**FannieMae**

## Guaranteed REMIC Pass-Through Certificates Fannie Mae REMIC Trust 1999-5

### The Certificates

We, the Federal National Mortgage Association (“Fannie Mae”), will issue the classes of certificates listed in the chart on this page.

### Payments to Certificateholders

We will make monthly payments on the certificates. You, the investor, will receive

- interest accrued on the balance of your certificate (except in the case of an accrual class), and
- principal to the extent available for payment on your class.

We may pay principal at rates which vary from time to time. We may not pay principal to certain classes for long periods of time.

### The Fannie Mae Guaranty

We will guarantee that required payments of principal and interest on the certificates are distributed to investors on time.

### The Trust and its Assets

The trust will indirectly own Fannie Mae MBS.

The mortgage loans underlying the Fannie Mae MBS are first lien, single-family, fixed-rate loans.

Class	Original Class Balance	Principal Type	Interest Rate	Interest Type	CUSIP Number	Final Distribution Date

(1) Exchangeable classes.

(2) Notional balances. These are interest only classes.

(3) Based on LIBOR.

(4) Principal only class.

If you own certificates of certain classes, you can exchange them for other certificates to be issued at the time of the exchange.

The dealer will offer the certificates from time to time in negotiated transactions at varying prices. We expect the settlement date to be January 29, 1999.

**Carefully consider the risk factors starting on page S-8 of this prospectus supplement and on page 10 of the REMIC prospectus. Unless you understand and are able to tolerate these risks, you should not invest in the certificates.**

You should read the REMIC prospectus as well as this prospectus supplement.

The certificates, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any agency or instrumentality thereof other than Fannie Mae.

The certificates are exempt from registration under the Securities Act of 1933 and are “exempted securities” under the Securities Exchange Act of 1934.

**NOMURA SECURITIES INTERNATIONAL, INC.**

## AVAILABLE INFORMATION

You should purchase the certificates only if you have read and understand this prospectus supplement and the following documents (the “Disclosure Documents”):

- our Prospectus for Guaranteed REMIC Pass-Through Certificates dated September 18, 1998 (the “REMIC Prospectus”);
- our Prospectus for Guaranteed Mortgage Pass-Through Certificates dated October 1, 1998 (the “MBS Prospectus”); and
- our Information Statement dated March 31, 1998 and its supplements (the “Information Statement”).

You can obtain the Disclosure Documents by writing or calling us at:

Fannie Mae  
MBS Helpline  
3900 Wisconsin Avenue, N.W., Area 2H-3S  
Washington, D.C. 20016  
(telephone 1-800-237-8627 or 202-752-6547).

Most of the Disclosure Documents, together with the class factors, are available on our website located at <http://www.fanniemae.com>.

You can also obtain the Disclosure Documents by writing or calling the dealer at:

Nomura Securities International, Inc.  
Prospectus Department  
Two World Financial Center  
Street Level Mail Room  
New York, New York 10281-1198  
(telephone 212-667-9607).

## REFERENCE SHEET

This reference sheet is not a summary of the transaction and does not contain complete information about the certificates. You should purchase the certificates only after reading this prospectus supplement and each of the additional disclosure documents listed on page S-3.

### Assumed Characteristics of the Mortgage Loans underlying the MBS (as of January 1, 1999)

<u>Approximate Principal Balance</u>	<u>Original Term to Maturity (in months)</u>	<u>Approximate Weighted Average Remaining Term to Maturity (in months)</u>	<u>Approximate Calculated Loan Age (in months)</u>	<u>Approximate Weighted Average Coupon</u>
\$165,000,000	360	357	3	7.08%
50,000,000	360	344	14	7.06%
120,000,000	360	358	2	6.86%
165,000,000	360	358	2	7.10%

The actual remaining terms to maturity, calculated loan ages and interest rates of most of the mortgage loans will differ from the weighted averages shown above, perhaps significantly.

### Class Factors

The class factors are numbers that, when multiplied by the initial principal balance of a certificate, can be used to calculate the current principal balance of that certificate (after taking into account payments in the same month). We publish the class factors on or shortly after the 11th day of each month.

### Settlement Date

We expect to issue the certificates on January 29, 1999.

### Distribution Dates

We will make payments on the classes of certificates on the 25th day of each calendar month, or on the next business day if such day is not a business day.

### Book-Entry and Physical Certificates

We issue book-entry certificates through the U.S. Federal Reserve Banks, which will electronically track ownership of the certificates and payments on them. We will issue physical certificates in registered, certificated form.

We will issue the classes of certificates in the following forms:

<u>Fed Book-Entry</u>	<u>Physical</u>
All classes other than the R and RL Classes	R and RL Classes

### Exchanging Certificates Through Combination and Recombination

If you own certain certificates, you will be able to exchange them for a proportionate interest in the related RCR certificates as shown on Schedule 1. We will issue the RCR certificates upon such exchange. You can exchange your certificates by notifying us and paying an exchange fee. We use the principal and interest of the certificates exchanged to pay principal and interest on the related RCR

certificates. Schedule 1 lists all of the available combinations of the certificates eligible for exchange and the related RCR certificates.

## Interest Rates

During each interest accrual period, the fixed rate classes will accrue interest at the applicable annual interest rates listed on the cover.

During the initial interest accrual period, the floating rate and inverse floating rate classes will bear interest at the initial interest rates listed below. During subsequent interest accrual periods, these classes will bear interest based on the formulas indicated below, but always subject to the specified maximum and minimum interest rates:

<u>Class</u>	<u>Initial Interest Rate</u>	<u>Maximum Interest Rate</u>	<u>Minimum Interest Rate</u>	<u>Formula for Calculation of Interest Rate (1)</u>
F .....	5.95000%	8.00000%	0.95%	LIBOR + 95 basis points
S .....	11.07000%	38.07000%	0.00%	$38.07\% - (5.4 \times \text{LIBOR})$
SA .....	11.07000%	38.07000%	0.00%	$38.07\% - (5.4 \times \text{LIBOR})$
SB .....	11.19512%	44.12195%	0.00%	$44.12195\% - (6.585366 \times \text{LIBOR})$
SC .....	10.50000%	10.50000%	0.00%	$211.5\% - (30 \times \text{LIBOR})$

(1) We will establish LIBOR on the basis of the “BBA Method.”

