\$319,683,464

Guaranteed REMIC Pass-Through Certificates Fannie Mae REMIC Trust 2007-97

The Certificates

We, the Federal National Mortgage Association (Fannie Mae), will issue the classes of certificates listed in the chart on this cover.

Payments to Certificateholders

We will make monthly payments on the certificates. You, the investor, will receive

- interest accrued on the balance of your certificate (except in the case of the accrual class), and
- principal to the extent available for payment on your class.

We will pay principal at rates that may vary from time to time. We may not pay principal to certain classes for long periods of time.

The Fannie Mae Guaranty

We will guarantee that required payments of principal and interest on the certificates are available for distribution to investors on time.

The Trust and its Assets

The trust will own underlying REMIC certificates backed by Fannie Mae MBS.

The mortgage loans underlying the Fannie Mae MBS are first lien, single-family, fixed-rate loans.

| Class G | roup | Original Class Balance | Principal Type(1) | Interest Rate | Interest Type(1) | CUSIP Number | Final Distribution Date |
|---------|------|------------------------------|----------------------|------------------|---------------------|-----------------|-------------------------------|
| FA | 1 | \$ 65,000,000 | SC/TAC/AD | (2) | FLT | 31396XA87 | June 2037 |
| FZ | 1 | 1,000,000 | SC/SUP | (2) | FLT/Z(3) | 31396XA95 | June 2037 |
| FE | 2 | 30,000,000 | SC/PT | (2) | FLT | 31396XB29 | July 2037 |
| IE | 2 | 30,000,000(4) | NTL | (2) | INV/IO | 31396XB37 | July 2037 |
| FC(5) | 2 | 171,623,130 | SC/PT | (2) | FLT | 31396XB45 | July 2037 |
| IC(5) | 2 | 171,623,130(4) | NTL | (2) | INV/IO | 31396XB52 | July 2037 |
| OK | 2 | 9,689,746 | SC/PT | 0.0% | PO | 31396XB60 | July 2037 |
| MO(5) | 3 | 42,370,588 | SC/PT | 0.0 | PO | 31396XB78 | December 2031 |
| MI(5) | 3 | 77,679,412(4) | NTL | (2) | INV/IO | 31396XB86 | December 2031 |
| KI | 4 | 29,226,402(4) | NTL | 7.0 | FIX/IO | 31396XB94 | May 2033 |
| R | | 0 | NPR | 0 | NPR | 31396XC28 | July 2037 |

- See "Description of the Certificates— Class Definitions and Abbreviations" in the REMIC prospectus.
- (2) Based on LIBOR.
- (3) Floating rate/accrual class.
- (4) Notional balances. These classes are interest only classes. See page S-5 for a description of how their notional balances are calculated.
- (5) Exchangeable classes.

If you own certificates of certain classes, you can exchange them for certificates of the corresponding RCR classes to be delivered at the time of exchange. The FB and MS Classes are the RCR classes. For a more detailed description of the RCR classes, see Schedule 1 attached to this prospectus supplement and "Description of the Certificates—Combination and Recombination" in the REMIC prospectus.

The dealer will offer the certificates from time to time in negotiated transactions at varying prices. We expect the settlement date to be September 28, 2007.

Carefully consider the risk factors starting on page S-7 of this prospectus supplement and on page 10 of the REMIC prospectus. Unless you understand and are able to tolerate these risks, you should not invest in the certificates.

You should read the REMIC prospectus as well as this prospectus supplement.

The certificates, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any agency or instrumentality thereof other than Fannie Mae.

The certificates are exempt from registration under the Securities Act of 1933 and are "exempted securities" under the Securities Exchange Act of 1934.

Goldman Sachs & Co.

The date of this Prospectus Supplement is September 21, 2007

AVAILABLE INFORMATION

You should purchase the certificates only if you have read and understood this prospectus supplement and the following documents (the "Disclosure Documents"):

- our Prospectus for Fannie Mae Guaranteed REMIC Pass-Through Certificates dated August 1, 2007 (the "REMIC Prospectus");
- the disclosure documents relating to the applicable underlying REMIC certificates (the "Underlying REMIC Disclosure Documents");
- our Prospectus for Fannie Mae Guaranteed Mortgage Pass-Through Certificates (Single-Family Residential Mortgage Loans) dated January 1, 2006 (for all MBS issued prior to June 1, 2007) or dated June 1, 2007 (for all MBS issued on or after June 1, 2007) (as applicable, the "MBS Prospectus"); and
- any information incorporated by reference in this prospectus supplement as discussed below and under the heading "Incorporation by Reference" in the REMIC Prospectus.

