# Guaranteed REMIC Pass-Through Certificates Fannie Mae REMIC Trust 2006-56

#### The Certificates

We, the Federal National Mortgage Association (Fannie Mae), will issue the classes of certificates listed in the chart on this page.

#### **Payments to Certificateholders**

We will make monthly payments on the certificates. You, the investor, will receive

- interest accrued on the balance of your certificate (except in the case of the accrual classes), and
- principal to the extent available for payment on your class.

We may pay principal at rates that vary from time to time. We may not pay principal to certain classes for long periods of time.

#### The Fannie Mae Guaranty

We will guarantee that required payments of principal and interest on the certificates are distributed to investors on time.

#### The Trust and its Assets

The trust will own

- Fannie Mae MBS, and
- an underlying REMIC certificate backed by Fannie Mae MBS.

The mortgage loans underlying the Fannie Mae MBS are first lien, single-family, fixed-rate loans.

Carefully consider the risk factors starting on page S-14 of this prospectus supplement and on page 10 of the REMIC prospectus. Unless you understand and are able to tolerate these risks, you should not invest in the certificates.

You should read the REMIC prospectus as well as this prospectus supplement.

The certificates, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any agency or instrumentality thereof other than Fannie Mae.

The certificates are exempt from registration under the Securities Act of 1933 and are "exempted securities" under the Securities Exchange Act of 1934.

If you own certificates of certain classes, you can exchange them for the corresponding RCR certificates to be issued at the time of the exchange. The F, BT, PS, SF, UF, YF, CB, FG, JS, PC, FX, FY, QF, SD, SJ, SM, WF, XF, XG, SK, SP, SW, SY, TE and TW Classes are the RCR classes, as further described in this prospectus supplement.

The dealer will offer the certificates from time to time in negotiated transactions at varying prices. We expect the settlement date to be June 30, 2006.

#### AVAILABLE INFORMATION

You should purchase the certificates only if you have read and understood this prospectus supplement and the following documents (the "Disclosure Documents"):

- our Prospectus for Fannie Mae Guaranteed REMIC Pass-Through Certificates dated May 1, 2002 (the "REMIC Prospectus");
- our Prospectus for Fannie Mae Guaranteed Mortgage Pass-Through Certificates (Single-Family Residential Mortgage Loans) dated January 1, 2006 (the "MBS Prospectus");
- if you are purchasing a Group 3 Class or the R or RL Class, the disclosure document relating to the Group 3 Underlying REMIC Certificate (the "Underlying REMIC Disclosure Document"); and
- any information incorporated by reference in this prospectus supplement as discussed below under the heading "Incorporation by Reference."

You can obtain copies of the Disclosure Documents by writing or calling us at:

Fannie Mae MBS Helpline 3900 Wisconsin Avenue, N.W., Area 2H-3S Washington, D.C. 20016 (telephone 1-800-237-8627).

In addition, the Disclosure Documents, together with the class factors, are available on our corporate Web site at www.fanniemae.com.

You also can obtain copies of the REMIC Prospectus or the MBS Prospectus by writing or calling the dealer at:

Bear Stearns & Co. Inc. c/o ADP Financial Services Prospectus Department 1155 Long Island Avenue Edgewood, New York 11717 (telephone 631-254-7106).

#### INCORPORATION BY REFERENCE

In this prospectus supplement, we are incorporating by reference the MBS Prospectus and the Underlying Disclosure Document described above. In addition, we are incorporating by reference the documents listed below. This means that we are disclosing information to you by referring you to these documents. These documents are considered part of this prospectus supplement, so you should read this prospectus supplement, and any applicable supplements or amendments, together with these documents.

You should rely only on the information provided or incorporated by reference in this prospectus supplement, the REMIC Prospectus, the MBS Prospectus and any applicable supplements or amendments.

We incorporate by reference the following documents we have filed, or may file, with the Securities and Exchange Commission ("SEC"):

- our Annual Report on Form 10-K for the fiscal year ended December 31, 2003 ("Form 10-K");
- all other reports we have filed pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 since the end of the fiscal year covered by the Form 10-K until the date of this prospectus supplement, excluding any information "furnished" to the SEC on Form 8-K; and

• all proxy statements that we file with the SEC and all documents that we file with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 subsequent to the date of this prospectus supplement and prior to the completion of the offering of the certificates, excluding any information we "furnish" to the SEC on Form 8-K.

Any information incorporated by reference in this prospectus supplement is deemed to be modified or superseded for purposes of this prospectus supplement to the extent information contained or incorporated by reference in this prospectus supplement modifies or supersedes such information. In such case, the information will constitute a part of this prospectus supplement only as so modified or superseded.

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You can obtain copies of the periodic reports we file with the SEC without charge by calling or writing our Office of Investor Relations, Fannie Mae, 3900 Wisconsin Avenue, NW, Washington, DC 20016, telephone: (202) 752-7115. The periodic and current reports that we file with the SEC are also available on our Web site. Information appearing on our Web site is not incorporated in this prospectus supplement except as specifically stated in this prospectus supplement.

In addition, you may read our SEC filings and other information about Fannie Mae at the offices of the New York Stock Exchange, the Chicago Stock Exchange and the Pacific Exchange. Our SEC filings are also available at the SEC's Web site at www.sec.gov. We are providing the address of the SEC's Web site solely for the information of prospective investors. Information appearing on the SEC's Web site is not incorporated in this prospectus supplement except as specifically stated in this prospectus supplement.

#### RECENT DEVELOPMENTS

Our safety and soundness regulator, the Office of Federal Housing Enterprise Oversight ("OFHEO"), announced in July 2003 that it was conducting a special examination of our accounting policies and practices, and in September 2004 issued a preliminary report of its findings to date. OFHEO subsequently identified additional accounting and internal control issues in February 2005, and issued its Report of the Special Examination of Fannie Mae (the "OFHEO Report") on May 23, 2006.

On December 22, 2004, we reported that the Audit Committee of our Board of Directors (the "Board") had determined that our previously filed interim and audited financial statements and the independent auditor's reports thereon for the period from January 2001 through the second quarter of 2004 should no longer be relied upon because such financial statements were prepared using accounting principles that did not comply with U.S. generally accepted accounting principles ("GAAP"). We have subsequently initiated an extensive restatement and re-audit of our financial statements with our new independent auditor, Deloitte & Touche LLP. We anticipate that the impact of the restatement will be material to Fannie Mae's financial statements for many, if not all, of the periods involved.

Our Board and management have initiated numerous internal and external reviews of our accounting processes and controls, our financial reporting processes, and our application of GAAP. See "Risk Factors—There are numerous ongoing internal reviews and external investigations of Fannie Mae" in the MBS Prospectus. One of these external investigations was conducted by the law firm of Paul, Weiss, Rifkind, Wharton & Garrison LLP ("Paul Weiss"), under the direction of former U.S. Senator Warren Rudman. On February 23, 2006, the Paul Weiss report to the Special Committee of the Board was publicly released, and included numerous findings about Fannie Mae's accounting policies, practices and systems, compensation practices, corporate governance, and internal controls. On February 24, 2006, we filed a Form 8-K with the U.S. Securities and Exchange Commission (the "SEC") that includes the Paul Weiss report.

The OFHEO Report presents OFHEO's findings about Fannie Mae's corporate culture, executive compensation programs, accounting policies and internal controls, internal and external auditors, senior management, and the Board. In conjunction with the release of the OFHEO Report, Fannie Mae entered into settlement agreements with both OFHEO and the SEC on May 23, 2006. The settlement agreements require Fannie Mae to pay civil penalties totaling \$400 million. In addition, the settlement agreement with OFHEO requires Fannie Mae to undertake certain remedial actions within a specified time frame to address the recommendations contained in the OFHEO Report, including an undertaking by Fannie Mae not to increase its "mortgage portfolio" assets except as permitted by a plan to be submitted by Fannie Mae for approval by OFHEO. The settlement agreements constitute comprehensive settlements between Fannie Mae and both OFHEO and the SEC relating to the activities of Fannie Mae during the time period in question. Investigations into our accounting policies and practices and our financial reporting continue with the U.S. Attorney's Office for the District of Columbia. Please refer to our Form 8-K filed with the SEC on May 30, 2006 for further information about the OFHEO Report and the settlement agreements. A complete copy of the OFHEO Report is available on OFHEO's website at www.ofheo.gov.

We have not filed Quarterly Reports on Form 10-Q for the third quarter of 2004, the first, second and third quarters of 2005, or the first quarter of 2006, nor have we filed our Annual Reports on Form 10-K for the years ended December 31, 2004 or December 31, 2005. As we most recently reported in the Current Report on Form 8-K filed with the SEC on June 15, 2006, we currently estimate that we will complete our financial restatement by the end of 2006. See "Risk Factors—There is a lack of financial information about us available in the market" in the MBS Prospectus.

Forms 8-K that we file with the SEC prior to the completion of the offering of the certificates are incorporated by reference in this prospectus supplement. This means that we are disclosing information to you by referring you to those documents. You should refer to "Incorporation by Reference" above for further details on the information that we incorporate by reference in this prospectus supplement and where to find it.

#### REFERENCE SHEET

This reference sheet is not a summary of the transaction and does not contain complete information about the certificates. You should purchase the certificates only after reading this prospectus supplement and each of the additional disclosure documents listed on page S-3.

## **Assets Underlying Each Group of Classes**

Group	Assets
1	Group 1 MBS
2	Group 2 MBS
3	Class 2006-16-HV REMIC Certificate
4	Group 4 MBS
5	Group 5 MBS
6	Group 6 MBS

Assumed Characteristics of the Mortgage Loans Underlying the Trust MBS (as of June 1, 2006)

	Approximate Principal Balance	Original Term to Maturity (in months)	Approximate Weighted Average Remaining Term to Maturity (in months)	Approximate Weighted Average Loan Age (in months)	Approximate Weighted Average Coupon
Group 1 MBS	\$170,210,526	360	300	50	7.050%
Group 2 MBS	\$210,000,000	360	306	45	7.050%
Group 4 MBS	\$300,000,000	360	298	53	7.035%
Group 5 MBS	\$252,551,000	360	298	53	7.035%
Group 6 MBS	\$254,545,455	360	323	32	5.930%

The actual remaining terms to maturity, weighted average loan ages and interest rates of most of the mortgage loans will differ from the weighted averages shown above, perhaps significantly.