See “Description of the Certificates—Distributions of Interest—*Floating Rate and Inverse Floating Rate Classes*” herein.

We will apply interest payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

## Notional Classes

A notional class will not receive any principal. Its notional principal balance is the balance used to calculate accrued interest. The notional principal balances will equal the percentage of the outstanding balances specified below immediately before the related distribution date:

<u>Class</u>	
PX .....	11.5384615385% of the PJ, PB and PC Classes
PV .....	7.6923076923% of the PD Class
PW .....	11.5384615385% of the PA Class
IO .....	3.8461538462% of the A Class
PU .....	11.5384615385% of the PA, PJ, PB and PC Classes

See “Description of the Certificates—Distributions of Interest—*Notional Classes*” and “—Yield Tables—*The PX, PV, PW, IO and PU Classes*” herein.

## Distributions of Principal

### *Principal Distribution Amount*

#### *ZA Accrual Amount*

To the Segment Group to its Targeted Balance, and then to the ZA Class.

#### *ZB Accrual Amount*

1. To the Segment Group to its Targeted Balance.
2. To the ZA Class to zero, and then to the ZB Class.

*Cash Flow Distribution Amount*

1. To the PA, PJ, PB, PC, PD, PN, PQ and PT Classes, in that order, to their Planned Balances.
2. To the Segment Group to its Targeted Balance.
3. To the ZA and ZB Classes, in that order, to zero.
4. To the Segment Group to zero.
5. To the PA, PJ, PB, PC, PD, PN, PQ and PT Classes, in that order, to zero.

We will apply principal payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

For a description of the Segment Group, see “Description of the Certificates—Distributions of Principal” in this prospectus supplement.

\* Determined as specified under “Description of the Certificates—Weighted Average Lives of the Certificates” herein.

## ADDITIONAL RISK FACTORS

*The rate of principal payments on the certificates will be affected by payments on the underlying mortgage loans.* The rate that you receive principal payments on the certificates will be sensitive to the rate of principal payments on the mortgage loans underlying the MBS, including prepayments. Because borrowers generally may prepay their mortgage loans at any time without penalty, the rate of principal payments on the mortgage loans is likely to vary over time. It is highly unlikely that the mortgage loans will prepay

- at the prepayment rates we assumed, or
- at a constant prepayment rate until maturity.

*Yields may be lower than expected due to unexpected rate of principal payments.* The actual yield on your certificates probably will be lower than you expect:

- if you bought your certificates at a premium and principal payments are faster than you expected, or
- if you bought your certificates at a discount and principal payments are slower than you expected.

Furthermore, in the case of interest only certificates and certificates purchased at a premium, you could lose money on your investment if prepayments occur at a rapid rate.

**You must make your own decisions about the various applicable assumptions, including prepayment assumptions, when deciding whether to purchase the certificates.**

*Weighted average lives and yields on the certificates are affected by actual characteristics of the underlying mortgage loans.* We have assumed that the mortgage loans underlying the MBS have certain characteristics. However, the actual mortgage loans probably will have different characteristics from those we assumed. As a result, your yields could be lower than you expect, even if the mortgage loans prepay at the indicated constant prepayment rates. In addition, slight differences between the assumed mortgage loan characteristics and the actual mortgage loans could affect the weighted average lives of the classes of certificates.

*Level of floating rate index affects yields on certain certificates.* The yield on any floating rate or inverse floating rate certificate will be affected by the level of its interest rate index. If the level of the index differs from the level you expect, then your actual yield may be lower than you expect.

*Delay classes have lower yields and market values.* Since certain classes do not receive interest immediately following each interest accrual period, these classes have lower yields and lower market values than they would if there were no such delay.

*Reinvestment of certificate payments may not achieve same yields as certificates.* The rate of principal payments of the certificates is uncertain. You may be unable to reinvest the payments on the certificates at the same yields provided by the certificates.

*Unpredictable timing of last payment affects yields on certificates.* The actual final payment of your class is likely to occur earlier, and could occur much earlier, than the final distribution date listed on the cover page. If you assumed the actual final payment will occur on the final distribution date specified, your yield could be lower than you expect.

*Some investors may be unable to buy certain classes.* Investors whose investment activities are subject to legal investment laws and regulations, or to review by regulatory authorities, may be unable to buy certain certificates. You should get legal advice to determine whether you may purchase the certificates.

*Uncertain market for the certificates could make them difficult to sell and cause their values to fluctuate.* We cannot be sure that a market for resale of the certificates will develop. Further, if a market develops, it may not continue or be sufficiently liquid to allow you to sell your certificates. Even if you are able to sell your certificates, the sale price may not be comparable to similar investments that have a developed market. Moreover, you may not be able to sell small or large amounts of certificates at prices comparable to those available to other investors. You should purchase certificates only if you understand and can tolerate the risk that the value of your certificates will vary over time and that your certificates may not be easily sold.

## DESCRIPTION OF THE CERTIFICATES

The material under this heading summarizes certain features of the Certificates. You will find additional information about the Certificates in the other sections of this Prospectus Supplement, as well as in the additional Disclosure Documents and the Trust Agreement. If we use a capitalized term in this Prospectus Supplement without defining it, you will find the definition of such term in the applicable Disclosure Documents or in the Trust Agreement.

### General

*Structure.* We will create the Fannie Mae REMIC Trust specified on the cover (the “Trust”) and a separate trust (the “Lower Tier REMIC”) pursuant to a trust agreement dated as of January 1, 1999 (the “Trust Agreement”). We will execute the Trust Agreement in our corporate capacity and as trustee (the “Trustee”). We will issue the Guaranteed REMIC Pass-Through Certificates (the REMIC “Certificates”) and the Combinable and Recombinable REMIC Certificates (the “RCR Certificates”) and, together with the REMIC Certificates, the “Certificates”) pursuant to the Trust Agreement. In general, the term “Classes” includes the Classes of REMIC Certificates and RCR Certificates.

The Trust and the Lower Tier REMIC each will constitute a “real estate mortgage investment conduit” (“REMIC”) under the Internal Revenue Code of 1986, as amended (the “Code”).

- The Certificates (except the R and RL Classes) will be “regular interests” in the Trust.
- The R Class will be the “residual interest” in the Trust.
- The interests in the Lower Tier REMIC other than the RL Class (the “Lower Tier Regular Interests”) will be the “regular interests” in the Lower Tier REMIC.
- The RL Class will be the “residual interest” in the Lower Tier REMIC.

