\$1,520,720,484

Guaranteed REMIC Pass-Through Certificates Fannie Mae REMIC Trust 2013-52

The Certificates

We, the Federal National Mortgage Association (Fannie Mae), will issue the classes of certificates listed in the chart on this cover.

Payments to Certificateholders

We will make monthly payments on the certificates. You, the investor, will receive

- interest accrued on the balance of your certificate (except in the case of the accrual classes), and
- principal to the extent available for payment on your class.

We will pay principal at rates that may vary from time to time. We may not pay principal to certain classes for long periods of time.

The Fannie Mae Guaranty

We will guarantee that required payments of principal and interest on the certificates are available for distribution to investors on time.

The Trust and its Assets

The trust will own

- · Fannie Mae MBS and
- underlying REMIC and RCR certificates backed by Fannie Mae MBS.

The mortgage loans underlying the Fannie Mae MBS are first lien, single-family, fixed-rate loans.

Class	Group	Original Class Balance	Principal Type(1)	Interest Rate	Interest Type(1)	CUSIP Number	Final Distribution Date

(Table continued on next page)

If you own certificates of certain classes, you can exchange them for certificates of the corresponding RCR classes to be delivered at the time of exchange. The PL, VP, CA, FC, SD, KE, KG, KH, KA, EB, EC, GB, GC, LE, LG, LH, LJ, LA, BC, NB and NC Classes are the RCR classes. For a more detailed description of the RCR classes, see Schedule 1 attached to this prospectus supplement and "Description of the Certificates—Combination and Recombination—RCR Certificates" in the REMIC prospectus.

The dealer will offer the certificates from time to time in negotiated transactions at varying prices. We expect the settlement date to be May 30, 2013.

Carefully consider the risk factors on page S-9 of this prospectus supplement and starting on page 13 of the REMIC prospectus. Unless you understand and are able to tolerate these risks, you should not invest in the certificates.

You should read the REMIC prospectus as well as this prospectus supplement.

The certificates, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any agency or instrumentality thereof other than Fannie Mae.

The certificates are exempt from registration under the Securities Act of 1933 and are "exempted securities" under the Securities Exchange Act of 1934.

AVAILABLE INFORMATION

You should purchase the certificates only if you have read and understood this prospectus supplement and the following documents (the "Disclosure Documents"):

- our Prospectus for Fannie Mae Guaranteed REMIC Pass-Through Certificates dated August 1, 2012 (the "REMIC Prospectus");
- our Prospectus for Fannie Mae Guaranteed Pass-Through Certificates (Single-Family Residential Mortgage Loans) dated
 - o March 1, 2013, for all MBS issued on or after March 1, 2013,
 - February 1, 2012, for all MBS issued on or after February 1, 2012 and prior to March 1, 2013,
 - o July 1, 2011, for all MBS issued on or after July 1, 2011 and prior to February 1, 2012,
 - $\circ\,$ June 1, 2009, for all MBS issued on or after January 1, 2009 and prior to July 1, 2011,
 - April 1, 2008, for all MBS issued on or after June 1, 2007 and prior to January 1, 2009, or
 - January 1, 2006, for all other MBS (as applicable, the "MBS Prospectus");
- if you are purchasing a Group 4 or Group 10 Class or the R or RL Class, the disclosure documents relating to the applicable underlying REMIC and RCR certificates (the "Underlying REMIC Disclosure Documents"); and
- any information incorporated by reference in this prospectus supplement as discussed below and under the heading "Incorporation by Reference" in the REMIC Prospectus.

For a description of current servicing policies generally applicable to existing Fannie Mae MBS pools, see "Yield, Maturity, and Prepayment Considerations" in the MBS Prospectus dated March 1, 2013.

The MBS Prospectus and the Underlying REMIC Disclosure Documents are incorporated by reference in this prospectus supplement. This means that we are disclosing information in those documents by referring you to them. Those documents are considered part of this prospectus supplement, so you should read this prospectus supplement, and any applicable supplements or amendments, together with those documents.

You can obtain copies of the Disclosure Documents by writing or calling us at:

Fannie Mae MBS Helpline 3900 Wisconsin Avenue, N.W., Area 2H-3S Washington, D.C. 20016 (telephone 1-800-237-8627).

In addition, the Disclosure Documents, together with the class factors, are available on our corporate Web site at www.fanniemae.com.

You also can obtain copies of the REMIC Prospectus, the MBS Prospectus and the Underlying REMIC Disclosure Documents by writing or calling the dealer at:

Nomura Securities International, Inc. Prospectus Department 2 World Financial Center, Building B New York, NY 10281 (telephone 1-212-667-1578) mbstradesupport@us.nomura.com.

SUMMARY

This summary contains only limited information about the certificates. Statistical information in this summary is provided as of May 1, 2013. You should purchase the certificates only after reading this prospectus supplement and each of the additional disclosure documents listed on page S-3. In particular, please see the discussion of risk factors that appears in each of those additional disclosure documents.

Characteristics of the Trust MBS

Panga of Waighted

	Approximate Principal Balance	Pass- Through Rate	Range of Weighted Average Coupons or WACs (annual percentages)	Average Remaining Terms to Maturity or WAMs (in months)
Group 1 MBS	\$186,013,200	3.00%	3.25% to 5.50%	241 to 360
Group 2 MBS	\$463,643,343	4.50%	4.75% to 7.00%	241 to 360
Group 3 MBS	\$ 78,750,000	3.50%	3.75% to 6.00%	241 to 360
Group 5 MBS	\$211,150,425	4.00%	4.25% to 6.50%	241 to 360
Group 6 MBS	\$130,259,173	5.00%	5.25% to 7.50%	241 to 360
Group 7 MBS	\$195,968,566	3.00%	3.25% to $5.50%$	241 to 360
Group 8 MBS	\$ 41,205,786	4.00%	4.25% to 6.50%	241 to 360
Group 9 MBS	\$ 65,321,609	3.00%	3.25% to $5.50%$	241 to 360

Assumed Characteristics of the Underlying Mortgage Loans

	Principal Balance	Original Term to Maturity (in months)	Remaining Term to Maturity (in months)	Loan Age (in months)	Interest Rate
Group 1 MBS	\$186,013,200	360	355	3	3.66%
Group 2 MBS	\$463,643,343	360	328	29	4.90%
Group 3 MBS	\$ 78,750,000	360	357	3	3.92%
Group 5 MBS	\$211,150,425	360	335	22	4.53%
Group 6 MBS	\$130,259,173	360	329	29	5.34%
Group 7 MBS	\$195,968,566	360	356	3	3.68%
Group 8 MBS	\$ 41,205,786	360	335	22	4.53%
Group 9 MBS	\$ 65,321,609	360	358	1	3.79%

The actual remaining terms to maturity, loan ages and interest rates of most of the mortgage loans underlying the Trust MBS will differ from those shown above, and may differ significantly. See "Risk Factors—Risks Relating to Yield and Prepayment—Yield—Yields on and weighted average lives of the certificates are affected by actual characteristics of the mortgage loans backing the series trust assets" in the REMIC Prospectus.

Group 4 and Group 10

Exhibit A describes the underlying REMIC and RCR certificates in Group 4 and Group 10, including certain information about the related mortgage loans. To learn more about the underlying REMIC and RCR certificates, you should obtain from us the current class factors and the related disclosure documents as described on page S-3.

Settlement Date

We expect to issue the certificates on May 30, 2013.

Distribution Dates

We will make payments on the certificates on the 25th day of each calendar month, or on the next business day if the 25th day is not a business day.

Record Date

On each distribution date, we will make each monthly payment on the certificates to holders of record on the last day of the preceding month.