# Characteristics of the Group 3 Underlying REMIC Certificate

Exhibit A describes the Group 3 Underlying REMIC Certificate, including certain information about the related mortgage loans. To learn more about the Group 3 Underlying REMIC Certificate, you should obtain from us the current class factor and the related disclosure document as described on page S-3.

### **Class Factors**

The class factors are numbers that, when multiplied by the initial principal balance of a certificate, can be used to calculate the current principal balance of that certificate (after taking into account principal payments in the same month). We publish the class factors on or shortly after the 11th day of each month.

### **Settlement Date**

We expect to issue the certificates on June 30, 2006.

#### **Distribution Dates**

We will make payments on the certificates on the 25th day of each calendar month, or on the next business day if the 25th day is not a business day.

#### **Book-Entry and Physical Certificates**

We will issue the book-entry certificates through the U.S. Federal Reserve Banks, which will electronically track ownership of the certificates and payments on them. We will issue physical certificates in registered, certificated form.

We will issue the classes of certificates in the following forms:

Fed Book-Entry	Physical
All classes of certificates other	R and RL Classes
than the R and RL Classes	

### **Exchanging Certificates Through Combination and Recombination**

If you own certain certificates, you will be able to exchange them for a proportionate interest in the related RCR certificates as shown on Schedule 1. We will issue the RCR certificates upon such exchange. You can exchange your certificates by notifying us and paying an exchange fee. We use the principal and interest of the certificates exchanged to pay principal and interest on the related RCR certificates. Schedule 1 lists the available combinations of the certificates eligible for exchange and the related RCR certificates.

#### **Interest Rates**

During each interest accrual period, the fixed rate classes will bear interest at the applicable annual interest rates listed on the cover of this prospectus supplement or on Schedule 1.

During the initial interest accrual period, the floating rate, inverse floating rate and toggle classes will bear interest at the initial interest rates listed below. During subsequent interest accrual periods, the floating rate, inverse floating rate and toggle classes will bear interest based on the formulas indicated below, but always subject to the specified maximum and minimum interest rates:

Class	Initial Interest Rate	Maximum Interest Rate	Minimum Interest Rate	Formula for Calculation of Interest Rate(1)
FH	5.33875%	7.50000%	0.28%	LIBOR + 28 basis points

(1) We will establish LIB	OR on the hasis	of the "BRA Me	ethod "	

<sup>(1)</sup> We will establish LIBOR on the basis of the "BBA Method."

<sup>(2)</sup> For the first 24 interest accrual periods, the applicable interest rate for the AF class will be 0.0%. For each interest accrual period thereafter, the applicable interest rate for the AF Class will be determined as follows:

Applicable Rate
0.00%
7.85%

(3) The applicable interest rate for the AT Class during each interest accrual period will be determined as follows:

#### If LIBOR is:

#### Applicable Rate or Formula

Less than or equal to 7.00% Greater than 7.00% and less than 7.60% Greater than or equal to 7.60%  $\begin{array}{c} 0.60\% \\ 7.6\% - \text{LIBOR} \\ 0.00\% \end{array}$ 

(4) For the first 24 interest accrual periods, the minimum interest rate for the TF Class will be 0.45% and the applicable formula will be LIBOR + 45 basis points. For each interest accrual period thereafter, the applicable interest rate for the TF Class will be determined as follows:

#### If LIBOR is:

## Applicable Formula or Rate

Less than or equal to 7.60% Greater than 7.60%

LIBOR + 45 basis points\* 0.20%

(5) The applicable interest rate for the TI Class during each interest accrual period will be determined as follows:

#### If LIBOR is:

#### Applicable Rate or Formula

Less than or equal to 6.65%Greater than 6.65% and less than 7.00%Greater than or equal to 7.00%

0.35% 7% — LIBOR 0.00%

(6) The applicable interest rate for the BF Class during each interest accrual period will be determined as follows:

#### If LIBOR is:

#### **Applicable Rate**

Less than or equal to 7.50% Greater than 7.50% 0.00% 4.25%

(7) The applicable interest rate for the DC Class during each interest accrual period will be determined as follows:

#### If LIBOR is:

### Applicable Rate or Formula

Less than or equal to 8.00% Greater than 8.00%

LIBOR + 65 basis points 4.00%

(8) The applicable interest rate for the DF Class during each interest accrual period will be determined as follows:

#### If LIBOR is:

# Applicable Rate

Less than or equal to 8.00% Greater than 8.00%

0.00% 4.25%

(9) The applicable interest rate for the FT Class during each interest accrual period will be determined as follows:

#### If LIBOR is:

#### Applicable Rate or Formula

Less than or equal to 7.50% Greater than 7.50%

LIBOR + 75 basis points 4.00%

(10) The applicable interest rate for the IT Class during each interest accrual period will be determined as follows:

#### If LIBOR is:

#### Applicable Rate or Formula

Less than or equal to 6.75%Greater than 6.75% and less than 7.50%Greater than or equal to 7.50% 0.75% 7.5% – LIBOR 0.00%

<sup>\*</sup> Subject to a minimum interest rate of 0.45%

(11) The applicable interest rate for the TD Class during each interest accrual period will be determined as follows:

### If LIBOR is:

#### Applicable Rate or Formula

Less than or equal to 6.75%Greater than 6.75% and less than 7.60%Greater than or equal to 7.60%  $0.85\% \\ 7.6\% - \text{LIBOR} \\ 0.00\%$ 

(12) For the first 24 interest accrual periods, the applicable interest rate for the SF Class will be 0.0%. For each interest accrual period thereafter, the applicable interest rate for the SF Class will be determined as follows:

If LIBOR is:

Applicable Rate

Less than or equal to 7.60% Greater than 7.60%

0.00% 58.93465%

(13) For the first 24 interest accrual periods, the applicable interest rate for the YF Class will be 0.0%. For each interest accrual period thereafter, the applicable interest rate for the YF Class will be determined as follows:

If LIBOR is:

**Applicable Rate** 

Less than or equal to 7.60% Greater than 7.60%

0.00% 32.91935%

(14) The applicable interest rate for the QF Class during each interest accrual period will be determined as follows:

If LIBOR is:

Applicable Rate

Less than or equal to 8.00% Greater than 8.00% 0.00% 15.78574%

(15) The applicable interest rate for the WF Class during each interest accrual period will be determined as follows:

If LIBOR is:

**Applicable Rate** 

Less than or equal to 7.50% Greater than 7.50% 0.00% 15.78574%

(16) The applicable interest rate for the XF Class during each interest accrual period will be determined as follows:

If LIBOR is:

Applicable Rate or Formula

Less than or equal to 8.00% Greater than 8.00%

0.00% 56.66667%

(17) The applicable interest rate for the XG Class during each interest accrual period will be determined as follows:

If LIBOR is:

Applicable Rate or Formula

Less than or equal to 7.50% Greater than 7.50%

0.00% 45.53565%

We will apply interest payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

#### **Notional Classes**

A notional class will not receive any principal. Its notional principal balance is the balance used to calculate accrued interest. The notional principal balances will equal the percentages of the outstanding balances specified below immediately before the related distribution date:

Class	
TH	100% of the FH Class
S	100% of the FH Class
SA	100% of the sum of the FA and FB Classes
AF	100% of the TF Class
AT	100% of the TF Class
PS	100% of the sum of the PF and TF Classes
SC	100% of the PF Class
SL	100% of the TF Class
TI	100% of the TF Class
AS	100% of the CF Class
CS	100% of the FC Class
CT	100% of the CF Class
JS	100% of the CF Class
BF	100% of the FT Class
DF	100% to the DC Class
DS	100% of the FT Class
ES	100% of the FD Class
IT	100% of the FT Class
KS	100% of the DC Class
SM	100% of the sum of the DC, FD and FT Classes
TD	100% of the DC Class
ET	600.000507747% of the EO Class
SE	100% of the EO Class
SG	366.666657309% of the OG Class

## **Distributions of Principal**

Group 1 Principal Distribution Amount

Group 1 Cash Flow Distribution Amount

On each Distribution Date, we will pay 42.8571426893% of the Group 1 Cash Flow Distribution Amount to the FH Class to zero.

ZA Accrual Amount and Remaining Group 1 Cash Flow Distribution Amount

On each Distribution Date, we will pay 57.1428573107% of the Group 1 Cash Flow Distribution Amount, together with the entire ZA Accrual Amount, in the following priority:

 $\mathit{first}$ , to the FA and FB Classes, pro rata, to zero; and

second, to the ZA Class to zero.

## Group 2 Principal Distribution Amount

Group 2 Cash Flow Distribution Amount

To Aggregate Group I to its Planned Balance.

Z Accrual Amount and Remaining Group 2 Cash Flow Distribution Amount

- 1. To the TF and OB Classes, pro rata, to zero.
- 2. To the Z Class to zero.
- 3. To Aggregate Group I to zero.

For a description of Aggregate Group I, see "Description of the Certificates—Distributions of Principal—Group 2 Principal Distribution Amount" in this prospectus supplement.

### Group 3 Principal Distribution Amount

To the BA and OA Classes, pro rata, to zero.

# Group 4 Principal Distribution Amount

- (a) 33.333333333% of such amount to the FC Class to zero, and
- (b) 66.666666667% of such amount in the following priority:

first, to Aggregate Group II to its Planned Balance;

second, to the CA Class to its Planned Balance;

third, to the FL and LS Classes, pro rata, to zero;

fourth, to the CA Class to zero; and

fifth, to Aggregate Group II to zero.

For a description of Aggregate Group II, see "Description of the Certificates—Distributions of Principal—Group 4 Principal Distribution Amount" in this prospectus supplement.

## Group 5 Principal Distribution Amount

- 1. To Aggregate Group III to its Targeted Balance.
- 2. To Aggregate Group IV to its Targeted Balance.
- 3. To the ZD Class to zero.
- 4. To Aggregate Group IV to zero.
- 5. To Aggregate Group III to zero.

