

\$1,000,000,000

**FannieMae**

**Guaranteed REMIC Pass-Through Certificates  
Fannie Mae REMIC Trust 1998-13**

The Guaranteed REMIC Pass-Through Certificates offered hereby (the “REMIC Certificates”) will represent beneficial ownership interests in one of two trust funds. The REMIC Certificates, other than the RL Class, will represent beneficial ownership interests in Fannie Mae REMIC Trust 1998-13 (the “Trust”). The assets of the Trust will consist of the “regular interests” in a separate trust fund (the “Lower Tier REMIC”). The assets of the Lower Tier REMIC will consist of certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the “MBS”) described herein. Each MBS represents a beneficial ownership interest in a pool (each, a “Pool”) of first lien, single-family, fixed-rate residential mortgage loans (the “Mortgage Loans”) having the characteristics described herein. The Certificates will be issued and guaranteed as to timely distribution of principal and interest by Fannie Mae.

This Prospectus Supplement is intended to be used in conjunction with the REMIC Prospectus (defined herein). Investors should not purchase the Certificates before reading this Prospectus Supplement, the REMIC Prospectus and the additional Disclosure Documents (defined herein). Such documents may be obtained as described on page S-2.

**See “Additional Risk Factors” on page S-6 hereof and “Certain Risk Factors” beginning on page 10 of the REMIC Prospectus for a discussion of certain risks that should be considered in connection with an investment in the Certificates.**

*(Cover continued on next page)*

**THE CERTIFICATES MAY NOT BE SUITABLE INVESTMENTS FOR ALL INVESTORS. NO INVESTOR SHOULD PURCHASE CERTIFICATES UNLESS SUCH INVESTOR UNDERSTANDS AND IS ABLE TO BEAR THE PREPAYMENT, YIELD, LIQUIDITY AND OTHER RISKS ASSOCIATED WITH SUCH CERTIFICATES.**

**THE CERTIFICATES, TOGETHER WITH ANY INTEREST THEREON, ARE NOT GUARANTEED BY THE UNITED STATES. THE OBLIGATIONS OF FANNIE MAE UNDER ITS GUARANTY OF THE CERTIFICATES ARE OBLIGATIONS SOLELY OF FANNIE MAE AND DO NOT CONSTITUTE AN OBLIGATION OF THE UNITED STATES OR ANY AGENCY OR INSTRUMENTALITY THEREOF OTHER THAN FANNIE MAE. THE CERTIFICATES ARE EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT OF 1933 AND ARE “EXEMPTED SECURITIES” WITHIN THE MEANING OF THE SECURITIES EXCHANGE ACT OF 1934.**

- (1) The PO, SD and SE Classes are RCR Classes. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 hereto for a description of the RCR Classes.
- (2) See “Description of the Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus and “Description of the Certificates—Distributions of Interest” and “—Distributions of Principal” herein.
- (3) These Classes will be Notional Classes, will not have principal balances and will bear interest on their respective notional principal balances. The notional principal balances of the Notional Classes initially will be as set forth above and thereafter will be calculated as specified herein. See “Description of the Certificates—Distributions of Interest—Notional Classes” herein.
- (4) These Classes will bear interest based on “LIBOR” as described under “Description of the Certificates—Distributions of Interest” herein and “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes” in the REMIC Prospectus.

The Certificates will be offered by Nomura Securities International, Inc. (the “Dealer”) from time to time in negotiated transactions, at varying prices to be determined at the time of sale.

The Certificates will be offered by the Dealer, subject to issuance by Fannie Mae and to prior sale or to withdrawal or modification of the offer without notice, when, as and if delivered to and accepted by the Dealer, subject to the right by the Dealer to reject any order in whole or in part and subject to approval of certain legal matters by counsel. It is expected that the PA, PB, PC, PD, PN, PI, A, F, S, FB and FC Classes will be available through the book-entry system of the Federal Reserve Banks and that the SB and SC Classes and RCR Certificates will be available through the book-entry facilities of The Depository Trust Company on or about February 27, 1998 (the “Settlement Date”). It is expected that the R and RL Classes in registered, certificated form will be available for delivery at the offices of the Dealer, New York, New York, on or about the Settlement Date.

**NOMURA SECURITIES INTERNATIONAL, INC.**

*(Cover continued from previous page)*

Certain of the REMIC Certificates may, upon notice and payment of an exchange fee, be exchanged for the related Combinable and Recombinable REMIC Certificates (“RCR Certificates”) as provided herein. Each RCR Certificate issued in such an exchange will represent a beneficial ownership interest in, and will entitle the Holder thereof to receive a proportionate share of the distributions on, the related REMIC Certificates. Certain characteristics of the RCR Certificates are set forth in Schedule 1 hereto. As used herein, unless the context requires otherwise, the term “Certificates” includes REMIC Certificates and RCR Certificates and the term “Classes” includes the Classes of REMIC Certificates and RCR Certificates. See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 hereto.

The yields to investors in each Class will be sensitive in varying degrees to, among other things, the rate of principal distributions on the MBS, which in turn will be determined by the rate of principal payments of the Mortgage Loans and the characteristics of such Mortgage Loans. The yield to investors in each Class will also be sensitive to the purchase price paid for such Class and, in the case of any Floating Rate or Inverse Floating Rate Class, fluctuations in the level of the Index (as defined herein). Accordingly, investors should consider the following risks:

- The Mortgage Loans generally may be prepaid at any time without penalty, and, accordingly, the rate of principal payments thereon is likely to vary considerably from time to time.
- Slight variations in Mortgage Loan characteristics could substantially affect the weighted average lives and yields of some or all of the Classes.
- In the case of any Certificates purchased at a discount to their principal amounts, a slower than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Certificates purchased at a premium to their principal amounts, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield.
- In the case of any Interest Only Class, a faster than anticipated rate of principal payments is likely to result in a lower than anticipated yield and, in certain cases, an actual loss on the investment.
- The yield on any Floating Rate or Inverse Floating Rate Class will be sensitive to the level of the Index. See “Description of the Certificates—Distributions of Interest—Floating Rate and Inverse Floating Rate Classes” herein.

See “Certain Risk Factors—Yield Considerations” in the REMIC Prospectus and “Additional Risk Factors—Additional Yield and Prepayment Considerations” and “Description of the Certificates—Yield Tables” herein.

In addition, investors should purchase Certificates only after considering the following:

- The actual final payment of any Class will likely occur earlier, and could occur much earlier, than the Final Distribution Date for such Class specified on the cover page. See “Description of the Certificates—Weighted Average Lives of the Certificates” herein and “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus.
- The rate of principal distributions of the Certificates is uncertain and investors may be unable to reinvest the distributions thereon at yields equaling the yields on the Certificates. See “Certain Risk Factors—Suitability and Reinvestment Considerations” in the REMIC Prospectus.
- Investors whose investment activities are subject to legal investment laws and regulations or to review by regulatory authorities may be subject to restrictions on investment in certain Classes of the Certificates. Investors should consult their legal advisors to determine whether and to what extent the Certificates constitute legal investments or are subject to restrictions on investment. See “Legal Investment Considerations” in the REMIC Prospectus.
- The Dealer intends to make a market for the Certificates but is not obligated to do so. There can be no assurance that such a secondary market will develop or, if developed, that it will continue. Thus, investors may not be able to sell their certificates readily or at prices that will enable them to realize their anticipated yield. No investor should purchase Certificates unless such investor understands and is able to bear the risk that the value of the Certificates will fluctuate over time and that the Certificates may not be readily salable.

