

## June 2018 Data Release

The Home Purchase Sentiment Index® (HPSI) is a composite index designed to track consumers' housing-related attitudes, intentions, and perceptions, using six questions from the National Housing Survey® (NHS).

### The Home Purchase Sentiment Index

The HPSI fell 1.6 points in June to 90.7, after reaching survey highs in April and May.

### Components of the HPSI

The decrease in the HPSI can be attributed to decreases in four of the six HPSI components: Mortgage Rates Will Go Down (-4), Home Prices Will Go Up (-3), Household Income Is Significantly Higher (-2), and Confidence About Not Losing Job (-2).

	June 2018*	Change Since Last Month	Change Since Last Year
<b>June 2018 HPSI</b>	<b>90.7</b>	<b>-1.6</b>	<b>+2.4</b>
Good Time To <b>Buy</b>	28	0	-2
Good Time To <b>Sell</b>	47	+1	+8
<b>Home Prices</b> Will Go Up (next 12 months)	46	-3	0
<b>Mortgage Rates</b> Will Go Down (next 12 months)	-53	-4	-4
Confidence About Not Losing <b>Job</b> (next 12 months)	76	-2	+10
Household <b>Income</b> Is Significantly Higher (past 12 months)	19	-2	+2

\* Net percentages of the component questions used to calculate HPSI, e.g. (Percent Good Time to Buy – Percent Bad Time to Buy) = 28

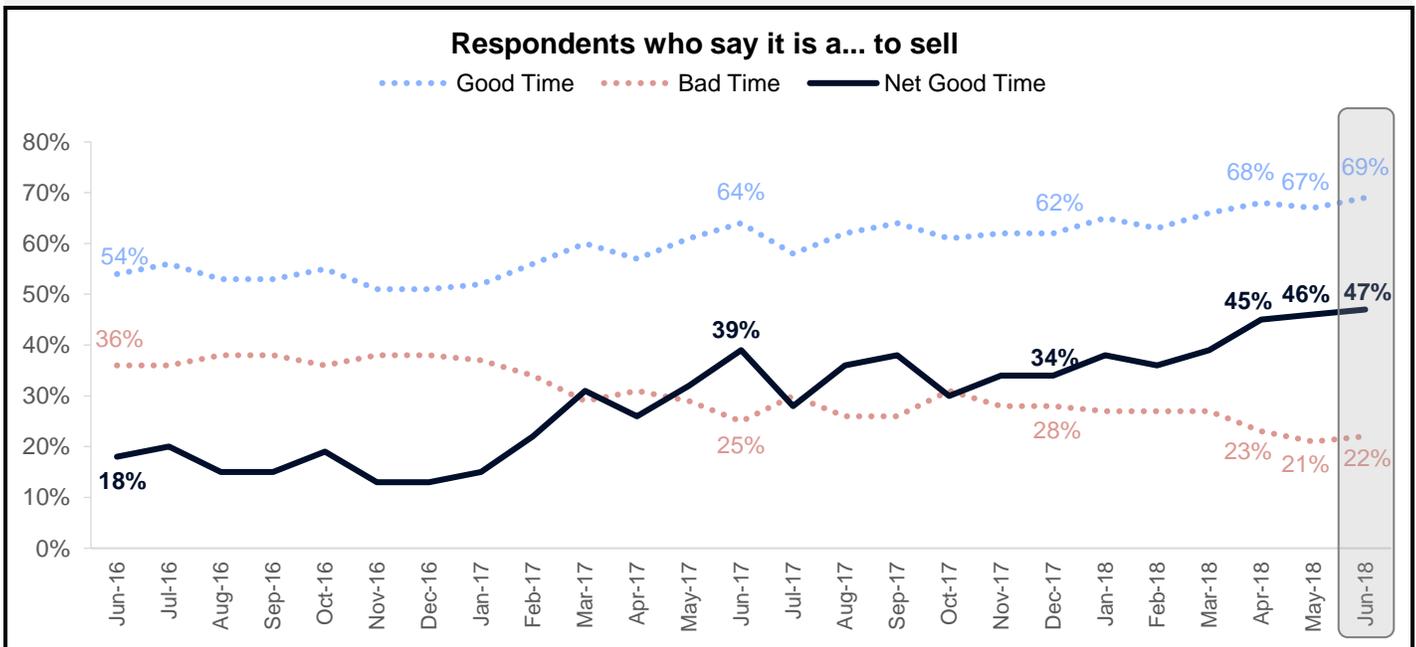

## Components of the HPSI – Good/Bad Time to Buy and Sell a Home

The net share of Americans who say it is a good time to buy a home is unchanged from May remaining at 28%.