For a description of Aggregate Group III and Aggregate Group IV, see "Description of the Certificates—Distributions of Principal—Group 5 Principal Distribution Amount" in this prospectus supplement.

# Group 6 Principal Distribution Amount

- (a) 78.5714284311% of such amount to the FE Class to zero, and
- (b) 21.4285715689% of such amount in the following priority:

first, to the OG Class to its Planned Balance;

second, (x) 38.888874211% of the remaining amount to the OE Class to zero, and

# (y) 61.1111125789% of such remaining amount as follows:

<u>first</u>, to the SH Class to its Planned Balance; <u>second</u>, to the EO Class to zero; and third, to the SH Class to zero; and

third, to the OG Class to zero.

We will apply principal payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

<sup>\*</sup> Determined as specified under "Description of the Certificates—Weighted Average Lives of the Certificates" in this prospectus supplement.

#### ADDITIONAL RISK FACTORS

The rate of principal payments on the certificates will be affected by the rate of principal payments on the underlying mortgage loans. The rate at which you receive principal payments on the certificates will be sensitive to the rate of principal payments on the mortgage loans underlying the related MBS, including prepayments. Because borrowers generally may prepay their mortgage loans at any time without penalty, the rate of principal payments on the mortgage loans is likely to vary over time. It is highly unlikely that the mortgage loans will prepay

- at any of the prepayment rates we assumed in this prospectus supplement, or
- at any constant prepayment rate until maturity.

Payments on the Group 3 Classes also will be affected by the payment priority governing the Group 3 Underlying REMIC Certificate. If you invest in either Group 3 Class, the rate at which you receive payments also will be affected by the priority sequence governing principal payments on the Group 3 Underlying REMIC Certificate.

As described in the related disclosure document, the Group 3 Underlying REMIC Certificate is subsequent in payment priority to other classes issued from the related underlying REMIC trust. As a result, such other classes may receive principal before principal is paid on the Group 3 Underlying REMIC Certificate, possibly for long periods.

You may obtain additional information about the Group 3 Underlying REMIC Certificate by reviewing its current class factor in light of other information available in the related disclosure document. You may obtain that document from us as described on page S-3.

Yields may be lower than expected due to unexpected rate of principal payments. The actual yield on your certificates probably will be lower than you expect:

 if you buy your certificates at a premium and principal payments are faster than you expect, or  if you buy your certificates at a discount and principal payments are slower than you expect.

Furthermore, in the case of interest only certificates and certificates purchased at a premium, you could lose money on your investment if prepayments occur at a rapid rate.

Recent hurricanes in the Gulf Coast region may present risk of increased mortgage loan prepayments. In August and September 2005, Hurricane Katrina and Hurricane Rita and related events caused catastrophic damage to extensive areas along the Gulf Coast of the United States, including portions of coastal and inland Alabama, Florida, Louisiana, Mississippi and Texas. Hundreds of thousands of people have been displaced and interruptions in the regional economy have been significant. Although the long-term effects are unclear, these events could lead to a general economic downturn in the Gulf Coast region, including job losses and declines in real estate values. Accordingly, defaults on any mortgage loans in the affected areas may increase, in turn resulting in early payments of principal of the certificates backed by those mortgage loans. Additionally, casualty losses on mortgage properties with hurricane or flood damage may result in early payment of principal of the related certificates.

You must make your own decisions about the various applicable assumptions, including prepayment assumptions, when deciding whether to purchase the certificates.

Weighted average lives and yields on the certificates are affected by actual characteristics of the underlying mortgage loans. We have assumed that the mortgage loans underlying the Trust MBS have certain characteristics. However, the actual mortgage loans probably will have different characteristics from those we assumed. As a result, your yields could be lower than you expect, even if the mortgage loans prepay at the indicated constant prepayment rates. In addition, slight differences between the assumed mortgage loans could affect the weighted average lives of the classes of certificates.

Level of floating rate index affects yields on certain certificates. The yield on any floating rate, inverse floating rate or toggle certificate will be affected by the level of its interest rate index. If the level of the index differs from the level you expect, then your actual yield may be lower than you expect.

Slight changes in LIBOR may significantly affect the interest rates of the toggle classes. The toggle classes may be extremely sensitive to certain changes in monthly LIBOR values. In particular, they may experience dramatic declines in their interest rates and yields as a result of certain changes in LIBOR, even if those changes are slight. For an illustration of this sensitivity, see the related yield tables in this prospectus supplement. In addition, in the case of the AF, SF and YF Classes, the interest rate for the first 24 months following the settlement date will be 0%.

Delay classes have lower yields and market values. Since certain classes do not receive interest immediately following each interest accrual period, those classes have lower yields and lower market values than they would if there were no such delay.

Reinvestment of certificate payments may not achieve same yields as certificates. The rate of principal payments of the certificates is uncertain. You may be unable to reinvest the payments on the certificates at the same yields provided by the certificates.

Unpredictable timing of last payment affects yields on certificates. The actual final payment of your class is likely to occur earlier, and could occur much earlier, than the final distribution date listed on the cover page of this prospectus supplement. If you assume that the actual final payment will occur on the final distribution date specified, your yield could be lower than you expect.

Some investors may be unable to buy certain classes. Investors whose investment activities are subject to legal investment laws and

regulations, or to review by regulatory authorities, may be unable to buy certain certificates. You should obtain legal advice to determine whether you may purchase the certificates.

Uncertain market for the certificates could make them difficult to sell and cause their values to fluctuate. We cannot be sure that a market for resale of the certificates will develop. Further, if a market develops, it may not continue or be sufficiently liquid to allow you to sell your certificates. Even if you are able to sell your certificates, the sale price may not be comparable to similar investments that have a developed market. Moreover, you may not be able to sell small or large amounts of certificates at prices comparable to those available to other investors. You should purchase certificates only if you understand and can tolerate the risk that the value of your certificates will vary over time and that your certificates may not be easily sold.

Terrorist activities and related military and political actions by the U.S. government could cause reductions in investor confidence and substantial market volatility in real estate and securities markets. It is impossible to predict the extent to which terrorist activities may occur or, if they do occur, the extent of the effect on the certificates. Moreover, it is uncertain what effects any past or future terrorist activities or any related military or political actions on the part of the United States government and others will have on the United States and world financial markets, local, regional and national economies, real estate markets across the United States, or particular business sectors, including those affecting the performance of mortgage loan borrowers. Among other things, reduced investor confidence could result in substantial volatility in securities markets and a decline in real estaterelated investments. In addition, defaults on the mortgage loans could increase, causing early payments of principal to you and, regardless of the performance of the underlying mortgage loans, the liquidity and market value of the certificates may be impaired.

#### DESCRIPTION OF THE CERTIFICATES

The material under this heading summarizes certain features of the Certificates. You will find additional information about the Certificates in the other sections of this prospectus supplement, as well as in the additional Disclosure Documents and the Trust Agreement. If we use a capitalized term in this prospectus supplement without defining it, you will find the definition of that term in the applicable Disclosure Document or in the Trust Agreement.

#### General

Structure. We will create the Fannie Mae REMIC Trust specified on the cover of this prospectus supplement (the "Trust") and a separate trust (the "Lower Tier REMIC") pursuant to a trust agreement dated as of June 1, 2006 (the "Issue Date"). We will issue the Guaranteed REMIC Pass-Through Certificates (the "REMIC Certificates") pursuant to that trust agreement. We will issue the Combinable and Recombinable REMIC Certificates (the "RCR Certificates" and, together with the REMIC Certificates, the "Certificates") pursuant to a separate trust agreement dated as of the Issue Date (together with the trust agreement relating to the REMIC Certificates, the "Trust Agreement"). We will execute the Trust Agreement in our corporate capacity and as trustee (the "Trustee"). In general, the term "Classes" includes the Classes of REMIC Certificates and RCR Certificates.

The Trust and the Lower Tier REMIC each will constitute a "real estate mortgage investment conduit" ("REMIC") under the Internal Revenue Code of 1986, as amended (the "Code").

- The REMIC Certificates (except the R and RL Classes) will be "regular interests" in the Trust.
- The R Class will be the "residual interest" in the Trust.
- The interests in the Lower Tier REMIC other than the RL Class (the "Lower Tier Regular Interests") will be the "regular interests" in the Lower Tier REMIC.
- The RL Class will be the "residual interest" in the Lower Tier REMIC.

The assets of the Trust will consist of the Lower Tier Regular Interests.

The assets of the Lower Tier REMIC will consist of

- five groups of Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the "Group 1 MBS," "Group 2 MBS," "Group 4 MBS," "Group 5 MBS" and "Group 6 MBS" and, together, the "Trust MBS"), and
- a previously issued REMIC certificate (the "Group 3 Underlying REMIC Certificate") evidencing a beneficial ownership interest in the related Fannie Mae REMIC trust (the "Underlying REMIC Trust") as further described in Exhibit A.

The assets of the Underlying REMIC Trust evidence direct or indirect beneficial ownership interests in certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (together with the Trust MBS, the "MBS").

Each MBS represents a beneficial ownership interest in a pool of first lien, one- to four-family ("single-family"), fixed-rate residential mortgage loans (the "Mortgage Loans") having the characteristics described in this prospectus supplement.

Fannie Mae Guaranty. We guarantee that we will distribute to Certificateholders:

- · required installments of principal and interest on the Certificates on time, and
- the principal balance of each Class of Certificates no later than its Final Distribution Date, whether or not we have received sufficient payments on the MBS.

In addition, we guarantee that we will distribute to each holder of an MBS:

- scheduled installments of principal and interest on the underlying Mortgage Loans on time, whether or not the related borrowers pay us, and
- the full principal balance of any foreclosed Mortgage Loan, whether or not we recover it.

Our guaranty obligations with respect to the Group 3 Underlying REMIC Certificate are described in the Underlying REMIC Disclosure Document. Our guarantees are not backed by the full faith and credit of the United States. See "Description of Certificates—The Fannie Mae Guaranty" in the REMIC Prospectus, "Description of the Certificates—Fannie Mae Guaranty" in the MBS Prospectus, and "Description of the Certificates—General—Fannie Mae Guaranty" in the Underlying REMIC Disclosure Document.