These securities have not been approved or disapproved by the Securities and Exchange Commission or any state securities commission nor has the Securities and Exchange Commission or any state securities commission passed upon the accuracy or adequacy of this Prospectus Supplement, the REMIC Prospectus or the MBS Prospectus (each as defined below). Any representation to the contrary is a criminal offense.

Elections will be made to treat the Lower Tier REMIC and the Trust as “real estate mortgage investment conduits” (“REMICs”) pursuant to the Internal Revenue Code of 1986, as amended (the “Code”). The R and RL Classes will be subject to transfer restrictions. See “Description of the Certificates—Characteristics of the R and RL Classes” and “Certain Additional Federal Income Tax Consequences” herein, and “Description of the Certificates—Additional Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences” in the REMIC Prospectus.

Investors should purchase the Certificates only if they have read and understood this Prospectus Supplement and the following documents (collectively, the “Disclosure Documents”):

- Fannie Mae’s Prospectus for Guaranteed REMIC Pass-Through Certificates dated November 12, 1997 (the “REMIC Prospectus”);
- Fannie Mae’s Prospectus for Guaranteed Mortgage Pass-Through Certificates dated August 1, 1997 (the “MBS Prospectus”); and
- Fannie Mae’s Information Statement dated March 31, 1997 and any supplements thereto (collectively, the “Information Statement”).

The Information Statement is incorporated herein by reference and, together with the other Disclosure Documents, may be obtained from Fannie Mae by writing or calling its MBS Helpline at 3900 Wisconsin Avenue, N.W., Area 2H-3S, Washington, D.C. 20016 (telephone 1-800-BEST-MBS or 202-752-6547). Such documents may also be obtained from Nomura Securities International, Inc. by writing or calling its Prospectus Department at Two World Financial Center, Street Level Mail Room, New York, New York 10291-1198 (telephone 212-667-1303).

## REFERENCE SHEET

This reference sheet is not a summary of the REMIC transaction and it does not contain complete information about the Certificates. Investors should purchase the Certificates only after reading this Prospectus Supplement and each of the additional Disclosure Documents described herein in their entirety.

### Assumed Characteristics of the Mortgage Loans (as of February 1, 1998)

<u>Approximate Principal Balance</u>	<u>Original Term to Maturity (in months)</u>	<u>Approximate Weighted Average Remaining Term to Maturity (in months)</u>	<u>Approximate Calculated Loan Age (in months)</u>	<u>Approximate Weighted Average Coupon</u>
\$400,000,000	360	357	2	7.65%
300,000,000	360	359	1	7.60%
300,000,000	360	355	3	7.70%

The actual remaining terms to maturity, calculated loan ages and interest rates of most of the Mortgage Loans will differ from the weighted averages shown above, perhaps significantly. See “Description of the Certificates—Structuring Assumptions—*Pricing Assumptions*” herein.

### Combination and Recombination

Holders of certain REMIC Certificates will be entitled, upon notice and payment of an exchange fee, to exchange all or a portion of such Certificates for a proportionate interest in the related RCR Certificates as reflected on Schedule 1 hereto. The Holders of RCR Certificates will be entitled to receive distributions from the related REMIC Certificates. See “Description of the Certificates—Combination and Recombination” herein. Schedule 1 sets forth all of the available combinations of REMIC Certificates and the related RCR Certificates.

### Interest Rates

The Fixed Rate Classes will bear interest at the applicable per annum interest rates set forth on the cover.

The Floating Rate and Inverse Floating Rate Classes will bear interest during the initial Interest Accrual Period at initial interest rates specified below, and will bear interest during each Interest Accrual Period thereafter, subject to the applicable maximum and minimum interest rates, at rates determined as described below:

<u>Class</u>	<u>Initial Interest Rate</u>	<u>Maximum Interest Rate</u>	<u>Minimum Interest Rate</u>	<u>Formula for Calculation of Interest Rate (1)</u>
F . . . . .	5.92500%	9.00000%	0.30%	LIBOR + 30 basis points
S . . . . .	3.07500%	8.70000%	0.00%	8.70% – LIBOR
FB . . . . .	6.25547%	9.00000%	0.65%	LIBOR + 65 basis points
SB . . . . .	9.60585%	29.22500%	0.00%	29.225% – (3.5 × LIBOR)
FC . . . . .	6.42500%	8.50000%	0.80%	LIBOR + 80 basis points
SC . . . . .	9.68332%	35.93333%	0.00%	35.93333% – (4.666667 × LIBOR)
SD . . . . .	2.74453%	8.35000%	0.00%	8.35% – LIBOR
SE . . . . .	2.07500%	7.70000%	0.00%	7.70% – LIBOR

(1) LIBOR will be established on the basis of the “BBA Method”. See “Description of the Certificates—Calculation of LIBOR” herein.

See “Description of the Certificates—Distributions of Interest—*Floating Rate and Inverse Floating Rate Classes*” herein.

Distributions of interest to be allocated from REMIC Certificates to RCR Certificates on any Distribution Date will be allocated on a pro rata basis.

### Notional Classes

The notional principal balances of the Notional Classes will be equal to the indicated percentages of the outstanding balances specified below immediately prior to the related Distribution Date:

<u>Classes</u>	<u>Percentages of Specified Balances</u>
PI .....	14.2857140469% of PA Class
	14.2857100000% of PB Class
	21.4285712185% of PC Class
	21.4285720000% of PD Class
S .....	100% of F Class
SD .....	349.9999877817% of SB Class
SE .....	466.6666655270% of SC Class

See “Description of the Certificates—Distributions of Interest—*Notional Classes*” and “—Yield Tables—*The PI Class*” and “—*The Inverse Floating Rate Classes and the SD and SE Classes*” herein.

### Distributions of Principal

#### *Principal Distribution Amount*

1. To the PA Class, to its Planned Balance.
2. To the PB, PC and PD Classes, pro rata, to their Planned Balances.
3. To the PN Class, to its Planned Balance.
4. To the A and F Classes, pro rata, to their Planned Balances.
5. To the FB, SB, FC and SC Classes, pro rata, to zero.
6. To the A and F Classes, pro rata, to zero.
7. To the PA Class, to zero.
8. To the PB, PC and PD Classes, pro rata, to zero.
9. To the PN Class, to zero.

Distributions of principal to be allocated from REMIC Certificates to RCR Certificates on any Distribution Date will be allocated on a pro rata basis.

### Weighted Average Lives (years) \*

		PSA Prepayment Assumption					
<u>Class</u>		<u>0%</u>	<u>75%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>	
PA .....		4.0	1.2	1.2	1.2	1.2	
PB, PC and PD .....		12.7	3.8	3.8	3.8	3.2	
PN .....		21.4	11.1	11.1	11.1	6.6	
PI .....		11.1	3.3	3.3	3.3	2.8	
FB, SB, FC, SC, PO, SD and SE .....		28.8	24.9	9.1	2.9	1.4	
		PSA Prepayment Assumption					
<u>Class</u>		<u>0%</u>	<u>75%</u>	<u>145%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>
A, F and S .....	26.3	15.9	3.9	3.9	3.9	3.9	2.3

\* Determined as specified under “Description of the Certificates—Weighted Average Lives of the Certificates” herein.