The Underlying REMIC Disclosure Documents and the MBS Prospectus are incorporated by reference in this prospectus supplement. This means that we are disclosing information in those documents by referring you to them. Those documents are considered part of this prospectus supplement, so you should read this prospectus supplement, and any applicable supplements or amendments, together with those documents.

You can obtain copies of the Disclosure Documents by writing or calling us at:

Fannie Mae MBS Helpline 3900 Wisconsin Avenue, N.W., Area 2H-3S Washington, D.C. 20016 (telephone 1-800-237-8627).

In addition, the Disclosure Documents, together with the class factors, are available on our corporate Web site at www.fanniemae.com.

You also can obtain copies of the REMIC Prospectus, the Underlying REMIC Disclosure Documents and the MBS Prospectus by writing or calling the dealer at:

Goldman, Sachs & Co. Prospectus Department 85 Broad Street, Concourse Level New York, New York 10004 (telephone 212-902-1171).

SUMMARY

This summary contains only limited information about the certificates. Statistical information in this summary is provided as of September 1, 2007. You should purchase the certificates only after reading this prospectus supplement and each of the additional disclosure documents listed on page S-3. In particular, please see the discussion of risk factors that appears in each of those additional disclosure documents.

Assets Underlying Each Group of Classes

| Group | $\underline{	ext{Assets}}$ |
|-------|--|
| 1 | Class 2007-58-FA REMIC Certificate Class 2007-58-FV REMIC Certificate |
| 2 | Class 2007-72-KF REMIC Certificate Class 2007-72-EK REMIC Certificate |
| 3 | Class 2003-24-MS REMIC Certificate |
| 4 | Class 2002-71-OI REMIC Certificate Class 2003-14-IO REMIC Certificate Class 2003-25-IK REMIC Certificate Class 2003-30-LI REMIC Certificate |
| | Class 2003-25-IK REMIC Certificate |

Characteristics of the Underlying REMIC Certificates

Exhibit A describes the underlying REMIC certificates, including certain information about the related mortgage loans. To learn more about the underlying REMIC certificates, you should obtain from us the current class factors and the related disclosure documents as described on page S-3.

Settlement Date

We expect to issue the certificates on September 28, 2007.

Distribution Dates

We will make payments on the certificates on the 25th day of each calendar month, or on the next business day if the 25th day is not a business day.

Record Date

On each distribution date, we will make each monthly payment on the certificates to holders of record on the last day of the preceding month.

Book-Entry and Physical Certificates

We will issue the classes of certificates in the following forms:

| Fed Book-Entry | Physical |
|--|----------|
| All classes of certificates other than the R Class | R Class |

Exchanging Certificates Through Combination and Recombination

If you own certificates of a class designated as "exchangeable" on the cover of this prospectus supplement, you will be able to exchange them for a proportionate interest in the related RCR certificates. Schedule 1 lists the available combinations of the certificates eligible for exchange and the

related RCR certificates. You can exchange your certificates by notifying us and paying an exchange fee. We will deliver the RCR certificates upon such exchange.

We will apply principal and interest payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

Interest Rates

During each interest accrual period, the fixed rate class will bear interest at the applicable annual interest rate listed on the cover of this prospectus supplement.

The initial interest rates listed below for the floating rate and inverse floating rate classes are assumed rates. During each subsequent interest accrual period, the floating rate and inverse floating rate classes will bear interest based on the formulas indicated below, but always subject to the specified maximum and minimum interest rates:

| Class | Assumed Initial Interest Rate(1) | Maximum Interest Rate | Minimum Interest Rate | Formula for Calculation of Interest Rate(2) |
|-------|---|-----------------------------|-----------------------------|---|
| FA | 5.57000% | 7.00000% | 0.25% | LIBOR + 25 basis points |
| FZ | 5.57000% | 7.00000% | 0.25% | LIBOR $+$ 25 basis points |
| FE | 6.25625% | 7.50000% | 0.45% | LIBOR + 45 basis points |
| IE | 0.65000% | 0.65000% | 0.00% | 7.05% – LIBOR |
| FC | 6.30625% | 7.00000% | 0.50% | LIBOR $+$ 50 basis points |
| IC | 0.10000% | 0.10000% | 0.00% | $6.5\%-\mathrm{LIBOR}$ |
| MI | 2.49500% | 8.00000% | 0.00% | 8% – LIBOR |
| FB | 6.40625% | 7.00000% | 0.60% | LIBOR + 60 basis points |
| MS | 4.57417% | 14.66667% | 0.00% | $14.66667\% - (1.833333333 \times LIBOR)$ |

⁽¹⁾ We will calculate the actual initial interest rates for these Classes on September 21, 2007 using the applicable formulas.

