# \$1,247,324,342

# Guaranteed REMIC Pass-Through Certificates Fannie Mae REMIC Trust 2010-33

### The Certificates

We, the Federal National Mortgage Association (Fannie Mae), will issue the classes of certificates listed in the chart on this cover.

### **Payments to Certificateholders**

We will make monthly payments on the certificates. You, the investor, will receive

- interest accrued on the balance of your certificate (except in the case of the accrual classes), and
- principal to the extent available for payment on your class.

We will pay principal at rates that may vary from time to time. We may not pay principal to certain classes for long periods of time.

### The Fannie Mae Guaranty

We will guarantee that required payments of principal and interest on the certificates are available for distribution to investors on time.

### The Trust and its Assets

The trust will own

- underlying REMIC and RCR certificates backed by Fannie Mae MBS and
- Fannie Mae MBS.

The mortgage loans underlying the Fannie Mae MBS are first lien, single-family, fixed-rate loans.

Class	Group	Original Class Balance	Principal Type(1)	Interest Rate	Interest Type(1)	CUSIP Number	Final Distribution Date

- (1) See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC prospectus.(2) Notional balances. These classes are interest only classes.
- Notional balances. These classes are interest only classes See page S-8 for a description of how their notional balances are calculated.

(3) Exchangeable classes.(4) Based on LIBOR.

If you own certificates of certain classes, you can exchange them for certificates of the corresponding RCR classes to be delivered at the time of exchange. The GZ, FE, SE, AP, JP, GP, DP, BP, IP, UM, HM, EM, UN, HN, EN, K, KN, KE, KC, IK, WQ, AQ, EQ and AS Classes are the RCR classes. For a more detailed description of the RCR classes, see Schedule 1 attached to this prospectus supplement and "Description of the Certificates—Combination and Recombination" in the REMIC prospectus.

The dealer will offer the certificates listed above from time to time in negotiated transactions at varying prices. We expect the settlement date to be March 30, 2010.

Carefully consider the risk factors on page S-10 of this prospectus supplement and starting on page 10 of the REMIC prospectus. Unless you understand and are able to tolerate these risks, you should not invest in the certificates.

You should read the REMIC prospectus as well as this prospectus supplement.

The certificates, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any agency or instrumentality thereof other than Fannie Mae.

The certificates are exempt from registration under the Securities Act of 1933 and are "exempted securities" under the Securities Exchange Act of 1934.

### AVAILABLE INFORMATION

You should purchase the certificates only if you have read and understood this prospectus supplement and the following documents (the "Disclosure Documents"):

- our Prospectus for Fannie Mae Guaranteed REMIC Pass-Through Certificates dated August 1, 2007 (the "REMIC Prospectus");
- our Prospectus for Fannie Mae Guaranteed Pass-Through Certificates (Single-Family Residential Mortgage Loans) dated
  - o June 1, 2009, for all MBS issued on or after January 1, 2009,
  - o April 1, 2008, for all MBS issued on or after June 1, 2007 and prior to January 1, 2009, or
  - January 1, 2006, for all other MBS (as applicable, the "MBS Prospectus");
- if you are purchasing a Group 1 or Group 2 Class or the R or RL Class, the disclosure documents relating to the applicable underlying REMIC and RCR certificates (the "Underlying REMIC Disclosure Documents"); and
- any information incorporated by reference in this prospectus supplement as discussed below and under the heading "Incorporation by Reference" in the REMIC Prospectus.

For a description of current servicing policies generally applicable to existing Fannie Mae MBS pools, see "Yield, Maturity, and Prepayment Considerations" in the MBS Prospectus dated June 1, 2009.

The MBS Prospectus and the Underlying REMIC Disclosure Documents are incorporated by reference in this prospectus supplement. This means that we are disclosing information in those documents by referring you to them. Those documents are considered part of this prospectus supplement, so you should read this prospectus supplement, and any applicable supplements or amendments, together with those documents.

You can obtain copies of the Disclosure Documents by writing or calling us at:

Fannie Mae MBS Helpline 3900 Wisconsin Avenue, N.W., Area 2H-3S Washington, D.C. 20016 (telephone 1-800-237-8627).

In addition, the Disclosure Documents, together with the class factors, are available on our corporate Web site at www.fanniemae.com.

You also can obtain copies of the REMIC Prospectus, the MBS Prospectus and the Underlying REMIC Disclosure Documents by writing or calling the dealer at:

J.P. Morgan Securities, Inc. c/o Broadridge Financial Solutions Prospectus Department 1155 Long Island Edgewood, NY 11717 (telephone 631-274-2635).

### RECENT DEVELOPMENTS

The Regulatory Reform Act, which became effective on July 30, 2008, established the Federal Housing Finance Agency, or FHFA, as an independent agency with general supervisory and regulatory authority over Fannie Mae, Freddie Mac and the 12 Federal Home Loan Banks. FHFA assumed the duties of our former regulators, the Office of Federal Housing Enterprise Oversight and the U.S. Department of Housing and Urban Development, or HUD, with respect to safety, soundness and mission oversight of Fannie Mae and Freddie Mac. HUD remains our regulator with respect to fair lending matters.

On September 6, 2008, the Director of FHFA placed Fannie Mae into conservatorship and appointed FHFA as the conservator. Upon its appointment, FHFA immediately succeeded to all of our rights, titles, powers and privileges and those of any stockholder, officer, or director of Fannie Mae with respect to us and our assets. The conservator has the authority to take over our assets and operate our business with all the powers of our stockholders, directors and officers, and to conduct all business of the company. Under the Regulatory Reform Act, FHFA, as conservator, may take "such action as may be necessary to put the regulated entity in a sound and solvent condition." We have no control over FHFA's actions or the actions it may direct us to take. The conservatorship has no specified termination date; we do not know when or how it will be terminated. In addition, our board of directors does not have any duties to any person or entity except to the conservator. Accordingly, our board of directors is not obligated to consider the interests of Fannie Mae or the holders of the Certificates unless specifically directed to do so by the conservator.