Characteristics of Certificates. We will issue the Certificates (except the R and RL Classes) in book-entry form on the book-entry system of the U.S. Federal Reserve Banks. Entities whose names appear on the book-entry records of a Federal Reserve Bank as having had Certificates deposited in their accounts are "Holders" or "Certificateholders." A Holder is not necessarily the beneficial owner of a Certificate. Beneficial owners ordinarily will hold Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See "Description of Certificates—Denominations and Form" in the REMIC Prospectus.

We will issue the R and RL Certificates in fully registered, certificated form. The "Holder" or "Certificateholder" of the R or RL Certificate is its registered owner. The R or RL Certificate can be transferred at the corporate trust office of the Transfer Agent, or at the office of the Transfer Agent in New York, New York. U.S. Bank National Association ("US Bank") in Boston, Massachusetts will be the initial Transfer Agent. We may impose a service charge for any registration of transfer of the R or RL Certificate and may require payment to cover any tax or other governmental charge. See also "—Characteristics of the R and RL Classes" below.

The Holder of the R Class will receive the proceeds of any remaining assets of the Trust, and the Holder of the RL Class will receive the proceeds of any remaining assets of the Lower Tier REMIC, in each case only by presenting and surrendering the related Certificate at the office of the Paying Agent. US Bank will be the initial Paying Agent.

Authorized Denominations. We will issue the Certificates in the following denominations:

Classes	<b>Denominations</b>
The Principal Only, Interest Only, Inverse Floating Rate and Toggle Classes	\$100,000 minimum plus whole dollar increments
All other Classes (except the R and RL Classes)	\$1,000 minimum plus whole dollar increments

We will issue the R and RL Classes as single Certificates with no principal balances.

Distribution Dates. We will make monthly payments on the Certificates on the 25th day of each month (or, if the 25th is not a business day, on the first business day after the 25th). We refer to each of these dates as a "Distribution Date." We will make the first payments to Certificateholders the month after we issue the Certificates.

*Record Date.* On each Distribution Date, we will make each monthly payment on the Certificates to Holders of record on the last day of the preceding month.

Class Factors. On or shortly after the eleventh calendar day of each month, we will publish a factor (carried to eight decimal places) for each Class of Certificates. When the applicable class factor is multiplied by the original principal balance (or notional principal balance) of a Certificate of any Class, the product will equal the current principal balance (or notional principal balance) of that Certificate after taking into account payments on the Distribution Date in the same month (as well as any addition to principal in the case of the Accrual Classes).

No Optional Termination. We have no option to effect an early termination of the Lower Tier REMIC or the Trust. Further, we will not repurchase the Mortgage Loans underlying any MBS in a "clean-up call." See "Description of the Certificates—Termination" in the MBS Prospectus.

Voting the Group 3 Underlying REMIC Certificate. Holders of the Group 3 Underlying REMIC Certificate may be asked to vote on issues arising under the related trust agreements. If so, the Trustee will vote the Group 3 Underlying REMIC Certificate as instructed by Holders of Certificates of the related Classes. The Trustee must receive instructions from Holders of Certificates having principal balances totaling at least 51% of the aggregate principal balance of the related Classes.

#### **Combination and Recombination**

General. You are permitted to exchange all or a portion of the FH, TH, AF, AT, OB, SC, SL, TF, AS, CF, CO, CT, FL, LS, BF, DC, DF, DS, ES, FT, IT, KS, OM, TD, EO, ET, OE, SE and SH Classes of REMIC Certificates for a proportionate interest in the related RCR Certificates in the combinations shown on Schedule 1. You also may exchange all or a portion of the RCR Certificates for the related REMIC Certificates in the same manner. This process may occur repeatedly.

Holders of RCR Certificates will be the beneficial owners of a proportionate interest in the related REMIC Certificates and will receive a proportionate share of the distributions on the related REMIC Certificates.

The Classes of REMIC Certificates and RCR Certificates that are outstanding at any given time, and the outstanding principal balances (or notional principal balances) of these Classes, will depend upon any related distributions of principal, as well as any exchanges that occur. REMIC Certificates and RCR Certificates may be exchanged only in the proportions shown on Schedule 1.

Procedures. If a Certificateholder wishes to exchange Certificates, the Certificateholder must notify our Structured Transactions Department through one of our "REMIC Dealer Group" dealers in writing or by telefax no later than two business days before the proposed exchange date. The exchange date can be any business day other than the first or last business day of the month subject to our approval. The notice must include the outstanding principal balance of both the Certificates to be exchanged and the Certificates to be received, and the proposed exchange date. After receiving the Holder's notice, we will telephone the dealer with delivery and wire payment instructions. Notice becomes irrevocable on the second business day before the proposed exchange date.

In connection with each exchange, the Holder must pay us a fee equal to 1/32 of 1% of the outstanding principal balance (exclusive of any notional principal balance) of the Certificates to be exchanged. In no event, however, will our fee be less than \$2,000.

We will make the first distribution on a REMIC Certificate or an RCR Certificate received in an exchange transaction on the Distribution Date in the following month. We will make that distribution to the Holder of record as of the close of business on the last day of the month of the exchange.

Additional Considerations. The characteristics of RCR Certificates will reflect the characteristics of the REMIC Certificates used to form those RCR Certificates. You should also consider a number of factors that will limit a Certificateholder's ability to exchange REMIC Certificates for RCR Certificates or vice versa:

• At the time of the proposed exchange, a Certificateholder must own Certificates of the related Class or Classes in the proportions necessary to make the desired exchange.

- A Certificateholder that does not own the Certificates may be unable to obtain the necessary REMIC Certificates or RCR Certificates.
- If, as a result of a proposed exchange, a Certificateholder would hold a REMIC Certificate or RCR Certificate of a Class in an amount less than the applicable minimum denomination for that Class, the Certificateholder will be unable to effect the proposed exchange.
- The Certificateholder of needed Certificates may refuse to sell them at a reasonable price (or any price) or may be unable to sell them.
- Certain Certificates may have been purchased and placed into other financial structures and thus be unavailable.
- Principal distributions will decrease the amounts available for exchange over time.
- Only the combinations listed on Schedule 1 are permitted.

#### The Trust MBS

The following table contains certain information about the Trust MBS. The Trust MBS included in each specified Group will have the aggregate unpaid principal balance and Pass-Through Rate shown below and the general characteristics described in the MBS Prospectus. The Trust MBS provide that principal and interest on the related Mortgage Loans are passed through monthly. The Mortgage Loans underlying the Trust MBS are conventional, fixed-rate, fully-amortizing mortgage loans secured by first mortgages or deeds of trust on single-family residential properties. These Mortgage Loans have original maturities of up to 30 years. See "The Mortgage Pools" and "Yield, Maturity, and Prepayment Considerations" in the MBS Prospectus.

We expect the characteristics of the Trust MBS and the related Mortgage Loans as of the Issue Date to be as follows:

Group 1 MBS	
Aggregate Unpaid Principal Balance	\$170,210,526
MBS Pass-Through Rate	6.50%
Range of WACs (annual percentages)	6.75% to 9.00%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	300 months
Approximate Weighted Average WALA (weighted average	
loan age)	50 months
Group 2 MBS	
Aggregate Unpaid Principal Balance	\$210,000,000
MBS Pass-Through Rate	6.50%
Range of WACs (annual percentages)	6.75% to 9.00%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	306 months
Approximate Weighted Average WALA	45 months
Group 4 MBS	
Aggregate Unpaid Principal Balance	\$300,000,000
MBS Pass-Through Rate	6.50%
Range of WACs (annual percentages)	6.75% to 9.00%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	298 months
Approximate Weighted Average WALA	53 months

#### Group 5 MBS

Aggregate Unpaid Principal Balance	\$252,551,000
MBS Pass-Through Rate	6.50%
Range of WACs (annual percentages)	6.75% to 9.00%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	298 months
Approximate Weighted Average WALA	53 months
Group 6 MBS	
Aggregate Unpaid Principal Balance	\$254,545,455
MBS Pass-Through Rate	5.50%
Range of WACs (annual percentages)	5.75% to 8.00%
Range of WAMs	241 months to 360 months
Approximate Weighted Average WAM	323 months
Approximate Weighted Average WALA	32 months

### The Group 3 Underlying REMIC Certificate

The Group 3 Underlying REMIC Certificate represents a beneficial ownership interest in the related Underlying REMIC Trust. The assets of that trust evidence direct or indirect beneficial ownership interests in certain MBS having the general characteristics set forth in the MBS Prospectus. Distributions on the Group 3 Underlying REMIC Certificate will be passed through monthly, beginning in the month after we issue the Certificates. The general characteristics of the Group 3 Underlying REMIC Certificate are described in the Underlying REMIC Disclosure Document. See Exhibit A for additional information about the Group 3 Underlying REMIC Certificate.

Each MBS evidences beneficial ownership interests in a pool of conventional, fixed-rate, fully-amortizing mortgage loans secured by first mortgages or deeds of trust on single-family residential properties, as described under "The Mortgage Pools" and "Yield, Maturity, and Prepayment Considerations" in the MBS Prospectus.

For further information about the Group 3 Underlying REMIC Certificate, telephone us at 1-800-237-8627. There may have been material changes in facts and circumstances since the date we prepared the Underlying REMIC Disclosure Document. These may include changes in prepayment speeds, prevailing interest rates and other economic factors. As a result, the usefulness of the information set forth in that document may be limited.

#### **Final Data Statement**

After issuing the Certificates, we will prepare a Final Data Statement containing certain information, including the principal balance of the Group 3 Underlying REMIC Certificate as of the Issue Date and, with respect to the Trust MBS, the Pool number, the current WAC (or original WAC, if the current WAC is not available) and the current WAM (or Adjusted WAM, if the current WAM is not available) of the Mortgage Loans underlying each of the Trust MBS as of the Issue Date. The Final Data Statement also will include the weighted averages of all the current or original WACs and the weighted averages of all the current or Adjusted WAMs, based on the current unpaid principal balances of the Mortgage Loans underlying each of the Trust MBS as of the Issue Date. You may obtain the Final Data Statement by telephoning us at 1-800-237-8627. In addition, the Final Data Statement is available on our corporate Web site at www.fanniemae.com.