Notional Classes

The notional principal balances of the notional classes will equal the percentages of the outstanding balances specified below immediately before the related distribution date:

| Class | | |
|-------|-----------------|--|
| IE | 100% | of the FE Class |
| IC | 100% (| of the FC Class |
| MI | 183.3333349068% | of the MO Class |
| KI | 100% (| of the aggregate notional principal balance of |
| | 1 | the Group 4 Underlying REMIC Certificates |

Distributions of Principal

For a description of the principal payment priorities, see "Description of the Certificates—Distributions of Principal" in this prospectus supplement.

⁽²⁾ We will establish LIBOR on the basis of the "BBA Method."

^{*} Determined as specified under "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

ADDITIONAL RISK FACTORS

The rates of principal payments on the FA and FZ Classes also may be sensitive to LIBOR. The rates of principal payments on the FA and FZ Classes in Group 1 will depend in part on the rate at which interest accrues on the FZ Class. The rate at which interest accrues on the FZ Class in turn will depend on the level of LIBOR in effect from time to time. In particular, during periods when the level of LIBOR is relatively high, principal of the FA and FZ Classes will be paid more rapidly than would otherwise be the case. Conversely, during periods when the level of LIBOR is relatively low, principal of the FA and FZ Classes will be paid more slowly than would otherwise be the case.

Payments on the Group 3 Classes also will be affected by the payment priority governing the Group 3 Underlying REMIC Certificate. If you invest in any Group 3 Classes, the rate at which you receive payments also will be affected by the applicable priority sequence governing principal payments on the Group 3 Underlying REMIC Certificate.

In particular, as described in the related underlying disclosure document, principal payments on the Group 3 Underlying REMIC Certificate are governed by a principal balance schedule. As a result, the Group 3 Underlying REMIC Certificate may receive principal payments at a rate faster or slower than would otherwise have been the case. In some cases, the Group 3 Underlying REMIC Certificate may receive no principal payments for extended periods. Prepayments on the related mortgage loans may have occurred at a rate faster or slower than the rate initially assumed. This prospectus supplement contains no information as to whether

- the Group 3 Underlying REMIC Certificate has adhered to its principal balance schedule,
- any related support classes remain outstanding, or
- the Group 3 Underlying REMIC Certificate otherwise has performed as originally anticipated.

You may obtain additional information about the Group 3 Underlying REMIC Certificate by reviewing its current class factor in light of other information available in the related underlying disclosure document. You may obtain that document from us as described on page S-3.

DESCRIPTION OF THE CERTIFICATES

The material under this heading describes the principal features of the Certificates. You will find additional information about the Certificates in the other sections of this prospectus supplement, as well as in the additional Disclosure Documents and the Trust Agreement. If we use a capitalized term in this prospectus supplement without defining it, you will find the definition of that term in the applicable Disclosure Document or in the Trust Agreement.

General

Structure. We will create the Fannie Mae REMIC Trust specified on the cover of this prospectus supplement (the "Trust") pursuant to a trust agreement dated as of August 1, 2007 and a supplement thereto dated as of September 1, 2007 (the "Issue Date"). We will issue the Guaranteed REMIC Pass-Through Certificates (the "REMIC Certificates") pursuant to that trust agreement and supplement. We will issue the Combinable and Recombinable REMIC Certificates (the "RCR Certificates" and, together with the REMIC Certificates, the "Certificates") pursuant to a separate trust agreement dated as of August 1, 2007 and a supplement thereto dated as of the Issue Date (together with the trust agreement and supplement relating to the REMIC Certificates, the "Trust Agreement"). We will execute the Trust Agreement in our corporate capacity and as trustee (the "Trustee"). In general, the term "Classes" includes the Classes of REMIC Certificates and RCR Certificates.

The assets of the Trust will include four groups of previously issued REMIC certificates (the "Group 1 Underlying REMIC Certificates," "Group 2 Underlying REMIC Certificates," "Group 3 Underlying REMIC Certificate" and "Group 4 Underlying REMIC Certificates" and, together, the "Underlying REMIC Certificates") evidencing beneficial ownership interests in the related Fannie Mae REMIC trusts (the "Underlying REMIC Trusts") as further described in Exhibit A.

The assets of the Underlying REMIC Trusts evidence direct or indirect beneficial ownership interests in certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the "MBS").

Each MBS represents a beneficial ownership interest in a pool of first lien, one- to four-family ("single-family"), fixed-rate residential mortgage loans (the "Mortgage Loans") having the characteristics described in this prospectus supplement.

The Trust will constitute a "real estate mortgage investment conduit" ("REMIC") under the Internal Revenue Code of 1986, as amended (the "Code").

