

**\$250,000,000**

**Guaranteed REMIC Pass-Through Certificates  
Fannie Mae REMIC Trust 2006-13**

**The Certificates**

We, the Federal National Mortgage Association (Fannie Mae), will issue the classes of certificates listed in the chart on this page.

**Payments to Certificateholders**

We will make monthly payments on the certificates. You, the investor, will receive

- interest accrued on the balance of your certificate (except in the case of the accrual class), and
- principal to the extent available for payment on your class.

We may pay principal at rates that vary from time to time. We may not pay principal to certain classes for long periods of time.

**The Fannie Mae Guaranty**

We will guarantee that required payments of principal and interest on the certificates are distributed to investors on time.

**The Trust and its Assets**

The trust will own Fannie Mae MBS.

The mortgage loans underlying the Fannie Mae MBS are first lien, single-family, fixed-rate loans.

<i>Class</i>	<i>Original Class Balance</i>	<i>Principal Type</i>	<i>Interest Rate</i>	<i>Interest Type</i>	<i>CUSIP Number</i>	<i>Final Distribution Date</i>
AN(1) . . . . .	\$ 61,144,000	NAS/SEQ	5.5%	FIX	31394VM98	November 2027

(1) Exchangeable classes.

If you own certificates of certain classes, you can exchange them for the corresponding RCR certificates to be issued at the time of the exchange. The AB, AI, A, V and AG Classes are the RCR classes, as further described in this prospectus supplement.

The dealer will offer the certificates from time to time in negotiated transactions at varying prices. We expect the settlement date to be February 24, 2006.

**Carefully consider the risk factors starting on page S-9 of this prospectus supplement and on page 10 of the REMIC prospectus. Unless you understand and are able to tolerate these risks, you should not invest in the certificates.**

You should read the REMIC prospectus as well as this prospectus supplement.

The certificates, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any agency or instrumentality thereof other than Fannie Mae.

The certificates are exempt from registration under the Securities Act of 1933 and are "exempted securities" under the Securities Exchange Act of 1934.

**Goldman, Sachs & Co.**

The date of this Prospectus Supplement is January 25, 2006

## AVAILABLE INFORMATION

You should purchase the certificates only if you have read and understood this prospectus supplement and the following documents (the “Disclosure Documents”):

- our Prospectus for Fannie Mae Guaranteed REMIC Pass-Through Certificates dated May 1, 2002 (the “REMIC Prospectus”);
- our Prospectus for Fannie Mae Guaranteed Mortgage Pass-Through Certificates (Single-Family Residential Mortgage Loans) dated January 1, 2006 (the “MBS Prospectus”); and
- any information incorporated by reference in this prospectus supplement as discussed below under the heading “Incorporation by Reference.”

You can obtain copies of the Disclosure Documents by writing or calling us at:

Fannie Mae  
MBS Helpline  
3900 Wisconsin Avenue, N.W., Area 2H-3S  
Washington, D.C. 20016  
(telephone 1-800-237-8627).

In addition, the Disclosure Documents, together with the class factors, are available on our corporate Web site at [www.fanniemae.com](http://www.fanniemae.com).

You also can obtain copies of the Disclosure Documents by writing or calling the dealer at:

Goldman, Sachs & Co.  
Prospectus Department  
85 Broad Street, Concourse Level  
New York, New York 10004  
(telephone 212-902-1171).

## INCORPORATION BY REFERENCE

In this prospectus supplement, we are incorporating by reference the MBS Prospectus described above. In addition, we are incorporating by reference the documents listed below. This means that we are disclosing information to you by referring you to these documents. These documents are considered part of this prospectus supplement, so you should read this prospectus supplement, and any applicable supplements or amendments, together with these documents.

You should rely only on the information provided or incorporated by reference in this prospectus supplement, the REMIC Prospectus and the MBS Prospectus and any applicable supplements or amendments.

We incorporate by reference the following documents we have filed, or may file, with the Securities and Exchange Commission (“SEC”):

- our Annual Report on Form 10-K for the fiscal year ended December 31, 2003 (“Form 10-K”);
- all other reports we have filed pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 since the end of the fiscal year covered by the Form 10-K until the date of this prospectus supplement, excluding any information “furnished” to the SEC on Form 8-K; and
- all proxy statements that we file with the SEC and all documents that we file with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 subsequent to the date of this prospectus supplement and prior to the completion of the offering of the certificates, excluding any information we “furnish” to the SEC on Form 8-K.

Any information incorporated by reference in this prospectus supplement is deemed to be modified or superseded for purposes of this prospectus supplement to the extent information contained or incorporated by reference in this prospectus supplement modifies or supersedes such information. In such case, the information will constitute a part of this prospectus supplement only as so modified or superseded.

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You can obtain copies of the periodic reports we file with the SEC without charge by calling or writing our Office of Investor Relations, Fannie Mae, 3900 Wisconsin Avenue, NW, Washington, DC 20016, telephone: (202) 752-7115. The periodic and current reports that we file with the SEC are also available on our Web site. Information appearing on our Web site is not incorporated in this prospectus supplement except as specifically stated in this prospectus supplement.

In addition, you may read our SEC filings and other information about Fannie Mae at the offices of the New York Stock Exchange, the Chicago Stock Exchange and the Pacific Exchange. Our SEC filings are also available at the SEC's Web site at [www.sec.gov](http://www.sec.gov). We are providing the address of the SEC's Web site solely for the information of prospective investors. Information appearing on the SEC's Web site is not incorporated in this prospectus supplement except as specifically stated in this prospectus supplement.

## **RECENT DEVELOPMENTS**

On December 21, 2004, our Board of Directors (the "Board") announced the retirement of Chairman and Chief Executive Officer Franklin D. Raines and the resignation of Vice Chairman and Chief Financial Officer J. Timothy Howard. The Board further announced that the Audit Committee of the Board dismissed KPMG LLP as our independent auditor. On January 4, 2005, the Audit Committee of the Board approved the engagement of Deloitte & Touche LLP ("Deloitte") as our independent auditor. Deloitte will serve as our auditor for each of the fiscal years 2001, 2002, 2003, 2004 and 2005.

Stephen B. Ashley, a member of the Board, currently is serving as the non-executive Chairman of the Board. On June 1, 2005, the Board announced that it had selected Daniel H. Mudd, the former Chief Operating Officer of Fannie Mae, to be the new President and Chief Executive Officer. Mr. Mudd had been serving as the interim Chief Executive Officer since the retirement of Mr. Raines. Executive Vice President Robert Levin currently is serving as the interim Chief Financial Officer.

On December 15, 2004, the Office of the Chief Accountant of the Securities and Exchange Commission (the "SEC") issued a statement (the "Statement") regarding certain accounting issues relating to Fannie Mae, including determinations by the SEC that we should (i) restate our financial statements to eliminate the use of hedge accounting under Financial Accounting Standard No. 133, Accounting for Derivative Instruments and Hedging Activities ("FAS 133"), (ii) evaluate the accounting under Financial Accounting Standard No. 91, Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases ("FAS 91") and restate our financial statements filed with the SEC if the amounts required for correction are material, and (iii) re-evaluate the information prepared under generally accepted accounting principles ("GAAP") and non-GAAP information that we previously provided to investors. On December 16, 2004, we filed a Current Report on Form 8-K with the SEC that includes a copy of the Statement.

