additional appraisal on a UAD form to support your own processes, the additional appraisal may be uploaded to the UCDP in the Appraisal 2 and/or 3 Sections

About the UCDP/UAD Update

The UCDP/UAD Update provides lenders and appraisers with clarifications and reminders regarding the UAD. The GSEs will provide future updates as needed to support continued successful compliance with the appraisal dataset.