The following chart contains information about the assets, the "regular interests" and the "residual interest" of the REMIC. The REMIC Certificates other than the R Class are collectively referred to as the "Regular Classes" or "Regular Certificates," and the R Class is referred to as the "Residual Class" or "Residual Certificate."

| | Assets | Regular Interests | Interest |
|-------|----------------------------------|-----------------------------|----------|
| REMIC | Underlying REMIC Certificates | Group 1, 2, 3 and 4 Classes | R |

Fannie Mae Guaranty. For a description of our guaranties of the Certificates and the Underlying REMIC Certificates, see "Description of the Certificates—Fannie Mae Guaranty" in the REMIC Prospectus, "Description of the Certificates—General—Fannie Mae Guaranty" in the Underlying REMIC Disclosure Documents, and "Description of the Certificates—Fannie Mae Guaranty" in the MBS Prospectus. Our guaranties are not backed by the full faith and credit of the United States.

Characteristics of Certificates. Except as specified below, we will issue the Certificates in bookentry form on the book-entry system of the U.S. Federal Reserve Banks. Entities whose names appear on the book-entry records of a Federal Reserve Bank as having had Certificates deposited in their accounts are "Holders" or "Certificateholders."

We will issue the Residual Certificate in fully registered, certificated form. The "Holder" or "Certificateholder" of the Residual Certificate is its registered owner. The Residual Certificate can be transferred at the corporate trust office of the Transfer Agent, or at the office of the Transfer Agent in New York, New York. U.S. Bank National Association ("US Bank") in Boston, Massachusetts will be the initial Transfer Agent. We may impose a service charge for any registration of transfer of the Residual Certificate and may require payment to cover any tax or other governmental charge. See also "—Characteristics of the Residual Class" below.

Authorized Denominations. We will issue the Certificates in the following denominations:

| $\underline{\text{Classes}}$ | Denominations |
|--|--|
| Interest Only, Principal Only and | \$100,000 minimum plus whole dollar increments |
| Inverse Floating Rate Classes | |
| All other Classes (except the R Class) | \$1,000 minimum plus whole dollar increments |

The Underlying REMIC Certificates

The Underlying REMIC Certificates represent beneficial ownership interests in the related Underlying REMIC Trusts. The assets of those trusts evidence direct or indirect beneficial ownership interests in certain MBS having the general characteristics set forth in the MBS Prospectus.

Distributions on the Underlying REMIC Certificates will be passed through monthly, beginning in the month after we issue the Certificates. The general characteristics of the Underlying REMIC Certificates are described in the related Underlying REMIC Disclosure Documents. See Exhibit A for additional information about the Underlying REMIC Certificates.

Each MBS evidences beneficial ownership interests in a pool of conventional, fixed-rate, fully-amortizing mortgage loans secured by first mortgages or deeds of trust on single-family residential properties, as described under "The Mortgage Pools" and "Yield, Maturity, and Prepayment Considerations" in the MBS Prospectus.

For further information about the Underlying REMIC Certificates, telephone us at 1-800-237-8627. There may have been material changes in facts and circumstances since the dates we prepared the Underlying REMIC Disclosure Documents. These may include changes in prepayment speeds, prevailing interest rates and other economic factors. As a result, the usefulness of the information set forth in those documents may be limited.

Distributions of Interest

General. The certificates will bear interest at the rates specified in this prospectus supplement. Interest to be paid on each Certificate on a Distribution Date will consist of one month's interest on the outstanding balance of that Certificate immediately prior to that Distribution Date.

Delay Class and No-Delay Classes. The "delay" class and "no-delay" classes are set forth in the following table:

Delay Classes No-Delay Classes

Fixed Rate Class Floating Rate and Inverse Floating Rate Classes

See "Description of the Certificates—Distributions on Certificates—Interest Distributions" in the REMIC Prospectus.

The Dealer will treat the Principal Only Classes as no-delay Classes solely for the purpose of facilitating trading.

Accrual Class. The FZ Class is an Accrual Class. Interest will accrue on the Accrual Class at the applicable annual rate described in this prospectus supplement. However, we will not pay any interest on the Accrual Class. Instead, interest accrued on the Accrual Class will be added as principal to its principal balance on each Distribution Date. We will pay principal on the Accrual Class as described under "—Distributions of Principal" below.

Distributions of Principal

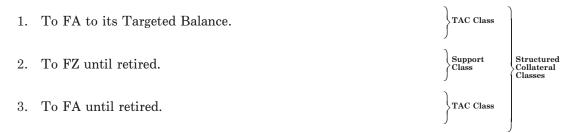

On the Distribution Date in each month, we will make payments of principal on the Certificates as described below.

• Group 1

The FZ Accrual Amount to FA to its Targeted Balance, and thereafter to FZ.

Accretion
Directed /
TAC Class
and Accrual
Class

The Group 1 Cash Flow Distribution Amount in the following priority:

The "FZ Accrual Amount" is any interest then accrued and added to the principal balance of the FZ Class.