On September 7, 2008, Fannie Mae, through our conservator, entered into two agreements with Treasury. The first agreement is the Stock Purchase Agreement, which provided us with Treasury's commitment (the "Commitment") to provide us with funding under specified conditions. Under the Stock Purchase Agreement, as amended through December 2009, Treasury's Commitment is currently the greater of (i) \$200 billion or (ii) \$200 billion plus the cumulative amount of our net worth deficit (the amount by which our total liabilities exceed our total assets) as of the end of any and each calendar quarter in 2010, 2011 and 2012, less any positive net worth as of December 31, 2012. We issued 1,000,000 shares of Senior Preferred Stock pursuant to the Stock Purchase Agreement. The other agreement is the Warrant, which allows Treasury to purchase, for a nominal price, shares of common stock equal to 79.9% of the outstanding common stock of Fannie Mae on a fully diluted basis. The Senior Preferred Stock and the Warrant were issued to Treasury as an initial commitment fee for Treasury's Commitment. We are required to pay a quarterly commitment fee, beginning on March 31, 2011. The amount of the commitment fee will be determined by the mutual agreement of Treasury and Fannie Mae on or before December 31, 2010, and will be reset every five years. Additional information about the conservatorship, the Stock Purchase Agreement, the Warrant and the Commitment is included in our Annual Report on Form 10-K for the year ended December 31, 2009 (the "2009 Form 10-K") which is incorporated by reference into this prospectus supplement.

We generally may draw funds under the Commitment on a quarterly basis when our total liabilities exceed our total assets on our consolidated balance sheet prepared in accordance with GAAP as of the end of the preceding quarter. Through December 31, 2009, we had received a total of \$59.9 billion from Treasury under the Commitment. In February 2010, the Acting Director of FHFA submitted a request to Treasury on our behalf for an additional \$15.3 billion to eliminate our net worth deficit as of December 31, 2009, and requested receipt of those funds on or before March 31, 2010. If we have a negative net worth as of the end of future fiscal quarters, we expect that FHFA will request additional funds from Treasury under the Stock Purchase Agreement. All funds drawn on the Commitment are added to the liquidation preference on the Senior Preferred Stock, which currently has a 10% annual dividend rate. Upon the receipt of the additional \$15.3 billion in funds from Treasury that have been requested, the aggregate liquidation preference of the Senior Preferred Stock, including the initial liquidation preference of \$1.0 billion, will be \$76.2 billion, and the annualized dividend on the Senior Preferred Stock, based on the 10% dividend rate, will be \$7.6 billion. If we do not pay the dividend quarterly and in cash, the dividend rate would increase

to 12% annually, and the unpaid dividend would accrue and be added to the liquidation preference of the Senior Preferred Stock.

The Stock Purchase Agreement and the Warrant contain covenants that significantly restrict our business activities. These covenants, which are summarized in our 2009 Form 10-K, include prohibitions on the following activities unless we have prior written consent from Treasury: the issuance of equity securities (except in limited instances), the payment of dividends or other distributions on our equity securities (other than the Senior Preferred Stock or the Warrant), and the issuance of subordinated debt securities. The covenants also limit the amount of debt securities that we may have outstanding.

Certain rights provided to certificateholders under the trust documents may not be enforced against FHFA, or enforcement of such rights may be delayed, during the conservatorship or if we are placed into receivership. The trust documents provide that upon the occurrence of a guarantor event of default, which includes the appointment of a conservator or receiver, certificateholders have the right to replace Fannie Mae as trustee if the requisite percentage of certificateholders consent. The Regulatory Reform Act prevents certificateholders from enforcing their rights to replace Fannie Mae as trustee if the event of default arises solely because a conservator or receiver has been appointed.

We are continuing to operate as a going concern while in conservatorship and remain liable for all of our obligations, including our guaranty obligations, associated with mortgage-backed securities issued by us. The Stock Purchase Agreement is intended to enhance our ability to meet our obligations. However, certificateholders have certain limited rights to bring proceedings against Treasury if we fail to pay under our guaranty.

### **SUMMARY**

This summary contains only limited information about the certificates. Statistical information in this summary is provided as of March 1, 2010. You should purchase the certificates only after reading this prospectus supplement and each of the additional disclosure documents listed on page S-3. In particular, please see the discussion of risk factors that appears in each of those additional disclosure documents.

### **Assets Underlying Each Group of Classes**

Group	Assets
1	Class 2006-69-FG REMIC Certificate
	Class 2006-69-SG RCR Certificate
	Class 2007-16-PT RCR Certificate
2	Class 2010-18-KB RCR Certificate
3	Group 3 MBS
4	Group 4 MBS
5	Group 5 MBS
6	Group 6 MBS

### Group 1 and Group 2

Exhibit A describes the underlying REMIC and RCR certificates in Group 1 and Group 2, including certain information about the related mortgage loans. To learn more about the underlying REMIC and RCR certificates, you should obtain from us the current class factors and the related disclosure documents as described on page S-3.

### Group 3, Group 4, Group 5 and Group 6

Characteristics of the Trust MBS

Approximate Principal Balance	Pass- Through Rate	Range of Weighted Average Coupons or WACs (annual percentages)	Average Remaining Terms to Maturity or WAMs (in months)
\$129,148,909	4.50%	4.75% to 7.00%	181 to 240
\$618,365,478	5.00%	5.25% to 7.50%	241 to 360
\$250,000,000	4.50%	4.75% to 7.00%	241 to 360
\$ 42,550,456	4.00%	4.25% to 6.50%	121 to 180
	Frincipal Balance \$129,148,909 \$618,365,478 \$250,000,000	Principal Balance         Through Rate           \$129,148,909         4.50%           \$618,365,478         5.00%           \$250,000,000         4.50%	Approximate Principal Balance         Pass-Through Rate         Average Coupons or WACs (annual percentages)           \$129,148,909         4.50%         4.75% to 7.00%           \$618,365,478         5.00%         5.25% to 7.50%           \$250,000,000         4.50%         4.75% to 7.00%

Assumed Characteristics of the Underlying Mortgage Loans

Principal Balance	Original Term to Maturity (in months)	Remaining Term to Maturity (in months)	Loan Age (in months)	Interest Rate
\$129,148,909	240	238	2	5.000%
\$618,365,478	360	293	59	5.571%
\$250,000,000	360	326	29	4.971%
\$ 42,550,456	180	163	14	4.620%
	\$129,148,909 \$618,365,478 \$250,000,000	Principal Balance         Maturity (in months)           \$129,148,909         240           \$618,365,478         360           \$250,000,000         360	Principal Balance         Term to Maturity (in months)         Term to Maturity (in months)           \$129,148,909         240         238           \$618,365,478         360         293           \$250,000,000         360         326	Principal Balance         Term to Maturity (in months)         Term to Maturity (in months)         Loan Age (in months)           \$129,148,909         240         238         2           \$618,365,478         360         293         59           \$250,000,000         360         326         29

The actual remaining terms to maturity, loan ages and interest rates of most of the mortgage loans underlying the Trust MBS will differ from those shown above, perhaps significantly.