## ADDITIONAL RISK FACTORS

### Additional Yield and Prepayment Considerations

The rate of distributions of principal of the Classes will be sensitive in varying degrees to the rate of principal distributions on the MBS, which in turn will reflect the rate of amortization (including prepayments) of the Mortgage Loans. There can be no assurance that the Mortgage Loans underlying the MBS will have the characteristics assumed herein. Because the rate of principal distributions on the Classes will be related to the rate of amortization of the Mortgage Loans, which are likely to include Mortgage Loans with remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the rate of principal distributions on the Classes is likely to differ from the rate anticipated by an investor, even if the Mortgage Loans prepay at the indicated constant percentages of PSA.

It is highly unlikely that the Mortgage Loans underlying the MBS will prepay at any of the rates assumed herein, will prepay at a *constant* PSA rate until maturity or that such Mortgage Loans will prepay at the same rate. Investors must make their own decisions as to the appropriate assumptions, including prepayment assumptions, to be used in deciding whether to purchase the Certificates. See “Risk Factors—Prepayment Considerations” in the REMIC Prospectus and “Maturity and Prepayment Assumptions” in the MBS Prospectus.

The effective yields on the Delay Classes (as defined herein) will be reduced below the yields otherwise produced because principal and interest payable on a Distribution Date will not be distributed until on or about the 18th day following the end of the related Interest Accrual Period and will not bear interest during such delay. No interest at all will be paid on any Class after its principal balance has been reduced to zero. As a result of the foregoing, the market values of the Delay Classes will be lower than would have been the case if there were no such delay.

## DESCRIPTION OF THE CERTIFICATES

The following summaries describing certain provisions of the Certificates do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the remaining provisions of this Prospectus Supplement, the additional Disclosure Documents and the provisions of the Trust Agreement (defined below). Capitalized terms used and not otherwise defined in this Prospectus Supplement have the meanings assigned to such terms in the applicable Disclosure Document or the Trust Agreement (as the context may require).

### General

*Structure.* The Trust and the Lower Tier REMIC will be created pursuant to a trust agreement dated as of February 1, 1998 (the “Trust Agreement”), executed by the Federal National Mortgage Association (“Fannie Mae”) in its corporate capacity and in its capacity as trustee (the “Trustee”), and the Certificates in the Classes and aggregate original principal balances set forth on the cover hereof will be issued by Fannie Mae pursuant thereto. A description of Fannie Mae and its business, together with certain financial statements and other financial information, is contained in the Information Statement.

The REMIC Certificates (other than the R and RL Classes) will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust. The interests in the Lower Tier REMIC other than the RL Class (the “Lower Tier Regular Interests”) will be designated as the “regular interests,” and the RL Class will be designated as the “residual interest,” in the Lower Tier REMIC. The assets of the Lower Tier REMIC will consist of the MBS.

*Fannie Mae Guaranty.* Fannie Mae guarantees to each holder of an MBS the timely payment of scheduled installments of principal of and interest on the underlying Mortgage Loans, whether or not

received, together with the full principal balance of any foreclosed Mortgage Loan, whether or not such balance is actually recovered. In addition, Fannie Mae will be obligated to distribute on a timely basis to the Holders of Certificates required installments of principal and interest and to distribute the principal balance of each Class of Certificates in full no later than the applicable Final Distribution Date, whether or not sufficient funds are available in the Trust Account. The guaranties of Fannie Mae are not backed by the full faith and credit of the United States. See “Description of the Certificates—Fannie Mae’s Guaranty” in the REMIC Prospectus and “Description of Certificates—The Corporation’s Guaranty” in the MBS Prospectus.

*Characteristics of Certificates.* Certificates of the PA, PB, PC, PD, PN, PI, A, F, S, FB and FC Classes (the “Fed Book-Entry Certificates”) will be issued and maintained and may be transferred by Holders only on the book-entry system of the Federal Reserve Banks. Such entities whose names appear on the book-entry records of a Federal Reserve Bank as the entities for whose accounts such Certificates have been deposited are herein referred to as “Holders” or “Certificateholders.”

The SB and SC Classes and the RCR Certificates will be represented by one or more certificates (the “DTC Certificates”) to be registered at all times in the name of the nominee of the Depository (as defined herein), which Depository will maintain such Certificates through its book-entry facilities. When used herein with respect to any DTC Certificate, the terms “Holders” and “Certificateholders” refer to the nominee of the Depository.

A Holder is not necessarily the beneficial owner of a book-entry Certificate. Beneficial owners will ordinarily hold book-entry Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See “Description of the Certificates—Denominations, Certificate Form” in the REMIC Prospectus.

The R and RL Certificates will not be issued in book-entry form but will be issued in fully registered, certificated form. As to the R or RL Certificate, “Holder” or “Certificateholder” refers to the registered owner thereof. The R or RL Certificates will be transferable at the corporate trust office of the Transfer Agent, or at the agency of the Transfer Agent in New York, New York. The Transfer Agent initially will be State Street Bank and Trust Company in Boston, Massachusetts (“State Street”). A service charge may be imposed for any registration of transfer of the R or RL Certificate and Fannie Mae may require payment of a sum sufficient to cover any tax or other governmental charge. See also “Characteristics of the R and RL Classes” herein.

The distribution to the Holders of the R and RL Classes of the proceeds of any remaining assets of the Trust and the Lower Tier REMIC, as applicable, will be made only upon presentation and surrender of the related Certificate at the office of the Paying Agent. The Paying Agent initially will be State Street.

*Authorized Denominations.* The Certificates, other than the R and RL Certificates, will be issued in minimum denominations of \$1,000 and integral multiples of \$1 in excess thereof. The R and RL Classes will be issued as single Certificates and will not have principal balances.

*Distribution Dates.* Distributions on the Classes will be made on the 18th day of each month (or, if the 18th day is not a business day, on the first business day next succeeding such 18th day) (each, a “Distribution Date”), commencing in the month following the Settlement Date. See “Distribution of Interest—General” and “—Interest Accrual Periods” and “Distribution of Principal—Principal Distribution Amount” herein.

*Record Date.* Each monthly distribution on the Certificates will be made to Holders of record on the last day of the preceding month.

*REMIC Trust Factors.* As soon as practicable following the eleventh calendar day of each month, Fannie Mae will publish or otherwise make available for each Class of Certificates the factor (carried to eight decimal places) which, when multiplied by the original principal balance of a

Certificate of such Class, will equal the remaining principal balance of such Certificate after giving effect to the distribution of principal to be made on the following Distribution Date.

*Optional Termination.* Consistent with its policy described under “Description of Certificates—Termination” in the MBS Prospectus, Fannie Mae will agree not to effect indirectly an early termination of the Lower Tier REMIC or the Trust through the exercise of its right to repurchase the Mortgage Loans underlying any MBS unless only one Mortgage Loan remains in the related Pool or the principal balance of such Pool at the time of repurchase is less than one percent of the original principal balance thereof.

## **Combination and Recombination**

*General.* Subject to the rules, regulations and procedures of the Depository, all or a portion of the SB and SC Classes of REMIC Certificates may be exchanged for a proportionate interest in one or more RCR Certificates as reflected on Schedule 1 hereto. Similarly, all or a portion of one or more RCR Certificates may be exchanged as reflected on Schedule 1, for certain REMIC Certificates. This process may occur repeatedly.