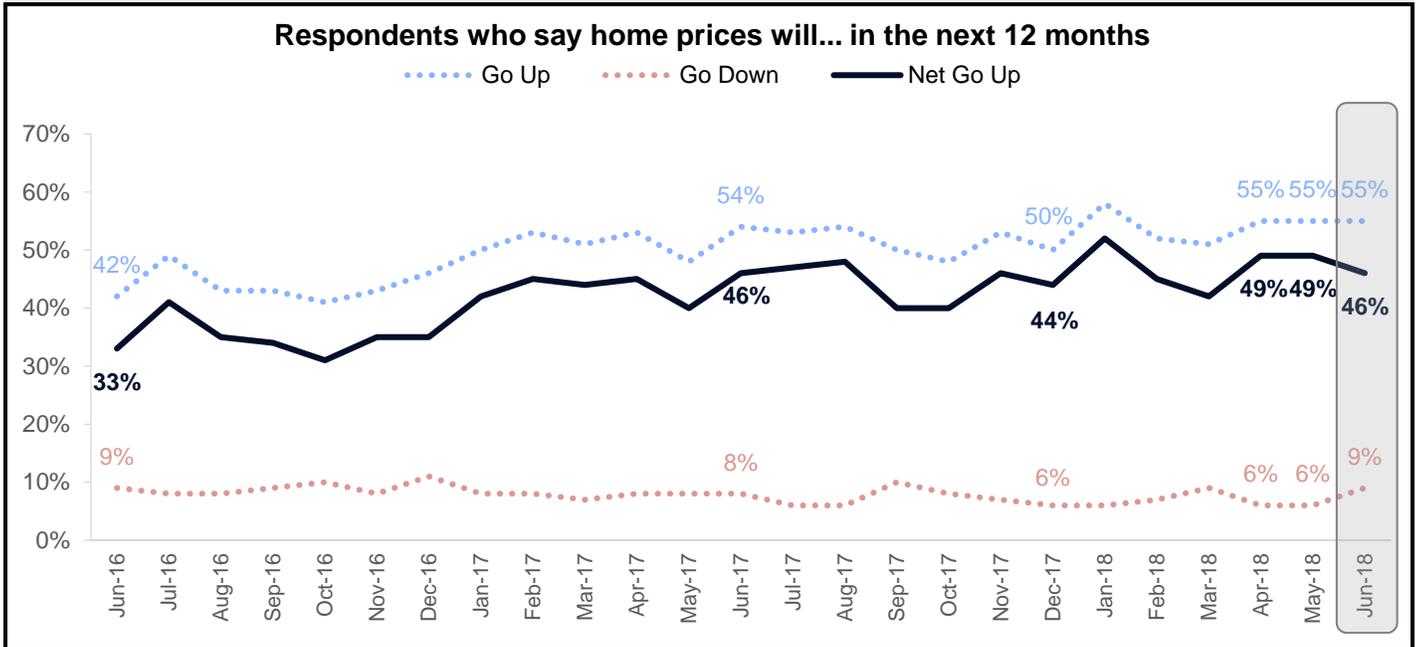

In June, the net percentage of those who say it is a good time to sell rose 1 percentage point to 47%, reaching a new survey high for the third straight month.