As a result of the SEC's findings, we will restate our financial results from 2001 through June 30, 2004 to comply fully with the SEC's determination. In a Form 12b-25 filed with the SEC on November 15, 2004, we estimated that a loss of hedge accounting under FAS 133 for all derivatives could result in recording into earnings a net cumulative loss on derivative transactions of approximately \$9.0 billion as of September 30, 2004. (We estimate that as of December 31, 2004, this net cumulative after-tax loss was approximately \$8.4 billion.) We also stated that there would be a

corresponding decrease to retained earnings and, accordingly, regulatory capital. In a Form 12b-25 filed with the SEC on March 17, 2005, we stated that if we do not qualify for hedge accounting for mortgage commitments accounted for as derivatives since our July 1, 2003 adoption of Financial Accounting Standard No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities (“FAS 149”), we estimate that we would be required to record in earnings a net cumulative after-tax loss related to these commitments of approximately \$2.4 billion as of December 31, 2004.

We are working to determine the effect of the restatement, including the effect on each prior reporting period. We expect that the impact will be material to our reported GAAP and core business results for many, if not all, periods and will vary substantially from period to period based on the amount and types of derivatives held and fluctuations in interest rates and volatility. Our restated financial statements also will reflect corrections as a result of our misapplication of FAS 91 for each prior reporting period described above. We also will consider the impact, if any, of the SEC’s decision on FAS 91 for periods prior to those described above.

Accordingly, on December 17, 2004, the Audit Committee of the Board concluded that our previously filed interim and audited financial statements and the independent auditor’s reports thereon for the periods from January 2001 through the second quarter of 2004 should no longer be relied upon because such financial statements were prepared applying accounting practices that did not comply with GAAP. We have not yet filed our quarterly reports on Form 10-Q for the quarters ended September 30, 2004, March 31, 2005 and June 30, 2005, or our annual report on Form 10-K for the year ended December 31, 2004. The financial information regarding our anticipated results of operations for the quarter ended September 30, 2004 that was contained in our Form 12b-25 filed on November 15, 2004 and in a Form 8-K filed on November 16, 2004 was prepared applying the same policies and practices, and, accordingly, should not be relied upon. The Audit Committee has discussed the matters described above and in a Form 8-K filed with the SEC on December 22, 2004 with KPMG LLP, our independent auditor through December 21, 2004.

On September 20, 2004, the Office of Federal Housing Enterprise Oversight (“OFHEO”) delivered its report to the Board of its findings to date of the agency’s special examination. Among other matters, the OFHEO report raised a number of questions and concerns about our accounting policies and practices with respect to FAS 91 and FAS 133. On February 23, 2005, we announced that OFHEO notified our Board and management of several additional accounting and internal control issues and questions that OFHEO identified in its ongoing special examination, and directed that these matters be included in the internal reviews by the Board and management and reviewed by Deloitte. OFHEO indicated that it has not completed its review of all aspects of these issues, but has identified policies that it believes appear to be inconsistent with generally accepted accounting principles as well as internal control deficiencies that raise safety and soundness concerns. The issues and questions include the following areas: securities accounting, loan accounting, consolidations, accounting for commitments, and practices to smooth certain income and expense amounts. OFHEO also raised concerns regarding journal entry controls, systems limitations, and database modifications, as well as FAS 149 and new developments relating to FAS 91. A summary of the additional questions raised in OFHEO’s ongoing special examination of Fannie Mae has been filed as an exhibit to a Form 8-K that we filed with the SEC on February 23, 2005.

Our Board and management are addressing the issues and questions raised by OFHEO. In addition, the Board designated its Special Review Committee to review the findings of OFHEO’s September 2004 special examination report. This review, led by former Senator Warren Rudman of the law firm of Paul, Weiss, Rifkind, Wharton & Garrison (“Paul Weiss”), is focused on: accounting issues, including accounting policies, procedures and controls regarding FAS 91 and FAS 133; organization, structure and governance, including Board oversight and management responsibilities and resources; and executive compensation. Paul Weiss’ work continues as it examines these areas and other issues that may arise in the course of its review, reporting regularly to the Board. We will report to OFHEO regarding each of these issues and will continue to work with OFHEO to resolve these matters as part of our ongoing internal reviews and restatement process. In light of the foregoing,

management has initiated a comprehensive review of accounting routines and controls, the financial reporting process and the application of GAAP, which will include the issues OFHEO has identified, as well as issues identified by management and/or Deloitte. Management, working with accounting consultants, will develop a view on these issues, which then will be reviewed with the Audit Committee, Deloitte and OFHEO. Upon conclusion of this review, our financial statements will be restated where necessary and submitted to Deloitte for review as part of its audit. We are providing periodic updates to the SEC and the New York Stock Exchange on the restatement. In addition, the SEC and the U.S. Attorney's Office for the District of Columbia are conducting ongoing investigations into these matters.

OFHEO is required to review our capital classification quarterly, and as of September 30, 2004 and December 31, 2004, classified us as "significantly undercapitalized." As a result of this classification, we submitted a capital restoration plan to OFHEO in January 2005, and on February 23, 2005, we announced that OFHEO approved our proposed capital restoration plan. Under the plan, we detail how we expect to meet our minimum capital requirement on an ongoing basis, as well as achieve OFHEO's 30 percent surplus capital requirement by September 30, 2005. A summary of the capital restoration plan was filed as an exhibit to a Form 8-K that we filed with the SEC on February 23, 2005. On May 19, 2005, OFHEO classified us as "adequately capitalized" as of March 31, 2005. OFHEO has noted that this classification is subject to revision pending the outcome of ongoing accounting reviews, and that this classification does not amend any existing capital restoration plans currently in place between Fannie Mae and OFHEO.

In a Form 12b-25 filed with the SEC on August 9, 2005, we reported that, based on our current assessment, we are not likely to complete and file our Annual Report on Form 10-K for the year ended December 31, 2004, which will contain restated financial information, prior to the second half of 2006. We also reported in that Form 12b-25 that we are uncertain whether Deloitte will be able to opine on either the effectiveness of our internal control over financial reporting or management's process for assessing the effectiveness of internal control over financial reporting as of December 31, 2004 or December 31, 2005. We also reported in that Form 12b-25 that current NYSE listing standards allow the NYSE to continue to list the securities of a listed company for up to nine months after a company is delinquent in filing its Annual Report on Form 10-K (until December 16, 2005, in the case of Fannie Mae). The NYSE, in its sole discretion, also may extend the listing of a company's securities for another three months after that date, depending on the company's circumstances. Under the rules of the NYSE, Fannie Mae would have a right to a review of any decision to delist its securities by a committee of the NYSE Board of Directors.

Forms 8-K that we file with the SEC prior to the completion of the offering of the certificates are incorporated by reference in this prospectus supplement. This means that we are disclosing information to you by referring you to those documents. You should refer to "Incorporation by Reference" above for further details on the information that we incorporate by reference in this prospectus supplement and where to find it.

## REFERENCE SHEET

This reference sheet is not a summary of the transaction and does not contain complete information about the certificates. You should purchase the certificates only after reading this prospectus supplement and each of the additional disclosure documents listed on page S-3.

### Assumed Characteristics of the Mortgage Loans Underlying the MBS (as of February 1, 2006)

<u>Approximate Principal Balance</u>	<u>Original Term to Maturity (in months)</u>	<u>Approximate Weighted Average Remaining Term to Maturity (in months)</u>	<u>Approximate Weighted Average Loan Age (in months)</u>	<u>Approximate Weighted Average Coupon</u>
\$250,000,000	360	325	29	5.90%

The actual remaining terms to maturity, weighted average loan ages and interest rates of most of the mortgage loans will differ from the weighted averages shown above, perhaps significantly.

### Class Factors

The class factors are numbers that, when multiplied by the initial principal balance of a certificate, can be used to calculate the current principal balance of that certificate (after taking into account principal payments in the same month). We publish the class factors on or shortly after the 11th day of each month.

### Settlement Date

We expect to issue the certificates on February 24, 2006.

### Distribution Dates

We will make payments on the certificates on the 25th day of each calendar month, or on the next business day if the 25th day is not a business day.