#### **Distributions of Interest**

Categories of Classes

For the purpose of interest payments, the Classes will be categorized as follows:

#### Interest Type\* Classes

**Group 1 Classes** 

Fixed Rate ZA

Floating Rate FA. FB and FH TH, S and SA Inverse Floating Rate Interest Only TH, S and SA

Accrual ZA RCR\*\* F

**Group 2 Classes** 

Fixed Rate

AF, AT, TF and TI Toggle†

PF Floating Rate

Inverse Floating Rate SC and SL

AF, AT, SC, SL and TI Interest Only

OB and PO Principal Only

Accrual

RCR\*\* BT, PS, SF, UF and YF

**Group 3 Classes** 

Fixed Rate BAPrincipal Only OA

**Group 4 Classes** 

Fixed Rate CA

CF, FC and FL Floating Rate AS, CS, CT and LS Inverse Floating Rate Interest Only AS, CS and CT

Principal Only CO

CB, FG, JS and PC RCR\*\*

**Group 5 Classes** 

Fixed Rate ZD

Toggle† BF, DC, DF, FT, IT and TD

Floating Rate FD

Inverse Floating Rate DS, ES and KS

BF, DF, DS, ES, IT, KS and TD Interest Only

OD and OM Principal Only

Accrual ZD

RCR\*\* FX, FY, QF, SD, SJ, SM, WF, XF and XG

**Group 6 Classes** 

Floating Rate FE

Inverse Floating Rate ET, SE, SG and SH ET, SE and SG Interest Only Principal Only EO, OE and OG

RCR\*\* SK, SP, SW, SY, TE and TW

No Payment Residual R and RL

See "Description of Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus. See "—Combination and Recombination" above and Schedule 1 for a further description of the RCR Classes. The "Toggle" or "T" designation refers to a class whose interest rate changes significantly if the designated index meets one or more thresholds. For example, when the index meets a threshold, the interest rate may shift from a predetermined rate or formula to a different predetermined rate or formula. Accordingly, the change in interest rate may not be a continuous function of changes in the index.

General. We will pay interest on the Certificates at the applicable annual interest rates specified on the cover or described in this prospectus supplement. We calculate interest based on an assumed 360-day year consisting of twelve 30-day months. We pay interest monthly (except in the case of the Accrual Classes) on each Distribution Date, beginning in the month after the Settlement Date specified in the Reference Sheet.

Interest to be paid on each Certificate (or added to principal, in the case of the Accrual Classes) on a Distribution Date will consist of one month's interest on the outstanding balance of that Certificate immediately prior to that Distribution Date. For a description of the Accrual Classes, see "—Accrual Classes" below.

We will apply interest payments from exchanged REMIC Certificates to the corresponding RCR Certificates, on a pro rata basis, following any exchange.

Interest Accrual Periods. Interest to be paid on each Distribution Date will accrue on the Certificates during the applicable one-month periods set forth below (each, an "Interest Accrual Period").

#### Classes

# All Fixed Rate Classes (collectively, the "Delay Classes")

Toggle Classes (collectively, the "No-Delay Classes")

#### **Interest Accrual Periods**

Calendar month preceding the month in which the Distribution Date occurs

All Floating Rate, Inverse Floating Rate and One-month period beginning on the 25th day of the month preceding the month in which the Distribution Date occurs

See "Additional Risk Factors—Delay classes have lower yields and market values" in this prospectus supplement.

The Dealer will treat the OB, PO, OA, CO, OD and OM Classes as Delay Classes, and the EO, OE and OG Classes as No-Delay Classes, for the sole purpose of facilitating trading.

Accrual Classes. The ZA, Z and ZD Classes are Accrual Classes. Interest will accrue on the Accrual Classes at the applicable annual rates specified on the cover or described in this prospectus supplement. However, we will not pay any interest on the Accrual Classes. Instead, interest accrued on the Accrual Classes will be added as principal to their respective principal balances on each Distribution Date. We will pay principal on the Accrual Classes as described under "—Distributions of Principal" below.

Notional Classes. The Notional Classes will not have principal balances. During each Interest Accrual Period, the Notional Classes will bear interest on their notional principal balances at their applicable interest rates. The notional principal balances of the Notional Classes will be calculated as specified under "Reference Sheet—Notional Classes" in this prospectus supplement.

We use the notional principal balance of a Notional Class to determine interest payments on that Class. Although a Notional Class will not have a principal balance and will not be entitled to any principal payments, we will publish a class factor for that Class. References in this prospectus supplement to the principal balances of the Certificates generally shall refer also to the notional principal balances of the Notional Classes.

Floating Rate, Inverse Floating Rate and Toggle Classes. During each Interest Accrual Period, the Floating Rate, Inverse Floating Rate and Toggle Classes will bear interest at rates determined as described under "Reference Sheet—Interest Rates" in this prospectus supplement.

Changes in the specified interest rate index (the "Index") will affect the yields with respect to the related Classes. These changes may not correspond to changes in mortgage interest rates. Lower

mortgage interest rates could occur while an increase in the level of the Index occurs. Similarly, higher mortgage interest rates could occur while a decrease in the level of the Index occurs.

Our establishment of each Index value and our determination of the interest rate for each applicable Class for the related Interest Accrual Period will be final and binding in the absence of manifest error. You may obtain each such interest rate by telephoning us at 1-800-237-8627.

#### Calculation of LIBOR

On each Index Determination Date, we will calculate LIBOR for the related Interest Accrual Period. We will calculate LIBOR on the basis of the "BBA Method," as described in the REMIC Prospectus under "Description of Certificates—Indexes for Floating Rate Classes and Inverse Floating Rate Classes—*LIBOR*."

If we are unable to calculate LIBOR on the initial Index Determination Date, LIBOR for the following Interest Accrual Period will be equal to 5.05875% in the case of Group 1 Floating Rate and Inverse Floating Rate Classes; 5.0% in the case of the Group 2 Floating Rate, Inverse Floating Rate and Toggle Classes; 5.25190% in the case of the Group 4 Floating Rate and Inverse Floating Rate Classes; 5.11% in the case of the Group 5 Floating Rate, Inverse Floating Rate and Toggle Classes; and 5.19875% in the case of the Group 6 Floating Rate and Inverse Floating Rate Classes.

### **Distributions of Principal**

Categories of Classes

For the purpose of principal payments, the Classes fall into the following categories:

Principal Type*	Classes
Group 1 Classes Pass-Through Sequential Pay Accretion Directed Notional RCR	FH FA, FB and ZA FA and FB TH, S and SA F
Group 2 Classes PAC Support Accretion Directed Notional RCR**	PF and PO OB, TF and Z OB and TF AF, AT, SC, SL and TI BT, PS, SF, UF and YF
Group 3 Classes Structured Collateral/Pass-Through	BA and OA
Group 4 Classes Pass-Through PAC Support Notional RCR**	FC CA, CF and CO FL and LS AS, CS and CT CB, FG, JS and PC
Group 5 Classes TAC Support Accretion Directed Notional RCR**	DC, FD, FT, OD and OM ZD DC, FD, FT, OD and OM BF, DF, DS, ES, IT, KS and TD FX, FY, QF, SD, SJ, SM, WF, XF and XG

Principal Type\* Classes

**Group 6 Classes** 

Pass-Through FE

PAC OG and SH
Support EO and OE
Notional ET, SE and SG

RCR\*\* SK, SP, SW, SY, TE and TW

No Payment Residual R and RL

### Principal Distribution Amount

On the Distribution Date in each month, we will pay principal on the Certificates in an Aggregate amount (the "Principal Distribution Amount") equal to the sum of

- the principal then paid on the Group 1 MBS (the "Group 1 Cash Flow Distribution Amount") plus any interest then accrued and added to the principal balance of the ZA Class (the "ZA Accrual Amount," and together with the Group 1 Cash Flow Distribution Amount, the "Group 1 Principal Distribution Amount"),
- the principal then paid on the Group 2 MBS (the "Group 2 Cash Flow Distribution Amount") plus any interest then accrued and added to principal balance of the Z Class (the "Z Accrual Amount," and together with the Group 2 Cash Flow Distribution Amount, the "Group 2 Principal Distribution Amount"),
- the principal then paid on the Group 3 Underlying REMIC Certificate (the "Group 3 Principal Distribution Amount"),
- the principal then paid on the Group 4 MBS (the "Group 4 Principal Distribution Amount"),
- the principal then paid on the Group 5 MBS plus any interest then accrued and added to the principal balance of the ZD Class (the "Group 5 Principal Distribution Amount"), and
- the principal then paid on the Group 6 MBS (the "Group 6 Principal Distribution Amount").

# Group 1 Principal Distribution Amount

On each Distribution Date, we will pay the Group 1 Principal Distribution Amount as principal of the Group 1 Classes as follows:

#### Group 1 Cash Flow Distribution Amount

On each Distribution Date, we will pay 42.8571426893% of the Group 1 Cash Flow Distribution Amount as principal of the FH Class, until its principal balance is reduced to zero.

Pass-Through

#### ZA Accrual Amount and Remaining Group 1 Cash Flow Distribution Amount

On each Distribution Date, we will pay 57.1428573107% of the Group 1 Cash Flow Distribution Amount, together with the entire ZA Accrual Amount, in the following priority:

 $\it first,$  concurrently, to the FA and FB Classes, pro rata (or 79.1666666667% and 20.833333333%, respectively), until their principal balances are reduced to zero; and

Sequential Pay Classes

second, to the ZA Class, until its principal balance is reduced to zero.

<sup>\*</sup> See "Description of Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

<sup>\*\*</sup> See "—Combination and Recombination" above and Schedule 1 for a further description of the RCR Classes.

## Group 2 Principal Distribution Amount

Group 2 Cash Flow Distribution Amount

On each Distribution Date, we will pay the Group 2 Cash Flow Distribution Amount as principal of Aggregate Group I (described below), until the Aggregate I Balance (described below) is reduced to its Planned Balance for that Distribution Date.