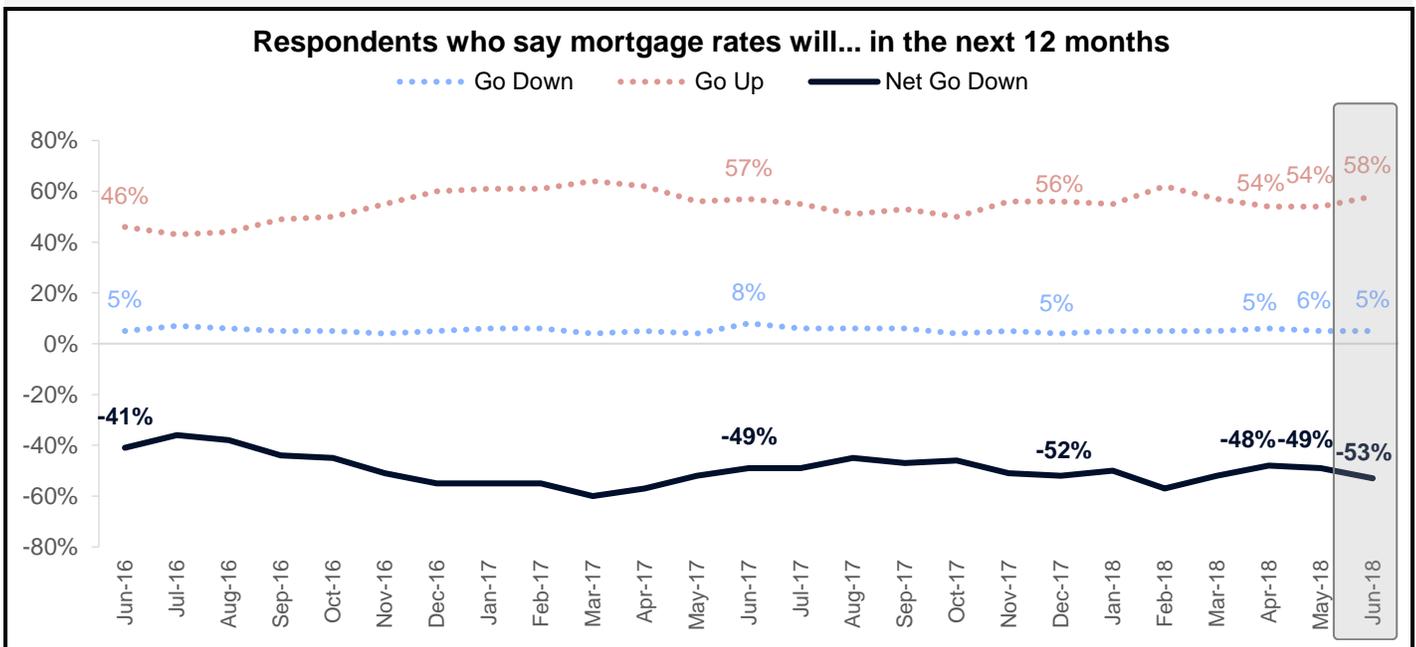

## Components of the HPSI – Home Price and Mortgage Rate Expectations

The net share of Americans who say home prices will go up fell 3 percentage points to 46%.

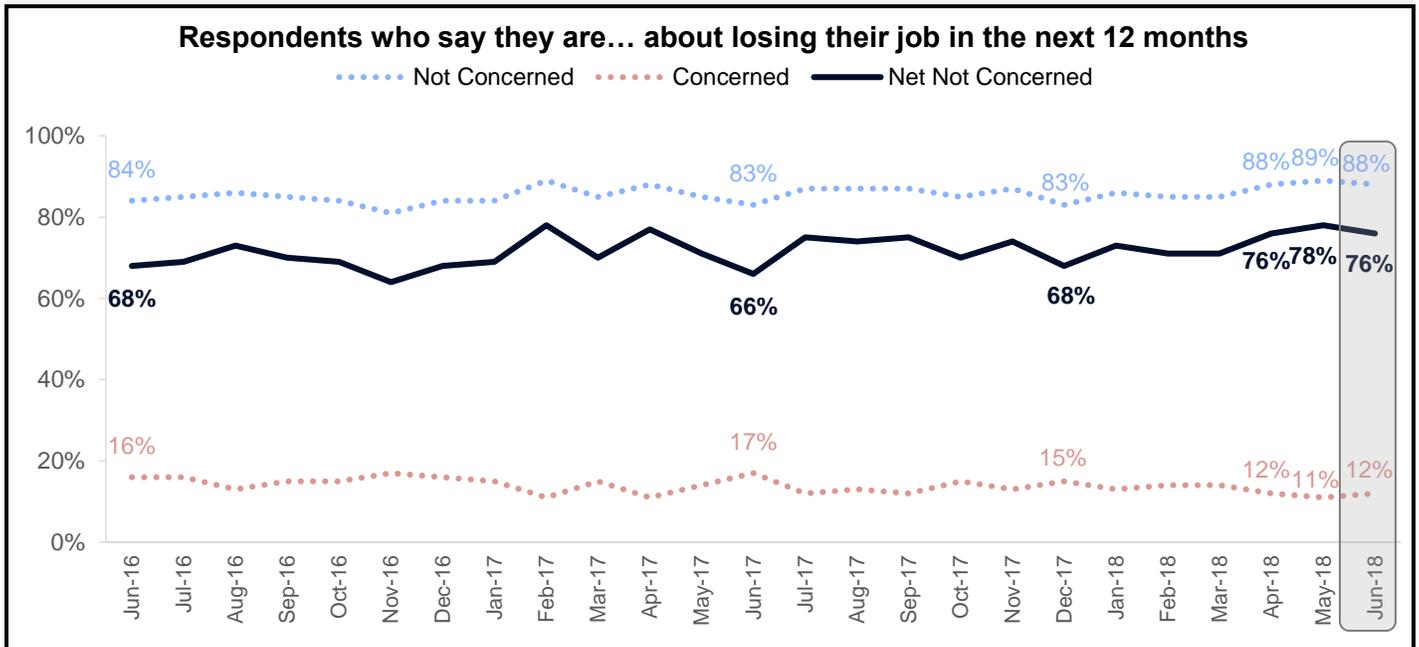

The net share of those who say mortgage rates will go down over the next 12 months fell 4 percentage points to -53%.