Book-Entry and Physical Certificates

We will issue the classes of certificates in the following forms:

Fed Book-Entry	Physical

All classes of certificates other than the R and RL Classes R and RL Classes

Exchanging Certificates Through Combination and Recombination

If you own certificates of a class designated as "exchangeable" on the cover of this prospectus supplement, you will be able to exchange them for a proportionate interest in the related RCR certificates. Schedule 1 lists the available combinations of the certificates eligible for exchange and the related RCR certificates. You can exchange your certificates by notifying us and paying an exchange fee. We will deliver the RCR certificates upon such exchange.

We will apply principal and interest payments from exchanged REMIC certificates to the corresponding RCR certificates, on a pro rata basis, following any exchange.

Interest Rates

During each interest accrual period, the fixed rate classes will bear interest at the applicable annual interest rates listed on the cover of this prospectus supplement or on Schedule 1.

During the initial interest accrual period, the floating rate and inverse floating rate classes will bear interest at the initial interest rates listed below. During each subsequent interest accrual period, the floating rate and inverse floating rate classes will bear interest based on the formulas indicated below, but always subject to the specified maximum and minimum interest rates:

Class	Initial Interest Rate	Maximum Interest Rate	Minimum Interest Rate	Formula for Calculation of Interest Rate(1)
CF	1.2%	5.0%	1.0%	LIBOR + 100 basis points
CS	5.7%	6.0%	0.0%	$6.00\% - (1.5 \times LIBOR)$
FD	1.1%	5.0%	0.9%	LIBOR + 90 basis points
DS	0.1%	0.1%	0.0%	$4.10\% - \mathrm{LIBOR}$
SC	3.8%	4.0%	0.0%	$4.00\% - \mathrm{LIBOR}$
KF	1.2%	5.0%	1.0%	LIBOR + 100 basis points
KS	3.8%	4.0%	0.0%	$4.00\% - \mathrm{LIBOR}$
FC	1.2%	5.0%	1.0%	LIBOR + 100 basis points
SD	3.9%	4.1%	0.0%	$4.10\% - \mathrm{LIBOR}$

⁽¹⁾ We will establish LIBOR on the basis of the "BBA Method."

Notional Classes

The notional principal balances of the notional classes specified below will equal the percentages of the outstanding balances specified below immediately before the related distribution date:

Class	
PI	50% of the PD Class
MI	72.2580437684% of the sum of the MD, MG and ME Classes
JI	14.2857118056% of the JE Class
DS	100% of the FD Class
KI	22.22222222% of the KD Class
EI	75% of the EA Class
GI	79.999995936% of the sum of the GW and GA Classes
LI	50% of the LD Class
QI	62.9032258065% of the sum of the QA and QC Classes
NI	75% of the NA Class

Distributions of Principal

For a description of the principal payment priorities, see "Description of the Certificates—Distributions of Principal" in this prospectus supplement.

^{*} Determined as specified under "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

ADDITIONAL RISK FACTORS

In the future we may be unable to establish LIBOR on the basis of the BBA Method. On September 28, 2012, Britain's Financial Services Authority recommended that the BBA be removed from its rate-setting responsibility and proposed additional reforms in connection with the determination of LIBOR. If in the future the BBA is no longer calculating the interest settlement rate for one-month U.S. dollar deposits, or if for any other reason we are unable to establish LIBOR on the basis of the BBA Method on any index determination date, we will establish LIBOR based on the LIBO Method as described under "Description of the Certificates-Distributions on Certificates—Interest Distributions-IndicesFloating Rate Classes and Inverse Floating Rate Classes" in the REMIC Prospectus. We can provide no assurance as to which entity or entities will assume responsibility for setting the applicable rates in the future. In addition, we can provide no assurance that LIBOR for any distribution date accurately represents the offered rate applicable to loans in U.S. dollars for a one-month period between leading European banks or that LIBOR's prominence as a benchmark interest rate will be preserved.

Payments on the Group 10 Classes will be affected by the applicable payment priorities governing the related underlying REMIC and RCR certificates. If you invest in a Group 10 Class, the rate at which you receive payments will be affected by the applicable priority sequences governing principal payments on the related underlying REMIC and RCR certificates.

As described in the related Underlying REMIC Disclosure Documents, the Group 10 Underlying REMIC and RCR Certificates may be subsequent in payment priority to certain other classes issued from the related underlying REMIC trusts. As a result, such other classes may receive principal before principal is

paid on the Group 10 Underlying REMIC and RCR Certificates, possibly for long periods.

In addition, as described in the applicable Underlying REMIC Disclosure Documents, principal payments on several of the Group 10 Underlying REMIC and RCR Certificates are governed by principal balance schedules. As a result, those underlying REMIC and RCR certificates may experience principal payments faster or slower than would otherwise have been the case. In some cases, the Group 10 Underlying REMIC and RCR Certificates may receive no principal payments for extended periods. Prepayments on the related mortgage loans may have occurred at rates faster or slower than the rates initially assumed. In certain high prepayment scenarios, it is possible that the effect of a principal balance schedule on principal payments over time may be eliminated. In such a case, the applicable underlying REMIC or RCR certificates would experience principal payments at rates that may vary widely from period to period. This prospectus supplement contains no information as to whether

- the applicable underlying REMIC and RCR certificates have adhered to the related principal balance schedules,
- any related support classes remain outstanding, or
- those underlying REMIC and RCR certificates otherwise have performed as originally anticipated.

You may obtain additional information about the underlying REMIC and RCR certificates by reviewing their current class factors in light of other information available in the related Underlying REMIC Disclosure Documents. You may obtain those documents from us as described on page S-3.

DESCRIPTION OF THE CERTIFICATES

The material under this heading describes the principal features of the Certificates. You will find additional information about the Certificates in the other sections of this prospectus supplement, as well as in the additional Disclosure Documents and the Trust Agreement. If we use a capitalized term in this prospectus supplement without defining it, you will find the definition of that term in the applicable Disclosure Document or in the Trust Agreement.

General

Structure. We will create the Fannie Mae REMIC Trust specified on the cover of this prospectus supplement (the "Trust") pursuant to a trust agreement dated as of May 1, 2010 and a supplement thereto dated as of May 1, 2013 (the "Issue Date"). We will issue the Guaranteed REMIC Pass-Through Certificates (the "REMIC Certificates") pursuant to that trust agreement and supplement. We will issue the Combinable and Recombinable REMIC Certificates (the "RCR Certificates" and, together with the REMIC Certificates, the "Certificates") pursuant to a separate trust agreement dated as of May 1, 2010 and a supplement thereto dated as of the Issue Date (together with the trust agreement and supplement relating to the REMIC Certificates, the "Trust Agreement"). We will execute the Trust Agreement in our corporate capacity and as trustee (the "Trustee"). In general, the term "Classes" includes the Classes of REMIC Certificates and RCR Certificates.

The assets of the Trust will include:

- eight groups of Fannie Mae Guaranteed Mortgage Pass-Through Certificates (the "Group 1 MBS," "Group 2 MBS," "Group 3 MBS," "Group 5 MBS," "Group 6 MBS," "Group 7 MBS," "Group 8 MBS" and "Group 9 MBS," and together, the "Trust MBS"), and
- two groups of previously issued REMIC and RCR certificates (the "Group 4 Underlying REMIC Certificate" and "Group 10 Underlying REMIC and RCR Certificates," and together, the "Underlying REMIC and RCR Certificates") issued from the related Fannie Mae REMIC trusts (the "Underlying REMIC Trusts"), as further described in Exhibit A.

The Underlying REMIC and RCR Certificates evidence direct or indirect beneficial ownership interests in certain Fannie Mae Guaranteed Mortgage Pass-Through Certificates (together with the Trust MBS, the "MBS").