### Z Accrual Amount and Remaining Group 2 Cash Flow Distribution Amount

On each Distribution Date, we will pay the Z Accrual Amount, together with the Group 2 Cash Flow Distribution Amount remaining after giving effect to the distributions in the preceding paragraph, as principal of the Group 2 Classes specified below in the following priority:

(i) concurrently, to the TF and OB Classes, pro rata (or 80.7453418065% and 19.2546581935\%, respectively), until their principal balances are reduced to zero;

Support

- (ii) to the Z Class, until its principal balance is reduced to zero; and
- (iii) to Aggregate Group I, without regard to its Planned Balance and until the Aggregate I Balance is reduced to zero.

"Aggregate Group I" consists of the PF and PO Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group I, concurrently, to the PF and PO Classes, pro rata (or 92.8571428571% and 7.1428571429%, respectively), until their principal balances are reduced to zero.

The "Aggregate I Balance" is equal to the aggregate principal balance of the Classes in Aggregate Group I.

#### Group 3 Principal Distribution Amount

On each Distribution Date, we will pay the Group 3 Principal Distribution Amount, concurrently, as principal of the BA and OA Classes, pro rata (or 88% and 12%, respectively), until their principal balances are reduced to zero.

#### Group 4 Principal Distribution Amount

On each Distribution Date, we will pay the Group 4 Principal Distribution Amount as principal of the Group 4 Classes as follows:

(a) 33.33333333% of such amount to the FC Class, until its principal balance is Pass-Through reduced to zero, and

- (b) 66.666666667% of such amount in the following priority:
- first, to Aggregate Group II (described below), until the Aggregate II Balance (described below) is reduced to its Planned Balance for that Distribution Date;

second, to the CA Class, until its principal balance is reduced to its Planned Balance for that Distribution Date;

PAC

third, concurrently, to the FL and LS Classes, pro rata (or 85.7142847903% and 14.2857152097%, respectively), until their principal balances are reduced to zero;

Support Classes

fourth, to the CA Class, without regard to its Planned Balance and until its principal balance is reduced to zero; and

PAC Class and Group

fifth, to Aggregate Group II, without regard to its Planned Balance and until the Aggregate II Balance is reduced to zero.

"Aggregate Group II" consists of the CO and CF Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group II, concurrently, to the CO and CF Classes, pro rata (or 14.2857150246% and 85.7142849754%, respectively), until their principal balances are reduced to zero.

The "Aggregate II Balance" is equal to the aggregate principal balance of the Classes in Aggregate Group II.

### Group 5 Principal Distribution Amount

On each Distribution Date, we will pay the Group 5 Principal Distribution Amount as principal of the Group 5 Classes in the following priority:

TAC

- (i) to Aggregate Group III (described below), until the Aggregate III Balance (described below) is reduced to its Targeted Balance for that Distribution Date;
- (ii) to Aggregate Group IV (described below), until the Aggregate IV Balance (described below) is reduced to its Targeted Balance for that Distribution Date;
  - (iii) to the ZD Class, until its principal balance is reduced to zero; \begin{cases} \text{Support} \\ \text{Class} \end{cases}
- (iv) to Aggregate Group IV, without regard to its Targeted Balance and until the Aggregate IV Balance is reduced to zero; and
- (v) to Aggregate Group III without regard to its Targeted Balance and until the Aggregate III Balance is reduced to zero.

"Aggregate Group III" consists of the FD and OD Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group III, concurrently, to the FD and OD Classes, pro rata (or 92.8571427723% and 7.1428572277%, respectively), until their principal balances are reduced to zero.

The "Aggregate III Balance" is equal to the aggregate principal balance of the Classes in Aggregate Group III.

"Aggregate Group IV" consists of the DC, FT and OM Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group IV, concurrently, to the DC, FT and OM Classes, pro rata (or 72.7272727273%, 6.0606060606% and 21.2121212121%, respectively), until their principal balances are reduced to zero.

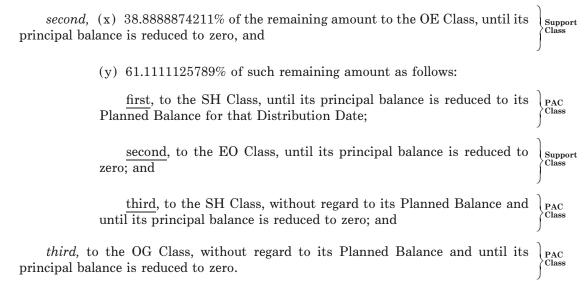

The "Aggregate IV Balance" is equal to the aggregate principal balance of the Classes in Aggregate Group IV.

#### Group 6 Principal Distribution Amount

On each Distribution Date, we will pay the Group 6 Principal Distribution Amount as principal of the Group 6 Classes as follows:

- (a) 78.5714284311% of such amount to the FE Class, until its principal balance is reduced to zero, and
  - (b) 21.4285715689% of such amount in the following priority:

first, to the OG Class, until its principal balance is reduced to its Planned Balance for that Distribution Date;  $P_{\text{AC}}$ 

We will apply principal payments from exchanged REMIC Certificates to the corresponding RCR Certificates, on a pro rata basis, following any exchange.

### **Structuring Assumptions**

Pricing Assumptions. Except where otherwise noted, the information in the tables in this prospectus supplement has been prepared based on the actual characteristics of each pool of Mortgage Loans backing the Group 3 Underlying REMIC Certificate, the priority sequence affecting principal payments on the Group 3 Underlying REMIC Certificate, and the following assumptions (such characteristics and assumptions, collectively, the "Pricing Assumptions"):

- the Mortgage Loans underlying the Trust MBS have the original terms to maturity, remaining terms to maturity, WALAs and interest rates specified under "Reference Sheet—Assumed Characteristics of the Mortgage Loans Underlying the Trust MBS" in this prospectus supplement;
- the Mortgage Loans prepay at the constant percentages of PSA specified in the related tables;
- the settlement date for the sale of the Certificates is June 30, 2006; and
- each Distribution Date occurs on the 25th day of a month.

Prepayment Assumptions. Prepayments of mortgage loans commonly are measured relative to a prepayment standard or model. The model used in this prospectus supplement with respect to all Classes and Principal Balances Schedules is The Bond Market Association's standard prepayment model ("PSA"). To assume a specified rate of PSA is to assume a specified rate of prepayment each month of the then-outstanding principal balance of a pool of new mortgage loans computed as described under "Description of Certificates—Prepayment Models" in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any constant PSA rate or at any other constant rate.

Structuring Ranges and Rates. The Principal Balance Schedules are found beginning on page B-1 of this prospectus supplement. The Principal Balance Schedules have been prepared on the basis of the

Pricing Assumptions and the assumption that the related Mortgage Loans will prepay at a constant PSA rate within the applicable Structuring Ranges or at the applicable PSA rates set forth below.

Related Groups (1) and Classes	Structuring Ranges and Rates
Aggregate Group I	Between 100% and 300% PSA
Aggregate Group II	Between 100% and 400% PSA
CA Class	Between 190% and 250% PSA
Aggregate Group III	243% PSA
Aggregate Group IV	(2)
OG Class	Between 100% and 300% PSA
SH Class	Between 150% and 301% PSA
	Aggregate Group I Aggregate Group II CA Class Aggregate Group III Aggregate Group IV OG Class

<sup>(1)</sup> The Structuring Ranges and Rates for the Aggregate Groups are associated with the related Aggregate Balances but not with the individual balances of the related Classes

We cannot assure you that the balance of any Group or Class listed above will conform on any Distribution Date to the specified balance in the Principal Balance Schedules. As a result, we cannot assure you that payments of principal of any Group or Class listed above will begin or end on the Distribution Dates specified in the Principal Balance Schedules. We will distribute any excess of principal payments over the amount needed to reduce a Group or Class to its scheduled balance on a Distribution Date. Accordingly, the ability to reduce a Group or Class to its scheduled balance will not be improved by the averaging of high and low principal payments from month to month. In addition, even if the related Mortgage Loans prepay at rates falling within the applicable Structuring Ranges, principal distributions may be insufficient to reduce the applicable Groups and Classes to their scheduled balances if the prepayments do not occur at a constant PSA rate. Moreover, because of the diverse remaining terms to maturity of the related Mortgage Loans, which may include recently originated Mortgage Loans, the Groups and Classes specified above may not be reduced to their scheduled balances, even if prepayments occur at a constant rate within the applicable Structuring Ranges or at the applicable rates specified above.

Initial Effective Ranges. The Effective Range for a Group or Class is the range of prepayment rates (measured by constant PSA rates) which would reduce that Group or Class to its scheduled balance on each Distribution Date. The Initial Effective Ranges shown in the table below are based upon the assumed characteristics of the related Mortgage Loans specified in the Pricing Assumptions.

Groups and Classes	Initial Effective Ranges
Aggregate Group I	Between 100% and 300% PSA
Aggregate Group II	Between 100% and 400% PSA
CA Class	Between 190% and 250% PSA
OG Class	Between 100% and 300% PSA
SH Class	Between 150% and 301% PSA

The actual Effective Ranges at any time will be based upon the actual characteristics of the related Mortgage Loans at that time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. The actual Effective Ranges calculated on the basis of the actual characteristics are likely to differ from the Initial Effective Ranges. As a result, the applicable Groups and Classes might not be reduced to their scheduled balances even if prepayments were to occur at a constant PSA rate within the Initial Effective Ranges. This is so particularly if the rate were at the lower or higher end of this range. In addition, even if prepayments occur at rates falling within the actual Effective Ranges, principal distributions may be insufficient to reduce the applicable Groups and Classes to their scheduled balances if such prepayments do not occur at a constant PSA rate. It is highly unlikely that the related Mortgage Loans will prepay at any constant PSA rate. In general, the actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time.

but not with the individual balances of the related Classes.

2) The Targeted Balances for Aggregate Group IV have been structured at 243% PSA, but do not hold at any constant PSA rate.