### Book-Entry and Physical Certificates

We will issue the book-entry certificates through the U.S. Federal Reserve Banks, which will electronically track ownership of the certificates and payments on them. We will issue physical certificates in registered, certificated form.

We will issue the classes of certificates in the following forms:

<u>Fed Book-Entry</u>	<u>Physical</u>
All classes of certificates other than the R Class	R Class

### Exchanging Certificates Through Combination and Recombination

If you own certain certificates, you will be able to exchange them for a proportionate interest in the related RCR certificates as shown on Schedule 1. We will issue the RCR certificates upon such exchange. You can exchange your certificates by notifying us and paying an exchange fee. We use the principal and interest of the certificates exchanged to pay principal and interest on the related RCR certificates. Schedule 1 lists the available combinations of the certificates eligible for exchange and the related RCR certificates.

## Interest Rates

During each interest accrual period, the fixed rate classes will bear interest at the applicable annual interest rates listed on the cover of this prospectus supplement or on Schedule 1.

We will apply interest payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

## Notional Class

The notional class will not receive any principal. Its notional principal balance is the balance used to calculate accrued interest. The notional principal balance will equal the percentage of the outstanding balance specified below immediately before the current distribution date:

### Class

AI ..... 9.0909090909% of the *sum* of the AN and BA Classes

## Distributions of Principal

### *Principal Distribution Amount*

#### *ZA Accrual Amount*

To the VA and VB Classes, in that order, to zero, and thereafter to the ZA Class.

#### *Cash Flow Distribution Amount*

1. Beginning in February 2009, to the AN Class the amount specified under “Description of the Certificates—Distributions of Principal—*Cash Flow Distribution Amount*” in this prospectus supplement.

2. To the BA Class to zero.

3. To the AN, VA, VB and ZA Classes, in that order, to zero.

We will apply principal payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

## Weighted Average Lives (years) \*

<u>Classes</u>	<u>PSA Prepayment Assumption</u>				
	<u>0%</u>	<u>100%</u>	<u>196%</u>	<u>350%</u>	<u>500%</u>
AN .....	10.9	5.1	4.4	3.5	2.4
BA .....	20.6	6.2	2.9	1.1	0.8
VA .....	5.1	5.1	5.0	3.9	2.9
VB .....	17.8	14.4	10.2	6.5	4.6
ZA .....	28.1	21.4	17.1	11.7	8.5
A, AB and AI .....	17.2	5.8	3.4	2.0	1.3
V .....	14.7	12.2	9.0	5.9	4.2
AG .....	16.9	6.7	4.2	2.5	1.7

\* Determined as specified under “Description of the Certificates—Weighted Average Lives of the Certificates” in this prospectus supplement.

## ADDITIONAL RISK FACTORS

*The rate of principal payments on the certificates will be affected by the rate of principal payments on the underlying mortgage loans.* The rate at which you receive principal payments on the certificates will be sensitive to the rate of principal payments on the mortgage loans underlying the MBS, including prepayments. Because borrowers generally may prepay their mortgage loans at any time without penalty, the rate of principal payments on the mortgage loans is likely to vary over time. It is highly unlikely that the mortgage loans will prepay

- at any of the prepayment rates we assumed in this prospectus supplement, or
- at any constant prepayment rate until maturity.

*Yields may be lower than expected due to unexpected rate of principal payments.* The actual yield on your certificates probably will be lower than you expect:

- if you buy your certificates at a premium and principal payments are faster than you expect, or
- if you buy your certificates at a discount and principal payments are slower than you expect.

Furthermore, in the case of interest only certificates and certificates purchased at a premium, you could lose money on your investment if prepayments occur at a rapid rate.

*Recent hurricanes in the Gulf Coast region may present risk of increased mortgage loan prepayments.* In August and September 2005, Hurricane Katrina and Hurricane Rita and related events caused catastrophic damage to extensive areas along the Gulf Coast of the United States, including portions of coastal and inland Alabama, Florida, Louisiana, Mississippi, and Texas. The full extent of the physical damage resulting from severe flooding, high winds and environmental contamination remains uncertain at this time. Hundreds of thousands of people have been displaced and interruptions in the regional economy have been significant. Although the long-term effects are unclear, these events could lead to a general economic downturn in the Gulf Coast region,

including job losses and declines in real estate values. Accordingly, defaults on any mortgage loans in the affected areas may increase, in turn resulting in early payments of principal of the certificates backed by those mortgage loans. Additionally, casualty losses on mortgage properties with hurricane or flood damage may result in early payment of principal of the related certificates.

**You must make your own decisions about the various applicable assumptions, including prepayment assumptions, when deciding whether to purchase the certificates.**

*Weighted average lives and yields on the certificates are affected by actual characteristics of the underlying mortgage loans.* We have assumed that the mortgage loans underlying the MBS have certain characteristics. However, the actual mortgage loans probably will have different characteristics from those we assumed. As a result, your yields could be lower than you expect, even if the mortgage loans prepay at the indicated constant prepayment rates. In addition, slight differences between the assumed mortgage loan characteristics and the actual mortgage loans could affect the weighted average lives of the classes of certificates.

*Delay classes have lower yields and market values.* Since the interest-bearing classes do not receive interest immediately following each interest accrual period, they have lower yields and lower market values than they would if there were no such delay.

*Reinvestment of certificate payments may not achieve same yields as certificates.* The rate of principal payments of the certificates is uncertain. You may be unable to reinvest the payments on the certificates at the same yields provided by the certificates.

*Unpredictable timing of last payment affects yields on certificates.* The actual final payment of your class is likely to occur earlier, and could occur much earlier, than the final distribution date listed on the cover page of this prospectus supplement. If you assume that the actual final payment will occur on the final distribution date specified, your yield could be lower than you expect.

*Some investors may be unable to buy certain classes.* Investors whose investment activities are subject to legal investment laws and regulations, or to review by regulatory authorities, may be unable to buy certain certificates. You should obtain legal advice to determine whether you may purchase the certificates.

*Uncertain market for the certificates could make them difficult to sell and cause their values to fluctuate.* We cannot be sure that a market for resale of the certificates will develop. Further, if a market develops, it may not continue or be sufficiently liquid to allow you to sell your certificates. Even if you are able to sell your certificates, the sale price may not be comparable to similar investments that have a developed market. Moreover, you may not be able to sell small or large amounts of certificates at prices comparable to those available to other investors. You should purchase certificates only if you understand and can tolerate the risk that the value of your certificates will vary over time and that your certificates may not be easily sold.

*Terrorist activities and related military and political actions by the U.S. government could*

*cause reductions in investor confidence and substantial market volatility in real estate and securities markets.* It is impossible to predict the extent to which terrorist activities may occur or, if they do occur, the extent of the effect on the certificates. Moreover, it is uncertain what effects any past or future terrorist activities or any related military or political actions on the part of the United States government and others will have on the United States and world financial markets, local, regional and national economies, real estate markets across the United States, or particular business sectors, including those affecting the performance of mortgage loan borrowers. Among other things, reduced investor confidence could result in substantial volatility in securities markets and a decline in real estate-related investments. In addition, defaults on the mortgage loans could increase, causing early payments of principal to you and, regardless of the performance of the underlying mortgage loans, the liquidity and market value of the certificates may be impaired.

## DESCRIPTION OF THE CERTIFICATES

The material under this heading summarizes certain features of the Certificates. You will find additional information about the Certificates in the other sections of this prospectus supplement, as well as in the additional Disclosure Documents and the Trust Agreement. If we use a capitalized term in this prospectus supplement without defining it, you will find the definition of that term in the applicable Disclosure Document or in the Trust Agreement.