### **Settlement Date**

We expect to issue the certificates on March 30, 2010.

### **Distribution Dates**

We will make payments on the certificates on the 25th day of each calendar month, or on the next business day if the 25th day is not a business day.

### **Record Date**

On each distribution date, we will make each monthly payment on the certificates to holders of record on the last day of the preceding month.

### **Book-Entry and Physical Certificates**

We will issue the classes of certificates in the following forms:

Fed Book-Entry

Physical

All classes other than the R and RL Classes

R and RL Classes

### **Exchanging Certificates Through Combination and Recombination**

If you own certificates of a class designated as "exchangeable" on the cover of this prospectus supplement, you will be able to exchange them for a proportionate interest in the related RCR certificates. Schedule 1 lists the available combinations of the certificates eligible for exchange and the related RCR certificates. You can exchange your certificates by notifying us and paying an exchange fee. We will deliver the RCR certificates upon such exchange.

We will apply principal and interest payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

### **Interest Rates**

During each interest accrual period, the fixed rate classes will bear interest at the applicable annual interest rates listed on the cover of this prospectus supplement or on Schedule 1.

During the initial interest accrual period, the floating rate and inverse floating rate classes will bear interest at the initial interest rates listed below. During each subsequent interest accrual period, the floating rate and inverse floating rate classes will bear interest based on the formulas indicated below, but always subject to the specified maximum and minimum interest rates:

Class	Initial Interest Rate	Maximum Interest Rate	Minimum Interest Rate	Formula for Calculation of Interest Rate(1)
CF	1.32813%	6.00%	1.1%	LIBOR + 110 basis points
CS	23.35935%	24.50%	0.0%	$24.5\% - (5 \times LIBOR)$
EF	1.32813%	6.00%	1.1%	LIBOR + 110 basis points
ES	23.35935%	24.50%	0.0%	$24.5\% - (5 \times LIBOR)$
AF	1.32875%	6.50%	1.1%	LIBOR + 110 basis points
US	11.63531%	12.15%	0.0%	$12.15\% - (2.25 \times LIBOR)$
SU	11.63531%	12.15%	0.0%	$12.15\% - (2.25 \times LIBOR)$
FE	1.32813%	6.00%	1.1%	LIBOR + 110 basis points
SE	23.35935%	24.50%	0.0%	$24.5\% - (5 \times LIBOR)$
AS	11.63531%	12.15%	0.0%	$12.15\% - (2.25 \times LIBOR)$

<sup>(1)</sup> We will establish LIBOR on the basis of the "BBA Method."

### **Notional Classes**

The notional principal balances of the notional classes will equal the percentages of the outstanding balances specified below immediately before the related distribution date:

Class	
IO	16.666653713% of the aggregate principal balance of the Group $1$
	Underlying REMIC and RCR Certificates
CI	33.333333333% of the CP Class
	33.333328496% of the EP Class
IA	27.777770000% of the A Class
IM	30% of the CM Class
IN	30% of the CN Class
QI	22.222220354% of the KQ Class
IG	12.5% of the G Class
IP	33.333333333% of the CP Class
	plus
	33.3333328496% of the EP Class
IK	30% of the $sum$ of the CM and CN Classes

### **Distributions of Principal**

For a description of the principal payment priorities, see "Description of the Certificates—Distributions of Principal" in this prospectus supplement.

<sup>\*</sup> Determined as specified under "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

\*\* These classes are RCR classes formed from combinations of two or more REMIC classes in different groups. For additional information, see Schedule 1 attached to this prospectus supplement.

### ADDITIONAL RISK FACTORS

Anticipated increases in our purchases of delinquent loans from our single-family MBS trusts may result in increased rates of principal payments on your certificates. On February 10, 2010, we announced that we intend to increase significantly our purchases of delinquent loans from our single-family MBS trusts. If the MBS directly or indirectly backing your certificates hold a significant number of delinquent loans, those MBS could experience significant prepayments. In turn, this may result in an increase in the rate of principal payments on your certificates, particularly in the months following the settlement date specified on the cover of this prospectus supplement.

You should refer to the MBS Prospectus for further information about our option to purchase delinquent loans from MBS pools and to our Web site at <a href="www.fanniemae.com">www.fanniemae.com</a> for further information about our intention to increase our purchases of delinquent loans from our single-family MBS trusts.

Payments on the Group 2 Classes also will be affected by the payment priority governing the related underlying RCR certificate. If you invest in any Group 2 Class, the rate at which you receive payments will be affected by the applicable priority sequence governing principal payments on the Group 2 Underlying RCR Certificate.

In particular, as described in the applicable Underlying REMIC Disclosure Document the Group 2 Underlying RCR Certificate is governed by a principal balance schedule. As a result, the Group 2 Underlying RCR Certificate may receive principal payments faster or slower than would otherwise have been the case. In some cases, it may receive no principal payments for extended periods. Prepayments on the related mortgage loans may have occurred at a rate faster or slower than the rate initially assumed. In certain high prepayment scenarios, it is possible that the effect of a principal balance schedule on principal payments over time may be eliminated. In such a case, the Group 2 Underlying RCR Certificate would receive principal payments at rates that may vary widely from period to period. This prospectus supplement contains no information as to whether

- the Group 2 Underlying RCR Certificate has adhered to the related principal balance schedule,
- any related support classes remain outstanding, or
- the Group 2 Underlying RCR Certificate otherwise has performed as originally anticipated.

