

April 2013 Data Release

Fannie Mae's consumer attitudinal survey polls the adult U.S. general population to assess their attitudes about homeownership, renting a home, the economy, and household finances.

CONSUMER ATTITUDES ABOUT HOMEOWNERSHIP

Average 12-month home price change expectation held steady at 2.7%.

The share of people who say home prices will go up in the next 12 months hit a survey high 51%, while those who believe home prices will go down remained at the survey low of 10% for the fourth month in a row.

Average 12 Month Home Price Change Expectation (Percent)

Share of respondents who say home prices will ... in the next 12 months

The share of respondents who say mortgage rates will go up fell 3 percentage points to 43%, while those who say they will go down increased slightly to 7%.

At a survey high 30%, the share of respondents who say it is a good time to sell a house increased 4 percentage points over March.

Share of respondents who say mortgage rates will ... in the next 12 months

Share of respondents who say it is a ...

CONSUMER ATTITUDES ABOUT HOME RENTAL

The average 12-month rental price change expectation held steady at 4.1%.

48% of those surveyed say home rental prices will go up in the next year, a 2 percentage point decrease from last month's survey high.

Average 12 Month Rental Price Change Expectation (Percent)

Share of respondents who say home rental prices will ... in the next 12 months

The share of respondents who said they would buy if they were going to move increased slightly to 65%.

Share of respondents who say they would ... if they were going to move

CONSUMER ATTITUDES ABOUT THE ECONOMY AND HOUSEHOLD FINANCES

At 39%, the share of respondents who say the economy is on the right track increased 4 percentage points over March.

The percentage of people who expect their personal financial situation to get worse over the next 12 months fell 5 points to 16%.

20% of respondents say their household income is significantly higher than it was 12 months ago, holding steady from last month.

11% reported significantly lower household expenses compared to 12 months ago, a three point increase over March.

Fannie Mae Monthly National Housing Survey

April 2013

APPENDIX

About the Survey

The Fannie Mae National Housing Survey polled a nationally representative sample of 1,001 respondents aged 18 and older between April 1, 2013 and April 21, 2013. Most of the data collection occurred during the first two weeks of this period. Findings were compared to the same survey conducted monthly beginning June 2010.

Interviews were conducted by Penn Schoen Berland, in coordination with Fannie Mae.

The statistics in this release are estimated from sample surveys and are subject to sampling variability as well as nonsampling error, including bias and variance from response, nonreporting, and undercoverage. Expected price changes are calculated by creating an average of all responses, using a 0% change for those who said prices would stay the same, and excluding outliers beyond two standard deviations. All figures are shown in percentages, except where otherwise stated.