### General

*Structure.* We will create the Fannie Mae REMIC Trust specified on the cover of this prospectus supplement (the “Trust”) pursuant to a trust agreement dated as of February 1, 2006 (the “Issue Date”). We will issue the Guaranteed REMIC Pass-Through Certificates (the “REMIC Certificates”) pursuant to that trust agreement. We will issue the Combinable and Recombinable REMIC Certificates (the “RCR Certificates” and, together with the REMIC Certificates, the “Certificates”) pursuant to a separate trust agreement dated as of the Issue Date (together with the trust agreement relating to the REMIC Certificates, the “Trust Agreement”). We will execute the Trust Agreement in our corporate capacity and as trustee (the “Trustee”). In general, the term “Classes” includes the Classes of REMIC Certificates and RCR Certificates.

The Trust will constitute a “real estate mortgage investment conduit” (“REMIC”) under the Internal Revenue Code of 1986, as amended (the “Code”).

- The REMIC Certificates (except the R Class) will be “regular interests” in the Trust.
- The R Class will be the “residual interest” in the Trust.

The assets of the Trust will consist of certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the “MBS”).

Each MBS represents a beneficial ownership interest in a pool of first lien, one- to four-family (“single-family”), fixed-rate residential mortgage loans (the “Mortgage Loans”) having the characteristics described in this prospectus supplement.

*Fannie Mae Guaranty.* We guarantee that we will distribute to Certificateholders:

- required installments of principal and interest on the Certificates on time, and
- the principal balance of each Class of Certificates no later than its Final Distribution Date, whether or not we have received sufficient payments on the MBS.

In addition, we guarantee that we will distribute to each holder of an MBS:

- scheduled installments of principal and interest on the underlying Mortgage Loans on time, whether or not the related borrowers pay us, and
- the full principal balance of any foreclosed Mortgage Loan, whether or not we recover it.

Our guarantees are not backed by the full faith and credit of the United States. See “Description of Certificates—The Fannie Mae Guaranty” in the REMIC Prospectus and “Description of the Certificates—Fannie Mae Guaranty” in the MBS Prospectus.

*Characteristics of Certificates.* We will issue the Certificates (except the R Class) in book-entry form on the book-entry system of the U.S. Federal Reserve Banks. Entities whose names appear on the book-entry records of a Federal Reserve Bank as having had Certificates deposited in their accounts are “Holders” or “Certificateholders.” A Holder is not necessarily the beneficial owner of a Certificate. Beneficial owners ordinarily will hold Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See “Description of Certificates—Denominations and Form” in the REMIC Prospectus.

We will issue the R Certificate in fully registered, certificated form. The “Holder” or “Certificateholder” of the R Certificate is its registered owner. The R Certificate can be transferred at the corporate trust office of the Transfer Agent, or at the office of the Transfer Agent in New York, New York. U.S. Bank National Association (“US Bank”) in Boston, Massachusetts will be the initial Transfer Agent. We may impose a service charge for any registration of transfer of the R Certificate and may require payment to cover any tax or other governmental charge. See also “—Characteristics of the R Class” below.

The Holder of the R Class will receive the proceeds of any remaining assets of the Trust only by presenting and surrendering the related Certificate at the office of the Paying Agent. US Bank will be the initial Paying Agent.

*Authorized Denominations.* We will issue the Certificates in the following denominations:

<u>Classes</u>	<u>Denomination</u>
The Interest Only Class	\$100,000 minimum plus whole dollar increments
All other Classes (except the R Class)	\$1,000 minimum plus whole dollar increments

We will issue the R Class as a single Certificate with no principal balance.

*Distribution Dates.* We will make monthly payments on the Certificates on the 25th day of each month (or, if the 25th is not a business day, on the first business day after the 25th). We refer to each of these dates as a “Distribution Date.” We will make the first payments to Certificateholders the month after we issue the Certificates.

*Record Date.* On each Distribution Date, we will make each monthly payment on the Certificates to Holders of record on the last day of the preceding month.

*Class Factors.* On or shortly after the eleventh calendar day of each month, we will publish a factor (carried to eight decimal places) for each Class of Certificates. When the applicable class factor is multiplied by the original principal balance (or notional principal balance) of a Certificate of any Class, the product will equal the current principal balance (or notional principal balance) of that Certificate after taking into account payments on the Distribution Date in the same month (as well as any addition to principal in the case of the Accrual Class).

*No Optional Termination.* We have no option to effect an early termination of the Trust. Further, we will not repurchase the Mortgage Loans underlying any MBS in a “clean-up call.” See “Description of the Certificates—Termination” in the MBS Prospectus.

## **Combination and Recombination**

*General.* You are permitted to exchange all or a portion of the AN, BA, VA and VB Classes of REMIC Certificates for a proportionate interest in the related RCR Certificates in the combinations shown on Schedule 1. You also may exchange all or a portion of the RCR Certificates for the related REMIC Certificates in the same manner. This process may occur repeatedly.

Holders of RCR Certificates will be the beneficial owners of a proportionate interest in the related REMIC Certificates and will receive a proportionate share of the distributions on the related REMIC Certificates.

The Classes of REMIC Certificates and RCR Certificates that are outstanding at any given time, and the outstanding principal balances (or notional principal balances) of these Classes, will depend upon any related distributions of principal, as well as any exchanges that occur. REMIC Certificates and RCR Certificates may be exchanged only in the proportions shown on Schedule 1.

*Procedures.* If a Certificateholder wishes to exchange Certificates, the Certificateholder must notify our Structured Transactions Department through one of our “REMIC Dealer Group” dealers in writing or by telefax no later than two business days before the proposed exchange date. The exchange date can be any business day other than the first or last business day of the month subject to our approval. The notice must include the outstanding principal balance of both the Certificates to be exchanged and the Certificates to be received, and the proposed exchange date. After receiving the Holder’s notice, we will telephone the dealer with delivery and wire payment instructions. Notice becomes irrevocable on the second business day before the proposed exchange date.

In connection with each exchange, the Holder must pay us a fee equal to 1/32 of 1% of the outstanding principal balance (exclusive of any notional principal balance) of the Certificates to be exchanged. In no event, however, will our fee be less than \$2,000.

We will make the first distribution on a REMIC Certificate or an RCR Certificate received in an exchange transaction on the Distribution Date in the following month. We will make that distribution to the Holder of record as of the close of business on the last day of the month of the exchange.

*Additional Considerations.* The characteristics of RCR Certificates will reflect the characteristics of the REMIC Certificates used to form those RCR Certificates. You should also consider a number of factors that will limit a Certificateholder’s ability to exchange REMIC Certificates for RCR Certificates or vice versa:

- At the time of the proposed exchange, a Certificateholder must own Certificates of the related Class or Classes in the proportions necessary to make the desired exchange.
- A Certificateholder that does not own the Certificates may be unable to obtain the necessary REMIC Certificates or RCR Certificates.
- If, as a result of a proposed exchange, a Certificateholder would hold a REMIC Certificate or RCR Certificate of a Class in an amount less than the applicable minimum denomination for that Class, the Certificateholder will be unable to effect the proposed exchange.

- The Certificateholder of needed Certificates may refuse to sell them at a reasonable price (or any price) or may be unable to sell them.
- Certain Certificates may have been purchased and placed into other financial structures and thus be unavailable.
- Principal distributions will decrease the amounts available for exchange over time.
- Only the combinations listed on Schedule 1 are permitted.

## The MBS

The following table contains certain information about the MBS. The MBS will have the aggregate unpaid principal balance and Pass-Through Rate shown below and the general characteristics described in the MBS Prospectus. The MBS provide that principal and interest on the related Mortgage Loans are passed through monthly. The Mortgage Loans underlying the MBS are conventional, fixed-rate, fully-amortizing mortgage loans secured by first mortgages or deeds of trust on single-family residential properties. The Mortgage Loans have original maturities of up to 30 years. See “The Mortgage Pools” and “Yield, Maturity, and Prepayment Considerations” in the MBS Prospectus.