The assets of the Trust will consist of the Lower Tier Regular Interests. The assets of the Lower Tier REMIC will consist of certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the “MBS”).

Each MBS represents a beneficial ownership interest in a pool (each, a “Pool”) of first lien, single-family, fixed-rate residential mortgage loans (the “Mortgage Loans”) having the characteristics described herein.

*Fannie Mae Guaranty.* We guarantee that we will distribute to Certificateholders:

- required installments of principal and interest on the Certificates on time, and
- the principal balance of each Class of Certificates no later than its Final Distribution Date, whether or not we have received sufficient payments on the MBS.

In addition, we guarantee that we will distribute to each holder of an MBS:

- scheduled installments of principal and interest on the underlying Mortgage Loans on time, whether or not the related borrowers pay us, and
- the full principal balance of any foreclosed Mortgage Loan, whether or not we recover it.

*Characteristics of Certificates.* We will issue the Certificates (except the R and RL Classes) in book-entry form on the book-entry system of the U.S. Federal Reserve Banks. Entities whose names appear on the book-entry records of a Federal Reserve Bank as having had Certificates deposited in their accounts are “Holders” or “Certificateholders.” A Holder is not necessarily the beneficial owner of a Certificate. Beneficial owners ordinarily will hold Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See “Description of the Certificates—Denominations, Certificate Form” in the REMIC Prospectus.

We will issue the R and RL Certificates in fully registered, certificated form. The “Holder” or “Certificateholder” of the R or RL Certificate is its registered owner. The R or RL Certificate can be transferred at the corporate trust office of the Transfer Agent, or at the office of the Transfer Agent in New York, New York. State Street Bank and Trust Company in Boston, Massachusetts (“State Street”) will be the initial Transfer Agent. We may impose a service charge for any registration of transfer of the R or RL Certificate and may require payment to cover any tax or other governmental charge. See also “Characteristics of the R and RL Classes”.

The Holder of the R Class will receive the proceeds of any remaining assets of the Trust, and the Holder of the RL Class will receive the proceeds of any remaining assets of the Lower Tier REMIC, in each case only by presenting and surrendering the related Certificate at the office of the Paying Agent. State Street will be the initial Paying Agent.

*Authorized Denominations.* We will issue the Certificates, other than the R and RL Certificates, in minimum denominations of \$1,000 and whole dollar increments. We will issue the R and RL Classes as single Certificates with no principal balances.

*Distribution Date.* We will make monthly payments on the 25th day of each month (or, if the 25th is not a business day, on the first business day after the 25th). We refer to such date as the “Distribution Date.” We will make the first payments to Certificateholders the month after we issue the Certificates.

*Record Date.* On each Distribution Date, we will make each monthly payment on the Certificates to Holders of record on the last day of the preceding month.

*Class Factors.* On or shortly after the eleventh calendar day of each month, we will publish a factor (carried to eight decimal places) for each Class of Certificates. When the factor is multiplied by the original principal balance (or notional principal balance) of a Certificate of that Class, the product will equal the current principal balance (or notional principal balance) of that Certificate after taking into account payments on the Distribution Date in the same month (as well as any addition to principal in the case of an Accrual Class).

*Optional Termination.* We will not terminate the Lower Tier REMIC or the Trust by exercising our right to repurchase the Mortgage Loans underlying any MBS unless:

- only one Mortgage Loan remains in the related Pool, or
- the principal balance of the Pool is less than one percent of its original level.

See “Description of Certificates—Termination” in the MBS Prospectus.

## **Combination and Recombination**

*General.* You are permitted to exchange all or a portion of the PB, PC, PD, PN, PQ, PX, PV and PW Classes of REMIC Certificates for a proportionate interest in the related Combinable and Recombinable REMIC Certificates (“RCR Certificates”) in the combinations shown on Schedule 1. You also may exchange all or a portion of the RCR Certificates for the related REMIC Certificates in the same manner. This process may occur repeatedly.

Holders of RCR Certificates will be the beneficial owners of a proportionate interest in the related REMIC Certificates and will receive a proportionate share of the distributions on the related REMIC Certificates.

The Classes of REMIC Certificates and RCR Certificates that are outstanding at any given time, and the outstanding principal balances (or notional principal balances) of these Classes, will depend upon any related distributions of principal, as well as any exchanges that occur. The principal balances and/or notional principal balances of the REMIC Certificates and RCR Certificates involved in any exchange will bear the same relationship as that borne by the original principal balances and/or original notional principal balances of the related Classes.

*Procedures.* If a Certificateholder wishes to exchange Certificates, the Certificateholder must notify our Structured Transactions Department through one of our “REMIC Dealer Group” dealers in writing or by telefax no later than two business days before the proposed exchange date. The exchange date can be any business day other than the first or last business day of the month subject to our approval. The notice must include the outstanding principal balance of both the Certificates to be exchanged and the Certificates to be received, and the proposed exchange date. After receiving the Holder’s notice, we will telephone the dealer with delivery and wire payment instructions. Notice becomes irrevocable on the second business day before the proposed exchange date.

In connection with each exchange, the Holder must pay us a fee equal to 1/32 of 1% of the outstanding principal balance (exclusive of any notional principal balance) of the Certificates to be exchanged. In no event, however, will our fee be less than \$2,000.

We will make the first distribution on a REMIC Certificate or an RCR Certificate received in an exchange transaction on the Distribution Date in the following month. We will make such distribution to the Holder of record as of the close of business on the last day of the month of the exchange.

*Additional Considerations.* The characteristics of RCR Certificates will reflect the characteristics of the REMIC Certificates used to form such RCR Certificates. You should also consider a number of factors that will limit a Certificateholder’s ability to exchange REMIC Certificates for RCR Certificates or vice versa:

- At the time of the proposed exchange, a Certificateholder must own Certificates of the related Class or Classes in the proportions necessary to make the desired exchange.
- A Certificateholder that does not own the Certificates may be unable to obtain the necessary REMIC Certificates or RCR Certificates.
- The Certificateholder of needed Certificates may refuse to sell them at a reasonable price (or any price) or may be unable to sell them.
- Certain Certificates may have been purchased and placed into other financial structures and thus be unavailable.
- Principal distributions will decrease the amounts available for exchange over time.
- Only the combinations listed on Schedule 1 are permitted.

