December 2005	19,595	28,760	5.43%	2,876
Full year 2005	\$ 35,469	\$ 146,640	5.16%	\$ 113,295

<sup>1</sup> Represents unpaid principal balance.

<sup>2</sup> Excludes mark-to-market adjustments, deferred balances and allowance for losses. Includes \$342 billion of Fannie Mae MBS as of December 31, 2005.

<sup>3</sup> MBS held by investors other than Fannie Mae's portfolio.

<sup>4</sup> Growth rates are compounded.

<sup>5</sup> Excludes MBS issued from Fannie Mae's portfolio, which was \$1,331 million in December 2005.

<sup>6</sup> Included in total portfolio purchases.

<sup>7</sup> Represents commitments to purchase, net of commitments to sell, entered into during the month, including any modifications to original amounts. Please refer to "Correction" on page 2 for more information. We made no revisions to 2004.

<sup>8</sup> Calculated as commitment yield for single-family loans, pass-thru rate for multifamily loans and coupon divided by price for securities. Yields are presented on a taxable-equivalent basis.

Numbers may not sum due to rounding.

## DECEMBER 2005

### HIGHLIGHTS FOR DECEMBER INCLUDE:

- Fannie Mae's book of business grew at a compound annualized rate of 8.3 percent in December, driven by the mortgage portfolio, which grew at a 21.4 percent compound annualized rate.
- Portfolio purchases rose to \$28.8 billion in December from \$16.0 billion the previous month, aided by continued strength in net retained commitments of \$19.6 billion, as investment spreads widened and portfolio sales remained modest.
- Total business volume rose to \$57.9 billion from \$52.0 billion the previous month.
- Lender-originated MBS issues were \$39.6 billion. Outstanding MBS growth slowed to a 2.9 percent compound annualized rate in December, as the portfolio increased its purchase of Fannie Mae MBS to \$10.4 billion from \$1.8 billion the previous month.
- The conventional single-family delinquency rate (90 days or more delinquent) rose thirteen basis points in November to 0.77 percent, attributable primarily to a rise in delinquencies on Gulf Coast properties. The multifamily delinquency rate (60 days or more delinquent) rose three basis points to 0.27 percent.
- The duration gap on Fannie Mae's mortgage portfolio averaged zero months in December.

### MORTGAGE MARKET HIGHLIGHTS:

- Fannie Mae estimates that single-family mortgage originations for 2005 totaled \$2.84 trillion, compared with \$2.73 trillion in 2004. Fannie Mae projects that single-family mortgage originations will decline to approximately \$2.25 trillion in 2006.

## LIQUIDATIONS (\$ in Millions)<sup>1</sup>

	Mortgage Portfolio Liquidations		Outstanding MBS Liquidations	
	Amount	Annual Rate	Amount	Annual Rate
Full year 2004	\$ 240,201	26.87%	\$ 374,688	27.58%

## CORRECTION:

- Fannie Mae is revising its definition of net retained commitments and correcting an error in the company's previously reported net retained commitments for 2005. These changes relate to activity information and do not impact the company's financial statements. The company will no longer include optional commitments to purchase loans (where the other party does not have a corresponding obligation to sell the loans), until we actually purchase a loan under the commitment. This will result in an aggregate decrease of \$7.5 billion in previously reported net retained commitments for 2005. Included in this \$7.5 billion decrease is the correction of an error of \$2.3 billion, principally due to the company's inclusion of amounts both at the time we entered into the optional commitment, as well as when we purchased the loans. Purchases are not affected by these revisions to net retained commitments.

In connection with the pending re-audit and restatement of Fannie Mae's previously published financial statements, management is undertaking a comprehensive review of Fannie Mae's accounting routines and controls, financial reporting process and the application of generally accepted accounting principles. While most of the information contained in this summary is not derived from Fannie Mae's financial statements, we expect that some of this information will be impacted by the re-audit and restatement. Management believes that the information may be useful to investors for comparing current business activities with those of prior periods and for reviewing trends in our business, notwithstanding that information may change, perhaps materially, from what is reported herein. Issues under review that will cause some of this information to change include those related to securities accounting, loan accounting, consolidation and amortization. More information regarding the re-audit and restatement may be found in Form 8-Ks Fannie Mae filed with the Securities and Exchange Commission on December 22, 2004, March 18, 2005, May 11, 2005, August 9, 2005 and November 10, 2005.

For more information about Fannie Mae, please visit [www.fanniemae.com](http://www.fanniemae.com) or contact us at (202) 752-7115.

<sup>1</sup> Represents unpaid principal balance.

<sup>2</sup> Includes conventional loans three or more months delinquent or in foreclosure process as a percent of the number of loans.

<sup>3</sup> Loans without primary mortgage insurance or any credit enhancements.

<sup>4</sup> Loans with primary mortgage insurance and/or other credit enhancements.

<sup>5</sup> Total of single-family non-credit enhanced and credit enhanced loans.

<sup>6</sup> Includes loans and securities 60 days or more past due and is calculated based on mortgage credit book of business.

<sup>7</sup> The duration gap is a weighted average for the month. Since October 2005, we have included non-mortgage assets and liabilities in the duration gap calculation. Our portfolio duration gap calculation excludes any interest rate sensitivity of the guarantee business.