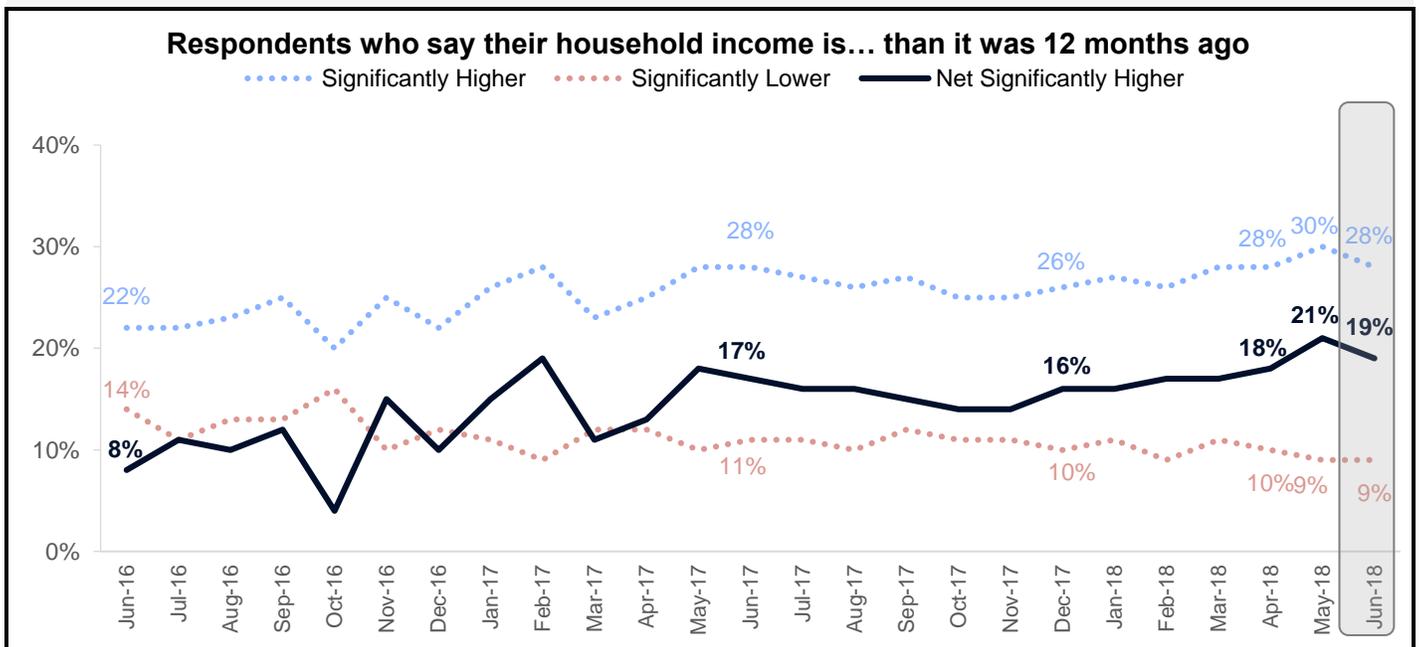

## Components of the HPSI – Job Concerns and Household Incomes

The net share of Americans who say they are not concerned about losing their job fell 2 percentage points from last month's survey high to 76%.