Each MBS represents a beneficial ownership interest in a pool of first lien, one- to four-family ("single-family"), fixed-rate residential mortgage loans (the "Mortgage Loans") having the characteristics described in this prospectus supplement.

The Trust will include the "Lower Tier REMIC" and "Upper Tier REMIC" as "real estate mortgage investment conduits" (each, a "REMIC") under the Internal Revenue Code of 1986, as amended (the "Code").

The following chart contains information about the assets, the "regular interests" and the "residual interests" of each REMIC. The REMIC Certificates other than the R and RL Classes are collectively referred to as the "Regular Classes" or "Regular Certificates," and the R and RL Classes are collectively referred to as the "Residual Classes" or "Residual Certificates."

REMIC Designation	Assets	Regular Interests	Residual Interest
Lower Tier REMIC	Trust MBS and Underlying REMIC and RCR Certificates	Interests in the Lower Tier REMIC other than the RL Class (the "Lower Tier Regular Interests")	RL
Upper Tier REMIC	Lower Tier Regular Interests	All Classes of REMIC Certificates other than the R and RL Classes	R

Fannie Mae Guaranty. For a description of our guaranties of the Certificates, the MBS and the Underlying REMIC and RCR Certificates, see the applicable discussions appearing under the heading "Fannie Mae Guaranty" in the REMIC Prospectus, the MBS Prospectus and the Underlying REMIC Disclosure Documents. Our guaranties are not backed by the full faith and credit of the United States.

Characteristics of Certificates. Except as specified below, we will issue the Certificates in book-entry form on the book-entry system of the U.S. Federal Reserve Banks. Entities whose

names appear on the book-entry records of a Federal Reserve Bank as having had Certificates deposited in their accounts are "Holders" or "Certificateholders."

We will issue the Residual Certificates in fully registered, certificated form. The "Holder" or "Certificateholder" of a Residual Certificate is its registered owner. A Residual Certificate can be transferred at the corporate trust office of the Transfer Agent, or at the office of the Transfer Agent in New York, New York. U.S. Bank National Association in Boston, Massachusetts will be the initial Transfer Agent. We may impose a service charge for any registration of transfer of a Residual Certificate and may require payment to cover any tax or other governmental charge. See also "—Characteristics of the Residual Classes" below.

Authorized Denominations. We will issue the Certificates in the following denominations:

Denominations

Classes	Denominations
Interest Only and Inverse Floating	\$100,000 minimum plus whole dollar increments
Rate Classes	
All other Classes (except the R and	\$1,000 minimum plus whole dollar increments
RL Classes)	

The Trust MBS

Classos

The Trust MBS provide that principal and interest on the related Mortgage Loans are passed through monthly. The Mortgage Loans underlying the Trust MBS are conventional, fixed-rate, fully-amortizing mortgage loans secured by first mortgages or deeds of trust on single-family residential properties. These Mortgage Loans have original maturities of up to 30 years.

In addition, the pools of mortgage loans backing the Group 1 MBS, Group 2 MBS, Group 5 MBS, Group 6 MBS, Group 7 MBS and Group 8 MBS have been designated as pools that include "jumbo-conforming" or "high balance" mortgage loans as described further under "The Mortgage Loans—Special Feature Mortgage Loans—Loans with Original Principal Balances Exceeding our Traditional Conforming Loan Limits" in the MBS Prospectus dated March 1, 2013. For periodic updates to that description, please refer to the Pool Prefix Glossary available on our Web site at www.fanniemae.com. For additional information about the particular pools underlying the Group 1 MBS, Group 2 MBS, Group 5 MBS, Group 6 MBS, Group 7 MBS and Group 8 MBS, see the Final Data Statement for the Trust and the related prospectus supplement for each MBS. See also "Risk Factors—Risks Relating to Yield and Prepayment—Refinancing of Loans; Sale of Property—"Jumbo-conforming" mortgage loans, which have original principal balances that exceed our traditional conforming loan limits, may prepay at different rates than conforming balance mortgage loans generally" in the MBS Prospectus dated March 1, 2013.

Furthermore, the Mortgage Loans backing the Group 9 MBS have been refinanced under Fannie Mae Refi Plus and are designated as "high loan-to-value ratio" loans, with loan-to-value ratios ranging from greater than 105% up to 125% at the time of refinance. These loans are targeted at borrowers who have demonstrated an acceptable payment history on their mortgage loans but may have been unable to refinance due to a decline in home prices or the unavailability of mortgage insurance. Fannie Mae Refi Plus refinancing is available only if the new mortgage loan either reduces the monthly principal and interest payment for the borrower or provides a more stable loan product (such as movement from an adjustable-rate loan to a fixed rate loan). For more information on the Home Affordable Refinance Program, see "The Mortgage Loans—High Loan-to-Value Mortgage Loans" in the MBS Prospectus dated March 1, 2013 and on our Web site at www.fanniemae.com. See also "Risk Factors—Risks Relating to Yield and Prepayment—Refinancing of Loans; Sale of Property—Mortgage loans with loan-to-value ratios greater than 80% may have different prepayment and default characteristics than conforming mortgage loans generally" in the MBS Prospectus dated March 1, 2013.

For additional information, see "Summary—Group 1, Group 2, Group 3, Group 5, Group 6, Group 7, Group 8 and Group 9—Characteristics of the Trust MBS" in this prospectus supplement and "The Mortgage Loan Pools" and "Yield, Maturity and Prepayment Considerations" in the MBS Prospectus.

The Underlying REMIC and RCR Certificates

The Underlying REMIC and RCR Certificates represent beneficial ownership interests in the related Underlying REMIC Trusts. The assets of those trusts consist of MBS (or beneficial ownership interests in MBS) having the general characteristics set forth in the MBS Prospectus. Each MBS evidences beneficial ownership interests in a pool of conventional, fixed-rate, fully-amortizing mortgage loans secured by first mortgages or deeds of trust on single-family residential properties, as described under "The Mortgage Loan Pools" and "Yield, Maturity and Prepayment Considerations" in the MBS Prospectus.

In addition, the Mortgage Loans backing the Group 4 Underlying REMIC Certificate have been refinanced under Fannie Mae Refi Plus and are designated as "high loan-to-value ratio" loans, with loan-to-value ratios ranging from greater than 105% up to 125% at the time of refinance. These loans are targeted at borrowers who have demonstrated an acceptable payment history on their mortgage loans but may have been unable to refinance due to a decline in home prices or the unavailability of mortgage insurance. Fannie Mae Refi Plus refinancing is available only if the new mortgage loan either reduces the monthly principal and interest payment for the borrower or provides a more stable loan product (such as movement from an adjustable-rate loan to a fixed rate loan). For more information on the Home Affordable Refinance Program, see "The Mortgage Loans—High Loan-to-Value Mortgage Loans" in the MBS Prospectus dated March 1, 2013 and on our Web site at www.fanniemae.com. See also "Risk Factors—Risks Relating to Yield and Prepayment—Refinancing of Loans; Sale of Property—Mortgage loans with loan-to-value ratios greater than 80% may have different prepayment and default characteristics than conforming mortgage loans generally" in the MBS Prospectus dated March 1, 2013.