We expect the characteristics of the MBS and the related Mortgage Loans as of the Issue Date to be as follows:

Aggregate Unpaid Principal Balance .....	\$250,000,000
MBS Pass-Through Rate .....	5.50%
Range of WACs (annual percentages) .....	5.75% to 8.00%
Range of WAMs .....	241 months to 360 months
Approximate Weighted Average WAM .....	325 months
Approximate Weighted Average WALA (weighted average loan age) .....	29 months

## Final Data Statement

After issuing the Certificates, we will prepare a Final Data Statement containing certain information, including the Pool number, the current WAC (or original WAC, if the current WAC is not available) and the current WAM (or Adjusted WAM, if the current WAM is not available) of the Mortgage Loans underlying each of the MBS as of the Issue Date. The Final Data Statement also will include the weighted averages of all the current or original WACs and the weighted averages of all the current or Adjusted WAMs, based on the current unpaid principal balances of the Mortgage Loans underlying each of the MBS as of the Issue Date. You may obtain the Final Data Statement by telephoning us at 1-800-237-8627. In addition, the Final Data Statement is available on our corporate Web site at [www.fanniemae.com](http://www.fanniemae.com).

## Distributions of Interest

### *Categories of Classes*

For the purpose of interest payments, the Classes will be categorized as follows:

<u>Interest Type*</u>	<u>Classes</u>
Fixed Rate	AN, BA, VA, VB and ZA
Accrual	ZA
RCR**	AB, AI, A, V and AG
No Payment Residual	R

\* See “Description of Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus.

\*\* See “—Combination and Recombination” above and Schedule 1 for a further description of the RCR Classes.

*General.* We will pay interest on the Certificates at the applicable annual interest rates specified on the cover or described in this prospectus supplement. We calculate interest based on an assumed 360-day year consisting of twelve 30-day months. We pay interest monthly (except in the case of the Accrual Class) on each Distribution Date, beginning in the month after the Settlement Date specified in the Reference Sheet.

Interest to be paid on each Certificate (or added to principal, in the case of the Accrual Class) on a Distribution Date will consist of one month’s interest on the outstanding balance of that Certificate immediately prior to that Distribution Date. For a description of the Accrual Class, see “—*Accrual Class*” below.

We will apply interest payments from exchanged REMIC Certificates to the corresponding RCR Certificates, on a pro rata basis, following any exchange.

*Interest Accrual Periods.* Interest to be paid on each Distribution Date will accrue on the Certificates during the one-month periods set forth below (each, an “Interest Accrual Period”).

<u>Classes</u>	<u>Interest Accrual Periods</u>
All interest-bearing Classes (collectively, the “Delay Classes”)	Calendar month preceding the month in which the Distribution Date occurs

See “Additional Risk Factors—*Delay classes have lower yields and market values*” in this prospectus supplement.

*Accrual Class.* The ZA Class is the Accrual Class. Interest will accrue on the Accrual Class at the annual rate specified on the cover of this prospectus supplement. However, we will not pay any interest on the Accrual Class. Instead, interest accrued on the Accrual Class will be added as principal to its principal balance on each Distribution Date. We will pay principal on the Accrual Class as described under “—Distributions of Principal” below.

*Notional Class.* The Notional Class will not have a principal balance. During each Interest Accrual Period, the Notional Class will bear interest on its notional principal balance at its applicable interest rate. The notional principal balance of the Notional Class will be calculated as specified under “Reference Sheet—Notional Class” in this prospectus supplement.

We use the notional principal balance of the Notional Class to determine interest payments on that Class. Although the Notional Class will not have a principal balance and will not be entitled to any principal payments, we will publish a class factor for that Class. References in this prospectus supplement to the principal balances of the Certificates generally shall refer also to the notional principal balance of the Notional Class.

## Distributions of Principal

### *Categories of Classes*

For the purpose of principal payments, the Classes fall into the following categories:

<u>Principal Type*</u>	<u>Classes</u>
NAS <sup>†</sup>	AN
AS <sup>††</sup>	BA
Sequential Pay	AN, BA, VA, VB and ZA
Accretion Directed	VA and VB
RCR**	AB, AI, A, V and AG
No Payment Residual	R

\* See “Description of Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus.

\*\* See “—Combination and Recombination” above and Schedule 1 for a further description of the RCR Classes.

<sup>†</sup> The “NAS” designation refers to a “non-accelerated security” that is designed to receive limited or no principal payments prior to a designated date and thereafter to receive principal payments and an increasing percentage of principal prepayments.

<sup>††</sup> The “AS” designation refers to an “accelerated security” that is generally expected to receive principal payments more rapidly than the related NAS Class during the period to which the NAS Class is receiving limited or no principal payments.

### *Principal Distribution Amount*

On the Distribution Date in each month, we will pay principal on the Certificates in an aggregate amount (the “Principal Distribution Amount”) equal to the sum of the principal then paid on the MBS (the “Cash Flow Distribution Amount”) plus any interest then accrued and added to the principal balance of the ZA Class (the “ZA Accrual Amount”).

### *ZA Accrual Amount*

On each Distribution Date, we will pay the ZA Accrual Amount, sequentially, as principal of the VA and VB Classes, in that order, until their principal balances are reduced to zero. Thereafter, we will pay the ZA Accrual Amount as principal of the ZA Class.

} Accretion  
Directed  
Classes and  
Accrual  
Class

*Cash Flow Distribution Amount*

On each Distribution Date, we will pay the Cash Flow Distribution Amount as principal of the Classes in the following priority:

- |  |  |
|--|--|
| <p>(i) beginning in February 2009, to the AN Class, until its principal balance is reduced to zero, an amount equal to the <i>lesser</i> of</p> <ul style="list-style-type: none"> <li>• 99% of the Principal Distribution Amount</li> </ul> <p style="text-align: center;"><i>or</i></p> <ul style="list-style-type: none"> <li>• the <i>sum</i> of             <ul style="list-style-type: none"> <li>(A) the <i>product</i> of                 <ul style="list-style-type: none"> <li>• the aggregate amount of scheduled payments of principal included in the Cash Flow Distribution Amount for that Distribution Date <i>multiplied</i> by</li> <li>• the Specified Percentage (described below) for that date <i>multiplied</i> by</li> <li>• 2.85</li> </ul> </li> <li style="text-align: center;"><i>plus</i></li> <li>(B) the <i>product</i> of                 <ul style="list-style-type: none"> <li>• the aggregate amount of unscheduled payments of principal included in the Cash Flow Distribution Amount for that Distribution Date <i>multiplied</i> by</li> <li>• the Specified Percentage for that date <i>multiplied</i> by</li> <li>• the Prepayment Percentage (described below) for that date <i>multiplied</i> by</li> <li>• 0.50;</li> </ul> </li> </ul> </li> </ul> <p>(ii) to the BA Class, until its principal balance is reduced to zero; and</p> <p>(iii) sequentially, to the AN, VA, VB and ZA Classes, in that order, until their principal balances are reduced to zero.</p> | <div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 5px;">}</div> <div> <p>NAS Class</p> <p>Sequential Pay Classes</p> <p>AS Class</p> </div> </div> |
|--|--|

The “Specified Percentage” for any Distribution Date will be equal to

- the principal balance of the AN Class on that date (before giving effect to payments made on that date) plus \$200,000,000
- divided by*
- the aggregate principal balance of the AN and BA Classes on that date (before giving effect to payments made on that date).

The “Prepayment Percentage” for any Distribution Date during the periods specified below will be as follows:

<u>Distribution Date in</u>	<u>Prepayment Percentage</u>
March 2006 through February 2011 .....	0%
March 2011 through February 2012 .....	30%
March 2012 through February 2013 .....	40%
March 2013 through February 2014 .....	60%
March 2014 through February 2015 .....	80%
March 2015 and thereafter .....	100%

We will apply principal payments from exchanged REMIC Certificates to the corresponding RCR Certificates, on a pro rata basis, following any exchange.