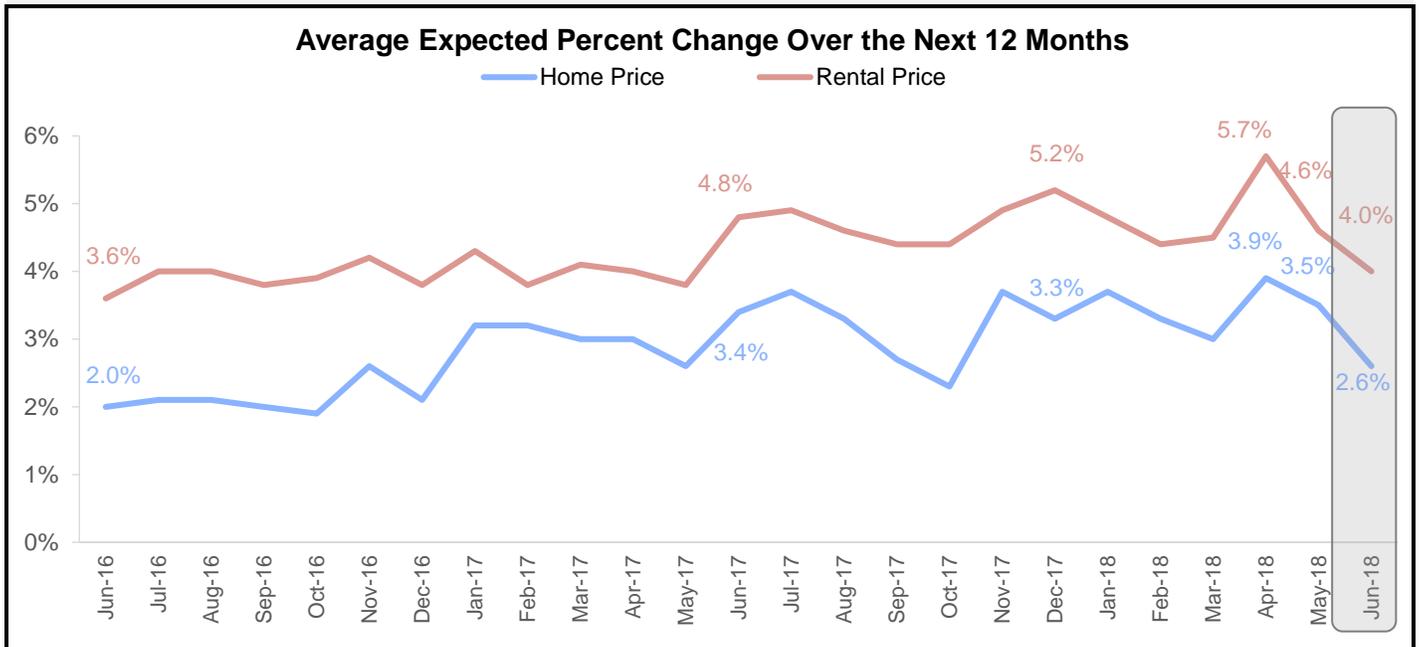

The net share of those who say their household income is significantly higher than it was 12 months ago fell 2 percentage points to 19%.

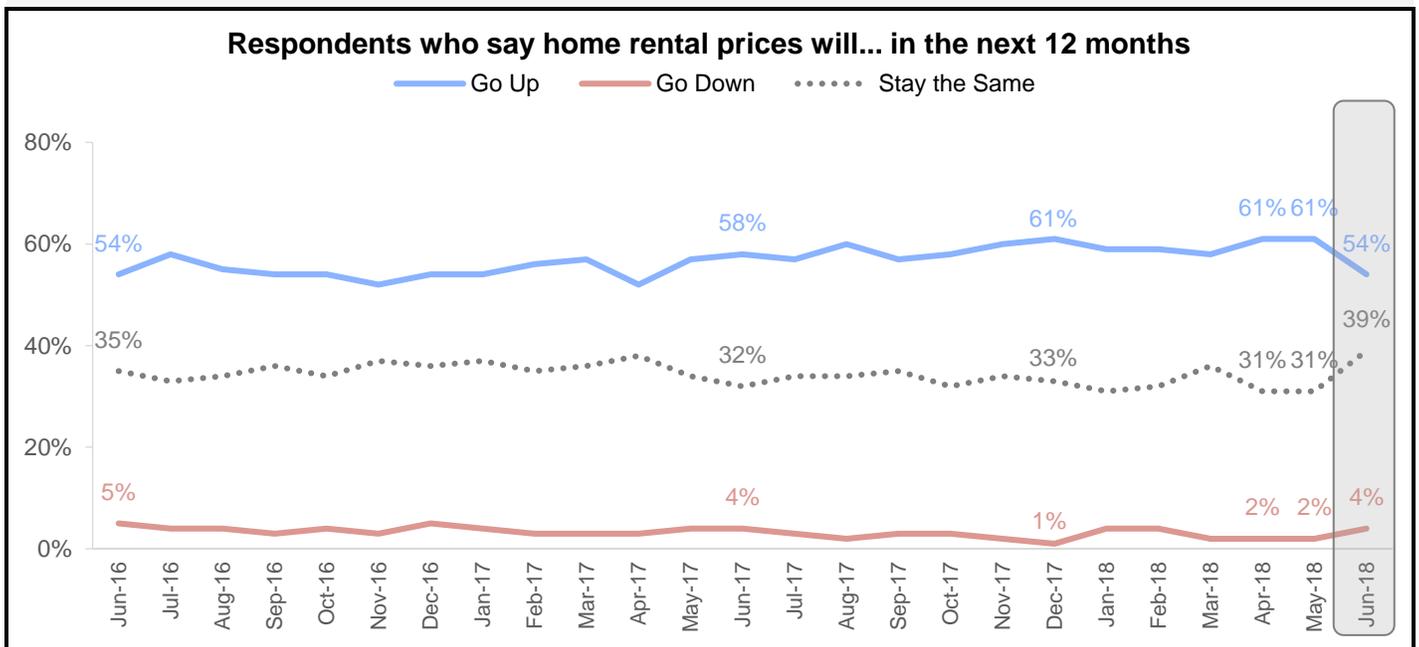

## Additional National Housing Survey Key Indicators

On average, Americans expect rental prices to rise 4.0% over the next 12 months, falling 0.6 percentage points. They expect home prices to rise 2.6% over the next 12 months, a 0.9 percentage point decrease.