Furthermore, the pools of mortgage loans backing the Group 10 Underlying REMIC and RCR Certificates have been designated as pools that include "jumbo-conforming" or "high balance" mortgage loans as described further under "The Mortgage Loans—Special Feature Mortgage Loans—Loans with Original Principal Balances Exceeding our Traditional Conforming Loan Limits" in the MBS Prospectus dated March 1, 2013. For periodic updates to that description, please refer to the Pool Prefix Glossary available on our Web site at www.fanniemae.com. For additional information about the particular pools underlying the Group 10 Underlying REMIC and RCR Certificates, see the Final Data Statements for the related trusts and the related prospectus supplement for each MBS. See also "Risk Factors—Risks Relating to Yield and Prepayment—Refinancing of Loans; Sale of Property—"Jumbo-conforming" mortgage loans, which have original principal balances that exceed our traditional conforming loan limits, may prepay at different rates than conforming balance mortgage loans generally" in the MBS Prospectus dated March 1, 2013.

Distributions on the Underlying REMIC and RCR Certificates will be passed through monthly, beginning in the month after we issue the Certificates. The general characteristics of the Underlying REMIC and RCR Certificates are described in the related Underlying REMIC Disclosure Documents. See Exhibit A for certain additional information about the Underlying REMIC and RCR Certificates. Exhibit A is provided in lieu of a Final Data Statement with respect to the Underlying REMIC and RCR Certificates.

For further information about the Underlying REMIC and RCR Certificates, telephone us at 1-800-237-8627. Additional information about the Underlying REMIC and RCR Certificates is also available at https://mbsdisclosure.fanniemae.com/PoolTalk2/index.html. There may have been material changes in facts and circumstances since the dates we prepared the Underlying REMIC

Disclosure Documents. These may include changes in prepayment speeds, prevailing interest rates and other economic factors. As a result, the usefulness of the information set forth in those documents may be limited.

Distributions of Interest

General. The Certificates will bear interest at the rates specified in this prospectus supplement. Interest to be paid on each Certificate (or added to principal, in the case of the Accrual Classes) on a Distribution Date will consist of one month's interest on the outstanding balance of that Certificate immediately prior to that Distribution Date. For a description of the Accrual Classes, see "—Accrual Classes" below.

The Floating Rate and Inverse Floating Rate Classes will bear interest at interest rates based on LIBOR. We currently establish LIBOR on the basis of the "BBA Method." See "Additional Risk Factors—In the future we may be unable to establish LIBOR on the basis of the BBA Method" in this prospectus supplement.

Delay Classes and No-Delay Classes. The "Delay" Classes and "No-Delay" Classes are set forth in the following table:

Delay Classes

No-Delay Classes

Fixed Rate Classes

Floating Rate and Inverse Floating Rate Classes

See "Description of the Certificates—Distributions on Certificates— $Interest\ Distributions$ " in the REMIC Prospectus.

Accrual Classes. The PZ, MZ, EZ, GZ, UZ, ZA, QZ, ZB and NZ Classes are Accrual Classes. Interest will accrue on each Accrual Class at the applicable annual rate specified on the cover of this prospectus supplement. However, we will not pay any interest on the Accrual Classes. Instead, interest accrued on each Accrual Class will be added as principal to its principal balance on each Distribution Date. We will pay principal on the Accrual Classes as described under "— Distributions of Principal" below.

Distributions of Principal

On the Distribution Date in each month, we will make payments of principal on the Classes of REMIC Certificates as described below. Following any exchange of REMIC Certificates for RCR Certificates, we will apply principal payments from the exchanged REMIC Certificates to the corresponding RCR Certificates on a pro rata basis.

• Group 1

The PZ Accrual Amount to PV and PW, in that order, until retired, and thereafter to PZ.

Accretion Directed Classes and Accrual Class

The Group 1 Cash Flow Distribution Amount in the following priority:

1. To Aggregate Group I to its Planned Balance.

PAC Group

 $2.\ To\ CF$ and CS, pro rata, until retired.

Support Classes

3. To Aggregate Group I to zero.

PAC Grou

The "PZ Accrual Amount" is any interest then accrued and added to the principal balance of the PZ Class.

The "Group 1 Cash Flow Distribution Amount" is the principal then paid on the Group 1 MBS.

"Aggregate Group I" consists of the PD, PV, PW and PZ Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group I to PD, PV, PW and PZ, in that order, until retired.

Aggregate Group I has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group I.

• Group 2

The MZ Accrual Amount to Aggregate Group II to its Planned Balance, and thereafter to MZ. $\begin{cases} Accrual Amount to Aggregate Group II to its Planned Balance, and Group and Accrual Class \end{cases}$

The Group 2 Cash Flow Distribution Amount in the following priority:

To Aggregate Group II to its Planned Balance.
 To MZ until retired.
 To Aggregate Group II to zero.

PAC Group
PAC Group

The "MZ Accrual Amount" is any interest then accrued and added to the principal balance of the MZ Class.

The "Group 2 Cash Flow Distribution Amount" is the principal then paid on the Group 2 MBS.

"Aggregate Group II" consists of the MD, MG, ME and ML Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group II as follows:

first, to MD, MG and ME, pro rata, until retired; and *second*, to ML until retired.

Aggregate Group II has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group II.

• *Group 3*

The Group 3 Principal Distribution Amount as follows:

-55.555555556% as follows:

first, to Aggregate Group III to its Planned Balance;	PAC Group
second, to FD and SC, pro rata, until retired; and	Support Classes
third, to Aggregate Group III to zero, and	PAC Group
- 44.44444444 to PT until retired.	Pass-Through Class

The "Group 3 Principal Distribution Amount" is the principal then paid on the Group 3 MBS.

"Aggregate Group III" consists of the JE and JM Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group III to JE and JM, in that order, until retired.

Aggregate Group III has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group III.

• Group 4

The Group 4 Principal Distribution Amount in the following priority:

1. To Aggregate Group IV to its Planned Balance.	PAC Group	
2. To KF and KS, pro rata, until retired.	Support Classes	Structured Collateral
3. To Aggregate Group IV to zero.	PAC Group	j

The "Group 4 Principal Distribution Amount" is the principal then paid on the Group 4 Underlying REMIC Certificate.

"Aggregate Group IV" consists of the KD and KL Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group IV to KD and KL, in that order, until retired.

Aggregate Group IV has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group IV.

• Group 5

The EZ Accrual Amount to Aggregate Group V to its Planned Balance, and thereafter to EZ. $\begin{cases} Accrual \ Amount \ to \ Aggregate \ Group \ Accrual \ Class \end{cases}$

The Group 5 Cash Flow Distribution Amount in the following priority:

- To Aggregate Group V to its Planned Balance.
 To EZ until retired.
 Support Class
 To Aggregate Group V to zero.
- The "EZ Accrual Amount" is any interest then accrued and added to the principal balance of the EZ Class.

The "Group 5 Cash Flow Distribution Amount" is the principal then paid on the Group 5 MBS.

"Aggregate Group V" consists of the EA and EM Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group V to EA and EM, in that order, until retired.

Aggregate Group V has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group V.

• Group 6

The GZ Accrual Amount to Aggregate Group VI to its Planned Balance, and thereafter to GZ.

Accretion Directed/PA Group and Accrual Class.

The Group 6 Cash Flow Distribution Amount in the following priority:

To Aggregate Group VI to its Planned Balance.
 To GZ until retired.
 To Aggregate Group VI to zero.

PAC Group
PAC Group

The "GZ Accrual Amount" is any interest then accrued and added to the principal balance of the GZ Class.

The "Group 6 Cash Flow Distribution Amount" is the principal then paid on the Group 6 MBS.

"Aggregate Group VI" consists of the GW, GA and GM Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group VI as follows:

first, to GW and GA, pro rata, until retired; and second, to GM until retired.

Aggregate Group VI has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group VI.

• *Group 7*

The UZ Accrual Amount to UA until retired, and thereafter to UZ.

