## If Mortgage Insurance (MI) Coverage is Not Required

ULDD Enumerated Value	MI Code	Mortgage Insurer Name
No MI Based On Original LTV	95	No MI required because the loan-to-value ratio, using delivery date UPB and origination date value, is 80% or less, or the LTV is higher than 80% but the loan is eligible for a no-MI Fannie Mae to Fannie Mae refinance.
MI Canceled Based On Current LTV	97	No MI required because the loan-to-value ratio, using delivery date UPB and value determined after origination, is 80% or less.  We are no longer allowing the use of MI Code 97 for lender channel/flow deliveries because some loans may still be inadvertently delivered with LTVs greater than 80% that do not meet our requirements, therefore MI Code 97 is now valid for negotiated (bulk) transactions only.