The RCR Certificates issued in an exchange will represent a beneficial ownership interest in, and will be entitled to receive a proportionate share of the distributions on, the related REMIC Certificates, and the Holders of RCR Certificates will be treated as the beneficial owners of a proportionate interest in the related REMIC Certificates.

The Classes of REMIC Certificates and RCR Certificates that are outstanding at any given time, and the outstanding principal balances (or notional principal balances) of such Classes, will depend upon distributions of principal of such Classes as well as any exchanges that occur. The principal balances and/or notional principal balances of the REMIC Certificates and RCR Certificates involved in any exchange will bear the same relationship as that borne by the original principal balances and/or original notional principal balances of the related Classes.

*Procedures.* A Holder proposing to effect an exchange must notify Fannie Mae’s Capital Markets Department through a dealer who is a member of Fannie Mae’s “REMIC Dealer Group.” Such notice must be given in writing or by telefax not later than two business days before the proposed exchange date (which date, subject to Fannie Mae’s approval, can be any business day other than the first or last business day of the month). The notice must include the outstanding principal balance of both the Certificates to be exchanged and the Certificates to be received, and the proposed exchange date. Promptly after the receipt of a Holder’s notice, Fannie Mae will telephone the dealer to provide instructions for delivering the Certificates and the exchange fee to Fannie Mae by wire transfer. A Holder’s notice becomes irrevocable on the second business day before the proposed exchange date.

A fee will be payable to Fannie Mae in connection with each exchange equal to  $\frac{1}{32}$  of 1% of the outstanding principal balance (exclusive of any notional principal balance) of the Certificates to be submitted for exchange, provided that the fee payable in connection with each exchange will in no event be less than \$2,000.

The first distribution on a REMIC Certificate or an RCR Certificate received in an exchange transaction will be made on the Distribution Date in the month following the month of the exchange. Such distribution will be made to the Holder of record as of the close of business on the last day of the month of the exchange.

*Additional Considerations.* The characteristics of RCR Certificates will reflect the characteristics of the REMIC Certificates used to form such RCR Certificates.

At any given time, a Holder’s ability to exchange REMIC Certificates for RCR Certificates or to exchange RCR Certificates for REMIC Certificates will be limited by a number of factors. A Holder must, at the time of the proposed exchange, own Certificates of the Class or of the related Classes in the proportions necessary to effect a desired exchange. A Holder that does not own Certificates of the

related Classes in the necessary proportions may not be able to obtain the necessary REMIC Certificates or RCR Certificates, as applicable. The Holder of needed Certificates may refuse or be unable to sell at a reasonable price or any price, or certain Certificates may have been purchased and placed into other financial structures. In addition, principal distributions will, over time, diminish the amounts available for exchange. Only the combinations listed on Schedule 1 are permitted.

### **Book-Entry Procedures**

*General.* The Fed Book-Entry Certificates will be issued and maintained only on the book-entry system of the Federal Reserve Banks. Such Certificates may be held of record only by entities eligible to maintain book-entry accounts with the Federal Reserve Banks. Beneficial owners ordinarily will hold such Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. A Holder that is not the beneficial owner of such a Certificate, and each other financial intermediary in the chain to the beneficial owner, will have the responsibility of establishing and maintaining accounts for their respective customers. The rights of the beneficial owner of such a Certificate with respect to Fannie Mae and the Federal Reserve Banks may be exercised only through the Holder of such Certificate. Fannie Mae and the Federal Reserve Banks will have no direct obligation to a beneficial owner of such a Certificate that is not also the Holder of the Certificate. The Federal Reserve Banks will act only upon the instructions of the Holder in recording transfers of such a Certificate. See “Description of the Certificates—Denominations, Certificate Form” in the REMIC Prospectus.

The DTC Certificates will be registered at all times in the name of the nominee of The Depository Trust Company, a New York-chartered limited purpose trust company, or any successor depository selected or approved by Fannie Mae (the “Depository”). In accordance with its normal procedures, the Depository will record the positions held by each Depository participating firm (each, a “Depository Participant”) in the DTC Certificates, whether held for its own account or as a nominee for another person. State Street will act as Paying Agent for, and perform certain administrative functions with respect to, the DTC Certificates.

No person acquiring a beneficial ownership interest in the DTC Certificates (a “beneficial owner” or an “investor”) will be entitled to receive a physical certificate representing such ownership interest. An investor’s interest in the DTC Certificates will be recorded on the records of the brokerage firm, bank, thrift institution or other financial intermediary (a “financial intermediary”) that maintains such investor’s account for such purpose. In turn, the financial intermediary’s record ownership of such interest will be recorded on the records of the Depository (or of a Depository Participant that acts as an agent for the financial intermediary if such intermediary is not a Depository Participant). Accordingly, an investor will not be recognized by the Trustee or the Depository as a Certificateholder and must rely on the foregoing arrangements to evidence its interest in the DTC Certificates. Beneficial ownership of an investor’s interest in the DTC Certificates may be transferred only by compliance with the procedures of an investor’s financial intermediary and of Depository Participants. In general, beneficial ownership of an investor’s interest in the DTC Certificates will be subject to the rules, regulations and procedures governing the Depository and Depository Participants as in effect from time to time.

*Method of Distribution.* Fannie Mae’s fiscal agent for the Fed Book-Entry Certificates is the Federal Reserve Bank of New York. The Federal Reserve Banks will make distributions on such Certificates on behalf of Fannie Mae on the applicable Distribution Dates by crediting Holders’ accounts at the Federal Reserve Banks.

Each distribution on the DTC Certificates will be distributed by the Paying Agent to the Depository in immediately available funds. The Depository will be responsible for crediting the amount of such distributions to the accounts of the Depository Participants entitled thereto, in accordance with the Depository’s normal procedures, which currently provide for distributions in same-day funds settled through the New York Clearing House. Each Depository Participant and each

financial intermediary will be responsible for disbursing such distributions to the beneficial owners of the DTC Certificates that it represents. Accordingly, the beneficial owners may experience some delay in their receipt of distributions.

## The MBS

The MBS will have the aggregate unpaid principal balance and Pass-Through Rate set forth below and the general characteristics described in the MBS Prospectus. The MBS will provide that principal and interest on the Mortgage Loans will be passed through monthly, commencing in the month following the month of the initial issuance of the MBS. The Mortgage Loans underlying the MBS will be conventional Level Payment Mortgage Loans secured by first mortgages or deeds of trust on one- to four-family (“single-family”) residential properties and having an original maturity of up to 30 years. See “The Mortgage Pools” and “Yield Considerations” in the MBS Prospectus. The characteristics of the MBS and the Mortgage Loans as of February 1, 1998 (the “Issue Date”) are expected to be as follows:

<b>MBS</b>	
Aggregate Unpaid Principal Balance .....	\$1,000,000,000
MBS Pass-Through Rate .....	7.00%
<b>Mortgage Loans</b>	
Range of WACs (per annum percentages) .....	7.25% to 9.50%
Range of WAMs .....	241 months to 360 months
Approximate Weighted Average WAM .....	357 months
Approximate Weighted Average CAGE .....	2 months

## Final Data Statement

Following the issuance of the Certificates, Fannie Mae will prepare a Final Data Statement setting forth, among other information, the Pool number, the current WAC (or original WAC, if the current WAC is not available) and the current WAM (or Adjusted WAM, if the current WAM is not available) of the Mortgage Loans underlying each MBS, along with the weighted average of all the current or original WACs and the weighted average of all the current or Adjusted WAMs, based on the current unpaid principal balances of the Mortgage Loans underlying each of the MBS as of the Issue Date. The Final Data Statement will not accompany this Prospectus Supplement but will be made available by Fannie Mae. To request the Final Data Statement, telephone Fannie Mae at 1-800-BEST-MBS or 202-752-6547. The contents of the Final Data Statement and other data specific to the Certificates are available in electronic form by calling Fannie Mae at 1-800-752-6440 or 202-752-6000.