## **The MBS**

The following table contains certain information about the MBS. The MBS will have the aggregate unpaid principal balance and Pass-Through Rate shown below and the general characteristics described in the MBS Prospectus. The MBS will provide that principal and interest on the related Mortgage Loans will be passed through monthly, beginning in the month after we issue the MBS. The Mortgage Loans underlying the MBS will be conventional Level Payment Mortgage Loans secured by first mortgages or deeds of trust on one- to four-family (“single-family”) residential properties. These Mortgage Loans will have original maturities of up to 30 years. See “The Mortgage Pools” and “Yield Considerations” in the MBS Prospectus. We expect the characteristics of the MBS and the related Mortgage Loans as of January 1, 1999 (the “Issue Date”) to be as follows:

Aggregate Unpaid Principal Balance .....	\$500,000,000
MBS Pass-Through Rate .....	6.50%
<b>Related Mortgage Loans</b>	
Range of WACs (per annum percentages) .....	6.75% to 9.00%
Range of WAMs .....	241 months to 360 months
Approximate Weighted Average WAM .....	356 months
Approximate Weighted Average CAGE .....	4 months

## Final Data Statement

After issuing the Certificates, we will prepare a Final Data Statement containing certain information, including the Pool number, the current WAC (or original WAC, if the current WAC is not available) and the current WAM (or Adjusted WAM, if the current WAM is not available) of the Mortgage Loans underlying the MBS. The Final Data Statement will also include the weighted averages of all the current or original WACs and the weighted averages of all the current or Adjusted WAMs, based on the current unpaid principal balances of the Mortgage Loans underlying the MBS as of the Issue Date. You may obtain the Final Data Statement by telephoning us at 1-800-237-8627 or 202-752-6547. The contents of the Final Data Statement and other data specific to the Certificates are available in electronic form by calling us at 1-800-752-6440 or 202-752-6000.

## Distributions of Interest

### *Categories of Classes*

For the purpose of interest payments, the Classes will be categorized as follows:

<u>Interest Type*</u>	<u>Classes</u>
Fixed Rate	PA, PJ, PB, PC, PD, PN, PQ, PT, PX, PV, PW, IO, A, ZA and ZB
Accrual	ZA and ZB
Floating Rate	F
Inverse Floating Rate	S, SA, SB and SC
Interest Only	PX, PV, PW and IO
Principal Only	PO
RCR**	PU, PL and PE
No Payment Residual	R and RL

\* See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

\*\* See "Description of the Certificates—Combination and Recombination" herein and Schedule 1 for a further description of the RCR Classes.

*General.* We will pay interest on the interest-bearing Certificates at the applicable annual interest rates shown on the cover or described in this prospectus supplement. We calculate interest based on a 360-day year consisting of twelve 30-day months. We pay interest monthly (except in the case of the Accrual Classes) on each Distribution Date, beginning in the month after the Settlement Date specified in the Reference Sheet.

Interest to be paid (or added to principal, in the case of the Accrual Classes) on each Certificate on a Distribution Date will consist of one month's interest on the outstanding balance of that Certificate immediately prior to such Distribution Date. For a description of the Accrual Classes, see "Accrual Classes."

Interest payments on exchangeable REMIC Certificates will be applied to the corresponding RCR Certificates, on a pro rata basis, following any exchange.

*Interest Accrual Period.* Interest to be paid on each Distribution Date will accrue on the interest-bearing Certificates during the one-month period set forth below (an “Interest Accrual Period”).

<u>Classes</u>	<u>Interest Accrual Period</u>
All Classes of interest-bearing Certificates (collectively, the “Delay Classes”)	Calendar month preceding the month in which the Distribution Date occurs

See “Additional Risk Factors—Additional Yield and Prepayment Considerations.”

We will treat the PO Class as a Delay Class for the sole purpose of facilitating trading.

*Accrual Classes.* The ZA and ZB Classes are Accrual Classes. Interest will accrue on the Accrual Classes at the applicable annual rates listed on the cover. However, we will not pay any interest on the Accrual Classes. Instead, interest accrued and unpaid on each Accrual Class on any Distribution Date will be added as principal to its principal balance. We will pay principal on the Accrual Classes as described under “Distributions of Principal” below.

*Notional Classes.* The Notional Classes will not have principal balances. During each Interest Accrual Period, the Notional Classes will bear interest on their notional principal balances at their applicable interest rates. The notional principal balances of the Notional Classes will be calculated as indicated under “Reference Sheet—Notional Classes.”

We use the notional principal balance of a Notional Class to determine interest payments on that Class. Although a Notional Class will not have a principal balance and will not be entitled to any principal payments, we will publish a class factor for that Class. References in this prospectus supplement to the principal balances of the Certificates generally shall refer also to the notional principal balances of the Notional Classes.

*Floating Rate and Inverse Floating Rate Classes.* During each Interest Accrual Period, the Floating Rate and Inverse Floating Rate Classes will bear interest at rates determined as described under “Reference Sheet—Interest Rates.”

Changes in the specified interest rate index (the “Index”) will affect the yields with respect to these Classes. These changes may not correspond to changes in mortgage interest rates. Lower mortgage interest rates could occur while an increase in the level of the Index occurs. Similarly, higher mortgage interest rates could occur while a decrease in the level of the Index occurs.

Our establishment of each Index value and our determination of the interest rate for each applicable Class for the related Interest Accrual Period will be final and binding in the absence of manifest error. You may obtain each such interest rate by telephoning us at 1-800-237-8627 or 202-752-6547.

## **Calculation of LIBOR**

On each Index Determination Date, we will calculate LIBOR for the related Interest Accrual Period. We will calculate LIBOR on the basis of the “BBA Method,” as described in the REMIC Prospectus under “Description of the Certificates—Indices Applicable to Floating Rate and Inverse Floating Rate Classes—*LIBOR*.”

If we are unable to so calculate LIBOR on the initial Index Determination Date, LIBOR for the following Interest Accrual Period will be equal to 5.00%.