The "Group 1 Cash Flow Distribution Amount" is the principal then paid on the Group 1 Underlying REMIC Certificates.

• Group 2

The Group 2 Principal Distribution Amount to FE, FC and OK, pro rata, until Collateral/Pass-Through Classes

The "Group 2 Principal Distribution Amount" is the principal then paid on the Group 2 Underlying REMIC Certificates.

• Group 3

The Group 3 Principal Distribution Amount to MO until retired.

Structured Collateral / Pass-Through Class

The "Group 3 Principal Distribution Amount" is the principal then paid on the Group 3 Underlying REMIC Certificate.

Structuring Assumptions

Pricing Assumptions. Except where otherwise noted, the information in the tables in this prospectus supplement has been prepared based on the actual characteristics of each pool of Mortgage Loans backing the Underlying REMIC Certificates, the priority sequence affecting principal payments on the Group 3 Underlying REMIC Certificate, and the following assumptions (such characteristics and assumptions, collectively, the "Pricing Assumptions"):

- the Mortgage Loans prepay at the constant percentages of PSA specified in the related tables;
- the settlement date for the Certificates is September 28, 2007; and
- each Distribution Date occurs on the 25th day of a month.

Prepayment Assumptions. The prepayment model used in this prospectus supplement is PSA. For a description of this model, see "Yield, Maturity and Prepayment Considerations—Prepayment Models" in the REMIC Prospectus.

Principal Balance Schedule. The Principal Balance Schedule for the FA Class is set forth beginning on page B-1 of this prospectus supplement. The Principal Balance Schedule for the FA

Class was prepared based on the Pricing Assumptions and the assumption that the related Mortgage Loans prepay at the "Structuring Speed" specified in the chart below.

Class Structuring Speed

FA Class Targeted Balances

113% PSA(1)

(1) The Targeted Balances for the FA Class also were structured on the basis of an assumed constant LIBOR level of 5.32%.

We cannot assure you that the balance of the FA Class will conform on any Distribution Date to the balance specified in the Principal Balance Schedule or that distributions of principal of the FA Class will begin or end on the Distribution Dates specified in the Principal Balance Schedule.

If you are considering the purchase of the FA Class, you should first take into account the considerations set forth below.

- We will distribute any excess of principal distributions over the amount necessary to reduce the FA Class to its scheduled balance in any month. As a result, the likelihood of reducing the FA Class to its scheduled balance each month will not be improved by the averaging of high and low principal distributions from month to month.
- The principal payment stability of the FA Class will be supported by the FZ Class. When the FZ Class is retired, the FA Class, if still outstanding, will be much more sensitive to prepayments of the related Mortgage Loans.

Yield Tables

General. The tables below illustrate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of the applicable Classes to various constant percentages of PSA and, where specified, to changes in the Index. We calculated the yields set forth in the tables by

- determining the monthly discount rates that, when applied to the assumed streams of cash
 flows to be paid on the applicable Classes, would cause the discounted present values of the
 assumed streams of cash flows to equal the assumed aggregate purchase prices of those
 Classes, and
- converting the monthly rates to corporate bond equivalent rates.

These calculations do not take into account variations in the interest rates at which you could reinvest distributions on the Certificates. Accordingly, these calculations do not illustrate the return on any investment in the Certificates when reinvestment rates are taken into account.

We cannot assure you that

- the pre-tax yields on the applicable Certificates will correspond to any of the pre-tax yields shown here, or
- the aggregate purchase prices of the applicable Certificates will be as assumed.

In addition, it is unlikely that the Index will correspond to the levels shown here. Furthermore, because some of the Mortgage Loans are likely to have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal payments on the Certificates are likely to differ from those assumed. This would be the case even if all Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is unlikely that

- the Mortgage Loans will prepay at a constant PSA rate until maturity,
- all of the Mortgage Loans will prepay at the same rate, or
- the level of the Index will remain constant.

The Inverse Floating Rate Classes. The yields on the Inverse Floating Rate Classes will be sensitive in varying degrees to the rate of principal payments, including prepayments, of the related Mortgage Loans and to the level of the Index. The Mortgage Loans generally can be prepaid at any time without penalty. In addition, the rate of principal payments (including prepayments) of the Mortgage Loans is likely to vary, and may vary considerably, from pool to pool. As illustrated in the applicable tables below, it is possible that investors in the IE, IC and MI Classes would lose money on their initial investments under certain Index and prepayment scenarios.

Changes in the Index may not correspond to changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur while the level of the Index increased.