The ZA Accrual Amount to Aggregate Group VII to its Planned Balance, and Croup and Accrual Class

The Group 7 Cash Flow Distribution Amount in the following priority:

1. To Aggregate Group VII to its Planned Balance.

2. To ZA until retired.

3. To Aggregate Group VII to zero.

Accrual Class

PAC Group

PAC Group

PAC Group

The "UZ Accrual Amount" is any interest then accrued and added to the principal balance of the UZ Class.

The "ZA Accrual Amount" is any interest then accrued and added to the principal balance of the ZA Class.

The "Group 7 Cash Flow Distribution Amount" is the principal then paid on the Group 7 MBS.

"Aggregate Group VII" consists of Aggregate Group VIII and the UA and UZ Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group VII as follows:

first, to Aggregate Group VIII to its Planned Balance; and second, to UA and UZ, in that order, until retired; and third, to Aggregate Group VIII to zero.

Aggregate Group VII has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group VII.

"Aggregate Group VIII" consists of the LD and LM Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group VIII to LD and LM, in that order, until retired.

Aggregate Group VIII has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group VIII.

• Group 8

The QZ Accrual Amount to Aggregate Group IX to its Planned Balance, and thereafter to QZ. $\begin{cases} Accrual \ Class \end{cases}$

The Group 8 Cash Flow Distribution Amount in the following priority:

1. To Aggregate Group IX to its Planned Balance.	} PAC Group
2. To QZ until retired.	$\Bigg\} \ {\bf Support \ Class}$
3. To Aggregate IX to zero.	} PAC Group

The "QZ Accrual Amount" is any interest then accrued and added to the principal balance of the QZ Class.

The "Group 8 Cash Flow Distribution Amount" is the principal then paid on the Group 8 MBS.

"Aggregate Group IX" consists of the QA, QC and QM Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group IX as follows:

```
first, to QA and QC, pro rata, until retired; and second, to QM until retired.
```

Aggregate Group IX has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group IX.

• Group 9

The ZB Accrual Amount to VB until retired, and thereafter to ZB.

The Group 9 Cash Flow Distribution Amount to BA, VB and ZB, in that order, until retired.

Sequential Pay Classes

The "ZB Accrual Amount" is any interest then accrued and added to the principal balance of the ZB Class.

The "Group 9 Cash Flow Distribution Amount" is the principal then paid on the Group 9 MBS.

• Group 10

The NZ Accrual Amount to Aggregate Group X to its Scheduled Balance, and thereafter to NZ. $\begin{cases} \text{Accretion Directed/} \\ \text{Scheduled Group and Accrual Class} \end{cases}$

The Group 10 Cash Flow Distribution Amount in the following priority:

To Aggregate Group X to its Scheduled Balance.
 To NZ until retired.
 Support Class Structured Collateral
 To Aggregate Group X to zero.

The "NZ Accrual Amount" is any interest then accrued and added to the principal balance of the NZ Class.

The "Group 10 Cash Flow Distribution Amount" is the principal then paid on the Group 10 Underlying REMIC and RCR Certificates.

"Aggregate Group X" consists of the NA and NM Classes. On each Distribution Date, we will apply payments of principal of Aggregate Group X to NA and NM, in that order, until retired.

Aggregate Group X has a principal balance equal to the aggregate principal balance of the Classes included in Aggregate Group X.

Structuring Assumptions

Pricing Assumptions. Except where otherwise noted, the information in the tables in this prospectus supplement has been prepared based on the actual characteristics of each pool of Mortgage Loans backing the Underlying REMIC and RCR Certificates, any applicable priority sequences governing principal payments on the Underlying REMIC and RCR Certificates, and the following assumptions (such characteristics and assumptions, collectively, the "Pricing Assumptions"):

- the Mortgage Loans underlying the Trust MBS have the original terms to maturity, remaining terms to maturity, loan ages and interest rates specified under "Summary—Group 1, Group 2, Group 3, Group 5, Group 6, Group 7, Group 8 and Group 9—Assumed Characteristics of the Underlying Mortgage Loans" in this prospectus supplement;
- the Mortgage Loans prepay at the constant percentages of PSA specified in the related tables;
- the settlement date for the Certificates is May 30, 2013; and
- each Distribution Date occurs on the 25th day of a month.

The actual remaining terms to maturity, loan ages and interest rates of most of the mortgage loans underlying the Trust MBS will differ from the assumed characteristics shown in the Summary, and may differ significantly. See "Risk Factors—Risks Relating to Yield and Prepayment—Yield—Yields on and weighted average lives of the certificates are affected by actual characteristics of the mortgage loans backing the series trust assets" in the REMIC Prospectus.

Prepayment Assumptions. The prepayment model used in this prospectus supplement is PSA. For a description of PSA, see "Yield, Maturity and Prepayment Considerations—Prepayment Models" in the REMIC Prospectus. It is highly unlikely that prepayments will occur at any constant PSA rate or at any other constant rate.

Principal Balance Schedules. The Principal Balance Schedules are set forth beginning on page B-1 of this prospectus supplement. The Principal Balance Schedules were prepared based on the Pricing Assumptions and the assumption that the related Mortgage Loans prepay at a constant rate within the applicable "Structuring Ranges" specified in the chart below. The "Effective Range" for an Aggregate Group is the range of prepayment rates (measured by constant PSA rates) that would reduce that Aggregate Group to its scheduled balance each month based on the Pricing Assumptions. We have not provided separate schedules for the individual Classes included in the Aggregate Groups. However, those Classes are designed to receive principal distributions in the same fashion as if separate schedules had been provided (with schedules based on the same underlying assumptions that apply to the related Aggregate Group schedule). If such separate schedules had been provided for the individual Classes included in the Aggregate Groups we expect that the effective ranges for those Classes would not be narrower than those shown below for the related Aggregate Groups.

Groups	Structuring Ranges	Initial Effective Ranges
Aggregate Group I Planned Balances	Between 120% and 250% PSA	Between 120% and 250% PSA
Aggregate Group II Planned Balances	Between 200% and 500% PSA	Between 200% and 500% PSA
Aggregate Group III Planned Balances	Between 125% and 325% PSA	Between 125% and 325% PSA
Aggregate Group IV Planned Balances	Between 125% and 215% PSA	Between 125% and 215% PSA
Aggregate Group V Planned Balances	Between 200% and 500% PSA	Between 200% and 500% PSA
Aggregate Group VI Planned Balances	Between 250% and 475% PSA	Between 250% and 475% PSA
Aggregate Group VII Planned Balances	Between 200% and 300% PSA	Between 200% and 300% PSA
Aggregate Group VIII Planned Balances	Between 125% and 300% PSA	Between 125% and 300% PSA
Aggregate Group IX Planned Balances	Between 200% and 400% PSA	Between 200% and 400% PSA
Aggregate Group X Scheduled Balances	Between 200% and 500% PSA	*

^{*} The Scheduled Balances for Aggregate Group X have been structured between 200% and 500% PSA, but only hold between 200% and 201% PSA and at 500% PSA.

The Aggregate Groups listed above consist of the following Classes:

Aggregate Group I	PD, PV, PW and PZ
Aggregate Group II	MD, MG, ME and ML
Aggregate Group III	JE and JM
Aggregate Group IV	KD and KL
Aggregate Group V	EA and EM
Aggregate Group VI	GW, GA and GM
Aggregate Group VII	Aggregate Group VIII, UA and UZ
Aggregate Group VIII	LD and LM
Aggregate Group IX	QA, QC and QM
Aggregate Group X	NA and NM

See "—Decrement Tables" below for the percentages of original principal balances of the individual Classes included in the Aggregate Groups that would be outstanding at various constant PSA rates, including the upper and lower bands of the applicable Structuring Ranges, based on the Pricing Assumptions.