## Distributions of Principal

### *Categories of Classes*

For the purpose of principal payments, the Classes fall into the following categories:

<u>Principal Type*</u>	<u>Classes</u>
PAC	PA, PJ, PB, PC, PD, PN, PQ and PT
Segment (TAC) /Scheduled	A
Segment (TAC) /Support	F, S, SA, SB, SC and PO
Support	ZA and ZB
Accretion Directed	A, PO, F, S, SA, SB, SC and ZA
Notional	PX, PV, PW and IO
RCR**	PU, PL and PE
No Payment Residual	R and RL

\* See “Description of the Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus.

\*\* See “Description of the Certificates—Combination and Recombination” herein and Schedule 1 for a further description of the RCR Classes.

### *Principal Distribution Amount*

On the Distribution Date in each month, we will pay principal on the Certificates in an aggregate amount (the “Principal Distribution Amount”) equal to the principal then paid on the MBS (the “Cash Flow Distribution Amount”) plus any interest then accrued and added to the principal balances of the ZA Class (the “ZA Accrual Amount”) and the ZB Class (the “ZB Accrual Amount”).

#### *ZA Accrual Amount*

On each Distribution Date, we will pay the ZA Accrual Amount as principal of the Segment Group (as described below), until the Segment Group Balance (as described below) is reduced to its Targeted Balance for such Distribution Date. Thereafter, we will pay the ZA Accrual Amount as principal of the ZA Class.

#### *ZB Accrual Amount*

On each Distribution Date, we will pay the ZB Accrual Amount as principal to the Group and Classes specified below in the following priority:

- (i) to the Segment Group, until the Segment Group Balance is reduced to its Targeted Balance for such Distribution Date;
- (ii) to the ZA Class, until its principal balance is reduced to zero, and thereafter to the ZB Class.

#### *Cash Flow Distribution Amount*

On each Distribution Date, we will pay the Cash Flow Distribution Amount as principal of the Classes and Group specified below in the following priority:

- (i) sequentially, to the PA, PJ, PB, PC, PD, PN, PQ and PT Classes, in that order, until their principal balances are reduced to their Planned Balances for such Distribution Date;
- (ii) to the Segment Group, until the Segment Group Balance is reduced to its Targeted Balance for such Distribution Date;

- |   |                      |
|---|----------------------|
| (iii) sequentially, to the ZA and ZB Classes, until their principal balances are reduced to zero;   | } Support<br>Classes |
|   |                      |
| (iv) to the Segment Group, without regard to its Targeted Balance and until the Segment Group Balance is reduced to zero; and   | } TAC<br>Group       |
|   |                      |
| (v) to the PA, PJ, PB, PC, PD, PN, PQ and PT Classes, in that order, without regard to their Planned Balances and until their principal balances are reduced to zero. | } PAC<br>Classes     |
|   |                      |

The “Segment Group” consists of the A, PO, F, S, SA, SB and SC Classes. We will apply payments of principal of the Segment Group as follows:

*first*, to the A Class, until its principal balance is reduced to its Scheduled Balance for such Distribution Date;

*second*, (a) 96.0968579707% of the remaining amount to the PO, F and S Classes, pro rata (or 3.8541374408%, 84.5501085717% and 11.5957539875%, respectively), until their principal balances are reduced to zero, and

(b) 3.9031420293% of such remaining amount in the following priority:

(i) to the SA Class, until its principal balance is reduced to zero; and

(ii) concurrently, to the SB and SC Classes, pro rata (or 82.00% and 18.00%, respectively), until their principal balances are reduced to zero; and

*third*, to the A Class, without regard to its Scheduled Balance and until its principal balance is reduced to zero.

The “Segment Group Balance” for any Distribution Date is equal to \$166,613,000 minus the sum of all principal amounts previously applied to it as specified above.

## Structuring Assumptions

*Pricing Assumptions.* Except where otherwise noted, the information in the tables in this prospectus supplement has been prepared based on the following assumptions (collectively, the “Pricing Assumptions”):

- the Mortgage Loans underlying the MBS have the original terms to maturity, remaining terms to maturity, CAGEs and interest rates specified under “Reference Sheet—Assumed Characteristics of the Mortgage Loans underlying the MBS”;
- the Mortgage Loans prepay at the constant percentages of PSA specified in the related tables; and
- the settlement date for the sale of the Certificates is January 29, 1999.

*Prepayment Assumptions.* Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used here is The Bond Market Association’s standard prepayment model (“PSA”). To assume a specified rate of PSA is to assume a specified rate of prepayment each month of the then-outstanding principal balance of a pool of new mortgage loans computed as described under “Description of the Certificates—Prepayment Models” in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any *constant* PSA rate or at any other constant rate.

*Structuring Ranges and Rate.* The Principal Balance Schedules are found beginning on page B-1. The Principal Balance Schedules have been prepared on the basis of the Pricing Assumptions and

the assumption that the Mortgage Loans will prepay within the applicable ranges or at the applicable rate set forth below.

<u>Principal Balance Schedule References</u>	<u>Related Classes and Group (1)</u>	<u>Structuring Ranges and Rate</u>
Planned Balances	PA, PJ, PB, PC, PD, PN, PQ, PT, PL and PE	Between 100% and 250%
Scheduled Balances	A	Between 175% and 189%
Targeted Balances	Segment Group	150%

(1) The Structuring Rate for the Segment Group is associated with the Segment Group Balance but not with the individual balances of the related Classes.

**We cannot assure you that the balance of any Class or Group listed above will conform on any Distribution Date to the specified balance in the Principal Balance Schedules. As a result, we cannot assure you that payments of principal of any Class or Group listed above will begin or end on the Distribution Dates specified in the Principal Balance Schedules.** We will distribute any excess of principal payments over the amount needed to reduce a Class or Group to its scheduled balance on a Distribution Date. Accordingly, the ability to reduce a Class or Group to its scheduled balance will not be improved by the averaging of high and low principal payments from month to month. In addition, even if the related Mortgage Loans prepay at rates falling within the applicable Structuring Range, principal distributions may be insufficient to reduce the applicable Class to its scheduled balance if such prepayments do not occur at a *constant* PSA rate. Moreover, because of the diverse remaining terms to maturity of the Mortgage Loans, which may include recently originated Mortgage Loans, the Classes and Group specified above may not be reduced to their scheduled balances, even if prepayments occur within the applicable Structuring Ranges or at the applicable rate specified above.