You may obtain additional information about the Group 2 Underlying RCR Certificate by reviewing its current class factor in light of other information available in the applicable Underlying REMIC Disclosure Document. You may obtain that document from us as described on page S-3.

### **DESCRIPTION OF THE CERTIFICATES**

The material under this heading describes the principal features of the Certificates. You will find additional information about the Certificates in the other sections of this prospectus supplement, as well as in the additional Disclosure Documents and the Trust Agreement. If we use a capitalized term in this prospectus supplement without defining it, you will find the definition of that term in the applicable Disclosure Document or in the Trust Agreement.

### General

Structure. We will create the Fannie Mae REMIC Trust specified on the cover of this prospectus supplement (the "Trust") pursuant to a trust agreement dated as of August 1, 2007 and a supplement thereto dated as of March 1, 2010 (the "Issue Date"). We will issue the Guaranteed REMIC Pass-Through Certificates (the "REMIC Certificates") pursuant to that trust agreement and supplement. We will issue the Combinable and Recombinable REMIC Certificates (the "RCR Certificates" and, together with the REMIC Certificates, the "Certificates") pursuant to a separate trust agreement

dated as of August 1, 2007 and a supplement thereto dated as of the Issue Date (together with the trust agreement and supplement relating to the REMIC Certificates, the "Trust Agreement"). We will execute the Trust Agreement in our corporate capacity and as trustee (the "Trustee"). In general, the term "Classes" includes the Classes of REMIC Certificates and RCR Certificates.

The assets of the Trust will include:

- certain previously issued REMIC and RCR certificates (the "Group 1 Underlying REMIC and RCR Certificates" and "Group 2 Underlying RCR Certificate," and together the "Underlying REMIC Certificates") issued from the related Fannie Mae REMIC trusts (the "Underlying REMIC Trusts") as further described in Exhibit A, and
- four groups of Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the "Group 3 MBS," "Group 4 MBS," "Group 5 MBS" and "Group 6 MBS," and together, the "Trust MBS").

The Underlying REMIC Certificates evidence direct or indirect beneficial ownership interests in certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (together with the Trust MBS, the "MBS").

Each MBS represents a beneficial ownership interest in a pool of first lien, one-to four-family ("single-family"), fixed-rate residential mortgage loans (the "Mortgage Loans") having the characteristics described in this prospectus supplement.

The Trust will include the "Lower Tier REMIC" and "Upper Tier REMIC" as "real estate mortgage investment conduits" (each, a "REMIC") under the Internal Revenue Code of 1986, as amended (the "Code").

The following chart contains information about the assets, the "regular interests" and the "residual interests" of each REMIC. The REMIC Certificates other than the R and RL Classes are collectively referred to as the "Regular Classes" or "Regular Certificates," and the R and RL Classes are collectively referred to as the "Residual Classes" or "Residual Certificates."

REMIC Designation	Assets	Regular Interests	Residual Interest
Lower Tier REMIC	Underlying REMIC Certificates and Trust MBS.	Interests in the Lower Tier REMIC other than the RL Class (the "Lower Tier Regular Interests")	RL
Upper Tier REMIC	Lower Tier Regular Interests	All Classes of REMIC Certificates other than the R and RL Classes	R

Fannie Mae Guaranty. For a description of our guaranties of the Certificates, the MBS and the Underlying REMIC Certificates, see the applicable discussions appearing under the heading "Fannie Mae Guaranty" in the REMIC Prospectus, the MBS Prospectus and the Underlying REMIC Disclosure Documents. Our guaranties are not backed by the full faith and credit of the United States.

Characteristics of Certificates. Except as specified below, we will issue the Certificates in bookentry form on the book-entry system of the U.S. Federal Reserve Banks. Entities whose names appear on the book-entry records of a Federal Reserve Bank as having had Certificates deposited in their accounts are "Holders" or "Certificateholders."

We will issue the Residual Certificates in fully registered, certificated form. The "Holder" or "Certificateholder" of a Residual Certificate is its registered owner. A Residual Certificate can be transferred at the corporate trust office of the Transfer Agent, or at the office of the Transfer Agent in New York, New York. U.S. Bank National Association ("US Bank") in Boston, Massachusetts will be the initial Transfer Agent. We may impose a service charge for any registration of transfer of a

Residual Certificate and may require payment to cover any tax or other governmental charge. See also "—Characteristics of the Residual Classes" below.

Authorized Denominations. We will issue the Certificates in the following denominations:

Classes	<b>Denominations</b>
Interest Only and Inverse Floating	\$100,000 minimum plus whole dollar increments
Rate Classes	
All other Classes (except the R and	\$1,000 minimum plus whole dollar increments
RL Classes)	

### The Underlying REMIC Certificates

The Underlying REMIC Certificates in Group 1 and Group 2 represent beneficial ownership interests in the related Underlying REMIC Trusts. The assets of those trusts consist of MBS (or beneficial ownership interests in MBS) having the general characteristics set forth in the MBS Prospectus. Each MBS evidences beneficial ownership interests in a pool of conventional, fixed-rate, fully-amortizing mortgage loans secured by first mortgages or deeds of trust on single-family residential properties, as described under "The Mortgage Pools" and "Yield, Maturity, and Prepayment Considerations" in the MBS Prospectus.

Distributions on the Underlying REMIC Certificates will be passed through monthly, beginning in the month after we issue the Certificates. The general characteristics of the Underlying REMIC Certificates are described in the applicable Underlying REMIC Disclosure Documents. See Exhibit A for certain additional information about the Underlying REMIC Certificates. Exhibit A is provided in lieu of a Final Data Statement with respect to the Underlying REMIC Certificates.

For further information about the Underlying REMIC Certificates telephone us at 1-800-237-8627. Additional information about the Underlying REMIC Certificates is also available at <a href="http://sls.fanniemae.com/slsSearch/Home.do">http://sls.fanniemae.com/slsSearch/Home.do</a>. There may have been material changes in facts and circumstances since the dates we prepared the Underlying REMIC Disclosure Documents. These may include changes in prepayment speeds, prevailing interest rates and other economic factors. As a result, the usefulness of the information set forth in those documents may be limited.