We cannot assure you that the balance of any Aggregate Group will conform on any Distribution Date to the balance specified in the Principal Balance Schedules or that distributions of principal of any Aggregate Group will begin or end on the Distribution Dates specified in the Principal Balance Schedules.

If you are considering the purchase of a PAC or Scheduled Class, you should first take into account the considerations set forth below.

- We will distribute any excess of principal distributions over the amount necessary to reduce an Aggregate Group to its scheduled balance in any month. As a result, the likelihood of reducing an Aggregate Group to its scheduled balance each month will not be improved by the averaging of high and low principal distributions from month to month.
- Even if the related Mortgage Loans prepay at rates falling within the applicable Structuring Range or Effective Range, principal distributions may be insufficient to reduce the Aggregate Groups to their scheduled balances each month if prepayments do not occur at a *constant* PSA rate.
- The actual Effective Ranges at any time will be based upon the actual characteristics of the related Mortgage Loans at that time, which are likely to vary (and may vary considerably) from the Pricing Assumptions. As a result, the actual Effective Ranges will likely differ from the Initial Effective Ranges specified above. For the same reason, the Aggregate Groups might not be reduced to their scheduled balances each month even if the related Mortgage Loans prepay at a *constant* PSA rate within the applicable Initial Effective Ranges. This is so particularly if the rates fall at the lower or higher end of the applicable ranges.
- The actual Effective Ranges may narrow, widen or shift upward or downward to reflect actual prepayment experience over time.
- The principal payment stability of each Aggregate Group having scheduled balances will be supported by one or more other Classes. When the related supporting Class or Classes are retired, the Aggregate Group receiving the benefit of that support, if still outstanding, may no longer have an Effective Range, and will be much more sensitive to prepayments of the related Mortgage Loans.

Yield Tables

General. The tables below illustrate the sensitivity of the pre-tax corporate bond equivalent yields to maturity of the applicable Classes to various constant percentages of PSA and, where specified, to changes in the Index. **The tables below are provided for illustrative purposes only and are not intended as a forecast or prediction of the actual yields on the applicable Classes.** We calculated the yields set forth in the tables by

- determining the monthly discount rates that, when applied to the assumed streams of cash flows to be paid on the applicable Classes, would cause the discounted present values of the assumed streams of cash flows to equal the assumed aggregate purchase prices of those Classes, and
- converting the monthly rates to corporate bond equivalent rates.

These calculations do not take into account variations in the interest rates at which you could reinvest distributions on the Certificates. Accordingly, these calculations do not illustrate the return on any investment in the Certificates when reinvestment rates are taken into account.

We cannot assure you that

- the pre-tax yields on the applicable Certificates will correspond to any of the pre-tax yields shown here, or
- the aggregate purchase prices of the applicable Certificates will be as assumed.

In addition, it is unlikely that the Index will correspond to the levels shown here. Furthermore, because some of the Mortgage Loans are likely to have remaining terms to maturity shorter or longer than those assumed and interest rates higher or lower than those assumed, the principal payments on

the Certificates are likely to differ from those assumed. This would be the case even if all Mortgage Loans prepay at the indicated constant percentages of PSA. Moreover, it is unlikely that

- the Mortgage Loans will prepay at a constant PSA rate until maturity,
- all of the Mortgage Loans will prepay at the same rate, or
- the level of the Index will remain constant.

The Inverse Floating Rate Classes. The yields on the Inverse Floating Rate Classes will be sensitive in varying degrees to the rate of principal payments, including prepayments, of the related Mortgage Loans and to the level of the Index. The Mortgage Loans generally can be prepaid at any time without penalty. In addition, the rate of principal payments (including prepayments) of the Mortgage Loans is likely to vary, and may vary considerably, from pool to pool. As illustrated in the applicable table below, it is possible that investors in the DS Class would lose money on their initial investments under certain Index and prepayment scenarios.

Changes in the Index may not correspond to changes in prevailing mortgage interest rates. It is possible that lower prevailing mortgage interest rates, which might be expected to result in faster prepayments, could occur while the level of the Index increased.

The information shown in the following yield tables has been prepared on the basis of the Pricing Assumptions and the assumptions that

- the interest rates for the Inverse Floating Rate Classes for the initial Interest Accrual
 Period are the rates listed in the table under "Summary—Interest Rates" in this
 prospectus supplement and for each following Interest Accrual Period will be based on
 the specified levels of the Index, and
- the aggregate purchase prices of those Classes (expressed in each case as a percentage of original principal balance) are as follows:

Class	Price*
CS	96.500%
DS	0.125%
SC	89.500%
KS	91.750%
SD	89.625%

^{*} The prices do not include accrued interest. Accrued interest has been added to the prices in calculating the yields set forth in the tables below.

In the following yield tables, the symbol * is used to represent a yield of less than (99.9)%.

Sensitivity of the CS Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

		PSA Prepayment Assumption						
LIBOR	50%	100%	120%	200%	250%	600%	1000%	1500%
0.1%	6.2%	6.2%	6.3%	6.6%	7.3%	9.4%	11.0%	12.7%
0.2%	6.0%	6.1%	6.1%	6.5%	7.2%	9.2%	10.8%	12.6%
2.2%	2.9%	3.0%	3.0%	3.3%	4.1%	6.2%	7.9%	9.8%
4.0%	0.2%	0.2%	0.2%	0.5%	1.4%	3.6%	5.3%	7.3%

Sensitivity of the DS Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

	PSA Prepayment Assumption							
LIBOR	50%	100%	125%	200%	325%	500%	800%	1100%
4.00% and below	94.5%	94.5%	94.5%	84.4%	62.2%	27.5%	(18.7)%	(55.0)%
4.05%	44.8%	44.7%	44.5%	34.9%	5.4%	(36.0)%	(79.9)%	*
4.10%	*	*	*	*	*	*	*	*

Sensitivity of the SC Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

			PS	SA Prepayment Assumption					
LIBOR	50%	100%	125%	200%	325%	500%	800%	1100%	
0.1%	4.7%	4.8%	4.9%	5.5%	8.6%	11.5%	15.0%	18.0%	
0.2%	4.6%	4.7%	4.8%	5.4%	8.5%	11.4%	14.9%	17.9%	
2.2%	2.4%	2.5%	2.6%	3.2%	6.3%	9.3%	12.7%	15.8%	
4.0% and above	0.5%	0.6%	0.7%	1.2%	4.4%	7.4%	10.9%	13.9%	

Sensitivity of the KS Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

	PSA Prepayment Assumption												
LIBOR	50%	100%	125%	175%	215%	600%	800%						
0.1%	4.5%	4.6%	4.6%	5.4%	8.3%	33.0%	46.9%						
0.2%	4.4%	4.5%	4.5%	5.3%	8.2%	32.9%	46.8%						
2.2%	2.3%	2.3%	2.4%	3.1%	6.1%	31.0%	45.0%						
4.0%	0.4%	0.4%	0.5%	1.2%	4.2%	29.3%	43.5%						

Sensitivity of the SD Class to Prepayments and LIBOR (Pre-Tax Yields to Maturity)

	PSA Prepayment Assumption												
LIBOR	50%	100%	125%	200%	325%	500%	800%	1100%					
0.1%	4.8%	4.9%	5.0%	5.6%	8.6%	11.5%	14.9%	17.9%					
0.2%	4.7%	4.8%	4.9%	5.5%	8.5%	11.4%	14.8%	17.8%					
2.2%	2.5%	2.6%	2.7%	3.3%	6.4%	9.3%	12.7%	15.7%					
4.1%	0.5%	0.6%	0.7%	1.2%	4.3%	7.3%	10.7%	13.7%					

The Fixed Rate Interest Only Classes. The yields to investors in the Fixed Rate Interest Only Classes will be very sensitive to the rate of principal payments (including prepayments) of the related Mortgage Loans. The Mortgage Loans generally can be prepaid at any time without penalty. On the basis of the assumptions described below, the yield to maturity on each Fixed Rate Interest Only Class would be 0% if prepayments of the related Mortgage Loans were to occur at the following constant rates:

Class	% PSA
PI	399%
MI	697%
02	399%
	272%
EI	612%
GI	703%
LI	458%
QI	656%
NI	741%

For any Fixed Rate Interest Only Class, if the actual prepayment rate of the related Mortgage Loans were to exceed the level specified for as little as one month while equaling that level for the remaining months, the investors in the applicable Class would lose money on their initial investments.