*Initial Effective Ranges.* The Effective Range for a Class is the range of prepayment rates (measured by *constant* PSA rates) that would reduce such Class to its scheduled balance on each Distribution Date. The Initial Effective Ranges shown in the table below are based upon the assumed characteristics of the Mortgage Loans specified in the Pricing Assumptions.

<u>Classes</u>	<u>Initial Effective Ranges</u>
PA	Between 100% and 625%
PJ	Between 100% and 435%
PB	Between 100% and 322%
PC	Between 100% and 291%
PD	Between 100% and 257%
PN	Between 100% and 250%
PQ	Between 73% and 250%
PT	Between 35% and 250%
PL	Between 100% and 250%
PE	Between 100% and 291%
A	Between 175% and 189%

The actual Effective Ranges at any time will be based upon the actual characteristics of the Mortgage Loans at that time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. The actual Effective Ranges calculated on the basis of the actual characteristics are likely to differ from the Initial Effective Ranges. As a result, the applicable Classes might not be reduced to their scheduled balances even if prepayments were to occur at a *constant* PSA rate within the Initial Effective Ranges (particularly if such rate were at the lower or higher end of such ranges). In addition, even if prepayments occur at rates falling within the actual Effective Ranges, principal distributions may be insufficient to reduce the applicable Classes to their scheduled balances if such prepayments do not occur at a *constant* PSA rate. It is highly unlikely that the Mortgage Loans will

prepay at any *constant* PSA rate. In general, the actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time. The stability in principal payment of the PAC and Scheduled Classes will be supported in part by the related TAC Group and Support Classes. When the related TAC Group and Support Classes are retired, any outstanding PAC or Scheduled Class may no longer have an Effective Range and will be more sensitive to prepayments.

## Yield Tables

*General.* The tables below illustrate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of the applicable Classes to various constant percentages of PSA and, where specified, to changes in the Index. We calculated the yields set forth in the tables by

- determining the monthly discount rates that, when applied to the assumed streams of cash flows to be paid on the applicable Classes, would cause the discounted present values of such assumed streams of cash flows to equal the assumed aggregate purchase prices of such Classes, and
- converting such monthly rates to corporate bond equivalent rates.

These calculations do not take into account variations in the interest rates at which you could reinvest distributions on the Certificates. Accordingly, these calculations do not illustrate the return on any investment in the Certificates when such reinvestment rates are taken into account.

We cannot assure you that

- the pre-tax yields on the applicable Certificates will correspond to any of the pre-tax yields shown here, or
- the aggregate purchase prices of the applicable Certificates will be as assumed.

In addition, it is unlikely that the Index will correspond to the levels shown here. Furthermore, because some of the Mortgage Loans are likely to have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal payments on the Certificates are likely to differ from those assumed. This would be the case even if all Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is unlikely that

- the Mortgage Loans will prepay at a constant PSA rate until maturity,
- all of such Mortgage Loans will prepay at the same rate, or
- the level of the Index will remain constant.

*The PX, PV, PW, IO and PU Classes.* **The yields to investors in the PX, PV, PW, IO and PU Classes will be very sensitive to the rate of principal payments (including prepayments) of the Mortgage Loans. The Mortgage Loans generally can be prepaid at any time without penalty. On the basis of the assumptions described below, the yield to maturity on the PX, PV, PW, IO and PU Classes would be 0% if prepayments of the Mortgage Loans were to occur at constant rates of 598% PSA, 510% PSA, 839% PSA, 320% PSA and 575% PSA, respectively. If the actual prepayment rates of the Mortgage Loans were to exceed any of the applicable levels for as little as one month while equaling such level for the remaining months, the investors in the PX, PV, PW, IO and PU Classes, as applicable, would lose money on their initial investments.**

The information shown in the following tables has been prepared on the basis of the Pricing Assumptions and the assumptions that the aggregate purchase prices of the PX, PV, PW, IO and PU Classes (expressed in each case as a percentage of original principal balance) are as follows:

<u>Class</u>	<u>Price*</u>
PX .....	15.50%
PV .....	22.75%
PW .....	10.25%
IO .....	14.50%
PU .....	15.25%

\* The prices do not include accrued interest. Accrued interest has been added to such prices in calculating the yields shown in the tables below.

**Sensitivity of the PX, PV, PW and PU Classes to Prepayments  
(Pre-Tax Yields to Maturity)**

<u>Class</u>	<u>PSA Prepayment Assumption</u>					
	<u>50%</u>	<u>100%</u>	<u>200%</u>	<u>250%</u>	<u>350%</u>	<u>500%</u>
PX .....	31.4%	20.9%	20.9%	20.9%	19.0%	8.1%
PV .....	25.8%	19.6%	19.6%	19.6%	13.4%	0.8%
PW .....	17.7%	9.4%	9.4%	9.4%	9.4%	9.4%
PU .....	28.8%	18.2%	18.2%	18.2%	16.3%	5.9%

**Sensitivity of the IO Class to Prepayments  
(Pre-Tax Yields to Maturity)**

	PSA Prepayment Assumption						
	<u>50%</u>	<u>100%</u>	<u>147%</u>	<u>150%</u>	<u>200%</u>	<u>350%</u>	<u>500%</u>
IO.....	40.2%	36.1%	18.7%	18.7%	18.7%	(6.0)%	(30.6)%

*The Inverse Floating Rate Classes.* **The yield to investors in the Inverse Floating Rate Classes will be sensitive to the rate of principal payments, including prepayments, of the related Mortgage Loans and to the level of the Index. The Mortgage Loans generally can be prepaid at any time without penalty.**

Changes in the Index may not correspond to changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur while the level of the Index increased.

The information shown in the yield tables has been prepared on the basis of the Pricing Assumptions and the assumptions that

- the interest rates for the Inverse Floating Rate Classes for the initial Interest Accrual Period are the rates listed in the table under “Reference Sheet—Interest Rates” and for each following Interest Accrual Period will be based on the specified level of the Index, and

- the aggregate purchase prices of such Classes (expressed in each case as a percentage of original principal balance) are as follows:

<u>Class</u>	<u>Price*</u>
S .....	92.00%
SA .....	92.75%
SB .....	92.25%
SC .....	98.00%

\* The prices do not include accrued interest. Accrued interest has been added to such prices in calculating the yields set forth in the tables below.