The stability in principal payment of the Classes specified below will be supported by the corresponding supporting Classes as indicated in the following table:

Classes	Supporting Classes				
Group 2					
PAC	Support				
Group 4					
Aggregate Group II	CA and Support				
CA	Support				
Group 6					
OG	SH and Support				
SH	EO				

When the supporting Classes are retired, the Classes they support, if still outstanding, may no longer have Effective Ranges and will be more sensitive to prepayments.

#### **Yield Tables**

General. The tables below illustrate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of the applicable Classes to various constant percentages of PSA and, where specified, to changes in the Index. We calculated the yields set forth in the tables by

- determining the monthly discount rates that, when applied to the assumed streams of cash
  flows to be paid on the applicable Classes, would cause the discounted present values of the
  assumed streams of cash flows to equal the assumed aggregate purchase prices of those Classes,
  and
- converting the monthly rates to corporate bond equivalent rates.

These calculations do not take into account variations in the interest rates at which you could reinvest distributions on the Certificates. Accordingly, these calculations do not illustrate the return on any investment in the Certificates when reinvestment rates are taken into account.

We cannot assure you that

- the pre-tax yields on the applicable Certificates will correspond to any of the pre-tax yields shown here, or
- the aggregate purchase prices of the applicable Certificates will be as assumed.

In addition, it is unlikely that the Index will correspond to the levels shown here. Furthermore, because some of the Mortgage Loans are likely to have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal payments on the Certificates are likely to differ from those assumed. This would be the case even if all Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is unlikely that

- the Mortgage Loans will prepay at a constant PSA rate until maturity,
- · all of the Mortgage Loans will prepay at the same rate, or
- the level of the Index will remain constant.

The Principal Only Classes. The Principal Only Classes will not bear interest. As indicated in the tables below, a low rate of principal payments (including prepayments) on the related Mortgage Loans will have a negative effect on the yields to investors in the Principal Only Classes.

The information shown in the yield tables has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the Principal Only Classes (expressed in each case as a percentage of original principal balance) are as follows:

Class	Price
OB	84.147155%
P0	66.723310%
OA	60.046875%
CO	76.516251%
OD	
OM	70.075057%
EO	55.540288%
OE	
OG	74.463167%

# Sensitivity of the OB Class to Prepayments

	PSA Prepayment Assumption					
	<b>50</b> %	100%	$\overline{135\%}$	300%	500%	
Pre-Tax Yields to Maturity	1.3%	1.9%	2.6%	11.2%	20.1%	

# Sensitivity of the PO Class to Prepayments

	PSA Prepayment Assumption					
	<b>50</b> %	100%	135%	300%	500%	
Pre-Tax Yields to Maturity	4.8%	5.4%	5.4%	5.4%	9.0%	

## Sensitivity of the OA Class to Prepayments

	PSA Prepayment Assumption

The Inverse Floating Rate and Toggle Classes. The yields on the Inverse Floating Rate and Toggle Classes will be sensitive in varying degrees to the rate of principal payments, including prepayments, of the related Mortgage Loans and to the level of the Index. The Mortgage Loans generally can be prepaid at any time without penalty. In addition, the rate of principal payments (including prepayments) of the Mortgage Loans is likely to vary, and may vary considerably, from pool to pool. As illustrated in the applicable tables below, it is possible that investors in the TH, S, SA, AF, AT, SC, SL, TI, AS, CS, CT, BF, DF, DS, ES, IT, KS, TD, ET, SE, SG, PS, SF, JS, YF, SM, XF and XG Classes would lose money on their initial investments under certain Index and prepayment scenarios.

Changes in the Index may not correspond to changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur while the level of the Index increased.

The information shown in the yield tables has been prepared on the basis of the Pricing Assumptions and the assumptions that

- the interest rates for the Inverse Floating Rate and Toggle Classes for the initial Interest Accrual Period are the rates listed in the table under "Reference Sheet—Interest Rates" in this prospectus supplement and for each following Interest Accrual Period will be based on the specified level of the Index, and
- the aggregate purchase prices of those Classes (expressed in each case as a percentage of original principal balance) are as follows:

Class	Price*
TH	0.063748%
S	5.523438%

#### Weighted Average Lives of the Certificates

The weighted average life of a Certificate is determined by

- (a) multiplying the amount of the reduction, if any, of the principal balance of the Certificate from one Distribution Date to the next Distribution Date by the number of years from the Settlement Date to the second such Distribution Date,
- (b) summing the results, and
- (c) dividing the sum by the aggregate amount of the reductions in principal balance of the Certificate referred to in clause (a).

For a description of the factors which may influence the weighted average life of a Certificate, see "Description of Certificates—Weighted Average Life and Final Distribution Date" in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including

- the timing of changes in the rate of principal payments,
- the priority sequences of payments of principal of the Group 1, Group 2, Group 4, Group 5 and Group 6 Classes,
- in the case of the Group 2, Group 4, Group 5 and Group 6 Classes, the payment of principal of certain Classes in accordance with the Principal Balance Schedules, and
- in the case of the Group 3 Classes, the priority sequence affecting principal payments on the Group 3 Underlying REMIC Certificate.

See "—Distributions of Principal" above and "Description of the Certificates—Distributions of Principal" in the Underlying REMIC Disclosure Document.

The effect of these factors may differ as to various Classes and the effects on any Class may vary at different times during the life of that Class. Accordingly, we can give no assurance as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their original principal balances, variability in the weighted average lives of those Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

#### **Decrement Tables**

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each date shown at various constant PSA rates, and the corresponding weighted average lives of those Classes. The tables have been prepared on the basis of the Pricing Assumptions. However, in the case of the information set forth for each Class under 0% PSA, we

assumed that the underlying Mortgage Loans have the original and remaining terms to maturity and bear interest at the annual rates specified in the table below.

Mortgage Loans Relating to Trust Assets Specified Below	Original Terms to Maturity	Remaining Terms to Maturity	Interest Rates
Group 1 MBS	360 months	360 months	9.00%
Group 2 MBS	360 months	360 months	9.00%
Group 3 Underlying REMIC Certificate	360 months	$356 \text{ months}^*$	8.00%
Group 4 MBS	360 months	360 months	9.00%
Group 5 MBS	360 months	360 months	9.00%
Group 6 MBS	360 months	360 months	8.00%

<sup>\*</sup> In addition, we assumed that each of the Mortgage Loans backing the Group 3 Underlying REMIC Certificate has a remaining interest only period of 116 months.

#### It is unlikely

- that all of the underlying Mortgage Loans will have the interest rates, WALAs or remaining terms to maturity assumed or
- that the underlying Mortgage Loans will prepay at any constant PSA level.

In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA rates. This is the case even if the dispersion of weighted average remaining terms to maturity and the weighted average WALAs of the Mortgage Loans are identical to the dispersion specified in the Pricing Assumptions.

<sup>\*</sup> Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

<sup>\*\*</sup> Determined as specified under "—Weighted Average Lives of the Certificates" above.

<sup>†</sup> In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

#### Characteristics of the R and RL Classes

The R and RL Classes will not have principal balances and will not bear interest. If any assets of the Trust remain after the principal balances of all Classes are reduced to zero, we will pay the Holder of the R Class the proceeds from those assets. If any assets of the Lower Tier REMIC remain after the principal balances of the Lower Tier Regular Interests are reduced to zero, we will pay the proceeds of those assets to the Holder of the RL Class. Fannie Mae does not expect that any material assets will remain in either case

A Residual Certificate will be subject to certain transfer restrictions. We will not permit transfer of record or beneficial ownership of a Residual Certificate to a "disqualified organization." In addition, we will not permit transfer of record or beneficial ownership of a Residual Certificate to any person that is not a "U.S. Person" or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate. Any transferee of a Residual Certificate must execute and deliver an affidavit and an Internal Revenue Service Form W-9 (or, if applicable, a Form W-8ECI) on which the transferee provides its taxpayer identification number. See "Description of Certificates-Special Characteristics of Residual Certificates" and "Certain Federal Income Tax Consequences— Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus. The affidavit must also state that the transferee is a "U.S. Person" or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate and that, if the transferee is a partnership for U.S. federal income tax purposes, each person or entity that holds an interest (directly, or indirectly through a pass-through entity) in the partnership is a "U.S. Person" or a foreign person subject to United States income taxation on a net basis on income derived from that Certificate. In addition, the transferee must receive an affidavit containing these same representations from any new transferee. Transferors of a Residual Certificate should consult with their own tax advisors for further information regarding such transfers.

Treasury Department regulations (the "Regulations") provide that a transfer of a "noneconomic residual interest" will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. The R and RL Classes will constitute noneconomic residual interests under the Regulations. Having a significant purpose to impede the assessment or collection of tax means that the transferor of a Residual Certificate knew or should have known that the transferee would be unwilling or unable to pay taxes due on its share of the taxable income of the REMIC trust (that is, the transferor had "improper knowledge").

As discussed under the caption "Special Characteristics of Residual Certificates" in the REMIC Prospectus, the Regulations presume that a transferor does not have improper knowledge if two conditions are met. The Treasury Department has amended the Regulations to provide additional requirements that a transferor must satisfy to avail itself of the safe harbor regarding the presumed lack of improper knowledge. For transfers occurring on or after August 19, 2002, a transferor of a Residual Certificate is presumed not to have improper knowledge if, in addition to meeting the two conditions discussed in the REMIC Prospectus, both (i) the transferee represents that it will not cause income from the Residual Certificate to be attributed to a foreign permanent establishment or fixed base of the transferee or another taxpayer and (ii) the transfer satisfies either the "asset test" or the "formula test." The representation described in (i) will be included in the affidavit discussed above. See "Description of Certificates—Special Characteristics of Residual Certificates" and "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus.

A transfer satisfies the asset test if (i) the transferee's gross assets exceed \$100 million and its net assets exceed \$10 million (in each case, at the time of the transfer and at the close of each of the transferee's two fiscal years preceding the year of transfer), (ii) the transferee is an "eligible corporation" and the transferee agrees in writing that any subsequent transfer of the Residual Certificate will be to an eligible corporation and will comply with the safe harbor and satisfy the asset test, and (iii) the facts and circumstances known to the transferor do not reasonably indicate that the

taxes associated with the Residual Certificate will not be paid. A transfer satisfies the formula test if the present value of the anticipated tax liabilities associated with holding the Residual Certificate is less than or equal to the present value of the sum of (i) any consideration given to the transferee to acquire the Residual Certificate, (ii) expected future distributions on the Residual Certificate, and (iii) anticipated tax savings associated with holding the Residual Certificate as the related REMIC trust generates losses. The Regulations contain additional details regarding their application and you should consult your own tax advisor regarding the application of the Regulations to a transfer of a Residual Certificate.