### **Structuring Assumptions**

*Pricing Assumptions.* Except where otherwise noted, the information in the tables in this prospectus supplement has been prepared based on the following assumptions (the “Pricing Assumptions”):

- the Mortgage Loans underlying the MBS have the original term to maturity, remaining term to maturity, WALA and interest rate specified under “Reference Sheet—Assumed Characteristics of the Mortgage Loans Underlying the MBS” in this prospectus supplement;
- the Mortgage Loans prepay at the constant percentages of PSA specified in the related tables;
- the settlement date for the sale of the Certificates is February 24, 2006; and
- each Distribution Date occurs on the 25th day of a month.

*Prepayment Assumptions.* Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used in this prospectus supplement is The Bond Market Association’s standard prepayment model (“PSA”). To assume a specified rate of PSA is to assume a specified rate of prepayment each month of the then-outstanding principal balance of a pool of new mortgage loans computed as described under “Description of Certificates—Prepayment Models” in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any *constant* PSA rate or at any other *constant* rate.

### **Yield Table for the AI Class**

The table below illustrates the sensitivity of the pre-tax corporate bond equivalent yield to maturity of the AI Class to various constant percentages of PSA. We calculated the yields set forth in the table by

- determining the monthly discount rates that, when applied to the assumed streams of cash flows to be paid on the AI Class, would cause the discounted present values of the assumed streams of cash flows to equal the assumed aggregate purchase price of that Class, and
- converting the monthly rates to corporate bond equivalent rates.

These calculations do not take into account variations in the interest rates at which you could reinvest distributions on the Certificates. Accordingly, these calculations do not illustrate the return on any investment in the Certificates when reinvestment rates are taken into account.

We cannot assure you that

- the pre-tax yields on the applicable Certificates will correspond to any of the pre-tax yields shown here, or
- the aggregate purchase price of the applicable Certificates will be as assumed.

In addition, because some of the Mortgage Loans are likely to have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal payments on the Certificates are likely to differ from those assumed. This would be the case even if all Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is unlikely that

- the Mortgage Loans will prepay at a constant PSA rate until maturity, or
- all of the Mortgage Loans will prepay at the same rate.

The yield to investors in the AI Class will be very sensitive to the rate of principal payments (including prepayments) of the Mortgage Loans. The Mortgage Loans generally can be prepaid at any time without penalty. On the basis of the assumptions described below, the yield to maturity on the AI Class would be 0% if prepayments of the Mortgage Loans were to occur at the constant rate shown in the table below:

<u>Class</u>	<u>% PSA</u>
AI .....	226% PSA

If the actual prepayment rate of the Mortgage Loans were to exceed the level specified for as little as one month while equaling that level for the remaining months, the investors in the AI Class would lose money on their initial investments.

The information shown in the yield table has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase price of the AI Class (expressed as a percentage of original principal balance) is as follows:

<u>Class</u>	<u>Price*</u>
AI .....	16.140625%

\* The price does not include accrued interest. Accrued interest has been added to the price in calculating the yields set forth in the table below.

#### Sensitivity of the AI Class to Prepayments

	<u>PSA Prepayment Assumption</u>				
	<u>50%</u>	<u>100%</u>	<u>196%</u>	<u>350%</u>	<u>500%</u>
Pre-Tax Yields to Maturity .....	26.9%	20.5%	5.3%	(24.6)%	(56.8)%

#### Weighted Average Lives of the Certificates

The weighted average life of a Certificate is determined by

- multiplying the amount of the reduction, if any, of the principal balance of the Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date,
- summing the results, and
- dividing the sum by the aggregate amount of the reductions in principal balance of the Certificate referred to in clause (a).

For a description of the factors which may influence the weighted average life of a Certificate, see “Description of Certificates—Weighted Average Life and Final Distribution Date” in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including

- the timing of changes in the rate of principal payments, and
- the priority sequence of payments of principal of the Classes.

See “—Distributions of Principal” above.

The effect of these factors may differ as to various Classes and the effects on any Class may vary at different times during the life of that Class. Accordingly, we can give no assurance as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent

discounts or premiums to their original principal balances, variability in the weighted average lives of those Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

### Decrement Tables

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each date shown at various constant PSA rates and the corresponding weighted average lives of those Classes. The tables have been prepared on the basis of the Pricing Assumptions. However, in the case of the information set forth for each Class under 0% PSA, we assumed that the underlying Mortgage Loans have the original and remaining term to maturity and bear interest at the annual rate specified in the table below.

<u>Original Term to Maturity</u>	<u>Remaining Term to Maturity</u>	<u>Interest Rate</u>
360 months	360 months	8.00%

It is unlikely

- that all of the underlying Mortgage Loans will have the interest rate, WALA or remaining term to maturity assumed or
- that the underlying Mortgage Loans will prepay at any *constant* PSA level.

In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA rates. This is the case even if the dispersion of weighted average remaining terms to maturity and the weighted average WALAs of the Mortgage Loans are identical to the dispersion specified in the Pricing Assumptions.

## Percent of Original Principal Balances Outstanding

Date	AN Class					BA Class					VA Class					VB Class

\* Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

\*\* Determined as specified under “—Weighted Average Lives of the Certificates” above.

† In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

## Characteristics of the R Class

The R Class will not have a principal balance and will not bear interest. If any assets of the Trust remain after the principal balances of all Classes are reduced to zero, we will pay the Holder of the R Class the proceeds from those assets. Fannie Mae does not expect that any material assets will remain in that case.

A Residual Certificate will be subject to certain transfer restrictions. We will not permit transfer of record or beneficial ownership of a Residual Certificate to a “disqualified organization.” In addition, we will not permit transfer of record or beneficial ownership of a Residual Certificate to any person that is not a “U.S. Person” or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate. Any transferee of a Residual Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 (or, if applicable, a Form W-8ECI) on which the transferee provides its taxpayer identification number. See “Description of Certificates—Special Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Residual Certificates*” in the REMIC Prospectus. The affidavit must also state that the transferee is a “U.S. Person” or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate and that, if the transferee is a partnership for U.S. federal income tax purposes, each person or entity that holds an interest (directly, or indirectly through a pass-through entity) in the partnership is a “U.S. Person” or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate. In addition, the transferee must receive an affidavit containing these same representations from any new transferee. Transferors of a Residual Certificate should consult with their own tax advisors for further information regarding such transfers.

Treasury Department regulations (the “Regulations”) provide that a transfer of a “noneconomic residual interest” will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R Class will constitute a noneconomic residual interest under the Regulations. Having a significant purpose to impede the assessment or collection of tax means that the transferor of a Residual Certificate knew or should have known that the transferee would be unwilling or unable to pay taxes due on its share of the taxable income of the REMIC trust (that is, the transferor had “improper knowledge”).

As discussed under the caption “Special Characteristics of Residual Certificates” in the REMIC Prospectus, the Regulations presume that a transferor does not have improper knowledge if two conditions are met. The Treasury Department has amended the Regulations to provide additional requirements that a transferor must satisfy to avail itself of the safe harbor regarding the presumed lack of improper knowledge. For transfers occurring on or after August 19, 2002, a transferor of a Residual Certificate is presumed not to have improper knowledge if, in addition to meeting the two conditions discussed in the REMIC Prospectus, both (i) the transferee represents that it will not cause income from the Residual Certificate to be attributed to a foreign permanent establishment or fixed base of the transferee or another taxpayer and (ii) the transfer satisfies either the “asset test” or the “formula test.” The representation described in (i) will be included in the affidavit discussed above. See “Description of Certificates—Special Characteristics of Residual Certificates” and “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Residual Certificates*” in the REMIC Prospectus.