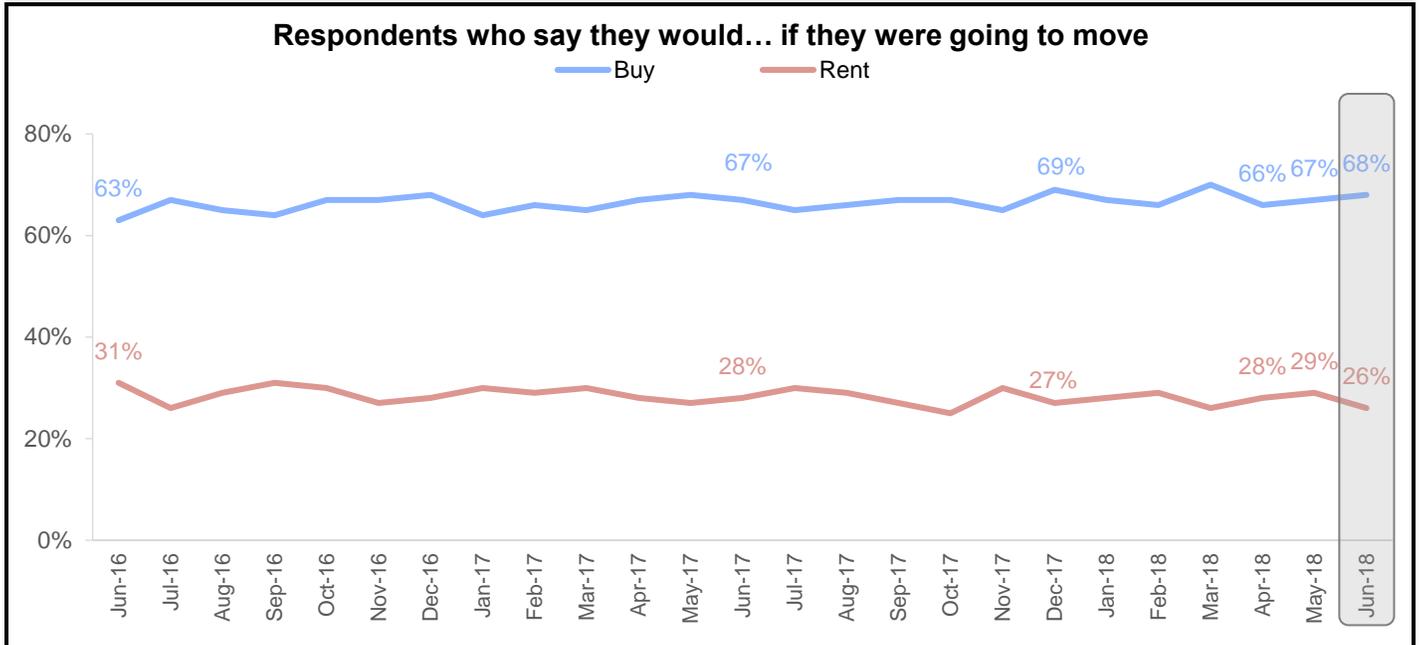

The share of Americans who expect home rental prices to go up fell 7 percentage points to 54%, while the share who expect them to stay the same rose 8 percentage points.