**Sensitivity of the S Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>						
	<u>50%</u>	<u>100%</u>	<u>150%</u>	<u>200%</u>	<u>250%</u>	<u>350%</u>	<u>500%</u>
3.00% .....	24.6%	24.6%	24.7%	25.3%	26.8%	28.6%	30.7%
5.00% .....	12.3%	12.3%	12.5%	13.0%	14.9%	16.9%	19.2%
7.00% .....	0.6%	0.7%	0.8%	1.1%	3.5%	5.7%	8.1%
7.05% .....	0.3%	0.4%	0.5%	0.9%	3.2%	5.4%	7.8%

**Sensitivity of the SA Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>						
	<u>50%</u>	<u>100%</u>	<u>150%</u>	<u>200%</u>	<u>250%</u>	<u>350%</u>	<u>500%</u>
3.00% .....	24.4%	24.4%	24.6%	26.4%	27.9%	30.2%	33.2%
5.00% .....	12.2%	12.2%	12.5%	14.6%	16.3%	18.9%	22.0%
7.00% .....	0.6%	0.7%	1.0%	3.3%	5.2%	7.9%	11.3%
7.05% .....	0.3%	0.4%	0.7%	3.1%	4.9%	7.6%	11.0%

**Sensitivity of the SB Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>						
	<u>50%</u>	<u>100%</u>	<u>150%</u>	<u>200%</u>	<u>250%</u>	<u>350%</u>	<u>500%</u>
3.0% .....	27.4%	27.4%	27.4%	27.6%	28.8%	30.3%	31.9%
5.0% .....	12.4%	12.4%	12.5%	12.7%	14.3%	16.0%	17.7%
6.7% and above .....	0.3%	0.4%	0.5%	0.6%	2.5%	4.3%	6.2%

**Sensitivity of the SC Class to Prepayments and LIBOR  
(Pre-Tax Yields to Maturity)**

<u>LIBOR</u>	<u>PSA Prepayment Assumption</u>						
	<u>50%</u>	<u>100%</u>	<u>150%</u>	<u>200%</u>	<u>250%</u>	<u>350%</u>	<u>500%</u>
6.70% and below .....	10.9%	10.9%	10.9%	10.9%	11.2%	11.5%	11.8%
7.00% .....	1.6%	1.6%	1.6%	1.7%	2.1%	2.6%	3.0%
7.05% .....	0.1%	0.1%	0.1%	0.1%	0.6%	1.1%	1.6%

*The Principal Only Class.* **The Principal Only Class will not bear interest. As indicated in the table below, a low rate of principal payments (including prepayments) on the Mortgage Loans will have a negative effect on the yields to investors in the Principal Only Class.**

The information shown in the following table has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase price of the Principal Only Class (expressed as a percentage of original principal balance) is as follows:

<u>Class</u>	<u>Price</u>
PO .....	76.0%

**Sensitivity of the PO Class to Prepayments  
(Pre-Tax Yields to Maturity)**

<u>Class</u>	<u>PSA Prepayment Assumption</u>					
	<u>50%</u>	<u>100%</u>	<u>150%</u>	<u>200%</u>	<u>350%</u>	<u>500%</u>
PO .....	1.1%	1.3%	1.8%	3.0%	18.4%	26.9%

**Weighted Average Lives of the Certificates**

The weighted average life of a Certificate is determined by

- (a) multiplying the amount of the reduction, if any, of the principal balance of such Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date,
- (b) summing the results, and
- (c) dividing the sum by the aggregate amount of the reductions in principal balance of such Certificate referred to in clause (a).

For a description of the factors which may influence the weighted average life of a Certificate, see “Description of the Certificates—Weighted Average Life and Final Distribution Dates” in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including

- the timing of changes in such rate of principal payments,
- the priority sequence of distributions of principal of the Certificates, and
- in the case of certain Classes, the payment of principal of the applicable Classes in accordance with the Principal Balance Schedules.

See “Distributions of Principal” herein.

The effect of these factors may differ as to various Classes and the effects on any Class may vary at different times during the life of that Class. Accordingly, we can give no assurance as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their original principal balances, variability in the weighted average lives of such Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

## Decrement Tables

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each date shown at various constant PSA rates and the corresponding weighted average lives of such Classes. The tables have been prepared on the basis of the Pricing Assumptions. However, in the case of the information set forth for each Class under 0% PSA, we assumed that the underlying Mortgage Loans have original and remaining terms to maturity of 360 months and bear interest at an annual rate of 9.0%.

It is unlikely that

- all of the underlying Mortgage Loans will have the interest rates, CAGEs or remaining terms to maturity assumed, or
- the underlying Mortgage Loans will prepay at any *constant* PSA level.

In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA rates. This is the case even if the dispersion of weighted average remaining terms to maturity and the weighted average CAGEs of the Mortgage Loans are identical to the dispersion specified in the Pricing Assumptions.

## Percent of Original Principal Balances Outstanding

Date	PA and PW† Classes						PJ Class						PB Class					
	PSA Prepayment Assumption						PSA Prepayment Assumption						PSA Prepayment Assumption					
	0%	100%	200%	250%	350%	500%	0%	100%	200%	250%	350%	500%	0%	100%	200%	250%	350%	500%

\* Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

\*\* Determined as specified under “Weighted Average Lives of the Certificates” herein.

† In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

## Characteristics of the R and RL Classes

The R and RL Classes will not have principal balances and will not bear interest. If any assets of the Trust remain after the principal balances of all Classes are reduced to zero, we will pay the Holder of the R Class the proceeds from those assets. If any assets of the Lower Tier REMIC remain after the principal balances of the Lower Tier Regular Interests are reduced to zero, we will pay the proceeds of those assets to the Holder of the RL Class. Fannie Mae does not expect that any material assets will remain in either case.

The R and RL Classes will be subject to certain transfer restrictions. We will not permit transfer of record or beneficial ownership of an R or RL Certificate to a “disqualified organization.” In addition, we will not permit transfer of record or beneficial ownership of an R or RL Certificate to any person that is not a “U.S. Person” without our written consent. Treasury Department regulations (the “Regulations”) provide that a transfer of a “noneconomic residual interest” to a U.S. Person will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R and RL Classes will constitute noneconomic residual interests under the Regulations. Any transferee of an R or RL Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 on which the transferee provides its taxpayer identification number. See “Description of the Certificates—Special Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Residual Certificates*” in the REMIC Prospectus. Transferors of an R or RL Certificate should consult with their own tax advisors for further information regarding such transfers.