### The Trust MBS

The Trust MBS provide that principal and interest on the related Mortgage Loans are passed through monthly. The Mortgage Loans underlying the Trust MBS are conventional, fixed-rate, fully-amortizing mortgage loans secured by first mortgages or deeds of trust on single-family residential properties. These Mortgage Loans have original maturities of up to 20 years in the case of the Group 3 MBS, up to 30 years in the case of the Group 4 MBS and Group 5 MBS, and up to 15 years in the case of the Group 6 MBS.

For additional information, see "Summary—Group 3, Group 4, Group 5 and Group 6—Characteristics of the Trust MBS" and "—Assumed Characteristics of the Underlying Mortgage Loans" in this prospectus supplement and "The Mortgage Pools" and "Yield, Maturity, and Prepayment Considerations" in the MBS Prospectus.

### **Distributions of Interest**

General. The Certificates will bear interest at the rates specified in this prospectus supplement on a 30/360 basis. Interest to be paid on each Certificate (or added to principal, in the case of the Accrual Classes) on a Distribution Date will consist of one month's interest on the outstanding balance of that Certificate immediately prior to that Distribution Date. For a description of the Accrual Classes, see "—Accrual Classes" below.

Delay Classes and No-Delay Classes. The "delay" Classes and "no-delay" Classes are set forth in the following table:

### **Delay Classes**

### **No-Delay Classes**

**Fixed Rate Classes** 

Floating Rate and Inverse Floating Rate Classes

See "Description of the Certificates—Distributions on Certificates—Interest Distributions" in the REMIC Prospectus.

Accrual Classes. The QZ, ZD, ZY, ZE and GZ Classes are Accrual Classes. Interest will accrue on the Accrual Classes at the applicable annual rates specified on the cover of this prospectus supplement or on Schedule 1. However, we will not pay any interest on the Accrual Classes. Instead, interest accrued on each Accrual Class will be added as principal to its principal balance on each Distribution Date. We will pay principal on the Accrual Classes as described under "—Distributions of Principal" below.

### **Distributions of Principal**

On the Distribution Date in each month, we will make payments of principal on the Certificates as described below.

• Group 1

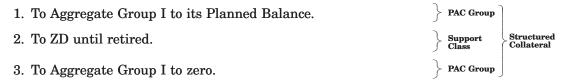

The ZD Accrual Amount to Aggregate Group I to its Planned Balance, and thereafter to the ZD Class.

Accretion
Directed/ PAG
Group and
Accrual Class

The QZ Accrual Amount in the following priority:

To CP to its Planned Balance.
 To CF and CS, pro rata, until retired.
 Support Classes
 To CP until retired.
 PAC Class
 Accretion Directed Classes
 To CP until retired.
 Accrual Classes

The Group 1 Cash Flow Distribution Amount in the following priority:

The "ZD Accrual Amount" is any interest then accrued and added to the principal balance of the ZD Class.

The "QZ Accrual Amount" is any interest then accrued and added to the principal balance of the QZ Class.

The "Group 1 Cash Flow Distribution Amount" is the aggregate principal then paid on the Group 1 Underlying REMIC and RCR Certificates.

"Aggregate Group I" consists of the CP, CF, CS and QZ Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group I as follows:

first, to CP to its Planned Balance;

second, to CF and CS, pro rata, until retired;

third, to CP until retired; and

fourth, to QZ until retired.

Aggregate Group I has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group I.

### • Group 2

The Group 2 Principal Distribution Amount in the following priority:

to EP to its Planned Balance.
 to EF and ES, pro rata, until retired.
 Support Classes
 To EP until retired.

PAC Class
Structured Collateral
PAC Class

The "Group 2 Principal Distribution Amount" is the principal then paid on the Group 2 Underlying RCR Certificate.

### • Group 3

The Group 3 Principal Distribution Amount to A and B, in that order, until retired. \[ \right\right\] \[ \frac{\text{Sequential}}{\text{Pay Classes}} \]
The "Group 3 Principal Distribution Amount" is the principal then paid on the Group 3 MBS.

### • Group 4

The ZY Accrual Amount to Aggregate Group II to its Planned Balance, and thereafter to the ZY Class.

Accrual Amount to Aggregate Group II to its Planned Balance, and thereafter to the ZY Class.

The Group 4 Cash Flow Distribution Amount in the following priority:

To Aggregate Group II to its Planned Balance.
 To ZY until retired.
 Support Class
 To Aggregate Group II to zero.

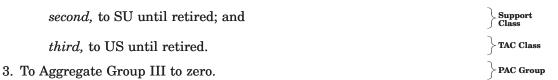

The "ZY Accrual Amount" is any interest then accrued and added to the principal balance of the ZY Class.

The "Group 4 Cash Flow Distribution Amount" is the principal then paid on the Group 4 MBS.

"Aggregate Group II" consists of the CM, CN and KL Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group II to CM, CN and KL, in that order, until retired.

Aggregate Group II has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group II.

# • Group 5

The "ZE Accrual Amount" is any interest then accrued and added to the principal balance of the ZE Class.

The "Group 5 Cash Flow Distribution Amount" is the principal then paid on the Group 5 MBS.

"Aggregate Group III" consists of the KQ, VQ and ZE Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group III to KQ, VQ and ZE, in that order, until retired.

Aggregate Group III has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group III.

• Group 6

The Group 6 Principal Distribution Amount as follows:

— 52.9969784578% to G and GL, in that order, until retired, and

Sequential Pay Classes

— 47.0030215422% to E until retired.

Pass-Through Classes

The "Group 6 Principal Distribution Amount" is the principal then paid on the Group 6 MBS.