The information shown in the yield tables has been prepared on the basis of the Pricing Assumptions and the assumptions that

- the interest rates for the Inverse Floating Rate Classes for the initial Interest Accrual Period are the rates listed in the table under "Summary—Interest Rates" in this prospectus supplement and for each following Interest Accrual Period will be based on the specified level of the Index, and
- the aggregate purchase prices of those Classes (expressed in each case as a percentage of original principal balance) are as follows:

| Class | Price* |
|-------|----------|
| IE | 2.0000% |
| IC | 0.4375% |
| MI | 9.2500% |
| MS | 96.6875% |

The prices do not include accrued interest. Accrued interest has been added to the prices in calculating the yields set forth in the tables below.

In the following yield tables, the symbol * is used to represent a yield of less than (99.9)%.

Sensitivity of the IE Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

| | PSA Prepayment Assumption | | | | | |
|-------|---------------------------|-------|--------|--------|---------|--|

The Principal Only Classes. The Principal Only Classes will not bear interest. As indicated in the tables below, a low rate of principal payments (including prepayments) on the related Mortgage Loans will have a negative effect on the yields to investors in the Principal Only Classes.

The information shown in the yield tables has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the Principal Only Classes (expressed in each case as a percentage of original principal balance) are as follows:

| Class | Price |
|-------|-------|
| OK | 73.0% |
| MO | 80.0% |

Sensitivity of the OK Class to Prepayments

| | PSA Prepayment Assumption | | | | | | | |
|----------------------------|---------------------------|------|------|------|-------|--|--|--|
| | 50 % | 100% | 258% | 350% | 500% | | | |
| Pre-Tax Yields to Maturity | 2.3% | 3.1% | 5.9% | 7.6% | 10.3% | | | |

Sensitivity of the MO Class to Prepayments

| | PSA Prepayment Assumption | | | | | | | |
|----------------------------|---------------------------|------|------|------|-------|--|--|--|
| | 50 % | 100% | 183% | 350% | 500% | | | |
| Pre-Tax Yields to Maturity | 2.3% | 3.2% | 5.1% | 9.4% | 13.9% | | | |

The Fixed Rate Interest Only Class. The yield to investors in the Fixed Rate Interest Only Class will be very sensitive to the rate of principal payments (including prepayments) of the related Mortgage Loans. The Mortgage Loans generally can be prepaid at any time without penalty. On the basis of the assumptions described below, the yield to maturity on the Fixed Rate Interest Only Class would be 0% if prepayments of the related Mortgage Loans were to occur at the following constant rate:

| Class | % PSA |
|-------|------------|
| KI | . 398% PSA |

If the actual prepayment rate of the related Mortgage Loans were to exceed the level specified for as little as one month while equaling that level for the remaining months, the investors in the applicable Class would lose money on their initial investments.

The information shown in the following yield table has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase price of the Fixed Rate Interest Only Class (expressed as a percentage of the original principal balance) is as follows:

| Class | Price* |
|-------|-----------|
| KI | 23.5% |

^{*} The price does not include accrued interest. Accrued interest has been added to the price in calculating the yields set forth in the table below.

Sensitivity of the KI Class to Prepayments

DC A D

| | PSA Prepayment Assumption | | | | | | | |
|----------------------------|---------------------------|-------|------|------|--------|--|--|--|
| | 50% | 100% | 278% | 350% | 500% | | | |
| Pre-Tax Yields to Maturity | 25.2% | 21.7% | 9.0% | 3.7% | (8.0)% | | | |

Weighted Average Lives of the Certificates

For a description of how the weighted average life of a Certificate is determined, see "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including

- the timing of changes in the rate of principal payments,
- the priority sequence of payments of principal of the Group 1 Classes, and
- in the case of the Group 3 Classes, the priority sequence affecting principal payments on the Group 3 Underlying REMIC Certificate.

See "—Distributions of Principal" above and "Description of the Certificates—Distributions of Principal" in the applicable Underlying REMIC Disclosure Document.

The effect of these factors may differ as to various Classes and the effects on any Class may vary at different times during the life of that Class. Accordingly, we can give no assurance as to the

weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their original principal balances, variability in the weighted average lives of those Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

Decrement Tables

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each date shown at various constant PSA rates, and the corresponding weighted average lives of those Classes. The tables have been prepared on the basis of the Pricing Assumptions.