The Holder of the R Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Trust, and the Holder of the RL Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Lower Tier REMIC. See “Certain Federal Income Tax Consequences” in the REMIC Prospectus. Pursuant to the Trust Agreement, we will be obligated to provide to these Holders (i) information necessary to enable them to prepare their federal income tax returns and (ii) any reports regarding the R or RL Class that may be required under the Code.

## CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The Certificates and payments on the Certificates are not generally exempt from taxation. Therefore, you should consider the tax consequences of holding a Certificate before you acquire one. The following tax discussion supplements the discussion under the caption “Certain Federal Income Tax Consequences” in the REMIC Prospectus. When read together, the two discussions describe the current federal income tax treatment of beneficial owners of Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of beneficial owners, some of which may be subject to special rules. In addition, these discussions may not apply to your particular circumstances for one of the reasons explained in the REMIC Prospectus. You should consult your own tax advisors regarding the federal income tax consequences of holding and disposing of Certificates as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

## REMIC Elections and Special Tax Attributes

We will elect to treat the Lower Tier REMIC and the Trust as REMICs for federal income tax purposes. The REMIC Certificates, other than the R and RL Classes, will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust. The Lower Tier Regular Interests will be designated as the “regular interests” and the RL Class will be designated as the “residual interest” in the Lower Tier REMIC.

Because the Lower Tier REMIC and the Trust will qualify as REMICs, the REMIC Certificates and any related RCR Certificates generally will be treated as “regular or residual interests in a

REMIC” for domestic building and loan associations, “real estate assets” for real estate investment trusts, and, except for the R and RL Classes, as “qualified mortgages” for other REMICs. See “Certain Federal Income Tax Consequences—*REMIC Election and Special Tax Attributes*” in the REMIC Prospectus.

### **Taxation of Beneficial Owners of Regular Certificates**

The Notional Classes, the Principal Only Class and the Accrual Classes will be issued with original issue discount (“OID”), and certain other Classes of REMIC Certificates may be issued with OID. If a Class is issued with OID, a beneficial owner of a Certificate of that Class generally must recognize some taxable income in advance of the receipt of the cash attributable to that income. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount*” in the REMIC Prospectus. In addition, certain Classes of REMIC Certificates may be treated as having been issued at a premium. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates—Regular Certificates Purchased at a Premium*” in the REMIC Prospectus.

The Prepayment Assumption that will be used in determining the rate of accrual of OID will be 200% PSA. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount—Daily Portions of Original Issue Discount*” in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at that rate or any other rate. See “Description of the Certificates—Weighted Average Lives of the Certificates” in this prospectus supplement and “Description of Certificates—Weighted Average Life and Final Distribution Date” in the REMIC Prospectus.

### **Taxation of Beneficial Owners of Residual Certificates**

For purposes of determining the portion of the taxable income of the Trust (or the Lower Tier REMIC) that generally will not be treated as excess inclusions, the rate to be used is 6.12% (which is 120% of the “federal long-term rate”). See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Residual Certificates—Treatment of Excess Inclusions*” and “—*Foreign Investors—Residual Certificates*” in the REMIC Prospectus.

### **Taxation of Beneficial Owners of RCR Certificates**

*General.* The RCR Classes will be created, sold and administered pursuant to an arrangement that will be classified as a grantor trust under subpart E, part I of subchapter J of the Code. The REMIC Certificates that are exchanged for RCR Certificates (including any exchanges effective on the Settlement Date) will be the assets of the trust, and the RCR Certificates will represent an ownership interest in those REMIC Certificates. For a general discussion of the federal income tax treatment of beneficial owners of REMIC Certificates, see “Certain Federal Income Tax Consequences” in the REMIC Prospectus.

The RCR Classes (each a “Combination RCR Class”) will represent the beneficial ownership of the underlying REMIC Certificates set forth in Schedule 1. Each Certificate of a Combination RCR Class (a “Combination RCR Certificate”) will represent beneficial ownership of undivided interests in two or more underlying REMIC Certificates.

*Combination RCR Classes.* A beneficial owner of a Combination RCR Certificate will be treated as the beneficial owner of a proportionate interest in the REMIC Certificates underlying that Combination RCR Certificate. A beneficial owner of a Combination RCR Certificate must allocate its cost to acquire that Certificate among the underlying REMIC Certificates in proportion to their relative fair market values at the time of acquisition. Such owner should account for its ownership interest in each underlying REMIC Certificate as described under “—Taxation of Beneficial Owners of Regular Certificates” in this prospectus supplement and “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates*” in the REMIC Prospectus. When a

beneficial owner sells a Combination RCR Certificate, the owner must allocate the sale proceeds among the underlying REMIC Certificates in proportion to their relative fair market values at the time of sale.

*Exchanges.* If a beneficial owner exchanges one or more REMIC Certificates for the related RCR Certificate or Certificates in the manner described under “Description of the Certificates—Combination and Recombination” in this prospectus supplement, the exchange will not be taxable. Likewise, if a beneficial owner exchanges one or more RCR Certificates for the related REMIC Certificate or Certificates in the manner described in that discussion, the exchange will not be a taxable exchange. In each of these cases, the beneficial owner will be treated as continuing to own after the exchange the same combination of interests in the related REMIC Certificates (or the same interest in the related REMIC Certificate) that it owned immediately prior to the exchange.

## **PLAN OF DISTRIBUTION**

*General.* We are obligated to deliver the Certificates to Nomura Securities International, Inc. (the “Dealer”) in exchange for the MBS. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect these transactions to or through other dealers.

*Increase in Certificates.* Before the Settlement Date, we and the Dealer may agree to offer Certificates in addition to those contemplated as of the date of this prospectus supplement. In this event, we will increase the related MBS in principal balance, but we expect that all these additional MBS will have the same characteristics as described under “Description of the Certificates—The MBS.” The proportion that the original principal balance of each Class bears to the aggregate original principal balance of all Classes will remain the same. In addition, the dollar amounts shown in the Principal Balance Schedules will be increased to correspond to the increase of the principal balances of the applicable Classes.

## **LEGAL MATTERS**

Brown & Wood LLP will provide legal representation for Fannie Mae. Cleary, Gottlieb, Steen & Hamilton will provide legal representation for the Dealer.