## Distributions of Interest

### *Categories of Classes*

For the purpose of payments of interest, the Classes will be categorized as follows:

<u>Interest Type*</u>	<u>Classes</u>
Fixed Rate	PA, PB, PC, PD, PN, PI and A
Floating Rate	F, FB and FC
Inverse Floating Rate	S, SB and SC
Interest Only	PI and S
RCR**	PO, SD and SE
No Payment Residual	R and RL

\* See “Description of the Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus.

\*\* See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description of the RCR Classes.

*General.* The interest-bearing Certificates will bear interest at the applicable per annum interest rates set forth on the cover or described herein. Interest on the interest-bearing Certificates is calculated on the basis of a 360-day year consisting of twelve 30-day months and is distributable monthly on each Distribution Date, commencing in the month after the Settlement Date. Interest to be distributed on each interest-bearing Certificate on a Distribution Date will consist of one month's interest on the outstanding principal balance of such Certificate immediately prior to such Distribution Date.

Distributions of interest to be allocated from REMIC Certificates to RCR Certificates on any Distribution Date will be allocated on a pro rata basis.

*Interest Accrual Periods.* Interest to be distributed on a Distribution Date will accrue on the interest-bearing Certificates during the one-month periods set forth below (each, an "Interest Accrual Period").

<u>Classes</u>	<u>Interest Accrual Periods</u>
F, S, FB, SB and SD Classes (collectively, the "No Delay Classes")	One month period ending on the day preceding the Distribution Date
All Fixed Rate Classes and the FC, SC and SE Classes (collectively, the "Delay Classes")	Calendar month preceding the month in which the Distribution Date occurs

See "Additional Risk Factors—Additional Yield and Prepayment Considerations" herein.

Solely for purposes of facilitating the trading of the PO Class, such Class will be treated as a No Delay Class.

*Notional Classes.* The Notional Classes will not have principal balances and will bear interest at the applicable per annum interest rates set forth on the cover or described herein during each Interest Accrual Period on their respective notional principal balances. The notional principal balances of the Notional Classes will be calculated as specified herein under "Reference Sheet—Notional Classes."

The notional principal balance of a Notional Class is used for purposes of the determination of interest distributions thereon and does not represent an interest in the principal distributions of the MBS or the underlying Mortgage Loans. Although a Notional Class will not have a principal balance, a REMIC Trust Factor (as described herein) will be published with respect to such Class that will be applicable to the notional principal balance thereof, and references herein to the principal balances of the Certificates generally shall be deemed to refer also to the notional principal balances of the Notional Classes.

*Floating Rate and Inverse Floating Rate Classes.* The Floating Rate and Inverse Floating Rate Classes will bear interest during each Interest Accrual Period, subject to the applicable maximum and minimum interest rates, at rates determined as described herein under "Reference Sheet—Interest Rates."

The yields with respect to such Classes will be affected by changes in the index specified (the "Index"), which changes may not correlate with changes in mortgage interest rates. It is possible that lower mortgage interest rates could occur concurrently with an increase in the level of the Index. Conversely, higher mortgage interest rates could occur concurrently with a decrease in the level of the Index.

The establishment of the Index value by Fannie Mae and Fannie Mae's determination of the rate or rates of interest for the applicable Class or Classes for the related Interest Accrual Period shall (in the absence of manifest error) be final and binding. Each such rate of interest may be obtained by telephoning Fannie Mae at 1-800-BEST-MBS or 202-752-6547.

## Calculation of LIBOR

On each Index Determination Date, until the principal balances and notional principal balances of the Floating Rate and Inverse Floating Rate Classes and the SD and SE Classes have been reduced to zero, Fannie Mae will establish LIBOR for the related Interest Accrual Period on the basis of the “BBA Method” as described in the REMIC Prospectus under “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes—LIBOR.” With respect to the “BBA Method,” Interest Settlement Rates currently are based on rates quoted by sixteen BBA designated banks and are calculated by eliminating the four highest rates and the four lowest rates and averaging the eight remaining rates.

If on the initial Index Determination Date, Fannie Mae is unable to determine LIBOR in the manner specified in the REMIC Prospectus, LIBOR for the next succeeding Interest Accrual Period will be equal to 5.625% in the case of the F, S, FC, SC and SE Classes and 5.60547% in the case of the FB, SB and SD Classes.

## Distributions of Principal

### *Categories of Classes*

For the purpose of payments of principal, the Classes will be categorized as follows:

<u>Principal Type*</u>	<u>Classes</u>
PAC**	PA, PB, PC, PD, PN, A and F
Support	FB, SB, FC and SC
Notional	PI and S
RCR***	PO, SD and SE
No Payment Residual	R and RL

\* See “Description of the Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus.

\*\* The Principal Balance Schedules are set forth herein beginning on page B-1.

\*\*\* See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description of the RCR Classes.

### *Principal Distribution Amount*

On each Distribution Date, principal will be distributed on the Certificates in an amount (the “Principal Distribution Amount”) equal to the aggregate distributions of principal to be made on the MBS in the month of such Distribution Date.

On each Distribution Date, the Principal Distribution Amount will be distributed as principal of the Classes in the following order of priority:

- |   |                      |
|---|----------------------|
| (i) to the PA Class, until the principal balance thereof is reduced to its Planned Balance for such Distribution Date;  | } PAC<br>Classes     |
| (ii) concurrently, to the PB, PC and PD Classes, pro rata (or 11.0511891080%, 75.1348245071% and 13.8139863849%, respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date; |                      |
| (iii) to the PN Class, until the principal balance thereof is reduced to its Planned Balance for such Distribution Date;  |                      |
| (iv) concurrently, to the A and F Classes, pro rata (or 80% and 20% respectively), until the principal balances thereof are reduced to their respective Planned Balances for such Distribution Date;  |                      |
| (v) concurrently, to the FB, SB, FC and SC Classes, pro rata (or 19.4444442936%, 5.5555557064%, 61.7647058557% and 13.2352941443%, respectively), until the principal balances thereof are reduced to zero;                                       | } Support<br>Classes |

- |  |   |                |
|--|---|----------------|
| <p>(vi) concurrently, to the A and F Classes, pro rata, without regard to their Planned Balances and until the principal balances thereof are reduced to zero;</p> <p>(vii) to the PA Class, without regard to its Planned Balance and until the principal balance thereof is reduced to zero;</p> <p>(viii) concurrently, to the PB, PC and PD Classes, pro rata, without regard to their Planned Balances and until the principal balances thereof are reduced to zero; and</p> <p>(ix) to the PN Class, without regard to its Planned Balance and until the principal balance thereof is reduced to zero.</p> | } | PAC<br>Classes |
|--|---|----------------|

Distributions of principal to be allocated from REMIC Certificates to RCR Certificates on any Distribution Date will be allocated on a pro rata basis.