A transfer satisfies the asset test if (i) the transferee’s gross assets exceed \$100 million and its net assets exceed \$10 million (in each case, at the time of the transfer and at the close of each of the transferee’s two fiscal years preceding the year of transfer), (ii) the transferee is an “eligible corporation” and the transferee agrees in writing that any subsequent transfer of the Residual Certificate will be to an eligible corporation and will comply with the safe harbor and satisfy the asset test, and (iii) the facts and circumstances known to the transferor do not reasonably indicate that the taxes associated with the Residual Certificate will not be paid. A transfer satisfies the formula test if the present value of the anticipated tax liabilities associated with holding the Residual Certificate is

less than or equal to the present value of the sum of (i) any consideration given to the transferee to acquire the Residual Certificate, (ii) expected future distributions on the Residual Certificate, and (iii) anticipated tax savings associated with holding the Residual Certificate as the related REMIC trust generates losses. The Regulations contain additional details regarding their application and you should consult your own tax advisor regarding the application of the Regulations to a transfer of a Residual Certificate.

The Holder of the R Class will be considered to be the holder of the “residual interest” in the REMIC constituted by the Trust. See “Certain Federal Income Tax Consequences” in the REMIC Prospectus. Pursuant to the Trust Agreement, we will be obligated to provide to that Holder (i) information necessary to enable it to prepare its federal income tax returns and (ii) any reports regarding the R Class that may be required under the Code.

### **CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES**

The Certificates and payments on the Certificates are not generally exempt from taxation. Therefore, you should consider the tax consequences of holding a Certificate before you acquire one. The following tax discussion supplements the discussion under the caption “Certain Federal Income Tax Consequences” in the REMIC Prospectus. When read together, the two discussions describe the current federal income tax treatment of beneficial owners of Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of beneficial owners, some of which may be subject to special rules. In addition, these discussions may not apply to your particular circumstances for one of the reasons explained in the REMIC Prospectus. You should consult your own tax advisors regarding the federal income tax consequences of holding and disposing of Certificates as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

#### **U.S. Treasury Circular 230 Notice**

The tax discussions contained in the REMIC Prospectus (including the sections entitled “Certain Federal Income Tax Consequences” and “ERISA Considerations”) and this prospectus supplement were not intended or written to be used, and cannot be used, for the purpose of avoiding United States federal tax penalties. These discussions were written to support the promotion or marketing of the transactions or matters addressed in this prospectus supplement. You should seek advice based on your particular circumstances from an independent tax advisor.

#### **REMIC Election and Special Tax Attributes**

We will elect to treat the Trust as a REMIC for federal income tax purposes. The REMIC Certificates, other than the R Class, will be designated as the “regular interests,” and the R Class will be designated as the “residual interest,” in the REMIC constituted by the Trust.

Because the Trust will qualify as a REMIC, the REMIC Certificates and any related RCR Certificates generally will be treated as “regular or residual interests in a REMIC” for domestic building and loan associations, as “real estate assets” for real estate investment trusts, and, except for the R Class, as “qualified mortgages” for other REMICs. See “Certain Federal Income Tax Consequences—*REMIC Election and Special Tax Attributes*” in the REMIC Prospectus.

#### **Taxation of Beneficial Owners of Regular Certificates**

The Accrual Class will be issued with original issue discount (“OID”), and certain other Classes of REMIC Certificates may be issued with OID. If a Class is issued with OID, a beneficial owner of a Certificate of that Class generally must recognize some taxable income in advance of the receipt of the cash attributable to that income. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates*—Treatment of Original Issue Discount” in the REMIC

Prospectus. In addition, certain Classes of REMIC Certificates may be treated as having been issued at a premium. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates*—Regular Certificates Purchased at a Premium” in the REMIC Prospectus.

The Prepayment Assumption that will be used in determining the rate of accrual of OID will be 196% PSA. See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates*—Treatment of Original Issue Discount—*Daily Portions of Original Issue Discount*” in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at that rate or any other rate. See “Description of the Certificates—Weighted Average Lives of the Certificates” in this prospectus supplement and “Description of Certificates—Weighted Average Life and Final Distribution Date” in the REMIC Prospectus.

### **Taxation of Beneficial Owners of Residual Certificates**

For purposes of determining the portion of the taxable income of the Trust that generally will not be treated as excess inclusions, the rate to be used is 5.43% (which is 120% of the “federal long-term rate”). See “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Residual Certificates*—Treatment of Excess Inclusions” and “—*Foreign Investors*—Residual Certificates” in the REMIC Prospectus.

The Treasury Department recently issued Regulations providing that, to clearly reflect income, an inducement fee paid to a transferee of a noneconomic residual interest in a REMIC must be included in income over a period that is reasonably related to the period during which the applicable REMIC is expected to generate taxable income or net loss allocable to the transferee. The Regulations set forth two safe harbor methods under which a taxpayer’s accounting for the inducement fee will be considered to clearly reflect income for these purposes. In addition, under the Regulations an inducement fee shall be treated as income from sources within the United States. The Regulations, which are effective for taxable years ending on or after May 11, 2004, contain additional details regarding their application. You should consult your own tax advisor regarding the application of the Regulations to the transfer of a Residual Certificate.

### **Taxation of Beneficial Owners of RCR Certificates**

*General.* The RCR Classes will be created, sold and administered pursuant to an arrangement that will be classified as a grantor trust under subpart E, part I of subchapter J of the Code. The REMIC Certificates that are exchanged for RCR Certificates (including any exchanges effective on the Settlement Date) will be the assets of the trust, and the RCR Certificates will represent an ownership interest in those REMIC Certificates. For a general discussion of the federal income tax treatment of beneficial owners of REMIC Certificates, see “Certain Federal Income Tax Consequences” in the REMIC Prospectus.

The RCR Classes will represent the beneficial ownership of the underlying REMIC Certificates set forth in Schedule 1. The ownership interest represented by RCR Certificates will be one of two types. A Certificate of a Strip RCR Class (a “Strip RCR Certificate”) will represent the right to receive a disproportionate part of the principal or interest payments on one or more underlying REMIC Certificates. A Certificate of a Combination RCR Class (a “Combination RCR Certificate”) will represent beneficial ownership of undivided interests in two or more underlying REMIC Certificates.

The AB and AI Classes are Strip RCR Classes. The other RCR Classes are Combination RCR Classes.

*Strip RCR Classes.* The tax consequences to a beneficial owner of a Strip RCR Certificate will be determined under section 1286 of the Code, except as discussed below. Under section 1286, a beneficial owner of a Strip RCR Certificate will be treated as owning “stripped bonds” to the extent of its share of principal payments and “stripped coupons” to the extent of its share of interest payments on the

underlying REMIC Certificates. If a Strip RCR Certificate entitles the holder to payments of principal and interest on an underlying REMIC Certificate, the IRS could contend that the Strip RCR Certificate should be treated (i) as an interest in the underlying REMIC Certificate to the extent that the Strip RCR Certificate represents an equal pro rata portion of principal and interest on the underlying REMIC Certificate, and (ii) with respect to the remainder, as an installment obligation consisting of “stripped bonds” to the extent of its share of principal payments or “stripped coupons” to the extent of its share of interest payments. For purposes of information reporting, however, Fannie Mae intends to treat each Strip RCR Certificate as a single debt instrument, regardless of whether it entitles the holder to payments of principal and interest. You should consult your own tax advisors as to the proper treatment of a Strip RCR Certificate in this regard.