In the case of the information set forth for each Class under 0% PSA, however, we assumed that the Mortgage Loans have the original and remaining terms to maturity and bear interest at the annual rates specified in the table below.

| Mortgage Loans Relating to Trust Assets Specified Below | Original Terms to <u>Maturity</u> | Remaining Terms to Maturity | Interest Rates |
|--|---|-----------------------------------|-------------------|
| Group 1 Underlying REMIC Certificates | 360 months | 356 months | 8.50% |
| Group 2 Underlying REMIC Certificates | 360 months | 357 months | 8.50% |
| Group 3 Underlying REMIC Certificate | 360 months | 306 months | 8.25% |
| Group 4 Underlying REMIC Certificates | 360 months | (1) | 9.50% |

⁽¹⁾ The Mortgage Loans underlying the Group 4 Underlying REMIC Certificates are assumed to have the following remaining terms to maturity:

| 2002-71-OI REMIC Certificate | 301 months |
|------------------------------|------------|
| 2003-14-IO REMIC Certificate | 305 months |
| 2003-25-IK REMIC Certificate | 306 months |
| 2003-30-LI REMIC Certificate | 294 months |
| 2003-33-IU REMIC Certificate | 307 months |

It is unlikely that all of the Mortgage Loans will have the remaining terms to maturity or interest rates assumed or that the Mortgage Loans will prepay at any *constant* PSA level.

In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA rates, even if the weighted average remaining term to maturity and the weighted average loan age of the Mortgage Loans are identical to the weighted averages specified in the Pricing Assumptions. This is the case because pools of loans with identical weighted averages are nonetheless likely to reflect differing dispersions of the related characteristics.

^{*} Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

^{**} Determined as specified under "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

[†] In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

Characteristics of the Residual Class

A Residual Certificate will be subject to certain transfer restrictions. See "Description of the Certificates—Special Characteristics of the Residual Certificates" and "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus.

Treasury Department regulations (the "Regulations") provide that a transfer of a "noneconomic residual interest" will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. A Residual Certificate will constitute a noneconomic residual interest under the Regulations. Having a significant purpose to impede the assessment or collection of tax means that the transferor of a Residual Certificate had "improper knowledge" at the time of the transfer. See "Description of the Certificates—Special Characteristics of the Residual Certificates" in the REMIC Prospectus. You should consult your own tax advisor regarding the application of the Regulations to a transfer of a Residual Certificate.

CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The Certificates and payments on the Certificates are not generally exempt from taxation. Therefore, you should consider the tax consequences of holding a Certificate before you acquire one. The following tax discussion supplements the discussion under the caption "Material Federal Income Tax Consequences" in the REMIC Prospectus. When read together, the two discussions describe the current federal income tax treatment of beneficial owners of Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of beneficial owners, some of which may be subject to special rules. In addition, these discussions may not apply to your particular circumstances for one of the reasons explained in the REMIC Prospectus. You should consult your own tax advisors regarding the federal income tax consequences of holding and disposing of Certificates as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

U.S. Treasury Circular 230 Notice

The tax discussions contained in the REMIC Prospectus (including the sections entitled "Material Federal Income Tax Consequences" and "ERISA Considerations") and this prospectus supplement were not intended or written to be used, and cannot be used, for the purpose of avoiding United States federal tax penalties. These discussions were written to support the promotion or marketing of the transactions or matters addressed in this prospectus supplement. You should seek advice based on your particular circumstances from an independent tax advisor.

REMIC Election and Special Tax Attributes

We will make a REMIC election with respect to the REMIC set forth in the table under "Description of the Certificates—General—Structure." The Regular Classes will be designated as "regular interests" and the Residual Class will be designated as the "residual interest" in the REMIC as set forth in that table. Thus, the REMIC Certificates and any related RCR Certificates generally will be treated as "regular or residual interests in a REMIC" for domestic building and loan associations, as "real estate assets" for real estate investment trusts, and, except for the Residual Class, as "qualified mortgages" for other REMICs. See "Material Federal Income Tax Consequences—REMIC Election and Special Tax Attributes" in the REMIC Prospectus.

Taxation of Beneficial Owners of Regular Certificates

The Accrual Class, the Notional Classes and the Principal Only Classes will be issued with original issue discount ("OID"), and certain other Classes of REMIC Certificates may be issued with OID. If a Class is issued with OID, a beneficial owner of a Certificate of that Class generally must recognize some taxable income in advance of the receipt of the cash attributable to that income. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount" in the REMIC Prospectus. In addition, certain Classes of REMIC Certificates may be treated as having been issued at a premium. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Regular Certificates Purchased at a Premium" in the REMIC Prospectus.

The Prepayment Assumptions that will be used in determining the rate of accrual of OID will be as follows:

| Group | Prepayment Assumption |
|-------|-----------------------|
| 1 | 225% PSA |
| 2 | 258% PSA |
| 3 | 183% PSA |
| 4 | 278% PSA |

See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Treatment of Original Issue Discount*" in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at any of those rates or any other rate. See "Description of the Certificates—Weighted Average Lives of the Certificates" in this prospectus supplement and "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

Taxation of Beneficial Owners of Residual Certificates

The Holder of a Residual Certificate will be considered to be the holder of the "residual interest" in the related REMIC. Such Holder generally will be required to report its daily portion of the taxable income or net loss of the REMIC to which that Certificate relates. In certain periods, a Holder of a Residual Certificate may be required to recognize taxable income without being entitled to receive a corresponding amount of cash. Pursuant to the Trust Agreement, we will be obligated to provide to the Holder of a Residual Certificate (i) information necessary to enable it to prepare its federal income tax returns and (ii) any reports regarding the Residual Class that may be required under the Code. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus.