The Holder of the R Class will be considered to be the holder of the "residual interest" in the REMIC constituted by the Trust, and the Holder of the RL Class will be considered to be the holder of the "residual interest" in the REMIC constituted by the Lower Tier REMIC. See "Certain Federal Income Tax Consequences" in the REMIC Prospectus. Pursuant to the Trust Agreement, we will be obligated to provide to these Holders (i) information necessary to enable them to prepare their federal income tax returns and (ii) any reports regarding the R or RL Class that may be required under the Code.

#### CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The Certificates and payments on the Certificates are not generally exempt from taxation. Therefore, you should consider the tax consequences of holding a Certificate before you acquire one. The following tax discussion supplements the discussion under the caption "Certain Federal Income Tax Consequences" in the REMIC Prospectus. When read together, the two discussions describe the current federal income tax treatment of beneficial owners of Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of beneficial owners, some of which may be subject to special rules. In addition, these discussions may not apply to your particular circumstances for one of the reasons explained in the REMIC Prospectus. You should consult your own tax advisors regarding the federal income tax consequences of holding and disposing of Certificates as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

#### U.S. Treasury Circular 230 Notice

The tax discussions contained in the REMIC Prospectus (including the sections entitled "Certain Federal Income Tax Consequences" and "ERISA Considerations") and this prospectus supplement were not intended or written to be used, and cannot be used, for the purpose of avoiding United States federal tax penalties. These discussions were written to support the promotion or marketing of the transactions or matters addressed in this prospectus supplement. You should seek advice based on your particular circumstances from an independent tax advisor.

#### **REMIC Elections and Special Tax Attributes**

We will elect to treat the Lower Tier REMIC and the Trust as REMICs for federal income tax purposes. The REMIC Certificates, other than the R and RL Classes, will be designated as the "regular interests," and the R Class will be designated as the "residual interest," in the REMIC constituted by the Trust. The Lower Tier Regular Interests will be designated as the "regular interests" and the RL Class will be designated as the "residual interest" in the Lower Tier REMIC.

Because the Lower Tier REMIC and the Trust will qualify as REMICs, the REMIC Certificates and any related RCR Certificates generally will be treated as "regular or residual interests in a REMIC" for domestic building and loan associations, as "real estate assets" for real estate investment trusts, and, except for the R and RL Classes, as "qualified mortgages" for other REMICs. See "Certain Federal Income Tax Consequences—*REMIC Election and Special Tax Attributes*" in the REMIC Prospectus.

#### Taxation of Beneficial Owners of Regular Certificates

The Notional Classes, the Principal Only Classes, the Accrual Classes and the LS Class will be issued with original issue discount ("OID"), and certain other Classes of REMIC Certificates may be issued with OID. If a Class is issued with OID, a beneficial owner of a Certificate of that Class generally must recognize some taxable income in advance of the receipt of the cash attributable to that income. See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount" in the REMIC Prospectus. In addition, certain Classes of REMIC Certificates may be treated as having been issued at a premium. See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Regular Certificates Purchased at a Premium" in the REMIC Prospectus.

The Prepayment Assumptions that will be used in determining the rate of accrual of OID will be as follows:

Group	Prepayment Assumption
1	230% PSA
2	135% PSA
3	200% PSA
4	220%  PSA
5	230% PSA
6	220%  PSA

See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount—Daily Portions of Original Issue Discount" in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at any of those rates or any other rate. See "Description of the Certificates—Weighted Average Lives of the Certificates" in this prospectus supplement and "Description of Certificates—Weighted Average Life and Final Distribution Date" in the REMIC Prospectus.

#### **Taxation of Beneficial Owners of Residual Certificates**

For purposes of determining the portion of the taxable income of the Trust (or the Lower Tier REMIC) that generally will not be treated as excess inclusions, the rate to be used is 120% of the "federal long-term rate." The rate will be published on or about May 20, 2006. See "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates—Treatment of Excess Inclusions" and "—Foreign Investors—Residual Certificates" in the REMIC Prospectus.

The Treasury Department recently issued Regulations providing that, to clearly reflect income, an inducement fee paid to a transferee of a noneconomic residual interest in a REMIC must be included in income over a period that is reasonably related to the period during which the applicable REMIC is expected to generate taxable income or net loss allocable to the transferee. The Regulations set forth two safe harbor methods under which a taxpayer's accounting for the inducement fee will be considered to clearly reflect income for these purposes. In addition, under the Regulations an inducement fee shall be treated as income from sources within the United States. The Regulations, which are effective for taxable years ending on or after May 11, 2004, contain additional details regarding their application. You should consult your own tax advisor regarding the application of the Regulations to the transfer of a Residual Certificate.

#### **Taxation of Beneficial Owners of RCR Certificates**

General. The RCR Classes will be created, sold and administered pursuant to an arrangement that will be classified as a grantor trust under subpart E, part I of subchapter J of the Code. The REMIC Certificates that are exchanged for RCR Certificates (including any exchanges effective on the Settlement Date) will be the assets of the trust, and the RCR Certificates will represent an ownership interest in those REMIC Certificates. For a general discussion of the federal income tax

treatment of beneficial owners of REMIC Certificates, see "Certain Federal Income Tax Consequences" in the REMIC Prospectus.

The RCR Classes (each, a "Combination RCR Class") will represent the beneficial ownership of the underlying REMIC Certificates set forth in Schedule 1. Each Certificate of a Combination RCR Class (a "Combination RCR Certificate") will represent beneficial ownership of undivided interests in two or more underlying REMIC Certificates.

Combination RCR Classes. A beneficial owner of a Combination RCR Certificate will be treated as the beneficial owner of a proportionate interest in the REMIC Certificates underlying that Combination RCR Certificate. Except in the case of a beneficial owner that acquires a Combination RCR Certificate in an exchange described under "—Exchanges" below, a beneficial owner of a Combination RCR Certificate must allocate its cost to acquire that Certificate among the underlying REMIC Certificates in proportion to their relative fair market values at the time of acquisition. Such an owner should account for its ownership interest in each underlying REMIC Certificate as described under "—Taxation of Beneficial Owners of Regular Certificates" above and "Certain Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates" in the REMIC Prospectus. When a beneficial owner sells a Combination RCR Certificate, the owner must allocate the sale proceeds among the underlying REMIC Certificates in proportion to their relative fair market values at the time of sale.

Exchanges. If a beneficial owner exchanges one or more REMIC Certificates for the related RCR Certificate or Certificates in the manner described under "Description of the Certificates—Combination and Recombination" in this prospectus supplement, the exchange will not be taxable. Likewise, if a beneficial owner exchanges one or more RCR Certificates for the related REMIC Certificate or Certificates in the manner described in that discussion, the exchange will not be a taxable exchange. In each of these cases, the beneficial owner will be treated as continuing to own after the exchange the same combination of interests in the related REMIC Certificates (or the same interest in the related REMIC Certificate) that it owned immediately prior to the exchange.

#### Tax Return Disclosure Requirements

Treasury Department Regulations that are directed at "tax shelters" could be read to apply to transactions generally not considered to be tax shelters. These Regulations require that taxpayers that participate in a "reportable transaction" disclose such transaction on their tax returns by attaching IRS Form 8886 and retain information related to the transaction. A transaction may be a "reportable transaction" based upon any of several indicia, one or more of which may be present with respect to the Certificates. You should consult your own tax advisor concerning any possible disclosure obligation with respect to your investment in the Certificates.

#### PLAN OF DISTRIBUTION

General. We are obligated to deliver the Certificates to Bear, Stearns & Co. Inc. (the "Dealer") in exchange for the Trust MBS and the Group 3 Underlying REMIC Certificate. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect these transactions to or through other dealers.

Increase in Certificates. Before the Settlement Date, we and the Dealer may agree to offer Group 1, 2, 4, 5 or 6 Classes in addition to those contemplated as of the date of this prospectus supplement. In this event, we will increase the related Trust MBS in principal balance, but we expect that all these additional Trust MBS will have the same characteristics as described under "Description of the Certificates—The Trust MBS" in this prospectus supplement. The proportion that the original principal balance of each Group 1, 2, 4, 5 or 6 Classes bears to the aggregate original principal balance of all Group 1, 2, 4, 5 or 6 Classes, respectively, will remain the same. In addition, the dollar amounts

shown in the Principal Balance Schedules will be increased to correspond to the increase of the principal balances of the applicable Classes.

#### LEGAL MATTERS

Sidley Austin LLP will provide legal representation for Fannie Mae. Stroock & Stroock & Lavan LLP will provide legal representation for the Dealer.

REMIC	Classes	Recombina	OE	$_{ m SH}$	EO	ET	SE

In any exchange under Recombination 2, 13, 24 or 25, the relative proportions of the REMIC Certificates to be delivered (or if applicable, received) in such exchange will equal the proportions reflected by the outstanding principal balances of the related REMIC Classes at the time of exchange. REMIC Certificates and RCR Certificates in any other Recombination may be exchanged only in the proportions shown in this Schedule 1.

If, as a result of a proposed exchange, a Certificate-holder would hold a REMIC Certificate or RCR Certificate of a Class in an amount less than the applicable minimum denomination for that Class, the Certificates—Class Definitions and Abbreviations. In the REMIC Prospectus and "Description of the Certificates—Distributions of Principal" in this prospectus supplement.

See "Description of these interest rates, see "Description of the Certificates—Distributions of Interest," in this prospectus supplement.

Not and becampend of these interest rates, see "Description of the Certificates—Distributions of Interest," in this prospectus supplement.

Not and absurbed on these interest rates, see "Description of the description of how their notional balances are calculated.

These Classes are Interest S-10 for a description of their interest rates. (1)