### **Structuring Assumptions**

Pricing Assumptions. Except where otherwise noted, the information in the tables in this prospectus supplement has been prepared based on the actual characteristics of each pool of Mortgage Loans backing the Underlying REMIC Certificates, the applicable priority sequences governing principal payments on the Underlying REMIC Certificates, and the following assumptions (such characteristics and assumptions, collectively, the "Pricing Assumptions"):

- the Mortgage Loans underlying the Trust MBS have the original terms to maturity, remaining terms to maturity, loan ages and interest rates specified under "Summary—Group 3, Group 4, Group 5 and Group 6—Assumed Characteristics of the Underlying Mortgage Loans" in this prospectus supplement;
- the Mortgage Loans prepay at the constant percentages of PSA specified in the related tables;
- the settlement date for the Certificates is March 30, 2010; and
- each Distribution Date occurs on the 25th day of a month.

*Prepayment Assumptions.* The prepayment model used in this prospectus supplement is PSA. For a description of PSA, see "Yield, Maturity and Prepayment Considerations—Prepayment Models" in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any *constant* PSA rate or at any other *constant* rate.

Principal Balance Schedules. The Principal Balance Schedules for the Aggregate Groups and applicable Classes are set forth beginning on page B-1 of this prospectus supplement. The Principal Balance Schedules were prepared based on the Pricing Assumptions and the assumption that the related Mortgage Loans prepay at a constant rate within the applicable "Structuring Ranges" or at the "Structuring Speeds" specified in the chart below. The "Effective Range" for an Aggregate Group or a Class is the range of prepayment rates (measured by constant PSA rates) that would reduce that Aggregate Group or Class to its scheduled balance each month based on the Pricing Assumptions. We have not provided separate schedules for the individual Classes included in the Aggregate Groups. However, these Classes are designed to receive principal distributions in the same fashion as if

separate schedules had been provided (with schedules based on the same underlying assumptions that apply to the related Aggregate Group schedule). If such separate schedules had been provided for the individual Classes included in the Aggregate Groups, we expect that the effective ranges for those Classes would not be narrower than those shown below for the related Aggregate Groups.

Groups and Classes	Structuring Ranges and Speeds	Initial Effective Ranges
Aggregate Group I Planned Balances	Between 215% and 300% PSA	Between 215% and 300% PSA
CP Class Planned Balances	Between 120% and 339% PSA	Between 120% and 339% PSA
EP Class Planned Balances	Between 120% and 339% PSA	Between 120% and 339% PSA
Aggregate Group II Planned Balances	Between 150% and 250% PSA	Between 150% and 250% PSA
Aggregate Group III Planned Balances	Between 98% and 175% PSA	Between 98% and 175% PSA
US Class Targeted Balances	140% PSA	<del>-</del>

The Aggregate Groups listed above consist of the following Classes:

Aggregate Group I . . . CP, CF, CS and QZ Aggregate Group II . . CM, CN and KL Aggregate Group III . . KQ, VQ and ZE

See "—Decrement Tables" below for the percentages of original principal balances of the individual Classes included in the Aggregate Groups that would be outstanding at various *constant* PSA rates, including the upper and lower bands of the applicable Structuring Ranges, based on the Pricing Assumptions.

We cannot assure you that the balance of any Aggregate Group or Class will conform on any Distribution Date to the balance specified in the Principal Balance Schedules or that distributions of principal of any Aggregate Group or Class will begin or end on the Distribution Dates specified in the Principal Balance Schedules.

If you are considering the purchase of a PAC or TAC Class, you should first take into account the considerations set forth below.

- We will distribute any excess of principal distributions over the amount necessary to reduce an Aggregate Group or a Class to its scheduled balance in any month. As a result, the likelihood of reducing an Aggregate Group or a Class to its scheduled balance each month will not be improved by the averaging of high and low principal distributions from month to month.
- Even if the related Mortgage Loans prepay at rates falling within a Structuring Range or an Effective Range, principal distributions may be insufficient to reduce the applicable Aggregate Groups and Classes to their scheduled balances each month if prepayments do not occur at a constant PSA rate.
- The actual Effective Ranges at any time will be based upon the actual characteristics of the related Mortgage Loans at that time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. As a result, the actual Effective Ranges will likely differ from the Initial Effective Ranges specified above. For the same reason, the applicable Aggregate Groups and Classes might not be reduced to their scheduled balances each month even if the related Mortgage Loans prepay at a *constant* PSA rate within the applicable Initial Effective Ranges. This is so particularly if the rates fall at the lower or higher end of the applicable ranges.
- The actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time.

• The principal payment stability of any Aggregate Group or Class that has scheduled balances will be supported by one or more other Classes. When each related supporting Class is retired, the Aggregate Group or Class receiving the benefit of that support, if still outstanding, may no longer have an Effective Range and will be much more sensitive to prepayments of the related Mortgage Loans.

### **Yield Tables**

General. The tables below illustrate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of the applicable Classes to various constant percentages of PSA and, where specified, to changes in the Index. The tables below are provided for illustrative purposes only and are not intended as a forecast or prediction of the actual yields on the applicable Classes. We calculated the yields set forth in the tables by

- determining the monthly discount rates that, when applied to the assumed streams of cash
  flows to be paid on the applicable Classes, would cause the discounted present values of the
  assumed streams of cash flows to equal the assumed aggregate purchase prices of those
  Classes, and
- converting the monthly rates to corporate bond equivalent rates.

These calculations do not take into account variations in the interest rates at which you could reinvest distributions on the Certificates. Accordingly, these calculations do not illustrate the return on any investment in the Certificates when reinvestment rates are taken into account.

We cannot assure you that

- the pre-tax yields on the applicable Certificates will correspond to any of the pre-tax yields shown here, or
- the aggregate purchase prices of the applicable Certificates will be as assumed.

In addition, it is unlikely that the Index will correspond to the levels shown here. Furthermore, because some of the Mortgage Loans are likely to have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal payments on the Certificates are likely to differ from those assumed. This would be the case even if all Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is unlikely that

- the Mortgage Loans will prepay at a constant PSA rate until maturity,
- all of the Mortgage Loans will prepay at the same rate, or
- the level of the Index will remain constant.