The information shown in the following yield tables has been prepared on the basis of the Pricing Assumptions and the assumption that the aggregate purchase prices of the Fixed Rate Interest Only Classes (expressed in each case as a percentage of the original principal balance) are as follows:

Class	Price*
PI	10.750%
MI	10.625%
Л	
KI	
EI	
GI	
LI	12.000%
QI	
NI	9.875%

^{*} The prices do not include accrued interest. Accrued interest has been added to the prices in calculating the yields set forth in the tables below.

In the following yield tables, the symbol * is used to represent a yield of less than (99.9)%.

Sensitivity of the PI Class to Prepayments

	PSA Prepayment Assumption											
	50%	100%	120%	200%	250%	600%	1000%	1500%				
Pre-Tax Yields to Maturity	18.9%	12.5%	9.8%	9.8%	9.8%	(16.1)%	(45.3)%	(74.0)%				

Sensitivity of the MI Class to Prepayments

Weighted Average Lives of the Certificates

For a description of how the weighted average life of a Certificate is determined, see "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

In general, the weighted average lives of the Certificates will be shortened if the level of prepayments of principal of the related Mortgage Loans increases. However, the weighted average lives will depend upon a variety of other factors, including

- the timing of changes in the rate of principal distributions,
- the priority sequences of distributions of principal of the Classes, and
- in the case of the Group 10 Classes, the applicable priority sequences affecting principal payments on the related Underlying REMIC and RCR Certificates.

See "—Distributions of Principal" above and "Description of the Certificates—Distributions of Principal" in the applicable Underlying REMIC Disclosure Documents.

The effect of these factors may differ as to various Classes and the effects on any Class may vary at different times during the life of that Class. Accordingly, we can give no assurance as to the weighted average life of any Class. Further, to the extent the prices of the Certificates represent discounts or premiums to their original principal balances, variability in the weighted average lives of those Classes of Certificates could result in variability in the related yields to maturity. For an example of how the weighted average lives of the Classes may be affected at various constant prepayment rates, see the Decrement Tables below.

Decrement Tables

The following tables indicate the percentages of original principal balances of the specified Classes that would be outstanding after each date shown at various constant PSA rates, and the corresponding weighted average lives of those Classes. The tables have been prepared on the basis of the Pricing Assumptions.

In the case of the information set forth for each Class under 0% PSA, however, we assumed that the Mortgage Loans have the original and remaining terms to maturity and bear interest at the annual rates specified in the table below.

Mortgage Loans Backing Trust Assets Specified Below	Original Terms to <u>Maturity</u>	Remaining Terms to Maturity	Interest Rates
Group 1 MBS	360 months	360 months	5.50%
Group 2 MBS	360 months	360 months	7.00%
Group 3 MBS	360 months	360 months	6.00%
Group 4 Underlying REMIC Certificate	360 months	340 months	7.00%
Group 5 MBS	360 months	360 months	6.50%
Group 6 MBS	360 months	360 months	7.50%
Group 7 MBS	360 months	360 months	5.50%
Group 8 MBS	360 months	360 months	6.50%
Group 9 MBS	360 months	360 months	5.50%
Group 10 Underlying REMIC and RCR Certificates	360 months	(1)	6.50%

⁽¹⁾ The Mortgage Loans backing the Group 10 Underlying REMIC and RCR Certificates listed below are assumed to have the following remaining terms to maturity:

2011-6-PH	332 months
2011-8-GK	332 months
2011-36-PA	335 months
2011-58-H	337 months
2011-118-AB	341 months
2011-134-PA	342 months
2011-141-PV	343 months
2012-6-MA	344 months
2012-16-K	345 months

It is unlikely that all of the Mortgage Loans will have the loan ages, interest rates or remaining terms to maturity assumed, or that the Mortgage Loans will prepay at any *constant* PSA level.

In addition, the diverse remaining terms to maturity of the Mortgage Loans could produce slower or faster principal distributions than indicated in the tables at the specified constant PSA rates, even if the weighted average remaining term to maturity and the weighted average loan age of the Mortgage Loans are identical to the weighted averages specified in the Pricing Assumptions. This is the case because pools of loans with identical weighted averages are nonetheless likely to reflect differing dispersions of the related characteristics.

* Indicates an outstanding balance greater than 0% and less than 0.5% of the original principal balance.

** Determined as specified under "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

† In the case of a Notional Class, the Decrement Table indicates the percentage of the original notional principal balance outstanding.

Characteristics of the Residual Classes

A Residual Certificate will be subject to certain transfer restrictions. See "Description of the Certificates—Special Characteristics of the Residual Certificates" and "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus.

Treasury Department regulations (the "Regulations") provide that a transfer of a "noneconomic residual interest" will be disregarded for all federal tax purposes unless no significant purpose of the transfer is to impede the assessment or collection of tax. A Residual Certificate will constitute a noneconomic residual interest under the Regulations. Having a significant purpose to impede the assessment or collection of tax means that the transferor of a Residual Certificate had "improper knowledge" at the time of the transfer. See "Description of the Certificates—Special Characteristics of the Residual Certificates" in the REMIC Prospectus. You should consult your own tax advisor regarding the application of the Regulations to a transfer of a Residual Certificate.

CERTAIN ADDITIONAL FEDERAL INCOME TAX CONSEQUENCES

The Certificates and payments on the Certificates are not generally exempt from taxation. Therefore, you should consider the tax consequences of holding a Certificate before you acquire one. The following tax discussion supplements the discussion under the caption "Material Federal Income Tax Consequences" in the REMIC Prospectus. When read together, the two discussions describe the current federal income tax treatment of beneficial owners of Certificates. These two tax discussions do not purport to deal with all federal tax consequences applicable to all categories of beneficial owners, some of which may be subject to special rules. In addition, these discussions may not apply to your particular circumstances for one of the reasons explained in the REMIC Prospectus. You should consult your own tax advisors regarding the federal income tax consequences of holding and disposing of Certificates as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

U.S. Treasury Circular 230 Notice

The tax discussions contained in the REMIC Prospectus (including the sections entitled "Material Federal Income Tax Consequences" and "ERISA Considerations") and this prospectus supplement were not intended or written to be used, and cannot be used, for the purpose of avoiding United States federal tax penalties. These discussions were written to support the promotion or marketing of the transactions or matters addressed in this prospectus supplement. You should seek advice based on your particular circumstances from an independent tax advisor.

REMIC Elections and Special Tax Attributes

We will make a REMIC election with respect to each REMIC set forth in the table under "Description of the Certificates—General—Structure." The Regular Classes will be designated as "regular interests" and the Residual Classes will be designated as the "residual interests" in the REMICs as set forth in that table. Thus, the REMIC Certificates and any related RCR Certificates generally will be treated as "regular or residual interests in a REMIC" for domestic building and loan associations, as "real estate assets" for real estate investment trusts, and, except for the Residual Classes, as "qualified mortgages" for other REMICs. See "Material Federal Income Tax Consequences—REMIC Election and Special Tax Attributes" in the REMIC Prospectus.

