Fannie Mae is making progress.

Since Fannie Mae entered conservatorship, we have helped to stabilize America’s housing market and made significant progress in supporting the recovery and helping to build a sustainable housing finance system for the future. We are helping homeowners in distress and enabling families to buy, refinance, or rent a home.

Since 2009, we’ve improved our financial performance and we’re making a difference in people’s lives.

We’re strengthening our book of business and changing the industry.

SINGLE-FAMILY BOOK OF BUSINESS

We help homeowners who are facing hardship.

Our efforts enable families in distress to keep their homes or avoid foreclosure.

approximately 1.6M loan workouts since 2009
more than 1.2M home retention solutions
more than 355,000 foreclosure alternatives

We work with lenders to offer access to affordable mortgage credit.

The share of single-family loans we hold or guarantee that are seriously delinquent (SDQ) has declined 16 consecutive quarters.

SDQ loans are those on which homeowners are 90+ days past due in making mortgage payments or that are in the foreclosure process.

We enable families to buy, refinance, or rent a home.

Since 2009, we have provided more than:
$4.1 Trillion in liquidity to the mortgage market

This financing has enabled:

- 3.9 million home purchases
- 12.5 million mortgage refinancings
- 2.3 million rental units

We reported our 9th consecutive quarterly profit in Q1 2014.

The country invested $116.1 billion in Fannie Mae from 2009 to 2012

Fannie Mae expects to have paid Treasury approximately $126.8 billion in dividends as of June 30, 2014

Dividends do not offset prior draws.