## Structuring Assumptions

*Pricing Assumptions.* Unless otherwise specified, the information in the tables in this Prospectus Supplement has been prepared on the basis of the following assumptions (collectively, the “Pricing Assumptions”):

- the Mortgage Loans underlying the MBS have the original terms to maturity, remaining terms to maturity, CAGEs and interest rates specified herein under “Reference Sheet—Assumed Characteristics of the Mortgage Loans”;
- the Mortgage Loans prepay at the *constant* percentages of PSA specified in the related table; and
- the closing date for the sale of the Certificates is February 27, 1998.

*Prepayment Assumptions.* Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used herein is The Bond Market Association’s standard prepayment model (“PSA”). To assume a specified rate of PSA is to assume a specified rate of prepayment each month of the then outstanding principal balance of a pool of new mortgage loans computed as described under “Description of the Certificates—Prepayment Models” in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any *constant* PSA rate or at any other constant rate.

*Structuring Ranges.* The Principal Balance Schedules have been prepared on the basis of the Pricing Assumptions and the assumption that the related Mortgage Loans prepay at a *constant* PSA rate within the applicable Structuring Ranges set forth below. The Principal Balance Schedules are set forth herein beginning on page B-1.

<u>Principal Balance Schedule References</u>	<u>Related Classes</u>	<u>Structuring Ranges</u>
Planned Balances	PA, PB, PC, PD and PN	Between 75% and 275%
Planned Balances	A and F	Between 145% and 275%

**There is no assurance that the balance of any Class listed above will conform on any Distribution Date to the applicable balance specified for such Distribution Date in the Principal Balance Schedules herein, or that distributions of principal of such Class will begin or end on the respective Distribution Dates specified therein.** Because any excess of the principal distribution on any Distribution Date over the amount necessary to reduce any such Class to its scheduled balance will be distributed, the ability to so reduce such Class will not be enhanced by the averaging of high and low principal payments from month to month. In addition, even if prepayments occur on the Mortgage Loans at rates falling within the applicable Structuring Range specified above, principal distributions may be insufficient to reduce any such Class to its scheduled balances if such

prepayments do not occur at a *constant* PSA rate. Moreover, because of the diverse remaining terms to maturity of the Mortgage Loans (which may include recently originated Mortgage Loans), the Classes specified above may not be reduced to their scheduled balances, even if prepayments occur at a *constant* rate within the applicable Structuring Ranges specified above.

*Initial Effective Ranges.* The Effective Range for a Class is the range of prepayment rates (measured by *constant* PSA rates) that would reduce such Class to its scheduled balance on each Distribution Date. The Initial Effective Ranges set forth in the table below are based upon the assumed characteristics of the Mortgage Loans specified in the Pricing Assumptions.

<u>Related Classes</u>	<u>Initial Effective Ranges</u>
PA	Between 75% and 920%
PB	Between 75% and 320%
PC	Between 75% and 320%
PD	Between 75% and 320%
PN	Between 75% and 275%
A	Between 145% and 275%
F	Between 145% and 275%

The actual Effective Ranges at any time will be based upon the actual characteristics of the Mortgage Loans at such time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. The actual Effective Ranges calculated on the basis of the actual characteristics likely will differ from the Initial Effective Ranges. As a result, the applicable Classes might not be reduced to their scheduled balances even if prepayments were to occur at a *constant* PSA rate within the Initial Effective Ranges (particularly if such rate were at the lower or higher end of such ranges). In addition, even if prepayments occur at rates falling within the actual Effective Ranges, principal distributions may be insufficient to reduce the applicable Classes to their scheduled balances if such prepayments do not occur at a *constant* PSA rate. It is highly unlikely that the Mortgage Loans will prepay at any *constant* PSA rate. In general, the actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time. The stability in principal payment of the PAC Classes will be supported in part by the Support Classes. When the Support Classes are retired, the PAC Classes, if still outstanding, may no longer have Effective Ranges and will be more sensitive to prepayments.

## Yield Tables

*General.* The tables below indicate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of the applicable Classes to various constant percentages of PSA and, where specified, to changes in the Index. The yields set forth in the tables were calculated by determining the monthly discount rates that, when applied to the assumed streams of cash flows to be paid on the applicable Classes, would cause the discounted present value of such assumed streams of cash flows to equal the assumed aggregate purchase prices of such Classes and converting such monthly rates to corporate bond equivalent rates. Such calculations do not take into account variations that may occur in the interest rates at which investors may be able to reinvest funds received by them as distributions on the Certificates and consequently do not purport to reflect the return on any investment in the Certificates when such reinvestment rates are considered. *There can be no assurance that the pre-tax yields on the Certificates will correspond to any of the pre-tax yields shown herein or that the aggregate purchase prices of the applicable Certificates will be as assumed. In addition, there can be no assurance that the Index will correspond to the levels shown herein. Furthermore, because some of the Mortgage Loans will likely have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal distributions on the Certificates are likely to differ from those assumed, even if all Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is not likely that the Mortgage Loans will prepay at a constant PSA rate until maturity, that all of such Mortgage Loans will prepay at the same rate or that the level of the Index will remain constant.*

*The PI Class.* The yield to investors in the PI Class will be very sensitive to the rate of principal payments (including prepayments) of the Mortgage Loans. The Mortgage Loans generally can be prepaid at any time. On the basis of the assumptions described below, the yield to maturity on the PI Class would be 0% if prepayments of the Mortgage Loans were to occur at a constant rate of approximately 514% PSA. If the actual prepayment rates of the Mortgage Loans were to exceed the applicable level for as little as one month while equaling such level for the remaining months, the investors in the PI Class would not fully recoup their initial investments.

The information set forth in the following table was prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase price of the PI Class (expressed as a percentage of the original principal balance) is as follows:

<u>Class</u>	<u>Price*</u>
PI .....	19.125%

\* The price does not include accrued interest. Accrued interest has been added to such price in calculating the yields set forth in the table below.

### Sensitivity of the PI Class to Prepayments

	<u>PSA Prepayment Assumption</u>				
	<u>50%</u>	<u>75%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>
Pre-Tax Yields to Maturity .....	18.1%	9.2%	9.2%	9.2%	0.9%

*The Inverse Floating Rate Classes and the SD and SE Classes.* The yields to investors in the Inverse Floating Rate Classes and the SD and SE Classes will be sensitive in varying degrees to the rate of principal payments (including prepayments) of the Mortgage Loans and to the level of the Index. The Mortgage Loans generally can be prepaid at any time. In addition, the rate of principal payments (including prepayments) of the Mortgage Loans is likely to vary, and may vary considerably, from Pool to Pool. As indicated in the tables below, it is possible that, under certain Index and prepayment scenarios, investors in the S, SD and SE Classes would not fully recoup their initial investments.

Changes in the Index may not correlate with changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur concurrently with an increased level of the Index.