The Fixed Rate Interest Only Classes. The yields to investors in the Fixed Rate Interest Only Classes will be very sensitive to the rate of principal payments (including prepayments) of the related Mortgage Loans. The Mortgage Loans generally can be prepaid at any time without penalty. On the basis of the assumptions described below, the yield to

maturity on each Fixed Rate Interest Only Class would be 0% if prepayments of the related Mortgage Loans were to occur at the following constant rates:

Class	% PSA
IO	. 480%
CI	. 650%
EI	. 664%
IA	. 1,577%
IM	. 643%
IN	. 870%
QI	. 552%
IG	. 370%
IP	. 657%
IK	. 674%

For any Fixed Rate Interest Only Class, if the actual prepayment rate of the related Mortgage Loans were to exceed the level specified for as little as one month while equaling that level for the remaining months, the investors in the applicable Class would lose money on their initial investments.

The information shown in the following yield tables has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the Fixed Rate Interest Only Classes (expressed in each case as a percentage of the original principal balance) are as follows:

Class	Price*
IO	16.50000%
CI	15.00000%
EI	15.00000%
IA	5.00000%
IM	9.37500%
IN	22.50000%
QI	9.00000%
IG	10.00000%
IP	15.00000%
IK	10.12362%

<sup>\*</sup> The prices do not include accrued interest. Accrued interest has been added to the prices in calculating the yields set forth in the tables below.

In the following yield tables, the symbol \* is used to represent a yield of less than (99.9)%.

The Inverse Floating Rate Classes. The yields on the Inverse Floating Rate Classes will be sensitive in varying degrees to the rate of principal payments, including prepayments, of the related Mortgage Loans and to the level of the Index. The Mortgage Loans generally can be prepaid at any time without penalty. In addition, the rate of principal payments (including prepayments) of the Mortgage Loans is likely to vary, and may vary considerably, from pool to pool.

Changes in the Index may not correspond to changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur while the level of the Index increased.

The information shown in the following yield tables has been prepared on the basis of the Pricing Assumptions and the assumptions that

- the interest rates for the Inverse Floating Rate Classes for the initial Interest Accrual Period are the rates listed in the table under "Summary—Interest Rates" in this prospectus supplement and for each following Interest Accrual Period will be based on the specified level of the Index, and
- the aggregate purchase prices of these Classes (expressed in each case as a percentage of original principal balance) are as follows:

Class	Price*
CS	100.00000%
ES	100.00000%
US	97.00000%
SU	96.00000%
SE	100.00000%
AS	96.59059%

<sup>\*</sup> The prices do not include accrued interest. Accrued interest has been added to the prices in calculating the yields set forth in the tables below.

### Weighted Average Lives of the Certificates

For a description of how the weighted average life of a Certificate is determined, see "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including

- the timing of changes in the rate of principal distributions,
- the priority sequences of distributions of principal of the Group 1, Group 2, Group 3, Group 4, Group 5 and Group 6 Classes, and
- in the case of the Group 2 Classes, the priority sequence affecting principal payments on the Group 2 Underlying RCR Certificate.

See "—Distributions of Principal" above and "Description of the Certificates—Distributions of Principal" in the applicable Underlying REMIC Disclosure Document.

The effect of these factors may differ as to various Classes and the effects on any Class may vary at different times during the life of that Class. Accordingly, we can give no assurance as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their original principal balances, variability in the weighted average lives of those Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

### **Decrement Tables**

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each date shown at various constant PSA rates, and the corresponding weighted average lives of those Classes. The tables have been prepared on the basis of the Pricing Assumptions.

In the case of the information set forth for each Class under 0% PSA, however, we assumed that the Mortgage Loans have the original and remaining terms to maturity and bear interest at the annual rates specified in the table below.

Mortgage Loans Backing Trust Assets Specified Below	Original Terms to Maturity	Remaining Terms to Maturity	Interest Rates
Group 1 Underlying REMIC and RCR Certificates	360 months	(1)	8.50%
Group 2 Underlying RCR Certificate	360 months	359 months	8.50%
Group 3 MBS	240 months	240 months	7.00%
Group 4 MBS	360 months	360 months	7.50%
Group 5 MBS	360 months	360 months	7.00%
Group 6 MBS	180 months	180 months	6.50%

<sup>(1)</sup> The Mortgage Loans backing the Group 1 Underlying REMIC and RCR Certificates are assumed to have the following remaining terms to maturity:

Class	Remaining Terms to Maturity
2006-69-FG	316 months
2006-69-SG	316 months
2007 - 16 - PT	323 months

It is unlikely that all of the Mortgage Loans will have the loan ages, interest rates, remaining terms to maturity or, if applicable, remaining interest only periods assumed, or that the Mortgage Loans will prepay at any *constant* PSA level.

In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA rates, even if the weighted average remaining term to maturity and the weighted average loan age of the Mortgage Loans are identical to the weighted averages specified in the Pricing Assumptions. This is the case because pools of loans with identical weighted averages are nonetheless likely to reflect differing dispersions of the related characteristics.

<sup>\*</sup> Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

<sup>\*\*</sup> Determined as specified under "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

 $<sup>\</sup>dagger$  In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

### **Characteristics of the Residual Classes**

A Residual Certificate will be subject to certain transfer restrictions. See "Description of the Certificates—Special Characteristics of the Residual Certificates" and "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus.

Treasury Department regulations (the "Regulations") provide that a transfer of a "noneconomic residual interest" will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. A Residual Certificate will constitute a noneconomic residual interest under the Regulations. Having a significant purpose to impede the assessment or collection of tax means that the transferor of a Residual Certificate had "improper knowledge" at the time of the transfer. See "Description of the Certificates—Special Characteristics of the Residual Certificates" in the REMIC Prospectus. You should consult your own tax advisor regarding the application of the Regulations to a transfer of a Residual Certificate.

### CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The Certificates and payments on the Certificates are not generally exempt from taxation. Therefore, you should consider the tax consequences of holding a Certificate before you acquire one. The following tax discussion supplements the discussion under the caption "Material Federal Income Tax Consequences" in the REMIC Prospectus. When read together, the two discussions describe the current federal income tax treatment of beneficial owners of Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of beneficial owners, some of which may be subject to special rules. In addition, these discussions may not apply to your particular circumstances for one of the reasons explained in the REMIC Prospectus. You should consult your own tax advisors regarding the federal income tax consequences of holding and disposing of Certificates as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

### U.S. Treasury Circular 230 Notice

The tax discussions contained in the REMIC Prospectus (including the sections entitled "Material Federal Income Tax Consequences" and "ERISA Considerations") and this prospectus supplement were not intended or written to be used, and cannot be used, for the purpose of avoiding United States federal tax penalties. These discussions were written to support the promotion or marketing of the transactions or matters addressed in this prospectus supplement. You should seek advice based on your particular circumstances from an independent tax advisor.