Taxation of Beneficial Owners of RCR Certificates

The RCR Classes will be created, sold and administered pursuant to an arrangement that will be classified as a grantor trust under subpart E, part I of subchapter J of the Code. The Regular Certificates that are exchanged for RCR Certificates set forth in Schedule 1 (including any exchanges effective on the Settlement Date) will be the assets of the trust, and the RCR Certificates will represent an ownership interest of the underlying Regular Certificates. For a general discussion of the federal income tax treatment of beneficial owners of Regular Certificates, see "Material Federal Income Tax Consequences" in the REMIC Prospectus.

Generally, the ownership interest represented by an RCR certificate will be one of two types. A certificate of a Strip RCR Class (a "Strip RCR Certificate") will represent the right to receive a disproportionate part of the principal or interest payments on one or more underlying Regular Certificates. A certificate of a Combination RCR Class (a "Combination RCR Certificate") will represent beneficial ownership of undivided interests in two or more underlying Regular Certificates. All of the RCR Certificates are Combination RCR Certificates. See "Material Federal Income Tax

Consequences—Taxation of Beneficial Owners of RCR Certificates" in the REMIC Prospectus for a general discussion of the federal income tax treatment of beneficial owners of RCR Certificates.

PLAN OF DISTRIBUTION

We are obligated to deliver the Certificates to Goldman Sachs & Co. (the "Dealer") in exchange for the Underlying REMIC Certificates. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect these transactions to or through other dealers.

LEGAL MATTERS

Sidley Austin LLP will provide legal representation for Fannie Mae. Cleary Gottlieb Steen & Hamilton LLP will provide legal representation for the Dealer.

(1) See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus. (2) This class bears interest as further described in the related Underlying REMIC Disclosure Document.

Note: For any pool of Mortgage Loans backing an Underlying REMIC Certificate, if a preliminary calculation indicated that the sum of the WAM and WALA for that pool exceeded the longest original term to maturity of any Mortgage Loan in the pool, the WALA used in determining the information shown in the related table was reduced as necessary to insure that the sum of the WAM and WALA does not exceed such original term to maturity.

(1) See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus. (2) The Class 2003-30-LI REMIC Certificate is backed by the following Fannie Mae certificates:

| Class | Type | Principal Type |
|------------|--------|----------------|
| 2002-39-FD | FLT | PT |
| 2002-39-SD | INV/IO | NTL |

Note: For any pool of Mortgage Loans backing an Underlying REMIC Certificate, if a preliminary calculation indicated that the sum of the WAM and WALA for that pool exceeded the longest original term to maturity of any Mortgage Loan in the pool, the WALA used in determining the information shown in the related table was reduced as necessary to insure that the sum of the WAM and WALA does not exceed such original term to maturity.

REMIC Certificates and RCR Certificates in each Recombination may be exchanged only in the proportions of original principal or notional principal balances for the related Classes shown in this Schedule 1 (disregarding any retired Classes). For example, if a particular Recombination includes two REMIC Classes and one RCR Classes shown in the schedule reflect a 1:1:2 relationship, the same 1:1:2 relationship among the original principal balances of those REMIC and RCR Classes must be maintained in any exchange. This is true even if, as a result of the applicable payment priority sequence, the relationship between their current principal balances has changed over time. Moreover, if as a result of a proposed exchange, a Certificateholder would hold a REMIC Certificate or RCR Certificate of a Class in an amount denomination for that Class, the Certificateholder will be unable to effect the proposed exchange. See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

For a description of these interest rates, see "Summary—Interest Rates" in this prospectus supplement.

For a description of these classes are Interest Only Classes. See page S-5 for a description of how their notional balances are calculated. 1

No one is authorized to give information or to make representations in connection with the Certificates other than the information and representations contained in this Prospectus Supplement and the additional Disclosure Documents. You must not rely on any unauthorized information or representation. This Prospectus Supplement and the additional Disclosure Documents do not constitute an offer or solicitation with regard to the Certificates if it is illegal to make such an offer or solicitation to you under state law. By delivering this Prospectus Supplement and the additional Disclosure Documents at any time, no one implies that the information contained herein or therein is correct after the date hereof or thereof.

The Securities and Exchange Commission has not approved or disapproved the Certificates or determined if this Prospectus Supplement is truthful and complete. Any representation to the contrary is a criminal offense.