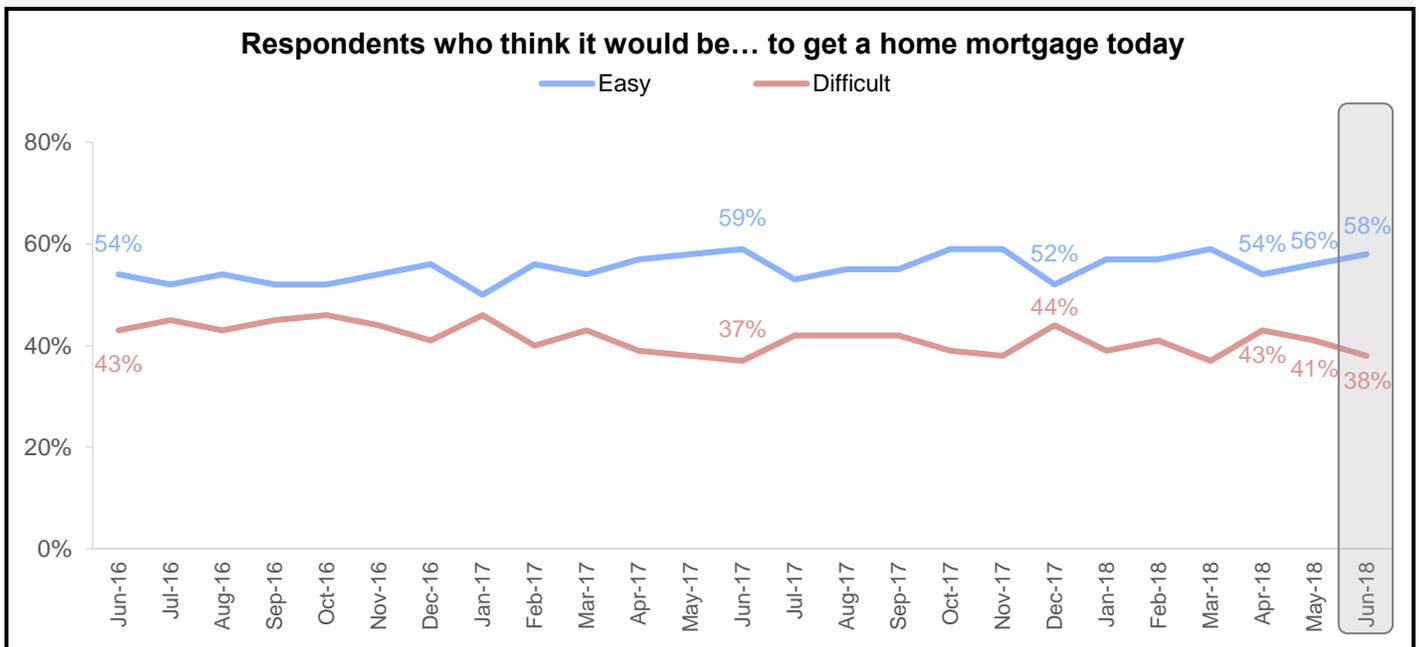

## Additional National Housing Survey Key Indicators

The share of Americans who say they would buy if they were going to move rose 1 percentage point to 68%, and the share who say they would rent fell 3 percentage points to 26%.

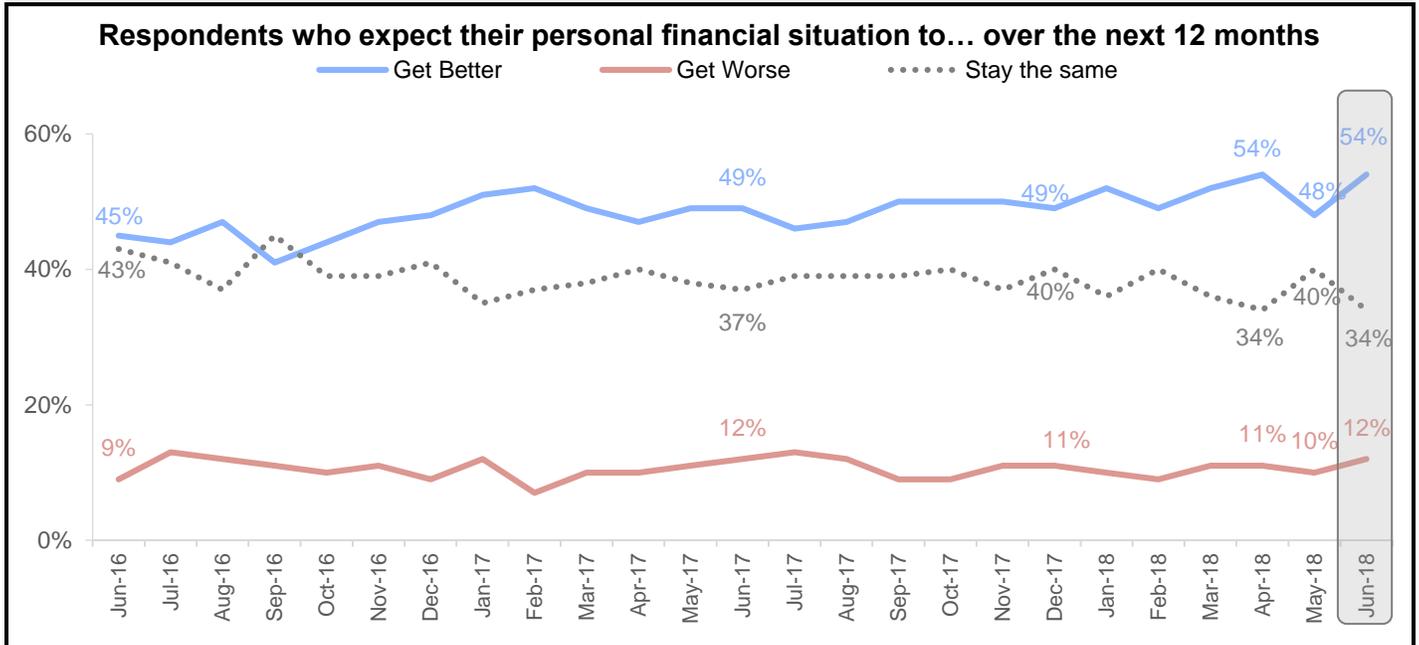

The share of Americans who say getting a mortgage would be easy rose 2 percentage points to 58%, while the share who say it would be difficult fell 3 percentage points to 38%.