The information set forth in the following tables was prepared on the basis of the Pricing Assumptions and the assumptions that (i) the interest rates applicable to the Inverse Floating Rate Classes and the SD and SE Classes for the initial Interest Accrual Period are the rates listed in the table under “Reference Sheet—Interest Rates” herein and for each Interest Accrual Period thereafter will be based on the indicated level of the Index and (ii) the aggregate purchase prices of such Classes (expressed in each case as a percentage of original principal balance) are as follows:

<u>Class</u>	<u>Price*</u>
S .....	7.78125%
SB .....	94.50000%
SC .....	93.31250%
SD .....	10.25000%
SE .....	7.53125%

\* The prices do not include accrued interest. Accrued interest has been added to such prices in calculating the yields set forth in the tables below.

**Sensitivity of the S Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>					
	<u>50%</u>	<u>75%</u>	<u>145%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>
3.625% .....	73.5%	73.5%	54.3%	54.3%	54.3%	36.8%
5.625% .....	42.9%	42.7%	19.9%	19.9%	19.9%	(6.1)%
7.625% .....	13.2%	12.0%	(19.6)%	(19.6)%	(19.6)%	(61.5)%
8.700% .....	*	*	*	*	*	*

\* The pre-tax yield to maturity would be less than (99.9)%.

**Sensitivity of the SB Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>				
	<u>50%</u>	<u>75%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>
3.60547% .....	18.2%	18.2%	18.7%	19.8%	21.9%
5.60547% .....	10.4%	10.4%	11.0%	12.2%	14.5%
7.60547% .....	2.9%	3.0%	3.5%	4.9%	7.2%
8.35000% .....	0.2%	0.3%	0.7%	2.2%	4.6%

**Sensitivity of the SC Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>				
	<u>50%</u>	<u>75%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>
3.625% .....	21.0%	21.0%	21.7%	22.9%	25.2%
5.625% .....	10.6%	10.6%	11.3%	12.7%	15.2%
7.700% .....	0.3%	0.3%	0.8%	2.4%	5.2%

**Sensitivity of the SD Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>				
	<u>50%</u>	<u>75%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>
3.60547% .....	50.4%	50.4%	38.4%	17.4%	(43.7)%
5.60547% .....	28.3%	28.3%	16.9%	(11.3)%	(78.1)%
7.60547% .....	5.8%	5.5%	(4.5)%	(49.9)%	*
8.35000% .....	*	*	*	*	*

\* The pre-tax yield to maturity would be less than (99.9)%.

**Sensitivity of the SE Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>				
	<u>50%</u>	<u>75%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>
3.625% .....	58.8%	58.8%	46.7%	27.3%	(32.2)%
5.625% .....	28.8%	28.7%	17.4%	(10.6)%	(77.2)%
7.625% .....	(8.2)%	(9.0)%	(18.2)%	(81.5)%	*
7.700% .....	*	*	*	*	*

\* The pre-tax yield to maturity would be less than (99.9)%.

*The PO Class.* **The PO Class will not bear interest. As indicated in the table below, a low rate of principal payments (including prepayments) on the Mortgage Loans will have a negative effect on the yield to investors in the PO Class.**

The information set forth in the following table was prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase price of the PO Class (expressed as a percentage of original principal balance) is as follows:

<u>Class</u>	<u>Price</u>
PO .....	60.50%

#### Sensitivity of the PO Class to Prepayments

	<u>PSA Prepayment Assumption</u>				
	<u>50%</u>	<u>75%</u>	<u>210%</u>	<u>275%</u>	<u>500%</u>
Pre-Tax Yields to Maturity .....	1.9%	2.0%	6.9%	19.4%	41.8%

#### Weighted Average Lives of the Certificates

The weighted average life of a Certificate is determined by (a) multiplying the amount of the reduction, if any, of the principal balance of such Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date, (b) summing the results and (c) dividing the sum by the aggregate amount of the reductions in principal balance of such Certificate referred to in clause (a). For a description of the factors which may influence the weighted average life of a Certificate, see “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including the timing of changes in such rate of principal payments and the priority sequences of distributions of principal of the Classes. The weighted average lives of the Classes will also depend on the distribution of principal of certain Classes in accordance with the Principal Balance Schedules. See “Distributions of Principal” herein.

The effect of the foregoing factors may differ as to various Classes and the effects on any Class may vary at different times during the life of such Class. Accordingly, no assurance can be given as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their respective original principal balances, variability in the weighted average lives of such Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

## **Decrement Tables**

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each of the dates shown at various constant PSA rates and the corresponding weighted average lives of such Classes. The tables have been prepared on the basis of the Pricing Assumptions, except that with respect to the information set forth for each such Class under 0% PSA it has been assumed that each Mortgage Loan bears interest at a rate of 9.5% per annum and has an original and remaining term to maturity of 360 months.

It is not likely that (i) all of the underlying Mortgage Loans will have the interest rates, CAGEs or remaining terms to maturity assumed or (ii) the underlying Mortgage Loans will prepay at a constant PSA level. In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA rates, even if the distributions of the weighted average remaining terms to maturity and the weighted average CAGEs of the Mortgage Loans are identical to the distributions of the remaining terms to maturity and CAGEs specified in the Pricing Assumptions.

## Percent of Original Principal Balances Outstanding

Date	PA Class					PB, PC and PD Classes					PN Class				
	PSA Prepayment Assumption					PSA Prepayment Assumption					PSA Prepayment Assumption				
	0%	75%	210%	275%	500%	0%	75%	210%	275%	500%	0%	75%	210%	275%	500%

\* Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

\*\* Determined as specified under “Weighted Average Lives of the Certificates” herein.

† In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

## **Characteristics of the R and RL Classes**

The R and RL Classes will not have principal balances and will not bear interest. The Holder of the R Class will be entitled to receive the proceeds of the remaining assets of the Trust, if any, after the principal balances of all Classes have been reduced to zero, and the Holder of the RL Class will be entitled to receive the proceeds of the remaining assets of the Lower Tier REMIC, if any, after the principal balances of the Lower Tier Regular Interests have been reduced to zero. It is not anticipated that there will be any material assets remaining in either such circumstance.

The R and RL Classes will be subject to certain transfer restrictions. No transfer of record or beneficial ownership of an R or RL Certificate will be allowed to a “disqualified organization.” In addition, no transfer of record or beneficial ownership of an R or RL Certificate will be allowed to any person that is not a “U.S. Person” without the written consent of Fannie Mae. Under regulations issued by the Treasury Department (the “Regulations”), a transfer of a “noneconomic residual interest” to a U.S. Person will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R and RL Classes will constitute noneconomic residual interests under the Regulations. Any transferee of an R or RL Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 on which the transferee provides its taxpayer identification number. See “Description of the Certificates—Additional Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates” in the REMIC Prospectus. Transferors of an R or RL Certificate should consult with their own tax advisors for further information regarding such transfers.

The Holder of the R Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Trust, and the Holder of the RL Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Lower Tier REMIC. See “Certain Federal Income Tax Consequences” in the REMIC Prospectus. Pursuant to the Trust Agreement, Fannie Mae will be obligated to provide to such Holders (i) such information as is necessary to enable them to prepare their federal income tax returns and (ii) any reports regarding the R or RL Class that may be required under the Code.

## **CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES**

The following tax discussion, when read in conjunction with the discussion of “Certain Federal Income Tax Consequences” in the REMIC Prospectus, describes the current federal income tax treatment of investors in the Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of investors, some of which may be subject to special rules. Investors should consult their own tax advisors in determining the federal, state, local and any other tax consequences to them of the purchase, ownership and disposition of the Certificates.