Under section 1286, the beneficial owner of a Strip RCR Certificate must treat the Strip RCR Certificate as a debt instrument originally issued on the date the owner acquires it and as having OID equal to the excess, if any, of its “stated redemption price at maturity” over the price paid by the owner to acquire it. The stated redemption price at maturity for a Strip RCR Certificate is determined in the same manner as described with respect to Regular Certificates under “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates*—Treatment of Original Issue Discount” in the REMIC Prospectus.

If a Strip RCR Certificate has OID, the beneficial owner must include the OID in its ordinary income for federal income tax purposes as the OID accrues, which may be prior to the receipt of the cash attributable to that income. Although the matter is not entirely clear, a beneficial owner should accrue OID using a method similar to that described with respect to the accrual of OID on a Regular Certificate under “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates*—Treatment of Original Issue Discount” in the REMIC Prospectus. A beneficial owner, however, determines its yield to maturity based on its purchase price. For a particular beneficial owner, it is not clear whether the prepayment assumption used for calculating OID would be one determined at the time the Strip RCR Certificate is acquired or would be the original Prepayment Assumption for the underlying REMIC Certificates. For purposes of information reporting, Fannie Mae will use the original yield to maturity of the Strip RCR Certificate, calculated based on the original Prepayment Assumption. You should consult your own tax advisors regarding the proper method for accruing OID on a Strip RCR Certificate.

The rules of section 1286 of the Code also apply if (i) a beneficial owner of REMIC Certificates exchanges them for Strip RCR Certificates, (ii) the beneficial owner sells some, but not all, of the Strip RCR Certificates, and (iii) the combination of retained Strip RCR Certificates cannot be exchanged for the related REMIC Certificates. As of the date of such a sale, the beneficial owner must allocate its basis in the REMIC Certificates between the part of the REMIC Certificates underlying the Strip RCR Certificates sold and the part of the REMIC Certificates underlying the Strip RCR Certificates retained in proportion to their relative fair market values. Section 1286 of the Code treats the beneficial owner as purchasing the Strip RCR Certificates retained for the amount of the basis allocated to the retained Certificates, and the beneficial owner must then accrue any OID with respect to the retained Certificates as described above. Section 1286 does not apply, however, if a beneficial owner exchanges REMIC Certificates for the related RCR Certificates and retains all the RCR Certificates, see “—*Exchanges*” below.

Upon the sale of a Strip RCR Certificate, a beneficial owner will realize gain or loss on the sale in an amount equal to the difference between the amount realized and its adjusted basis in the Certificate. The owner’s adjusted basis generally is equal to the owner’s cost of the Certificate (or portion of the cost of REMIC Certificates allocable to the RCR Certificate), increased by income previously included, and reduced (but not below zero) by distributions previously received and by any amortized premium. If the beneficial owner holds the Certificate as a capital asset, any gain or loss realized will be capital gain or loss, except to the extent provided under “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates*—Sales and Other Dispositions of Regular Certificates” in the REMIC Prospectus.

Although the matter is not free from doubt, if a beneficial owner acquires in one transaction (other than an exchange described under “—Taxation of Beneficial Owners of RCR Certificates—*Exchanges*”) a combination of Strip RCR Certificates that may be exchanged for underlying REMIC Certificates, the owner should be treated as owning the underlying REMIC Certificates, in which case section 1286 would not apply. If a beneficial owner acquires such a combination in separate transactions, the law is unclear as to whether the combination should be aggregated or each Strip RCR Certificate should be treated as a separate debt instrument. You should consult your tax advisors regarding the proper treatment of Strip RCR Certificates in this regard. For the treatment of Strip RCR Certificates received in exchange for REMIC Certificates, see “—*Exchanges*” below.

**Combination RCR Classes.** A beneficial owner of a Combination RCR Certificate will be treated as the beneficial owner of a proportionate interest in the REMIC Certificates underlying that Combination RCR Certificate. Except in the case of a beneficial owner that acquires a Combination RCR Certificate in an exchange described under “—*Exchanges*” below, a beneficial owner of a Combination RCR Certificate must allocate its cost to acquire that Certificate among the underlying REMIC Certificates in proportion to their relative fair market values at the time of acquisition. Such an owner should account for its ownership interest in each underlying REMIC Certificate as described under “—Taxation of Beneficial Owners of Regular Certificates” above and “Certain Federal Income Tax Consequences—*Taxation of Beneficial Owners of Regular Certificates*” in the REMIC Prospectus. When a beneficial owner sells a Combination RCR Certificate, the owner must allocate the sale proceeds among the underlying REMIC Certificates in proportion to their relative fair market values at the time of sale.

**Exchanges.** If a beneficial owner exchanges one or more REMIC Certificates for the related RCR Certificate or Certificates in the manner described under “Description of the Certificates—Combination and Recombination” in this prospectus supplement, the exchange will not be taxable. Likewise, if a beneficial owner exchanges one or more RCR Certificates for the related REMIC Certificate or Certificates in the manner described in that discussion, the exchange will not be a taxable exchange. In each of these cases, the beneficial owner will be treated as continuing to own after the exchange the same combination of interests in the related REMIC Certificates (or the same interest in the related REMIC Certificate) that it owned immediately prior to the exchange.

## **Tax Return Disclosure Requirements**

Treasury Department Regulations that are directed at “tax shelters” could be read to apply to transactions generally not considered to be tax shelters. These Regulations require that taxpayers that participate in a “reportable transaction” disclose such transaction on their tax returns by attaching IRS Form 8886 and retain information related to the transaction. A transaction may be a “reportable transaction” based upon any of several indicia, one or more of which may be present with respect to the Certificates. You should consult your own tax advisor concerning any possible disclosure obligation with respect to your investment in the Certificates.

## **PLAN OF DISTRIBUTION**

**General.** We are obligated to deliver the Certificates to Goldman, Sachs & Co. (the “Dealer”) in exchange for the MBS. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect these transactions to or through other dealers.

**Increase in Certificates.** Before the Settlement Date, we and the Dealer may agree to offer Classes in addition to those contemplated as of the date of this prospectus supplement. In this event, we will increase the MBS in principal balance, but we expect that all these additional MBS will have the same characteristics as described under “Description of the Certificates—The MBS” in this

prospectus supplement. The proportion that the original principal balance of each Class bears to the aggregate original principal balance of all Classes will remain the same.

#### **LEGAL MATTERS**

Sidley Austin LLP will provide legal representation for Fannie Mae. Cleary Gottlieb Steen & Hamilton LLP will provide legal representation for the Dealer.

- (1) In any exchange, the relative proportions of the REMIC Certificates to be delivered (or if applicable, received) in such exchange will equal the proportions reflected by the outstanding principal balances of the related REMIC Classes at the time of exchange.
- (2) If, as a result of a proposed exchange, a Certificateholder would hold a REMIC Certificate or RCR Certificate of a Class in an amount less than the applicable minimum denomination for that Class, the Certificateholder will be unable to effect the proposed exchange. See “Description of the Certificates—General—*Authorized Denominations*,” in this prospectus supplement.
- (3) See “Description of Certificates—Class Definitions and Abbreviations” in the REMIC Prospectus and “Description of the Certificates—Distributions of Interest” and “—Distributions of Principal” same proportionate relationship as that borne by the original balances of the related Classes.
- (4) Notional principal balance.

No one is authorized to give information or to make representations in connection with the Certificates other than the information and representations contained in this Prospectus Supplement and the additional Disclosure Documents. You must not rely on any unauthorized information or representation. This Prospectus Supplement and the additional Disclosure Documents do not constitute an offer or solicitation with regard to the Certificates if it is illegal to make such an offer or solicitation to you under state law. By delivering this Prospectus Supplement and the additional Disclosure Documents at any time, no one implies that the information contained herein or therein is correct after the date hereof or thereof.

The Securities and Exchange Commission has not approved or disapproved the Certificates or determined if this Prospectus Supplement is truthful and complete. Any representation to the contrary is a criminal offense.