Notwithstanding the foregoing, the Mortgage Loans underlying the Group 9 MBS and the Mortgage Loans backing the Group 4 Underlying REMIC Certificate, have loan-to-value ratios at origination ranging from greater than 105% up to 125%. See "Description of the Certificates—The Trust MBS" and "—The Underlying REMIC and RCR Certificates" in this prospectus supplement. A portion of the Group 4 and Group 9 Classes may not be treated as "real estate assets" within the

meaning of section 856(c)(5)(B) of the Code. See "Material Federal Income Tax Consequences—Special Tax Attributes" in the MBS Prospectus dated March 1, 2013. Accordingly, special tax considerations may apply to a real estate investment trust that holds a REMIC Certificate of a Group 4 or Group 9 Class, and we may be obligated to provide additional information, pursuant to Regulations under section 6049 of the Code, on such Classes. See "Material Federal Income Tax Consequences—REMIC Election and Special Tax Attributes" in the REMIC Prospectus.

Taxation of Beneficial Owners of Regular Certificates

The Accrual Classes, the Notional Classes and the ML, JM, SC and QM Classes will be issued with original issue discount ("OID"), and certain other Classes of REMIC Certificates may be issued with OID. If a Class is issued with OID, a beneficial owner of a Certificate of that Class generally must recognize some taxable income in advance of the receipt of the cash attributable to that income. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Treatment of Original Issue Discount" in the REMIC Prospectus. In addition, the PT Class will be treated as having been issued at a premium, and certain other Classes of REMIC Certificates may be treated as having been issued at a premium. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—Regular Certificates Purchased at a Premium" in the REMIC Prospectus.

The Prepayment Assumptions that will be used in determining the rate of accrual of OID will be as follows:

Group	Prepayment Assumption
1	200% PSA
2	$250\%~\mathrm{PSA}$
3	200% PSA
4	175% PSA
5	$250\%~\mathrm{PSA}$
6	300% PSA
7	$250\%~\mathrm{PSA}$
8	$250\%~\mathrm{PSA}$
9	175% PSA
10	250% PSA

See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Regular Certificates—*Treatment of Original Issue Discount*" in the REMIC Prospectus. No representation is made as to whether the Mortgage Loans underlying the MBS will prepay at any of those rates or any other rate. See "Description of the Certificates—Weighted Average Lives of the Certificates" in this prospectus supplement and "Yield, Maturity and Prepayment Considerations—Weighted Average Lives and Final Distribution Dates" in the REMIC Prospectus.

Taxation of Beneficial Owners of Residual Certificates

The Holder of a Residual Certificate will be considered to be the holder of the "residual interest" in the related REMIC. Such Holder generally will be required to report its daily portion of the taxable income or net loss of the REMIC to which that Certificate relates. In certain periods, a Holder of a Residual Certificate may be required to recognize taxable income without being entitled to receive a corresponding amount of cash. Pursuant to the Trust Agreement, we will be obligated to provide to the Holder of a Residual Certificate (i) information necessary to enable it to prepare its federal income tax returns and (ii) any reports regarding the Residual Class that may be required under the Code. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of Residual Certificates" in the REMIC Prospectus.

Taxation of Beneficial Owners of RCR Certificates

The RCR Classes will be created, sold and administered pursuant to an arrangement that will be classified as a grantor trust under subpart E, part I of subchapter J of the Code. The Regular Certificates that are exchanged for RCR Certificates set forth in Schedule 1 (including any exchanges effective on the Settlement Date) will be the assets of the trust, and the RCR Certificates will represent an ownership interest of the underlying Regular Certificates. For a general discussion of the federal income tax treatment of beneficial owners of Regular Certificates, see "Material Federal Income Tax Consequences" in the REMIC Prospectus.

Generally, the ownership interest represented by an RCR certificate will be one of two types. A certificate of a Combination RCR Class (a "Combination RCR Certificate") will represent beneficial ownership of undivided interests in one or more underlying Regular Certificates. A certificate of a Strip RCR Class (a "Strip RCR Certificate") will represent the right to receive a disproportionate part of the principal or interest payments on one or more underlying Regular Certificates. All of the RCR Certificates are Combination RCR Certificates. See "Material Federal Income Tax Consequences—Taxation of Beneficial Owners of RCR Certificates" in the REMIC Prospectus for a general discussion of the federal income tax treatment of beneficial owners of RCR Certificates.

PLAN OF DISTRIBUTION

We are obligated to deliver the Certificates to Nomura Securities International, Inc. (the "Dealer") in exchange for the Trust MBS and the Underlying REMIC and RCR Certificates. The Dealer proposes to offer the Certificates directly to the public from time to time in negotiated transactions at varying prices to be determined at the time of sale. The Dealer may effect these transactions to or through other dealers.

LEGAL MATTERS

Katten Muchin Rosenman LLP will provide legal representation for Fannie Mae. Cleary Gottlieb Steen & Hamilton LLP will provide legal representation for the Dealer.

Note: For any pool of Mortgage Loans backing an underlying REMIC or RCR certificate, if a preliminary calculation indicated that the sum of the WAM and WALA for that pool exceeded the longest original term to maturity of any Mortgage Loan in the pool, the WALA used in determining the information shown in the related table was reduced as necessary to insure that the sum of the WAM and WALA does not exceed such original term to maturity.

⁽¹⁾ REMIC Certificates and RCR Certificates in each Recombination may be exchanged only in the proportions of original principal or notional principal balances for the related Classes shown in this Schedule 1 (disregarding any retired Classes). For example, if a particular Recombination includes two REMIC Classes and one RCR Class whose original principal balances shown in the schedule reflect a 1:1:2 relationship, it a particular Recombination includes two REMIC Classes and one RCR Class whose original principal balances shown in the schedule reflect a 1:1:2 relationship he same 1:1:2 relationship among the original principal balances of those REMIC and RCR Classes must be maintained in any exchange. This is true even if, as a result of the applicable payment priority sequence, the relationship between their current principal balances has changed over time. Moreover, if as a result of a proposed exchange, a Certificateholder would hold a REMIC Certificate or RCR Certificate of a Class in an amount less than the applicable minimum denomination for that Class, the Certificateholder will be unable to effect the proposed exchange. See "Description of the Certificates—General—Authorized Denominations" in this prospectus supplement.

(2) See "Description of the Certificates—Class Definitions and Abbreviations" in the REMIC Prospectus.

(3) Principal payments on the REMIC Certificates in Recombination 1 from the PZ Accrual Amount will be paid as interest on the related RCR Certificates and thus will approach to principal hadrenge for these RCR Certificates.

(4) Notional principal balances. These Classes are Interest Only Classes. See page S-6 for a description of how their notional principal balances are calculated. (5) For a description of these interest rates, see "Summary—Interest Rates" in this prospectus supplement.

(6) Principal payments on the REMIC Certificates in Recombination 19 from the ZB Accrual Amount will be paid as interest on the related RCR Certificates, and thus will not reduce the principal balances of those RCR Certificates.

not reduce the principal balances of those RCR Certificates.

No one is authorized to give information or to make representations in connection with the Certificates other than the information and representations contained in or incorporated into this Prospectus Supplement and the additional Disclosure Documents. We take no responsibility for any unauthorized information or representation. This Prospectus Supplement and the additional Disclosure Documents do not constitute an offer or solicitation with regard to the Certificates if it is illegal to make such an offer or solicitation to you under state law. By delivering this Prospectus Supplement and the additional Disclosure Documents at any time, no one implies that the information contained herein or therein is correct after the date hereof or thereof.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved the Certificates or determined if this Prospectus Supplement is truthful and complete. Any representation to the contrary is a criminal offense.