## **REMIC Elections and Special Tax Attributes**

Elections will be made to treat the Lower Tier REMIC and the Trust as REMICs for federal income tax purposes. The REMIC Certificates, other than the R and RL Classes, will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust. The Lower Tier Regular Interests will be designated as the “regular interests” and the RL Class will be designated as the “residual interest” in the Lower Tier REMIC.

As a consequence of the qualification of the Lower Tier REMIC and the Trust as REMICs, the REMIC Certificates and any related RCR Certificates generally will be treated as “regular or residual interests in a REMIC” for domestic building and loan associations, “real estate assets” for real estate investment trusts, and, except for the R and RL Classes, as “qualified mortgages” for other REMICS. See “Certain Federal Income Tax Consequences—Special Tax Attributes” in the REMIC Prospectus.

## **Taxation of Beneficial Owners of Regular Certificates**

The Notional Classes will be, and certain other Classes of REMIC Certificates may be, issued with original issue discount (“OID”) for federal income tax purposes, which generally will result in recognition of some taxable income in advance of the receipt of the cash attributable to such income. The Prepayment Assumption that will be used in determining the rate of accrual of original issue discount will be 210% PSA. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Original Issue Discount*” in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at that rate or any other rate. See “Description of the Certificates—Weighted Average Lives of the Certificates” herein and “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus. In addition, certain Classes of REMIC Certificates may be treated as having been issued at a premium for federal income tax purposes. See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Certificates Purchased at a Premium*” in the REMIC Prospectus.

## **Taxation of Beneficial Owners of Residual Certificates**

For purposes of determining the portion of the taxable income of the Trust (or the Lower Tier REMIC) that generally will not be treated as excess inclusions, the rate to be used is 6.95% (which is 120% of the “federal long-term rate”). See “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—*Excess Inclusions*” and “—Foreign Investors—*Residual Certificates*” in the REMIC Prospectus.

## **Taxation of Beneficial Owners of RCR Certificates**

*General.* The arrangement pursuant to which the RCR Classes will be created, sold and administered will be classified as a grantor trust under subpart E, Part I of subchapter J of the Code. The interests in the REMIC Certificates that have been exchanged for RCR Certificates (including any exchanges effective on the Settlement Date) will be the assets of such trust and the RCR Certificates will evidence an ownership interest in those REMIC Certificates. For a general discussion of the federal income tax treatment of investors in REMIC Certificates. See “Certain Federal Income Tax Consequences” in the REMIC Prospectus.

The RCR Classes will represent beneficial ownership of the underlying Regular Certificates set forth in Schedule 1. The RCR Certificates will represent the right to receive a disproportionate part of the principal or interest payments on one or more underlying Regular Certificates (“Strip RCR Certificates”).

*Strip RCR Classes.* A purchaser of a Strip RCR Certificate will be treated as owning, pursuant to section 1286 of the Code, “stripped bonds” to the extent of its share of principal payments and “stripped coupons” to the extent of its share of interest payments on the underlying Regular Certificates. Although it is unclear how the OID computations on a Strip RCR Certificate should be made, Fannie Mae intends to treat each Strip RCR Certificate as a single debt instrument for purposes of information reporting.

A beneficial owner who purchases a Strip RCR Certificate should calculate OID with respect to the Strip RCR Certificate and include such OID in its ordinary income for federal income tax purposes as it accrues, which may be prior to the receipt of the cash attributable to such income, in accordance with a constant yield method that takes into account the compounding of interest. Although the matter is not entirely clear, a beneficial owner of a Strip RCR Certificate should accrue OID using a method similar to that described with respect to the accrual of OID on a Regular Certificate under “Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Original Issue Discount*” in the REMIC Prospectus. A beneficial owner, however, determines its yield to maturity based on its purchase price and on a schedule of payments projected using a prepayment assumption. A beneficial owner then makes periodic adjustments to take into account actual prepayment experience. With respect to a particular beneficial owner, it is not clear whether the

prepayment assumption used for calculating OID would be one determined at the time of purchase of the Strip RCR Certificate or would be the original Prepayment Assumption with respect to the underlying Regular Certificates. Investors should consult their own tax advisors regarding this matter. For purposes of information reporting relating to OID, Fannie Mae will use the original yield to maturity of the Strip RCR Certificate, calculated based on the original Prepayment Assumption.

An investor that exchanges an underlying Regular Certificate for Strip RCR Classes and then sells Strip RCR Certificates also is subject to the coupon stripping rules of section 1286 of the Code. As of the date of such sale, the beneficial owner must allocate its basis in the Regular Certificate between the part of the Regular Certificate underlying the Strip RCR Certificates sold and the part of the Regular Certificate underlying the Strip RCR Certificates retained in proportion to their relative fair market values. Section 1286 of the Code treats the beneficial owner as purchasing the Strip RCR Certificates retained for the amount of the basis allocated to such Certificates. The beneficial owner calculates OID with respect to such retained Certificates as described above.

Upon the sale of the Strip RCR Certificates, the investor will realize gain or loss on the sale of its part of the underlying Regular Certificates in an amount equal to the difference between the amount realized and its adjusted basis in such part. The seller's adjusted basis in such part generally is equal to the seller's allocated cost of such part, increased by income previously included, and reduced (but not below zero) by distributions previously received and by any amortized premium in respect of such part. If a beneficial owner holds the Certificates as a capital asset, any gain or loss realized will be capital gain or loss, except to the extent provided under "Certain Federal Income Tax Consequences—Sales of Certificates" in the REMIC Prospectus.

Although the matter is not free from doubt, an investor that acquires in one transaction a combination of Strip RCR Certificates that may be exchanged for underlying Regular Certificates should be treated as owning the underlying Regular Certificates. If an investor acquires such a combination in separate transactions, the law is unclear as to whether the combination should be aggregated or each Strip RCR Certificate should be treated as a separate debt instrument.

*Exchanges.* An exchange, as described under "Description of the Certificates—Combination and Recombination" herein, by a beneficial owner of (i) a REMIC Certificate or (ii) all or a portion of an RCR Class for the related RCR Classes or REMIC Certificate, respectively, will not be a taxable exchange. Such owner will be treated as continuing to own after the exchange the same combination of interests in the related REMIC Certificates that it owned immediately prior to the exchange.

## **PLAN OF DISTRIBUTION**

*General.* The Dealer will receive the Certificates in exchange for the MBS pursuant to a Fannie Mae commitment. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect such transactions to or through dealers.

*Increase in Certificates.* Before the Settlement Date, Fannie Mae and the Dealer may agree to offer hereby Certificates in addition to those contemplated as of the date hereof. In such event, the MBS will be increased in principal balance, but it is expected that all such additional MBS will have the same characteristics as described herein under "Description of the Certificates—The MBS." The proportion that the original principal balance of each Class bears to the aggregate original principal balance of all Classes will remain the same. In addition, the dollar amounts reflected in the Principal Balance Schedules will be increased in a pro rata amount that corresponds to the increase of the principal balances of the applicable Classes.

## **LEGAL MATTERS**

Certain legal matters will be passed upon for the Dealer by Cleary, Gottlieb, Steen & Hamilton.

# Schedule 1