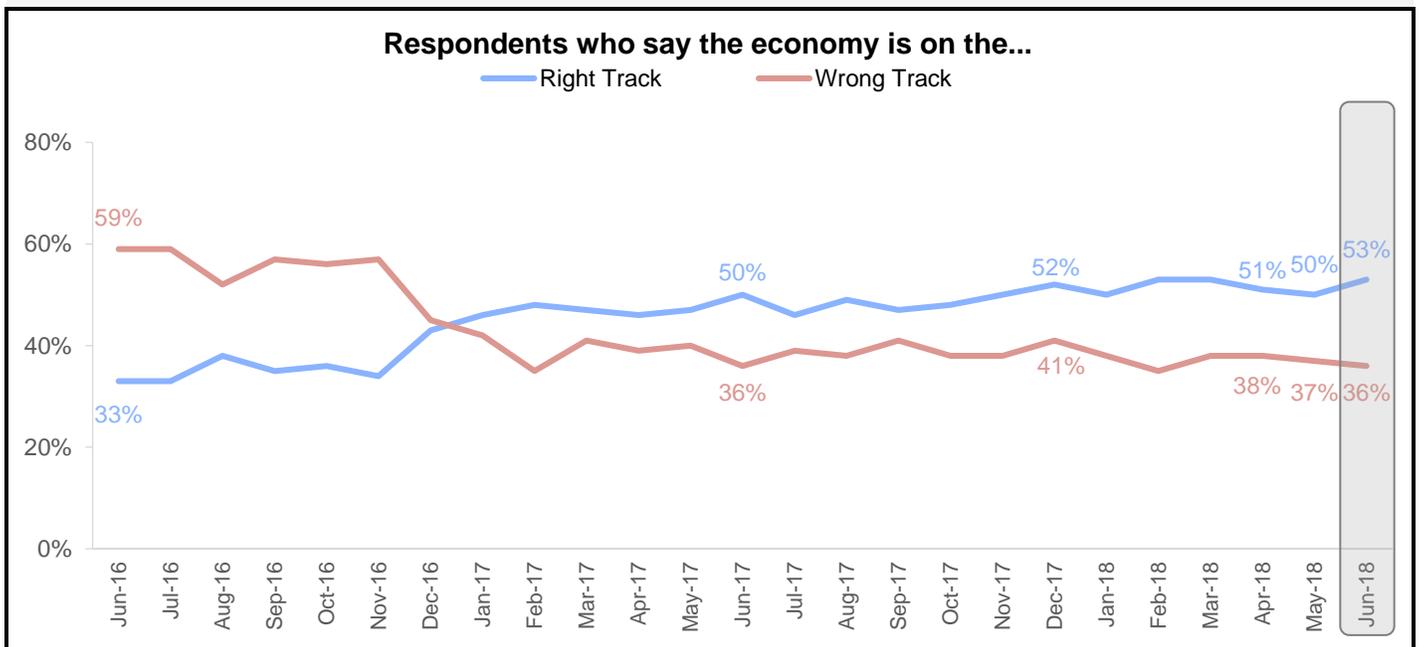

## Additional National Housing Survey Key Indicators

The share of Americans who expect their personal financial situations to get better rose 6 points to 54%, reversing last month's decrease and matching the survey high in April. The share who expect it to stay the same fell 6 percentage points to 34%.

The share of Americans who say the economy is on the right track rose 3 points to 53%, matching the survey high last seen in March of this year. Meanwhile, the share who say it is on the wrong track also fell 1 percentage point to 36%.

# The National Housing Survey®

June 2018  
APPENDIX

## About the Survey

The National Housing Survey® polled a nationally representative sample of 1,002 household financial decision makers (margin of error ±3.1%) aged 18 and older between June 1, 2018 and June 25, 2018. Most of the data collection occurred during the first two weeks of this period.

Interviews were conducted by PSB, in coordination with Fannie Mae.

The statistics in this release were estimated from sample surveys and are subject to sampling variability as well as nonsampling error, including bias and variance from response, nonreporting, and undercoverage. Averages of expected price changes were calculated after converting responses of “stay the same” to 0% and after excluding outliers, which were defined to be responses that were more than two standard deviations from the means.

How the Home Purchase Sentiment Index (HPSI) is Calculated*	
Net Good Time to <b>Buy</b> <i>Very or Somewhat Good Time To Buy – Very or Somewhat Bad Time To Buy</i>	Q12
Net Good Time to <b>Sell</b> <i>Very or Somewhat Good Time To Sell – Very or Somewhat Bad Time To Sell</i>	Q13
Net <b>Home Prices</b> Will Go Up (next 12 months) <i>Home Prices Will Go Up – Home Prices Will Go Down</i>	Q15
Net <b>Mortgage Rates</b> Will Go Down (next 12 months) <i>Mortgage Rates Will Go Down – Mortgage Rates Will Go Up</i>	Q20B
Net Confident About Not Losing <b>Job</b> (next 12 months) <i>Not at All or Not Very Concerned about Losing Job – Very or Somewhat Concerned about Losing Job</i>	Q112B
Net Household <b>Income</b> is Significantly Higher (past 12 months) <i>Income is Significantly Higher – Income is Significantly Lower</i>	Q116
$HPSI = \frac{Q12 + Q13 + Q15 + Q20B + Q112B + Q116}{6} + 63.5$	
* The HPSI calculation includes the addition of a constant of 63.5 in order to set the index's initial value at 60 as of March 2011, in range with the <b>Index of Consumer Sentiment</b> and the <b>Consumer Confidence Index</b>