### **REMIC Elections and Special Tax Attributes**

We will make a REMIC election with respect to each REMIC set forth in the table under "Description of the Certificates—General—Structure." The Regular Classes will be designated as "regular interests" and the Residual Classes will be designated as the "residual interests" in the REMICs as set forth in that table. Thus, the REMIC Certificates and any related RCR Certificates generally will be treated as "regular or residual interests in a REMIC" for domestic building and loan associations, as "real estate assets" for real estate investment trusts, and, except for the Residual Classes, as "qualified mortgages" for other REMICs. See "Material Federal Income Tax Consequences—REMIC Election and Special Tax Attributes" in the REMIC Prospectus.

### Taxation of Beneficial Owners of Regular Certificates

The Notional Classes and the Accrual Classes will be issued with original issue discount ("OID"), and certain other Classes of REMIC Certificates may be issued with OID. If a Class is issued with OID, a beneficial owner of a Certificate of that Class generally must recognize some taxable income in advance of the receipt of the cash attributable to that income. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount" in the

REMIC Prospectus. In addition, certain Classes of REMIC Certificates may be treated as having been issued at a premium. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Regular Certificates Purchased at a Premium" in the REMIC Prospectus.

The Prepayment Assumptions that will be used in determining the rate of accrual of OID will be as follows:

Group	Prepayment Assumption
1	$260\% \ \mathrm{PSA}$
2	260%  PSA
3	180% PSA
4	200% PSA
5	140% PSA
6	160% PSA

See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Treatment of Original Issue Discount*" in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at any of those rates or any other rate. See "Description of the Certificates—Weighted Average Lives of the Certificates" in this prospectus supplement and "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

### **Taxation of Beneficial Owners of Residual Certificates**

The Holder of a Residual Certificate will be considered to be the holder of the "residual interest" in the related REMIC. Such Holder generally will be required to report its daily portion of the taxable income or net loss of the REMIC to which that Certificate relates. In certain periods, a Holder of a Residual Certificate may be required to recognize taxable income without being entitled to receive a corresponding amount of cash. Pursuant to the Trust Agreement, we will be obligated to provide to the Holder of a Residual Certificate (i) information necessary to enable it to prepare its federal income tax returns and (ii) any reports regarding the Residual Class that may be required under the Code. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus.

### **Taxation of Beneficial Owners of RCR Certificates**

The RCR Classes will be created, sold and administered pursuant to an arrangement that will be classified as a grantor trust under subpart E, part I of subchapter J of the Code. The Regular Certificates that are exchanged for RCR Certificates set forth in Schedule 1 (including any exchanges effective on the Settlement Date) will be the assets of the trust, and the RCR Certificates will represent an ownership interest of the underlying Regular Certificates. For a general discussion of the federal income tax treatment of beneficial owners of Regular Certificates, see "Material Federal Income Tax Consequences" in the REMIC Prospectus.

Generally, the ownership interest represented by an RCR certificate will be one of two types. A certificate of a Combination RCR Class (a "Combination RCR Certificate") will represent beneficial ownership of undivided interests in one or more underlying Regular Certificates. A certificate of a Strip RCR Class (a "Strip RCR Certificate") will represent the right to receive a disproportionate part of the principal or interest payments on one or more underlying Regular Certificates. All the Classes of RCR Certificates are Combination RCR Certificates. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of RCR Certificates" in the REMIC Prospectus for a general discussion of the federal income tax treatment of beneficial owners of RCR Certificates.

### PLAN OF DISTRIBUTION

We are obligated to deliver the Certificates to J.P. Morgan Securities, Inc. (the "Dealer") in exchange for the Underlying REMIC Certificates and the Trust MBS. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect these transactions to or through other dealers.

### **LEGAL MATTERS**

Sidley Austin LLP will provide legal representation for Fannie Mae. Cleary Gottlieb Steen & Hamilton LLP will provide legal representation for the Dealer.

(1) REMIC Certificates and RCR Certificates in each Recombination may be exchanged only in the proportions of original principal balances for the related Classes shown in this Schedule 1 (disregarding any retired Classes). For example, if a particular Recombination includes two REMIC Classes and one RCR Class whose original principal behaviors shown in the schedule reflect a 1:1.2 relationship, the same 1:1.2 relationship among the original principal balances of those REMIC and RCR Classes must be maintained in any exchange. This is true even if, as a result of the applicable principal balances has changed over time. Moreover, if as a result of a proposed exchange, a Certificateholder will be unable to effect the proposed exchange. See "Class in an amount less than the applicable minimum denomination for that Class, the Certificateholder will be unable to effect the proposed exchange. See "Description of the Certificates—General—Authorized Denomination for the Certificates—General—Authorized Denomination for the Certificates—General—Authorized Denomination of the CF Class in Group 2.

(2) See "Description of the Certificates—General Partitions and Abbreviations" in the REMIC Prospectus.

(3) The FE Class is an RCR Class formed from a combination of the CF Class in Group 2.

(4) For a description of these interest rates, see "Summary—Interest Rates" in this prospectus supplement.

(5) The SE Class formed from a combination of the CF Class in Group 1 and the ES Class is an RCR Class formed from a combination of the CP and CI Classes in Group 2.

(7) Notional balances. These Classes are Interest Only Classes. See page S-8 for a description of how their notional balances are calculated.

(8) The BP Class formed from a combination of the CI Class in Group 1 and the EB Class in Group 2.

(9) The IP Class is an RCR Class formed from a combination of the CI Class in Group 1.

(10) Principal payments on the REMIC Certificates in Recombination 2 from the ZE Accrual Amount will be paid as interest on the related RCR Certi
